F. Water System Update

10. Properties & Recreation Committee Report

A. Village Hall HVAC Controls RFB Recommendation (Report only)

B. 2025 Grand Avenue Community Center Flooring Replacement RFB Recommendation (Report only)

11. Public Health & Safety Committee Report

A. 2024 Cook County Multi-Jurisdictional Hazard Mitigation Plan (Omnibus Item)

12. Consideration of and Action on Agenda Items

13. Explanation of Omnibus Voting Procedure

The Illinois State Statutes allow a municipality to collectively vote on a group of ordinances, resolutions, and other motions, such as awards of contract, appointments, etc. This is known as an omnibus vote. All the items contained on the omnibus vote list have been previously discussed by the President and Board of Trustees on at least one occasion, and often on several occasions. By placing them on the omnibus vote list, a single vote may be taken to approve them. A Trustee may remove any item from the list and have it discussed and voted on separately, prior to the omnibus vote. Is there any such request?

14. Consideration of an Omnibus Vote

A. A motion to approve the Remediation Agreement between the Village of Western Springs and Homeowners Doug King and Natalie King with regards to certain sump pump improvements and water discharge.

B. A motion to approve the Gilbert Avenue Resurfacing Design Engineering - MFT Resolution Form BLR 09110A.

C. A motion to approve the January 13, 2025 and January 27, 2025 Board of Trustees meeting minutes as read.

D. Resolution No. 25-2866

A Resolution approving a plat of abrogation for public sidewalk easement (address: 4300 Franklin Avenue, Western Springs, Illinois) and approving the termination of letter of agreement for construction and maintenance of a public sidewalk and abrogation of easement for a public sidewalk to allow for the removal of the public sidewalk and public parking spaces within the 43rd Street right-of way adjacent to Lot 1 and Lot 9 in the Field Park Subdivision, Western Springs, Illinois.

F. Resolution No. 25-2867

A Resolution authorizing the approval and execution of an assignment, assumption and consent agreement for the removal of a public sidewalk and certain public parking spaces, installation of a new public sidewalk and restoration of 43rd Street right-of-way at the 4300 Howard Avenue property in the Village of Western Springs (Lots 1, 8 and 9 in Field Park Subdivision) and a related redevelopment agreement to be entered into by and between the Village of Western Springs, Illinois and 4300 Franklin Western Springs LLC to allow for the completion of such work.

G. Resolution No. 25-2876
A Resolution approving and authorizing the execution of a Billing Services Agreement and Business Associate Addendum with EMS Management & Consultants, Inc. of Winston-Salem, North Carolina for the provision of emergency medical services billing and collection services.

H. Resolution No. 25-2877
A resolution authorizing the acceptance and approval of the downtown Western Springs Market Assessment dated February 10, 2025 and prepared by Teska Associates, Inc. for the Village of Western Springs.

I. Resolution No. 25-2880
A Resolution approving and authorizing the execution of a local public agency engineering services agreement (IDOT form BLR 05530) between the Village of Western Springs and Christopher B. Burke Engineering, Ltd. for the performance of phase II design and phase III construction engineering services relating to the 2025 Motor Fuel Tax (MFT) asphalt roadway resurfacing project (45th Street between Gilbert Avenue and Wolf Road) (not-to-exceed engineer's fee: $84,850.00)

J. Resolution No. 25-2881
A Resolution authorizing the adoption of the update of the 2024 Cook County Multi-Jurisdictional Hazard Mitigation Plan.

K. Resolution No. 25-2882

L. A Resolution approving and authorizing the execution of a local public agency engineering services agreement (IDOT Form BLR 05530) between the Village of Western Springs and Baxter and Woodman Ltd. for the performance of phase I design engineering services relating to the Gilbert Avenue resurfacing project (not-to-exceed engineer's fee: $110,000)

M. Ordinance No. 25-3236
An Ordinance rescinding and repealing the Board of Trustees' approval of Ordinance no. 18-2934 (an Ordinance approving a conditional use permit for the installation and operation of an early childhood education center at the 4300 Howard Avenue property) to facilitate the demolition of a church building and removal of a public sidewalk and on-street public parking spaces, abrogation of a public sidewalk easement, installation of a new public sidewalk and restoration of 43rd street right-of-way in the Village of Western Springs, Illinois (Lots 1, 8 and 9 in Field Park Subdivision)

N. Ordinance No. 25-3245
An Ordinance approving budget amendments / transfer $10,000.00 to the fiscal year 2025 operating budget in the Recreation Fund.

O. Ordinance No. 25-3246
An Ordinance approving budget amendments / transfer $10,000.00 to the fiscal year 2025 operating budget in the General Fund.

15. Second to Omnibus Motion/Discussion of Omnibus Motion/Roll Call Vote

16. New Business

17. Old Business

Resolution No. 25-2878
A Resolution approving a waiver of the five (5) acre minimum land area requirement under section 10-8-3 (guidelines) of the Western Springs Village Code and the reduction of certain planned development submission materials under section 10-8-8 (submittal requirements) of the Western Springs Village Code as requested by applicant / contract purchaser McNaughton Development, LLC for approval of a conditional use for a planned development to construct the proposed 29 unit Heritage Crossing townhome development at the property commonly known as 5600 South Wolf Road, Western Springs, Illinois.

Second the Motion.
Roll call vote.

Ordinance No. 25-3239
An Ordinance approving and adopting an updated long range land use map to the Western Springs Official Comprehensive Land Use Plan for purposes of reclassifying the zoning designation of the 5600 South Wolf Road property, Western Springs, Illinois from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District to allow for the construction the proposed heritage crossing townhome development by applicant / contract purchaser McNaughton Development, LLC.

Second the Motion.
Roll call vote.

Ordinance No. 25-3240
An Ordinance approving a map amendment to rezone the 5600 South Wolf Road property, Western Springs, Illinois, from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District; approving an application for a conditional use permit for a planned development for the construction and operation of the proposed 29 unit Heritage Crossing townhome development located at the 5600 South Wolf Road property, including the approval of the combined preliminary / final development plans, subject to Village plan review process, and approval of certain development allowances, exceptions and variations from the Village zoning regulations, including a waiver of the five (5) acre minimum lot area requirement and a reduction of certain planned development submission requirements.

Second the Motion.
Roll call vote.

Ordinance No. 25-3241
An Ordinance approving and authorizing the vacation of the 66.00 feet by 225.00 feet portion of the Lawn Avenue right-of-way adjacent to and west of the 5600 South Wolf Road property located in Western Springs, Illinois and Lot 5 and lot 6 of Maxted Subdivision, and approving a plat of vacation and reservation of a stormwater drainage easement (Applicant: McNaughton Development, LLC)

Second the Motion.
Roll call vote.

Ordinance No. 25-3242
An Ordinance authorizing the approval and execution of a plat of abrogation for storm sewer easement and public utility easement located within the property commonly known as 5600 South Wolf Road, Western Springs, Illinois for the construction of the proposed 29 unit Heritage Crossing townhome development by applicant / contract purchaser McNaughton Development, LLC.

Second the Motion.
Roll call vote.

Ordinance No. 25-3243
An Ordinance authorizing the approval and execution of a final plat of Heritage Crossing Resubdivision for the proposed 29 unit Heritage Crossing townhome development to be constructed at 5600 South Wolf Road, Western Springs, Illinois by applicant / contract purchaser McNaughton Development, LLC.

Second the Motion.
Roll call vote.

Resolution No. 25-2879
A Resolution authorizing the approval and execution of redevelopment and maintenance agreement by and between the Village of Western Springs, Illinois and McNaughton Development, LLC for the Heritage Crossing residential townhome development (5600 South Wolf Road, Western Springs, Illinois)

Second the Motion.
Roll call vote.

Ordinance No. 25-3244
An Ordinance approving a minor amendment to the conditional use permit for a planned development issued for the Western Springs townhomes subdivision (the “Heritage Springs Subdivision”) located south of 55th Street and west of Wolf Road in Western Springs, Illinois relative to construction of on-street parking spaces within Heritage Court.

Second the Motion.
Roll call vote.

18. Reports

A. Monthly Financial Report (Trustee Chen)

B. Village President Rudolph

C. Village Manager Baer

D. Village Attorney Jurusik

19. Closed Meeting

Recess and adjourn to closed meeting for the purpose of discussion of:

- The setting of a price for sale or lease of property owned by the Village pursuant to 5 ILCS 120/2 (c)(6);
- Pending litigation pursuant to 5 ILCS 120/2 (c)(11); and
- Probably and Imminent Litigation pursuant to 5 ILCS 120/2 (c)(11).

20. Adjournment

Individuals with disabilities who plan to attend / participate in this meeting and who require accommodations to allow them to observe and participate, or who have questions regarding accessibility of the meeting or facilities, are requested to contact Jill Izzo at 708-246-1800, extension 127.

Jill Izzo, Deputy Village Clerk

ROLL CALL

CITIZEN COMMENTS

None.

DRAFT

APPROVAL OF MEETING MINUTES

President Rudolph stated that a motion to approve both the December 2, 2024 and December 16, 2024 Board of Trustees meeting minutes would be brought tonight under New Business.

GENERAL GOVERNMENT COMMITTEE REPORT

Trustee Tyrrell reported on the proposed contract extension with MGT Impact Solutions, LLC, which provides human resources services through project manager, Stephana Przybylski. Ms. Przybylski manages certain recruitments, employee training and special projects on behalf of the Village.

Trustee Tyrrell reported that Deputy Village Clerk, Jill Izzo, was recommended to be the Alternate to our Intergovernmental Risk Management Agency (IRMA) and Casey Biernacki will remain the Delegate.

Trustee Tyrrell reported on the DuPage Mayors and Managers Conference (DMMC) Legislative Action Program and discussed DMMC's legislative priorities and their proposed resolution to be considered by members of DMMC Trustee Tyrrell stated that the Village supports the DMMC's legislative priorities.

FINANCE COMMITTEE REPORT

No report.

PLANNING AND ZONING COMMITTEE REPORT

Trustee Nawrocki reported on the comprehensive plan amendment to the long-range land use map and an amendment to the Village zoning map at 917 Lawn Court. Senior Planner, Kelsey Fawell reported that the property owners are seeking an amendment from its current zoning of R4 - Multi-family Residential District to A - Single-Family Residential District in order to construct a single-family home.

Trustee Nawrocki reported that the First United Methodist Church ("FUMC") and Hinsdale First United Methodist Church have merged. As a result of the First United Methodist Church is selling their property. FUMC has a pending real estate contract with a purchaser that intends to develop the property for single-family homes. On behalf of Hinsdale United Methodist Church, Zed Francis gave a history of the property.

DRAFT

Trustee Nawrocki introduced the Downtown Western Springs Market Assessment Update and consultants from Teska provided a presentation of the market study findings.

Trustee Nawrocki introduced Director Valone to provide a report on McNaughton Development's plans for the proposed development of townhomes at 5600 Wolf Road. Director Valone presented information on the proposed development which included what actions have been taken by the applicant, the Plan Commission's reviews, and the current site design.

Trustee Nawrocki reported on the V3 Engineering Services Agreement for the Timber Trails Subdivision Development and the Committee's recommendation to approve the agreement for construction observation and closeout services.

Trustee Nawrocki reported that the Committee reviewed and recommended approval of Amendment No. 2 of the Baxter & Woodman ("B&W) Consulting Engineers Agreement for the Heritage Crossing stormwater modeling and management. Trustee Nawrocki reported that the fee for the Agreement and Amendment No. 1 has been fully expended. Trustee Nawrocki stated that Amendment No. 2 allows the Village to utilize B&W's services as needed, as the review process has required more reviews than originally contemplated. The Village will initially pay the B&W for services completed, but all costs incurred are then billed by the Village to the developer.

PUBLIC WORKS & WATER COMMITTEE REPORT

Trust Fink reported the 2022 grant received from the West Central Municipal Conference Surface Transportation Program will cover 80% of construction and construction engineering for the resurfacing of Gilbert Avenue from Odgen Ave. to 47th Street. The Village shares jurisdiction of Gilbert Avenue with the Village of La Grange, as such, costs associated with this local match will be split 50-50 between the two Villages. The Village also received funding for design engineering services from a grant from the Cook County Department of Transportation and Highways ("CCDOTH"). An intergovernmental agreement ("IGA") is needed to define each Village's responsibility for the design engineering phase of the project. Trustee Fink stated the Committee reviewed and recommended approval of the IGA with the Village of La Grange and an agreement with Baxter & Woodman for design engineering services.

Trustee Fink report that in 2017 Well #3 pump and motor were pulled from service. It was determined in 2017 that the motor would not be repaired. Due to the fact that it has mercury seal it will cost $25,662.00 to properly to decommission the Well #3 motor.

DRAFT

Trustee Fink indicated that the Committee recommended that motor be declared surplus property and recommends Layne to properly decommission the motor to comply with IEPA standards.

Trustee Fink reported that Committee reviewed and recommends the surplus declaration of water meters from Well 3 and Well 4 that were replaced in the Fall of 2024.

Trustee Fink reported that Committee reviewed and recommends the purchase of water meters and accessories from Water Resources, Inc.

Trustee Fink reported that the Committee recommends the approval of the following contract renewals: National Power Rodding for sewer televising and cleaning services; and Murphy Construction Services, LLC for the Sidewalk Shaving Program.

Trustee Fink reported that the Committee reviewed and recommends the approval of a three-year Software Services Agreement with Brightly Asset Essentials.

PROPERTIES & RECREATION COMMITTEE REPORT

Trustee Avakian reported that the Committee reviewed and recommends the approval of the following contract renewals: Vega Building Maintenance, Inc. for custodial services; The YMI Group, Inc. for HVAC maintenance services; Winkler Tree and Lawn Care for tree trimming services; Beary Landscape Management, LLC for landscape services; and Desiderio Landscaping & Tree Removal LLC for tree removal services.

Trustee Avakian reported that the Recreation Department has several successful events. Trustee Avakian also mentioned that basketball leagues registration numbers have gone up and that the Recreation Center Playground surfacing project is complete and looks great.

PUBLIC HEALTH & SAFETY COMMITTEE REPORT

Trustee Lewis reported that a grant was received to develop the Safe Routes to School Village-Wide Travel Plan. Trustee Lewis indicated improvements will include sidewalk installation and reconfiguration, intersection safety improvements, bike safety and drop-off improvements. Village staff recommended and the Committee concurred that the Village should enter into an agreement with Epstein for this project.

DRAFT

Trustee Lewis reported that a grant was received from the Illinois Department of Commerce and Economic Opportunity for the purchase of a new ambulance to replace a 2008 model. A specifications committee was formed consisting of Municipal Fleet Services and Fire & EMS staff to research manufacturers and their products. The committee recommends the purchase of the ambulance from Foster Coach Sales, Inc. through the Suburban Purchasing Cooperative (SPC) and the Public Health and Safety Committee agreed with the recommendation. Trustee Lewis indicated it will take three years for the ambulance to be built due to ongoing supply chain issues.

Trustee Lewis indicated that the Committee reviewed and recommends license plate reader agreements to allow the Village to install license plate reader equipment and poles to monitor traffic on Wolf Road and 47th Street. This would require agreements with the Timber Trails Homeowners Association and Lyons Township High School District 204 as LPR equipment poles would be installed there with one pole located on each of these organization's properties.

NEW BUSINESS

Manager Baer introduced a Proclamation congratulating the Village of Riverside on the Sesquicentennial Anniversary and celebrating the unique history of Riverside and their collaborative relationship with Western Springs.

Trustee Tyrrell motioned to accept the Proclamation, seconded by Trustee Nawrocki.
Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

Trustee Tyrrell made a motion to approve the DMMC Mayors and Managers Conference 2025 Legislative Action Program Resolution, seconded by Trustee Nawrocki.
Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

Trustee Tyrrell made a motion to approve the December 2, 2024 and December 16, 2024 Board of Trustees meeting minutes as read, seconded by Trustee Nawrocki.
Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

DRAFT

OLD BUSINESS

Resolution No. 24-2864
A Resolution authorizing the approval and execution of a cloud services agreement between the Village of Western Springs and Brightly Software, Inc. for a Government Cloud-Based License, subscription and use of Asset Essentials Enterprise to allow the Village to operate its work order management, asset management, fleet and safety programs. (Contract Term 36 Months).

Trustee Fink made a motion to approve Resolution No 24-2864, second by Trustee Avakian. Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

REPORTS

Monthly Financial Report (Trustee Chen)

No report.

Village President Rudolph

President Rudolph stated that she wanted to encourage everyone to check the Village website for information on the 2025 Referendum. President Rudolph indicated that the Village website is a great resource for information and continues to be updated by staff. President Rudolph also wanted to call out the property tax calculator found on the website, as a helpful tool to assist residents in determining the impact of the referendum on their property tax.

Village Manager Baer
Village Manager Baer discussed several dates that the Village will be hosting both virtual and in-person open houses to provide information on the upcoming referendum.

Village Manager Baer reminded residents that the Village is in the last week of Christmas tree collection.

Village Manager Baer also stated the holiday light recycling program will run through January 31, 2025.

Village Attorney Jurusik

DRAFT

No report.

ADJOURNMENT
Trustee Tyrrell made a motion to adjourn, seconded by Trustee Nawrocki. Motion passed on a voice vote. Meeting was adjourned at 8:33 p.m.

Respectfully submitted,

Jill Izzo

Deputy Village Clerk

ROLL CALL

CITIZEN COMMENTS

President Rudolph advised that there will be separate public comment for the 5600 Wolf Road development.

DRAFT

No citizen comments were made at this time.

COMMISSION REAPPOINTMENTS
President Rudolph acknowledged the reappointments of both Martin Healy and Winifred Lyday to the Recreation Commission and stated the items will be considered for approval under New Business.

GENERAL GOVERNMENT COMMITTEE REPORT

Trustee Tyrrell indicated that the previously discussed Employee Leasing Agreement with MGT Impact Solutions, LLC and the IRMA Alternate Delegate Resolution will be on tonight's omnibus.

FINANCE COMMITTEE REPORT
No report.

PLANNING AND ZONING COMMITTEE REPORT

Trustee Nawrocki reported that the Downtown Western Springs Market Assessment Update was discussed at the last meeting and that Director Valone and Teska representatives were present tonight for any questions. There were no questions or comments, and Director Valone indicated that the item will be on the agenda for formal acceptance at the February 10, 2025 Board of Trustees meeting.

Trustee Nawrocki reported that the 5600 Wolf Road, McNaughton Development, LLC project was discussed at the last meeting and introduced Director Valone to provide additional information on the project. Director Valone introduced, John Beary with McNaughton Development, LLC, who provided an update on the proposed plans for the development. There were no questions at the time. Director Valone then presented information on the proposed development. Following Director Valone's presentation and discussion with the Trustees, the meeting opened to citizen comments on the item.

CITIZEN COMMENTS – 5600 WOLF RD., MCNAUGHTON DEVELOPMENT, LLC

Resident George Rogers provided comments regarding the proposed development including his concerns for flooding and parking.

Resident Berry Allen provided his comments regarding the proposed development including his concerns for the development's proposed variances, as well as density and flooding.

DRAFT

Resident Debroah David provided comments regarding the proposed development including flooding, parking and her concern for maintaining the charm of the Western Springs.

Resident Anthony J. Perino provided comments regarding his concerns for the proposed development including flooding, density due to the square footage of the proposed units, as well as the stairs in the units that are not suitable for empty nesters. Mr. Perino also commented on his concern for the construction methods and aesthetics. Mr. Perino stated he prefers less density and is concerned about potential stormwater issues.

Resident Rachel (last name inaudible) provided comments regarding her concerns for the construction disruption and traffic. She expressed her concern for safety of young children and other pedestrians during construction. She commented that young families would be interested in the units of the proposed development and believes there would be a lot of cars coming in and out of the development.

Director Valone indicated that the draft development agreement contains provisions that construction traffic is only permitted on site. Attorney Jurusik further stated the developer would not be allowed to have any its contractors, etc. to park in Ridgewood and parking must be contained within the development.

Director Koza provided information regarding a planned study that was requested by the Village to determine a plan forward regarding stormwater that comes down from La Grange Highlands. Director Koza further stated that Ridgewood stormwater project is currently being engineered to address flooding on Ridgewood Drive.

Resident George Rogers provided additional comments regarding his flooding concerns and the need to increase retention.

Resident Laura Jost provided comments regarding her disapproval of the proposed development and her concerns for flooding and safety of children walking to school. Ms. Jost expressed her appreciation for the Board listening to public opinion.

Resident Erin Miller commented on the potential increase in traffic its effect on the safety of young children and pedestrians walking and crossing Wolf Road. Ms. Miller also expressed her concern for construction traffic and the safety of young children commuting.

DRAFT

CLOSE PUBLIC COMMENT

RESUME PLANNING AND ZONING COMMITTEE REPORT

Director Valone indicated that items A, B, E and F were previously discussed and were on tonight's Omnibus.

PUBLIC WORKS & WATER COMMITTEE REPORT

Trustee Fink stated that agenda items A – G were previously discussed and were on tonight's Omnibus for approval.

PROPERTIES & RECREATION COMMITTEE REPORT

Trustee Avakian stated the previously discussed contracts renewals with Vega Building Maintenance, Inc., The YMI Group, Inc., Winkler Tree & Lawn Care, Beary Landscape Management, LLC., and Desiderio Landscaping & Tree Removal LLC were on tonight's Omnibus for approval.

PUBLIC HEALTH & SAFETY COMMITTEE REPORT

Trustee Lewis stated that agenda items A and B were previously discussed and were on tonight's Omnibus for approval.

Trustee Lewis reported on the Training Participation Agreement between the Village of Western Springs and Adventist Midwest Health to conduct safety active shooter training and that the item will be considered for approval tonight under New Business.

EXPLANATION OF OMNIBUS VOTING PROCEDURE

President Rudolph stated the Illinois State Statues allow a municipality to collectively on a group of ordinances, resolutions, and other motions, such as awards of contracts, appointments, etc. This is known as an omnibus vote. All the items in the omnibus vote list have been previously discussed by the President and Board of Trustees on at least once occasion, and often on several occasions. By placing them on the omnibus vote list, a single vote may be taken to approve them. A Trustee may remove any item form the list and have it discussed and voted on separately, prior to the omnibus vote.

There were no changes to the omnibus vote list.
CONSIDERATION OF AN OMNIBUS VOTE:

DRAFT

Trustee Tyrrell moved that the ordinances, resolutions and motions as contained on the meeting agenda for January 27, 2025, be adopted and/or approved under an omnibus vote. Trustee Tyrrell read the omnibus in its entirety and motioned it be approved.

Trustee Nawrocki seconded the motion. The motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, Tyrrell and President Rudolph
Voting Nay: None

NEW BUSINESS

Trustee Avakian made a motion to approve the reappointment of Martin Healy as a member of the Recreation Commission for a three-year term to expire February 28, 2028, seconded by Trustee Fink.

Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

Trustee Avakian made a motion to approve Winifred Lyday as member of the Recreation Commission for a three-year term to expire on February 28, 2028, seconded by Trustee Fink.

Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

Trustee Lewis made a motion to approve Resolution No. 25-2870 authorizing the execution of a training participation agreement between the Village of Western Springs and Adventist Midwest Health d/b/a UChicago Medicine AdventHealth La Grange Hospital regarding conduct of training exercises, seconded by Trustee Chen.
Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

REPORTS

<u>Monthly Financial Report (Trustee Chen)</u>

DRAFT

Trustee Chen presented the December 2024 Financial Report highlighting investment activity, the General Fund including upcoming adjustments and water consumption.

Trustee Chen made a motion to approve the December 2024 Financial Report, seconded by Trustee Lewis.

Motion passed on a roll call vote.
Voting Aye: Trustees Avakian, Chen, Fink, Lewis, Nawrocki, and Tyrrell
Voting Nay: None

Village President Rudolph

President Rudolph discussed the water main breaks and how busy January has been repairing the water main breaks. President Rudolph thanked the Public Works staff for all of their hard work. President Rudolph expresses concern that the projected breaks may continue at the pace they are currently failing. President Rudolph also mentioned that some of the breaks happened under already improved roads that had to be torn up to make the repairs. President Rudolph reminded residents to visit the Village website for more information about infrastructure.

Village Manager Baer

Manager Baer stated that the Village hosted a virtually open house providing information regarding the 2025 Referendum and that you can rewatch the open house on the Village website. Manager Baer indicated that there are two additional open houses planned. One to take place in-person at the Thoms Ford Memorial Library on February 11, 2025 from 6:00 p.m. – 8:00 p.m. along with a third in-person open house to take place in March with the location to be determined.

Manager Baer reported that the Village of Western Springs was awarded the Asset Management Award by the American Public Works Association Suburban Branch. Manager Baer congratulated staff, and the Board of Trustees for their guidance. Manager Baer then announced that the American Council of Engineering is also planning to award their Special Achievement Award for the Capital Infrastructure Plan to be bestowed on February 27, 2025.

Manager Baer remined residents that the holiday lights recycling program ends on January 31, 2025.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 7.A.

To: Board of Trustees
From: Brian Scott, Director of Fire and EMS
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, John Mastandona, Director of Finance
RE: Resolution Approving and Authorizing a Billing Services Agreement with EMS Management & Consultants (EMS/MC) (Omnibus Item)

Recommendation

The Finance Committee reviewed this item at their meeting on February 6, 2025 and recommended approval of the Billing Services Agreement between the Village and EMS Management & Consultants (EMS/MC).

Summary

The Village has been working with Andres Medical Billing, Ltd. for over 10 years to manage the entire process of submitting claims to insurance companies and collecting payments for ambulance services provided by the Department of Fire & EMS. In May 2024, Andres Medical Billing was incorporated into a larger company, EMS Management & Consultants, Inc. As a result, a new agreement must be established between the Village and the new company, EMS Management Consultants, Inc. No changes have been made to the fee structure from the old agreement to the new agreement. Village Attorney Anne Skrodzki has reviewed and approved the accompanying agreement and resolution.

Financial Impact

Account	5103100-55112
Fund	General Fund
2025 Budget	$16,500
Project Cost	As required

Recommended Motion

I move to approve the Billing Services Agreement between the Village and EMS Management & Consultants (EMS/MC).

DATE: February 24, 2025
OTHER: None.

A RESOLUTION APPROVING AND AUTHORIZING THE EXECUTION OF A BILLING SERVICES AGREEMENT AND BUSINESS ASSOCIATE ADDENDUM WITH EMS MANAGEMENT & CONSULTANTS, INC. OF WINSTON-SALEM, NORTH CAROLINA, FOR THE PROVISION OF EMERGENCY MEDICAL SERVICES BILLING AND COLLECTION SERVICES.

WHEREAS, the President and Board of Trustees of the Village of Western Springs (the "Village Board") and EMS Management & Consultants, Inc. ("EMS/MC" or the "Vendor") desire to enter into a service agreement entitled "Billing Services Agreement Between the Village of Western Springs and EMS Management & Consultants, Inc." for the performance of third party emergency medical services billing and collection services (the "Services") and its Attachment "A" entitled "Business Associate Addendum", copies of which are attached hereto as **Group Exhibit "A"** and made a part hereof (collectively the "Agreement"); and

WHEREAS, the Services provided under the Agreement include billing, bill processing and fee collection services related to emergency medical transportation services within and provided by the Village of Western Springs ("Village"); and

WHEREAS, in addition, the Agreement includes an Addendum, entitled the "Business Associate Addendum," that provides a detailed structure for the handling and protection of all protected medical information under the Health Insurance Portability and Accountability Act ("HIPAA"); and

WHEREAS, as provided for in the attached Agreement, the Vendor agrees to perform the Services in exchange for a percentage commission payment of 5.0% on all net collections, as defined by the Agreement, including all funds collected from insurance reimbursements and then, if any amounts remain, from direct collection from patients/service recipients; and

WHEREAS, at an open public meeting held on February 6, 2025, the Finance Committee (the "Committee") reviewed the services offered and terms of the attached Agreement and received input from the Village staff and provided an opportunity for public input on the matter, and then the Committee recommended that the Village Board review and approve the Agreement; and

WHEREAS, at open public meetings held on February 10, 2025 and February 24, 2025, the President and Board of Trustees of the Village reviewed and discussed the Services, the Agreement and the Committee's recommendation and received input from the Village staff and provided an opportunity for public input on the matter. At its February 10, 2025 meeting, the President and Board of Trustees of the Village of Western Springs accepted the Committee's recommendation to approve and enter into the Agreement; and

WHEREAS, pursuant to the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation), as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), of the Constitution of Illinois of 1970 and the applicable provisions of the Illinois Municipal Code (65 ILCS

5/8-1-7), the President and Board of Trustees of the Village of Western Springs are authorized to approve and enter into the attached Agreement, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into the attached Agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2. Approval and Execution of Agreement and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of the Billing Agreement and its Attachment "A" entitled "Business Associate Addendum", substantially in the form attached hereto as **Group Exhibit "A"** for the performance of the Services by the Vendor, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and further authorizes and directs the President and Clerk, or their designees, to execute such other documents as are necessary to fulfill the Village's obligations under the Agreement.

SECTION 3. Approval of Related Expenses. Provided that the Vendor performs or provides additional Services in accordance with the terms and provisions of this Agreement, the Village agrees to pay the Vendor for such Services at the stated prices and pursuant to the payment schedule (if any) set forth in the attached Agreement or as outlined in a future proposal for additional Services that is mutually agreed to in writing by the Village and the Vendor.

SECTION 4. Delivery of Signed Documents. After approval and execution of this Resolution and the Agreement by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of certified copies of this Resolution and executed versions of the attached Agreement to the Vendor for record retention purposes.

SECTION 5. Effective Date. This Resolution shall be in full force and effect from and after its adoption and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Special Meeting thereof, held on the 24th day of February, 2025, and approved by me as Village President on the same day, and attested by the Village Clerk on the same day.

SEAL

BILLING SERVICES AGREEMENT

THIS BILLING SERVICES AGREEMENT (hereinafter "Agreement"), is entered into this _____ day of _____ 2025, between EMS MANAGEMENT & CONSULTANTS, INC. (hereinafter "EMS|MC") and the VILLAGE OF WESTERN SPRINGS, (hereinafter "Client").

WITNESSETH:

WHEREAS, EMS|MC is an ambulance billing service company with experience in providing medical billing and collection services to medical transport providers, including fire and rescue and emergency medical service (EMS) providers; and

WHEREAS, Client, the Village of Western Springs, Illinois ("Village" or "Client"), is an Illinois Municipal Corporation normally engaged in the business of providing emergency medical services, and billable medical transportation services; and

WHEREAS, Client wishes to retain EMS|MC to provide medical billing, collection and related services as set forth in this Agreement.

NOW, THEREFORE, in consideration of the mutual agreements described below and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the parties agree as follows:

1. ENGAGEMENT.

a. During the term of this Agreement, EMS|MC shall provide routine billing, bill processing and fee collection services reasonably required and customary for service providers of similar size and situation to Client (the "Revenue Cycle Management Services" or "RCM Services"). The RCM Services shall include: (1) preparing and submitting initial and secondary claims and bills for Client to insurers and others responsible for payment; (2) performing reasonable and diligent routine collection efforts to secure payments from primary and secondary payers and patients or other entities, (as EMS|MC, in its sole discretion deems appropriate); (3) issuing up to three patient statements for all unpaid balances; and (4) referring accounts which have not been collected during EMS|MC normal billing cycle to an outside collection agency if so directed by Client.

b. Collectively, the RCM Services that EMS|MC provides to Client shall be referred to as the "Services".

2. EMS|MC Responsibilities.

a. EMS|MC will provide the RCM Services in material compliance with all applicable local, state and federal laws, ordinances and regulations.

b. EMS|MC will submit all "Completed Claims" to the applicable third-party payer. A "Completed Claim" is a claim for emergency medical services and billable medical transportation services that (i) is received by EMS|MC and supported by an ePCR record that contains all necessary and accurate information; (ii) has been reviewed and any identified issues sent to Client for remediation have been rectified; (iii) is for a patient encounter that has been electronically signed off by Client in the ePCR; (iv) has been reviewed by Client and deemed ready for billing; and (v) is not subject to a billing hold. EMS|MC will not have any responsibility for any adverse impact to Client that may result from any delay of Client in completing claims caused by the affirmative act or inaction of Client.

c. Accounts with outstanding balances after the insurance and/or third-party payer has determined benefits due will be billed by EMS|MC to the patient. EMS|MC will send up to three patient statements to the patient or responsible party, except as to those accounts on which an insurance carrier or third-party payer has accepted responsibility to pay. Once Client has submitted all necessary information, EMS|MC will bill all uninsured patients directly.

d. Within ten (10) business days of the last business day of the month, EMS|MC will provide to Client a month end report, which shall include an account analysis report, aging report and accounts receivables reconciliation report for the previous month. Deposit reports will be provided daily.

e. During the term of this Agreement, EMS|MC shall maintain, provide appropriate storage and data back-up for all billing records pertaining to the RCM Services provided by EMS|MC hereunder. Upon at least two (2) business days' prior written notice, EMS|MC shall make such records accessible to Client during EMS|MC business hours. EMS|MC acknowledges that Client is a unit of local government subject to the Illinois Freedom of Information Act (FOIA) (5 ILCS 140/ *et seq*.). EMS|MC will cooperate fully with Client to facilitate compliance with any FOIA request. Upon termination of this Agreement, trip data pertaining to the RCM Services shall be returned to Client. Notwithstanding anything to the contrary herein, Client acknowledges and agrees that EMS|MC is not a custodian of clinical records nor a clinical records repository. Client is responsible for maintaining all clinical records in accordance with Section 3(d).

f. EMS|MC shall notify Client of (i) all patient complaints about clinical services within five (5) business days of receipt; (ii) all patient complaints about billing within ten (10) business days of receipt; and (iii) all notices of audit, requests for medical records or other contacts or inquiries out of the normal course of business from representatives of Medicare, Medicaid or private payers with which Client contracts or any law enforcement or government agency ("Payer Inquiries") within ten (10) business days of receipt, unless such agency prohibits EMS|MC from disclosing its inquiry to Client.

g. EMS|MC will reasonably assist Client in responding to Payer Inquiries which occur in the normal course of Client's business and arise from EMS|MC's provision of the Services. If EMS|MC, in its sole discretion, determines that (i) Client is frivolously utilizing EMS|MC's assistance in responding to Payer Inquiries,; or (ii) a Payer Inquiry does not arise from the Services provided by EMS|MC, EMS|MC may charge Client, and Client shall pay, for any assistance provided by EMS|MC at EMS|MC's then current hourly rates.

h. EMS|MC is appointed as the agent of Client under this Agreement solely for the express purposes of this Agreement relating to billing and receiving payments and mail, receiving and storing documents, and communicating with hospitals and other entities to facilitate its duties. EMS|MC will have no authority to pledge credit, contract, or otherwise act on behalf of Client except as expressly set forth herein.

i. As to all payments received from Medicare, Medicaid and other government funded programs, the parties specifically acknowledge that EMS|MC will only prepare claims for Client and will not negotiate checks payable or divert electronic fund transfers to Client from Medicare, Medicaid or any other government funded program. All Medicare, Medicaid and any other government funded program payments, including all electronic fund transfers, will be deposited directly into a bank account designated by Client to receive such payments and as to such account only Client, through its officers and directors, shall have access.

j. The Services provided by EMS|MC to Client under this Agreement are conditioned on Client's fulfillment of the responsibilities set forth in this Agreement.

k. EMS|MC shall have no responsibility to provide any of the following services:

i. Determining the accuracy or truthfulness of documentation and information provided by Client;

ii. Providing services outside the EMS|MC billing system;

iii. Submitting any claim that EMS|MC believes to be inaccurate or fraudulent; or

iv. Providing any service not expressly required of EMS|MC by this Agreement.

l. For Client's service dates that occurred prior to the mutually agreed go live date for the Services, Client agrees and understands that EMS|MC is not responsible for any services including, but not limited to, submitting claims or managing any denials, refunds or patient calls. As between Client and EMS|MC, Client is fully responsible for the proper billing and accounting of any remaining balances related to service dates that occurred prior to such go live date.

3. RESPONSIBILITIES OF CLIENT. The following responsibilities of Client are a condition of EMS|MC's services under this Agreement, and EMS|MC shall have no obligation to provide the Services to the extent that Client has not fulfilled these responsibilities:

a. Client will pay all agreed amounts owed to EMS|MC under this Agreement. EMS|MC shall not condition Services or refuse to provide additional services based on an outstanding amount disputed by Client in good faith, as provided in Section 5(c) below.

b. Client will implement standard commercially reasonable actions and processes as may be requested by EMS|MC from time-to-time to allow EMS|MC to properly and efficiently provide the RCM Services. These actions and processes include, but are not limited to, the following:

i. Providing EMS|MC with complete and accurate demographic and charge information necessary for the processing of professional and/or technical component billing to third parties and/or patients including, without limitation, the following: patient identification (name, address, phone number, birth date, gender); guarantor identification and address; insurance information; report of services; special claim forms; pre-authorization numbers; and such additional information as is requested by EMS|MC;

ii. Providing EMS|MC with complete and accurate medical record documentation for each incident or patient service rendered for reimbursement, which is necessary to ensure proper billing and secure claim payment;

iii. Providing EMS|MC, in a timely manner, with Patient Care Reports (PCRs) that thoroughly detail the patient's full medical condition at the time of service and include a chronological narrative of all services and treatment rendered;

iv. Obtaining authorizations and signatures on all required forms, including consent to treat, assignment of benefits, release of information and claims;

v. Obtaining physician certification statements (PCS) forms for all non-emergency transports and other similar medical necessity forms or prior authorization statements as deemed necessary by the payer;

vi. Obtaining or executing all forms or documentation required by Medicare, Medicaid, CHAMPUS, and any other payer or insurance carriers to allow EMS|MC to carry out its billing and other duties under this Agreement; and

vii. Implementing reasonable and customary charges for complete, compliant billing.

c. Client represents and warrants that the PCR and any and all associated medical records, forms and certification statements provided to EMS|MC are true and accurate and contain only factual information observed and documented by the attending field technician during the course of the treatment and transport.

d. Client shall maintain Client's own files with all original or source documents, as required by law, and only provide to EMS|MC copies of such documents. Client acknowledges that EMS|MC is not the agent of Client for storage of source documentation.

e. Client will provide EMS|MC with a copy of any existing billing policy manuals or guidelines, Medicare or Medicaid reports, or any other record or document related to services or billing of Client's accounts.

f. Client will report to EMS|MC within ten (10) business days of payments received directly by Client, and promptly notify EMS|MC of any cases requiring special handling or billing. Client shall timely advise EMS|MC of any Payer Inquiries.

g. Client shall ensure that any refunds posted by EMS|MC are actually issued and paid to the patient, insurer, or other payer as appropriate.

h. Client agrees to provide EMS|MC with administrative access to the ePCR system or similar access in order to run reports and review documents and attachments to better service Client's account.

i. Client shall provide EMS|MC with access to its facilities and personnel for the purpose of providing on-site and/or online training to such personnel. Client shall cooperate with EMS|MC and facilitate any training that EMS|MC and the Village mutually agree are required trainings as set forth in subsection (j) below.

j. Client shall complete EMS|MC's online training course within 90 days of the contract start date and all new hires will complete EMS|MC's online documentation training within 90 days of hire date. Newly developed training materials by EMS|MC should be mutually agreed upon by the parties to be required training.

k. Client shall comply with all applicable federal, state, and local laws, rules, regulations, and other legal requirements that in any way affect this Agreement or the duties and responsibilities of the parties hereunder.

4. EMS|MC WEB PORTALS.

a. EMS|MC shall provide Client and those individuals appointed by Client ("Users") with access to EMS|MC Web Portals (the "Portals"), which shall be subject to the applicable Terms of Use found on the Portals. To be appointed as a User, the individual must be an employee of Client or otherwise approved by Client and EMS|MC. Client is responsible for all activity of Users and others accessing or using the Portals through or on behalf of Client including, but not limited to, ensuring that Users do not share credentials for accessing the Portals. Client is also responsible for (i) identifying individuals who Client determines should be Users; (ii) determining and notifying EMS|MC of each User's rights; (iii) monitoring Users' access to and use of the Portals; (iv) acting upon any suspected or unauthorized access of information through the Portals; (v) ensuring each User's compliance with this Agreement and the Terms of Use governing the use of the Portals; and (vi) notifying EMS|MC to deactivate a User account whenever a User's employment, contract or affiliation with Client is terminated or Client otherwise desires to suspend or curtail a User's access to and use of the Portals. Client agrees to follow best practices to ensure compliance with this provision.

b. Client acknowledges that EMS|MC may suspend or terminate any User's access to the Portals (i) for noncompliance with this Agreement or the applicable Terms of Use; (ii) if such User poses a threat to the security or integrity of the Portals or information available therein; (iii) upon termination of Client; or (iv) upon notice of

suspension or termination of such User by Client. Client may suspend or terminate a User's access to the Portals at any time.

5. COMPENSATION OF EMS|MC.

a. Client shall pay a fee for the Services of EMS|MC hereunder, on a monthly basis, in an amount equal to 5.0% percent of "Net Collections" as defined below (the "RCM Fee"). Net Collections shall mean all cash and check amounts including electronic fund transfers (EFTs) received by EMS|MC from payers, patients, attorney's offices, court settlements, collection agencies, government institutions, debt set-off programs, group health insurance plans, private payments, credit cards, healthcare facilities or any person or entity submitting funds on a patient's account, or any amounts paid directly to Client with or without the knowledge of EMS|MC that are paid, tendered, received or collected each month for Client's transports, less refunds processed or any other necessary adjustments to those amounts. Price adjustments for such services shall be allowed at the completion of each contract year. Price adjustments shall not exceed the change in the average of the Consumer Price Index (CPI) for all Urban Consumers, Not Seasonally Adjusted, Area: U.S. city average, Item: All item, Base Period: 1982-84=100 over the twelve months prior.

b. The RCM Fee is referred to as the "Compensation".

c. EMS|MC shall submit an invoice to Client by the tenth (10^{th}) day of each month for the Compensation due to EMS|MC for the previous calendar month. The Compensation amount reflected on the invoice shall be paid pursuant to the terms of the Illinois Local Government Prompt Payment Act, 50 ILCS 505/ *et seq.* Such amount shall be paid without offset unless the calculation of the amount is disputed in good faith, in which case Client shall pay the undisputed amount and shall provide EMS|MC with detailed written notice of the basis for the disputed portion within ten (10) days of said dispute. Any invoices not disputed in writing within ten (10) days shall be deemed "undisputed" for all purposes of the Agreement. All invoices are to be paid directly from Client's banking institution to EMS|MC via paper check, direct deposit or ACH draft initiated by EMS|MC into EMS|MC's bank account.

d. In the event of a material change to applicable law, the billing process and/or scope of Services provided in this Agreement or a material difference in any of the patient demographics provided by the Client and set forth in Exhibit A, EMS|MC reserves the right to negotiate a fee change with Client and amend this Agreement accordingly or terminate this Agreement.

e. EMS|MC may, in its sole discretion, immediately cease to provide Services for Client should the outstanding balance owed to EMS|MC become in arrears (except in cases of a documented dispute regarding outstanding sums owed). Claims processing will not resume until all outstanding balances are paid in full or arrangements approved by EMS|MC have been made to wholly resolve any outstanding balances.

6. TERM OF AGREEMENT.

a. This Agreement shall be effective commencing on January 1, 2025, and shall thereafter continue through December 31, 2025, ("Initial Term"). This Agreement shall be binding upon the parties hereto and their respective successors, assigns, and transferees. The Agreement shall automatically renew on the same terms and conditions as stated herein, for successive one (1) year terms (each a "Renewal Term"), unless either party gives written notice of intent not to renew at least 60 days before expiration of any term. Notwithstanding anything herein to the contrary, this Agreement may be terminated under the provisions provided below. (The Initial Term and any Renewal Terms are referred to as the "Term".)

b. **Termination for Cause**. Notwithstanding Section 6(a), either party may terminate this Agreement if the other party materially breaches this Agreement or its Addendum, unless (i) the breaching party cures the breach within 10 days following receipt of notice describing the breach in reasonable detail, or (ii) with respect to a breach which may not reasonably be cured within a 10-day period, the breaching party commences, is diligently pursuing cure of, and cures the breach as soon as practical following receipt of notice describing the breach in reasonable detail.

c. **Immediate Termination**. Either party may terminate this Agreement immediately as a result of the following:

i. Failure of Client to make timely payments due under this Agreement;

ii. Injury to any customer, independent contractor, employee or agent of the other party hereto arising from the gross negligence or willful misconduct of a party;

iii. Harassment of any employee or contractor of a party or commitment of any act by a party which creates an offensive work environment; or

iv. Commitment of any unethical or immoral act which harms the other party or could have the effect of harming the other party.

7. RESPONSIBILITIES UPON TERMINATION.

a. Subject to Client's payment of all amounts due hereunder, upon any termination of this Agreement, and during the period of any notice of termination, EMS|MC will make available to Client or its authorized representatives data from the billing system regarding open accounts in an electronic format, and will otherwise reasonably cooperate and assist in any transition of the Services to Client, or its successor billing agent. Upon request, EMS|MC will provide to Client trip data associated with the claims submitted by EMS|MC on behalf of Client pursuant to this Agreement. EMS|MC shall retain financial and billing records not tendered or returned to Client on termination hereof for at least ten (10) years following the date of service.

b. Following termination of this Agreement, for a period of ninety (90) days (the "Wind Down"), EMS|MC will continue its billing and collection efforts as to those accounts with dates of services prior to termination, subject to the terms and conditions of this Agreement including, but not limited to, Section 5. Client will continue to provide EMS|MC with copies of checks and payments on those accounts which were filed by EMS|MC under this Agreement. EMS|MC shall have no further responsibilities as to such accounts after the Wind Down; however, EMS|MC shall be entitled to compensation as provided in Section 5(a) for such amounts filed by EMS|MC, regardless of whether such amounts are collected by Client during or after the Wind Down period. During the Wind Down and for up to twelve months following termination of this Agreement, EMS|MC shall continue to make the Portals available to Client, subject the applicable Terms of Use. Notwithstanding the foregoing, in the event EMS|MC terminated this Agreement pursuant to Sections 6(b) or 6(c), EMS|MC shall have no obligation to provide any Services after the date of termination.

8. EXCLUSIVITY AND MISCELLANEOUS BILLING POLICIES.

a. During the term of this Agreement, EMS|MC shall be Client's exclusive provider of the RCM Services. Client may not directly file, submit or invoice for any medical or medical transportation services rendered while this Agreement is in effect.

b. In addition, Client agrees not to collect or accept payment for services from any patient unless the service requested does not meet coverage requirements under any insurance program in which the patient is enrolled or the patient is uninsured. Payments received directly by Client for these services must be reported to EMS|MC as provided in Section 3(f) hereof and shall be treated as Net Collections for purposes of Section 5(a) hereof.

c. In compliance with CMS regulations, Medicare patients will not be charged by Client a higher rate or amount for identical covered services charged to other insurers

or patients. Accordingly, only one fee schedule shall exist and be used in determining charges for all patients regardless of insurance coverage.

d. EMS|MC reserves the right not to submit a claim for reimbursement on any patient in which the PCR and/or associated medical records are incomplete or appear to be inaccurate or do not contain enough information to substantiate or justify reimbursement. This includes missing patient demographic information, insurance information, Physician Certification Statements (PCS) or any required crew and/or patient signatures, or otherwise contradictory medical information.

e. Client shall implement and maintain a working compliance plan ("Compliance Plan") in accordance with the most current guidelines of the U.S. Department of Health and Human Services ("HHS"). The Compliance Plan must include, but not be limited to, formal written policies and procedures and standards of conduct, designation of a compliance officer, quality assurance policy and effective training and education programs.

f. In accordance with the HHS Office of Inspector General ("OIG") Compliance Program Guidance for Third-Party Medical Billing Companies, EMS|MC is obligated to report misconduct to the government, if EMS|MC discovers credible evidence of Client's continued misconduct or flagrant, fraudulent or abusive conduct. In the event of such evidence, EMS|MC has the right to (a) refrain from submitting any false or inappropriate claims, (b) terminate this Agreement and/or (c) report the misconduct to the appropriate authorities.

9. NON-INTERFERENCE/NON-SOLICITATION OF EMS|MC EMPLOYEES. Client understands and agrees that the relationship between EMS|MC and each of its employees constitutes a valuable asset of EMS|MC. Accordingly, Client agrees that both during the term of this Agreement and for a period beginning on the date of termination of this Agreement, whatever the reason, and ending one (1) year after the date of termination of this Agreement (the "Restricted Period"), Client shall not, without EMS|MC's prior written consent, directly or indirectly, solicit or recruit for employment; attempt to solicit or recruit for employment; or attempt to hire or accept as an employee, consultant, contractor, or otherwise, or accept any work from EMS|MC's employees with whom Client had material contact during the term of this Agreement, in any position where Client would receive from such employees the same or similar services that EMS|MC performed for Client during the term of this Agreement. Client also agrees during the Restricted Period not to unlawfully urge, encourage, induce, or attempt to urge, encourage, or induce any employee of EMS|MC to terminate his or her employment with

EMS|MC. Client has carefully read and considered the provisions of Section 9 hereof, and having done so, agrees that the restrictions set forth in such section (including, but not limited to, the time period) are fair and reasonable and are reasonably required for the protection of the legitimate interests of EMS|MC, its officers, directors, shareholders, and employees.

10. PRIVACY.

a. *Confidentiality*. The Parties acknowledge that they will each provide to the other Confidential Information as part of carrying out the terms of this Agreement. EMS|MC and Client will be both a Receiving Party and a Disclosing Party at different times. The Receiving Party agrees that it will not (i) use any such Confidential Information in any way, except for the exercise of its rights and performance of its obligations under this Agreement, or (ii) disclose any such Confidential Information to any third party, other than furnishing such Confidential Information to its employees, consultants, and subcontractors, who are subject to the safeguards and confidentiality obligations contained in this Agreement and who require access to the Confidential Information in the performance of the obligations under this Agreement. In the event that the Receiving Party is required by applicable law to make any disclosure of any of the Disclosing Party's Confidential Information, by subpoena, judicial or administrative order or otherwise, the Receiving Party will first give written notice of such requirement to the Disclosing Party, and will permit the Disclosing Party to intervene in any relevant proceedings to protect its interests in the Confidential Information, and provide full cooperation and assistance to the Disclosing Party in seeking to obtain such protection, at the Disclosing Party's sole expense. "Confidential Information" means any information designated as confidential before its disclosure by either Party (the "Disclosing Party") to the other Party (the "Receiving Party"), or information that is considered confidential by operation of law or regulation. Information will not be deemed Confidential Information hereunder if the Receiving Party can prove by documentary evidence that such information: (a) was known to the Receiving Party prior to receipt from the Disclosing Party directly or indirectly from a source other than one having an obligation of confidentiality to the Disclosing Party; (b) becomes known (independently of disclosure by the Disclosing Party) to the Receiving Party directly or indirectly from a source other than one having an obligation of confidentiality to the Disclosing Party; (c) becomes publicly known or otherwise ceases to be secret or confidential, except through a breach of this Agreement by the Receiving Party; or (d) is independently developed by the Receiving Party without the use of any Confidential Information of the Disclosing Party.

b. *HIPAA Compliance*. The parties agree to comply with the Business Associate Addendum, attached hereto and incorporated by reference herein as Attachment 1, documenting the assurances and other requirements respecting the use and disclosure of Protected Health Information. It is Client's responsibility to ensure that it obtains all appropriate and necessary authorizations and consents to use or disclose any individually identifiable health information in compliance with all federal and state privacy laws, rules and regulations, including but not limited to the Health Insurance Portability and Accountability Act. In the event that this Agreement is, or activities permitted or required by this Agreement are, inconsistent with or do not satisfy the requirements of any applicable privacy or security law, rule or regulation, the parties shall take any reasonably necessary action to remedy such inconsistency.

11. DISCLAIMERS, LIMITATIONS OF LIABILITY AND DISPUTE RESOLUTION

a. Each Party acknowledges that the liability limitations and warranty disclaimers in the Agreement are independent of any remedies hereunder and shall apply regardless of whether any remedy fails of its essential purpose. Client acknowledges that the limitations of liability set forth in this Agreement are integral to the amount of consideration offered and charged in connection with the Services and that, were EMS|MC to assume any further liability other than as provided in the Agreement, such consideration would of necessity be set substantially higher.

b. EMS|MC and Client acknowledge and agree that despite their best efforts, billing errors may occur from time to time. Each party will promptly notify the other party of the discovery of a billing error. EMS|MC's sole obligation in the event of a billing error will be to correct the error by making appropriate changes to the information in its system, posting a refund if appropriate, and re-billing the underlying claim if permissible.

c. Except for any express warranty provided herein or in the applicable exhibit, the services are provided on an "as is," "as available" basis. Client agrees that use of the services is at client's sole risk; and, to the maximum extent permitted by law, EMS|MC expressly disclaims any and all other express or implied warranties with respect to the services including, but not limited to, warranties of merchantability, fitness for a particular purpose, title, non-infringement or warranties alleged to arise as a result of custom and usage.

d. A "Claim" is defined as any claim or other matter in dispute between EMS|MC and Client that arises from or relates in any way to this Agreement or to the Services, or data provided by EMS|MC hereunder, regardless of whether such claim or

matter is denominated as a contract claim, tort claim, warranty claim, indemnity claim, statutory claim, arbitration demand, or otherwise.

e. Reserved.

f. To the fullest extent allowed by law, EMS|MC and Client waive claims against each other for consequential, indirect, incidental, special, punitive, exemplary, and treble damages, and for any other damages in excess of direct, compensatory damages including, but not limited to, loss of profits, loss of data, or loss of business, regardless of whether such claim or matter is denominated as a contract claim, tort claim, warranty claim, indemnity claim, statutory claim, arbitration demand, or otherwise, even if a party has been apprised of the possibility or likelihood of such damages occurring (the "Non-Direct Damages Waiver").

g. All Claims between EMS|MC and Client shall be resolved by a Court of competent jurisdiction. For the purposes of this Agreement, venue shall be proper in Cook County, Illinois or the Northern District of Illinois.

h. In any proceeding regarding any Claim, the prevailing party shall be entitled to recover from the non-prevailing party the reasonable costs and expenses incurred by the prevailing party in connection with such proceeding, including, without limitation, the reasonable attorneys' fees, court filing fees, arbitrator compensation, expert witness charges, court reporter charges, and document reproduction charges incurred by the prevailing party. Which party is the prevailing party shall be determined in light of the surrounding circumstances, such as comparing the relief requested with that awarded, and shall not be determined simply by whether one party or the other receives a net monetary recovery in its favor.

12. GENERAL.

a. Status of Parties. Nothing contained in this Agreement shall be construed as establishing a partnership or joint venture relationship between EMS|MC and Client, or as establishing an agency relationship beyond EMS|MC's service as a billing and collection agent of Client under the express terms of this Agreement. EMS|MC and its employees and representatives shall have no legal authority to bind Client.

b. Assignment. Neither this Agreement nor any rights or obligations hereunder shall be assigned by either party without prior written consent of the other party, except that this Agreement may be assigned without consent to the survivor in any merger or other business combination including either party, or to the purchaser of all or substantially all of the assets of either party.

c. Binding Effect. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors, assigns (where permitted), and transferees.

d. Notices. All notices required or permitted by this Agreement shall be in writing and shall be deemed to have been given: (i) on the day received, if personally delivered; (ii) on the day received if sent by a recognized overnight delivery service, according to the courier's record of delivery; and (iii) on the 5th (fifth) calendar day after the date mailed by certified or registered mail. Such notices shall be addressed as follows:

Client:

Village of Western Springs
d/b/a: Western Springs Fire Department
740 Hillgrove Avenue
Western Springs, IL 60558

EMS|MC:

EMS Management & Consultants, Inc.
Chief Executive Officer
2540 Empire Drive
Suite 100
Winston-Salem, NC 27103

Either party may change its address for notices under this Agreement by giving written notice of such change to the other party in accordance with the terms of this section.

e. Governing Law. This Agreement and the rights and obligations of the parties hereunder shall be construed in accordance with and governed by the laws of the State of Illinois, notwithstanding any conflicts of law rules to the contrary.

f. Integration of Terms. This instrument together with all attachments, exhibits and schedules constitutes the entire agreement between the parties, and supersedes all prior negotiations, commitments, representations and undertakings of the parties with respect to its subject matter. Without limiting the foregoing, this Agreement supersedes and takes precedence over any inconsistent terms contained in any Request for Proposal ("RFP") from Client and any response to that RFP from EMS|MC.

g. Amendment and Waiver. This Agreement may be amended or modified only by an instrument signed by all of the parties. A waiver of any provision of this Agreement must be in writing, designated as such, and signed by the party against whom enforcement of the waiver is sought. The waiver of a breach of any provision of this Agreement shall not operate or be construed as a waiver of any subsequent or other breach thereof.

h. Severability. If any provision of this Agreement shall not be valid for any reason, such provision shall be entirely severable from, and shall have no effect upon, the remainder of this Agreement. Any such invalid provision shall be subject to partial enforcement to the extent necessary to protect the interest of the parties hereto.

i. Force Majeure. With the exception of Client's payment obligation, a Party will not be in breach or liable for any delay of its performance of this Agreement caused by natural disasters or other unexpected or unusual circumstances reasonably beyond its control.

j. Third Party Beneficiaries. There are no third-party beneficiaries to this Agreement.

k. Counterparts. This Agreement may be executed in multiple counterparts by a duly authorized representative of each party.

l. Survival. All terms which by their nature survive termination shall survive termination or expiration of the Agreement including, but not limited to, Sections 3(c), 3(f) – (h), 5(a), 5(c), 7, 9 – 12.

IN WITNESS WHEREOF, the undersigned have caused this Agreement to be duly executed on the later of the dates set forth below.

Each person whose signature appears hereon represents, warrants and guarantees that he/she has been duly authorized and has full authority to execute this Agreement on behalf of the party on whose behalf this Agreement is executed.

Attachment 1
Business Associate Addendum

This Business Associate Addendum (the "Addendum") is made effective the ____ day of _____ 20__, by and between the Village of Western Springs, hereinafter referred to as "Covered Entity," and EMS Management & Consultants, Inc., hereinafter referred to as "Business Associate" (individually, a "Party" and collectively, the "Parties").

WITNESSETH:

WHEREAS, the Parties wish to enter into a Business Associate Addendum to ensure compliance with the Privacy and Security Rules of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA Privacy and Security Rules") (45 C.F.R. Parts 160 and 164); and

WHEREAS, the Health Information Technology for Economic and Clinical Health ("HITECH") Act of the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, modified the HIPAA Privacy and Security Rules (hereinafter, all references to the "HIPAA Privacy and Security Rules" include all amendments thereto set forth in the HITECH Act and any accompanying regulations); and

WHEREAS, the Parties have entered into a Billing Services Agreement (the "Agreement") whereby Business Associate will provide certain services to Covered Entity and, pursuant to such Agreement, Business Associate may be considered a "business associate" of Covered Entity as defined in the HIPAA Privacy and Security Rules; and

WHEREAS, Business Associate may have access to Protected Health Information or Electronic Protected Health Information (as defined below) in fulfilling its responsibilities under the Agreement; and

WHEREAS, Covered Entity wishes to comply with the HIPAA Privacy and Security Rules, and Business Associate wishes to honor its obligations as a Business Associate to Covered Entity.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree to the provisions of this Addendum.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Addendum shall have the definitions set forth in the HIPAA Privacy and Security Rules. In the event of an inconsistency between the provisions of this Addendum and mandatory provisions of the HIPAA Privacy and Security Rules, as amended, the HIPAA Privacy and Security Rules in effect at the time shall control. Where provisions of this Addendum are different than those mandated by the HIPAA Privacy and Security Rules, but are nonetheless permitted by the HIPAA Privacy and Security Rules, the provisions of this Addendum shall control.

The term "Breach" means the unauthorized acquisition, access, use, or disclosure of protected health information which compromises the security or privacy of such information, except where an unauthorized person to whom such information is disclosed would not reasonably have been able to retain such information. The term "Breach" does **not** include: (1) any unintentional acquisition, access, or use of

protected health information by any employee or individual acting under the authority of a covered entity or business associate if (a) such acquisition, access, or use was made in good faith and within the course and scope of the employment or other professional relationship of such employee or individual, respectively, with the covered entity or business associate, and (b) such information is not further acquired, accessed, used, or disclosed by any person; or (2) any inadvertent disclosure from an individual who is otherwise authorized to access protected health information at a facility operated by a covered entity or business associate to another similarly situated individual at same facility; and (3) any such information received as a result of such disclosure is not further acquired, accessed, used, or disclosed without authorization by any person.

The term "Electronic Health Record" means an electronic record of health-related information on an individual that is created, gathered, managed, and consulted by authorized health care clinicians and staff.

The term "HIPAA Privacy and Security Rules" refers to 45 C.F.R. Parts 160 and 164 as currently in effect or hereafter amended.

The term "Protected Health Information" means individually identifiable health information as defined in 45 C.F.R § 160.103, limited to the information Business Associate receives from, or creates, maintains, transmits, or receives on behalf of, Covered Entity.

The term "Electronic Protected Health Information" means Protected Health Information which is transmitted by or maintained in Electronic Media (as now or hereafter defined in the HIPAA Privacy and Security Rules).

The term "Secretary" means the Secretary of the Department of Health and Human Services.

The term "Unsecured Protected Health Information" means Protected Health Information that is not rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a technology or methodology specified by the Secretary in guidance published in the Federal Register at 74 Fed. Reg. 19006 on April 27, 2009 and in annual guidance published thereafter.

II. PERMITTED USES AND DISCLOSURES BY BUSINESS ASSOCIATE

a. Business Associate may use or disclose Protected Health Information to perform functions, activities, or services for, or on behalf of, Covered Entity as specified in the Agreement or this Addendum, provided that such use or disclosure would not violate the HIPAA Privacy and Security Rules if done by Covered Entity. Until such time as the Secretary issues regulations pursuant to the HITECH Act specifying what constitutes "minimum necessary" for purposes of the HIPAA Privacy and Security Rules, Business Associate shall, to the extent practicable, disclose only Protected Health Information that is contained in a limited data set (as defined in Section 164.514(e)(2) of the HIPAA Privacy and Security Rules), unless the person or entity to whom Business Associate is making the disclosure requires certain direct identifiers in order to accomplish the intended purpose of the disclosure, in which event Business Associate may disclose only the minimum necessary amount of Protected Health Information to accomplish the intended purpose of the disclosure.

b. Business Associate may use Protected Health Information in its possession for its proper management and administration and to fulfill any present or future legal responsibilities of Business Associate, provided that such uses are permitted under state and federal confidentiality laws.

c. Business Associate may disclose Protected Health Information in its possession to third parties for the purposes of its proper management and administration or to fulfill any present or future legal responsibilities of Business Associate, provided that:

1. the disclosures are required by law; or

2. Business Associate obtains reasonable assurances from the third parties to whom the Protected Health Information is disclosed that the information will remain confidential and be used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party, and that such third parties will notify Business Associate of any instances of which they are aware in which the confidentiality of the information has been breached.

d. Until such time as the Secretary issues regulations pursuant to the HITECH Act specifying what constitutes "minimum necessary" for purposes of the HIPAA Privacy and Security Rules, Business Associate shall, to the extent practicable, access, use, and request only Protected Health Information that is contained in a limited data set (as defined in Section 164.514(e)(2) of the HIPAA Privacy and Security Rules), unless Business Associate requires certain direct identifiers in order to accomplish the intended purpose of the access, use, or request, in which event Business Associate may access, use, or request only the minimum necessary amount of Protected Health Information to accomplish the intended purpose of the access, use, or request. Covered Entity shall determine what quantum of information constitutes the "minimum necessary" amount for Business Associate to accomplish its intended purposes.

e. Business Associate may use Protected Health Information to de-identify such information in accordance with 45 C.F.R. § 164.514(b) for Business Associate's own business purposes or in connection with the services provided pursuant to the Agreement or to provide Data Aggregation services to Customer as permitted by 45 C.F.R. 164.504(e)(2)(i)(b). Once the Protected Health Information has been de-identified or aggregated, it is no longer considered Protected Health Information governed by this Addendum.

III. OBLIGATIONS AND ACTIVITIES OF BUSINESS ASSOCIATE

a. Business Associate acknowledges and agrees that all Protected Health Information that is created or received by Covered Entity and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by Covered Entity or its operating units to Business Associate or is created or received by Business Associate on Covered Entity's behalf shall be subject to this Addendum.

b. Business Associate agrees to not use or further disclose Protected Health Information other than as permitted or required by the Agreement, this Addendum or as required by law.

c. Business Associate agrees to use appropriate safeguards to prevent use or disclosure of Protected Health Information other than as provided for by this Addendum. Specifically, Business Associate will:

1. implement the administrative, physical, and technical safeguards set forth in Sections 164.308, 164.310, and 164.312 of the HIPAA Privacy and Security Rules that reasonably and appropriately protect the confidentiality, integrity, and availability of any Protected Health Information that it creates, receives, maintains, or transmits on behalf of Covered Entity, and, in accordance with Section 164.316 of the HIPAA Privacy and Security Rules, implement and maintain reasonable and appropriate policies and procedures to enable it to comply with the requirements outlined in Sections 164.308, 164.310, and 164.312; and

2. report to Covered Entity any use or disclosure of Protected Health Information not provided for by this Addendum of which Business Associate becomes aware. Business Associate shall report to Covered Entity any Security Incident of which it becomes aware. Notice is deemed to have been given for unsuccessful Security Incidents, such as (i) "pings" on an information system firewall; (ii) port scans; (iii) attempts to log on to an information system or enter a database with an invalid password or user name; (iv) denial-of-service attacks that do not result in a server being taken offline; or (v) malware (*e.g.*, a worms or a virus) that does not result in unauthorized access, use, disclosure, modification or destruction of Protected Health Information.

d. Business Associate agrees to ensure that any agent, including a subcontractor, to whom it provides Protected Health Information received from, or created or received by Business Associate on behalf of Covered Entity, agrees to the same restrictions and conditions that apply through this Addendum to Business Associate with respect to such information.

e. Business Associate agrees to comply with any requests for restrictions on certain disclosures of Protected Health Information to which Covered Entity has agreed in accordance with Section 164.522 of the HIPAA Privacy and Security Rules and of which Business Associate has been notified by Covered Entity. In addition, and notwithstanding the provisions of Section 164.522 (a)(1)(ii), Business Associate agrees to comply with an individual's request to restrict disclosure of Protected Health Information to a health plan for purposes of carrying out payment or health care operations if the Protected Health Information pertains solely to a health care item or service for which Covered Entity has been paid by in full by the individual or the individual's representative.

f. At the request of the Covered Entity and in a reasonable time and manner, not to extend ten (10) business days, Business Associate agrees to make available Protected Health Information required for Covered Entity to respond to an individual's request for access to his or her Protected Health Information in accordance with Section 164.524 of the HIPAA Privacy and Security Rules. If Business Associate maintains Protected Health Information electronically, it agrees to make such Protected Health Information available electronically to the applicable individual or to a person or entity specifically designated by such individual, upon such individual's request.

g. At the request of Covered Entity and in a reasonable time and manner, Business Associate agrees to make available Protected Health Information required for amendment by Covered Entity in accordance with the requirements of Section 164.526 of the HIPAA Privacy and Security Rules.

h. Business Associate agrees to document any disclosures of and make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy and Security Rules.

i. Business Associate agrees that it will make its internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Business Associate on behalf of, Covered Entity, available to the Secretary for the purpose of determining Covered Entity's compliance with the HIPAA Privacy and Security Rules, in a time and manner designated by the Secretary, subject to attorney-client and other applicable privileges.

j. Business Associate agrees that, while present at any Covered Entity facility and/or when accessing Covered Entity's computer network(s), it and all of its employees, agents, representatives and subcontractors will at all times comply with any network access and other security practices, procedures

and/or policies established by Covered Entity including, without limitation, those established pursuant to the HIPAA Privacy and Security Rules.

k. Business Associate agrees that it will not directly or indirectly receive remuneration in exchange for any Protected Health Information of an individual without the written authorization of the individual or the individual's representative, except where the purpose of the exchange is:

1. for public health activities as described in Section 164.512(b) of the Privacy and Security Rules;

2. for research as described in Sections 164.501 and 164.512(i) of the Privacy and Security Rules, and the price charged reflects the costs of preparation and transmittal of the data for such purpose;

3. for treatment of the individual, subject to any further regulation promulgated by the Secretary to prevent inappropriate access, use, or disclosure of Protected Health Information;

4. for the sale, transfer, merger, or consolidation of all or part of Business Associate and due diligence related to that activity;

5. for an activity that Business Associate undertakes on behalf of and at the specific request of Covered Entity;

6. to provide an individual with a copy of the individual's Protected Health Information pursuant to Section 164.524 of the Privacy and Security Rules; or

7. other exchanges that the Secretary determines in regulations to be similarly necessary and appropriate as those described in this Section III.k.

l. Business Associate agrees that it will not directly or indirectly receive remuneration for any written communication that encourages an individual to purchase or use a product or service without first obtaining the written authorization of the individual or the individual's representative, unless:

1. such payment is for a communication regarding a drug or biologic currently prescribed for the individual and is reasonable in amount (as defined by the Secretary); or

2. the communication is made on behalf of Covered Entity and is consistent with the terms of this Addendum.

m. Business Associate agrees that if it uses or discloses patients' Protected Health Information for marketing purposes, it will obtain such patients' authorization before making any such use or disclosure.

n. Business Associate agrees to implement a reasonable system for discovery of breaches and method of risk analysis of breaches to meet the requirements of HIPAA, The HITECH Act, and the HIPAA Regulations, and shall be solely responsible for the methodology, policies, and procedures implemented by Business Associate.

o. State Privacy Laws. Business Associate shall understand and comply with state privacy laws to the extent that state privacy laws are not preempted by HIPAA or The HITECH Act.

IV. BUSINESS ASSOCIATE'S MITIGATION AND BREACH NOTIFICATION OBLIGATIONS

a. Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of Protected Health Information by Business Associate in violation of the requirements of this Addendum.

b. Following the discovery of a Breach of Unsecured Protected Health Information, Business Associate shall notify Covered Entity of such Breach without unreasonable delay and in no case later than forty-five (45) calendar days after discovery of the Breach. A Breach shall be treated as discovered by Business Associate as of the first day on which such Breach is known to Business Associate or, through the exercise of reasonable diligence, would have been known to Business Associate.

c. Notwithstanding the provisions of Section IV.b., above, if a law enforcement official states to Business Associate that notification of a Breach would impede a criminal investigation or cause damage to national security, then:

1. if the statement is in writing and specifies the time for which a delay is required, Business Associate shall delay such notification for the time period specified by the official; or

2. if the statement is made orally, Business Associate shall document the statement, including the identity of the official making it, and delay such notification for no longer than thirty (30) days from the date of the oral statement unless the official submits a written statement during that time.

Following the period of time specified by the official, Business Associate shall promptly deliver a copy of the official's statement to Covered Entity.

d. The Breach notification provided shall include, to the extent possible:

1. the identification of each individual whose Unsecured Protected Health Information has been, or is reasonably believed by Business Associate to have been, accessed, acquired, used, or disclosed during the Breach;

2. a brief description of what happened, including the date of the Breach and the date of discovery of the Breach, if known;

3. a description of the types of Unsecured Protected Health Information that were involved in the Breach, if known (such as whether full name, social security number, date of birth, home address, account number, diagnosis, disability code, or other types of information were involved);

4. any steps individuals should take to protect themselves from potential harm resulting from the Breach; and

5. a brief description of what Business Associate is doing to investigate the Breach, to mitigate harm to individuals, and to protect against any further Breaches.

e. Business Associate shall provide the information specified in Section IV.d., above, to Covered Entity at the time of the Breach notification if possible or promptly thereafter as information becomes available. Business Associate shall not delay notification to Covered Entity that a Breach has occurred in order to collect the information described in Section IV.d. and shall provide such information to Covered

Entity even if the information becomes available after the forty-five (45)-day period provided for initial Breach notification.

V. OBLIGATIONS OF COVERED ENTITY

a. Upon request of Business Associate, Covered Entity shall provide Business Associate with the notice of privacy practices that Covered Entity produces in accordance with Section 164.520 of the HIPAA Privacy and Security Rules.

b. Covered Entity shall provide Business Associate with any changes in, or revocation of, permission by an individual to use or disclose Protected Health Information, if such changes affect Business Associate's permitted or required uses and disclosures.

c. Covered Entity shall notify Business Associate of any restriction to the use or disclosure of Protected Health Information to which Covered Entity has agreed in accordance with Section 164.522 of the HIPAA Privacy and Security Rules, and Covered Entity shall inform Business Associate of the termination of any such restriction, and the effect that such termination shall have, if any, upon Business Associate's use and disclosure of such Protected Health Information.

VI. TERM AND TERMINATION

a. Term. The Term of this Addendum shall be effective as of the date first written above, and shall terminate upon the later of the following events: (i) in accordance with Section VII.c., when all of the Protected Health Information provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity is destroyed or returned to Covered Entity or, if such return or destruction is infeasible, when protections are extended to such information; or (ii) upon the expiration or termination of the Agreement.

b. Termination for Cause. Upon Covered Entity's knowledge of a material breach of this Addendum by Business Associate and Business Associate's failure to cure such breach within 10 days following receipt of notice describing the breach in reasonable detail, or (ii) with respect to a breach which may not reasonably be cured within a 10-day period, the breaching party commences, is diligently pursuing cure of, and cures the breach as soon as practical following receipt of notice describing the breach in reasonable detail, Covered Entity shall have the right to terminate this Addendum.

c. Effect of Termination.

1. Except as provided in paragraph 2. of this subsection, upon termination of this Addendum, the Agreement or upon request of Covered Entity, whichever occurs first, Business Associate shall return or destroy all Protected Health Information received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Neither Business Associate nor its subcontractors or agents shall retain copies of the Protected Health Information.

2. In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business Associate shall provide to Covered Entity notification of the conditions that make return or destruction infeasible and shall extend the protections of this Addendum to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information.

VII. MISCELLANEOUS

a. **No Rights in Third Parties**. Except as expressly stated herein, the Parties to this Addendum do not intend to create any rights in any third parties.

b. **Survival**. The obligations of Business Associate under Section VII(c) of this Addendum shall survive the expiration, termination, or cancellation of this Addendum, the Agreement, and/or the business relationship of the parties, and shall continue to bind Business Associate, its agents, employees, contractors, successors, and assigns as set forth herein.

c. **Amendment**. This Addendum may be amended or modified only in a writing signed by the Parties. The Parties agree that they will negotiate amendments to this Addendum to conform to any changes in the HIPAA Privacy and Security Rules as are necessary for Covered Entity to comply with the current requirements of the HIPAA Privacy and Security Rules. In addition, in the event that either Party believes in good faith that any provision of this Addendum fails to comply with the then-current requirements of the HIPAA Privacy and Security Rules or any other applicable legislation, then such Party shall notify the other Party of its belief in writing. For a period of up to thirty (30) days, the Parties shall address in good faith such concern and amend the terms of this Addendum, if necessary to bring it into compliance. If, after such thirty (30)-day period, the Addendum fails to comply with the HIPAA Privacy and Security Rules or any other applicable legislation, then either Party has the right to terminate this Addendum and the Agreement upon written notice to the other party.

d. **Independent Contractor**. None of the provisions of this Addendum are intended to create, nor will they be deemed to create, any relationship between the Parties other than that of independent parties contracting with each other solely for the purposes of effecting the provisions of this Addendum and any other agreements between the Parties evidencing their business relationship.

e. **Interpretation**. Any ambiguity in this Addendum shall be resolved in favor of a meaning that permits Covered Entity to comply with the HIPAA Privacy and Security Rules.

f. **Certain Provisions Not Effective in Certain Circumstances**. The provisions of this Addendum relating to the HIPAA Security Rule shall not apply to Business Associate if Business Associate does not receive any Electronic Protected Health Information from or on behalf of Covered Entity.

g. **Ownership of Information**. Covered Entity holds all right, title, and interest in and to the PHI and Business Associate does not hold and will not acquire by virtue of this Addendum or by virtue of providing goods or services to Covered Entity, any right, title, or interest in or to the PHI or any portion thereof.

h. **Entire Agreement**. This Addendum is incorporated into, modifies and amends the Agreement, inclusive of all other prior amendments or modifications to such Agreement. The terms and provisions of this Addendum shall control to the extent they are contrary, contradictory or inconsistent with the terms of the Agreement. Otherwise, the terms and provisions of the Agreement shall remain in full force and effect and apply to this Addendum.

IN WITNESS WHEREOF, the Parties have executed this Addendum as of the day and year written above.

Each person whose signature appears hereon represents, warrants and guarantees that he/she has been duly authorized and has full authority to execute this Agreement on behalf of the party on whose behalf this Agreement is executed.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 7.B.

To: Board of Trustees
From: Aleks Briedis, Director of Recreation
CC: Ellen Baer, Village Manager, John Mastandona, Director of Finance
RE: Budget Amendment: HVAC & Grand Ave Gym Improvement (Omnibus Item)

Recommendation

The Finance Committee reviewed this item at their meeting on February 6, 2025 and recommended the approval of budget amendments for replacement of the HVAC rooftop units at the Recreation Center gymnasium and Grand Ave Gym improvements.

Summary

Attached for review are the following budget amendments for the Recreation Department:

.

6603210-60015 Building and Building Improvements ($44,705.47)
The replacement of the HVAC rooftop units at the Recreation Center gymnasium project was estimated to be completed prior to December 31, 2024, however the project was unable to be completed by year-end. The project will be completed in February 2025. The total amount of the project is $67,058.20 and was entirely budgeted in FY 2024. $22,352.73 worth of the project was completed and paid out in FY 2024, leaving $44,705.47 in the fund balance. Staff is requesting a budget amendment of $44,705.47 in the FY 2025 Recreation Fund.

6605210-60015 Building and Building Improvements ($84,159.14)
The Grand Avenue Gym Improvement project was estimated to be completed prior to December 31, 2024; however, the project has been delayed due to a backorder of the basketball backboard fixtures. The project is now estimated to be completed by April 2025. The total amount of the project is $179,594 and was entirely budgeted in FY 2024. $95,434.86 worth of the project was completed and paid out in FY 2024, leaving $84,159.14 in the fund balance. Staff is requesting a budget amendment of $84,159.14 in the FY 2025 Recreation Fund.

Both projects were anticipated to be completed and paid in FY 2024. These estimates were included in the anticipated 2024 expenditures in the 2025 budget, which means the proposed budget amendments will not impact the estimated fund balance included in the 2025 Budget.

Financial Impact

Budget amendment in the amounts of:

Grand Ave Gymnasium Project
Amount $44,705.47
Account 6603210-60015

Recreation Center HVAC Project
Amount $84,159.14
Account 6605210-60015

Both accounts are included in the Recreation Fund.

Recommended Motion

I move to approve the budget amendments to the Recreation Fund for the completion of the Grand Avenue Gymnasium (in the amount of $44,705.47) and the Recreation Center HVAC Project (in the amount of $84,159.14).

APPROVING BUDGET AMENDMENTS / TRANSFER OVER $10,000.00 TO THE FISCAL YEAR 2025 OPERATING BUDGET IN THE RECREATION FUND

DATE: February 24, 2025

OTHER: Published in pamphlet form

WHEREAS, the Village of Western Springs acting by and through its President and Board of Trustees (Board) has previously approved an Operating Budget for the Fiscal Year ending December 31, 2025 as part of Ordinance 24-3227; and

WHEREAS, the Director of Recreation is requesting a budget amendment in the Recreation Fund for costs associated with the HVAC replacement at the recreation center. The project was started in FY 2024 and was projected to be completed and paid for in FY 2024; and

WHEREAS, the Director of Recreation is requesting a budget amendment in the Recreation Fund for costs associated with the gymnasium improvement located at the Grand Avenue building. The project was started in FY 2024 and was projected to be completed and paid for in FY 2024.

NOW THEREFORE BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, as follows:

SECTION 1. That the transfers/amendments over $10,000.00 to the Operating Budget for the Fiscal Year Ending December 31, 2025, are hereby approved in order to fund the following:

1. The costs of HVAC replacement at Recreation Center
2. The costs of gymnasium improvements at the Grand Avenue Building

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Special Meeting thereof, held on the 24th day of February 2025 and approved by me as President on the same day.

ATTEST:

Village President Heidi Rudolph

Village Clerk Edward Tymick

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 7.C.

To: Board of Trustees
From: Matthew Supert, Director of Municipal Services
CC: Ellen Baer, Village Manager, William Tomczyk , Diana Puga, Municipal Services Coordinator
RE: Budget Amendment: Village Hall HVAC Controls (Omnibus Item)

Recommendation

The Finance Committee reviewed this item at their meeting on February 6, 2025 and recommended the approval of a budget amendment in the amount of $51,750 for the 2025 Village Hall HVAC Controls contract with the lowest bidder, Air Comfort, LLC.

Summary

The Village HVAC controls system is more than twenty years old and currently operates on a Windows XP computer system, which presents potential network and security risks to the Village's infrastructure and internal computer network. Additionally, some components of the HVAC system are more than twenty years old. In 2024, the Village Board approved an architectural design contract with 845 Design Group and Novaspace to review and design bid specifications for a replacement system.

On December 5, 2024, the Village issued a Request for Bids (RFB) for the replacement of Village Hall's HVAC Controls. An optional walk-through was held on December 13, in which interested bidders were provided an overview of the contract document and were encouraged to ask questions. On December 19, the Village received a total of 3 bids.

The results of the base bids are summarized as follows:

Air Comfort, LLC	$ 84,900.00
Interactive Building Solutions	$ 167,100.00
Building Automation Solutions	$ 207,280.00

The bid tab, including all alternates, is attached to this report.

The Municipal Services and IT Departments reviewed the project and proposals, and after careful consideration of the alternates, staff recommends adding the following alternates to the base bid pricing:

1. Alternate #2: Electric radiant heat to operate in conjunction with VAV-25
This alternate would integrate the Police Departments' women's locker room into the controls

system. It is currently on its own stand-alone thermostat.

2. Alternate #3: Electric radiant heat to operate in conjunction with VAV-9
This alternate would integrate the Police Departments' men's locker room into the controls system. It is currently on its own stand-alone thermostat.

3. Alternate #5: Stand-Alone EF's on BAS
This alternate would allow for the exhaust fans to be turned off while the building is not occupied, reducing energy. The exhaust fans currently run 24 hours a day.

The recommended alternate pricing combined is summarized as follows:

Air Comfort, LLC	$ 3,850.00
Interactive Building Solutions	$ 10,100.00
Building Automation Solutions	$ 15,200.00

The total recommended bid amount with additional alternates would be $88,750.00.

The Village budgeted $37,000 for this project in the 2025 budget. During the initial design of the bid specifications, it was anticipated that the existing HVAC controls could remain in place and the components of the system could be replaced/upgraded. It was discovered that HVAC control systems have changed significantly since the system was last modified approximately twenty years ago. Any new controls system would require an entirely new controller and new components, along with the associated programing for those components. The Municipal Services Department is requesting a budget amendment in the amount of $51,750.00. That amendment will need to be approved prior to any approval of this recommended bid. The Properties & Recreation Committee will met on Tuesday, February 4th to review the bid proposal and advanced a recommendation to the Village Board for consideration pending the budget amendment.

Financial Impact

The HVAC Controls Project is funded through the Capital Improvement Fund as listed below. The 2025 budget includes $37,000.00 for this project. A budget amendment of $51,750 will be required to fund the entire project.

Account	4104310 60020
Fund	Capital Fund
2025 Budget	$ 37,000.00
Project Cost	$ 88,750.00

Recommended Motion

I move recommend a budget amendment in an amount of of $51,750 for the 2025 Village Hall HVAC Controls contract to the lowest bidder, Air Comfort, LLC.

Re: The Village of Western Springs, Village Hall, Temperature Control System Upgrades

Dear Matt,

This project was bid twice due to low bidder turnout. In the most recent bid process a pre-bid walk through was held at the site on December 13, 2024. One Contractor attended, and three Contractors provided bids for the project. The bids varied from $88,750.00 (accepting three alternates) to $207,280.00. Air Comfort was the low bidder with a bid of $88,750.00. The references provided by Air Comfort were verified; all four references were reached. The feedback was very positive and each recommendation stated that they have or will work with Air Comfort in the future. All references stated that Air Comfort has a good technical team and is qualified to complete the work. I spoke with the Steve Strnic, a Project Executive at Air Comfort, and verified the scope of the project and confirmed that the bid was based on prevailing wage numbers.

Based on the references provided, the work went well and all references stated Air Comfort is a very capable Contractor and will continue to work with them. I am comfortable with recommending Air Comfort for the Village Hall Temperature Controls System Upgrades. Please let me know if you have any questions or require further information.

Best Regards,

Jamie Zaura, AIA, LEED AP BD+C
Principal, 845 Design Group P.C.

BUILDING AUTOMATION GROUP

Temperature Control Proposal

TO: **Village of Western Springs**

DATE: **December 17, 2024**
PROJECT: **Village of Western Springs Village Hall – Temperature Control System Upgrades**

We propose to furnish the materials and/or perform the work described below for the net price of:
Base Bid: $84,900.00
Alternate #1 New boiler controls…..$9,450.00
Alternate #2 Electric radiant heat to operate in conjunction with VAV-25…..$1,150.00
Alternate #3 Electric radiant heat to operate in conjunction with VAV-9…..$1,150.00
Alternate #4 Stand-Alone CUH & UH on BAS…..$8,550.00
Alternate #5 Stand-Alone EF's on BAS…..$1,550.00

For the above Base Bid price this proposal includes:

- Furnish and install open protocol Temperature Controls System work per the project plans & specifications dated 12/5/2024 and all associated addenda.

Lower Level

- Furnish and install (7) new thermostats for electric duct re-heat control
- Furnish and install (2) new thermostats for VAV and associated re-heat control
- Provide Johnson Controls, Inc Facility Explorer BAS Network, Supervisory Controller (FX90), programming, and commissioning. Provide and install new server to aggregate information. The new system will integrate with the existing BAS
- Integrate TEKMAR boiler controller into new building automation system
- Existing VFD's to remain
- Existing electrical panel for reheats to remain

First Floor

- Furnish and install (19) new thermostats for VAV and associated re-heat control

Our Base Bid proposal includes:

- Provide BAS training
- Provide union electrical labor & installation materials as specified. All exposed or concealed-inaccessible wiring shall be installed in EMT conduit. All concealed accessible wiring (above drop ceilings, etc.) shall be properly supported open plenum cable

aircomfort.com

AIR COMFORT
Providing the Right Climate for Business Since 1935

- Engineering, project management, owner training, commissioning agent assistance and (2) year warranty on items we provide

Our Base Bid proposal does not include:

- Providing Variable Frequency Drives
- Test & Balance scope of work (we will assist the T&B Contractor as required)
- Furnishing or wiring of Fire & Smoke Dampers/Actuators, & AHU Duct Smoke Detectors
- Painting & patching. Ceiling removals and/or replacements
- Any work shown on the Electrical Drawings. Power wiring to any mechanical equipment.
- Overtime Labor

(IMPORTANT: This proposal incorporates by reference the terms and conditions on the reverse side hereof).

This proposal and alternates listed below are hereby accepted and Applied Controls is authorized to proceed with the work.

This proposal is valid until:

December 31, 2024

AIR COMFORT
Providing the Right Climate for Business Since 1935

STANDARD EXCLUSIONS & CLARIFICATIONS

1. All work to be completed on straight time during normal working hours 7:00 a.m. – 3:30 p.m. Monday through Friday, excluding holidays, unless otherwise indicated.
2. Adequate access and entry into site and work area(s) is required.
3. Any work found necessary other than what is outlined and approved within this proposal will be completed on a time and material or quoted basis and invoiced accordingly.
4. Permits, permit drawings, PSM or engineered drawings and engineering fees are not included unless otherwise indicated.
5. Structural engineering is not included.
6. Asbestos abatement or testing of any kind is not included.
7. Painting or patching or drywall repair is not included.
8. Project change orders or additional work outside of original scope must be agreed to in writing prior to proceeding or acceptance.
9. Air Comfort reserves the right to invoice for materials ordered but not installed due to installation or repair delays which are a result of customer scheduling, access to equipment, delays created by other trades not under contract with Air Comfort or overall project delays which fall outside of our immediate control.
10. Warranty Terms:
    a. Standard warranty for service repairs is one (1) year from date of completion if the repaired systems/equipment is maintained on a regular PM schedule by Air Comfort certified technicians.
    b. Equipment which is not maintained by Air Comfort. by others is subject to a 90-day warranty, material, and workmanship.
    c. Warranty exclusions other than those noted above or extended warranties where applicable will be noted within the proposal if repair or replacement of proposed equipment warranty would deviate from standard options.
    d. Seal repair or replacement carry a standard manufacturer 90-day warranty.
    e. Equipment or materials supplied by customers and installed by Air Comfort maintain a workmanship warranty.
11. All applicable sales tax has been included unless otherwise indicated.
12. This proposal shall remain valid for 30 days.
13. Payment terms are net 30 days.
14. Credit card payments will incur a 5% processing fee per transaction unless otherwise agreed upon prior to purchase.

I. Legal Notice

VILLAGE OF WESTERN SPRINGS, VILLAGE HALL – TEMPERATURE CONTROL SYSTEM UPGRADES

The Village of Western Springs, Cook County, Illinois, does hereby invite sealed bids for the following: Village of Western Springs

Bids will be received until **9:00 am**. Prevailing Local Time on **Thursday, December 19, 2024** by mail or delivered by hand to the drop box located outside the front entrance of Village Hall, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois, 60558-0528 immediately after which time and at such place all bids will be publicly opened. A walk through of the Village Hall (meet in the lobby) located at 740 Hillgrove Avenue, Western Springs, IL 60558 shall be held on **Friday, December 13, 2024 at 9:00 am.**

Those desiring to bid may obtain copies of the contract, specifications and other bidding documents online at wsprings.com/bids.

As evidence of good faith, each bid shall be accompanied by a bid bond, bank draft or certified check and made payable to the Village of Western Springs, Illinois, in the amount of five hundred dollars ($500) or 10% of the bid price, whichever is greater, which shall be submitted to secure the Village against loss occasioned by failure of the bidder to abide by and comply with the terms of his bid.

The successful bidder shall be required to furnish payment and performance bonds in the full amount of the bid or proposal, at the time a contract is awarded, to the Village of Western Springs by a surety company authorized to do business in the State of Illinois and approved by the Village. Failure to produce acceptable bonds will constitute default and the bid bond will be forfeited. No bid shall be withdrawn after the opening of bids without the consent of the Village for a period of sixty (60) days after the scheduled time of closing bids.

Bidders will be required to comply with all laws including those related to employment of labor and the payment of local prevailing wage rates. Each bidder shall satisfy the Village as to his ability, financial and otherwise, to perform the work specified.

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

VILLAGE OF WESTERN SPRINGS
By Edward Tymick, Village Clerk

Published in the Sun-Times Newspaper on December 5, 2024
cc: Ellen Baer, Village Manager

II. Instructions to Bidders

VILLAGE OF WESTERN SPRINGS
DUE DATE: December 19, 2024

Proposals to be entitled to consideration must be made in accordance with the following instructions:

Proposals shall be submitted in an opaque, sealed envelope plainly marked with the words:

VILLAGE OF WESTERN SPRINGS VILLAGE HALL – TEMPERATURE CONTROL SYSTEM UPGRADES

and shall be delivered by hand to a drop box or mailed in time for delivery to the Office of Village Clerk, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois by **9:00 A.M.** Prevailing Local Time on **Thursday, December 19, 2024**, after which time and at such place all bids will be publicly opened and read aloud. A walk through of the Village Hall located at 740 Hillgrove Avenue, Western Springs, IL 60558 shall be held on **Friday, December 13, 2024 at 9:00 am.**

Proposals received after the time for opening will not be considered.

Proposals must be signed by an authorized official of the contractor's organization, and the name of the official and his title typed below the signature. If the bidder is a corporation, the corporate seal must be affixed.

Bid security in the form of a bid bond, bank draft or certified check made payable to the Village of Western Springs, in the amount of FIVE HUNDRED DOLLARS ($500) or 10% of the bid (whichever is more), shall be submitted with each bid. The proceeds of any bid security shall become the property of the Village if, for any reason, a bidder, within FORTY-FIVE (45) days after the opening of bids withdraws his bid without the consent of the Village, or if on notice of award refuses or is unable to execute the approved contract and obtain the required performance and payment bonds. Bid deposits may be held for a period not exceeding FOURTY FIVE (45) days. (NOTE: For those projects which will not require the performance bonds, consideration should be given to holding the bid security until delivery is made.)

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

The successful bidder will be required to furnish and pay for satisfactory Performance and Labor and Material Payment Bonds in the amount of one hundred percent (100%) of the contact sum. Execution of the Contract by the Village is contingent upon receipt of acceptable Performance and Payment Bonds and Insurance Certificates.

The Village reserves the right to require of any bidder, such information necessary to satisfy the Village of the bidder's qualifications and to withhold formal signing of the contract until such information is received.

The successful bidder will be required to execute a contract in the form prescribed by the Village and must certify that the bidder is eligible to enter into public contracts under the Illinois Criminal Code, has a written sexual harassment policy and complies with Illinois Department of Revenue policies regarding taxes by executing the Certification attached hereto as **"Exhibit A"** and made a part hereof.

Bidders will be required to comply with all applicable laws including those relating to the employment of labor and the Illinois Prevailing Wage Act and payment of the applicable prevailing wage.

This contract will be awarded without discrimination in compliance with all applicable local state and federal laws.

Responsibility of the bidders will be determined by factors in addition to financial responsibility, such as past records of its or other entities' transactions with the Village of Western Springs, experience, ability to work cooperatively with the Village and its Administration, adequacy of equipment, ability to complete performance within necessary time limits, and other pertinent considerations, such as, but not limited to, reliability, reputation, competency, skill, efficiency, facilities and resources.

III. Proposal

TO: Village of Western Springs
740 Hillgrove Avenue
Western Springs, IL 60558

RE: VILLAGE OF WESTERN SPRINGS VILLAGE HALL – TEMPERATURE CONTROL SYSTEM UPGRADES

1. The specifications and directions for the proposed service are those prepared by the Village of Western Springs and designated as Special Provisions and which cover the work described in said document and the "Agreement."

2. In submitting this proposal, the undersigned declares that the only persons or parties interested in the proposal as principals are those named herein; and that the proposal is made without collusion with any other person, firm, or corporation.

3. The undersigned further understands and agrees that if this proposal is accepted, the undersigned is to furnish and provide all necessary equipment, machinery, tools, apparatus and other means of maintenance, and to do all of the work and perform all the services, and to furnish all of the materials specified in the bid documents in the manner and at the time therein prescribed, and in accordance with the requirements therein set forth.

4. The undersigned further agrees to execute an Agreement for this work and present the same to the Village within seven (7) days after the date of notice of the award of the Agreement to the Contractor.

5. The undersigned further agrees that he and his surety will execute and present within seven (7) days after the date of notice of the award of Agreement the performance and labor and materials payment bonds in a form satisfactory to the Village of Western Springs, in the amount of one hundred percent (100%) of the contract sum guaranteeing the faithful performance of the work in accordance with the terms of the bid documents.

6. The undersigned further agrees to be available to begin work by **February 2025**, as provided for in the Agreement, unless otherwise agreed to by the Village, and to prosecute the work in such manner and with sufficient materials, equipment, and labor as will insure the providing of specified service within the time limit specified herein, it being understood and agreed that the providing of the specified service within the time limit and according to the maintenance schedule is an essential part of the Agreement.

7. This proposal is accompanied by a bid bond, bank draft or certified check complying with the requirements of the specifications and directions, made payable to the "Village of Western Springs, Illinois". The amount of the bid security is Five Hundred ($500.00) Dollars of 10% of the bid (whichever is more). If this proposal is accepted

and the undersigned shall fail to execute an Agreement and said security as required herein, it is hereby agreed that the amount of the bid bonds shall become the property of the Village, and shall be considered as payment of damages due to delay and other causes suffered by the Village because of failure to execute said Agreement or provide the required performance and payment bonds; otherwise said bid security shall be returned to the undersigned pursuant to the bid documents.

ATTACH BID SECURITY HERE

8. The undersigned submits herewith a schedule of prices covering the work to be performed under this Agreement; the undersigned must show in the schedule the prices for which the undersigned proposed to perform.

9. The undersigned further declares to have carefully examined this proposal, the specifications and directions, the Agreement, the legal notice, and special provisions (if any), and to have inspected in detail the site of the proposed work and is familiar with all of the local conditions affecting the Agreement and the detailed requirements of service and understands that in making this proposal waives all right to plead any misunderstanding regarding the same.

Bid Bond

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so

BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY (BYLAWS)

ARTICLE V.

CORPORATE ACTIONS

. . . .

EXECUTION OF DOCUMENTS:

. . . .

Section 6.(b) The President, any Vice President or the Secretary, shall have the power and authority:

(1) To appoint Attorneys-in-fact, and to authorize them to execute on behalf of the Company bonds and other undertakings, and

(2) To remove at any time any such Attorney-in-fact and revoke the authority given him.

NATIONAL INDEMNITY COMPANY (BY-LAWS)

Section 4. Officers, Agents, and Employees:

A. The officers shall be a President, one or more Vice Presidents, a Secretary, one or more Assistant Secretaries, a Treasurer, and one or more Assistant Treasurers none of whom shall be required to be shareholders or Directors and each of whom shall be elected annually by the Board of Directors at each annual meeting to serve a term of office of one year or until a successor has been elected and qualified, may serve successive terms of office, may be removed from office at any time for or without cause by a vote of a majority of the Board of Directors, and shall have such powers and rights and be charged with such duties and obligations as usually are vested in and pertain to such office or as may be directed from time to time by the Board of Directors; and the Board of Directors or the officers may from time to time appoint, discharge, engage, or remove such agents and employees as may be appropriate, convenient, or necessary to the affairs and business of the corporation.

NATIONAL INDEMNITY COMPANY (BOARD RESOLUTION ADOPTED AUGUST 6, 2014)

RESOLVED, That the President, any Vice President or the Secretary, shall have the power and authority to (1) appoint Attorneys-in-fact, and to authorize them to execute on behalf of this Company bonds and other undertakings and (2) remove at any time any such Attorney-in-fact and revoke the authority given.

NATIONAL LIABILITY & FIRE INSURANCE COMPANY (BY-LAWS)

ARTICLE IV

Officers

Section 1. Officers, Agents and Employees:

A. The officers shall be a president, one or more vice presidents, one or more assistant vice presidents, a secretary, one or more assistant secretaries, a treasurer, and one or more assistant treasurers, none of whom shall be required to be shareholders or directors, and each of whom shall be elected annually by the board of directors at each annual meeting to serve a term of office of one year or until a successor has been elected and qualified, may serve successive terms of office, may be removed from office at any time for or without cause by a vote of a majority of the board of directors. The president and secretary shall be different individuals. Election or appointment of an officer or agent shall not create contract rights. The officers of the Corporation shall have such powers and rights and be charged with such duties and obligations as usually are vested in and pertain to such office or as may be directed from time to time by the board of directors; and the board of directors or the officers may from time to time appoint, discharge, engage, or remove such agents and employees as may be appropriate, convenient, or necessary to the affairs and business of the Corporation.

NATIONAL LIABILITY & FIRE INSURANCE COMPANY (BOARD RESOLUTION ADOPTED AUGUST 6, 2014)

RESOLVED, That the President, any Vice President or the Secretary, shall have the power and authority to (1) appoint Attorneys-in-fact, and to authorize them to execute on behalf of this Company bonds and other undertakings and (2) remove at any time any such Attorney-in-fact and revoke the authority given.

V. Pre-Qualification Process (N/A)

REQUIRED DOCUMENTATION

- **OVERVIEW OF THE COMPANY**
- **THREE YEARS CLEANING GOVERNMENT OR COMMERCIAL ACCOUNTS**
- **FIVE (5) GOVERNMENT OR COMMERCIAL REFERENCES**
- **QUALITY CONTROL/QUALITY ASSURANCE PLAN**
- **INSURANCE DOCUMENTATION**

PRE-QUALIFICATION INFORMATION (N/A)

This will be a Performance Based Contract. This is a one-year contract with four, one-year extension options. The extension option is for a one-year period and is effective if approved by the Village Board.

BASIS OF AWARD (N/A)

The evaluation process for the award of this contract is a **two-step** process consisting of a Request for Qualifications, narrowing the field down to appropriate candidates, and then a Request for Proposals outlining the costs and terms of service.

VI. Contract Provisions

Location

This project is located at the Village Hall located at 740 Hillgrove Avenue, Western Springs,

IL 60558.

These specifications are not to be construed as exclusive. It is intended that the services provided by the Contractor include all functions normally considered a part of workmanlike, satisfactory work, whether or not specifically listed herein.

Term

The term of this contract shall be a one calendar year period and ending 365 days after the notice to proceed date, unless the contract is terminated pursuant to the terms herein.

VII. General Specifications

Acceptability of Work

The Village of Western Springs will be sole and final judge of the acceptability of the work to be performed and the services to be rendered under the terms of the Agreement.

Applicable Laws and Regulations

The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:

A. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in the Contract to be entered into; that this Contract is made without connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.
B. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is delinquent in the payment of any money owed to the Village.
C. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
D. The Vendor complies with the Illinois Drug Free Work Place Act.
E. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.
F. The Vendor complies with the Americans with Disabilities Act.

G. The Vendor states that any work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all applicable Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
H. The Vendor also agrees to require any subcontractor doing work under this Contract to agree to adhere to the requirements of this Contract.

Assignment

The Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of any award or any or all of its rights, title, or interest therein, without the prior written consent of the Village of Western Springs.

Authority

The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

Bidder Investigations

Before submitting a bid, each bidder shall make all investigations and examinations necessary to ascertain all site conditions and requirements affecting the full performance of the contract and to verify any representations made by the Village of Western Springs upon which the bidder will rely. If the bidder receives an award as a result of its bid submission, failure to have made such investigations and examinations will in no way relieve the bidder from its obligation to comply in every detail with all provisions and requirements of the contract documents, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the Contractor for additional compensation.

Bonds

If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate on completion of the Work, but shall be reduced to ten percent (10%) of the contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of issuance of the final payment by the Village.

Change in Scope of Work

The Village of Western Springs may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the work or of the Contractor's services has been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to

the contract, unless such changes or adjustments have been made by written amendment to the contract approved by the Village Board and the Contractor.

If the Contractor believes that any particular work is not within the scope of contract, is a material change, or will otherwise require more compensation to the Contractor, the Contractor must immediately notify the Village Manager in writing of this belief. If the Village Manager believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

Where change orders, or a series of change orders, authorize or necessitate an increase or decrease in either the cost of the work totaling $10,000 or more, or the time of completion of the work by thirty (30) days or more, a written determination must be approved by the Village Board and signed by the Village President or his designee stating that the circumstances necessitating the changes in performance were not reasonably foreseeable at the time the Contract was signed or, the change is germane to the Contract or the change order is in the best interests of the Village.

Collusion among Bidders

Each bidder, by submitting a bid, certifies that it is not a party to any collusive action or any action that may be in violation of the Sherman Antitrust Act. Any or all bids shall be rejected if there is any reason for believing that collusion exists among the bidders. The Village of Western Springs may or may not, at its discretion, accept future bids for the same work from participants in such collusion.

More than one bid from an individual, firm, partnership, corporation, or association under the same or different names may be rejected. Reasonable grounds for believing that a bidder has interest in more than one bid for the work being bid may result in rejection of all bids in which the bidder is believed to have interest.

Nothing in this clause shall preclude a firm acting as a subcontractor to be included as a subcontractor for two or more primary Contractors submitting a bid for the work.

Compliance with Freedom Of Information Act Requests

Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor/Consultant acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor/Consultant's possession and to provide the requested public records to the Village within two (2) business days of the request being made by the Village.

The Contractor/Consultant agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Agreement.

The Contractor/Consultant acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10)."

Compliance with Laws; Employment Discrimination

In the performance of its obligations pursuant to this Agreement, the Contractor shall comply with all applicable provisions of federal, state and local law, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation, Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Contractor agrees to comply with all applicable federal laws, state laws and regulations including, but not limited to, such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Contractor also agrees to require any contractor doing work or performing professional or consulting services in connection with its program or this Agreement to agree to adhere to the requirements of this Section. The Contractor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and federal and state statutes, including the Illinois Prevailing Wage Act, and the Contractor further agrees to make all required withholdings and deposits therefore. Such requirements shall be included by the Contractor in all its contracts and agreements with contractors and subcontractors for this program. The parties agree that the most recent of such state and federal requirements will govern the administration of this Agreement at any particular time. Likewise, new state and federal laws, regulations, policies and administrative practices may be established after the date of the Agreement has been executed and may apply to this Agreement. The Contractor agrees to maintain full compliance with changing government requirements that govern or apply to its operation." In addition, the Contractor agrees to comply with the Americans with Disability Act (42 U.S.C. 12101 et seq.), and all rules and regulations issued pursuant to the Act, there shall be no discrimination on the basis of disabilities (as defined in the Act) in the operation of the services and programs provided by the Contractor hereunder. Any complaint of such discrimination received by the Contractor shall be immediately forwarded to the Village Manager.

The Contractor shall comply with all applicable provisions of the Illinois Human Rights Act including the requirement that the Contractor have on file a written sexual harassment policy.

Contractor Personnel

The Village Manager shall, throughout the life of the contract, have the right of reasonable rejection and approval of employees or subcontractors assigned to the work by the Contractor. If the Village of Western Springs reasonably rejects employees or subcontractors, the

Contractor must provide replacement staff or subcontractors satisfactory to the Village in a timely manner and at no additional cost to the Village. The day-to-day supervision and control of the Contractor's employees and subcontractors is the responsibility solely of the Contractor.

Debarment

By submitting a bid, the bidder certifies that it is not currently debarred from submitting bids for contract issued by any political subdivision or agency of the State of Illinois and that it is not an agent of a person or entity that is currently debarred from submitting bids for contract issued by any political subdivision or agency of the State of Illinois.

Default Clause

A default shall occur under this contract if the Contractor or Village shall not comply with the terms of this contract. The following list is presented as an example only and does not include a listing of all events of default. Omission of an event does not indicate an intent to excuse such an event as an event of default. Examples are, if the Contractor fails to begin work on the date set forth in the contract (unless the Contractor and Village shall agree in writing to a delay in the start of performance), if the Contractor fails to diligently and consistently perform the work once the contract has started (including but limited to, failing to provide enough properly skilled workers; to supply proper material; to make proper payments to subcontractors, or for materials or labor), or otherwise is guilty of a substantial violation of the contract or specifications, then the Village may declare that a default exists under the contract. The Village shall specify the nature of the default in a written notice mailed to the Contractor or delivered to its employee or agent. Upon receipt of said notice, the Contractor shall be liable and shall pay the Village the amount shown in the following schedule of deductions, not as a penalty but as liquidated damages, for each day until the default is corrected. The liquidated damages for default are approximate, due to the impracticality of calculating and proving actual delay costs. This schedule of deductions establishes the cost of delay to account for administration, engineering, inspection, and supervision during periods of extended and delayed performance. The costs of delay represented by this schedule are understood to be a fair and reasonable estimate of the costs that will be borne by the Village during extended and delayed performance by the Contractor of the work, remaining incidental work, correction of work improperly completed, or repair of work damaged as a result of the Contractor. The liquidated damage amount specified will accrue and be assessed until final completion of the total physical work off the contract even though the work may be substantially complete. The Village will deduct these liquidated damages from any monies due or to become due to the Contractor from the Village.

Schedule of Deductions for Each Day of Default Original Contract Amount from more than	to and including	calendar day
$0	$25,000	$300
$25,000	$100,000	$375
$100,000	$500,000	$550
$500,000	$1,000,000	$725

$1,000,000	$2,000,000	$900
$2,000,000	$3,000,000	$1,100
$3,000,000	$5,000,000	$1,300
$5,000,000	$7,500,000	$1,450
$7,500,000	And over	$1,650

If such default is not corrected within seven (7) days after receipt of the notice, the Village may terminate the Contractor's rights under the contract and complete the work by whatever method the Village deems is appropriate. Upon the termination of the contract, the Contractor agrees to promptly and completely remove all equipment and materials from the job site with no damage to the improvements in place and to return all keys to Village buildings, and all employee security passes. In the case of a default, the Contractor shall not be entitled to receive any further payments until the work under the contract has been completed.

Delay

Contractor shall perform the work of this contract expeditiously in cooperation with the Village, its agents, employees and other Contractors and subcontractors. Contractor shall make no claim against Village, and no claim shall be allowed for any damages which may arise out of any delay caused by Village, its agents, employees or other Contractors or subcontractors. Contractor's sole remedy for delay from the Village shall be an extension in the Contract Time.

Entire Agreement

This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

Exceptions

Bidders taking exception to any part or section shall indicate such exceptions on the bid form. Failure to indicate any exception will be interpreted as the bidder's intent to comply fully with the requirements as written. Conditional or qualified bids, unless specifically allowed, shall be subject to rejection in whole or in part.

Expenses Incurred in Preparing Bid

The Village accepts no responsibility for any expense incurred by the bidder in the preparation and presentation of a bid. Such expenses shall be borne exclusively by the bidder.

Failure to Deliver

In the event of failure of the Contractor to deliver services in accordance with the contract terms and conditions, the Village, after due oral or written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase

and administrative costs. This remedy shall be in addition to any other legal remedies that the Village may have.

Guaranty, Warranties and Representations

A. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.

B. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.

C. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.

D. It is authorized to sell and install the goods, supplies, equipment and/or services.

E. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.

F. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.

G. In addition to any other third party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.

H. The Vendor shall maintain a current, valid Village business license, and the Vendor shall post with the Village and keep on file and in force for the duration of this Contract a contractor's license bond in the amount required by the Village Code.

I. A written statement containing guaranty for a minimum of one (1) year after final payment or longer for all material and workmanship must be furnished with the bid.

Indemnity/Hold Harmless Provision

To the fullest extent permitted by law, the Contractor hereby agrees to defend, indemnify and hold harmless the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers, against all injuries, deaths, loss, damages, claims, patent claims, suits, actions, liabilities of any kind, including, as allowed by law, liabilities incurred due to joint negligence of the Village and the Contractor, judgments, cost and expenses, which may in anyway accrue against the Village, its officers, appointed and

elected officials, president and trustees, agents, employees, attorneys and volunteers, arising in whole or in part or as a consequence of the performance the contract or any part of the work by the Contractor, its employees, agents, or subcontractors, or which may in anyway result therefore, except that arising out of the sole legal cause of the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers. The Contractor shall, at its own expense, appear, defend and pay all charges of attorneys and all costs and other expenses arising therefore or incurred in connections therewith, and, if any judgment shall be rendered against the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers, in any such action, the Contractor shall, at its own expense, satisfy and discharge the same.

Contractor expressly understands and agrees that any performance bond or insurance policies required by this contract, or otherwise provided by the Contractor, shall in no way limit the responsibility to indemnify, keep and save harmless and defend the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as herein provided.

Independent Contractor

The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (i) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (ii) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the

Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

Insurance Requirements

Contractor shall procure and maintain, for the duration of the contract, insurance written on an "occurrence" basis, against claims for injuries to persons or damages to property, which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees or subcontractors.

I. MINIMUM SCOPE OF INSURANCE

Coverage shall be at least as broad as:

A. Insurance Services Office Commercial General Liability occurrence form CG 0001 with the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers named as additional insureds, including ISO Additional Insured Endorsement CO 2026, CG 2010; and
B. Owners and Contractors Protective Liability (OCP) policy with the Village as insured; and
C. Insurance Service Office Business Auto Liability coverage form number CA 0001 (Ed. 10/90 or newer), Symbol 01 "Any Auto."
D. Workers' Compensation as required by the Labor Code of the State of Illinois and Employers' Liability insurance.

II. MINIMUM LIMITS OF INSURANCE

Contractor shall maintain limits no less than:

A. Commercial General Liability: $1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage. The general aggregate shall be twice the required occurrence limit. Minimum General Aggregate shall be no less than $2,000,000 or a contract specific aggregate of $1,000,000.
B. Business Automobile Liability: $1,000,000 combined single limit per accident for bodily injury and property damage.
C. Workers' Compensation and Employers' Liability: Workers Compensation coverage with statutory limits and Employers' Liability limits of $1,000,000 per accident.
D. Excess Liability/Umbrella Coverage: $2,000,000 per occurrence and in the aggregate.

III. DEDUCTIBLES AND SELF-INSURED RETENTIONS

Any deductibles or self-insured retentions must be declared to and approved by the Village. At the option of the Village, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions relative to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers;

or the Contractor shall procure a bond guaranteeing payment of losses and related investigation, claim administration and defense expenses.

IV. OTHER INSURANCE PROVISIONS

The policies are to contain, or be endorsed to contain, the following provisions:

A. General Liability and Automobile Liability Coverages

1. The Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers are to be covered as specifically listed additional insureds as respects: liability arising out of the Contractor's work, including activities performed by or on behalf of the Contractor; products and completed operations of the Contractor; premises owned, leased or used by the Contractor; or automobiles owned, leased, hired or borrowed by the Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers.
2. The Contractor's insurance coverage shall be primary as respects the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers. Any insurance or self- insurance maintained by the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers shall be excess of Contractor's insurance and shall not contribute with it.
3. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers.
4. The Contractor's insurance shall contain a Severability of Interests/Cross Liability clause or language stating that Contractor's insurance shall apply separately to each insured against whom the claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. If any commercial general liability insurance is being provided under an excess or umbrella liability policy that does not "follow form," then the Contractor shall be required to name the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as additional insureds. A copy of the actual additional insured endorsement shall be provided to the Village.

B. Workers' Compensation and Employers Liability Coverage

The insurer shall agree to waive all rights of subrogation against the Village, its officers, officials, trustees, agents, employees and volunteers for losses arising from work performed by Contractor for the municipality.

C. All Coverages

Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the Village Manager at the Village's principle office address.

V. ACCEPTABILITY OF INSURERS

Insurance is to be placed with insurers with a Best's rating of no less than A-, VII and licensed to do business in the State of Illinois.

VI. VERIFICATION OF COVERAGE

Contractor shall furnish the Village with certificates of insurance naming the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as additional insureds, and with original endorsements affecting coverage required by this clause. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The Contractor's Public Liability Insurance shall be written on the Comprehensive form and shall include Contractual Liability, Products and Completed Operations, and Automobile Liability, all to the limits state above. Comprehensive Liability Insurance shall specifically include coverage for Independent Contractors and for both Hired and Non-Owned Automobiles. The insurance shall apply to all activities including spray-painting operations. The Village reserves the right to request full certified copies of the insurance policies and endorsements.

VII. SUBCONTRACTORS

Contractor shall include all subcontractors as insured under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

VIII. ASSUMPTION OF LIABILITY

The Contractor assumes liability for all injury to or death of any person or persons including employees of the Contractor, any sub-contractor, any supplier or any other person and assumes liability for all damage to property sustained by any person or persons occasioned by or in any way arising out of any work performed pursuant to this contract.

IX. NO PERSONAL LIABILITY.

No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

Law and Venue

This Agreement provides for services to be performed within the State of Illinois. Accordingly, this Agreement, and all questions of interpretation, maintenance and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois. The parties agree that for the purpose of any litigation relative to this Agreement and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the parties' consent to the in person and jurisdiction of said Court for any such action or proceeding.

Non-appropriation

All funds for payment by the Village under this contract are subject to the availability of an annual appropriation for this purpose by the Village. In the event of non-appropriation of funds by the Village for the services provided under the contract, the Springs will terminate the contract, without termination charge or responsibility for or obligation to the Contractor or for damages or other liability, on the last day of the then-current fiscal year for the services covered by this contract is spent, whichever event occurs first. If at any time funds are not appropriated for the continuance of this contract, cancellation shall be accepted by the Contractor on thirty days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated under this contract beyond the date of termination.

Oral Statements

No oral statement of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. All modifications to the contract must be made in writing by the Village of Western Springs in the form of addenda which shall be mailed to all those that have picked up bid specifications and be made available to the public.

Permits, Licenses

The Contractor shall procure and pay for all permits and licenses necessary for the performance of the work, and/or required federal, state, county, and Village regulations and laws.

Protection and Restoration of Property

The Contractor shall take all necessary precautions for the protection of corporate or private property. The Contractor is responsible for the damage or destruction of real or personal property resulting from neglect, misconduct or omission in his manner or method of execution or non-execution of the work, or caused by defective work or the use of unsatisfactory materials, and such responsibility shall not be released until the work shall have been completed, accepted, and the requirements of the specifications complied with as determined by the Village.

Whenever public or private property is so damaged or destroyed, the Contractor shall, at its own expense, restore such property to a condition equal to that existing before such damage or injury was done by repairing, rebuilding or replacing it as may be directed, or he shall otherwise make good such damage or destruction in an acceptable manner. If the Contractor fails to do so, the Village may, after the expiration of a period of 48 hours after giving notice in writing, proceed to repair, rebuild or otherwise restore such property as may be deemed necessary and, in addition to any other remedy, the cost thereof shall be deducted from any compensation due, or which may become due, under the contract.

References

A list of current references for jobs of similar size and scope must be submitted and included with the bid. A minimum of five (5) shall be required. Please fill out reference sheet in the Schedule of Bid Prices section of this document.

Renewal of Contract

Upon written agreement of both parties at least **THIRTY (30)** days prior to anniversary date of the contract, this contract may be renewed by the Village of Western Springs for a period of **FOUR (4)** successive one-year period(s) under the same prices, terms, and conditions as in the original contract.

Responsibility for Work

The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

(a) All employees on the work and other persons who may be affected thereby;

(b) All the work and all materials or equipment to be incorporated therein, whether in storage on or off the side; and

(c) Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation, maintenance or replacement in the course of work.

The Contractor shall be responsible for complying with all applicable laws, ordinances, rules, regulations, and orders of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury, or loss. The Contractor shall be responsible for erecting and maintaining as required by the conditions and progress of the work, all necessary safeguards for its safety and protection. The Contractor shall notify owners of adjacent utilities when performance of the work may affect them. All damage, injury or loss to any property referred to in paragraph (a) or (b) caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by the Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as all the work is completed and accepted by the Village.

Right to Audit

The Contractor shall maintain such financial records and other records as may be prescribed by the Village of Western Springs or by applicable federal and state laws, rules, and regulations. The Contractor shall retain these records for a period of five years after final payment, or until they are audited by the Village, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Village, its designees, or other authorized bodies.

Severability

In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

Smoking Policies

All Contractors, their subcontractors, employees and agents are required to abide by the smoking policies in effect in all municipal buildings owned, leased, or operated by the Village. Failure to abide by these regulations is a violation of this contract; and in addition may subject the violator to civil penalties as prescribed in State law.

Successors/Assigns

This Contract shall ensure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the parties hereto. This Contract and the obligations it impose upon the Contractor are not transferable by Contractor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

Taxes, Benefits and Royalties

The Village of Western Springs is a public body and is exempt from all sales, excise and use taxes and the Village shall supply its sales tax number to the Contractor for its use where appropriate. Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

Termination

If the contract is terminated by a default of the Contractor the Village shall pay the Contractor any amount due for actual, completed and accepted work, and the Village shall not be obligated to pay the Contractor any more money.

Unnecessarily Elaborate and Unresponsive Submittals

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to the solicitation are not desired and may be construed as an indication of the bidder's lack of responsiveness. Further, if the format of the bidder's submittal is prescribed in the bid documents and the bidder fails to follow that format, this may be construed as an indication of the bidder's lack of responsiveness.

Waivers of Lien

The Village requires for each application for payment a properly completed Contractor's Affidavit setting out, under oath, the name, address and amount due or to become due, of each subcontractor, vendor or party included in that payment. For every party listed, the Contractor shall also provide a full or partial waiver of lien, as appropriate, before a payment will be made to the Contractor. The Contractor's partial or final waiver of lien must be included. Payment Certificates shall not be issued without such mechanics' lien waivers and Contractor's sworn statements unless they are conditioned upon receipt of such waivers and statements.

If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

The Contractor will indemnify and save the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers harmless from all claims growing out of the lawful demands of subcontractors, laborers, workers, mechanics, material men, and furnishers of machinery and parts thereof, equipment, tools, and all supplies, incurred in the furtherance of the performance of the work. The Contractor shall, at the Village's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so the Village may, after having notified the Contractor, withhold from the Contractor's unpaid compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed in accordance with the terms of the contract documents.

The Village shall have the right to enter the premises for the purposes of doing work not covered by the contract. This provision shall not be construed as relieving the Contractor of the sole responsibility for the care and protection of the work, or the restoration of any damage work except such as may be caused by agents or employees of the Village.

Contractor's Drug-Free Workplace Certification

Pursuant to Illinois Compiled Statutes, Chapter 30, Act 580 et. seq. ("Drug-Free Workplace"), the undersigned Contractor hereby certifies to the contracting agency that it will provide a drug-free workplace by:

(A) Publishing a statement:

(1) Notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, including cannabis, is prohibited in the grantee's of Contractor's workplace.

(2) Specifying the actions that will be taken against employees for violations of such prohibition.

(3) Notifying the employee that, as a condition of employment on such contract or grant, the employee will:

(a) Abide by the terms of the statement; and

(b) Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction.

(B) Establishing a drug free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's or Contractor's policy of maintaining a drug-free workplace

(3) Any available drug counseling, rehabilitation, and employee assistance program; and

(4) The penalties that may be imposed upon employees for drug violations.

(C) Making it a requirement to give a copy of the statement required by subsection (a) to each employee engaged in the performance of the contract or grant and to post the statement in a prominent place in the workplace.

(D) Notifying the contracting agency within ten (10) days after receiving notice under part (b) of paragraph (3) of subsection (a) from an employee or otherwise receiving actual notice of such conviction.

(E) Imposing a sanction on, or requiring the satisfactory participation in a drug assistance or rehabilitation program by any employee who is so convicted, as required by Illinois Compiled Statutes, Chapter 127, Act 580, Paragraph 5.

(F) Assisting employees in selecting a course of action in the event drug counseling treatment and rehabilitation is required and indicating that a trained referral team is in place.

(G) Making a good faith effort to continue to maintain a drug-free workplace through implementation of this Section.

Failure to abide by this certification shall subject the Contractor to the penalties provided in Illinois Compiled Statutes, Chapter 30, Act 580, Paragraph 6.

DATED: 12/19/24

ATTEST:

Exhibit A

Agreement

This Agreement (the "Agreement") made this the ___day of_____in the year 2024 by and between the Village of Western Springs, Illinois, 740 Hillgrove Avenue, Western Springs, Illinois, 60558 (the "Village") and _____ (the "Contractor"). The Village and the Contractor are at times referred herein, individually, as the "Party" and, collectively, as the "Parties".

The Village and Contractor agree as set forth below:

1. For the financial consideration hereinafter set forth, the Contractor agrees to furnish and provide and install all commercially necessary labor, materials, equipment and services and to do all other activities commercially required (the "Work") to complete the Village of Western Springs Village Hall – Temperature Control System Upgrade as set forth in the contract requirements, a copy of which is attached here to as exhibit 1 dated 12.05.2024, and as agreed to in the Contractor's Proposal dated 12.19.2024.

2. The Contractor agrees to commence the Work on or before **February 2025,** and will officially, diligently, and expeditiously conduct the Work in a commercially reasonable manner so as to assure completion by **April 2025**.

3. The Village shall pay the Contractor for the performance of the Work to complete the Village of Western Springs Village Hall – Temperature Control System Upgrades a total dollar amount not to exceed _____ in accordance with the Contractor's Proposal dated **December 19, 2024,** subject to further additions and deductions as may be agreed upon in accordance with the terms of the contract documents. Payment shall be made monthly however, the financial payments and any penalties associated with late payments due under the Contract shall be paid by the Village only in accordance with the provisions of the Local Government Prompt Payment Act (50 ILCS 505/).

4. The Contractor represents and warrants that it will comply with the applicable state and federal laws concerning prevailing wage rates and all applicable state and federal laws and requirements concerning equal opportunities.

5. This Agreement shall consist of, incorporate and include each of the following contract documents, whether attached hereto or incorporated by reference herein:

   A. Legal Notice (Advertisement for Bid) published on **December 5, 2024.**

   B. Instructions to Bidders dated **December 5, 2024.**

   C. Contractor's Proposal dated **December 19, 2024.**

D. Contractor's bid bond submitted by _____ in the amount of $_____ dated **December 19, 2024.**

E. General Specifications and all additional provisions **December 5, 2024.**

F. Contractor's Drug Free Workplace Certification dated **December 19, 2024.**

G. Contractor's Certification Regarding Non-Payment of Compensation dated **December 19, 2024.**

H. Exhibit B - Contractor certifications including Certification of Eligibility to Enter into Public Contracts.

I. Exhibit C – Change Order Form

J. Required Performance and Payment Bonds provided by the Contractor.

K. Required Insurance Certificates provided by the Contractor.

L. Rider to Contract- General Conditions

6. Notice to Proceed With the Work. The Vendor shall commence work under this Contract upon issuance of written Notice to Proceed and the duration of the contract shall be one year or as otherwise stated with a completion date.

7. Independent Contractor Status; Reporting. The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.

8. Effective Date. After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

EXCEPTIONS TO THIS BID (THIS PAGE MUST ACCOMPANY BID)

All of the contract documents are a part of this Agreement as if attached hereto or repeated herein.

IN WITNESS WHEREOF, the signatories below, pursuant to properly issued authority, have signed this Contract, which shall become effective on the date that the Village President or Village Manager signs this Contract.

EXHIBIT B

CERTIFICATION OF ELIGIBILITY TO ENTER INTO PUBLIC CONTRACTS BY THE CONTRACTOR

I, _____, having being first

duly sworn, depose and state that I am the

_____

(insert "sole owner "partner", "president"," other" proper title)

and the authorized agent of _____, which has submitted a proposal to, and is entering into a contract with, the Village of Western Springs for the performance of work in relation to the _____ Project in the Village of Western Springs, and certifies on behalf of said company as follows:

1. The company is not barred from contracting with the Village as a result of a violation of either Section 33E-3, or 33E-4 of the Illinois Criminal Code, or of any similar offense of "bid-rigging" or "bid-rotating" of any state or of the United States.

2. The company shall comply with all applicable provisions of the Illinois Human Rights Act and has a written sexual harassment policy in full compliance with that Act.

3. The company is not delinquent in the payment of any tax administered by the Illinois Department of Revenue or,

   a. is contesting such liability or the amount of tax in accordance with procedures established by the appropriate revenue act, or

   b. has entered into an agreement with the Department of Revenue for payment of all taxes due and is in compliance with that agreement.

   c. Not in default, as defined in 5 ILCS 385/2, on an educational loan, as defined in 5 ILCS 385/1.

4. In compliance with the Veterans Preference Act (330 ILCS 55/).

5. In compliance with equal employment opportunities and, during the performance of the Agreement, the Contractor shall:

   a. Not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.

b. If it hires additional employees in order to perform the Agreement or any portion hereof, it will determine the availability (in accordance with the Illinois Department of Human Right's Rules and Regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

c. In all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.

d. Send to each labor organization or representative of workers, with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations. If any such labor organization or representative fails or refuses to cooperate with the Contractor in its efforts to comply with such Act and Rules and Regulations, the Contractor will promptly so notify the Illinois Department of Human Rights and the VILLAGE and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

e. Submit reports as required by the Illinois Department of Human Rights, Rules and Regulations, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and the Department's Rules and Regulations.

f. Permit access to all relevant books, records, accounts, and work sites by personnel of the contracting agency and the Illinois Department of Human Rights for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and the Department's Rules and Regulations.

g. Not maintain or provide for its employees any segregated facilities at any of its establishments, and not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. As used in this section, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color or national origin because of habit, local custom or otherwise.

6. In compliance with 775 ILCS 5/2-105(A)(4) by having in place and enforcing a written sexual harassment policy.

7. In agreement that, in the event of non-compliance with the provisions of this certification relating to equal employment opportunity, the Illinois Human Rights Act or the Illinois Department of Human Rights, Rules and Regulations, the Contractor may be declared ineligible for future contracts with the VILLAGE, and the Agreement may be canceled or

voided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

8. In compliance with the requirements of 30 ILCS 580/ (Drug Free Workplace Act).

9. The Contractor and its officers, employees and agents agree not to commit unlawful discrimination and agree to comply with all applicable provisions of the Illinois Human Rights Act, Title VII of the Civil Rights Act of 1964, as amended, the Americans with Disabilities Act, the Age Discrimination in Employment Act, Section 504 of the Federal Rehabilitation Act, and all applicable rules and regulations. The Contractor certifies that it is an "Equal Opportunity Employer" as defined by federal and State laws and regulations, and agrees to comply with the Illinois Department of Human Rights ("IDHR") Equal Opportunity Employment clause as required by the IDHR's Regulations (44 Ill. Adm. Code, Part 750, Appendix A). As required by Illinois law and IDHR Regulation, the Equal Opportunity Employment clause is incorporated by reference in its entirety as though fully set forth herein. The Contractor certifies that it agrees to comply with the Prohibition of Segregated Facilities clause, which is incorporated by reference in its entirety as though fully set forth herein. See, Illinois Human Rights Act (775 ILCS 5/2-105). See also, Illinois Department of Human Rights Rules and Regulations, Title 44, Part 750. Administrative Code, Title 44: Government Contracts, Procurement and Property Management, Subtitle B: Supplemental Procurement Rules, Chapter X: Department of Human Rights, Part 750: Procedures Applicable to All Agencies, Section 750.160: Segregated Facilities (44 Ill. Adm. Code 750.160)

APPROVING BUDGET AMENDMENTS / TRANSFER OVER $10,000.00 TO THE FISCAL YEAR 2025 OPERATING BUDGET IN THE GENERAL FUND

DATE: February 24, 2025

OTHER: Published in pamphlet form

WHEREAS, the Village of Western Springs acting by and through its President and Board of Trustees (Board) has previously approved an Operating Budget for the Fiscal Year ending December 31, 2025 as part of Ordinance 24-3227; and

WHEREAS, the Director of Municipal Services is requesting a budget amendment in the General Fund for costs associated with the HVAC replacement at Village Hall. The increases are due to a scope change in the project due to outdated equipment.

NOW THEREFORE BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, as follows:

SECTION 1. That the transfers/amendments over $10,000.00 to the Operating Budget for the Fiscal Year Ending December 31, 2025, are hereby approved in order to fund the following:

1. The costs of HVAC replacement at Village Hall

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Special Meeting thereof, held on the 24th day of February 2025 and approved by me as President on the same day.

ATTEST:

Village President Heidi Rudolph

Village Clerk Edward Tymick

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.A.

To: Board of Trustees
From: Jeff Koza, Director of Engineering Services
CC: Ellen Baer, Village Manager, Heather Valone, Director of Community Development
RE: Remediation Agreement with Regards to Certain Sump Pump Improvements and Water Discharge at 4524 & 4528 Grand Avenue (Omnibus Item)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on February 6, 2025. The item was reviewed during the "other business" portion of the meeting and thus the Committee did not provide a formal recommendation on this item at the meeting.

Summary

The owners of 4528 Grand Avenue have purchased 4524 Grand Avenue which is the lot to the north of 4528 Grand Avenue. The owners have submitted an application to demolish the existing home and they plan to build an addition to their current home on the 4524 property along with a new swimming pool. The development includes the installation of a new sump pump for the additional structure.

Engineering Services Staff was called to the 4528 Grand Avenue property in 2022 due to an overactive sump pump that was believed to be causing standing water on the sidewalk in front of the home. Staff had concerns that adding another sump pump to the property could worsen the situation. The property owners advised that they believe the sump pump is now far less active than it had been previously.

The purpose of this remediation agreement is to come to a formal agreement with the property owners that requires them to take corrective action to address any drainage issues on the sidewalk or Village right of way caused by the new development and identified by Village staff. The Village attorney has advised that this agreement with the property owners must be signed by the Village President. Staff will present the Board with a resolution authorizing the approval of the agreement at the February 24, 2025 Board of Trustees meeting.

Included in the agenda packet is a copy of the remediation agreement that was drafted by the Village Attorney and has been executed by the property owners.

Financial Impact

N/A

Recommended Motion

I move to approve the Remediation Agreement with regard to certain sump pump improvements and water discharge at 4524 & 4528 Grand Avenue.

1. 4524-4528 Grand Avenue Remediation Agreement

REMEDIATION AGREEMENT BETWEEN THE VILLAGE OF WESTERN SPRINGS AND [HOMEOWNERS OF 4524 AND 4528 GRAND AVENUE] WITH REGARDS TO CERTAIN SUMP PUMP IMPROVEMENTS AND WATER DISCHARGE

This Remediation Agreement (the "Agreement") has been entered into this 3 day of February, 2025, by and between the Village of Western Springs, an Illinois municipal corporation (the "Village"), and Doug and Natalie King (collectively the "Property Owners") (the Village and the Property Owners are collectively referred to herein as the "Parties"), in regard to the following:

WHEREAS, the Village is the owner of a certain public right-of-way (i.e., the sidewalk and parkway) that is located on property within the corporate boundaries of and controlled by the Village adjacent to the 4524 and 4528 Grand Avenue property and adjacent to the west side of Grand Avenue in Western Springs, Illinois (the "ROW Area"), attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, the Property Owners are the owners of the residential property at 4524 and 4528 Grand Avenue, Western Springs, Illinois (the "Residence"), which is adjacent to the ROW Area. The Property Owners have a sump pump and a discharge component that has historically been active and has caused flooding and pooling of water on the sidewalk in the ROW Area; and

WHEREAS, the Property Owners have submitted a permit application to the Village of Western Springs which involves demolition of an existing home and construction of a new building structure which includes plans to install and maintain an additional new sump pump and discharge component, as shown on the drawing attached hereto as **Exhibit "A"** and made a part hereof (together the "Sump Pump Improvements"); and

WHEREAS, subject to executing this Agreement, the Property Owners have applied for and received Village approval of a Permit to install and maintain the Sump Pump Improvements subject to certain conditions to be set forth below; and

WHEREAS, this Agreement is allowed by Sections 8-1-1 (Supervision By Department Of Public Works), 8-2-7(G) (Restricted And Prohibited Acts And Conditions), and 8-1-10 (Restricted And Prohibited Acts And Conditions) of Title 8 (Public Ways and Property) of the Western Springs Municipal Code and is a necessary inducement for the Village to prevent obstruction, unsafe conditions, and damage to a public sidewalk. The Parties are also authorized to enter into this Agreement pursuant to the statutory authority set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) of the Constitution of the State of Illinois of 1970 and the applicable provisions of the Illinois Municipal Code, including 65 ILCS 5/11-20-5 and 5/11-20-10, and find that entering into this Agreement is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners and the public.

NOW, THEREFORE, the Village grants the Property Owners a permit to install and maintain the Sump Pump Improvements in accordance with the following terms and conditions:

1. Installation of Sump Pump Improvements.

The Property Owners shall be allowed to construct the Sump Pump Improvements as shown on **Exhibit "A"**, including a new additional sump pump and discharge component. The Property Owners, at

their sole cost, agree to take all commercially reasonable efforts and measures to install the Sump Pump Improvements to prevent the recurrence of sump pump water discharge issues, including regular ongoing maintenance and inspection of the sump pump system and discharge component. The Property Owners further agree that the installation will comply with all relevant statutes, ordinances, requirements, and laws of all Village, State, county, and federal authorities now in force, or which may hereafter be enacted, relative to the Sump Pump Improvements.

2. Remediation Required.

During the lifetime of the Sump Pump Improvements, in the event that the Village Staff determines that the Sump Pump Improvements allowed under the contemplated permit are causing adverse water and drainage impacts to neighboring private properties and/or to the Village sidewalk or any other part of the Village ROW or other public or private properties, the Property Owners agree to promptly take all commercially reasonable efforts to implement additional remedial measures to remediate the water and drainage issues at 100% cost to the Property Owners. Prior to taking any additional remedial measures, the Property Owners agree to consult with the Village to determine whether a permit is required and agree to obtain any and all required permits. Additional remedial measures shall be completed within one hundred twenty (120) calendar days from the receipt of written notice from the Village. Notice shall be effective if mailed or personally delivered to the following address:

Property Owner
4528 Grand Avenue
Western Springs, Illinois 60558

3. Release, Hold Harmless and Indemnification.

The Property Owners agree as follows:

A. **Release Of Claims:** The Property Owners agree to waive and relinquish any and all claims, demands or causes of action of any kind, including but not limited to death, damages, personal injury, illness, or economic and non-economic damages or losses, that the Property Owners or their family members, invitees or members of the public may have against the Village and its officers, appointed and elected officials, President and Trustees, employees, agents, attorneys, engineers and volunteers arising out of, connected with or in any way associated with the approval, existence, use or operation of the Sump Pump Improvements or this Agreement. This Release of Claims provision expressly includes any and all claims, demands or causes of action of any kind, including but not limited to death, damages, personal injury, or economic and non-economic damages or losses, related to or arising from physical or environmental conditions created by the operation or use of the Sump Pump Improvements, specifically including any claims, demands or causes of action based on unnatural accumulations of snow or ice caused by the use or operation of the Sump Pump Improvements.

B. **Risk Of Injury:** The Property Owners assume the full risk of personal injuries, death, illness, damages or losses of any kind which their family members, invitees, or members of the public may sustain in any way as a result of the approval, existence, use or operation of the Sump Pump Improvements. The Property Owners further assume the risk of injuries, death, damages, or losses of any kind which their family members, invitees or members of the public may sustain in any way in, on or about the adjacent

ROW Area as a result of the approval, existence, use or operation of the Sump Pump Improvements. This Risk Of Injury provision expressly includes any and all claims, demands or causes of action of any kind, including but not limited to death, damages, personal injury, or economic and non-economic damages or losses, related to or arising from physical or environmental conditions created by the operation or use of the Sump Pump Improvements, specifically including any claims, demands or causes of action based on unnatural accumulations of snow or ice caused by the use or operation of the Sump Pump Improvements.

C. **Indemnity and Defense:** The Property Owners agree to protect, indemnify, save and hold forever harmless and defend the Village and its officers, appointed and elected officials, President and Trustees, employees, agents, attorneys, engineers and volunteers from and against any and all liabilities, obligations, claims, demands, economic and non-economic damages or losses, penalties, causes of action of any kind, including the Property Owners and their family members, invitees or members of the public arising out of, connected with or in any way associated with the approval, existence, use or operation of the Sump Pump Improvements or any provision or section of this Agreement. This Indemnity and Defense provision expressly includes any and all claims, demands or causes of action of any kind, including but not limited to death, damages, personal injury, illness or economic and non-economic damages or losses, related to or arising from physical or environmental conditions created by the operation or use of the Sump Pump Improvements, specifically including any claims, demands or causes of action based on unnatural accumulations of snow or ice caused by the use or operation of the Sump Pump Improvements.

4. Default.

Failure or refusal by the Property Owners to comply with any of the obligations set forth in this Agreement or the Village Municipal Code, including failure to pay any fee or charge owed to the Village when due shall constitute an "Event of Default".

5. Effective Date.

This Agreement shall become effective upon the date of execution by all Parties, which date shall be inserted on Page 1 hereof, and shall continue for the life of the Sump Pump Improvements.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement as of the date of the last signatory below, which date shall be inserted on Page 1 of this Agreement.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.B.

To: Board of Trustees
From: Heather Valone, Director of Community Development
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Jill Izzo, Village Clerk, Michael Jurusik, Village Attorney, Anne Skrodzki, Village Attorney
RE: 2025 Official Zoning Map (Report only)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on February 6, 2025, and recommended the approval of the 2025 Official Zoning Map.

Summary

The Village of Western Springs's Community Development Department has prepared the 2025 Official Zoning Map for review and recommendation by the Planning & Zoning Committee and for adoption by the Corporate Authorities. The Illinois Municipal Code 65 ILCS 5/11-13-19 requires that a municipality adopt and publish a new zoning map on an annual basis by March 31st of each year. The published zoning map should include and acknowledge existing zoning, boundary changes (i.e. annexations), zoning map amendments, and subdivisions that have been approved the preceding year.

Sec. 11-13-19. Except as otherwise provided in this section, the corporate authorities shall cause to be published no later than March 31 of each year a map clearly showing the existing zoning uses, divisions, restrictions, regulations and classifications of such municipality for the preceding calendar year. The first map published in 1960 shall reflect all zoning uses, divisions, restrictions, regulations and classifications in effect on and prior to December 31, 1959. If in any calendar year after the first map is published, there are no changes in zoning uses, divisions, restrictions, regulations and classifications in such municipality, no map shall be published for such calendar year. The map published by the corporate authorities shall be the official zoning map. The corporate authorities may establish a fee charged any person desiring a copy of such map. Such fee shall be paid to the appropriate zoning officer and shall be applied to defray the cost of publication of the official map.

For clarification purposes, any changes being incorporated into the official zoning map have already received Plan Commission and/or Board of Zoning Appeals recommendations and have also been authorized, approved and adopted by the Corporate Authorities. There is no express legal requirement that the Plan Commission review the zoning map, but staff believes that it is prudent that the Planning & Zoning Committee be included in this process because of their

advisory role.

Although the Village has had no changes to the zoning map in the last calendar year, the Village is still required to update the date and republish the map. Attachment 1 contains the current zoning map. No action from the Committee or the Village Board is required. The map only requires review before staff will ask the Village President and Clerk to sign the map. The updated map will then be posted on the Village's website. Note that this requirement is only for the static zoning map (via PDF), the Village's interactive zoning map is updated in real time as zoning changes are approved by the Village Board.

The Planning and Zoning Committee reviewed the draft 2025 Zoning Map and resolution at their meeting on February 6, 2025, and recommended to advance the item for review and discussion by the Village Board. The draft ordinance for adoption of the 2025 Official Zoning Map is attached.

AN ORDINANCE APPROVING AN UPDATED VERSION OF THE VILLAGE OF WESTERN SPRINGS OFFICIAL ZONING MAP PURSUANT TO SECTIONS 11-12-6, 11-12-7 AND 11-13-19 OF THE ILLINOIS MUNICIPAL CODE (65 ILCS 5/11-12-6, 11-12-7 AND 11-13-19) AND SECTION 10-5-3 (ZONING MAP) OF THE WESTERN SPRINGS MUNICIPAL CODE.

WHEREAS, pursuant to Sections 11-12-6, 11-12-7 and 11-13-19 of the Illinois Municipal Code (65 ILCS 5/11-12-6, 11-12-7 and 11-13-19) and Section 10-5-3 (Zoning Map) of the Development Control Ordinance of the Western Springs Municipal Code ("DCO"), the President and Board of Trustees of the Village of Western Springs (the "Village Board") desire to approve and adopt an updated version of the Official Zoning Map consisting of the entire land area located within the corporate boundaries of the Village of Western Springs, as described in the Comprehensive Land Use Plan approved by the Corporate Authorities under Ordinance No. 03-2226 on February 24, 2003, as amended by Ordinance No. 11-2643 dated August 22, 2011 (the "2011 Western Springs Downtown Redevelopment Plan") and by Ordinance No. 22-3074 dated April 25, 2022, as part of the adoption of the "2022 Land Use Plan Amendments", and which contains all of the map amendments, conditional use permits and planned unit developments that have been approved since the last time the Official Zoning Map was updated. A copy of the updated Official Zoning Map dated January 10, 2025 is attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, in accordance with 65 ILCS 5/11-12-6, the attached Official Zoning Map contains or incorporates by reference the standard requirements of the municipality relating to size of streets, alleys, public ways, parks, playgrounds, school sites, other public grounds, and ways for public service facilities; the kind and quantity of materials which shall be used in the construction of streets and alleys; and the kind and quality of materials for public service facilities as may be consistent with Illinois Commerce Commission or industry standards, and the standards required for drainage and sanitary sewers, and collection and treatment of sewage. The Official Zoning Map is drawn to scale, is reasonably accurate, and shows the north point, section lines and numbers, and streams, all of which are incorporated into this Ordinance; and

WHEREAS, at a public meeting held on February 6, 2025, the Planning and Zoning Committee (the "Committee") reviewed and discussed the attached version of the Official Zoning Map and received input from the Village staff and provided an opportunity for public input, and then recommended that the Official Zoning Map be approved by the Village Board so that it can be placed with the Village Clerk's Office and made available to the public for inspection and photocopying; and

WHEREAS, at public meetings held on February 10, 2025 and February 24, 2025, the Village Board reviewed and discussed the attached version of the Official Zoning Map as well as considering the input of Village staff and the recommendation of the Committee with regard to the approval of the Official Zoning Map, and provided an opportunity for public input on the updated Official Zoning Map; and

WHEREAS, pursuant to Sections 11-12-6, 11-12-7 and 11-13-19 of the Illinois Municipal Code (65 ILCS 5/11-12-6, 11-12-7 and 11-13-19) and Section 10-5-3 (Zoning Map) of the DCO, the President and Board of Trustees of the Village of Western Springs desire to approve the attached version of the Official Zoning Map for the Village of Western Springs.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. The above recitals are incorporated by reference into Section 1 of this Ordinance as material terms and provisions.

SECTION 2. Authority. Pursuant to Sections 11-12-6, 11-12-7 and 11-13-19 of the Illinois Municipal Code (65 ILCS 5/11-12-6, 11-12-7 and 11-13-19), the **Official Zoning Map dated January, 10, 2025**, attached hereto as **Exhibit "A"** and made a part hereof, is approved and established as the "Official Zoning Map" for the Village of Western Springs, and shall serve as the "Official Zoning Map" referenced in Section 10-5-3 (Zoning Map) of the Western Springs Municipal Code and throughout other sections of the Code.

SECTION 3. Repealer. All previously adopted Ordinances, approving prior versions of the Official Zoning Map, are repealed, with the "Official Zoning Map" attached hereto as **Exhibit "A"** superseding and taking the place of any Official Zoning Maps attached to said repealed ordinances.

SECTION 4. Effective Date. This Ordinance shall be in full force and effect from and after its passage, approval and publication as provided by State law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois at a Regular Meeting thereof, held on the 24th day of February, 2025 and approved by me as President, and attested by the Village Clerk, on the same day.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.C.

To: Board of Trustees
From: Heather Valone, Director of Community Development
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Jill Izzo, Village Clerk, Michael Jurusik, Village Attorney, Anne Skrodzki, Village Attorney, Kelsey Fawell, Senior Planner
RE: Timber Trails Subdivision, Sidewalk and Public Utility Easements for Lots 222, 223, 274, 275, and 276 (Report only)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on February 6, 2025, and recommended the approval of the sidewalk and public utility easements for lots 222, 223, 274, 275, and 276 in the Timber Trails Subdivision.

Summary

On March 21, 2005, the Village Board approved Ordinance 05-2335 annexing the property known as the Timber Trails Country Club into the Village; Resolution No. 05-1858 which approved an annexation agreement for the subject property; Ordinance 05-2336 rezoning the property; and Ordinance 05-2337 which granted a conditional use permit for a planned development for the construction of a 338 unit mixed use single family residential development (Timber Trails Subdivision). The Timber Trails Subdivision also included amenities including open space areas, tree conservation areas, a five acre park site, tennis courts, tot lot parks, storm water detention facilities, and a pedestrian circulation system. The pedestrian circulation system is comprised of a system of eight foot sidewalks / walkways generally behind and within the yards of the single family lots. The sidewalks / walkways are located within common areas (outlots) and are also located on private property.

On October 25, 2010, the Village Board approved Resolution 10-2111 (Attachment 1) approving sidewalk and public utility easements and related plats of sidewalk easements and public utility easements for lots 222 (5922 Timber Trails Boulevard), 223 (1100 White Pine Lane), 274 (5923 Timber Trails Boulevard), 275 (5922 Timber Trails Boulevard), and 276 (5919 Timber Trails Boulevard). The resolution established easements on the five single family lots for sidewalks on these private properties. In 2010, all five lots were still under a single ownership of the developer for the Timber Trails Subdivision. At the time of the 2010 approvals the developer was Real Property Holding-Western Springs, IL, LLC.

However, the plats were not fully executed or recorded with Cook County. As such the sidewalks were constructed on these five lots without proper easements. Additionally, all five

lots have been sold to individual property owners. Without easements, the homeowner's association for the Timber Trails subdivision does not have the ability to maintain these sidewalks. Additionally, certain aspects of the sidewalk impact the property owner due to the absence of an easement. This is similar to the easement that was approved by the Village Board on November 11, 2024, via Ordinance No. 24-3222 for lot 95 (5904 Juniper Court).

Village staff and the Village Attorney have updated the documents accordingly and drafted a resolution (Attachment 2) to resolve the matter. The Planning and Zoning Committee reviewed the easements at their meeting on February 6, 2025 and recommended to advance the item for review and discussion by the Village Board.

OTHER:

A RESOLUTION APPROVING PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENTS AND RELATED PLATS OF SIDEWALK EASEMENTS AND PUBLIC UTILITY EASEMENTS FOR LOTS 15, 16, 17 AND 222 OF UNIT 1 AND LOT 223 OF UNIT 2 WITHIN THE TIMBER TRAILS SUBDIVISION.

WHEREAS, the Village President and Board of Trustees of the Village of Western Springs have requested from the current owners of the Timber Trails Subdivision that two (2) sidewalk easements and related public utility easements be created within the Timber Trails Subdivision to more fully complete the interconnection of the eight (8.00) foot wide asphalt public sidewalk that is also referred to as the "Pedestrian Circulation System" in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC (the former owner of Timber Trails Subdivision) on March 21, 2005. The Pedestrian Circulation System is a recreational amenity for the Western Springs community and is used as a means of pedestrian travel within the Timber Trails Subdivision; and

WHEREAS, Real Property Holding-Western Springs, IL, LLC, a Delaware limited liability company (the "Unit 1 Owner" or "Unit 1 Grantor"), is the current owner of the unsold lots and dedicated open space within Unit 1 of the Timber Trails Subdivision. Real Property Holding-Western Springs, IL, Phase 2, LLC, a Delaware limited liability company (the "Unit 2 Owner" or "Unit 2 Grantor"), is the current owner of the unsold lots and dedicated open space within Unit 2 of the Timber Trails Subdivision; and

WHEREAS, the Unit 1 Owner and the Unit 2 Owner have agreed to create the two (2) sidewalk easements and related public utility easements within the Timber Trails Subdivision to more fully complete the interconnection of the Pedestrian Circulation System as requested by the Village; and

WHEREAS, pursuant to the authority to create easements within the Timber Trails Subdivision that are necessary to support the development as set forth in Section 12 of the Annexation Agreement, the following documents have been prepared and reviewed by the Village, the Unit 1 Owner and the Unit 2 Owner relative to the creation of the two (2) sidewalk easements and related public utility easements referenced above:

1. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof.

2. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 15 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 15 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "B"** and made a part hereof.

3. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 16 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 16 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "C"** and made a part hereof.

4. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 17 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 17 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "D"** and made a part hereof.

5. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "E"** and made a part hereof.

WHEREAS, on October 11 and 25, 2010, pursuant to notice as required by State law, the Village President and Board of Trustees of the Village of Western Springs held public meetings at which they considered the approval of the attached Easement Agreements and related Plats of Easement, and have determined that approval of the attached Easement Agreements and related Plats of Easement would be in the best interests of the Village, the residents of the Timber Trails Subdivision and the public; and

WHEREAS, in accordance with the authority set forth in Section 12 of the Annexation Agreement and 65 ILCS 5/11-15-1 (Approval of Maps and Plats; Prerequisite to Recording), the Village President and Board of Trustees of the Village of Western Springs approve the attached Easement Agreements and related Plats of Easement.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: The Village President and Board of Trustees of the Village of Western Springs approve the attached documents:

1. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof.

2. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 15 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 15 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "B"** and made a part hereof.

3. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 16 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 16 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "C"** and made a part hereof.

4. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 17 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 17 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "D"** and made a part hereof.

5. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "E"** and made a part hereof.

The Village President and Board of Trustees of the Village of Western Springs authorize and direct the Village President, Village Clerk, Village Collector, Village Engineer and any other necessary Village official, or their designees, to sign the attached Easement Agreements and related Plats of Easement so that they can be filed with the Office of the Cook County Recorder of Deeds.

SECTION 3: A certified copy of this Resolution and the original of the attached Easement Agreements and related Plats of Easement shall be recorded with the Office of the Cook County Recorder of Deeds by the Village after all of the required signatures are placed on the documents.

SECTION 4: This Resolution shall take effect from and after its adoption and approval.

PASSED by the Village President and Board of Trustees of the Village of Western Springs, Cook County, Illinois, on a roll call vote at a Regular Meeting thereof, held on the 25th day of October, 2010, and approved by me as Village President, and attested by the Village Clerk on the same day.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR

LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS that Real Property Holding-Western Springs, IL, LLC, a Delaware limited liability company (hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois, a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of a five (5.00) foot wide strip of land that is located in the south side yard and is adjacent to and extends along the southwesterly lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION, an executed copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

INSERT LEGAL

(hereinafter the "Easement Area")

ADDRESS: 5922 Timber Trails Blvd., Western Springs, Illinois

PIN: 18-18-409-001

Easement Purpose and Terms:

1. Purpose. The purpose of the five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of a portion of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the five (5.00) foot wide public utility easement is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easement and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. Within three (3) months of the effective date of this Easement Agreement, the Owner shall construct the sidewalk and public utilities within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and become part the existing Pedestrian Circulation System. The Owner and then the Homeowners Association shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Owner shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat shall be filed by the Owner with the Office of the Cook County Recorder of Deeds at the Owner's expense. A copy of the Easement Agreement and Plat with the Recorder's stamp affixed thereto shall be delivered to the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, the President and Board of Trustees of the Village of Western Springs and the Members of Real Property Holding-Western Springs, IL, LLC have taken the appropriate corporate action to approve this Easement Agreement, the authorized officials of each Party have executed this Easement Agreement, including the attached Plat, and this Easement Agreement becomes effective on the date the last signatory executes his/her signature line below.

Within three (3) months of the effective date of this Easement Agreement, the Owner shall construct the sidewalk and public utilities within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and become part the existing Pedestrian Circulation System. The Owner and then the Homeowners Association shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Owner shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat shall be filed by the Owner with the Office of the Cook County Recorder of Deeds at the Owner's expense. A copy of the Easement Agreement and Plat with the Recorder's stamp affixed thereto shall be delivered to the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, the President and Board of Trustees of the Village of Western Springs and the Members of Real Property Holding-Western Springs, IL, LLC have taken the appropriate corporate action to approve this Easement Agreement, the authorized officials of each Party have executed this Easement Agreement, including the attached Plat, and this Easement Agreement becomes effective on the date the last signatory executes his/her signature line below.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 16 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS that Real Property Holding-Western Springs, IL, LLC, a Delaware limited liability company (hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois, a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of a eight (8.00) foot wide strip of land that is located in the southeast rear yard and is adjacent to and extends along the southeasterly rear lot line of the below-described property and a five (5.00) wide strip of land that is located adjacent to and extends along the south lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 16 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION, an executed copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

INSERT LEGAL

(hereinafter the "Easement Area")

ADDRESS: 5921 Timber Trails Blvd., Western Springs, Illinois

PIN: 18-18-404-007

Easement Purpose and Terms:

1. Purpose. The purpose of the eight (8.00) foot wide public sidewalk easement and five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the public utility easement, which occupies the Easement Area, is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easements and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 16 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. Within three (3) months of the effective date of this Easement Agreement, the Owner shall construct the sidewalk and public utilities within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and become part the existing Pedestrian Circulation System. The Owner and then the Homeowners Association shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Owner shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat shall be filed by the Owner with the Office of the Cook County Recorder of Deeds at the Owner's expense. A copy of the Easement Agreement and Plat with the Recorder's stamp affixed thereto shall be delivered to the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, the President and Board of Trustees of the Village of Western Springs and the Members of Real Property Holding-Western Springs, IL, LLC have taken the appropriate corporate action to approve this Easement Agreement, the authorized officials of each Party have executed this Easement Agreement, including the attached Plat, and this Easement Agreement becomes effective on the date the last signatory executes his/her signature line below.

CLERK'S CERTIFICATE

I, Jeanine M. Jasica, the duly elected and qualified Village Clerk of the Village of Western Springs, Cook County, Illinois, do hereby certify that attached hereto is a true and correct copy of the Resolution now on file in my office, entitled:

RESOLUTION NO. 10-_____

A RESOLUTION APPROVING PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENTS AND RELATED PLATS OF SIDEWALK EASEMENTS AND PUBLIC UTILITY EASEMENTS FOR LOTS 15, 16, 17 AND 222 OF UNIT 1 AND LOT 223 OF UNIT 2 WITHIN THE TIMBER TRAILS SUBDIVISION

which was passed by the Village President and Board of Trustees of the Village of Western Springs at a regular meeting held on the 25th day of October, 2010, at which meeting a quorum was present, and approved by the Village President of the Village of Western Springs on the 25th day of October, 2010.

I further certify that the vote on the question of the passage of the said Resolution by the Village President and Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Village President and Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Resolution, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs this 25th day of October, 2010.

Village Clerk

150527

RESOLUTION NO. 25-_____
VOTE: _____
AYES: _____
NAYS: _____
ABSTAIN: _____
ABSENT: _____
DATE: February 24, 2025.
OTHER: None.

A RESOLUTION APPROVING PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENTS AND RELATED PLATS OF SIDEWALK EASEMENTS AND PUBLIC UTILITY EASEMENTS FOR LOTS 274, 276, 222 AND 275 OF UNIT 1 AND LOT 223 OF UNIT 2 WITHIN THE TIMBER TRAILS SUBDIVISION.

WHEREAS, in 2010, the Village President and Board of Trustees of the Village of Western Springs (the "Village Board") requested from the then-current owners of the Timber Trails Subdivision that certain sidewalk easements and related public utility easements be created within the Timber Trails Subdivision to more fully complete the interconnection of the eight (8.00) foot wide asphalt public sidewalk that is also referred to as the "Pedestrian Circulation System" in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs (the "Village") and Western Springs One, LLC (the former owner of Timber Trails Subdivision) on March 21, 2005. The Pedestrian Circulation System is a recreational amenity for the Western Springs community and is used as a means of pedestrian travel within the Timber Trails Subdivision; and

WHEREAS, with the passage of Resolution No. 10-2111 on October 25, 2010, the Village Board, working in conjunction with the then-current owners of the Timber Trails Subdivision, approved certain plats of sidewalk easements and related public utility easement agreements for the benefit of Lot 274 (5923 Timber Trails Boulevard), Lot 276 (5919 Timber Trails Boulevard), Lot 222 (5922 Timber Trails Boulevard) and Lot 275 (5921 Timber Trails Boulevard) of Unit 1 and Lot 223 (1100 White Pine Lane) of Unit 2 within the Timber Trails Subdivision (collectively, the "Subject Properties") in order to more fully complete the interconnection of the Pedestrian Circulation System as requested by the Village. At the time of the approval of Resolution No. 10-2111, Real Property Holding-Western Springs, IL, LLC, a Delaware limited liability company, was the fee simple owner of the Unit 1 portion of the Timber Trails Subdivision (referred to as the "Unit 1 Owner") and Real Property Holding-Western Springs, IL, Phase 2, LLC, a Delaware limited liability company, was the fee simple owner of the Unit 2 portion of the Timber Trails Subdivision (referred to as the "Unit 2 Owner"). Thereafter, the Unit 1 Owner and the Unit 2 Owner sold their fee simple title interests in the Timber Trails Subdivision prior to executing the Village-approved plats of sidewalk easements and related public utility easement agreements for the Subject Properties; and

WHEREAS, the Village Board now desires to work with the current developer of the Timber Trails Subdivision, Timber Trails Building Company, Inc., and the current property owners of the Subject Properties in order to record plats of sidewalk easements and related public utility easement agreements for the Subject Properties within the Timber Trails Subdivision to more fully complete the interconnection of the Pedestrian Circulation System, which sidewalk improvements have already been installed on such ***Lots*** to complete the interconnectivity of the Pedestrian Circulation System; and

WHEREAS, the current owners of the Subject Properties have agreed to create the necessary sidewalk easements and related public utility easements on their respective Lots within the Timber Trails Subdivision to more fully complete the interconnection of the Pedestrian Circulation System as requested by the Village; and

DRAFT

WHEREAS, pursuant to the authority to create easements within the Timber Trails Subdivision that are necessary to support the development as set forth in Section 12 (Dedications; Easements) of the Annexation Agreement, the following documents have been prepared and reviewed by the Village and the current property owners of the Subject Properties relative to the creation of the sidewalk easements and related public utility easements referenced above:

1. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 222 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof;

2. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 274 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 274 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "B"** and made a part hereof;

3. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 275 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 275 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "C"** and made a part hereof;

4. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 276 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 276 IN UNIT 1 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "D"** and made a part hereof;

5. PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION AND PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 223 IN UNIT 2 OF TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "E"** and made a part hereof;

(collectively the "Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement"); and

WHEREAS, at an open, public meeting held on February 6, 2025, the Village's General Government Committee ("Committee") reviewed and discussed the Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement, and received input from the Village staff and provided an opportunity for input from the public on the matter. At its February 6, 2025 meeting, the Committee voted to recommend that the President and Board of Trustees of the Village approve the Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement; and

WHEREAS, at open, public meetings held on February 10, 2025 and February 24, 2025, the President and Board of Trustees of the Village reviewed and discussed the Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement, the Village staff's recommendation and the Committee's recommendation regarding the Sidewalk Easement and Related Public Utility

Draft

Easement Agreements and related Plats of Easement, and provided an opportunity for input from the public on the matter, and then accepted the recommendations of Village staff and the Committee; and

WHEREAS, pursuant to the authority set forth in Section 12 (Dedications; Easements) of the Annexation Agreement and 65 ILCS 5/11-15-1 (Approval of Maps and Plats; Prerequisite to Recording), the Village President and Board of Trustees of the Village of Western Springs have determined that it is protective of the health, welfare and safety of and in the best interests of the Village and its residents, the residents of the Timber Trails Subdivision, local businesses, property owners and the public to approve and enter into the attached Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: Approval and Execution of Sidewalk Easements and Public Utility Easement Agreements and Related Plats of Easement and Other Related Documents. The Village President and Board of Trustees of the Village of Western Springs approve the Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement, copies of which are attached as hereto as **EXHIBIT "A"**, **EXHIBIT "B"**, **EXHIBIT "C"**, **EXHIBIT "D"** and **EXHIBIT "E"** and made a part hereof. The Village President and Board of Trustees of the Village of Western Springs authorize and direct the Village President, Village Clerk, Village Collector, Village Engineer and any other necessary Village officials, or their designees, to sign the attached Sidewalk Easement and Related Public Utility Easement Agreements and related Plats of Easement so that they can be filed with the Cook County Clerk's Office, Recording Division ("CCCORD").

SECTION 3: Recording and Delivery of Certified Copies of Resolution, Public Sidewalk Easements and Public Utility Easement Agreements and Related Plats of Easement. After approval of this Resolution, certified copies of this Resolution and fully executed originals of the attached Public Sidewalk Easements and Public Utility Easement Agreements and related Plats of Easement shall be recorded with the CCCORD by the Village after all of the required signatures are placed on the documents. The Village shall deliver file-stamped copies of the recorded documents to the property owners of the Subject Properties and to the Timber Trails Building Company, Inc. for purposes of record retention.

SECTION 4: Effective Date. This Resolution shall take effect from and after its adoption and approval as provided by law.

PASSED by the Village President and Board of Trustees of the Village of Western Springs, Cook County, Illinois, on a roll call vote at a Regular Meeting thereof, held on the 24th day of February, 2025, and approved by me as Village President, and attested by the Village Clerk on the same day.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS that Linda L. Huff, as Trustee of Linda L. Huff Declaration of Trust of 32 N. Edgewood Ave., LaGrange, Illinois 60525 (hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois ("Village"), a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of a five (5.00) foot wide strip of land that is located in the south side yard and is adjacent to and extends along the southwesterly lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

AN EASEMENT OVER THE SOUTHWESTERLY 5.00 FEET MEASURED PERPENDICULAR TO THE SOUTHWESTERLY LINE THEREOF OF LOT 222 IN TIMBER TRAILS SUBDIVISION UNIT 1, BEING A SUBDIVISION OF PART OF THE SOUTHEAST QUARTER AND THE NORTHEAST QUARTER OF SECTION 18 TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ALONG WITH PART OF THE SOUTHWEST QUARTER OF SECTION 17, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT THEREOF RECORDED OCTOBER 27, 2005 AS DOCUMENT NUMBER 0530003135, AND AMENDED BY CERTIFICATE OF CORRECTION RECORDED FEBRUARY 15, 2006, AS DOCUMENT NUMBER 0604634053, ALL IN COOK COUNTY, ILLINOIS;
(hereinafter the "Easement Area");

ADDRESS: 5922 Timber Trails Blvd., Lot 222, Western Springs, Illinois;

PIN: 18-18-409-001-0000.

Easement Purpose and Terms:

1. Purpose. The purpose of the five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of a portion of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the five (5.00) foot wide public utility easement is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easement and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 222 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided, or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. A sidewalk and public utilities have already been constructed by the Developer of the Timber Trails Subdivision (Timber Trails Building Company, Inc. or its predecessor) within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and are part of the existing Pedestrian Circulation System. The Timber Trails of Western Springs Community Association (the "Homeowners Association") shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Developer shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat exhibit shall be filed by the Owner with the Cook County Clerk's Office, Recording Division, at the Owner's expense. A copy of the Easement Agreement and its Plat exhibit with the Recorder's stamp affixed thereto shall be delivered to the Owner and the Developer by the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, Linda L. Huff, as Trustee of Linda L. Huff Declaration of Trust of 32 N. Edgewood Ave., LaGrange, Illinois 60525, voluntarily signed this Easement Agreement, and the President and Board of Trustees of the Village of Western Springs and the authorized corporate officer of Timber Trails Building Company, Inc. have taken the appropriate corporate action to approve this Easement Agreement, the authorized signatories of each Party have executed this Easement Agreement, and this Easement Agreement becomes effective on the date the last signatory executes their signature line below.

Easement Purpose and Terms:

1. Purpose. The purpose of the five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of a portion of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the five (5.00) foot wide public utility easement is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easement and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 274 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided, or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. A sidewalk and public utilities have already been constructed by the Developer of the Timber Trails Subdivision (Timber Trails Building Company, Inc. or its predecessor) within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and are part of the existing Pedestrian Circulation System. The Timber Trails of Western Springs Community Association (the "Homeowners Association") shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Developer shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat exhibit shall be filed by the Village with the Cook County Clerk's Office, Recording Division, at the Developer's expense. A copy of the Easement Agreement and its Plat exhibit with the Recorder's stamp affixed thereto shall be delivered to the Owner and the Developer by the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, Luke Hofstad and Asmita R. Patel have voluntarily signed this Easement Agreement, and the President and Board of Trustees of the Village of Western Springs and the authorized corporate officer of Timber Trails Building Company, Inc. have taken the appropriate corporate action to approve this Easement Agreement, the authorized signatories of each Party have executed this Easement Agreement and this Easement Agreement becomes effective on the date the last signatory executes their signature line below.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 275 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS that James C. Schwab and Catherine A. Bartell (collectively hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois ("Village"), a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of an eight (8.00) foot wide strip of land that is located in the southeast rear yard and is adjacent to and extends along the southeasterly rear lot line of the below-described property, and a five (5.00) foot wide strip of land that is located adjacent to and extends along the south lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 275 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

AN EASEMENT OVER THE NORTHERLY 8.00 FEET MEASURED PERPENDICULAR TO THE NORTHERLY LINE THEREOF OF LOT 275 IN TIMBER TRAILS RESUBDIVISION NUMBER 2, BEING A RESUBDIVISION OF LOTS 14, 15, 16, AND 17 IN TIMBER TRAILS SUBDIVISION UNIT 1, A SUBDIVISION OF PART OF THE SOUTHEAST QUARTER AND THE NORTHEAST QUARTER OF SECTION 18 TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ALONG WITH PART OF THE SOUTHWEST QUARTER OF SECTION 17, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT OF SAID TIMBER TRAILS RESUBDIVISION NUMBER 2 RECORDED OCTOBER 22, 2018, AS DOCUMENT NUMBER 1829517029, IN COOK COUNTY, ILLINOIS;
(hereinafter the "Easement Area");

ADDRESS: 5921 Timber Trails Blvd., Lot 275, Western Springs, Illinois;

PIN: 18-18-404-019-0000.

Draft

Easement Purpose and Terms:

1. Purpose. The purpose of the eight (8.00) foot wide public sidewalk easement and five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the public utility easement, which occupies the Easement Area, is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easements and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 275 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided, or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. A sidewalk and public utilities have already been constructed by the Developer of the Timber Trails Subdivision (Timber Trails Building Company, Inc. or its predecessor) within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and are part of the existing Pedestrian Circulation System. The Timber Trails of Western Springs Community Association (the "Homeowners Association") shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Developer shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat exhibit shall be filed by the Village with the Cook County Clerk's Office, Recording Division, at the Developer's expense. A copy of the Easement Agreement and its Plat exhibit with the Recorder's stamp affixed thereto shall be delivered to the Owner and the Developer by the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, James C. Schwab and Catherine A. Bartell have voluntarily signed this Easement Agreement, and the President and Board of Trustees of the Village of Western Springs, and the authorized corporate officer of Timber Trails Building Company, Inc. have taken the appropriate corporate action to approve this Easement Agreement, the authorized signatories of each Party have executed this Easement Agreement, and this Easement Agreement becomes effective on the date the last signatory executes their signature line below.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 276 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS that Aroldo M. Bethencourt and Lisett J. Resende (collectively hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois ("Village"), a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of an eight (8.00) foot wide strip of land that is located in the rear yard and is adjacent to and extends along the southeasterly rear lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 276 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

AN EASEMENT OVER THE NORTHERLY 5.00 FEET MEASURED PERPENDICULAR TO THE NORTHERLY LINE THEREOF OF LOT 276 IN TIMBER TRAILS RESUBDIVISION NUMBER 2, BEING A RESUBDIVISION OF LOTS 14, 15, 16, AND 17 IN TIMBER TRAILS SUBDIVISION UNIT 1, A SUBDIVISION OF PART OF THE SOUTHEAST QUARTER AND THE NORTHEAST QUARTER OF SECTION 18 TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ALONG WITH PART OF THE SOUTHWEST QUARTER OF SECTION 17, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT OF SAID TIMBER TRAILS RESUBDIVISION NUMBER 2 RECORDED OCTOBER 22, 2018, AS DOCUMENT NUMBER 1829517029, IN COOK COUNTY, ILLINOIS;

ADDRESS: 5919 Timber Trails Blvd., Lot 276, Western Springs, Illinois;

PIN: 18-18-404-020-0000.

Easement Purpose and Terms:

1. Purpose. The purpose of the eight (8.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the public utility easement, which occupies the Easement Area, is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easements and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 276 OF UNIT 1 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided, or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. A sidewalk and public utilities have already been constructed by the Developer of the Timber Trails Subdivision (Timber Trails Building Company, Inc. or its predecessor) within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and are part of the existing Pedestrian Circulation System. The Timber Trails of Western Springs Community Association (the "Homeowners Association") shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Developer shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat exhibit shall be filed by the Village with the Cook County Clerk's Office, Recording Division, at the Developer's expense. A copy of the Easement Agreement and its Plat exhibit with the Recorder's stamp affixed thereto shall be delivered to the Owner and the Developer by the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, Aroldo M. Bethencourt and Lisett J. Resende have voluntarily signed this Easement Agreement, and the President and Board of Trustees of the Village of Western Springs and the authorized corporate officer of Timber Trails Building Company, Inc. have taken the appropriate corporate action to approve this Easement Agreement, the authorized signatories of each Party have executed this Easement Agreement and this Easement Agreement becomes effective on the date the last signatory executes their signature line below.

PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 223 OF UNIT 2 IN TIMBER TRAILS SUBDIVISION

KNOW ALL MEN BY THESE PRESENTS, that Frederick J. Grosskopf and Susan E. Grosskopf (collectively hereinafter "Grantor" or "Owner"), for good and valuable consideration, the receipt of which is acknowledged, GRANTS, RESERVES, CONVEYS, ASSIGNS AND QUIT CLAIMS to the Village of Western Springs, an Illinois municipal corporation, Cook County, Illinois, a permanent and perpetual public sidewalk easement and public utility easement, which are legally described below, consisting of a five (5.00) foot wide strip of land that is located in the east side yard and is adjacent to and extends along the northeasterly lot line of the below-described property, as shown on the PLAT OF PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT FOR LOT 223 OF UNIT 2 IN TIMBER TRAILS SUBDIVISION, a copy of which is attached hereto as **EXHIBIT "A"** and made a part hereof, for the purposes set forth below under "Easement Purpose and Terms" in, on, upon, over, through, across and under a portion of the real property legally described as follows:

AN EASEMENT OVER THE NORTHEASTERLY 5.00 FEET MEASURED PERPENDICULAR TO THE NORTHEASTERLY LINE THEREOF OF LOT 223 IN TIMBER TRAILS SUBDIVISION UNIT 2, BEING A RESUBDIVISION OF OUTLOT N IN TIMBER TRAILS SUBDIVISION UNIT 1, OF PART OF THE WEST HALF OF THE SOUTHEAST QUARTER OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, RECORDED FEBRUARY 22, 2007 AS DOCUMENT NO. 0705315075, ALL IN COOK COUNTY, ILLINOIS;

(hereinafter the "Easement Area");

ADDRESS: 1100 White Pine Lane, Lot 223, Western Springs, Illinois;

PIN: 18-18-415-001-0000.

Draft

Easement Purpose and Terms:

1. Purpose. The purpose of the five (5.00) foot wide public sidewalk easement is to allow for the construction, installation, maintenance, repair, replacement and operation of a portion of an eight (8.00) foot wide asphalt public sidewalk that is also referred to as a "Pedestrian Circulation System" (as defined in the Annexation Agreement for the Timber Trails Subdivision entered into between the Village of Western Springs and Western Springs One, LLC on March 21, 2005 and recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0508203048 (hereinafter "Annexation Agreement") and the Community Declarations for the Timber Trails Subdivision recorded in the Office of the Recorder of Deeds of Cook County, in the State of Illinois, as document number 0703334023, as amended, (hereinafter "Declaration")), within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto. The Easement Area shall also afford access to contractors to perform work on the Pedestrian Circulation System and to the public who use the Pedestrian Circulation System as a recreational amenity and as a means of pedestrian travel. The purpose of the five (5.00) foot wide public utility easement is to allow for the construction, installation, maintenance, repair, replacement and operation of public utilities (electric lines, wires, conduit and light standards, poles and fixtures) within the dedicated Easement Area, together with all the appurtenances and privileges belonging or appertaining thereto, including access by contractors who perform work on the public utilities.
2. Covenant That Runs With the Land. The public sidewalk easement and public utility easement rights, conditions and other obligations that are set forth herein and granted by this PUBLIC SIDEWALK EASEMENT AND PUBLIC UTILITY EASEMENT AGREEMENT FOR LOT 223 OF UNIT 2 IN TIMBER TRAILS SUBDIVISION (hereinafter the "Easement Agreement") and contained in the attached Plat shall be covenants that run with the land even if the above-described real property or any other portion of Timber Trails Subdivision is consolidated, subdivided or all or some portion thereof is sold, leased or otherwise transferred at some future date, unless the Parties mutually consent to the termination or modification of the easements, covenants and conditions and other obligations set forth herein. The easement rights, covenants and conditions and other obligations set forth in this Easement Agreement shall be binding upon and enforceable against all successors in title or interest, grantees, successor owners, representatives, transferees and assigns of the Easement Area, or any portion thereof.
3. Ownership and Maintenance of the Sidewalk/Pedestrian Circulation System. A sidewalk and public utilities have already been constructed by the Developer of the Timber Trails Subdivision (Timber Trails Building Company, Inc. or its predecessor) within the Easement Area, in accordance with the requirements set forth in the Annexation Agreement, so that the improvements are connected into and are part of the existing Pedestrian Circulation System. The Timber Trails of Western Springs Community Association (the "Homeowners Association") shall be responsible for the future maintenance (including snow removal), repair and replacement of the public sidewalk and the public utilities constructed within the Easement Area in accordance with the applicable terms of the Annexation Agreement and the Declaration, even after the conveyance of title of such improvements to the Village. The Developer shall convey title to the completed sidewalk and public utilities to the Village through a plat of dedication and bill of sale in accordance with the applicable provisions of the Annexation Agreement.
4. No Conveyance of Land. Nothing in this Easement Agreement shall be construed to constitute a conveyance of fee simple title to the above-described real property, or an acceptance thereof, by the Village.

5. Recording. This Easement Agreement and its Plat exhibit shall be filed by the Village with the Cook County Clerk's Office, Recording Division, at the Developer's expense. A copy of the Easement Agreement and its Plat exhibit with the Recorder's stamp affixed thereto shall be delivered to the Owner and the Developer by the Village within thirty (30) days of its filing date.
6. Incorporation. The terms, conditions and obligations set forth in the Annexation Agreement and the Declaration are incorporated herein by reference and made a part hereof.

IN WITNESS WHEREOF, Frederick J. Grosskopf and Susan E. Grosskopf have voluntarily signed this Easement Agreement, and the President and Board of Trustees of the Village of Western Springs and the authorized corporate officer of Timber Trails Building Company, Inc. have taken the appropriate corporate action to approve this Easement Agreement, the authorized signatories of each Party have executed this Easement Agreement, and this Easement Agreement becomes effective on the date the last signatory executes their signature line below.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.D.

To: Board of Trustees
From: Heather Valone, Director of Community Development
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Jill Izzo, Village Clerk, Michael Jurusik, Village Attorney, Anne Skrodzki, Village Attorney, Kelsey Fawell, Senior Planner
RE: French Market - Sixth Addendum to the Market License Agreement Between the Village of Western Springs and Bensidoun USA, Inc. Relative to Operation of a French Market in the Village (Extended term: February 24, 2025, to December 31, 2028) (Report only)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on February 6, 2025, and recommended the approval of the sixth addendum to the French Market License Agreement.

Summary

On January 28, 2008, the Village Board approved Resolution No. 08-1999 titled "A Resolution Approving and Authorizing the Execution of a Market License Agreement Between the Village of Western Springs and Bensidoun, USA, Inc. Relative to Operation of a French Market in the Village." The Village has approved five addendums to the original agreement extending the agreement to the 2024 market season. A sixth addendum to the French Market License Agreement is being proposed for consideration.

The sixth addendum proposes that the French Market season remain from May to September. The location of the French Market on Hillgrove Avenue directly adjacent to the Tower Green and event time of Wednesdays from 4:00 pm to 7:00 pm are proposed to remain the same as this past year. The obligations of Bensidoun, USA, Inc. (Bensidoun) for setup and clean up, coordination, and other tasks are proposed to remain as outlined in the previous agreements.

During the 2024 French Market season, the Village hosted compatible community events on the Tower Green such as early childhood development music demonstrations, bounce houses, story time, yard games, a pet themed day, among other events. The French Market also overlapped with the Western Springs Business Association's (WSBA) Jammin' in July events (Table 1). These events coupled with the Jammin' in July made for a successful market year. The French Market successfully retained existing vendors and recruited new vendors selling cookies, croissants, tacos, dog treats, olive oil, meats, and coffee. The average number of vendors per market was 13-14.

Market Date	Number of Vendors*	Compatible Community Event
8-May	14	
15-May	13	
22-May	16	Mattix Music - Music Together Demonstration Grand Avenue Montessori Children's Performance
29-May	12	Recreation Department - Yard Games
5-Jun	12	Library - Summer Read Program
12-Jun	17	Recreation Department - Yard Games
19-Jun	Holiday - No Market	
26-Jun	12	Recreation Department - Yard Games
3-Jul	No Market	
10-Jul	14	Jammin' In July
17-Jul	19	Jammin' In July
24-Jul	13	Jammin' In July
31-Jul	14	Jammin' In July
7-Aug	16	Recreation Department - Yard Games
14-Aug	16	Mattix Music - Music Together Demonstration
21-Aug	12	Pet Themed Market
28-Aug	12	Bounce House
4-Sep	10	Mattix Music - Music Together Demonstration
11-Sep	12	Story Time with the Village President
18-Sep	8	Bounce House
25-Sep	14	

*Number of vendors is based on confirmation a day prior to the event. If a vendor canceled day-of due to an emergency that is not captured.

Given the success of the 2024, French Market staff is recommended that the agreement be extended to 2028 as proposed in the addendum. If extended, Village staff would propose to continue with the compatible community events and look for opportunities to expand those offerings. Bensidoun USA, Inc. has committed to maintaining Western Springs French Market as a priority through vendor recruitment and advertising. WSBA has indicated support for the French Market to continue to expand their Jammin' in July events. The Planning and Zoning Committee reviewed the sixth amendment to the French Market License Agreement at their meeting on February 6, 2025 and recommended to advance the item for review and discussion by the Village Board. The draft resolution and agreement are included in Attachment 1.

Attachment

---

1. Draft Resolution - A Resolution Approving and Authorizing the Execution of a Sixth Addendum to the Market License Agreement Between the Village of Western Springs and Bensidoun USA, Inc. Relative to Operation of a French Market in the Village (Extended Term: February 24, 2025 to December 31, 2027).

Financial Impact

None.

Recommended Motion

I move to approve the Sixth Addendum to the Market License Agreement Between the Village of Western Springs and Bensidoun USA, Inc. relative to the operation of a French Market in the Village.

DRAFT 2.3.2025

RESOLUTION NO. 25-_____

VOTE:
AYES: _____
NAYS: _____
ABSENT: _____
ABSTAIN: _____
DATE: February 24, 2025.
OTHER: None.

A RESOLUTION APPROVING AND AUTHORIZING THE EXECUTION OF A SIXTH ADDENDUM TO THE MARKET LICENSE AGREEMENT BETWEEN THE VILLAGE OF WESTERN SPRINGS AND BENSIDOUN USA, INC. RELATIVE TO OPERATION OF A FRENCH MARKET IN THE VILLAGE (EXTENDED TERM: FEBRUARY 24, 2025 TO DECEMBER 31, 2027).

WHEREAS, the President and Board of Trustees of the Village of Western Springs (the "Village" or "Village Board") passed Resolution No. 08-1999 on January 28, 2008, and entered into a "Market License Agreement" (the "Agreement"), to allow Bensidoun USA, Inc., an Illinois corporation (the "Licensee"), to operate an open-air "French Market" (the "Market") on real property owned by the Village, subject to the terms and conditions set forth in the Agreement; and

WHEREAS, the Village and the Licensee have approved and entered into multiple addenda to the Agreement, as follows: the 2009 Addendum (approved by motion on March 23, 2009); the Second Addendum (approved by Resolution No. 16-2349 dated March 23, 2016); the Third Addendum (approved by Resolution No. 18-2434 dated April 23, 2018); the Fourth Addendum (approved by Resolution No. 19-2475 dated February 25, 2019); and the Fifth Addendum (approved by Resolution No. 22-2666, dated March 21, 2022) (collectively, the "Addenda"); and

WHEREAS, the Village desires to further amend certain of the terms of the Agreement, as amended by the Addenda, by entering into the "Sixth Addendum to the Market License Agreement Between Bensidoun USA, Inc. and the Village of Western Springs, Cook County, Illinois," a copy of which is attached hereto as **Exhibit "1"** and made a part hereof (the "Sixth Addendum"). The amendments relate to extending the term of the Agreement for the period of February 24, 2025 to December 31, 2027; and

WHEREAS, the Licensee desires to enter into the attached Sixth Addendum and to host and provide the Market consistent with the terms, provisions and conditions set forth in the Agreement, as amended by the Addenda and the Sixth Addendum; and

WHEREAS, at an open public meeting held on February 6, 2025, the Planning and Zoning Committee ("Committee") reviewed the terms of the attached Agreement and received input from the Village staff and provided an opportunity for public input on the matter, and then the Committee favorably recommended that the Village Board approve the Agreement; and

WHEREAS, at open public meetings held on February 10, 2025 and February 24, 2025, the Village Board reviewed and discussed the Project, the Agreement and the Committee's recommendation, and received input from Village staff and provided an opportunity for public input on the matter. At its February 24, 2025 meeting, the Village Board accepted the Committee's recommendation to approve and enter into the Agreement; and

WHEREAS, pursuant to the constitutional and statutory authority and intergovernmental cooperation powers set forth at Section 1 (Municipalities and Units of Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental

Cooperation) of Article VII (Local Government) of the Constitution of the State of Illinois of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-2.5), the President and Board of Trustees of the Village of Western Springs are authorized to approve and enter into the attached Sixth Addendum, and find that it is protective of the health, safety and welfare of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into the attached Sixth Addendum.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: Approval and Execution of Sixth Addendum and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve the Sixth Addendum, substantially in the form attached hereto as **Exhibit "1"**, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney. The President and Board of Trustees further authorize and direct the Village President and Village Clerk (or their designees) to execute the Sixth Addendum and such other documents as are necessary to fulfill the Village's obligations under the Sixth Addendum.

SECTION 3: Approval of Expenses. The President and Board of Trustees of the Village further approve and authorize the expenditure of Village funds and/or other available funds to pay all budgeted and appropriated costs that are necessary to fulfill the Village's financial obligations under the Sixth Addendum.

SECTION 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Sixth Addendum by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of one (1) certified copy of this Resolution and an executed version of the attached Sixth Addendum to Bensidoun USA, Inc. for record retention purposes.

SECTION 5: Effective Date. This Resolution shall be in full force and effect from and after its approval and adoption in the manner provided by law.

PASSED by the President and Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the 24th day of February, 2025, and approved by me as Village President, and attested by the Village Clerk on the same day.

Sixth Addendum To The Market License Agreement
Between Bensidoun USA, Inc. And
The Village Of Western Springs, Cook County, Illinois

(attached)

Draft

SIXTH ADDENDUM TO
THE MARKET LICENSE AGREEMENT
BETWEEN BENSIDOUN USA, INC. AND
THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS

THIS SIXTH ADDENDUM (the "Sixth Addendum") is entered into by the Village of Western Springs, Cook County, Illinois, an Illinois municipal corporation (the "Village" or the "Licensor"), and Bensidoun USA, Inc., an Illinois corporation (the "Licensee"), and is dated the ____ day of _____ 2025. The Village and the Licensee shall be referred to collectively as the "Parties" and individually as a "Party."

R E C I T A L S

Among the matters of mutual inducement which have resulted in this Sixth Addendum are the following:

A. The Village is a non-home rule municipality pursuant to Section 1 (Municipalities and Units of Local Government) and Section 7 (Counties and Municipalities Other Than Home Rule Units) of Article VII (Local Government) of the Constitution of the State of Illinois of 1970. Moreover, Section 10(a) (Intergovernmental Cooperation) of Article VII (Local Government) of the Constitution of the State of Illinois of 1970 authorizes municipalities to enter into contracts with individuals, associations and corporations in any manner not prohibited by law or by ordinance.

B. The Village and the Licensee entered into a "Market License Agreement" (the "Agreement") that was approved by the President and Board of Trustees of the Village in Resolution No. 08-1999 on January 28, 2008. The Agreement allows the Licensee to operate an open-air "French Market" (the "Market") on real property owned by the Village, subject to the terms and conditions set forth in the Agreement. The Agreement is on file in the Village Clerk's Office and is incorporated by reference into this Sixth Addendum as **Exhibit "A"** and made a part hereof.

C. The Village and the Licensee have approved and entered into multiple addenda to the Market License Agreement as follows: the 2009 Addendum (approved by motion on March 23, 2009); the Second Addendum (approved by Resolution No. 16-2349 dated March 23, 2016); the Third Addendum (approved by Resolution No. 18-2434 dated April 23, 2018); the Fourth Addendum (approved by Resolution No. 19-2475 dated February 25, 2019), A Fifth Addendum (approved by Resolution 22-2666 dated March 21, 2022) (collectively, the "Addenda"). The Addenda are on file in the Village Clerk's Office and are incorporated by reference into this Sixth Addendum as "**Group Exhibit "B"** and made a part hereof. All references in this Sixth Addendum to the "Agreement" shall mean the Agreement as amended by the Addenda.

D. The Village and the Licensee desire to enter into this Sixth Addendum to amend certain terms and provisions of the Agreement, as set forth below, relative to extending the term

of the Agreement, which shall commence on February 24, 2025 and end on December 31, 2027.

IN CONSIDERATION of the above Recitals, the mutual covenants herein contained, and other good and valuable consideration, the sufficiency and receipt of which is acknowledged, the Village and the Licensee agree as follows:

SECTION 1: Approval of Amended Terms to the Agreement. The Parties agree that Sections 2, 5(a), 5(b), 5(k) and 7 of the Agreement shall be amended to read in their entirety as follows:

2. TERM OF AGREEMENT. The term of this AGREEMENT shall commence on February 24, 2025 and shall continue until December 31, 2027 (the "2025/2027 Extended Term"). The Parties may extend the term of this Agreement for an additional period of time beyond the 2025/20227 Extended Term by mutual agreement set forth in an addendum. The Parties agree as follows:

   A. If the LICENSOR decides not to renew this Agreement at the end of the 2025/2027 Extended Term or if the Agreement is terminated early by the LICENSOR and the LICENSEE is not in material breach of the Agreement at the time of the non-renewal or the termination, then the LICENSOR agrees that it shall be prohibited from allowing an open-air market to operate on the PREMISES for a one (1) year waiting period that commences on the date that the Agreement expires or is terminated.

   B. If the LICENSEE decides not to renew this Agreement at the end of the 2025/2027 Extended Term, or if the Agreement is terminated early by the LICENSEE, or if the Agreement is terminated by the LICENSOR due to the LICENSEE'S material breach of the Agreement, then the one (1) year waiting period imposed on the LICENSOR relative to allowing an open-air market on the PREMISES under subsection 2(A) above shall not apply to the LICENSOR, provided that the LICENSOR does not solicit any of the current vendors of the LICENSEE for a one (1) year period commencing on the termination date of the Agreement.

***

5. USE OF PREMISES.

   (a) MAINTENANCE AND OPERATION. The LICENSEE may use the PREMISES solely for operating an open-air market. The LICENSEE may operate the open-air market on Wednesdays during the months of May, June, July, August, and September, as specified below, between the hours of **3:00 p.m. and 8:00 p.m.** The first MARKET DAY each May shall be conducted on the second Wednesday of that month and the last MARKET DAY each September shall be conducted on the last Wednesday of that month. Each Wednesday during the months of May, June, July, August, and September that the open-air market is operated by the LICENSEE shall also be known as a "MARKET DAY." Additional "MARKET DAYS" may be added with the consent of the Village Manager to

accommodate requests from the LICENSEE or related to special events organized or promoted by the LICENSOR. The hours of a MARKET DAY may be modified by mutual agreement of the LICENSOR and the LICENSEE. The LICENSEE'S use of the PREMISES must comply with all applicable state, federal, county and Village laws, statutes, regulations, and ordinances. In addition, the LICENSEE shall comply with all directives of the Village Manager, the Director of Law Enforcement Services, the Director of Fire and Emergency Medical Services, the Director of Municipal Services and the Director of Community Development, or their designees, regarding the safety of its vendors and all market customers at each MARKET DAY, including perimeter safety/security and seeking shelter from severe weather. Reconfiguration, relocation, or rescheduling of any MARKET DAY due to Village-issued safety/security directives shall not result in any financial payment, concession or contribution from the LICENSOR to the LICENSEE and any financial loss incurred by such Village-issued safety/security directives shall be borne fully by the LICENSEE.

(b) SET UP. For each MARKET DAY, the following three (3) options will be considered and finalized administratively by Village Staff: (a) the LICENSEE shall provide its own labor to set up and take down the tents and poles for the open-air market; or (b) vendors shall provide, install and use their own tents rather than the tents provided by the LICENSEE; or (c) the LICENSOR shall provide labor to set up and take down the LICENSEE'S tents and poles. The LICENSOR agrees to continue to store the LICENSEE'S tents and poles at no charge to the LICENSEE.

For each MARKET DAY, the LICENSOR, at its cost, shall deliver the LICENSEE'S tents and poles to the PREMISES (unless vendor-owned tents are used), and shall close portions of the public streets immediately adjacent to the PREMISES.

If the LICENSEE is unable to procure adequate labor to perform its obligations in this Section 5(b), after using the LICENSEE'S reasonable efforts, the LICENSEE may request that the LICENSOR provide, and the LICENSOR shall provide, the LICENSEE with the labor needed to complete the LICENSEE'S obligations under this Section 5(b), with at least four (4) business days advanced notice of the same. As an alternative to the LICENSOR providing the labor needed to complete the LICENSEE'S obligations under this Section 5(b), the LICENSEE may allow its vendors to use their own tents during the open-air market, rather than the LICENSEE-supplied tents and poles, and, in such case, the LICENSOR shall, before the MARKET DAY begins, outline each vendor space on the PREMISES in chalk.

***

(k) MARKETING. The LICENSEE, at its cost, shall provide marketing for the open-air market through a combination of press releases, bought advertisement and digital marketing. The LICENSOR, at its cost, shall provide marketing for the open-air market through a combination of banners, Village newsletters, digital marketing and the Village cable

access channel. The LICENSOR shall make reasonable efforts to acquire, install and maintain temporary signs during the MARKET SEASON and to acquire, install and maintain permanent signs advertising the open-air market, at a cost to be shared equally by the LICENSEE and the LICENSOR, at locations selected by the LICENSOR, in its sole discretion, along Hillgrove Avenue, Wolf Road and/or Ogden Avenue.

***

7. ALTERATIONS AND ADDITIONS. The LICENSEE shall make no alteration, addition, improvement or change in or to the PREMISES. Gaskets shall be removed and the holes patched by the LICENSOR, at its cost.

   The LICENSOR, in its discretion, may temporarily relocate the PREMISES for the open-air market during any construction project that involves the Hillgrove Avenue or adjacent right-of-ways, including the adjacent streetscape and sidewalk areas, and the commuter train platforms adjacent to the current PREMISES. The LICENSOR shall provide the LICENSEE with at least thirty (30) calendar days advance notice of the need to relocate the PREMISES for the open-air market due to the commencement of any construction project, and the notice will identify the new temporary location. The LICENSOR will provide a new temporary location for the open-air market that provides adequate visibility and has a suitable surface for placement of tents, provided either by the LICENSEE or the vendors. The LICENSOR will not be responsible for the installation of new tent pole anchors. During any temporary relocation, the LICENSEE shall be responsible for installation of new tent anchors, at its cost.

SECTION 2: Miscellaneous Terms. The following terms shall apply to this Sixth Addendum:

A. **Incorporation.** The Parties agree that all capitalized words used in the Agreement shall have the same meaning when capitalized in this Sixth Addendum, unless otherwise defined in this Sixth Addendum. The Agreement and its exhibits are incorporated herein by reference as if set forth in full and are material provisions hereof. In all respects, except as specifically amended by this Sixth Addendum, the Agreement and its exhibits remain in full force and effect. In the event of any conflict between the Agreement and its exhibits and this Sixth Addendum, this Sixth Addendum shall control.

B. **Effective Date.** This Sixth Addendum shall be deemed dated and become effective on the date that the last signatory signs this Sixth Addendum, which date shall be set forth in the first paragraph of this Sixth Addendum.

IN WITNESS WHEREOF, the President and Board of Trustees of the Village of Western Springs have approved this Sixth Addendum to the Agreement by passage of a Resolution at an open public meeting, and the Village President and Village Clerk of the Village of Western Springs, pursuant to the authority granted by the passage of said Resolution, have signed this Sixth Addendum, and the authorized Corporate Officer of Bensidoun USA, Inc. has signed this Sixth Addendum and has had his/her signature attested by a Notary Public.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.E.

To: Board of Trustees
From: Heather Valone, Director of Community Development
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Michael Jurusik, Village Attorney, Jeff Koza, Director of Engineering Services, Kelsey Fawell, Senior Planner, Anne Skrodzki, Village Attorney
RE: [Previously Discussed] 4300 Howard Avenue, First United Methodist Church, Hinsdale First United Methodist Church, Dissolve a Conditional Use Permit (Omnibus Item)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on January 9, 2025 and recommended the approval of the 4300 Howard Avenue, First United Methodist Church, Hinsdale First United Methodist Church, Plat of Abrogation for a Public Sidewalk Easement and Dissolve a Conditional Use Permit. The Village Board discussed this item on January 13, 2025 and directed Staff and the Village Attorney to finalize the resolutions and ordinance for consideration.

Summary

On October 25, 2024, the Village was notified that the First United Methodist Church (the "FUMC") located at 4300 Howard Avenue (the "Subject Property") had a pending real estate contract to sell the Subject Property. The notification requested that the Village abrogate (i.e. release) an easement for the public sidewalk located partially on the Subject Property and requested that the existing conditional use approvals be dissolved. The request package is included in Attachment 1.

Background

On May 20, 2024, the Westen Springs and Hinsdale First United Methodist Churches merged. As part of the merger, it was identified that both churches would utilize the Hinsdale location. As a result, the Western Springs FUMC was listed for sale. FUMC has a pending real estate contract with a purchaser that intends to develop the property for single family houses. The property consists of three lots of record (i.e. three platted lots) and is zoned R2 Single Family Residential district (the "R2 District"). The existing lots exceed the minimum requirements for the R2 District. At this time no variations / relief from the Village Code is being requested. The lots would be developed as-of-right by obtaining a building permit(s). There are two existing encumbrances on the property. The first is a conditional use for the church as an early childhood development facility. The second is an easement for a public sidewalk that is located

partially on the Subject Property.

Easement

On April 18, 2014 the Village Board approved Resolution No. 14-2268 (Attachment 2) which granted a plat of easement for public sidewalk and a related agreement between the Village of Western Springs and FUMC. The easement and agreement placed roughly 2.8 feet of public sidewalk on the 43rd Street (north) side of the Subject Property in exchange for the on-street parking spaces within the 43rd Street right-of-way to be converted from parallel spaces in to angled parking. The related agreement detailed future maintenance and restoration work for the installation of the sidewalk. Under the agreement if FUMC decides to redevelop the Subject Property in a manner that removes or relocates the public sidewalk then the Village and FUMC agreed to negotiate changes to the agreement to allow development. The agreement references that if the sidewalk was to be removed or relocated FUMC would be obliged to cover the construction costs.

The proposed development of the property for residential use proposes to redevelop the right-of-way area as a traditional parkway with a five-foot public sidewalk located within the right-of-way separated from the curb with a roughly 13-foot parkway planted with sod and street trees. The stripped parking would be removed and standard on street parking similar to the existing north side of 43rd Street would be permitted.

The attached draft resolutions in Attachments 4 and 5 includes provisions for the release of the easement, the removal and restoration of the right-of-way area as described in the preliminary concept plan included in Attachment 1 and requirements of the current or future property owner related to the construction / restoration.

Conditional Use Permit

On September 24, 2018 the Village Board of Trustees approved Ordinance No 18-2934 approving a conditional use permit for the Subject Property to allow for the La Grange Area Department of Special Education ("LADSE") to operate an early childhood education center. LADSE no longer utilizes the building and FUMC is seeking the conditional use to be dissolved. Attachment 6 contains the draft ordinance resending the conditional use on the property.

Conclusion

The agreement included in Attachment 2 outlines provisions for FUMC or any subsequent property owner must complete for the property to be developed for single family residential purposes. If FUMC or any subsequent property owner wishes to develop the property for another use the property owner would be required to complete the Village's zoning process and the right-of-way redevelopment would be reviewed and determined by the Village Board as part of a larger zoning process. Additionally, there are provisions to ensure that the restoration of the right-of-way area is completed to Village standards or financial obligations if they work is not completed as required.

The Planning and Zoning Committee reviewed the request and submitted documentation at their meeting on January 9 and recommended approval of the request. The Village Board review the item at their regular meeting on January 13, 2025 and directed staff and the Village Attorney to finalize the resolutions and ordinance for consideration.

1. Ordinance

ORDINANCE NO. 25-_____
VOTE:
AYES:
NAYS:
ABSTAIN:
ABSENT:
DATE: February 10, 2025.
OTHER: None.

AN ORDINANCE RESCINDING AND REPEALING THE BOARD OF TRUSTEES' APPROVAL OF ORDINANCE NO. 18-2934 (AN ORDINANCE APPROVING A CONDITIONAL USE PERMIT FOR THE INSTALLATION AND OPERATION OF AN EARLY CHILDHOOD EDUCATION CENTER AT THE 4300 HOWARD AVENUE PROPERTY) TO FACILITATE THE DEMOLITION OF A CHURCH BUILDING AND REMOVAL OF A PUBLIC SIDEWALK AND ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

WHEREAS, Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (the "Church"), is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, and legally described in **Exhibit "A"** attached hereto and made a part hereof (the "Subject Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village President and Board of Trustees (the "Corporate Authorities") of the Village of Western Springs (the "Village") approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Subject Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Subject Property to 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (the "Developer"). The Developer, who is the contract purchaser and prospective developer of the Subject Property, intends to demolish the existing structures on the Subject Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Subject Property and then pursue the redevelopment of the Subject Property. The Developer may redevelop the Subject Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots or the Developer may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Subject Property that is a permitted use under the R2 - Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the construction of single-family homes on the three (3) single family lots or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a

typical plan for a single-family residential development consisting of the three (3) lots as shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan"). A copy of the Developer's Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is on file with the Community Development Department of the Village; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to take certain actions relative to the Subject Property, including the approval of: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; and (c) the repeal of Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"); and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to enter into a redevelopment agreement with the Village to construct the Development, the Church, the Developer and the Village have entered into an "Assignment, Assumption And Consent Agreement For The Demolition Of A Church Building And Certain On-Street Public Parking Spaces, Abrogation Of A Public Sidewalk Easement, Installation Of A New Public Sidewalk And Restoration Of 43rd Street Right-Of-Way In The Village Of Western Springs, Illinois (Lots 1, 8 And 9 In Field Park Subdivision)" (the "Assignment"), in a form and content as approved by the Village Attorney, that requires the Developer to complete the Church Demolition Work and to assume the following obligations of the Church under the Letter of Agreement: (a) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (b) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); and (c) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". The Assignment also requires the Developer to approve and enter into a mutually agreeable Redevelopment Agreement with the Village relative to the completion of the Developer Site Work Obligations and the construction of the Development (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney; and

WHEREAS, the 2018 CUP Ordinance allows for the installation and operation of an early childhood education center facility within the First United Methodist Church of Western Springs by the La Grange Area Department of Special Education, the then-applicant, and any successor in interest; and

WHEREAS, the Church and the Village agree that, even if the Developer does not purchase the Subject Property, the 2018 CUP Ordinance should be repealed and rescinded; and

WHEREAS, at an open public meeting held on January 9, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the Church's request to repeal the 2018 CUP Ordinance as part of its consideration of the Development and the related Redevelopment Agreement and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its January 9, 2025 meeting, the Committee recommended that the Corporate Authorities of the Village approve the Church's repeal of the 2018 CUP Ordinance; and

WHEREAS, at open public meetings held on January 13, 2025 and February 10, 2025, the Corporate Authorities of the Village reviewed and discussed the Committee's recommendation on the request to repeal the 2018 CUP Ordinance as part of its consideration of the Development and the related Redevelopment Agreement, and received input from the Village staff on the matter and provided an opportunity for public input on the matter. At its February 10, 2025 meeting, the Corporate Authorities of the Village accepted the Committee's recommendation regarding approval of the Church's request to repeal the 2018 CUP Ordinance; and

WHEREAS, in accordance with the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), including Sections 11-13-1 and 11-13-1.1 of the Illinois Municipal Code (65 ILCS 5/11-13-1 and 65 ILCS 5/11-13-1.1), and Title 10 (Development Control Ordinance), Chapter 3 (Administrative Bodies and Procedures), Subsection 10-3-14 (Conditional Use) of the Western Springs Municipal Code and the statutory and constitutional authority and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution, the Corporate Authorities of the Village are authorized to pass this Ordinance to rescind and repeal the approval of the 2018 CUP Ordinance No. 18-2934; and

WHEREAS, in order to facilitate the sale of the Subject Property by the Church to the Developer to allow for the construction of the Development, the Corporate Authorities of the Village find that it is protective of the health, welfare and safety of and in the best interests of the Village and its residents to rescind and repeal the approval of the 2018 CUP Ordinance No. 18-2934, provided that the Church approves of the Termination of the Letter of Agreement and the Plat of Sidewalk Easement Abrogation, subject to mutually agreeable conditions of approval agreed to by the Church and the Village, and the Church's and the Developer's compliance with the provisions of the Assignment, and the Developer's and the Village's approval and entry into a mutually agreeable Redevelopment Agreement for the construction of the Development, in a form and content as approved by the Village Attorney.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each of the Whereas paragraphs set forth above are incorporated into Section 1 of this Ordinance as material provisions.

SECTION 2. Rescind and Repeal of Approval of Ordinance No. 18-2934. Pursuant to Chapter 65

of the Illinois Compiled Statutes, Section 5/11-13, the Corporate Authorities of the Village of Western Springs rescind and repeal the approval of Ordinance No. 18-2934, granting a conditional use permit for the operation of an early childhood education center at the 4300 Howard Avenue Property.

SECTION 3. Filing Ordinance With the Cook County Clerk's Office, Recording Division. The Village shall cause a certified copy of this Ordinance to be recorded with the Cook County Clerk's Office, Recording Division ("CCCORD"), at the cost and expense of the Developer. The Village shall provide the Applicant with a CCCORD-filed stamped copy of this Ordinance.

SECTION 4. Repealer; Severability. All Ordinances or parts of Ordinances in conflict herewith are, to the extent of such conflict, hereby repealed, and each section, paragraph, clause and provision of this Ordinance is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any part thereof, other than that part affected by such decision.

SECTION 5. Publication; Effective Date. This Ordinance shall be in full force and effect from and after its passage and due publication in pamphlet form according to law.

PASSED by an affirmative vote of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 10th day of February, 2025, and approved by me as President on the same day.

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, in the County of Cook and State of Illinois, certify that the attached document is a true and correct copy of that certain Ordinance now on file in my office, entitled:

ORDINANCE NO. 25-____

AN ORDINANCE RESCINDING AND REPEALING THE BOARD OF TRUSTEES' APPROVAL OF ORDINANCE NO. 18-2934 (AN ORDINANCE APPROVING A CONDITIONAL USE PERMIT FOR THE INSTALLATION AND OPERATION OF AN EARLY CHILDHOOD EDUCATION CENTER AT THE 4300 HOWARD AVENUE PROPERTY) TO FACILITATE THE DEMOLITION OF A CHURCH BUILDING AND REMOVAL OF A PUBLIC SIDEWALK AND ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT OF WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

which Ordinance was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting on the 10th day of February, 2025, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 10th day of February, 2025.

I further certify that the vote on the question of the passage of said Ordinance by the Board of Trustees of the Village of Western Springs was taken by Ayes and Nays and recorded in the minutes of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Ordinance, of which the foregoing is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this __ day of February, 2025.

RESOLUTION NO. 25-_____
VOTE:
AYES:
NAYS:
ABSTAIN:
ABSENT:
DATE: February 10, 2025.
OTHER: None.

A RESOLUTION APPROVING A PLAT OF ABROGATION FOR PUBLIC SIDEWALK EASEMENT (ADDRESS: 4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS) AND APPROVING THE TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES WITHIN THE 43RD STREET RIGHT-OF-WAY ADJACENT TO LOT 1 AND LOT 9 IN THE FIELD PARK SUBDIVISION, WESTERN SPRINGS, ILLINOIS.

WHEREAS, Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (the "Church"), is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois (the "Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village President and Board of Trustees (the "Corporate Authorities") of the Village of Western Springs (the "Village") approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Property to 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (the "Developer"). The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots, or the Developer may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the construction of single-family homes on the three (3) single-family lots, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for single-family residential development consisting of the three (3) lots shown on Sheet A.02

of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan"). A copy of the Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached as Exhibit "B" to the "Termination of Letter of Agreement" as described below; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to take certain actions relative to the Property, including the approval of: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk (Address: 4300 Franklin Avenue, Western Springs, Illinois) to terminate the Sidewalk Easement; and (c) the repeal of Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"). A copy of the TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK (4300 Franklin Avenue, Western Springs, Illinois) is attached hereto as **Exhibit "1"** and made a part hereof (the "Termination of Letter of Agreement"). The Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue, Western Springs, Illinois), with a Survey date of September 27, 2024 and prepared by Kabal Surveying Company, is attached hereto as **Exhibit "2"** and made a part hereof (the "Plat of Sidewalk Easement Abrogation"); and

WHEREAS, the Church and the Village agree that, even if the Developer does not purchase the Property, the 2018 CUP Ordinance should be repealed and rescinded; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to enter into a redevelopment agreement with the Village to construct the Development, the Church, the Developer and the Village have entered into an Assignment, Assumption And Consent Agreement For The Demolition of Church, Abrogation of Easement and Restoration of 43rd Street Right-of-Way In The Village Of Western Springs, Illinois (Lots 1, 8 And 9 In Field Park Subdivision) (the "Assignment"), in a form and content as approved by the Village Attorney, that requires the Developer to complete the Church Demolition Work and to assume the following obligations of the Church under the Letter of Agreement: (a) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (b) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); and (c) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". The Assignment also requires the Developer to approve and enter into a mutually agreeable Redevelopment Agreement with the Village relative to the completion of the Developer Site Work Obligations and the construction of the Development (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney; and

WHEREAS, in order to facilitate the sale of the Property by the Church to the Developer to allow for the construction of the Development, the Corporate Authorities of the Village find that it is protective of the health, welfare and safety of and in the best interests of the Village and its residents to approve the attached Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement, subject to certain conditions of approval, including the Church's and the Developer's compliance with the provisions of the Assignment, and the Developer's and the Village's approval and entry into a mutually agreeable Redevelopment Agreement for the construction of the Development, in a form and content as approved by the Village Attorney; and

WHEREAS, at an open public meeting held on January 9, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the Church's request to approve the Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement, as part of its consideration of the Development and the related Redevelopment Agreement, and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its January 9, 2025 meeting, the Committee recommended that the Corporate Authorities of Village approve the Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement; and

WHEREAS, at open public meetings held on January 13, 2025 and February 10, 2025, the Corporate Authorities of the Village reviewed and discussed the Committee's recommendation on the request to approve the Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement, as part of its consideration of the Development and the related Redevelopment Agreement, and received input from the Village staff on the matter and provided an opportunity for public input on the matter. At its February 10, 2025 meeting, the Corporate Authorities of the Village accepted the Committee's recommendation regarding approval of the Church's request to approve the Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement; and

WHEREAS, in accordance with the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), including Sections 11-13-1 and 11-13-1.1 of the Illinois Municipal Code (65 ILCS 5/11-13-1 and 65 ILCS 5/11-13-1.1), and in accordance with Section 10-10-20(B) and other applicable provisions of the Village's Development Control Ordinance ("DCO") of the Western Springs Municipal Code and the statutory and constitutional authority and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Constitution of the State of Illinois of 1970, the Corporate Authorities of the Village are authorized to pass this Resolution, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, businesses and the public to approve and execute the attached Termination of Letter of Agreement and the Plat of Abrogation for Public Sidewalk Easement.

BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each of the Whereas paragraphs set forth above are incorporated into Section 1 of this Resolution as material provisions.

SECTION 2. Approval and Execution of Termination of Letter of Agreement and Other Related Documents. The President and Board of Trustees of the Village of Western Springs authorize the approval and execution of the final version of the TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK (4300 Howard Avenue, Western Springs, Illinois), substantially in the form attached hereto as **Exhibit "1"**, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and all other instruments and documents that are necessary to fulfill the Village's obligations under the Termination of Letter of Agreement and this Resolution.

SECTION 3. Approval and Execution of Plat of Abrogation and Other Related Documents. The President and Board of Trustees of the Village of Western Springs authorize the approval and execution of the final version of the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue, Western Springs, Illinois), with a survey date of September 27, 2024 and prepared by Kabal Surveying Company, a copy of which is attached hereto as **Exhibit "2"** and made a part hereof, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and all other instruments and documents that are necessary to fulfill the Village's obligations under the Termination of Letter of Agreement and this Resolution.

SECTION 4. Termination of Resolution for Failure of Developer to Acquire Title to the Property. The validity of this Resolution is subject to the Developer purchasing the Property from the Property Owner. In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract entered into between the Property Owner and the Developer, this Resolution shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Resolution based on the Developer not purchasing the Property. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract.

SECTION 5. Filing Resolution With the Cook County Clerk's Office, Recording Division. After approval and execution of this Resolution and the Termination of Letter of Agreement and the Plat of Abrogation by the Village President and Village Clerk, or their designees, the Village shall cause certified copies of this Resolution and the executed originals of the attached TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK and the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Howard Avenue, Western Springs, Illinois) to be recorded with the Cook County Clerk's Office, Recording Division ("CCCORD"), at the cost and expense of the Developer, after all of the required signatures are placed on the Termination of Letter of Agreement and the Plat. The Village shall provide the Church and the Developer with CCCORD-filed stamped copies of this Resolution and the Termination of Letter of Agreement and the Plat for record retention purposes.

SECTION 6. Repealer; Severability. All Resolutions or parts of Resolutions in conflict herewith

are, to the extent of such conflict, repealed, and each section, paragraph, clause and provision of this Resolution is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Resolution, nor any part thereof, other than that part affected by such decision.

SECTION 7. Effective Date. This Resolution shall be in full force and effect from and after its passage and approval according to law.

PASSED by a majority vote of the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 10th day of February, 2025, and approved by me as President on the same day.

**TERMINATION OF LETTER OF AGREEMENT
FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK
AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR
THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES
WITHIN THE 43RD STREET RIGHT-OF-WAY
ADJACENT TO LOT 1 AND LOT 9 IN THE FIELD PARK SUBDIVISION
(4300 Franklin Avenue, Western Springs, Illinois)**

This **TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK** ("Termination Agreement") is made this __ day of February, 2025, by Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs, ("Church") as owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, and legally described in **Exhibit "A"** attached hereto and made a part hereof (the "Property"), and the Village of Western Springs ("Village"), as the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"). The Village and the Church are at times referred to herein individually as a "Party" and collectively as the "Parties".

RECITALS:

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068; and

WHEREAS, in compliance with the Letter of Agreement, the Village, at its cost, has complied with each of its obligations relative to installation and maintenance of: (a) the new public sidewalk within the Sidewalk Easement created by the above-referenced Plat of Easement for Public Sidewalk; and (b) the new public parking spaces within the south side of the 43rd Street right-of-way between Howard Avenue and Franklin Avenue. The Village, at its cost, also complied with its obligations of restoration and

replacement of the removed or disturbed portions of the landscape vegetation and grass with topsoil and sod, the handicap ramp and related railing, and the exterior landscape lighting and related wiring; and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title to the Property, consisting of three (3) platted lots zoned under the R2 Single-Family Residence District classification, to 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (the "Developer"). The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more the lots, or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the completion of the three (3) single-family detached houses, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for a single-family residential development consisting of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan"). A copy of the Developer's Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached hereto as **Exhibit "B"** and made a part hereof; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to construct the 4300 Howard Avenue Residential Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to take certain actions relative to the Property, including the approval of: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; and (c) the repeal of Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"). A copy of the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue), with a Survey date of September 27, 2024 and prepared by Kabal Surveying Company, is attached hereto as **Exhibit "C"** and made a part hereof (the "Plat of Sidewalk Easement Abrogation"); and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to enter into a redevelopment agreement with the Village to construct the Development, the Church, the Developer and the Village have entered into an Assignment, Assumption And Consent Agreement Entered Into By Hinsdale United Methodist Church, As Successor To The First United Methodist Church of Western Springs, And 4300 Franklin Western Springs LLC for The Demolition of Church, Abrogation of Easement and Restoration of 43rd Street Right-of-Way In The Village Of Western Springs, Illinois (Lots 1, 8 And 9 In Field Park Subdivision) (the "Assignment"), in a form and content as approved by the Village Attorney, that requires the Developer to complete the Church Demolition Work and to assume the following obligations of the Church under the Letter of Agreement: (a) the removal and

disposal of the existing public sidewalk and construction of a new replacement public sidewalk and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (b) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); and (c) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". The Assignment also requires the Developer to approve and enter into a mutually agreeable Redevelopment Agreement with the Village relative to the completion of the Developer Site Work Obligations (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney. Regarding facilitating the Developer and the Village entering into the Redevelopment Agreement, the Church also agrees to sign a document entitled "Written Consent and Waiver Of Hinsdale United Methodist Church, as Successor to the First United Methodist Church of Western Springs, To Allow 4300 Franklin Western Springs, LLC To Enter Into A Redevelopment Agreement And Other Related Documents Regarding The 4300 Howard Avenue Demolition of Church, Abrogation of Easement and Restoration of 43rd Street Right -of -Way Located At 4300 Howard Avenue In The Village Of Western Springs, Cook County, Illinois" (the "Consent and Waiver"). A copy of the executed Assignment is attached hereto as **Exhibit "D"** and made a part hereof; and

WHEREAS, for purposes of allowing the sale of the Property to the Developer to facilitate the Developer's completion of the Developer Site Work Obligations, the Church and the Village each deem that the Sidewalk Easement is no longer needed to serve the interests of the Church or the needs of the Village, and have agreed to: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Sidewalk Easement Abrogation; (c) the completion of the Sidewalk Removal and Replacement/Relocation Work; (d) the completion of the Parking Space Removal Work; (e) the completion of the Parkway Restoration Work; (f) the repeal of the 2018 CUP Ordinance; and (g) the Conditions of Approval set forth below in Section 3 of this Termination Agreement; and

WHEREAS, the Corporate Authorities of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Illinois Constitution of 1970, to approve and enter into this Termination Agreement and to approve the Plat of Sidewalk Easement Abrogation and the Assignment, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into this Termination Agreement and to approve the Plat of Sidewalk Easement Abrogation and the Assignment.

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained and the exchange of adequate consideration and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties hereto, intending to be legally bound, agree as follows:

SECTION 1. Incorporation. Each of the Recitals set forth above are incorporated by reference into Section 1 of this Termination Agreement as material provisions.

SECTION 2. Approval of the Termination Agreement, the Plat of Sidewalk Easement Abrogation, and the Assignment, Assumption and Consent Agreement. The Church and the Village abrogate,

terminate, and otherwise deem to hold for naught that certain Plat of Easement for Public Sidewalk, dated April 28, 2014, and recorded May 14, 2014 in Cook County, Illinois as Document 1413445068, together with the Letter of Agreement between the Church and the Village dated April 28, 2014 recorded therewith by their approval and entry into this Termination Agreement and their approval of the Plat of Sidewalk Easement Abrogation and the Assignment, SUBJECT TO THE CONDITIONS SET FORTH IN SECTION 3 BELOW:

SECTION 3. Conditions of Approval. The approval of the Corporate Authorities of the Village of this Termination Agreement, the Plat of Sidewalk Easement Abrogation, and the Assignment is conditioned upon and subject to the following:

A. Church Obligations:
    a. The Church shall approve and execute this Termination Agreement, the Plat of Sidewalk Easement Abrogation, the Consent and Waiver and the Assignment, and such other documents necessary to fulfill its obligations under this Termination Agreement, the Plat of Sidewalk Easement Abrogation, the Consent and Waiver and the Assignment.
    b. Prior to the Village's approval of this Termination Agreement, the Church and the Developer shall approve and enter into the Assignment (**Exhibit "D**"), in a form and content as approved by the Village Attorney, with the Developer.
    c. Prior to the Village's approval of this Termination Agreement, the Church shall facilitate the Developer's approval and execution of the Redevelopment Agreement for the completion of the Developer Site Work Obligations (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney, that contains, at a minimum, the Developer's obligation to complete the following Developer Site Work Obligations and such other provisions and obligations as mutually agreed to by the Village and the Developer. After its acquisition of the Property, in the event the Developer fails to commence or commences and then fails to complete the Developer Site Work Obligations, the Village, at the Developer' cost, may, but is not obligated to, complete the Developer Site Work Obligations, subject to the terms, provisions and obligations of the Redevelopment Agreement and the Village may use the security posted by the Developer to ensure the completion of the Developer Site Work Obligations
        i. If there is any conflict between the provisions of this Termination Agreement and the Redevelopment Agreement, the Redevelopment Agreement shall control.
    d. After the Village's approval of this Termination Agreement, the Church shall complete the sale and conveyance of fee simple title to the Property to the Developer.
    e. If the Developer does not purchase the Property, the Church, at its cost, may complete the Church Demolition Work and may also complete the other Developer Site Work Obligations, provided the Plat of Sidewalk Easement Abrogation is approved and filed with the Cook County Clerk's Office, Recordings Division, and the Church secures all required permits, posts with the Village required security to ensure the completion of the work and otherwise complies with all of the requirements set forth in the Redevelopment Agreement to complete the Developer Site Work Obligations.
B. Village Obligations:
    a. Provided the Developer executes the Redevelopment Agreement, the Corporate Authorities agree to:
        i. Pass an ordinance that repeals the 2018 CUP Ordinance.
        ii. Pass one or more resolutions that approve the Plat of Sidewalk Easement Abrogation, the Assignment, this Termination Agreement, and the

Redevelopment Agreement and such other documents necessary to fulfill the obligations set forth in those documents.

SECTION 4. Cooperation; Execution of Documents. The Church and the Village agree to cooperate with each other in the performance of this Termination Agreement, including each Party agreeing at any time, and from time to time, to execute and deliver any and all documents reasonably requested by the other Party to carry out the intent of this Termination Agreement.

SECTION 5. Entire Agreement; Amendment or Modification. This Termination Agreement contains the entire understanding between the Parties and supersedes any prior understanding or written or oral agreements between them with respect to the subject matter of this Termination Agreement. There are no representations, agreements or understandings, oral or written, between and among the Parties hereto relating to the subject matter of this Termination Agreement which are not fully expressed herein. No oral modification, amendment or change shall be allowed to this Termination Agreement. Any modification, amendment or change shall be in writing and approved by the Corporate Authorities of the Village and the governing board of the Church.

SECTION 6. Applicable Law; Venue. This Termination Agreement shall be governed and controlled as to the validity, enforceability, interpretation and construction in effect in all other respects, including, but not limited to, the legality of interest charged hereunder, by the statutory laws and decisions of the State of Illinois. The Parties agree that, for the purpose of any litigation relative to this Termination Agreement and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the Parties consent to the *in personam* jurisdiction of said Court for any such action or proceeding.

SECTION 7. Severability. Every provision of this Termination Agreement is intended to be severable. In the event any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the validity or enforceability of the remaining terms and provisions hereinabove set forth.

SECTION 8. Effective Date; Legal Authority; Binding Effect. The "Effective Date" of this Termination Agreement shall be the date of execution by the last signatory, which date shall be inserted on page 1 of this Termination Agreement. This Termination Agreement shall be in full force and effect, and legally binding, after it is signed by the duly authorized officers of each Party. Each of the signatories to this Termination Agreement are the duly authorized representatives of their respective corporate entity and each such person has signed this Termination Agreement pursuant to the authority duly granted to them by the corporate authorities of said corporate entity, who have acted by motion or approved a Resolution (in the Village's case, at an open public meeting) that authorized and directed the representatives to sign this Termination Agreement. This Termination Agreement shall be binding upon and shall inure to the benefit of the Parties agreeing hereto and to their successor corporations, officers, officials, trustees, successors-in-office, heirs, representatives, and assigns, transferees, successors-in-interest and successor owners.

SECTION 9. Enforcement of this Termination Agreement. If either Party has to file a legal action to enforce the provisions of this Termination Agreement, the prevailing Party shall receive its court filing fees, attorney fees and litigation-related expenses.

SECTION 10. Execution. This Termination Agreement may be executed simultaneously in two (2) or more counterparts, each of which shall be deemed an original, and such counterparts together shall constitute one and the same Termination Agreement.

SECTION 11. Corporate Status of the Church and the Developer. Prior to the approval of this Termination Agreement by the Corporate Authorities of the Village, the Church shall furnish to the Village certificates of good standing issued by the Illinois Secretary of State, or such other applicable governing entity with regulatory jurisdiction, confirming that the Church and the Developer are in good corporate standing.

SECTION 12. Notices. All notices required to be delivered hereunder shall be in writing and shall be deemed sufficient if: (a) personally delivered, (b) sent by a nationally recognized overnight courier, or (c) sent by certified mail, return receipt requested, postage prepaid and addressed to the Parties to this Termination Agreement at the addresses set forth below or at such other addresses as may be designated by the Parties in writing. Notices personally delivered and sent by overnight courier shall be deemed delivered on the date of receipt. Notices mailed by certified mail shall be deemed received on the date of receipt or refusal to accept delivery as evidenced by the return receipt.

Notices and communications to the Village shall be addressed to, and delivered at, the following addresses:

SECTION 13. Filing Ordinance With Cook County Clerk's Office, Recording Division. The Village, at the Church's cost, shall cause a certified copy of this Termination Agreement and its Exhibits (and its approving Resolution) to be recorded with the Cook County Clerk's Office, Recording Division ("CCCORD") upon approval and execution by the Parties. The Village shall provide the Petitioner with CCCORD-filed

stamped copies of this Termination Agreement and its approving Resolution, once available, for record retention purposes.

Assignment, Assumption and Consent Agreement
Between Hinsdale United Methodist Church, as successor to
the First United Methodist Church of Western Springs, ("Church")
and 4300 Franklin Western Springs LLC (the "Developer")
as approved by the Village of Western Springs

(attached)

ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT ENTERED INTO BY HINSDALE UNITED METHODIST CHURCH, AS SUCCESSOR TO THE FIRST UNITED METHODIST CHURCH OF WESTERN SPRINGS, AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

This ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT (this **"Assignment"**) is entered into on the ___ day of _____, 2025, by and between Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (hereinafter referred to as the "**Church**" or "**Assignor**"), and 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (hereinafter referred to as "**Developer**" or "**Assignee**"), and the Village of Western Springs, an Illinois non-home rule municipal corporation located in Cook County, Illinois (hereinafter referred to as "**Village**"). The Assignor, the Assignee and the Village are collectively referred to as the "Parties" and individually as a "Party" under this Assignment.

RECITALS

WHEREAS, the Church is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, consisting of three (3) residentially zoned lots zoned under the R2 Single-Family Residence District classification, and legally described in **Exhibit "A"** attached hereto and made a part hereof (the "Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Property to the Developer. The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots, or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the completion of the three (3) single-family detached houses, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for a single-family residential development consisting of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan") submitted by the Developer to the Village. A copy of the Developer's Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached hereto as **Exhibit "B"** and made a part hereof; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to complete the Church Demolition Work and to construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; (c) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk, and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (d) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); (e) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"); and (f) the repeal of the following zoning ordinance approved by the President and Board of Trustees of the Village (the "Corporate Authorities") relative to the Church and activities formerly conducted at the Property: Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". A copy of the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue, Western Springs, Illinois), with a survey date of September 27, 2024 and prepared by Kabal Surveying Company, is attached hereto as **Exhibit "C"** and made a part hereof (the "Plat of Sidewalk Easement Abrogation"); and

WHEREAS, subject to the President and Board of Trustees of the Village (the "Corporate Authorities") granting approval of this Assignment, the Church and the Developer have approved and entered into this Assignment, the form and content of which have been approved by the Village Attorney, to authorize the Developer to negotiate and enter into the Redevelopment Agreement (as defined below) with the Village prior to completing the purchase of the Property that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations and the other obligations that are part of the Conditions of Approval, as set forth below in Section 4 of this Assignment; and

WHEREAS, under this Assignment and the Redevelopment Agreement, all of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined under the Developer Site Work Obligations and set forth below in Section 4 of this Assignment, are being assigned to and assumed by the Developer, as the Church would be required to fulfill such obligations if the Letter of Agreement was not being terminated by the Village and the Church. The Developer accepts the assignment and assumption of all rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work from the Church, and agrees to complete the other Developer Site Work Obligations as set forth below in Section 4 of this Assignment. As part of its approval of this Assignment, the Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and

Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer; and

WHEREAS, the Corporate Authorities of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the statutory and constitutional authority and intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution, to approve and enter into this Assignment with the Church and the Developer, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into this Assignment.

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained and the exchange of adequate consideration and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties hereto, intending to be legally bound, agree as follows:

AGREEMENT

1. **Incorporation.** Each of the Recitals set forth above are incorporated by reference into Section 1 of this Agreement as material provisions.

2. **Assignment by Assignor; Consent.** Upon the conveyance of the Property to the Assignee, the Assignor assigns, transfers and sets over to the Assignee all of its rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined in the above Recitals, and which are part of the Developer Site Work Obligations to be performed in anticipation of the Development. The Church consents to the Developer, as contract purchaser of the Property, to negotiate and enter into the Redevelopment Agreement with the Village, prior to completing the purchase of the Property, that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations upon its completion of the purchase of the Property.

3. **Acceptance of Assignment by Assignee.** Upon its completion of the purchase of the Property, the Assignee assumes all of the rights, liabilities and obligations of the Assignor for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, and agrees to complete the other Developer Site Work Obligations that are set forth below in Section 4 of this Assignment.

4. **Developer Site Work Obligations.** The approval of the Corporate Authorities of the Village of the termination of the Letter Agreement, the approval of the Plat of Sidewalk Easement Abrogation, and the approval of this Assignment is conditioned upon and subject to the following:

   A. The Developer shall approve and enter into a Redevelopment Agreement with the Village for the completion of the Developer Site Work Obligations (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney, that contains, at a minimum, the Developer's obligation to complete

the Developer Site Work Obligations and such other provisions and obligations as mutually agreed to by the Village and the Developer.

a. After its acquisition of the Property, in the event the Developer fails to commence or commences and then fails to complete the Developer Site Work Obligations, the Village, at the Developer' costs, may, but is not obligated to, complete the Developer Site Work Obligations, subject to the terms, provisions and obligations of the Redevelopment Agreement and the Village may use the security posted by the Developer to ensure the completion of the Developer Site Work Obligations.
b. If the Developer does not purchase the Property, the Church, at its cost, may complete the Church Demolition Work and may also complete the other Developer Site Work Obligations, provided the Plat of Sidewalk Easement Abrogation is approved and filed with the Cook County Clerk's Office, Recordings Division, and the Church secures all required permits, posts with the Village required security to ensure the completion of the work and otherwise complies with all of the requirements set forth in the Redevelopment Agreement to complete the Developer Site Work Obligations.
c. If there is any conflict between the provisions of this Assignment and the Redevelopment Agreement, the Redevelopment Agreement shall control.

5. **Village Approval of Assignment.** The Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer.

6. **Notices.** Any notice or communication required or permitted to be given under this Assignment shall be in writing and shall be delivered: (i) personally; (ii) by a reputable overnight courier; (iii) by certified mail, return receipt requested, and deposited in the U.S. Mail, postage prepaid; or (iv) by electronic internet mail ("Email"). Email notices shall be deemed valid only to the extent that they are: (a) opened by the recipient on a business day at the address set forth below; and (b) followed by delivery of actual notice in the manner described in either (i), (ii) or (iii) above within three (3) business days thereafter at the appropriate address set forth below. Unless otherwise provided in this Assignment, notices shall be deemed received after the first to occur of: (a) the date of actual receipt; or (b) the date that is one (1) business day after deposit with an overnight courier as evidenced by a receipt of deposit; or (c) the date that is three (3) business days after deposit in the U.S. Mail, as evidenced by a return receipt. By notice complying with the requirements of this Section 6, each Party to this Assignment shall have the right to change the address or the addressee, or both, for all future notices and communications to them, but no notice of a change of addressee or address shall be effective until actually received.

Notices and communications to the Village shall be addressed to, and delivered at, the following addresses:

Ellen Baer Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558 Phone: 708.246.1800 Email: ebaer@wsprings.com	With a copy to: Michael T. Jurusik, Esq. 7. **Applicable Law; Venue.** This Assignment shall be governed and controlled, as to the validity, enforceability, interpretation and construction, in effect in all other respects, including, but not limited to, the legality of interest charged hereunder, by the statutory laws and decisions of the State of Illinois. The Parties agree that, for the purpose of any litigation relative to this Assignment and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the Parties consent to the *in personam* jurisdiction of said Court for any such action or proceeding.

8. **Entire Agreement; Amendment or Modification.** This Assignment contains the entire understanding between the Parties and supersedes any prior understanding or written or oral agreements between them with respect to the subject matter of this Assignment. There are no representations, agreements or understandings, oral or written, between and among the Parties hereto relating to the subject matter of this Assignment which are not fully expressed herein. No oral modification, amendment or change shall be allowed to this Assignment. Any modification, amendment or change shall be in writing and approved by the Corporate Authorities of the Village, the manager of the Developer and the governing board of the Church.

9. **Severability.** Every provision of this Assignment is intended to be severable. In the event any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the validity or enforceability of the remaining terms and provisions hereinabove set forth.

10. **Counterparts.** This Assignment may be executed in counterparts, each of which shall be deemed an original and all of which shall constitute but one and the same instrument.

11. **Effective Date; Legal Authority; Binding Effect.** The "Effective Date" of this Assignment shall be the date of execution by the last signatory, which date shall be inserted on page 1 of this Assignment. This Assignment shall be in full force and effect, and legally binding, after it is signed by the duly authorized officers of each Party. Each of the signatories to this Assignment are the duly authorized representatives of their respective corporate entity and each such person has signed this Assignment pursuant to the authority duly granted to them by the corporate authorities of said corporate entity, who have acted by motion or approved a Resolution (in the Village's case, at an open public meeting) that

authorized and directed the representatives to sign this Assignment. This Assignment shall be binding upon and shall inure to the benefit of the Parties agreeing hereto and to their successor corporations, officers, officials, trustees, successors-in-office, heirs, representatives, and assigns, transferees, successors-in-interest and successor owners.

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, in the County of Cook and State of Illinois, certify that the attached document is a true and correct copy of that certain Resolution now on file in my office, entitled:

RESOLUTION NO. 2025- _____

A RESOLUTION APPROVING A PLAT OF ABROGATION FOR PUBLIC SIDEWALK EASEMENT (ADDRESS: 4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS) AND APPROVING THE TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES WITHIN THE 43RD STREET RIGHT-OF-WAY ADJACENT TO LOT 1 AND LOT 9 IN THE FIELD PARK SUBDIVISION, WESTERN SPRINGS, ILLINOIS

which Resolution was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting on the 10th day of February, 2025, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 10th day of February, 2025.

I further certify that the vote on the question of the passage of said Resolution by the Board of Trustees of the Village of Western Springs was taken by Ayes and Nays and recorded in the minutes of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Resolution, of which the foregoing is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this _____ day of February, 2025.

RESOLUTION NO. 25-_____
VOTE: _____
AYES: _____
NAYS: _____
ABSENT: _____
ABSTAIN: _____
DATE: February 10, 2025.
OTHER: None.

A RESOLUTION AUTHORIZING THE APPROVAL AND EXECUTION OF AN ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION) AND A RELATED REDEVELOPMENT AGREEMENT TO BE ENTERED INTO BY AND BETWEEN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS AND 4300 FRANKLIN WESTERN SPRINGS LLC TO ALLOW FOR THE COMPLETION OF SUCH WORK.

WHEREAS, Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (the "Church"), is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, and legally described in **Exhibit "1"** attached hereto and made a part hereof (the "Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village President and Board of Trustees (the "Corporate Authorities") of the Village of Western Springs (the "Village") approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Property to 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (the "Developer"). The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots, or the Developer may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the construction of single-family homes on the three (3) single-family lots, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s), are collectively referred to as the "Development"; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to construct the Development, by a letter dated October 25, 2024 issued by the Church to the

Village, the Church and the Developer have requested that the Village agree to take certain actions relative to the Property, including the approval of: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; and (c) the repeal of Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"); and

WHEREAS, the Church and the Village agree that, even if the Developer does not purchase the Property, the 2018 CUP Ordinance should be repealed and rescinded; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to enter into a redevelopment agreement with the Village to construct the Development, the Church, the Developer and the Village desire to enter into an "Assignment, Assumption And Consent Agreement For The Removal Of A Public Sidewalk And Certain Public Parking Spaces, Installation Of A New Public Sidewalk And Restoration Of 43rd Street Right-Of-Way At The 4300 Howard Avenue Property In The Village Of Western Springs (Lots 1, 8 And 9 In Field Park Subdivision)" (the "Assignment"), in a form and content as approved by the Village Attorney, that requires the Developer to complete the Church Demolition Work and to assume the following obligations of the Church under the Letter of Agreement: (a) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (b) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); and (c) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". The Assignment also requires the Developer to approve and enter into a mutually agreeable Redevelopment Agreement with the Village relative to the completion of the Developer Site Work Obligations and the construction of the Development (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney. A copy of the Assignment is attached hereto as **Exhibit "2"**; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow for the construction of the Development, it is necessary for the Village and the Developer to approve and enter into the attached "REDEVELOPMENT AGREEMENT BY AND BETWEEN THE VILLAGE OF WESTERN SPRINGS AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE DEMOLITION OF A CHURCH BUILDING AND CERTAIN ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)" (the "Redevelopment Agreement") to provide for the redevelopment of the Property, including the construction of certain public improvements on behalf of the Village as described in the Redevelopment Agreement. A copy of the Redevelopment Agreement is attached hereto as **Exhibit "3"** and made a part hereof; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for a single-family residential development consisting of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan"). A copy of the Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached as Exhibit "C" to the Redevelopment

Agreement; and

WHEREAS, at an open public meeting held on January 9, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the Development and the related Assignment and Redevelopment Agreement, and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its January 9, 2025 meeting, the Committee recommended that the Corporate Authorities of the Village approve the Assignment and the Redevelopment Agreement; and

WHEREAS, at open public meetings held on January 13, 2025 and February 10, 2025, the Corporate Authorities of the Village reviewed and discussed the Committee's recommendation regarding the Development and the related Assignment and the Redevelopment Agreement, and received input from the Village staff on the matter and provided an opportunity for public input on the matter. At its February 10, 2025 meeting, the Corporate Authorities of the Village accepted the Committee's recommendation regarding approval of the Assignment and the Redevelopment Agreement; and

WHEREAS, the Corporate Authorities of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Constitution of the State of Illinois of 1970, to approve and enter into the Redevelopment Agreement, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into the Assignment and the Redevelopment Agreement.

BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: Approval and Execution of Assignment and Other Related Documents. The Village President and Board of Trustees of the Village of Western Springs authorize the approval and execution of the Assignment, substantially in the form attached hereto as **Exhibit "2"**, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and all other instruments and documents that are necessary to fulfill the Village's obligations under the Assignment.

SECTION 3: Approval and Execution of Redevelopment Agreement and Other Related Documents. The Village President and Board of Trustees of the Village of Western Springs authorize the approval and execution of the final version of the Redevelopment Agreement, substantially in the form attached hereto as **Exhibit "3"**, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and all other instruments and documents that are necessary to fulfill the Village's obligations under the Redevelopment Agreement.

SECTION 4: Termination of Resolution for Failure of Developer to Acquire Title to the Property. The validity of this Resolution is subject to the Developer purchasing the Property from the Property Owner. In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract

entered into between the Property Owner and the Developer, this Resolution shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Resolution, based on the Developer not purchasing the Property. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract.

SECTION 5: Delivery of Assignment and Redevelopment Agreement and Other Documents. After approval and execution of this Resolution and the Redevelopment Agreement by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of certified copies of this Resolution and executed versions of the attached Assignment and the Redevelopment Agreement to the Church and the Developer for record retention purposes.

SECTION 6: Effective Date. This Resolution shall be in full force and effect from and after its passage and approval as provided by State law.

PASSED by the Village President and Board of Trustees of the Village of Western Springs, Cook County, Illinois, on a roll call vote at a Regular Meeting thereof, held on the 10th day of February, 2025, and approved by me as Village President, and attested by the Village Clerk on the same day.

Assignment, Assumption And Consent Agreement
For The Removal Of A Public Sidewalk And Certain Public Parking Spaces,
Installation Of A New Public Sidewalk And Restoration Of 43rd Street Right-Of-Way
At The 4300 Howard Avenue Property In The Village Of Western Springs
(Lots 1, 8 And 9 In Field Park Subdivision)

(attached)

ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT ENTERED INTO BY HINSDALE UNITED METHODIST CHURCH, AS SUCCESSOR TO THE FIRST UNITED METHODIST CHURCH OF WESTERN SPRINGS, AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

This ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT (this **"Assignment"**) is entered into on the ___ day of _____, 2025, by and between Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (hereinafter referred to as the "**Church**" or "**Assignor**"), and 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (hereinafter referred to as "**Developer**" or "**Assignee**"), and the Village of Western Springs, an Illinois non-home rule municipal corporation located in Cook County, Illinois (hereinafter referred to as "**Village**"). The Assignor, the Assignee and the Village are collectively referred to as the "Parties" and individually as a "Party" under this Assignment.

RECITALS

WHEREAS, the Church is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, consisting of three (3) residentially zoned lots zoned under the R2 Single-Family Residence District classification, and legally described in **Exhibit "A"** attached hereto and made a part hereof (the "Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Property to the Developer. The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots, or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the completion of the three (3) single-family detached houses, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for a single-family residential development consisting of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan") submitted by the Developer to the Village. A copy of the Developer's Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached hereto as **Exhibit "B"** and made a part hereof; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to complete the Church Demolition Work and to construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; (c) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk, and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (d) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); (e) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"); and (f) the repeal of the following zoning ordinance approved by the President and Board of Trustees of the Village (the "Corporate Authorities") relative to the Church and activities formerly conducted at the Property: Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". A copy of the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue, Western Springs, Illinois), with a survey date of September 27, 2024 and prepared by Kabal Surveying Company, is attached hereto as **Exhibit "C"** and made a part hereof (the "Plat of Sidewalk Easement Abrogation"); and

WHEREAS, subject to the President and Board of Trustees of the Village (the "Corporate Authorities") granting approval of this Assignment, the Church and the Developer have approved and entered into this Assignment, the form and content of which have been approved by the Village Attorney, to authorize the Developer to negotiate and enter into the Redevelopment Agreement (as defined below) with the Village prior to completing the purchase of the Property that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations and the other obligations that are part of the Conditions of Approval, as set forth below in Section 4 of this Assignment; and

WHEREAS, under this Assignment and the Redevelopment Agreement, all of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined under the Developer Site Work Obligations and set forth below in Section 4 of this Assignment, are being assigned to and assumed by the Developer, as the Church would be required to fulfill such obligations if the Letter of Agreement was not being terminated by the Village and the Church. The Developer accepts the assignment and assumption of all rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work from the Church, and agrees to complete the other Developer Site Work Obligations as set forth below in Section 4 of this Assignment. As part of its approval of this Assignment, the Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and

Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer; and

WHEREAS, the Corporate Authorities of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the statutory and constitutional authority and intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution, to approve and enter into this Assignment with the Church and the Developer, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into this Assignment.

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained and the exchange of adequate consideration and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties hereto, intending to be legally bound, agree as follows:

AGREEMENT

1. **Incorporation.** Each of the Recitals set forth above are incorporated by reference into Section 1 of this Agreement as material provisions.

2. **Assignment by Assignor; Consent.** Upon the conveyance of the Property to the Assignee, the Assignor assigns, transfers and sets over to the Assignee all of its rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined in the above Recitals, and which are part of the Developer Site Work Obligations to be performed in anticipation of the Development. The Church consents to the Developer, as contract purchaser of the Property, to negotiate and enter into the Redevelopment Agreement with the Village, prior to completing the purchase of the Property, that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations upon its completion of the purchase of the Property.

3. **Acceptance of Assignment by Assignee.** Upon its completion of the purchase of the Property, the Assignee assumes all of the rights, liabilities and obligations of the Assignor for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, and agrees to complete the other Developer Site Work Obligations that are set forth below in Section 4 of this Assignment.

4. **Developer Site Work Obligations.** The approval of the Corporate Authorities of the Village of the termination of the Letter Agreement, the approval of the Plat of Sidewalk Easement Abrogation, and the approval of this Assignment is conditioned upon and subject to the following:

   A. The Developer shall approve and enter into a Redevelopment Agreement with the Village for the completion of the Developer Site Work Obligations (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney, that contains, at a minimum, the Developer's obligation to complete

the Developer Site Work Obligations and such other provisions and obligations as mutually agreed to by the Village and the Developer.

a. After its acquisition of the Property, in the event the Developer fails to commence or commences and then fails to complete the Developer Site Work Obligations, the Village, at the Developer' costs, may, but is not obligated to, complete the Developer Site Work Obligations, subject to the terms, provisions and obligations of the Redevelopment Agreement and the Village may use the security posted by the Developer to ensure the completion of the Developer Site Work Obligations.
b. If the Developer does not purchase the Property, the Church, at its cost, may complete the Church Demolition Work and may also complete the other Developer Site Work Obligations, provided the Plat of Sidewalk Easement Abrogation is approved and filed with the Cook County Clerk's Office, Recordings Division, and the Church secures all required permits, posts with the Village required security to ensure the completion of the work and otherwise complies with all of the requirements set forth in the Redevelopment Agreement to complete the Developer Site Work Obligations.
c. If there is any conflict between the provisions of this Assignment and the Redevelopment Agreement, the Redevelopment Agreement shall control.

5. **Village Approval of Assignment.** The Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer.

6. **Notices.** Any notice or communication required or permitted to be given under this Assignment shall be in writing and shall be delivered: (i) personally; (ii) by a reputable overnight courier; (iii) by certified mail, return receipt requested, and deposited in the U.S. Mail, postage prepaid; or (iv) by electronic internet mail ("Email"). Email notices shall be deemed valid only to the extent that they are: (a) opened by the recipient on a business day at the address set forth below; and (b) followed by delivery of actual notice in the manner described in either (i), (ii) or (iii) above within three (3) business days thereafter at the appropriate address set forth below. Unless otherwise provided in this Assignment, notices shall be deemed received after the first to occur of: (a) the date of actual receipt; or (b) the date that is one (1) business day after deposit with an overnight courier as evidenced by a receipt of deposit; or (c) the date that is three (3) business days after deposit in the U.S. Mail, as evidenced by a return receipt. By notice complying with the requirements of this Section 6, each Party to this Assignment shall have the right to change the address or the addressee, or both, for all future notices and communications to them, but no notice of a change of addressee or address shall be effective until actually received.

Notices and communications to the Village shall be addressed to, and delivered at, the following addresses:

Ellen Baer Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558 Phone: 708.246.1800 Email: ebaer@wsprings.com	With a copy to: Michael T. Jurusik, Esq. Klein, Thorpe and Jenkins, Ltd. 900 Oakmont Lane, Suite 301 Westmont, Illinois 60559 Cell Number: 708.638.0355 Email: mtjurusik@ktjlaw.com

Notices and communications to the Developer shall be addressed to, and delivered at, the following addresses:

William Dvorak 4300 Franklin Western Springs LLC 3941 Clausen Avenue Western Springs, Illinois 60558 Phone: 630-772-0327 Email: bdvorak@kineticpartners.net	With a copy to: Matthew Klein, Esq. 322 West Burlington LaGrange, Illinois 60525 Direct: 708-354- 8840 / 630-533-3290 Email: matthew.klein55@gmail.com

Notices and communications to the Church shall be addressed to, and delivered at, the following address:

Zed Francis Hinsdale United Methodist Church 945 South Garfield Avenue Hinsdale, Illinois 60521 Phone: 630-805-2501 Email: zsf3@aol.com	With a copy to: Matthew Klein, Esq. 322 West Burlington LaGrange, Illinois 60525 Direct: 708-354- 8840 / 630-533-3290 Email: matthew.klein55@gmail.com

7. **Applicable Law; Venue.** This Assignment shall be governed and controlled, as to the validity, enforceability, interpretation and construction, in effect in all other respects, including, but not limited to, the legality of interest charged hereunder, by the statutory laws and decisions of the State of Illinois. The Parties agree that, for the purpose of any litigation relative to this Assignment and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the Parties consent to the *in personam* jurisdiction of said Court for any such action or proceeding.

8. **Entire Agreement; Amendment or Modification.** This Assignment contains the entire understanding between the Parties and supersedes any prior understanding or written or oral agreements between them with respect to the subject matter of this Assignment. There are no representations, agreements or understandings, oral or written, between and among the Parties hereto relating to the subject matter of this Assignment which are not fully expressed herein. No oral modification, amendment or change shall be allowed to this Assignment. Any modification, amendment or change shall be in writing and approved by the Corporate Authorities of the Village, the manager of the Developer and the governing board of the Church.

9. **Severability.** Every provision of this Assignment is intended to be severable. In the event any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the validity or enforceability of the remaining terms and provisions hereinabove set forth.

10. **Counterparts.** This Assignment may be executed in counterparts, each of which shall be deemed an original and all of which shall constitute but one and the same instrument.

11. **Effective Date; Legal Authority; Binding Effect.** The "Effective Date" of this Assignment shall be the date of execution by the last signatory, which date shall be inserted on page 1 of this Assignment. This Assignment shall be in full force and effect, and legally binding, after it is signed by the duly authorized officers of each Party. Each of the signatories to this Assignment are the duly authorized representatives of their respective corporate entity and each such person has signed this Assignment pursuant to the authority duly granted to them by the corporate authorities of said corporate entity, who have acted by motion or approved a Resolution (in the Village's case, at an open public meeting) that

authorized and directed the representatives to sign this Assignment. This Assignment shall be binding upon and shall inure to the benefit of the Parties agreeing hereto and to their successor corporations, officers, officials, trustees, successors-in-office, heirs, representatives, and assigns, transferees, successors-in-interest and successor owners.

REDEVELOPMENT AGREEMENT BY AND BETWEEN THE VILLAGE OF WESTERN SPRINGS AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE DEMOLITION OF A CHURCH BUILDING AND CERTAIN ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT OF WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

THIS REDEVELOPMENT AGREEMENT ("**Agreement**") is dated the ___ day of _____, 2025 ("**Effective Date**"), and is entered into by and between the **VILLAGE OF WESTERN SPRINGS**, an Illinois non-home rule municipal corporation ("**Village**"), and **4300 FRANKLIN WESTERN SPRINGS LLC**, an Illinois limited liability company, with its principal corporate office located at 330 West Chestnut, Hinsdale, Illinois ("**Applicant**" or "**Developer**"), by and through their respective duly authorized agents and/or representatives. The Village and the Developer are at times referred to below individually as a "**Party**" and collectively as the "**Parties**".

IN CONSIDERATION OF the mutual covenants and promises as contained in this Agreement and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties agree as follows:

SECTION 1. RECITALS.

A. The Village, a non-home rule municipality, is a duly constituted and existing municipality within the meaning of Section 1 (Municipalities and Units Of Local Government) and Section 7 (Counties and Municipalities Other Than Home Rule Units) of Article VII (Local Government) of the Constitution of the State of Illinois of 1970.

B. The Village is authorized, under the provisions of Section 10 (Intergovernmental Cooperation) of Article VII (Local Government) of the State of Illinois Constitution of 1970, to contract and otherwise associate with individuals, associations and corporations in any manner not prohibited by law. The Village has the statutory authority to promote the health, safety and welfare of the Village and its residents, to encourage private development in order to enhance the local tax base, and to enter into contractual agreements with developers and redevelopers to achieve these objectives.

C. As of September 3, 2024, the Developer is the contract purchaser and prospective developer of the real property commonly known as 4300 Howard Avenue, Western Springs, Illinois ("Property"), consisting of three (3) platted lots zoned under the R2 Single-Family Residence District classification, and has filed a concept plan for the reconfiguration of the 43rd Street right-of-way adjacent to the property addressed 4300 Howard Avenue with Village with supporting documents (the "Application") for the proposed redevelopment of the Property with three (3) new residential homes. Upon acquisition of the Property, the Developer may pursue the development of the Property, either as the primary developer of one or more of the lots, or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Agreement, the construction of single-family homes on the three (3) single-family lots, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s), are collectively referred to as the "Development".

D. Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs, (the "Church" or "Property Owner") is the owner of the Property. The Property Owner has further executed a "Written Consent and Waiver" to allow 4300 Franklin Western Springs LLC to enter into this Agreement, a copy of which is attached hereto as **Exhibit "A"** and made a part hereof. The Property is approximately seventy-two hundreds (.72) acres. The Property Tax Index Numbers for the Property are identified as follows: (1) PIN: 18-05-302-001-0000; (2) PIN: 18-05-302-002-0000; and (3) PIN: 18-05-302-018-0000 (collectively the "**Property PINs**"). The Legal Description of the Property is attached hereto as **Exhibit "B"** and made a part hereof.

E. The Developer desires to purchase the Property to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") and then to construct the Development in conformance with the applicable Village Code provisions, including its DCO and other legal requirements. As a predicate to such Development, the Developer has submitted a typical plan for single family residential development of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Plan" (the "Site Plan") submitted by the Developer to the Village. A copy of the Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan), dated October 22, 2024, is attached hereto as **Exhibit "C"** and made a part hereof; and

F. With the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village President and Board of Trustees (the "Corporate Authorities") of the Village approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Subject Property (the "Sidewalk Easement").

G. To address certain Church obligations in the Letter of Agreement and to allow the Developer to complete the Church Demolition Work and construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that

the Village agree to take certain actions relative to the Property, including the approval of: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; and (c) the repeal of Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance").

H. To address certain Church obligations in the Letter of Agreement and to allow the Developer to enter into this Agreement with the Village, the Church, the Developer and the Village have agreed to enter into an Assignment, Assumption And Consent Agreement For The 4300 Howard Street church demolition, parkway demolition and parkway restoration. In The Village Of Western Springs, Illinois (Lots 1, 8 And 9 In Field Park Subdivision) ("Assignment"), in a form and content as approved by the Village Attorney, that requires the Developer to complete the Church Demolition Work and to assume the following obligations of the Church under the Letter of Agreement: (a) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (b) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); (c) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". A copy of the Assignment is attached hereto as **Exhibit "D"**; and

I. Subject to the condition of approval that the Developer purchase the Property and complete the "Developer Site Work Obligations". At an open public meeting held on February 10, 2025, the Corporate Authorities of the Village approved the following documents:

(1) **ORDINANCE NO. 25-____:** AN ORDINANCE RESCINDING AND REPEALING THE BOARD OF TRUSTEES' APPROVAL OF ORDINANCE NO. 18-2934 (AN ORDINANCE APPROVING A CONDITIONAL USE PERMIT FOR THE INSTALLATION AND OPERATION OF AN EARLY CHILDHOOD EDUCATION CENTER AT THE 4300 HOWARD AVENUE PROPERTY) TO FACILITATE THE DEMOLITION OF A CHURCH BUILDING AND REMOVAL OF A PUBLIC SIDEWALK AND ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION).

(2) **RESOLUTION NO. 25-____:** A RESOLUTION APPROVING A PLAT OF ABROGATION FOR PUBLIC SIDEWALK EASEMENT (ADDRESS: 4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS) AND APPROVING THE TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES WITHIN THE 43RD STREET RIGHT-OF-WAY ADJACENT TO LOT 1 AND LOT 9 IN FIELD PARK SUBDIVISION, WESTERN SPRINGS, ILLINOIS.

(3) **RESOLUTION NO. 25-_____:** A RESOLUTION AUTHORIZING THE APPROVAL AND EXECUTION OF AN ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION) AND A RELATED REDEVELOPMENT AGREEMENT TO BE ENTERED INTO BY AND BETWEEN THE VILLAGE OF WESTERN SPRINGS AND 4300 FRANKLIN WESTERN SPRINGS LLC TO ALLOW FOR THE COMPLETION OF SUCH WORK.

J. While there appears to be no zoning relief needed for the Developer to construct the three (3) single-family detached houses on the Property based on the submitted preliminary Site Plan, if zoning relief is determined to be required to construct the Development, the Developer agrees to apply for and use commercially reasonable efforts to secure all required zoning and development permit approvals from the Village and all other permits and approvals from other governmental oversight agencies in order to secure final approvals that allow for the construction of the Development.

The construction of the Developer Site Work Obligations shall be in conformance with the Village-approved Final Site Demolition and Site Restoration Plans and/or Final Development Plans, as amended by any Village-approved zoning relief and development entitlements and any approval conditions and requirements imposed by other governmental oversight agencies. The Developer agrees to actively participate in good faith in all required zoning hearing proceedings and development permit processes and all other permits and approvals from other governmental oversight agencies in order to secure final approvals that allow for the completion of the Developer Site Work Obligations.

K. To receive a site development permit or a construction permit for completion of the Developer Site Work Obligations, the Developer is required to submit and obtain the plan approval of a set of Final Site Demolition and Site Restoration Plans for the reconfiguration of the right-of-way by the Village Engineer and the Community Development Department Director, or their designees, and all required amendments issued by any other governmental authority with jurisdiction over the Development, and proof of approval of all necessary development or governmental permits issued by any other governmental authority with jurisdiction over the Developer Site Work Obligations. While the Developer is acquiring the Property with the intention of completing the Development, the Parties agree that Village approval of a site development permit or a construction permit for completion of the Developer Site Work Obligations and plan approval of a set of Final Site Demolition and Site Restoration Plans are not conditioned upon the Developer constructing the Development.

L. In addition to the completion of the Developer Site Work Obligations, the Developer agrees to construct all components of "Infrastructure" and "Public Infrastructure" (as defined below) that are required by the "Requirements of Law" (as defined below) for the completion of the Developer Site Work Obligations.

M. The Developer shall use all commercially reasonable efforts to complete Developer Site Work Obligations and shall work continuously to achieve their completion once such work commences.

N. The foregoing Recitals of this Section 1 are material terms and provisions and are incorporated herein and made a part of this Agreement.

SECTION 2. DEFINITIONS.

Whenever used in this Agreement, the following terms have the following meanings, unless a different meaning is required by the context:

A. "Approval Resolution": Western Springs Resolution No. 25-_____ approving this Agreement.

B. "Approved Plans": See Subsections 4.A. and 4.B. of this Agreement, consisting of the Village-approved Final Site Demolition and Site Restoration Plans and the Final Street/Parkway construction and restoration Plans.

C. "Board of Trustees" or "Corporate Authorities": The President and Trustees of the Village of Western Springs.

D. "Certificate of Completion": Means a certificate, issued by the Village, that confirms: (a) the Development has been completed in substantial conformance with the Approval Ordinance and the Village-approved Final Development Plans; or (b) substantial completion of any significant milestone component of the Development (e.g., completion of the Infrastructure or the Developer Site Work Obligations), as applicable.

E. "Change in Law": Means the occurrence, after the Effective Date, of an event described below in this definition, provided such event materially changes the ability of the Party relying thereon to carry out its obligations under this Agreement and such event is not caused by the Party relying thereon. Change in Law means any of the following: (1) the enactment, adoption, promulgation or modification of any federal, State or local law, ordinance, code, rule or regulation (other than by the Village or with respect to those made by the Village, only if they violate the terms of this Agreement); (2) the order or judgment of any federal or State court, administrative agency or other governmental body (other than the Village); or (3) the adoption, promulgation, modification or interpretation in writing of a written guideline or policy statement by a governmental agency (other than the Village, or, with respect to those made by the Village, only if they violate the terms of this Agreement). Change in Law, for purposes of this Agreement, shall also include the imposition of any conditions on, or delays in, the issuance or renewal of any governmental license, approval or permit (or the suspension, termination, interruption, revocation, modification, denial or failure of issuance or renewal thereof) necessary for the undertaking of the actions to be performed under this Agreement (except any imposition of any conditions on, or delays in, any such issuance or renewal by the Village, except as provided herein).

F. "Developed Lot": Each platted lot, separately designated as Lot 1, Lot 8 and Lot 9 in Field Park Subdivision, which may be developed with a single-family home and other related improvements (e.g., driveway, sidewalk and landscaping) or with another alternate residential development plan or an alternate development plan by the Developer, or its successor owner(s), in accordance with all applicable Village Code provisions, including its DCO, and all required Village and other governmental agency regulatory approvals.

G. "Developed Lot Owners": Each of the initial purchasers of and all successor owners of each Developed Lot.

H. "Development Director": The Village's Community Development Department Director.

I. "Developer": Includes 4300 Franklin Western Springs LLC and its transferees, successors-in-interest, all legal or beneficial owners of record, assigns, tenants, licensees and all subsequent owners of the Property or any part of the Property. The Village understands that 4300 Franklin Western Springs LLC may lodge title to the property with a Land Trust which trust will be included in the definition of Developer, and shall provide a "Collateral Assignment of Beneficial interest" to recognize the obligations of Developer to the Village under this Agreement.

J. "Developer Site Work Obligations": Includes the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined above in Section 1 (Recitals). The Developer Site Work Obligations may also include stubbing of the private water and sewer utilities for the future single-family detached houses.

K. "Developer Site Work Obligations Cost Estimate": See Subsection 4.B. of this Agreement.

L. "Effective Date": The date that the last signatory signs this Agreement, which shall be written in the first paragraph of this Agreement.

M. "Force Majeure": See definition of Uncontrollable Circumstance and Subsection 17.N. of this Agreement.

N. "IDOT": The Illinois Department of Transportation.

O. "IEPA": The Illinois Environmental Protection Agency.

P. "Infrastructure": All utilities including without limitation drinking water, sanitary sewer, storm sewer and detention basins, electric, gas, and telecommunication; stormwater system elements including without limitation detention facilities, streets, drive aisles, driveways, drive aprons, curbs, gutters, street lights, and parking spaces; sidewalks, other pedestrian ways, pedestrian amenities, pedestrian lighting, way-finding signs, and parkway trees, parkway restoration and other parkway landscaping; and all related improvements for the Development, whether private or public, and whether within the Property or within adjacent rights-of-way and property.

Q. "LOC": An irrevocable letter of credit issued by a lending institution licensed to do business in the State of Illinois, on a form approved by the Village Attorney.

R. "MWRD": The Metropolitan Water Reclamation District of Greater Chicago.

S. "Private Infrastructure": All Infrastructure other than Public Infrastructure, including the Stormwater Conveyance System**.**

T. "Property": The real property legally described in **Exhibit "B"** attached to this Agreement.

U. "Public Infrastructure": Infrastructure that is being dedicated to the Village or to other governmental agencies, including without limitation drinking water mains (but not water service lines to buildings), water hydrants, sanitary sewers and parkway trees, parkway restoration and other parkway landscaping and other elements determined by the Village. In the event of any ambiguity, the Village will determine whether an Infrastructure element is public or private.

V. "Director of Engineering Department": The Village's Village Engineer.

W. "Reimbursable Costs": See Section 8. of this Agreement.

X. "Requirements of Law": All applicable federal, County and State of Illinois laws, statutes and administrative regulations, the Zoning Code, the Village Code, and the Village's building, stormwater management, and other codes and regulations. The 2006 International Building Code will apply to architectural and structural plans and specifications for all buildings within the Development unless preempted by State of Illinois or federal law or the Village designates, in writing, other applicable standards. Otherwise, Village-adopted model codes will apply and State of Illinois building codes will apply in the absence of an applicable Village-adopted model code. Accessibility standards of the Americans with Disabilities Act (42 U.S. Code § 12101) will apply to all common areas. The 2006 International Building Code reference to 2009 ICC Accessible and Usable Buildings and Facilities (ANSI) (2003 Safe Harbor of FHA) in conjunction with the standards of the Illinois Accessibility Code will be followed for all residential units.

Y. "Site Work": Grading land, excavating soil and debris, environmental remediation, installation of underground utilities, and similar activities in anticipation of vertical construction on one or more of the Developed Lots. Components of Site Work will be completed as part of the completion of the Developer Site Work Obligations.

Z. "Stormwater Conveyance System": **RESERVED.**

AA. "Uncontrollable Circumstance": An event that is beyond the reasonable control of and occurs without the fault of the involved party, including without limitation the following events: (i) an insurrection, riot, civil disturbance, sabotage act of a public enemy, explosion, nuclear incident, war, or naval blockade; (ii) an epidemic, pandemic, hurricane, tornado, landslide, earthquake, lightning, fire windstorm, or other casualty or act of God, or persistent bad weather that impedes progress; (iii) a government condemnation or taking; (iv) a strike, lockout, or other labor dispute other than those caused by the unlawful acts of the Developer; and (v) a Change in Law. Uncontrollable Circumstance does not include any of the following events or conditions: Economic hardship, impracticability of performance, commercial, economic or market conditions, or a failure of performance by a contractor (except as caused by an event that is an Uncontrollable Circumstance as to that contractor). See Subsection 17.N. regarding Force Majeure.

BB. "Village Code": The Western Springs Code of Ordinances.

CC. "Village Manager": The Western Springs Village Manager, or their designee.

DD. "Zoning Code" or "DCO": The Western Springs Development Control Ordinance.

SECTION 3. PROPERTY ACQUISITION; TERMINATION.

A. **Property Acquisition.** The Developer has entered into a real estate purchase contract with the Property Owner, and, subject to the terms and conditions of this Agreement, intends to acquire fee simple title to the Property on or before May 31, 2025 (the "**Acquisition Deadline Date**"). The closing date at which the Developer obtains fee simple title to the Property is referred to as the "**Acquisition Date**". If the Developer does not acquire fee simple title to the Property by 5:00 p.m. CST on the Acquisition Deadline Date, the Developer shall send written notice to the Village within five (5) calendar days after the expiration of the Acquisition Deadline Date advising that the acquisition of the Property did not occur and providing a status on the acquisition consisting of one of these responses: (i) the Property Owner or the Developer has terminated the real estate purchase contract; or (ii) the Property Owner and the Developer have mutually agreed to terminate the real estate purchase contract; or (iii) the Developer and the Property Owner have extended the Acquisition Date and are actively working on matters to complete the acquisition of the Property by the extended Acquisition Date.

B. **Termination of Agreement if Developer Does Not Purchase Property.** If the Property Owner or the Developer terminates the real estate purchase contract or the Property Owner and the Developer have mutually agreed to terminate the real estate purchase contract, the Property Owner may complete the Church Demolition Work and all related site restoration work, and may may complete the Developer Site Work Obligations, subject to the Church securing all required permits, posting with the Village required security to ensure the completion of the work and complying with the applicable Requirements of Law. After its acquisition of the Property, in the event the Developer fails to commence or commences and then fails to complete the Developer Site Work Obligations, the Village, at the Developer's cost, may, but is not obligated to, complete the Developer Site Work Obligations, subject to the terms, provisions and obligations of the Redevelopment Agreement and the Village may use the security posted by the Developer to ensure the completion of the Developer Site Work Obligations.

C. **Extension of Acquisition Date; Termination.** If the Developer and the Property Owner extend the Acquisition Date and actively work on matters to complete the acquisition of the Property by the extended Acquisition Date, this Agreement shall remain in effect until either the Property Owner or the Developer terminates the real estate purchase contract or the Property Owner and the Developer mutually agree to terminate the real estate purchase contract, subject to the next sentence. This Agreement shall automatically terminate without any further action being taken by either Party, and without any liability to either Party, if the Developer does not acquire the Property within twelve (12) months of the approval date of this Agreement. Notwithstanding any other provision or term in this Agreement, each Party expressly agrees that the cure remedy under Section 16 (Default; Cure) of this Agreement shall not apply to the automatic expiration provision.

D. **Extension of 12-Month Automatic Termination Provision.** The Corporate Authorities of the Village, in their sole discretion, may approve an addendum to this Agreement that extends the 12-month automatic expiration provision so that the Developer has additional time to acquire the Property. The Developer agrees to waive any claims or causes of action for damages of any kind that it could file against the Village for not passing an addendum that extends the 12-month automatic expiration provision so that the Developer has additional time to acquire the Property. The Developer also agrees to indemnify, defend and hold harmless the Village and its appointed and elected officials, employees,

engineers, attorneys, agents and representatives from any claims or causes of action or damages of any kind that could be filed against the Village by the Property Owner or any person for not passing an addendum that extends the 12-month automatic expiration provision so that the Developer has additional time to acquire the Property.

SECTION 4. DEVELOPMENT PLANS.

A. **Site Demolition and Site Restoration Plans.** Prior to the issuance by the Village of any site development permit or a construction permit for completion of the Developer Site Work Obligations, as applicable, the Developer is required to submit and obtain the approval of a set of detailed Final Site Demolition and Site Restoration Plans for the Developer Site Work Obligations, which shall be attached to this Agreement as **Exhibit "E"** after Village plan review approval by the Development Director, Director of Law Enforcement, the Director of the Engineering Services, the Village Attorney and other Village consultants (collectively, the "Village Staff") as part of the Village development plan review process. These Plans shall be returned to the Developer for updating and corrections to comply with the Village Staff's development plan review comments and requirements (the "Approved Plans"). The final version of the Approved Plans shall be stamped by a licensed engineer or signed by a licensed architect. The Developer may re-submit updated Final Site Demolition and Site Restoration Plans to address the Village Staff's plan review comments and requirements. If the Developer objects to any of the Village Staff's development plan review comments and requirements, the Developer may file a written request with the Village Board seeking approval of a modification(s) to the Village Staff's development plan review comments and requirements, which may or may not be granted by the Village Board, in its sole discretion, at an open public meeting. The Approved Plans, at a minimum, shall consist of final versions of:

(i) Detailed demolition plans.
(ii) Detailed, dimensioned grading plans.
(iii) Detailed site restoration plans.
(iv) Such other plans and documents reasonably required by the Village Staff.

B. **Development Plans. RESERVED.**

C. **Developer Site Work Obligations Cost Estimate.** The Developer must prepare an estimate of the cost of construction of the Developer Site Work Obligations (the "Developer Site Work Obligations Cost Estimate") and submit the estimate to the Village prior to the issuance by the Village of any permit for demolition, Site Work or other construction activity. The Director of Engineering Services will review, revise as necessary, and approve the Developer Site Work Obligations Cost Estimate.

SECTION 5. DEVELOPMENT AND USE OF THE PROPERTY.

A. Commencement and Completion of Construction.

(i) The Developer intends to commence the Developer Site Work Obligations no later than twelve (12) months after the Village Board's approval of this Agreement (the "**Anticipated Commencement Date**"), subject only to Force Majeure.

(ii) The date the Developer receives a Village site development permit or a construction permit authorizing work to proceed on the Developer Site Work Obligations, shall be the "**Commencement Date**".

(iii) Completion of the Developer Site Work Obligations shall substantially comply with the provisions of this Agreement and each of the conditions of approval set forth in this Agreement.

(iv) Completion of the Developer Site Work Obligations ~~and the~~ shall substantially comply with, and be substantially completed in accordance with, the timeframes outlined on Developer's "Construction Schedule", attached hereto as **Exhibit "G"** and incorporated herein (the "Construction Schedule").

(v) Notwithstanding any other provision in this Agreement or the timeframes outlined in the Construction Schedule, the Developer Site Work Obligations shall be completed no later than twenty-four (24) months after the Commencement Date of such work, subject to Force Majeure, with the actual date of Substantial Completion being the "**Substantial Completion Date**".

(vi) "Substantial Completion" or "Substantially Completed" shall mean that the Developer Site Work Obligations are eligible to receive a Village-issued Certificate of Completion by the Development Director, and the related public improvements are completed to the Village's dedication standard, to the extent applicable to such public improvements.

B. **Substantial Compliance with Approved Plans.** Except for minor alterations due to field conditions approved by the Village Engineer or the Development Director, the completion of the Developer Site Work Obligations shall substantially conform with: (i) this Agreement; (ii) the Approved Plans; (iii) the Requirements of Law; and (iv) were not rejected by the Village during the plan review phase of the Developer Site Work Obligations, within the applicable portion of the Construction Schedule.

C. **Plat of Subdivision; Easement for Public Access.** Lots 1, 8 and 9 are platted lots adjacent to existing, dedicated and improved Village rights-of-way, and, therefore, the Developer is not required to prepare and file with the Village a Plat of Subdivision or a Plat of Easement for Public Access as part of the construction of the Development.

D. **Development – Prior to Property Acquisition or Issuance of Permits.** No work on the Developer Site Work Obligations nor any construction, improvement or development of any kind by the Developer shall be permitted on any portion of the Property unless and until: (a) the Developer acquires title to the Property; and (b) the Developer has been issued either a Village site development permit or a Village demolition permit. The Developer or the Property Owner may request approval for a demolition permit and proceed to demolish the existing structures on the Property, provided that the Developer completes all required site restoration work related to the demolition work. This demolition and site restoration work may be performed independent of commencing work on the other components of the Developer Site Work Obligations.

E. **Development – Failure to Complete.** In the event that the Developer fails to complete the Developer Site Work on or prior to the Substantial Completion Date, or fails to comply with the Construction Schedule (in either case, subject to Force Majeure), and such failure continues for more than thirty (30) calendar days after notice thereof by the Village to the Developer, then:

(i) The Village, by delivery of written notice to the Developer, may require the Developer to submit, within fifteen (15) calendar days, a plan pursuant to which the Developer will: (i) avoid falling further behind the dates set forth in the Construction Schedule; and (ii) complete construction in accordance with the Construction Schedule, as modified, to reflect the "catch-up" plan (a "**Catch-Up Plan**"), for approval by the Village Manager, which approval shall not be withheld unreasonably, provided that the Catch-Up Plan has been approved by the Developer's construction lender (the "**Lender**"). At such time as the Village has approved a Catch-Up Plan, the Developer shall use commercially reasonable efforts to implement, and diligently pursue and complete, the activities of the Catch-Up Plan.

(ii) If the Developer fails to timely: (i) submit a Catch-Up Plan to the Village that has been approved by the Lender, or (ii) implement or complete the Catch-Up Plan; which failure continues for more than thirty (30) calendar days, then the Developer shall be deemed to be in default under the Catch-Up Plan and the Village shall have the right, but not the obligation, to hire a replacement contractor to complete the unfinished Developer Site Work Obligations ("Default Work") and shall have the right to use the Developer Security (as defined below) to pay the contractor to complete such Default Work. Upon such a default by the Developer, subject to and in accordance with the terms and conditions of any construction financing agreement, the Lender will have the right, but not the obligation, to exercise and perform the Developer's rights and obligations under this Agreement, including the hiring of a replacement contractor to complete the Default Work and/or to complete the Developer Site Work Obligations, the unfinished Infrastructure work or any incomplete portion of the Development. If the Village elects to complete the Default Work, then the Developer shall be obligated to pay, or to reimburse the Village for, all costs and expenses of completing such work that are in excess of the proceeds of the construction financing agreement and the Developer's Security.

(iii) The Developer shall be responsible for all costs and expenses to prepare and implement and complete the Catch-Up Plan.

(iv) The rights and remedies set forth in this Subsection 5.E. shall be the sole remedies available to the Village for the failures specified in this Subsection; provided that the Village shall have: (i) the remedy of specific performance to enforce the obligations of Developer pursuant to the terms and conditions of this Subsection; and (ii) the right to recover from the Developer all costs and expenses, including reasonable attorney fees, incurred by the Village in connection with exercising its rights and remedies under this Subsection, together with interest at the rate of eight percent (8%) per annum on any Village funds expended prior to reimbursement from the Developer Security.

F. **Dedication of Land.** Lots 1, 8 and 9 are platted lots adjacent to existing, dedicated and improved Village rights-of-way, and, therefore, the Developer is not required to dedicate any land to the Village or to any other governmental agency within the Village pursuant to Section 10-10-14 (Dedication of Park Lands and Schools Sites or Payment of Fees In Lieu Thereof) of the DCO.

G. **Development Covenants, Conditions, and Restrictions. RESERVED.**

H. **Maintenance of and Damage to Public Property and Off-Site Improvements.** During the performance of the Developer Site Work Obligations, the Developer must: (i) maintain all streets, sidewalks, and other public property adjacent to the Property in a good and clean condition and free of hazards at all times, (ii) promptly clean all mud, dirt, or debris deposited on any street, sidewalk, or other public property in or adjacent to the Property by the Developer or any agent of or contractor hired by, or on behalf of, the Developer, and (iii) repair or replace all damage to any private or public utilities or other private or public improvements of any kind that are located on-site or off-site relative to the Property that may be caused by the activities of, or on behalf of, the Developer or any employees, contractors, subcontractors or agents hired by, or on behalf of, the Developer. The Developer agrees to promptly repair or replace or restore such damaged improvements with like-kind and like-quality materials. If, within twenty-four (24) hours after the Village gives the Developer notice to clean mud, dirt, or debris or to repair damage in compliance with this Subsection, the Developer neglects or fails to clean or repair or to undertake with due diligence to clean or repair the affected public property, then the Village may clean or repair the affected property, either with its own forces or with contracted forces, and recover from the Developer the greater of $500.00 or the sum equal to the total cost incurred by the Village including without limitation administrative costs.

I. **Environmental Conditions.** The Developer must remain in compliance with all applicable federal and State of Illinois environmental laws and regulations while completing the Developer Site Work Obligations and constructing the Infrastructure and the Development.

J. **Building Certification. RESERVED.**

K. **Estimated Development Costs and Construction Budget. RESERVED.**

L. **Development Financing. RESERVED.**

M. **Developer Site Work Obligations.** The Developer shall comply with each of the following Developer Site Work Obligations:

(1) The Developer, at its cost, shall complete the Developer Site Work Obligations in anticipation of the construction of the Development in general conformance with the Site Plan (**Exhibit "C"**), subject to Village plan review amendments and Village approval of the final set of Site Demolition and Site Restoration Plans by the Village Development Director.

(2) After issuance of a Village site development permit or demolition permit for the completion of the Developer Site Work Obligations, the Developer, at its cost, shall promptly complete the Developer Site Work. A demolition permit for the existing structures can be issued independently of the permit for the Developer Site Work Obligations, provided that the Developer complete all required site restoration work related to the demolition work. The Developer is permitted to utilize the angled parking spaces within the 43rd right-of-way directly adjacent to the Property for staging of construction vehicles or materials during the demolition of the existing structures, provided such vehicles and materials do not encroach into the 43rd street right-of-way.

(3) To be eligible for the issuance of a Village site development permit or demolition permit to commence work on the Developer Site Work Obligations, the Developer, at its cost, shall comply with the Director of Engineering Services' Preliminary Comments to the 4300 Howard Avenue & 43rd Street Parcel (United Methodist Church - Hinsdale UMC and Fairfield Properties) dated November 20, 2024, as amended or modified by the Director of Engineering Services.

(4) Pursuant to Section 9 below, the Developer shall post with the Village, at the time the Village issues a site development permit or a construction permit for the Developer Site Work Obligations, an irrevocable letter of credit in the amount of one hundred ten percent (110%) of the Developer Site Work Obligations Cost Estimate, as determined by the Village Engineer (the "Performance LOC") for the benefit of and which may be called by the Village that ensures the completion of the Developer Site Work Obligations. The Performance LOC shall be posted with the Village and then renewed by the Developer, at its cost, prior to the issuance of the Village site development permit or construction permit for the Developer Site Work Obligations through the Village's issuance of the Certificate of Completion for the Developer Site Work Obligations, which shall not be unreasonably withheld nor delayed. The Village shall retain ten percent (10%) of the value of the initial Performance LOC for a two (2) year warranty period after the Village's issuance of the Certificate of Completion (the "Developer Security"). During the 2-year warranty period, the Village agrees to release a portion or all of the Developer Security to the Developer in the event that the Developer sells one or both of the Developed Lots that fronts on 43rd Street, provided replacement security is posted with the Village by the new property owner(s) or commences foundation work as part of vertical construction of the Development. The Developer Security shall be released on a percentage basis that equates to the portion of the Property being developed.

(5) The Developer shall comply with all Requirements of Law that are applicable to the performance of the Developer Site Work Obligations.

SECTION 6. CONSTRUCTION AND MAINTENANCE OF DEVELOPER SITE WORK OBLIGATIONS.

A. **Developer's Duty to Construct the Developer Site Work Obligations.** The Developer, at its cost, must construct and install all of the Developer Site Work Obligations.

B. **Standards Applicable to Infrastructure.** The following standards apply to the construction of the Infrastructure:

(i) General Standards. All of the Developer Site Work Obligations must be constructed in compliance with the standards in this Agreement and all Requirements of Law. All work performed in the construction of the Infrastructure must be conducted in a good and workmanlike manner. All materials used for construction of the Infrastructure must be new and of first-rate quality.

(ii) Special Standards. Construction of the Infrastructure must conform to the applicable standards of the MWRD, IDOT, Cook County and the IEPA.

(iii) Prosecution of the Work. Once Site Work has begun, the Developer and all of its contractors must use commercially reasonable efforts to prosecute work on the Infrastructure in a diligent manner until the work is properly completed.

(iv) Inspection, Engineering, Testing Services. The Developer must provide, at its cost, all inspection, engineering and testing for construction of the Developer Site Work Obligations, including without limitation: (a) on-site construction supervision services, (b) periodic inspections of construction of the Public Infrastructure conducted by a professional engineer, and (c) third-party materials sampling and testing services. The Developer must promptly provide the Village with the names of the project manager and project engineer and telephone numbers at which the project manager and project engineer can be reached at all times.

(v) Village Inspections and Approvals. Village representatives have the right and authority, and the permission of the Developer, to inspect all work on the Developer Site Work Obligations at all times between 8:00 a.m. and 6:00 p.m. weekdays, and at any other time work is taking place within the Property, and in the case of an emergency at any time reasonably determined by the Village, to confirm compliance with all requirements of this Agreement and all Requirements of Law.

(vi) Other Approvals. When the construction of Developer Site Work Obligations requires the permission or approval of a regulatory agency, including without limitation the MWRD, IDOT, Cook County or the IEPA, then the Developer must use all commercially reasonable efforts required to obtain the required permission or approval. The Developer may not commence work requiring the permission or approval of any such agency in advance of receiving that permission or approval.

C. **Approvals of Infrastructure.** When an improvement included in the Developer Site Work Obligations has been completed in accordance with the Approved Plans, the Developer must request final inspection and approval of that improvement by the Village. The Village will inspect that improvement and may prepare a punch list of items requiring repair or correction. The Developer must promptly make all necessary repairs and corrections as specified on the punch list. The Village will promptly approve an improvement only after it has been fully and properly completed in accordance with the Approved Plans, including without limitation completion of all punch list work for that Infrastructure improvement.

D. **Dedication and Acceptance of Public Infrastructure.** The Developer will dedicate to the Village each Public Infrastructure improvement included in the Developer Site Work Obligations after it is approved by the Village. The Village will accept a Public Infrastructure improvement when it has been fully and properly completed, but nothing will constitute an acceptance by the Village of a Public Infrastructure improvement except expressly written acceptance by the Village. Prior to the Village's acceptance, the Developer must execute, or cause to be executed, all documents reasonably requested by the Village to transfer ownership of the Public Infrastructure improvement to the Village, free and clear of all liens, claims, and encumbrances or restrictions that would prevent the Village from operating, maintaining, repairing, or replacing that Public Infrastructure improvement. The documents transferring ownership of a Public Infrastructure improvement to the Village (e.g., Bill of Sale, Affidavit of Title, etc.) must be in substantially the forms attached to this Agreement as **Exhibit "F"**, with minor revisions as may be requested by the issuer and approved by the Village Attorney. The Developer may also request the release of this Agreement in a form that is reasonably acceptable in form and substance to the Village Attorney.

E. **Infrastructure Guarantees.** The Developer guarantees the prompt and satisfactory correction of every defect or deficiency in any Public Infrastructure that occurs or becomes evident within two (2) years after Village approval and acceptance of the Developer Site Work Obligations. If any defect or deficiency occurs or becomes evident during the two (2) year period, then the Village will give notice to the Developer stating the defect or deficiency and the Developer must correct the defect or deficiency within thirty (30) calendar days after receipt of the notice or, if the defect or deficiency cannot reasonably be corrected within that 30-day period, then within a longer period of time as is reasonably necessary to correct the defect or deficiency so long as the Developer has promptly commenced and uses commercially reasonable efforts to diligently pursue the correction. If the defect or deficiency is not corrected within the required time period, then the Village may undertake the correction and then the Village will have the right to draw from the performance securities deposited pursuant to Section 9. of this Agreement to reimburse itself for all costs and expenses incurred in making the correction. If any Public Infrastructure is repaired or replaced by the Developer pursuant to the demand of the Village, then the guaranty provided by this Subsection 6.E. will be extended, as to the repair or replacement, for two (2) full years after the date of completion of the repair or replacement.

F. Perpetual Maintenance of Private Infrastructure. RESERVED.

G. Abandonment of Construction. If the Developer abandons the Developer Site Work Obligations or any part of the demolition of the existing structures, then the Developer, within ninety (90) calendar days after notice from the Village, must: (i) remove all partially constructed improvements from the Property, (ii) backfill all excavations, and (iii) spread topsoil and plant grass seed throughout the Property, all to the satisfaction of the Village (collectively the "Required Restoration"). If the Developer abandons work on the Developer Site Work Obligations or the Infrastructure prior to completion, then the Village may call the Performance LOC and use those funds to complete the Developer Site Work Obligations and the Infrastructure. For purposes of this Subsection 6.G, "abandons" means cessation of construction for a continuous period of ninety (90) calendar days for any reason other than Force Majeure. If the Developer fails or refuses to complete the Required Restoration within the 90-day period, or such longer period of time as is reasonably necessary to complete the Required Restoration so long as the Developer has promptly commenced and uses commercially reasonable efforts to diligently pursue the Required Restoration, then the Village will have, and is granted in addition to all other rights afforded to the Village in this Agreement and by law, the right, at the Village's option, to hire a contractor to complete part or all of the Required Restoration. Thereafter, the Village may charge the Developer an amount equal to the Village's actual costs of the Required Restoration including without limitation contractor costs, disposal costs, administrative personnel fees and costs, and legal fees (collectively the "Charged Amount"). If the Charged Amount is not paid by the Developer within thirty (30) calendar days after notice from the Village, then the Charged Amount, and all costs incurred by the Village related to collection of the Charged Amount (the "Collection Costs"), may be deducted from the Developer Security and will become a lien against the Property, and the Village will have the right to collect the Charged Amount and the Collection Costs and to enforce the lien in the same manner as mortgage foreclosure proceedings.

H. **Progress Meetings.** At all times, the Developer and the Village shall each have an individual designated as the Developer's and the Village's primary point of contact for matters related to this Agreement. The Developer shall meet on a monthly basis, or on such other schedule mutually agreeable to the Parties, with the Development Director, or their designee, and other Village staff as appropriate, to provide a comprehensive progress report on the Developer Site Work Obligations.

Appropriate Developer personnel shall attend the meeting on behalf of the Developer and the Village, and shall provide and exchange information regarding the status of construction and occupancy, pending permit requests and other appropriate information.

I. **Village Construction Manager Consultant.** The Village reserves the right to hire a construction manager consultant to assist the Village and its staff with all aspects of the Developer Site Work Obligations, including but not limited to compliance with the terms of this Agreement, the plan review process, inspections, reporting and oversight of the construction of the Development. The compensation and other employment benefits payable to the construction manager consultant for their work relative to the Development qualifies as a charge under the Reimbursable Costs.

J. **"As-Built" Plans.** The Developer, at its cost, shall prepare and provide to the Development Director one (1) electronic copy of the "As-Built" Final Site Demolition and Site Restoration Plans and the "As-Built" Developer Site Work Obligations plan, with all minor modifications and in-field adjustments shown, prior to the scheduling of the final inspection and the Certificate of Completion.

SECTION 7. CONSTRUCTION STAGING, TRAFFIC, PARKING; STREETS.

A. **Construction Staging.** The staging of construction work and materials must be in conformance with the Village-approved construction staging plan. The Developer must submit a staging plan for Village review and approval prior to the issuance of the site development permit or construction permit for the performance of the Developer Site Work Obligations.

B. **Designated Traffic Routes.** The Village, in consultation with the Developer, may designate routes of access to the Property for construction traffic to protect pedestrians and to minimize disruption of traffic and damage to particular streets.

C. **Parking.** All construction-related vehicles, including passenger vehicles and construction equipment, must be parked within the Property or in areas specifically designated in advance in writing by the Village.

D. **Streets, Sidewalks, and Other Rights-Of-Way.** Any work on streets, sidewalks, and other rights-of-way related to the Development, public or private, must meet the following standards:

(i) Compliance with Plans. All work must comply with the Village-approved plans for that work.

(ii) Protection of Final Surface Course; Restoration. Except with the prior express written consent of the Village, no construction traffic may use any improved public right-of-way after installation of the final surface course of that right-of-way. If the Developer uses an improved public right-of-way for construction traffic, then the Developer must keep that right-of-way free and clear of mud, dirt, debris, obstructions and hazards, and must, after the use is no longer necessary, restore and repair that right-of-way to Village standards.

SECTION 8. DEVELOPER PAYABLE COSTS, FEES AND EXPENSES, AND ESCROW RELATED TO THE DEVELOPER SITE WORK OBLIGATIONS.

A. **Negotiation, Review, Inspection Fees.** In addition to all other costs, payments, fees, or other charges required by this Agreement or by the Requirements of Law or by the Village Code, the Developer must pay to the Village, promptly after receipt of a written demand or demands for payment:

(i) All reasonable reimbursable costs, fees, payments, charges, and expenses (collectively "Reimbursable Costs") for outside engineering, outside legal, and other outside consulting or administrative services incurred or accrued in connection with the review and processing of plans filed under this Agreement and in connection with the negotiation, preparation, consideration and review of this Agreement, at the standard rates charged to the Village, as required by the Village Code. All Reimbursable Costs for which demand has been made, but payment has not been received, by the Village prior to execution of this Agreement must be made by a certified or cashier's check contemporaneous with the execution of this Agreement by the Village.

(ii) All Reimbursable Costs for inspections of the Developer Site Work Obligations conducted by outside inspectors.

(iii) All Reimbursable Costs incurred by the Village for publications and recordings required in connection with the Development or the Property.

B. **Other Village Fees.** In addition to all other Reimbursable Costs required by this Agreement, the Developer must pay to the Village or other governmental agency with oversight jurisdiction over the Developer Site Work Obligations: (i) all standard application, plan review, inspection, and permit fees, (ii) all standard water and sewer fees, tap-on fees, and charges, (iii) compensation for trees removed from public parkways or other public right-of-way, (iv) all costs for replacement trees, and (v) all other standard fees, charges, impact fees to the Village and to any other governmental agency with an impact fee ordinance and contributions pursuant to the Requirements of Law and the Village Code, as applicable.

C. **Reimbursement for Village Work on Utilities.** If, during construction of the Developer Site Work Obligations, the Developer discovers a water main, sewer main, or other utility that must be relocated or capped to avoid conflict with the completion of the Developer Site Work Obligations, then the Developer and the Village will determine how, where, and by whom the utility will be relocated or capped and the Developer must pay all costs and expenses of that relocation or capping. The Village shall identify all water, sewer or other applicable utility infrastructure on the Village-approved Final Site Demolition and Site Restoration Plans as part of the plan review approval process.

D. **Developer Escrow.** The Developer shall maintain a "Developer Cash Escrow" with the Village for purposes of payment of the reasonable Reimbursable Costs and other costs payable to the Village by the Developer as required by this Agreement, and shall comply with the funding terms of the Developer Escrow as set forth in this Agreement and Section 9. below.

SECTION 9. PERFORMANCE SECURITY.

A. **Developer Cash Escrow; Letter of Credit ("LOC").** As security to the Village for the performance by the Developer of the Developer's obligations to construct and complete the Developer Site Work Obligations pursuant to and in accordance with this Agreement, the Developer shall deposit with the Village the following:

(i) Developer Cash Escrow. The sum of $15,000.00 cash (the "Developer Cash Escrow") shall be paid by the Developer to be held by the Village and drawn on to reimburse the Village for Reimbursable Costs incurred by the Developer described in Section 8. above. Any interest earned on the Developer Cash Escrow will be added to the escrow, but the Village is not required to cause interest to be earned. If draws on the Developer Cash Escrow reduce the balance in the Escrow to $5,000.00 or below at any time, then the Developer must restore the Developer Cash Escrow to a level determined by the Village (but not exceeding $15,000.00) until the Certificate of Completion is issued by the Village for the Developer Site Work Obligations. Any money remaining in the Developer Cash Escrow will be distributed to the Developer within thirty (30) calendar days after notice from the Developer to the Village requesting release of such funds, after issuance of the Certificate of Completion for the Developer Site Work Obligations.

(ii) Performance and Payment Letter of Credit. A performance and payment letter of credit in an amount equal to one hundred ten percent (110%) of the cost to complete the Developer Site Work Obligations and the Infrastructure Cost Estimate (the "Performance LOC") in the form required in Subsection 9.E. below.

(iii) Condition Precedent. The deposit of the Performance LOC and the Developer Cash Escrow is a condition precedent to issuance of any permit by the Village for work on the Developer Site Work Obligations.

(iv) Draw On Performance LOC. Prior to completion of the Developer Site Work Obligations, if the Village is required to draw on a Performance LOC by reason of the Developer's failure to fulfill its obligations under this Agreement, then the Developer, within twenty (20) calendar days thereafter, must cause the Performance LOC to be increased to its full original amount or such reduced amount, if the dollar value of the Performance LOC had been reduced by agreement of the Parties.

B. **Maintenance of Performance LOC.** The Performance LOC shall be maintained and renewed by the Developer, and will be held in escrow by the Village, until completion of the Developer Site Work Obligations, and the approval by the Village Manager and dedication to the Village of the Public Infrastructure, if any, per Subsection 9.F. below, subject to 10% of the value of the Performance LOC being retained by the Village for the 2-year warranty period and released in accordance with Subsection 5.M.(4) above. After completion of the Developer Site Work Obligations, if the Village is required to draw on the 10% value of Performance LOC by reason of the Developer's failure to fulfill its obligations under this Agreement, then the Developer, within twenty (20) calendar days thereafter, must cause the Performance LOC to be increased to its full original 10% value amount.

C. **Guaranty Letters of Credit.-RESERVED**

D. **Costs of Developer Security.** The Developer is responsible for the full cost of securing and maintaining the Developer Cash Escrow and the Performance LOC.

E. **Forms of Letters of Credit.** The Performance LOC must be in substantially the forms attached to this Agreement as **Group Exhibit "H"**, with minor revisions as may be requested by the issuer and approved by the Village Attorney. Each letter of credit also must be from a bank having capital resources of at least $25,000,000, with an office in the Chicago Metropolitan Area or other location

acceptable to the Village and insured by the Federal Deposit Insurance Corporation. Each letter of credit must, at a minimum, provide that: (i) it will expire no earlier than the later of two (2) years after the date of its issuance or thirty (30) calendar days after delivery to the Village, in the manner provided in Subsection 9.G. below, of written notice that the letter of credit will expire, (ii) it may be drawn on based on the Village Manager's certification that the Developer has failed to fulfill any of the obligations secured by the letter of credit, (iii) it does not require the consent of the Developer prior to any draw on it by the Village, (iv) it cannot be canceled without the prior written consent of the Village, and (v) if at any time it will expire within thirty (30) or any lesser number of calendar days, and if it has not been renewed, and if any obligation of the Developer secured by the letter of credit remains uncompleted or unsatisfactory, then the Village may call and draw down the letter of credit and thereafter either hold all proceeds as security for the satisfactory completion of all Developer obligations or employ the proceeds to complete all obligations and to reimburse the Village for any and all costs and expenses, including legal fees and administrative costs, incurred by the Village in connection therewith, as the Village may determine.

After completion of the Developer Site Work Obligations and in accordance with this Agreement, and after reimbursement of the Village for all costs and expenses incurred by the Village, including without limitation legal fees and administrative costs, then the Village will release to the Developer any proceeds remaining on deposit with the Village drawn from the Performance LOC and return the Performance LOC to the Developer. The Performance LOC will provide that the aggregate amount of the Performance LOC may be reduced once, upon joint written direction by the Developer and the Village, to the amount of twenty-five percent (25%) of the cost to complete the Developer Site Work Obligations when at least seventy-five percent (75%) of the Developer Site Work Obligations have been completed and approved by the Village in accordance with Subsection 6.C. above. The reduction to reimburse the Developer for payment of the Developer Site Work Obligations work satisfactorily completed will be allowed only after the Developer has provided certified contractors' sworn statements, a certified schedule of values, partial or final waivers of lien, proof of payment of contractors and subcontractors, bank statements, etc., as may be appropriate, and all additional documentation as the Village may reasonably request to demonstrate satisfactory completion of the Developer Site Work Obligations in question and full payment of all contractors, subcontractors, and material suppliers.

The Performance LOC shall not be reduced to reimburse the Developer for any cost incurred in satisfaction of its obligations under Section 8. or Subsection 9.A. of this Agreement.

F. **Replenishment of Developer Security.** Notwithstanding any other provision in this Agreement, if at any time the Village reasonably determines that the funds remaining in the Developer Cash Escrow or the Performance LOC are not sufficient to pay in full the remaining unpaid cost of the Developer Site Work Obligations and all Infrastructure work and all unpaid or reasonably anticipated Village costs, fees and expenses, or that the funds remaining in a Performance LOC are not, or may not be, sufficient to pay all unpaid costs of correcting any and all defects and deficiencies in the Developer Site Work Obligations and the Infrastructure and all unpaid or reasonably anticipated Village fees, costs and expenses, then, within twenty (20) calendar days after a demand by the Village, the Developer must increase the amount of the Developer Cash Escrow or the Performance LOC to an amount, as determined by the Village Engineer, to be sufficient to pay unpaid costs, fees and expenses. Failure by the Developer to increase the amount of the Developer Security will be grounds for the Village to retain any remaining balance of the Developer Cash Escrow and to receive the proceeds of, or to draw down, as the case may be, the entire remaining balance of the Performance LOC.

The Performance LOC cannot be reduced lower than 25% of the original amount until completion and Village acceptance of the Developer Site Work Obligations. On completion and Village acceptance of the Developer Site Work Obligations pursuant to and in accordance with this Agreement, and after reimbursement of the Village for all fees and all costs and expenses, including legal fees and administrative costs, incurred by the Village, then the Village will release to the Developer any remaining funds in the Developer Cash Escrow and a portion of the proceeds remaining on deposit with the Village from the Performance LOC, subject to retention of 10% of the value of the Performance LOC by the Village for the 2-year warranty period, which shall be released in accordance with Subsection 5.M.(4) above. After the expiration of the two (2)–year warranty period, the Village will return the Performance LOC to the Developer. If the Developer sells either of the Developed Lots with frontage on 43rd Street after the completion and Village acceptance of the Developer Site Work Obligations, the Performance LOC may be reduced on a prorated percentage basis in accordance with Subsection 5.M.(4) above.

G. **Use of Funds in the Event of Breach of Agreement.** If the Developer, after all required notices and cure periods under this Agreement have been provided, fails or refuses to complete the Developer Site Work Obligations in accordance with this Agreement, or fails or refuses to correct any defect or deficiency in the Developer Site Work Obligations as required by Section 6. above or this Section 9, or fails or refuses to clean or repair property in accordance with a demand made pursuant to Subsection 5.E. or Subsection 7.D.(ii) of this Agreement or fails or refuses to pay any amount pursuant to Section 8. above within five (5) business days after demand by the Village, or in any other manner fails or refuses to meet fully any of its obligations under this Agreement secured by a letter of credit, then the Village, in its discretion and after the delivery of a 5-day notice to the Developer and the Developer's failure to cure its failure or refusal within that 5-day period, may retain all or any part of the Developer Cash Escrow and/or draw on and retain all or any of the funds remaining in the appropriate letter of credit.

H. The Village thereafter will have the right to exercise its rights, under Subsection 5.E. above and under this Subsection 9.G., to take any other action it deems reasonable and appropriate to mitigate the effects of any failure or refusal, and to reimburse itself from the proceeds of the Developer Cash Escrow and the appropriate letter of credit for all of its Reimbursable Costs, including legal fees and administrative expenses, resulting from or incurred as a result of the Developer's failure or refusal to fully meet its obligations under this Agreement.

If the funds remaining in the Developer Cash Escrow or the appropriate letter of credit are insufficient to repay fully the Village for all Reimbursable Costs, then the Developer, on demand of the Village therefor, must immediately deposit with the Village any additional funds as the Village reasonably determines are necessary to fully repay such anticipated Reimbursable Costs.

After: (i) completion of the Developer Site Work Obligations in accordance with this Agreement, (ii) correction of all defects and deficiencies in the Developer Site Work Obligations as required by Subsection 6.E. above, (iii) repair of property in accordance with a demand made pursuant to Subsection 5.E. above, (iv) payment of all amounts demanded by the Village pursuant to this Section 9., (v) compliance with all other terms of this Agreement secured by a letter of credit, and (vi) reimbursement of the Village for all fees and all Reimbursable Costs, including legal fees and administrative costs, incurred by the Village; then the Village will release to the Developer any remaining Developer Cash Escrow and any proceeds remaining on deposit with the Village from any letter of credit and return the letter of credit to the Developer, subject to retention of the Performance LOC for the two (2) year warranty period and its return by the Village to the Developer at the expiration of such two (2)–year period or as outlined in Subsection 5.M.(4) and Subsection 9.F. above.

I. **Village Lien Rights.** If any money, property, or other consideration due from the Developer to the Village pursuant to this Agreement is not either recovered from the performance security deposits required in this Section 9. or paid or conveyed to the Village by the Developer within thirty (30) calendar days after a demand for payment or conveyance, then the money, or an amount equal to the Village's reasonable estimate of the value of the property or other consideration, together with interest and costs of collection, including legal fees and administrative expenses, will become a lien upon the Property and the Village will have the right to collect the amount or value, with interest and costs, including legal fees and administrative expenses, and the right to enforce the lien in the same manner as in statutory mortgage foreclosure proceedings.

SECTION 10. RESERVED.

SECTION 11. LIABILITY AND INDEMNITY OF VILLAGE.

A. **No Village Liability.** The Developer acknowledges and agrees that the Village is not, and will not be, in any way liable for any damages or injuries of any kind that may be sustained as the result of: (i) the Village's review and approval of any plan or specification provided by the Developer or the Developer's representatives for the Development; or (ii) the issuance of any approvals, permits, certificates, or acceptances for the Development or use of the Property and that the Village's reviews, approvals and issuances do not, and will not in any way, be deemed to insure the Developer or any of its transferees, successors-in-interest, all legal or beneficial owners of record, assigns, tenants, licensees and all subsequent owners of the Property or any part of the Property, and or any other person, and each and all homeowners associations or their equivalent within the Property, against damage or injury of any kind at any time.

B. **Village Procedures.** The Developer agrees not to challenge the Village's approval of this Agreement or any other Village approved document that relates to the Developer Site Work Obligations and the Development.

C. **Indemnification.** The Developer acknowledges that the accuracy and sufficiency of the Developer Site Work Obligations Plans and related specifications for the Developer Site Work Obligations are entirely the responsibility of the Developer and are not the responsibility of the Village, regardless of whether the Village reviews or approves the Developer's Development Plans and related specifications for apparent consistency with the Village's Codes. The Developer agrees to defend, indemnify and hold harmless the Village and all Village elected or appointed officials, officers, employees, agents, representatives, engineers, and attorneys (collectively the "Indemnitees") from any and all third party claims and causes of action of any kind that may be asserted at any time against the Village and any of the Indemnitees in connection with: (i) any design defect in the plans relating to the Developer Site Work Obligations and related specifications for the Developer Site Work Obligations, regardless of the Village's review and approval of any such plans or related specifications for or the Village's issuance of any approval, permit, certificate, or acceptance for the plans relating to the Developer Site Work Obligations based on the apparent consistency of any plans for Developer Site Work Obligations or related specifications for the Developer Site Work Obligations; or (ii) the design, development, construction, maintenance, or use of any portion of the Property or the Infrastructure (each a "Claim" and collectively "Claims"). This indemnity does not apply or extend to any matter concerning maintenance by the Village of any Public Infrastructure after that Public Infrastructure has been accepted by the Village in accordance with this Agreement.

D. **Defense Expenses.** The Developer agrees to pay all expenses, including without limitation attorney fees, litigation defense fees and costs, consultant fees and administrative expenses incurred by the Village in examining and tendering the defense of any Claim to the Developer in accordance with Subsection 11.C. above.

SECTION 12. BINDING NATURE OF AGREEMENT.

The obligations assumed by the Developer under this Agreement are binding on the Developer, on all of the Developer's transferees, successors-interest, all legal or beneficial owners of record, assigns, tenants, licensees and all subsequent owners of the Property or any part of the Property and each and all homeowners associations or their equivalent within the Property.

SECTION 13. TERM.

This Agreement will terminate upon the expiration of the applicable continuing obligations of the Parties, such as the warranty periods, set forth herein and the expiration of the applicable statute of limitations that relate to any claim or legal action that is covered under the Indemnification provision set forth in Subsection 11.C. (LIABILITY AND INDEMNITY OF VILLAGE), whichever is later, and will inure to the benefit of and be enforceable by the Developer, its successors, assigns and transferees and the successor owner(s) of the Property and the Village.

SECTION 14. ENFORCEMENT.

Either Party to this Agreement may enforce or compel the performance of this Agreement, in law or in equity, by suit, action, mandamus, or any other proceeding including without limitation specific performance, except that the Developer agrees that it will not seek, and does not have the right under any circumstances to seek, to recover a judgment against any Village elected or appointed official, officer, employee, agent, representative, engineer, or attorney on account of the negotiation, execution, or breach of this Agreement.

In addition to every other remedy permitted by law for the enforcement of the terms of this Agreement, the Village will be entitled to withhold the issuance of a building permit or a certificate of occupancy for work or occupancy within the Property at any time when the Developer has failed or refused to comply with a material obligation under this Agreement and has not, after the required notices stated herein, cured that failure or refusal within the cure periods, if any, allowed for that failure or refusal.

A. **Compliance with Laws.** The Developer agrees to comply with all applicable laws, rules and regulations of any federal, State or local entity or agency relating to the Development. The Developer will not discriminate against any employee or applicant for employment on the basis of race, color, religion, sex or national origin. To the fullest extent permitted by law, the Developer will take affirmative action to ensure that applicants are employed and treated during employment without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, transfer, recruitment, recruitment advertising, layoff, termination, rate of pay or other forms of compensation, and selection for training, including apprenticeship.

B. **Conflict of Interest and Prohibited Interest Disclosures.** Upon the Village's request from time to time during the Term of this Agreement, the Developer will provide a list of all entities owning a greater than one percent (1%) interest in the Developer. Based in part on the information provided by the

Developer and in part on information from the Village's independent investigation, the Village will affirm that its Corporate Authorities, and all appropriate Village elected and appointed officials, officers, employees, agents and representatives of the Village, have or will comply with the disclosure and conflict-of-interest provisions of the Public Officer Prohibited Activities Act (50 ILCS 105/3), the TIF Act (65 ILCS 5/11-74.4-4(n)) and the Illinois Governmental Ethics Act (5 ILCS 420). Upon the Village's request, the Developer shall provide the Village with all information required for compliance with the annual TIF report that the Village is required to file with the State of Illinois Comptroller or any such similar financial information, and required for the Village to comply with any disclosure and transparency ordinance or law enacted by the State of Illinois or Cook County. In addition, the Developer shall provide, on an annual basis, the information required by the TIF Act.

C. **Successors and Assigns.** The Developer shall be liable for all of the Developer's obligations under this Agreement. All obligations assumed by the Developer under this Agreement shall be binding on the Developer, and on any and all of the Developer's successors and assigns, and on any and all of the respective successor owners of all or any portion of the Property. To assure that the Developer's successors, assigns and successor owners of all or any portion of the Property have notice of this Agreement and the obligations created by it, the Developer shall:

1. Deposit with the Village Clerk, within thirty (30) calendar days after the Acquisition Date, any consents or other documents necessary to authorize the Village to record a Memorandum of this Agreement, in form and substance reasonably acceptable to the Developer and the Village, in the Office of the Recorder of Deeds of Cook County, Illinois;
2. Until the completion of the demolition of the existing structures and completion and Village approval of the Developer Site Work Obligations, notify the Village in writing at least thirty (30) calendar days prior to any date that the Developer intends to transfer fee title to any portion of the Property to any person not a Party to this Agreement;
3. Include in the Restrictive Covenant a memorandum or other similar reference(s) to this Agreement sufficient to put third parties on notice of the existence of this Agreement which will be released by the Village as indicated in Subsection 6.C. above; and
4. Require, prior to the transfer of all or any portion of the Property to any person or entity not a Party to this Agreement that occurs prior to the completion of the Developer Site Work Obligations, the transferee to execute an enforceable written assignment and assumption agreement, in form and substance reasonably approved by the Village Attorney (the "**Transferee Assignment and Assumption Agreement**"), agreeing to be bound by this Agreement, and to provide the Village, after request, with reasonable assurance of the financial ability of the transferee to meet any remaining obligations under this Agreement. The Village and the Developer shall record against the Property a memorandum of this Agreement that obligates the owner of the Property from time to time to perform the obligations of the Developer under this Agreement and shall require notice to the Village of any transfer of the Property, which memorandum shall be in form and substance reasonably satisfactory to the Village and the Developer.

The Village agrees that, after a successor becoming bound to the obligations of the Developer created in the manner provided in this Agreement, and providing the financial assurances required in this Section, the liability of the Developer shall be deemed automatically released. The failure of the Developer to provide the Village with a fully executed copy of a Transferee Assignment and Assumption Agreement before completing the transfer shall result in the Developer remaining fully liable for all of the Developer's obligations under this Agreement, but shall not relieve the transferee of its liability for those obligations as a successor to the Developer.

D. **Representations and Warranties of the Developer.**

1. No Gifts. The Developer covenants that no officer, member, manager, stockholder, employee or agent of the Developer, or any other person connected with the Developer, have made, offered or given, either directly or indirectly, to any member of the Corporate Authorities, or any officer, employee or agent of the Village, or any other person connected with the Village, any money or anything of value as a gift or bribe or other means of influencing their action in their capacity with the Village.
2. Assignment. Prior to the completion of the demolition of the existing structures and the completion and Village approval of the Developer Site Work, the Developer may not assign or transfer some or all of its rights or obligations under this Agreement without the prior written consent of the Village, the granting or denial of which consent shall not be unreasonably withheld by the Village; provided, however, that, without the Village's prior consent, the Developer may assign this Agreement to an entity controlling, controlled by, or under common control with the Developer and/or assign or collaterally assign any of the Developer's rights and/or obligations to the Lender.
3. Prevailing Wage. The Developer and its contractors and subcontractors are required to pay prevailing wages for all or portions of the Development work only if the Illinois Prevailing Wage Act (820 ILCS 130/) (the "IPWA") requires payment of prevailing wages.
4. Property Acquisition. The Developer shall provide the Village with sufficient documentation regarding Developer's ownership of the Property for the Development.
5. Corporate Authorization. This Agreement has been submitted for consideration and review by the board of directors, corporate officers, shareholders, members and/or managers of the Developer, and the Developer's board of directors, corporate officers, shareholders, members and/or managers have taken all actions required to be taken prior to the execution of this Agreement in order to make the same binding upon the Developer according to the terms hereof, and any and all actions of the Developer's board of directors, corporate officers, shareholders, members and/or managers, as the case may be, precedent to the execution of this Agreement have been undertaken and performed in the manner required by law.

E. This Agreement shall be deemed to be the agreement of any official, agent, employee, consultant or attorney of the Village, in their individual capacity, and no official, employee or attorney of the Village shall be liable personally under this Agreement or be subject to any personal liability or

accountability by reason of or in connection with or arising out of the execution, delivery and performance of this Agreement, or any failure in connection therewith.

SECTION 15. INSURANCE AND INDEMNIFICATION.

A. **Liability Insurance Prior to Completion.** Prior to issuance of a demolition permit, site development permit or a construction permit for the performance of the Developer Site Work Obligations, the Developer shall procure and deliver evidence of such policies to the Village, at the Developer's cost and expense, and shall maintain in full force and effect during any period of construction and through completion of the Developer Site Work , for both ongoing and completed operations, the following types of insurance, written on the comprehensive form and as an "occurrence" policy, in not less than the following amounts:

1. Commercial General Liability Insurance (including property damage insurance): $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate.
2. Contractor's Liability Insurance: $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate.
3. Automobile Insurance: $1,000,000.00 per occurrence and $1,000,000.00 in the aggregate.
4. Umbrella Coverage or Excess Liability Coverage: $5,000,000.00 in the aggregate.
5. Workers Compensation Insurance: Statutory Amount.

Said insurance shall state that the insurance provided by the Developer and any insurance coverage maintained by its general contractor (if any), shall be primary and that any provision of any contract of insurance or other risk protection benefit or self-insurance policy purchased or in effect or enacted by the Village and any other insurance or benefit of the Village shall be in excess of the Developer's insurance. All such policies shall be in such form and issued by such companies as shall be reasonably acceptable to the Village. Each such policy, including any related insurance certificates, endorsements and riders, shall expressly name "the Village of Western Springs and its appointed and elected officials, mayor and trustees, employees, engineers, attorneys, agents and representatives" as additional insureds.

Prior to commencement of the Developer Site Work Obligations or any other construction work related to the Development, the Developer shall furnish to the Village the above-required certificates of insurance, policies, riders and policy endorsements, with premiums paid in full that contain the insurer(s) written confirmation that the nature, scope, duration and amount of insurance coverage meets the requirements of this Agreement and shall remain in effect for all aspects of the Developer Site Work Obligations and the Development for both ongoing and completed operations. The Developer shall provide the Village with satisfactory proof of the above insurance requirements in the form of a certificate executed by an insurer with no less than an A rating by the most recent "AM Best Insurance Rating Guide."

The Village shall be given written notice at least thirty (30) calendar days prior to any cancellation or material amendment of the Developer's insurance policies required hereunder. Alternatively, the Developer may satisfy its insurance obligations in this Subsection 15.A. by way of a blanket policy or policies, which includes other liabilities, properties and locations meeting the minimum insurance coverage amounts. The Developer shall provide to the Village a replacement certificate prior to expiration, cancellation or material modification of any policy.

B. **Developer's Risk Prior to Completion.** Prior to completion of the Developer Site Work Obligations, as certified by the Village, the Developer shall keep in force at all times builders risk insurance on a completed value basis, in non-reporting form, against all risks of physical loss, including collapse, covering the total value of work performed and equipment, supplies and materials furnished for the Developer Site Work Obligations and demolition of the existing structures (including on-site stored materials), all as to work by the Developer. Such insurance policies shall be issued by companies satisfactory to the Village. The Developer shall provide written notice to the Village at least twenty-one (21) calendar days before any such policy is cancelled or materially modified**.**

C. **Village Review.** The Developer acknowledges and agrees that, except for breaches of this Agreement by the Village, **or acts of the Village,** the Village is not, and shall not be, in any way liable for any damages or injuries of any kind that may be sustained as the result of the Village's review, approval or denial of any plans or failure to review any plans for the Property, or the issuance of any approvals, permits, certificates or acceptances or use of the Property or the Development, and that the Village's review and approval of those plans and the Development and issuance of those approvals, permits, certificates or acceptances does not, and shall not, in any way be deemed to insure the Developer, or any of its heirs, successors, assigns, tenants, invitees and licensees, or any other person, against damage or injury of any kind at any time.

D. **Village Procedure.** The Developer has been advised by the Village that notices, meetings and hearings have been properly given and held by the Village with respect to the approval of this Agreement, and the Developer agrees not to challenge the Village's approval of this Agreement on the grounds of any procedural infirmity or of any denial of any procedural right.

E. **Indemnity and Defense Expense.** The Developer undertakes and assumes all potential liability for any injuries, deaths, losses, damages, claims or judgments of any nature whatsoever resulting from or in connection with its/their redevelopment activities at the Property, and the Developer shall hold harmless, indemnify and defend the Village against any such losses, except to the extent that the same is caused by the negligence or willful misconduct of the Village or its elected and appointed officials, officers, employees, agents, contractors and representatives, or by the breach of this Agreement by the Village.

1. Developer Defense Expense. The Developer shall, and does, agree to pay all reasonable expenses incurred by the Village, the Village's Corporate Authorities, and all Village elected and appointed officials, officers, employees, agents, contractors and representatives in defending against any and all claims, demands, causes of action, investigations, lawsuits, proceedings, liabilities, actions or penalties of any kind that may, at any time, be asserted against any of the Parties by any person(s) in connection with the Developer Site Work Obligations, the approval of this Agreement, any terms or provisions of this Agreement, or the Developer's duties, obligations and performance under this Agreement, including, without limitation, any claims, demands, causes of action, investigations, lawsuits, proceedings, liabilities, actions or penalties related to or associated with environmental conditions, matters or contaminants concerning or relating to the Property, in each case, except to the extent caused by the negligence or willful misconduct of the Village or its elected and appointed officials, officers, employees, agents, contractors and representatives. These expenses shall include, without limitation,

all reasonable out-of-pocket expenses, such as attorneys' and experts' fees and other litigation costs.

2. Mutual Indemnification. Each Party shall indemnify, hold harmless and defend the other Party and their respective officers, employees, agents, contractors and representatives against all injuries, deaths, losses, damages, claims, suits, liabilities, liens, including mechanic's liens, judgments, costs and expenses, including reasonable attorney fees, which may in any way arise from or accrue against the other Party as a consequence of this Agreement or which may in any way result therefrom, other than those indemnified matters which arise from or relate to the negligence or willful misconduct of the other Party or its officials, officers, employees, agents, contractors and representatives. The provisions of this Subsection and any other indemnification obligations on the part of either Party shall survive the termination or expiration of this Agreement for a period of two (2) years. In any such action against either Party, the other Party shall, at its own expense, appear, defend and pay all charges of reasonable attorney fees and all reasonable costs and other reasonable expenses arising therefrom or incurred in connection therewith; and, if any judgment shall be rendered against the Party in any such action, the other Party shall, at its own expense, satisfy and discharge such judgment. The prevailing Party shall indemnify the other Party for any costs, including reasonable attorney fees, in enforcing the provisions of this Agreement.

SECTION 16. DEFAULT; CURE.

In addition to any other "Event of Default" identified in this Agreement, an "**Event of Default**" shall mean a failure on the part of either Party to comply with any material term, representation, warranty, covenant, agreement or condition of this Agreement, which failure is not cured within thirty (30) calendar days after written notice thereof; provided, however, that if the failure is of a nature that it cannot be cured within thirty (30) days, then the defaulting Party shall have such additional time as is reasonably necessary to cure such failure so long as the defaulting Party commences activities designed or intended to cure such Event of Default within such thirty (30) calendar day period and thereafter diligently pursues activities designed or intended to cure such Event of Default to completion. Upon an Event of Default by the Village in the performance of any of its obligations under this Agreement, the Developer's remedies shall include specific performance (including statutory interest on any sums deemed to be improperly withheld), and any and all rights and remedies available to the Developer at law or in equity, including termination of this Agreement. The Village shall not be liable for punitive damages, consequential damages or lost profits. Upon an Event of Default by the Developer in the performance of any of its obligations under this Agreement, the Village shall be entitled to take such action as authorized by this Agreement and pursue any other remedies available at law or in equity; provided, however, that the Developer shall in no event be liable for punitive or consequential damages. Notwithstanding anything to the contrary in this Agreement, the Developer's defaults, and the Village's remedies upon such defaults, described in **Subsections 3.A.** and **5.E.** and shall be only as expressly set forth in **Subsections 3.A.** and **5.E.**, respectively.

SECTION 17. GENERAL PROVISIONS.

A. **Notice.** Any notice or communication required or permitted to be given under this Agreement shall be in writing and shall be delivered: (i) personally; (ii) by a reputable overnight courier;

(iii) by certified mail, return receipt requested, and deposited in the U.S. Mail, postage prepaid; or (iv) by electronic internet mail ("Email"). Email notices shall be deemed valid only to the extent that they are: (a) opened by the recipient on a business day at the address set forth below; and (b) followed by delivery of actual notice in the manner described in either (i), (ii) or (iii) above within three (3) business days thereafter at the appropriate address set forth below. Unless otherwise provided in this Agreement, notices shall be deemed received after the first to occur of: (a) the date of actual receipt; or (b) the date that is one (1) business day after deposit with an overnight courier as evidenced by a receipt of deposit; or (c) the date that is three (3) business days after deposit in the U.S. Mail, as evidenced by a return receipt. By notice complying with the requirements of this Subsection 17.A., each Party to this Agreement shall have the right to change the address or the addressee, or both, for all future notices and communications to them, but no notice of a change of addressee or address shall be effective until actually received.

Notices and communications to the Village shall be addressed to, and delivered at, the following addresses:

Ellen Baer Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558 Phone: 708.246.1800 Email: ebaer@wsprings.com	With a copy to: Michael T. Jurusik, Esq. Klein, Thorpe and Jenkins, Ltd. 900 Oakmont Lane, Suite 301 Westmont, Illinois 60559 Cell Number: 708.638.0355 Email: mtjurusik@ktjlaw.com

Notices and communications to the Developer shall be addressed to, and delivered at, the following addresses:

William Dvorak 4300 Franklin Western Springs LLC 3941 Clausen Avenue Western Springs, Illinois 60558 Phone: 630-772-0327 Email: bdvorak@kineticpartners.net	With a copy to: Matthew Klein, Esq. 322 West Burlington LaGrange, Illinois 60525 Direct: 708-354- 8840 / 630-533-3290 Email: matthew.klein55@gmail.com

Notices and communications to the Church shall be addressed to, and delivered at, the following address:

Zed Francis Hinsdale United Methodist Church 945 South Garfield Avenue Hinsdale, Illinois 60521 Phone: 630-805-2501 Email: zsf3@aol.com	With a copy to: Matthew Klein, Esq. 322 West Burlington LaGrange, Illinois 60525 Direct: 708-354- 8840 / 630-533-3290 Email: matthew.klein55@gmail.com

B. **Time of the Essence.** Time is of the essence in the performance of this Agreement.

C. **Rights Cumulative.** Unless expressly provided to the contrary in this Agreement, each and every one of the rights, remedies and benefits provided by this Agreement shall be cumulative and shall not be exclusive of any other rights, remedies and benefits allowed by law.

D. **Non-Waiver.** The Village shall be under no obligation to exercise any of the rights granted to it in this Agreement. The failure of the Village to exercise at any time any right granted to the Village shall not be deemed or construed to be a waiver of that right, nor shall the failure void or affect the Village's right to enforce that right or any other right.

E. **Consents**. Unless otherwise provided in this Agreement, whenever the consent, permission, authorization, approval, acknowledgement, or similar indication of consent of any Party to this Agreement, or of any duly authorized officer, employee, agent, or representative of any Party to this Agreement, is required in this Agreement, the consent, permission, authorization, approval, acknowledgement, or similar indication of consent will be in writing. The Property Owner has further executed a "Written Consent of the Property Owner" to allow the Developer to enter into this Agreement, a copy of which is attached hereto as **Exhibit "A"** and made a part hereof.

F. **Facilitation of Agreement**. The Village and the Developer will act in good faith and in a reasonable and cooperative manner with respect to consents, approvals, and other matters contemplated under this Agreement. No consent or approval may be unreasonably delayed, conditioned, or withheld. The Village and the Developer will execute, acknowledge, and deliver reasonable documents and other instruments necessary to fully carry out the terms of this Agreement.

G. **Governing Law.** This Agreement shall be governed by, and enforced in accordance with, the laws of the State of Illinois.

H. **Severability.** It is the intent of the Parties that, should any provision, covenant, agreement or portion of this Agreement or its application to any person or property be held invalid by a court of competent jurisdiction, the remaining provisions of this Agreement and the validity, enforceability and application to any person or property shall not be impaired thereby, but the remaining provisions shall be interpreted, applied and enforced so as to achieve, as near as may be, the purpose and intent of this Agreement to the greatest extent permitted by applicable law.

I. **Entire Agreement.** This Agreement constitutes the entire agreement between the Parties and supersedes any and all prior agreements and negotiations between the Parties, whether written or oral, relating to the subject matter of this Agreement.

J. **Interpretation.** This Agreement shall be construed without regard to the identity of the Party who drafted the various provisions of this Agreement. Moreover, each and every provision of this Agreement shall be construed as though all Parties to this Agreement participated equally in the drafting of this Agreement. As a result of the foregoing, any rule or construction that a document is to be construed against the drafting Party shall not be applicable to this Agreement.

K. **Amendments and Modifications.** No amendment or modification to this Agreement shall be effective until it is reduced to writing and approved and executed by all Parties to this Agreement in accordance with all applicable statutory procedures.

L. **Authority to Execute.** The Village warrants and represents to the Developer that the persons executing this Agreement on its behalf have been properly authorized to do so by the Corporate Authorities of the Village. The Developer warrants and represents to the Village that: (i) the Developer has the full and complete right, power and authority to enter into this Agreement and to agree to the

terms, provisions and conditions set forth in this Agreement and to bind the Property as set forth in this Agreement; (ii) all legal actions needed to authorize the execution, delivery and performance of this Agreement by the Developer have been taken; and (iii) neither the execution of this Agreement nor the performance of the obligations assumed by the Developer will: (a) result in a breach or default under any agreement to which the Developer is a party or to which it or the Property is bound; or (b) violate any statute, law, restriction, court order or agreement to which the Developer or the Property are subject.

M. **No Third-Party Beneficiaries/No Joint Venture.** Nothing in this Agreement, whether expressed or implied, is intended to confer any rights or remedies under or by reason of this Agreement on any other entity other than the Village and the Developer, nor is anything in this Agreement intended to relieve or discharge the obligation or liability of any third persons to either the Village or the Developer, nor shall any provision give any third parties any rights or subrogation or action over or against either the Village or the Developer. This Agreement is not intended to and does not create any third-party beneficiary rights whatsoever. Nothing in this Agreement, or any actions of the Parties to this Agreement, shall be construed by the Parties or any third-party person to create the relationship of a partnership, agency or joint venture between or among such parties.

N. **Force Majeure**. Either Party will be temporarily excused from the performance of its obligations under this Agreement when and to the extent the non-performing Party's performance is delayed or prevented by any circumstances beyond the non-performing Party's control, including but not limited to fire, flood, explosion, epidemic, pandemic, strikes or other labor disputes, acts of God or public emergency, war, rioting, malicious damage, acts or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment or service from a public utility needed for their performance or action or omission of the other Party (collectively, "Force Majeure"), provided that:

a. The non-performing Party gives the other Party reasonably prompt written notice describing the particulars of Force Majeure including, but not limited to, the nature of the occurrence, and continues to furnish timely reports with respect thereto during the period of Force Majeure;
b. The excuse of performance is of no greater scope and of no longer duration than is required by Force Majeure;
c. No obligations of either Party that arose before Force Majeure causing the excuse of performance are excused as a result of Force Majeure; and
d. The non-performing Party uses commercially reasonable and diligent efforts to remedy its inability to perform.
e. Economic hardship or other financial considerations, including but not limited to increases in the costs of construction materials, equipment or construction labor, of the Developer will not constitute an event of Force Majeure.

O. **Counterparts.** This Agreement may be executed in counterparts, each of which shall constitute an original document, which together shall constitute one and the same instrument.

P. **Enforcement of Agreement.** The provisions of this Agreement shall be enforceable in any action in law or in chancery. The Parties hereto agree that any legal action to enforce any right or obligation contained in or arising out of this Agreement shall be brought in the Circuit Court of Cook County, Illinois.

Q. **Exhibits.** The following Exhibits are attached hereto and made a part hereof or incorporated herein by reference and made a part hereof:

Exhibit "A":	Written Consent and Waiver of the Property Owner to Allow Developer to Enter into the Redevelopment Agreement (attached)
Exhibit "B":	Legal Description of the Property
Exhibit "C":	Site Plan for the Development, dated October 22, 2024 (attached)
Exhibit "D":	Assignment, Assumption And Consent Agreement For The 4300 Howard Avenue Residential Development In The Village Of Western Springs, Illinois (Lots 1, 8 And 9 In Field Park Subdivision) (attached)
Exhibit "E":	Final Site Demolition and Site Restoration Plans (to be attached after Village plan review approval)
Exhibit "F":	Bill of Sale and Form of Agreement Release Document
Exhibit "G":	Construction Schedule (attached)
Group Exhibit "H":	Forms of Letters of Credit (attached)

In the event of a conflict between an Exhibit and the text of this Agreement, the text of this Agreement shall control.

R. **Estoppels.** Within ten (10) business days following request by either Party from time to time, the other Party shall execute and deliver to the requesting Party an estoppel certificate that certifies: (i) that this Agreement is unmodified and in full force and effect or, if there had been modifications, that this Agreement is in full force and effect as modified, (ii) that the Party is not in default of this Agreement or specifying any defaults, and (iii) such other information that may be reasonably requested by the Party.

Redevelopment Agreement

Written Consent and Waiver Of Hinsdale United Methodist Church, as Successor to the First United Methodist Church of Western Springs, To Allow 4300 Franklin Western Springs LLC To Enter Into A Redevelopment Agreement And Other Related Documents Regarding The 4300 Howard Avenue Demolition of Church, Abrogation of Easement and Restoration of 43rd Street Right-of-Way Located At 4300 Howard Avenue In The Village Of Western Springs, Cook County, Illinois

Consent: Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (the "Property Owner"), is the fee simple title owner of the real property commonly known as 4300 Howard Avenue consisting of three (3) platted lots zoned under the R2 Single-Family Residence District classification (the "Property"). The Property Owner submits this written authorization to the Village of Western Springs to allow 4300 Franklin Western Springs LLC of 330 West Chestnut Street, Hinsdale, Illinois (the "Developer"), who is the contract purchaser and prospective developer of the Property, to acquire the Property and then pursue the redevelopment of the Property, provided that the Developer agrees to: (a) demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work"); (b) remove and dispose of the existing public sidewalk and construction of a new replacement public sidewalk, and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (c) remove and dispose of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"; and (d) restore the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"). The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO") For purposes of this Consent and Waiver, the construction of single family homes on the three (3) single family lots, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development".

To facilitate the sale of the Property to the Developer, the Property Owner requests that the corporate authorities of the Village of Western Springs (the "Village") approve and enter into or consent to the approval of the following agreements, ordinances, plats, resolutions and other documents (the "Development Documents") in anticipation of the approval of the Development:

1. RESOLUTION NO. 25-_____: A RESOLUTION AUTHORIZING THE APPROVAL AND EXECUTION OF AN ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION) AND A RELATED REDEVELOPMENT AGREEMENT TO BE ENTERED INTO BY

AND BETWEEN THE VILLAGE OF WESTERN SPRINGS AND 4300 FRANKLIN WESTERN SPRINGS LLC TO ALLOW FOR THE COMPLETION OF SUCH WORK.

2. REDEVELOPMENT AGREEMENT BY AND BETWEEN THE VILLAGE OF WESTERN SPRINGS AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE DEMOLITION OF A CHURCH BUILDING AND CERTAIN ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION).

3. ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT ENTERED INTO BY HINSDALE UNITED METHODIST CHURCH, AS SUCCESSOR TO THE FIRST UNITED METHODIST CHURCH OF WESTERN SPRINGS, AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE DEMOLITION OF CHURCH, ABROGATION OF EASEMENT AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION).

4. RESOLUTION NO. 25-____: A RESOLUTION APPROVING A PLAT OF ABROGATION FOR PUBLIC SIDEWALK EASEMENT (ADDRESS: 4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS) AND APPROVING THE TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES WITHIN THE 43RD STREET RIGHT-OF-WAY ADJACENT TO LOT 1 AND LOT 9 IN THE FIELD PARK SUBDIVISION, WESTERN SPRINGS, ILLINOIS..

5. PLAT OF ABROGATION FOR PUBLIC SIDEWALK EASEMENT (ADDRESS: 4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS).

6. TERMINATION OF LETTER OF AGREEMENT FOR CONSTRUCTION AND MAINTENANCE OF A PUBLIC SIDEWALK AND ABROGATION OF EASEMENT FOR A PUBLIC SIDEWALK TO ALLOW FOR THE REMOVAL OF THE PUBLIC SIDEWALK AND PUBLIC PARKING SPACES WITHIN THE 43RD STREET RIGHT-OF-WAY ADJACENT TO LOT 1 AND LOT 9 IN THE FIELD PARK SUBDIVISION (4300 FRANKLIN AVENUE, WESTERN SPRINGS, ILLINOIS).

7. ORDINANCE NO. 25-_____: AN ORDINANCE RESCINDING AND REPEALING THE BOARD OF TRUSTEES' APPROVAL OF ORDINANCE NO. 18-2934 (AN ORDINANCE APPROVING A CONDITIONAL USE PERMIT FOR THE INSTALLATION AND OPERATION OF AN EARLY CHILDHOOD EDUCATION CENTER AT THE 4300 HOWARD AVENUE PROPERTY) TO FACILITATE THE DEMOLITION OF A CHURCH BUILDING AND REMOVAL OF A PUBLIC SIDEWALK AND ON-STREET PUBLIC PARKING SPACES, ABROGATION OF A PUBLIC SIDEWALK EASEMENT, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY IN THE VILLAGE OF WESTERN SPRINGS, ILLINOIS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION).

8. Any other document that is approved by the Corporate Authorities of the Village related to the approval of the construction of the Development by the Developer.

Waiver: If the Developer does not purchase the Property from the Property Owner, the Property Owner agrees to waive all claims, causes of action and damages of any kind that the Property Owner could file against the Village arising out of or related to the termination of the Development Documents. The Developer is required to provide written notice to the Village within five (5) calendar days of the date of this Written Consent And Waiver of the termination of the real estate purchase contract that it has entered into with the Property Owner related to the Property.

Assignment, Assumption And Consent Agreement
For The 4300 Howard Avenue Residential Development
In The Village Of Western Springs, Illinois
(Lots 1, 8 And 9 In Field Park Subdivision)

(attached)

ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT ENTERED INTO BY HINSDALE UNITED METHODIST CHURCH, AS SUCCESSOR TO THE FIRST UNITED METHODIST CHURCH OF WESTERN SPRINGS, AND 4300 FRANKLIN WESTERN SPRINGS LLC FOR THE REMOVAL OF A PUBLIC SIDEWALK AND CERTAIN PUBLIC PARKING SPACES, INSTALLATION OF A NEW PUBLIC SIDEWALK AND RESTORATION OF 43RD STREET RIGHT-OF-WAY AT THE 4300 HOWARD AVENUE PROPERTY IN THE VILLAGE OF WESTERN SPRINGS (LOTS 1, 8 AND 9 IN FIELD PARK SUBDIVISION)

This ASSIGNMENT, ASSUMPTION AND CONSENT AGREEMENT (this **"Assignment"**) is entered into on the ___ day of _____, 2025, by and between Hinsdale United Methodist Church, as successor to the First United Methodist Church of Western Springs (hereinafter referred to as the "**Church**" or "**Assignor**"), and 4300 Franklin Western Springs LLC, an Illinois limited liability company, of Hinsdale, Illinois (hereinafter referred to as "**Developer**" or "**Assignee**"), and the Village of Western Springs, an Illinois non-home rule municipal corporation located in Cook County, Illinois (hereinafter referred to as "**Village**"). The Assignor, the Assignee and the Village are collectively referred to as the "Parties" and individually as a "Party" under this Assignment.

RECITALS

WHEREAS, the Church is the owner of tracts of land with a common address of 4300 Franklin Avenue, Western Springs, Illinois, consisting of three (3) residentially zoned lots zoned under the R2 Single-Family Residence District classification, and legally described in **Exhibit "A"** attached hereto and made a part hereof (the "Property"); and

WHEREAS, with the passage of Resolution No. 14-2268 on April 28, 2014, the Church and the Village approved and entered into a certain Letter of Agreement for the construction and maintenance of a public sidewalk dated April 28, 2014, and the Church, as Grantor, and the Village, as Grantee, approved and executed a related Plat of Easement for Public Sidewalk, dated April 28, 2014, and the Letter of Agreement and the Plat were recorded May 14, 2014 in Cook County, Illinois as Document 1413445068. As a result, the Village is the holder of an easement for the construction and maintenance of a public sidewalk over a portion of the Property (the "Sidewalk Easement"); and

WHEREAS, the Church has entered into a real estate purchase and sale contract for the sale of fee simple title of the Property to the Developer. The Developer, who is the contract purchaser and prospective developer of the Property, intends to demolish the existing structures on the Property consisting of a church and parking facilities (the "Church Demolition Work") after acquisition of the Property and then pursue the redevelopment of the Property. The Developer may redevelop the Property as a three (3) lot single-family residential development, either as the primary developer of one or more of the lots, or may market for sale and development by another contractor one or more of the lots. In addition, the Developer may pursue another alternate residential development plan for the Property that is a permitted use under the R2 Single-Family Residence District classification or may apply for Village zoning approval of an alternate development plan in accordance with the applicable Village Code provisions, including its Development Control Ordinance ("DCO"). For purposes of this Resolution, the completion of the three (3) single-family detached houses, or another alternate residential development plan or an alternate development plan that are pursued by the Developer or its successor owner(s) are collectively referred to as the "Development"; and

WHEREAS, as a predicate to the Development, the Developer has submitted to the Village a typical plan for a single-family residential development consisting of the three (3) lots shown on Sheet A.02 of the "4300 Howard Avenue Parkway Demolition and Parkway Restoration Site Plan" (the "Site Plan") submitted by the Developer to the Village. A copy of the Developer's Site Plan, which consists of Sheet A.01 (Parkway Demolition Plan) and Sheet A.02 (Parkway Restoration Plan) dated October 22, 2024, is attached hereto as **Exhibit "B"** and made a part hereof; and

WHEREAS, to address certain Church obligations in the Letter of Agreement and to allow the Developer to complete the Church Demolition Work and to construct the Development, by a letter dated October 25, 2024 issued by the Church to the Village, the Church and the Developer have requested that the Village agree to: (a) the termination of the Letter of Agreement; (b) the approval of a Plat of Abrogation of Easement for Public Sidewalk to terminate the Sidewalk Easement; (c) the removal and disposal of the existing public sidewalk and construction of a new replacement public sidewalk, and new curb and gutter improvements within the Village's 43rd Street right-of-way by the Developer, at its cost, in a typical parkway placement location, as approved by the Village Engineer (the "Sidewalk Removal and Replacement/Relocation Work"); (d) the removal and disposal of the diagonal public parking spaces from the 43rd Street right-of-way by the Developer, at its cost (the "Parking Space Removal Work"); (e) the restoration of the 43rd Street curb and parkway by the Developer, at its cost (the "Parkway Restoration Work"); and (f) the repeal of the following zoning ordinance approved by the President and Board of Trustees of the Village (the "Corporate Authorities") relative to the Church and activities formerly conducted at the Property: Ordinance No. 18-2934 (Ordinance Approving A Conditional Use Permit For The Installation And Operation Of An Early Childhood Education Center At The 4300 Howard Avenue Property) (the "2018 CUP Ordinance"). The completion of the Church Demolition Work, the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work are collectively referred to as the "Developer Site Work Obligations". A copy of the Plat of Abrogation for Public Sidewalk Easement (Address: 4300 Franklin Avenue, Western Springs, Illinois), with a survey date of September 27, 2024 and prepared by Kabal Surveying Company, is attached hereto as **Exhibit "C"** and made a part hereof (the "Plat of Sidewalk Easement Abrogation"); and

WHEREAS, subject to the President and Board of Trustees of the Village (the "Corporate Authorities") granting approval of this Assignment, the Church and the Developer have approved and entered into this Assignment, the form and content of which have been approved by the Village Attorney, to authorize the Developer to negotiate and enter into the Redevelopment Agreement (as defined below) with the Village prior to completing the purchase of the Property that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations and the other obligations that are part of the Conditions of Approval, as set forth below in Section 4 of this Assignment; and

WHEREAS, under this Assignment and the Redevelopment Agreement, all of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined under the Developer Site Work Obligations and set forth below in Section 4 of this Assignment, are being assigned to and assumed by the Developer, as the Church would be required to fulfill such obligations if the Letter of Agreement was not being terminated by the Village and the Church. The Developer accepts the assignment and assumption of all rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work from the Church, and agrees to complete the other Developer Site Work Obligations as set forth below in Section 4 of this Assignment. As part of its approval of this Assignment, the Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and

Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer; and

WHEREAS, the Corporate Authorities of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the statutory and constitutional authority and intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution, to approve and enter into this Assignment with the Church and the Developer, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into this Assignment.

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained and the exchange of adequate consideration and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties hereto, intending to be legally bound, agree as follows:

AGREEMENT

1. **Incorporation.** Each of the Recitals set forth above are incorporated by reference into Section 1 of this Agreement as material provisions.

2. **Assignment by Assignor; Consent.** Upon the conveyance of the Property to the Assignee, the Assignor assigns, transfers and sets over to the Assignee all of its rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, as those terms are defined in the above Recitals, and which are part of the Developer Site Work Obligations to be performed in anticipation of the Development. The Church consents to the Developer, as contract purchaser of the Property, to negotiate and enter into the Redevelopment Agreement with the Village, prior to completing the purchase of the Property, that will obligate the Developer, at its cost, to complete the Developer Site Work Obligations upon its completion of the purchase of the Property.

3. **Acceptance of Assignment by Assignee.** Upon its completion of the purchase of the Property, the Assignee assumes all of the rights, liabilities and obligations of the Assignor for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work, and agrees to complete the other Developer Site Work Obligations that are set forth below in Section 4 of this Assignment.

4. **Developer Site Work Obligations.** The approval of the Corporate Authorities of the Village of the termination of the Letter Agreement, the approval of the Plat of Sidewalk Easement Abrogation, and the approval of this Assignment is conditioned upon and subject to the following:

   A. The Developer shall approve and enter into a Redevelopment Agreement with the Village for the completion of the Developer Site Work Obligations (the "Redevelopment Agreement"), in a form and content as approved by the Village Attorney, that contains, at a minimum, the Developer's obligation to complete

the Developer Site Work Obligations and such other provisions and obligations as mutually agreed to by the Village and the Developer.

a. After its acquisition of the Property, in the event the Developer fails to commence or commences and then fails to complete the Developer Site Work Obligations, the Village, at the Developer' costs, may, but is not obligated to, complete the Developer Site Work Obligations, subject to the terms, provisions and obligations of the Redevelopment Agreement and the Village may use the security posted by the Developer to ensure the completion of the Developer Site Work Obligations.
b. If the Developer does not purchase the Property, the Church, at its cost, may complete the Church Demolition Work and may also complete the other Developer Site Work Obligations, provided the Plat of Sidewalk Easement Abrogation is approved and filed with the Cook County Clerk's Office, Recordings Division, and the Church secures all required permits, posts with the Village required security to ensure the completion of the work and otherwise complies with all of the requirements set forth in the Redevelopment Agreement to complete the Developer Site Work Obligations.
c. If there is any conflict between the provisions of this Assignment and the Redevelopment Agreement, the Redevelopment Agreement shall control.

5. **Village Approval of Assignment.** The Village approves of the assignment and assumption of the Church's rights, liabilities and responsibilities for the completion of the Sidewalk Removal and Replacement/Relocation Work, the Parking Space Removal Work and the Parkway Restoration Work to the Developer.

6. **Notices.** Any notice or communication required or permitted to be given under this Assignment shall be in writing and shall be delivered: (i) personally; (ii) by a reputable overnight courier; (iii) by certified mail, return receipt requested, and deposited in the U.S. Mail, postage prepaid; or (iv) by electronic internet mail ("Email"). Email notices shall be deemed valid only to the extent that they are: (a) opened by the recipient on a business day at the address set forth below; and (b) followed by delivery of actual notice in the manner described in either (i), (ii) or (iii) above within three (3) business days thereafter at the appropriate address set forth below. Unless otherwise provided in this Assignment, notices shall be deemed received after the first to occur of: (a) the date of actual receipt; or (b) the date that is one (1) business day after deposit with an overnight courier as evidenced by a receipt of deposit; or (c) the date that is three (3) business days after deposit in the U.S. Mail, as evidenced by a return receipt. By notice complying with the requirements of this Section 6, each Party to this Assignment shall have the right to change the address or the addressee, or both, for all future notices and communications to them, but no notice of a change of addressee or address shall be effective until actually received.

Notices and communications to the Village shall be addressed to, and delivered at, the following addresses:

Ellen Baer Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558 Phone: 708.246.1800 Email: ebaer@wsprings.com	With a copy to: Michael T. Jurusik, Esq. 7. **Applicable Law; Venue.** This Assignment shall be governed and controlled, as to the validity, enforceability, interpretation and construction, in effect in all other respects, including, but not limited to, the legality of interest charged hereunder, by the statutory laws and decisions of the State of Illinois. The Parties agree that, for the purpose of any litigation relative to this Assignment and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the Parties consent to the *in personam* jurisdiction of said Court for any such action or proceeding.

8. **Entire Agreement; Amendment or Modification.** This Assignment contains the entire understanding between the Parties and supersedes any prior understanding or written or oral agreements between them with respect to the subject matter of this Assignment. There are no representations, agreements or understandings, oral or written, between and among the Parties hereto relating to the subject matter of this Assignment which are not fully expressed herein. No oral modification, amendment or change shall be allowed to this Assignment. Any modification, amendment or change shall be in writing and approved by the Corporate Authorities of the Village, the manager of the Developer and the governing board of the Church.

9. **Severability.** Every provision of this Assignment is intended to be severable. In the event any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the validity or enforceability of the remaining terms and provisions hereinabove set forth.

10. **Counterparts.** This Assignment may be executed in counterparts, each of which shall be deemed an original and all of which shall constitute but one and the same instrument.

11. **Effective Date; Legal Authority; Binding Effect.** The "Effective Date" of this Assignment shall be the date of execution by the last signatory, which date shall be inserted on page 1 of this Assignment. This Assignment shall be in full force and effect, and legally binding, after it is signed by the duly authorized officers of each Party. Each of the signatories to this Assignment are the duly authorized representatives of their respective corporate entity and each such person has signed this Assignment pursuant to the authority duly granted to them by the corporate authorities of said corporate entity, who have acted by motion or approved a Resolution (in the Village's case, at an open public meeting) that

authorized and directed the representatives to sign this Assignment. This Assignment shall be binding upon and shall inure to the benefit of the Parties agreeing hereto and to their successor corporations, officers, officials, trustees, successors-in-office, heirs, representatives, and assigns, transferees, successors-in-interest and successor owners.

BILL OF SALE

FOR THE PUBLIC IMPROVEMENTS IN

the Redevelopment Agreement by and Between
The Village of Western Springs, Illinois and
4300 Franklin Western Springs LLC for the Demolition of Church,
Abrogation of Easement
and Restoration of 43rd Street Right-of-Way
("43RD STREET RIGHT-OF-WAY RECONFIGURATION")

The Developer, 4300 FRANKLIN WESTERN SPRINGS LLC, an Illinois limited liability company (the "Developer"), improved the below-described real property within the Village of Western Springs ("Village") based on a Village-approved amended site plan for the reconfiguration of the right-of-way adjacent to the property known as 4300 Howard Avenue. The Development is located on real property commonly known as the southern portion of the 43rd Street right-of-way between Franklin Avenue and Howard Avenue, and generally described as follows:

[INSERT LEGAL DESCRIPTION] (hereinafter referred to as the "Subject Property").

In 2025, the Village issued a certificate of completion for the Subject Property per the Redevelopment Agreement approved in Western Springs Ordinance No. 25-_____.

In accordance with the applicable provisions of Section 10-10-19 (Land Dedications and Completion, Maintenance and Acceptance of Improvements) of the Western Springs Municipal Code and the provisions of Western Springs Ordinance No. 25-_____, the Developer has constructed and installed certain infrastructure and other public improvements, consisting of the Subject Property, Creek Drive, 49th Court North, 49th Court South, the 53rd Street bridge, and certain curb gutter, parkway, parkway trees, and sidewalk parkway trees along and within the Subject Property, as further described in Western Springs Ordinance No. 25-_____ (collectively the "Accepted Public Improvements"), as part of the four-phased Development, and now agrees to transfer title, ownership, maintenance and rights use to the Accepted Public Improvements to the Village.

The Developer, in consideration of Ten and No/100 Dollars ($10.00), receipt whereof is acknowledged as adequate, good and valuable consideration, does sell, assign, transfer and set over title and ownership, maintenance and rights use to the Village of Western Springs, an Illinois municipal corporation, of the Accepted Public Improvements located within the Development in accordance with the provisions of Western Springs Ordinance No. 25-_____. The Accepted Public Improvements shall be owned, used and maintained by the Village as Village-owned public improvements in accordance with the provisions of Western Springs Ordinance No. 25-_____.

The Developer covenants to the Village that: (1) the Developer is the lawful owner of the Accepted Public Improvements; (2) the Accepted Public Improvements are free from all liens and encumbrances; (3) the Developer has the right to convey title to the Accepted Public Improvements; (4) the Developer will defend and hold the Village and its appointed and elected officials, president and trustees, employees,

engineers, attorneys, volunteers and representatives harmless against the claims and demands of all persons with regard to ownership of and payment for construction of the Accepted Public Improvements; and (5) the execution of this Bill of Sale by the Developer has been properly authorized by the required corporate actions.

IN WITNESS WHEREOF, the Developer, pursuant to the corporate authority and direction given to it, has signed and sealed this Bill of Sale this ___ day of _____, 20_____.

REQUIRED FORM OF PERFORMANCE IRREVOCABLE LETTER OF CREDIT

NO.
AMOUNT: $
EXPIRATION DATE: Two years after issuance

DATE OF ISSUE: _____, 202___.

[Name of Bank]
[Address]

TO: Village of Western Springs (Beneficiary)
740 Hillgrove Avenue
Western Springs, Illinois 60558
Attention: Village Manager

_____ BANK HEREBY AUTHORIZES YOU TO DRAW AT SIGHT on the _____ UP TO AN AGGREGATE AMOUNT OF _____ United States Dollars ($_____) for the account of [Developer], a _____ limited liability company ("Customer").

Drafts under this Letter of Credit shall bear upon their face the words:

Drawn under _____.
Credit No. Dated: _____, 202___.

Drafts may be for all or any portion of the amount of this Letter of Credit, and shall be generally in the form of the sample draft attached hereto as Exhibit "1", and shall be accompanied by one of the following documents executed by the Western Springs Village Manager:

(a) A written statement on the form attached hereto as Exhibit "2" stating that, conditioned upon proper notice to the Western Springs Village Manager, Letter of Credit No. ___ will expire within thirty (30) calendar days or less and that the Customer / [Developer] has failed to deliver to the Western Springs Village Manager evidence of a renewal of Letter of Credit No. ___; or

(b) A written statement on the form attached hereto as Exhibit "3" stating that all or any part of the Infrastructure as defined in and required to be constructed by the Customer / [Developer] pursuant to "An Agreement _____" (the "Development Agreement") have not been constructed in accordance with the Development Agreement and any cure period has expired; or

(c) A written statement on the form attached hereto as Exhibit "4" stating that all or any part of the costs, payments, permit fees, or other fees required to be paid to the Village of Western Springs by the Customer / [Developer] pursuant to the Development Agreement have not been paid in accordance with the Development Agreement and any cure period has expired; or

(d) A written statement on the form attached hereto as Exhibit "5" stating that all or any portion of the maintenance, repair, or restoration required to be performed by the

Customer / [Developer] pursuant to the Development Agreement has not been performed in accordance with the Development Agreement and any cure period has expired; or

(e) A written statement on the form attached hereto as Exhibit "6" stating that the aggregate amount of the Letter of Credit may be reduced under Subsection __ of the Development Agreement in a certain amount.

_____[BANK] HEREBY AGREES with the beneficiary Village of Western Springs that:

1. Drafts drawn under and in compliance with this Irrevocable Letter of Credit shall be duly honored immediately upon presentation to [BANK] if presented on or before the above-stated Expiration Date or presented at the [BANK] office located at [ADDRESS], together with the original of this Irrevocable Letter of Credit on or before that date. Further, one or more drafts may be presented at the [BANK] office on or before the Expiration Date.

2. If, within three (3) banking days after any draft drawn under this Irrevocable Letter of Credit is presented to [BANK] in conformance with the terms of this Irrevocable Letter of Credit, and [BANK] fails to honor same, [BANK] agrees to pay all attorneys' fees, litigation and court costs, and other expenses incurred by the Village of Western Springs in enforcing the terms of this Irrevocable Letter of Credit.

3. This Irrevocable Letter of Credit shall expire on _____, 20___, (two (2) years from issuance) as stated hereinabove; provided, however, this Irrevocable Letter of Credit shall only expire after [BANK] sends a written notice to the Western Springs Village Manager by certified mail, return receipt requested, or hand-delivered courier at least thirty (30) calendar days prior to the Expiration Date or such extended Expiration Date, that informs the Village that this Irrevocable Letter of Credit is about to expire (the "30-Day Expiration Notice).

4. In no event will this Irrevocable Letter of Credit or the obligations contained herein expire except after the 30-Day Expiration Notice required herein is delivered to the Western Springs Village Manager, it being expressly agreed that the above Expiration Date shall be extended by the number of calendar days as is required to comply with the 30-Day Expiration Notice delivery requirement.

5. No consent, acknowledgment, or approval of any kind from the Customer / [Developer] shall be necessary or required prior to honoring any draft presented in conformance with the terms of this Irrevocable Letter of Credit.

6. The aggregate amount of this Irrevocable Letter of Credit may be reduced only upon receipt by [BANK] of a document executed by the Western Springs Village Manager as provided in Paragraph (e) above stating that the aggregate amount of this Irrevocable Letter of Credit may be reduced in a specified amount as provided in Subsection ___ of the Development Agreement.

7. This Irrevocable Letter of Credit is irrevocable.

This Irrevocable Letter of Credit shall be governed by and construed in accordance with the Uniform Customs and Practices for ISP 98 of the International Chamber of Commerce (the "Uniform

Customs"). In the event of a conflict between this Irrevocable Letter of Credit and the Uniform Customs, this Letter of Credit shall control. This Irrevocable Letter of Credit shall be deemed to be a contract made under the laws of the State of Illinois, including without limitation Article 5 of the Uniform Commercial Code as in effect in the State of Illinois and shall, as to matters not governed by the Uniform Customs, be governed by and construed in accordance with the Laws of the State of Illinois, without regard to principles of conflicts of law.

As used herein, the term "banking day" means any day other than a Saturday, Sunday, or a day on which banks in the State of Illinois are authorized or required to be closed, and a day on which payments can be effected on the Fedwire Network.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.H.

To: Board of Trustees
From: Heather Valone, Director of Community Development , Kelsey Fawell, Senior Planner
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager
RE: [Previously discussed] Downtown Western Springs Market Assessment Update (Omnibus Item)

Recommendation

The Planning and Zoning Committee reviewed the preliminary findings of the Downtown Western Springs Market Assessment Update at their meeting on January 9, 2025 and recommended advancement to the Village Board for review and discussion. The Village Board reviewed the preliminary findings at their meeting on January 13, 2025 and the draft market assessment update at their January 27, 2025 meeting and directed staff and the consultant to finalize the item for consideration.

Summary

On March 26, 2007, the Village Board approved Resolution 07-1957 accepted a market assessment of the downtown prepared by Business Districts, Inc. titled “Western Springs: Downtown Market Assessment”. The 2007 assessment identified the market demand for specific types of retail and projects that would be both appropriate and financially feasible for Western Springs’ Downtown. It also provided recommended strategies and actions that realize Downtown’s sales potential and improve retail service to all residents.

As part of the 2024 fiscal year budget, an update to this plan was included in the Community Development Department Budget. On October 14, 2024, the Village Board approved Resolution No. 24-2844 accepting a proposal from Teska Associates, Inc. (“Teska”) to complete an update to the assessment.

The market assessment update includes interviews with valuable stakeholders in the downtown, such as business owners, property owners, residents, and Village Officials, an inventory of the downtown’s existing conditions, analyses on the characteristics of the area and how visitors frequent and utilize the downtown. Interviews with business owners / representatives were conducted in October and November of 2024. A Joint meeting of the Economic Development Commission and the Village Board was held on November 6, 2024. Surveys to businesses and residents were conducted and concluded on December 20, 2024. The preliminary findings were presented to the Planning and Zoning Committee at their meeting on January 9, 2025. The Planning and Zoning Committee recommended advancing the preliminary

findings to the Village Board for review and discussion. The Village Board reviewed the preliminary findings at their meeting on January 13, 2025. With the feedback received on the findings the Community Development Department and Teska have drafted the report which was reviewed by the Village Board on January 27, 2025.

1. Resolution

Draft 1.16.2025
RESOLUTION NO. 25-____
VOTE:
AYES:
NAYS:
ABSENT:
ABSTAIN:
DATE: February 10, 2025.
OTHER: None.

RESOLUTION AUTHORIZING THE ACCEPTANCE AND APPROVAL OF THE DOWNTOWN WESTERN SPRINGS MARKET ASSESSMENT DATED FEBRUARY 10, 2025 AND PREPARED BY TESKA ASSOCIATES, INC. FOR THE VILLAGE OF WESTERN SPRINGS.

WHEREAS, with the passage of Resolution No. 24-2844 on October 14, 2024, the Village President and Board of Trustees of the Village of Western Springs (the "Village Board" or "Village") approved an agreement entitled "Agreement Between the Village of Western Springs and Teska Associates, Inc." (the "Agreement"), a copy of which is on file with the Village Clerk's Office, to retain Teska Associates, Inc. (the "Consultant") to prepare a Downtown Western Springs Market Assessment for the Village; and

WHEREAS, the Consultant has prepared a Downtown Western Springs Market Assessment dated February 10, 2025 (the "Assessment") for the Village, a copy of the Assessment is attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, at an open, public meeting held on November 6, 2024, the Village's Economic Development Commission (the "Commission") reviewed and discussed the content, provisions, findings and recommendations of the Assessment and received input from the Village staff, and provided an opportunity for public input on the matter, and then the Commission recommended that the Village Board accept and approve of the Assessment for use by the Village, its officials, its boards, committees and commissions and Village staff; and

WHEREAS, at an open, public meeting held on January 9, 2025, the Planning and Zoning Committee (the "Committee") reviewed and discussed the content, provisions, findings and recommendations of the Assessment and received input from the Village staff, and provided an opportunity for public input on the matter, and then the Committee recommended that the Village Board accept and approve of the Assessment for use by the Village, its officials, its boards, committees and commissions, and Village staff; and

WHEREAS, at open public meetings held on January 13, 2025, January 27, 2025, and February 10, 2025, the President and Board of Trustees of the Village reviewed and discussed the content, provisions, findings and recommendations of the Assessment and considered the recommendations of the Commission and the Committee, and received input from Village staff and provided an opportunity for public input on the matter. At its February 10, 2025, meeting, the President and Board of Trustees of the Village accepted the recommendations of the Commission and the Committee to accept and approve of the Assessment for use by the Village, its officials, its boards, committees and commissions, and Village staff; and

WHEREAS, pursuant to the statutory authority set forth in the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), including but not limited to 65 ILCS 5/8-1-2.5 (Expenses for Economic Development), and the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4 ("TIF Act"), and the constitutional powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) of the Constitution of the State of Illinois of 1970, the President

and Board of Trustees of the Village find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to accept and approve of the Assessment for use by the Village, its officials, its boards, committees and commissions, and Village staff.

NOW, THEREFORE BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2. Acceptance and Approval of the Assessment. The Board of Trustees of the Village of Western Springs accept and approve the attached Assessment (see attached **Exhibit "A"**), which as been prepared by the Consultant, for use by the Village, its officials, its boards, committees and commissions, and Village staff.

SECTION 3. Effective Date. This Resolution shall be in full force and effect from and after its adoption and approval in the manner provided by law.

PASSED by a roll call vote of the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 10th day of February, 2025 and approved by me as Village President, and attested by the Village Clerk, on the same day.

SPECIAL THANKS

Western Springs Business Association (WSBA)
Downtown Business & Property Owners

CONSULTANT

Teska Associates, Inc.

1 INTRODUCTION

The Village of Western Springs is a thriving west suburban community with a traditional downtown centered around a commuter rail station, single-family neighborhoods, and a high level of public services and amenities exemplified by its quality schools, a comprehensive park network, and nearby natural amenities. The Village is situated along regional transportation corridors such as the Tri-State Tollway (Interstate 294) and the Metra BNSF (Burlington Northern Santa Fe) rail line, allowing residents access to the region and making downtown businesses available to a potential customer base and labor pool.

Purpose

The Village of Western Springs last commissioned a market assessment of its downtown area in 2007 to better position itself economically in the face of emerging trends and changing markets. That assessment informed the Village's economic development policies, which sought to support the strength of its historic downtown. With much of the economic development policy implemented over the past 15 years, the Village of Western Springs will utilize this Market Assessment to gain a better understanding of shifting trends following the Great Recession of 2008 and the COVID-19 pandemic, downtown's competitive alignment, and desirable businesses. This Market Assessment will likewise lay the foundation for an update of the economic development policy for the downtown and work to provide a strategy for investment, development, and partnerships.

Town and Downtown at a Glance

A longtime seasonal campground for the Potawatomi people due to its springs and hunting grounds, the area around Western Springs began to develop with the construction of the Aurora-Chicago Railroad in 1864. The community incorporated in 1886, and a new railroad depot opened in 1890; three years later, the iconic Western Springs Water Tower was constructed for the community's waterworks system after the springs (located at current day Spring Rock Park) dried. By the 1930s, many of the familiar storefronts along Burlington Avenue had been constructed. Western Springs' downtown remains the commercial and office center of the Village, as the Village does not have large-scale suburban style office parks or commercial centers within its boundaries, aside from the Garden Market shopping center at 47th Street and Willow Springs Road.

Downtown Western Springs is largely comprised of one- to two-story buildings, both old and new, that share a common design language of red brick, stone, and other traditional, durable materials. The four-story, mixed-use Foxford Station development bookends the eastern edge of downtown at Burlington Avenue and Wolf Road. Though Foxford Station is newer and taller than much of the downtown building stock, the Water Tower remains the largest feature in the downtown area at 112 feet in height, creating an iconic landmark that is visible from many vantage points in the central business district. In addition to the distinct design language of the downtown, longstanding local businesses are fundamental to the downtown Western Springs identity. Downtown mainstay Village True Value Hardware celebrated its 70-year anniversary in 2024 and local businesses, such as Casey's Market, BB's Baby Donuts, Kirschbaum's Bakery, and others remain commercial institutions. These businesses have cultivated a loyal customer base, some of which grew up in Western Springs and return for the familiarity and quality offerings of these classic stores.

Process and Methodology

The Market Assessment employed a holistic approach to understanding national and local real estate trends, customer and business actions and perceptions, and the physical conditions of local commercial space. To gain local insights, the project team conducted 14 stakeholder interviews at the project outset with key businesspeople, property owners, and leaders in the downtown area. An interactive workshop with the Village Board and Village Economic Development Commission (EDC) was held following the interview process to gain their perspective of the downtown. To further understand the benefits and challenges of operating a business downtown, an online survey was prepared, and downtown business owners were invited to respond. Lastly, to learn about community preferences, behaviors, and visions for downtown Western Springs, a consumer survey was posted online for residents and visitors; this survey was advertised through established Village social media channels and outreach practices.

Quantitative data about the Village, surrounding areas, and the downtown were sourced primarily from Esri Business Analyst and Moody's. Esri Business Analyst data is drawn from a variety of datasets, including the US Census Bureau Decennial Census and American Community Survey Five-Year Estimates, Bureau of Labor Statistics Consumer Preference Surveys, MRI-Simmons Preference Surveys, and Esri proprietary projections. Moody's information on local real estate markets is drawn from primary data on local leasing and sales. Aggregated Illinois Department of Revenue sales tax data was reviewed to understand recent trends in sales.

- **Existing Conditions** describe business conditions, qualitative and quantitative background data, interview findings, and performance of the downtown to date.
- **Market Assessment** considers consumer sentiment, market potential, real estate trends, and competitive alignments.
- **Summary** presents findings and includes possible next steps for consideration.

Commercial Fundamentals

The national and regional commercial real estate market is ever-changing, requiring consistent monitoring and adaptation of local policy to keep business districts successful. Recently, these impacts included significant shifts from the COVID-19 pandemic. Downtown businesses, and the Village as a whole, adapted to address that event, and they continue to evaluate operations to maintain a favorable position in the market. The fundamentals of commercial real estate and retail that form the current market realities facing downtown Western Springs are outlined below.

E-commerce is a fact of life. Online retail sales make up an estimated 23% of all retail sales in the United States, with many local and national retailers maintaining an online presence. While e-commerce has not surpassed traditional retail, its market share continues to increase, requiring prospective retailers to employ innovative techniques to compete. Successful retailers offer unique items, convenience, high levels of customer service, and oftentimes offer an online component.

Dining and entertainment are resilient to e-commerce. Experiences, such as entertainment and restaurants, cannot be replicated by e-commerce. The shift from traditional brick-and-mortar retail to experience-focused commercial can be observed in various shopping areas and downtowns across the region. Many have leaned into dining, unique activities, and entertainment-based commercial uses to attract visitors. While this transition is seen in many areas, it may be challenging to fit such uses into the smaller spaces common in historic business districts.

Experiential retail is an emerging and exciting brand of retail. Experiential shopping refers to a retail approach that focuses on creating an immersive and engaging experience for customers, beyond simply purchasing goods. This can involve interactive displays, galleries, showrooms, entertainment, events, or unique environments that appeal to customers' emotions and senses, making the shopping experience more enjoyable and memorable. In real estate, experiential shopping is becoming increasingly important as it helps attract foot traffic to retail spaces, particularly in malls and shopping centers. Experiential retail may be a permanent fixture in a shopping area, like a showroom, or may be a rotating retail offering.

Mixed-use development creates a built-in customer base. Downtowns, shopping centers, and other traditional commercial areas across the nation have employed mixed-use development to increase foot traffic in commercial areas. Mixed-use development often consists of ground floor retail with residential, office, or hospitality uses above, usually within a singular building. On larger sites, horizontal mixed use is more common, with residential, retail, dining, and service uses found side by side with available parking. In suburban communities, mixed-use development also provides diverse housing types, allowing communities to attract and retain empty-nesters, singles, new families, and seniors, each bringing disposable income to support businesses in the immediate area. In established communities like Western Springs, adjacent neighborhoods can be understood as a residential component of the mixed-use district.

Zoning Regulation. Local zoning regulations direct the real estate development that is allowed in a community. They typically designate specific areas for certain types of development or activities, such as residential, commercial, industrial, agricultural, or mixed-use. These laws establish parameters such as building heights, setbacks from property lines, density (how many buildings or units can be developed on a parcel), and the types of businesses or services allowed in each district. By defining these regulations, zoning controls how land is utilized, influencing not only the physical landscape but also the economic structure and overall livability of a community. Understood as a tool to implement local economic development policies, zoning laws must be regularly reviewed and refined to ensure they support community goals and are realistic under current market conditions.

2 EXISTING CONDITIONS

Downtown Business Environment

The physical layout of Western Springs' downtown affects how it is used by patrons. It is generally located along Burlington and Hillgrove Avenues, bisected by the Metra BNSF railroad tracks. As a result, the downtown is relatively narrow from north to south (roughly one block on either side of the tracks at its widest point) and wide from east to west, with commercial land uses present for about eight block faces. While the design and public infrastructure create a highly walkable environment, the long and narrow layout creates a distance between businesses that leads some visitors to drive between destinations, rather than parking once and walking to multiple stops. The layout also precludes the "traditional" downtown retail street, with retail uses fronting both sides of a street.

The downtown is surrounded by low-density single-family residential neighborhoods, parks, and institutions such as Field Park Elementary School and the Western Springs Theater. The historic Water Tower is situated on the north side of the railroad tracks in the center of downtown. These facilities add to an attractive, memorable, and desirable business district. Nearby attractions, like the Cook County Forest Preserves are also potential draws to the community.

As with all suburban business areas, parking is an important need in downtown Western Springs and always being evaluated by businesses and the Village to maximize utility to visitors, commuters, and employees. Diagonal parking spaces on Hillgrove and Burlington Avenues account for much of the public parking in the area, though a number of spaces are restricted for permit-holding commuters; private parking lots exist south of the BMO Bank Building, south of the Heartland Bank & Trust Building, and north of Davanti.

While the business district has low vacancy, desirable businesses, and an attractive environment, the linear form of downtown and its tight proximity to residential uses presents constraints to creating more business space, such as discontinuity of commercial streets, challenging circulation, non-traditional parking locations, and mitigating potential impacts of new development on adjacent residential neighborhoods. Nearby competing downtowns and business areas have

less linear downtowns that allow for a more traditional downtown commercial space and more flexibility for new development and a variety of business types.

Two tax increment financing (TIF) districts are coterminous with the downtown boundaries. These districts follow the Metra BNSF rails along Burlington Avenue; the north TIF district extends from Howard Avenue to the east to Interstate 294 at its westernmost point, the south TIF district is less extensive, ranging from Johnson Avenue to its east to Central Avenue at its west. Revenues generated by these districts help to define the downtown and support its continued development, beautification, and maintenance of its building stock (Figure 1).

Five primary zoning districts are present in the downtown area (excluding districts that underlie parks and public spaces), each of which includes a purpose statement that makes note of the legislative intent of the district designation, its regulations, and its relationship to the community's identity and goals. Zoning districts present in the downtown area are enumerated on the following page, accompanied by their respective purpose statements, and shown in Figure 2.

FIGURE 2

DOWNTOWN ZONING DISTRICTS

Images: Village of Western Springs

Downtown Western Springs Zoning Districts

C1 - Village Center Commercial District
This district constitutes the town center or downtown of Western Springs and is intended to accommodate a range of compatible retail, financial, service, governmental, professional and residential uses in a setting conducive to and safe for pedestrian activity. This district is intended principally for retail commercial uses.

C2 - Community Shopping District
This district is intended to provide for those commercial activities that require locations along arterial or collector streets with larger lots and greater vehicular access.

MXD - Mixed Use Commercial-Residential District
This district is intended to provide opportunities for development of sites with new or rehabilitated buildings that contain a mix of commercial and residential uses. The first floor of such buildings should provide space for commercial, office, retail and service uses that are easily accessible to the public.

O Limited Office District
This district is intended to provide an environment for small office facilities that generate minimal vehicular traffic and require little visibility from the streets on which they are located. It is intended that this district be located principally to function as a buffer between commercial and residential districts. This district must be located adjacent to a commercial district. A single residential dwelling is permitted above the first floor.

R3 – Two-Family Residence District
This district is intended to provide a residential environment for two-family dwellings and shall be located on the fringe of single-family neighborhoods along arterial and collector streets or adjacent to the downtown area. "Two-family units" may be defined either as side-by-side separated by a common wall or stacked units with one unit on top of the other.

An understanding of the potential customers for downtown Western Springs and nearby central districts is provided by comparing the population within a five-minute drive time radius of the downtowns, measured from each community's Metra station. A five-minute drive time is considered typical for customers to purchase convenience goods and everyday items, and much of the radius can be considered a reasonable walking distance. While the five-minute drive time applies to many retail goods, there are unique businesses in the downtown area that draw from across the region such as legacy commercial businesses and acclaimed restaurants and retailers; however, this pattern of consumer behavior is difficult to quantify through drive-time analysis, but these patterns are worthy of acknowledging.

The five-minute drive time radii for Western Springs, La Grange, Hinsdale, and Clarendon Hills are shown in Figure 3 on the following page; it is worth noting that there is considerable overlap between the drive time and adjacent communities, well past established municipal boundaries. Overall population, daytime population, and housing units in the Western Springs area are lower than its neighbors of La Grange and Clarendon Hills, but consistent with Hinsdale. Household income and disposable income are highest in Western Springs and Hinsdale. This is partially explained by the higher proportion of single-family homes within the five-minute drive time of downtown Western Springs and Hinsdale. This comparison is shown in Table 1 on the next page.

TABLE 1: *DEMOGRAPHIC COMPARISON OF WESTERN SPRINGS AND NEARBY DOWNTOWNS (FIVE-MINUTE DRIVE-TIME RADII)*

	2024 Population	2024 Daytime Population	Median Household Income	Housing Units	Disposable Income	Median Age
La Grange	35,916	33,291	$124,664	14,370	$101,524	41.4
Clarendon Hills	25,418	25,044	$124,374	10,242	$101,092	41.0
Hinsdale	18,838	23,979	$200,001	6,445	$162,092	41.1
Western Springs	**20,739**	**23,500**	**$196,174**	**7,391**	**$146,288**	**41.6**

Business Composition

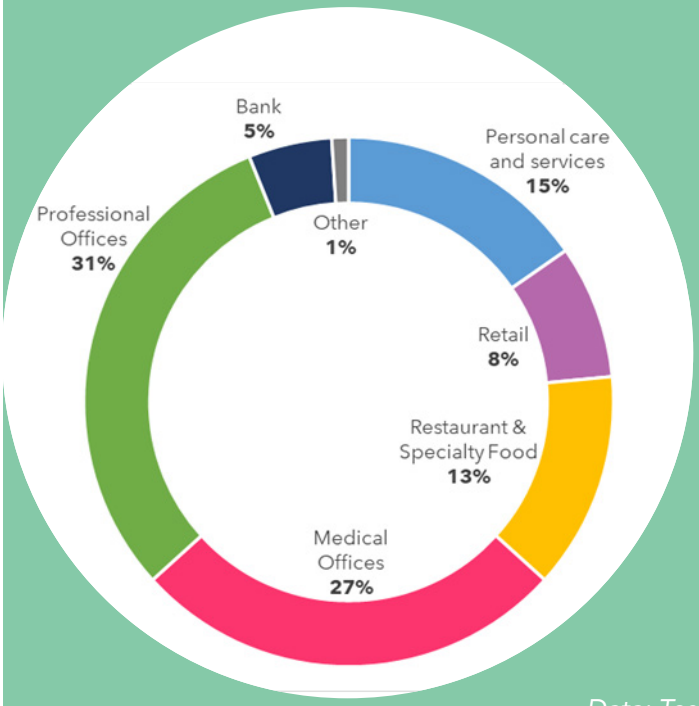
Downtown Western Springs is home to approximately 98 businesses. Just over 20% of these businesses are classified as retail, dining, or food service (21 businesses). Office uses constitute the majority of downtown businesses, with 58% classified as either professional or medical office use (56 businesses). This data was derived through a walking tour to verify and categorize businesses downtown. The categorization and business breakdown from walking tour findings are represented in Figure 4.

Looking closely at the office landscape downtown, there are distinct patterns in how these office spaces are distributed across the area, particularly concerning the use of ground-floor versus upper-floor spaces. Ground-floor office space is a consideration for the area's non-retail businesses, especially for offices seeking visibility and easy client access. While some office users may prefer first floor space, most can be adequately served with upper floors; due to low overall vacancy, prospective office tenants may rent the first available space that meets their size and budget requirements.

Western Springs' zoning code allows for a range of ground floor uses, including offices, on the first floor of buildings downtown. Some suburbs restrict office uses from ground floor spaces in at least a portion of their downtown through zoning, including Clarendon Hills, Hinsdale, and La Grange. In Western Springs, the flexibility in zoning accommodates office uses in a high-demand commercial district with few vacancies. However, ground floor offices can reduce foot traffic in the downtown district compared to traditional retailers using that space and can also limit available space for prospective retailers. Second-floor office space also plays a role in shaping the downtown Western Springs business mix. Professional and medical offices typically are located on the upper floors of mixed-use buildings, providing for quieter, more private settings or more affordable office space options. The availability of second-floor office space offers flexibility for businesses that may not require the foot traffic or visibility of ground-floor locations yet still want to be in a central location within walking distance of downtown amenities.

Among the various businesses operating in the downtown area, 21% (retail, specialty grocers, and food service) are those that typically generate sales tax, as shown in Figure 5. This number is a lower proportion than in 2007 (30%), but the number of businesses remains similar, with 23 businesses in 2007 and 21 in 2024. While other uses, such as banks, offices, and services draw people to the downtown area, sales tax producing businesses are desirable in that they provide revenue to the Village and create destinations within the downtown area.

FIGURE 4: *BUSINESS TYPES IN DOWNTOWN WESTERN SPRINGS*



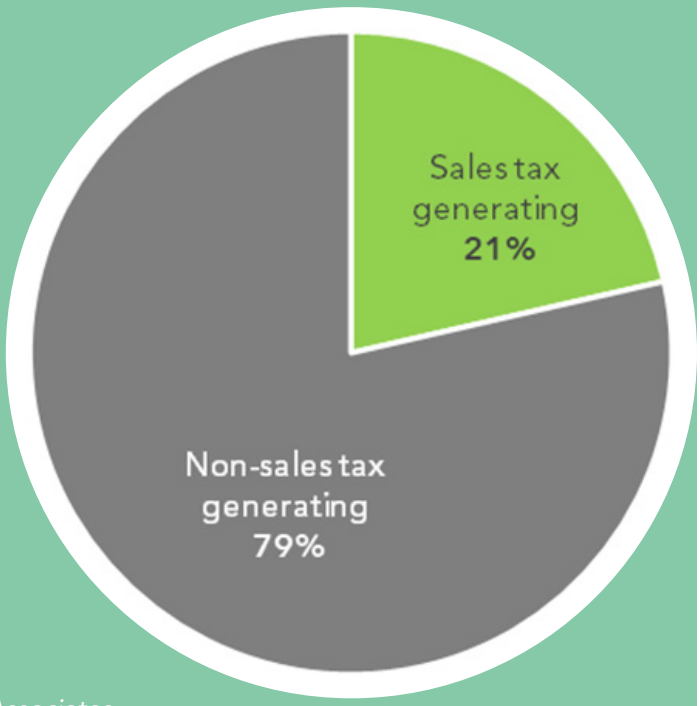


FIGURE 5: *PROPORTION OF SALES-TAX GENERATING BUSINESS IN DOWNTOWN AREA*

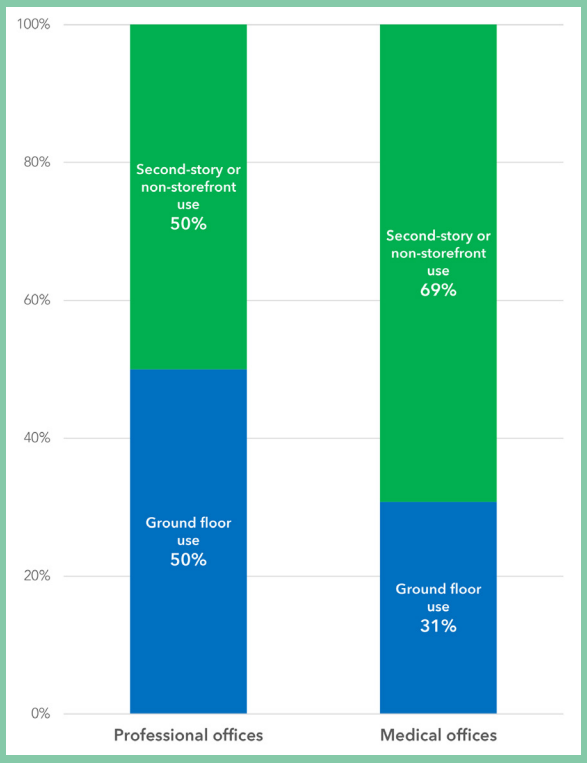


Data: Teska Associates

Office uses currently occupy a large portion of traditional storefront spaces in the downtown area. Medical and professional services are the primary use of the office spaces found in Western Springs. Over a third of medical offices (31%) are ground floor use while the remaining 69% are located on the second-floor level, or situated in a non-storefront property, as shown in Figure 6. Professional offices are divided evenly between ground floor/storefront locations and second floor tenancy. Many of these spaces are in older Class C buildings, which typically are older buildings with limited amenities.

The predominance of Class C office space may also influence business owners' location decisions. The lack of amenities in upper floor spaces may drive offices to storefront locations where these businesses may take advantage of opportunities to alter the storefront appearance to create a more welcoming space for guests, ability to redesign interior space tailored to the activities of the use, comply with the Illinois Accessibility Code, and visibility from the street.

The low level of vacancy in the downtown area is also a notable consideration. Many prospective business owners seeking to obtain space in the downtown area may be less concerned about the type of space rather than the availability of space in general. In other words, "getting into" the downtown district could be more important than "finding the perfect space" for some.

FIGURE 6: *PROPORTION OF GROUND FLOOR MEDICAL AND PROFESSIONAL OFFICES*

Data: Teska Associates

Retail Sales

In 2023, downtown Western Springs accounted for about 25% of all sales tax-generating sales in the Village. Much of the sales tax in the community can be attributed to high volume sales at larger chain stores outside of downtown. Total downtown sales were roughly $29.5 million in 2023; of that, about 37% of all downtown sales were at downtown restaurants. Other tax-generating sales in the downtown area can be attributed to traditional retail, grocers, and occasional sales of devices at medical offices. These figures are presented in Table 2.

Sales in Western Springs increased slightly from 2022 to 2023 (based on data available from the Illinois Department of Revenue). Dining sales in the downtown area experienced a most dramatic increase between 2022 and 2023 (18% increase), potentially the result of increased public comfort with in-person interactions after the pandemic and/or the restaurants' adaptability to a new environment for restaurants. Non-dining sales downtown essentially remained flat, decreasing slightly during that same period. These data reflect the increasing popularity of dining downtown.

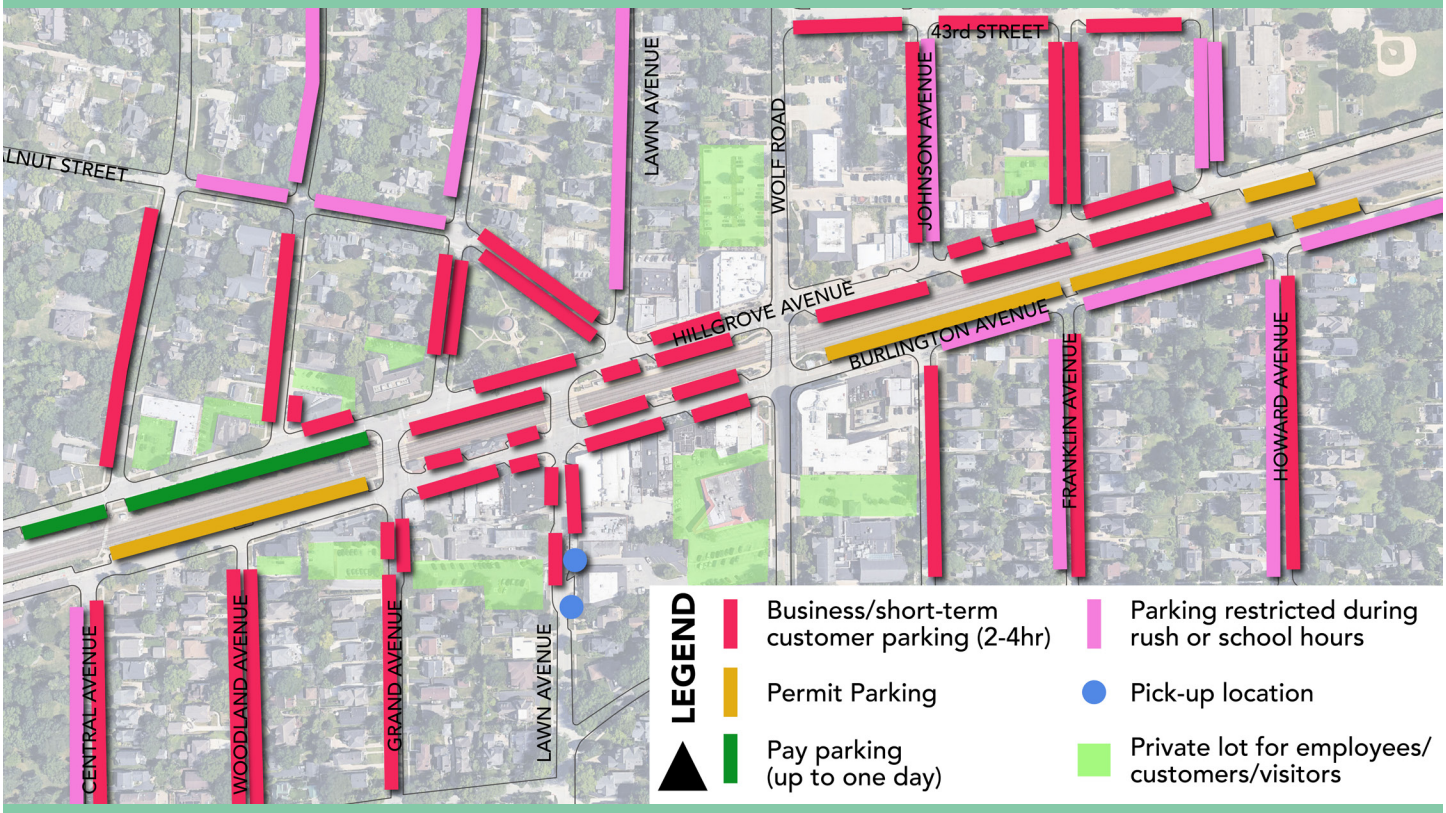
TABLE 2: *VILLAGE AND DOWNTOWN PHYSICAL RETAIL SALES**

	2022 Total Sales	2023 Total Sales	Percent Change
Village-wide Sales	$115,284,090	$117,114,175	+2%
Downtown Sales	**$28,584,464**	**$29,546,205**	**+3%**
Downtown Dining	$9,345,866	$11,017,230	+18%
Downtown Other	$19,238,598	$18,528,975	-4%

Data: Illinois Department of Revenue
**Sales figures do not include online sales*

Village Parking

Permit parking spaces are located along the Metra tracks and in other portions in and near the downtown; these spaces are intended for commuter or employee parking, other spaces are available for downtown customers. The Village controls these spaces through distribution of permits. Despite a significant drop-in activity during the COVID-19 pandemic, the number of Village parking permits downtown has remained relatively stable between 2017 and 2024. 2019 saw the highest number of parking permits issued and 2021 was the lowest (Table 3). The number of parking permits issued has gradually increased toward pre pandemic levels; this signals increasing demand for commuter parking, increasing instances of downtown workers commuting by car, or a combination of the two.



Feedback from business owners has generally signaled satisfaction with the quantity of employee and commuter spaces in the downtown area. Parking available for customers, however, was a concern for some business owners. Roughly three-quarters of responses to the customer survey believed parking in the downtown district to be "average" or better. Figure 7 shows parking options in downtown Western Springs.

TABLE 3: *DOWNTOWN PARKING PERMITS ISSUED*

	2017	2018	2019	2020	2021	2022	2023	2024

Data: Village of Western Springs

Strengths, Weaknesses, Opportunities, Challenges

Stakeholder interviews and online surveys provided deeper understanding of the downtown business environment. The Strengths, Weaknesses, Opportunities, and Challenges (SWOC) list below, derived from that input and the consultant team's observations, summarize what aspects of downtown Western Springs are advantages to be built upon and what are areas for possible enhancement.

Strengths:

- High incomes in Western Springs support downtown businesses
- Connectivity to and visibility from the Metra BNSF Line and Wolf Road
- Proximity to Interstate 294
- Longstanding businesses with deep connections to the community
- Presence of legacy businesses (bakeries, delis, restaurants, hardware stores) that can draw repeat customers
- Loyal customer base, some of whom grew up in the community and either still live in Western Springs or return for familiar businesses
- On-premises business owners that foster a personal connection with customers
- Historic architecture and attractive streetscaping
- Office and service businesses that draw potential customers to the area
- Village provided support for continued building maintenance, streetscape enhancement, and new development

Weaknesses:

- High levels of ground floor offices that can disrupt foot traffic
- Parking challenges balancing customer, employee, and commuter parking (real and perceived)
- Proximity to larger downtowns in La Grange and Hinsdale with more dining, entertainment, and shopping options
- Limited hours of operation for many businesses
- Older interior spaces requiring regular maintenance and upkeep
- Basement flooding in certain commercial structures due to downtown's location near historic springs
- Commuters often move through downtown without stopping at businesses
- Low population density surrounding the downtown
- Lack of quick serve dining options

Opportunities:

- Interest for more entertainment uses
- Wayfinding signage to communicate parking areas
- Secondary market attraction to retail development
- Western Springs Business Association (WSBA) is refocusing its goals and purpose
- Joint marketing efforts with businesses
- Recent and continued downtown beautification
- Continued downtown event programming
- Mixed-use development to add residents, retail and office space
- Quick-serve breakfast options to cater to commuters and locals
- Expand branding to reflect historic, small town, walkable identity

Challenges:

- External impact on business owners, such as State/ County taxes, cost of labor, rising supply costs
- Limited space to increase diversity in dining options
- Customers' tendency to drive between downtown stores, rather than walk, reducing downtown foot traffic
- Keeping the scale of new development in the district from overwhelming existing character
- Lack of vacant storefronts for new businesses to find space

Existing Conditions Summary

- The existing physical form of downtown Western Springs has its business district conveniently located near commuter rail and the core of the community. However, its long and narrow format creates challenges for expanding the space for additional businesses and makes parking less convenient.
- Loyal customer base, high incomes of the area residents, and high-quality customer services of downtown business, are considered by businesses and customers alike to be significant strengths of downtown commerce.
- Office space downtown is largely Class C, creating affordable office stock for a range of users. This creates a desirable office market and office users are quick to lease upper floor space and available storefronts.
- Restaurant spending in the downtown area jumped by nearly 20% from 2022 to 2023, signaling a potential demand for experiential businesses downtown.

3 MARKET ASSESSMENT

Exploring Comparable Towns

To provide a meaningful comparison of downtown Western Springs and competitively aligned business areas, neighboring districts were identified based on proximity, market characteristics, and the nature of their downtown areas. The most relevant areas are downtowns in La Grange, Hinsdale, and Clarendon Hills. This competitive alignment was selected to explore locations that share similar demographics, are geographically close, or serve as potential alternatives for visitors or customers to Western Springs, while also offering contrasting attributes that highlight the unique aspects of the Western Springs community.

La Grange and Hinsdale are larger business districts with a wider variety of retail and service offerings, serving a broader customer base. Clarendon Hills, while smaller, still provides an interesting contrast due to its business mix and proximity to Western Springs. Each of these towns differs from downtown Western Springs in terms of business density, parking availability, and overall size. Despite competitively aligned downtowns' differing business mix and scale, Western Springs remains competitive with these areas in attracting new businesses and investment. By comparing these areas, a better understanding of how Western Springs stands apart and how to capitalize on its strengths emerges. A map locating the comparable downtowns is shown in Figure 8.

FIGURE 8: *DOWNTOWN WESTERN SPRINGS AND COMPETITIVELY-ALIGNED DOWNTOWNS*

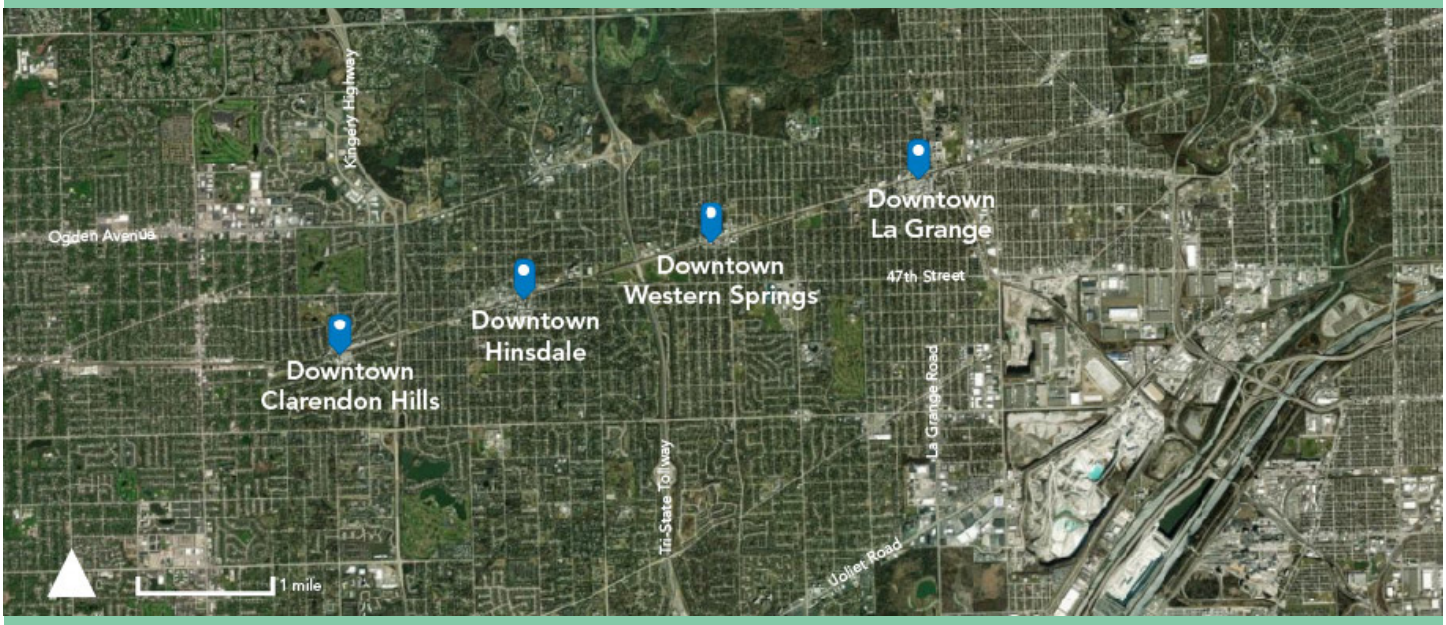

Image: Esri Business Analyst

Competitive Alignment

A key question in the Market Assessment is to understand how downtown Western Springs compares to and competes with other areas where its potential visitors may shop, dine, or use services. Each of these areas presents clear differences to Western Springs. Therefore, a one-to-one comparison of retail square footage, vehicle traffic, number of restaurants is an apple to oranges analysis and not an appropriate approach. It also would not consider the unique characteristics of the business areas. Ultimately, the Village's goal is to make downtown Western Springs the best downtown Western Springs it can be, not to mimic the policies or development strategies of adjacent downtowns. Nonetheless, comparisons can show relative strengths and opportunities for enhancement in downtown Western Springs and certain takeaways from other communities can be applied to the Village, where applicable; those are considered in this section of the Assessment. Brief reasoning behind the selection of comparable communities is noted below.

- **Clarendon Hills** is a comparably sized downtown located along the same Metra service line. Stakeholder interviews revealed that downtown Western Springs businesses draw customers from Clarendon Hills, and the environment and feel of the downtowns is considered similar.
- **Hinsdale** and **La Grange** present similar characteristics in regard to competitive alignment. Each of these neighboring communities has a downtown larger than Western Springs, though Western Springs remains competitive for attracting businesses and stakeholder interviews pointed to both as the Village's primary competition. Each has the advantage of a large commercial presence and a variety of dining and business options that attract customers. The consumer survey indicated that visitors preferred the variety of stores and dining options in these downtowns.

The data provided in this section are derived from the Esri index, a widely recognized tool used to analyze consumer behavior and demographics. Specifically, the Esri index in this context measures the likelihood of residents within a certain area to engage in specific activities, such as dining at restaurants or other food service establishments. Esri compiles this data from a combination of consumer behavior research, the MRI-Simmons Consumer Survey, and other sources that track spending patterns, preferences, and lifestyle activities. The MRI-Simmons Consumer Survey provides detailed information about U.S. consumer behaviors based on a broad range of variables.

Within this section, consumer behaviors are examined on a five-minute drive time basis from each community's Metra station, representing the "market" of the downtown area, as five minutes is considered a typical driving time for convenience goods. Downtown businesses are examined on a five-minute walk time basis from each community's Metra station, as this radius captures the vast majority of businesses in Western Springs' and comparable communities' downtown areas.

In 2024, downtown Western Springs' five-minute drive time market stands out as a strong customer base for its downtown. Residents within this market area average more meals at restaurants than residents of its peer communities except Hinsdale. According to the Esri restaurant index, the Western Springs market scores a 229, indicating that residents are 2.29 times more likely to visit a restaurant than the average American (100 is the baseline) per MRI Simmons Consumer Surveys, shown in Figure 9. However, it has the fewest food service/drinking establishments among comparable downtowns with only seven, and the second-lowest total number of businesses at 123 (Figure 10*). In comparison, downtown La Grange has 38 food service/drinking establishments and a relatively moderate meals index of 160, but it has a significantly higher number of total businesses (444). Hinsdale has 19 food service/drinking establishments and the highest meals index of 289, Hinsdale also has a large business presence (353 total businesses), making it the most active location overall in terms of both food service establishments and total businesses. Clarendon Hills has five food service/drinking establishments, a meals index of 202, and the smallest business base with only 79 total businesses. Overall Western Springs scores high in regard to the meals index, suggesting a strong market for dining and food away from home. However, its relatively low number of businesses and establishments compared to Hinsdale and La Grange suggest that some potential Western Springs diners are going to the other locations and that there can be capacity for more dining options in Western Springs. (Figure 11).

FIGURE 9 (left)

MEALS INDEX (five-minute drive time)

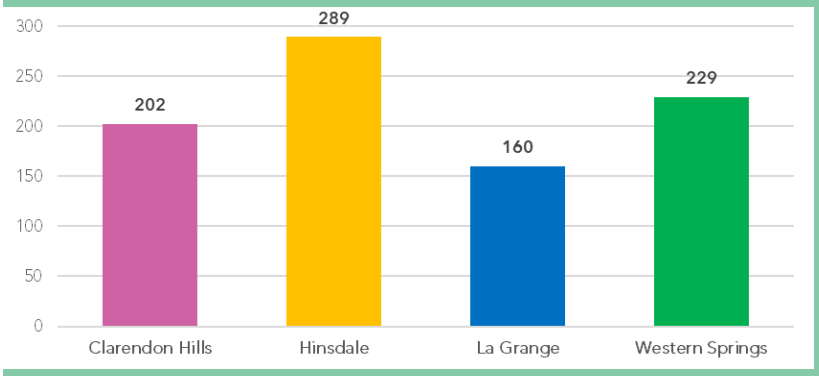

FIGURE 10 (right)

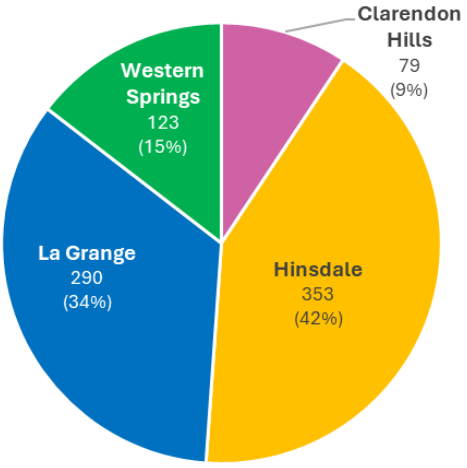
DOWNTOWN BUSINESSES COUNTS (five-minute walk time)



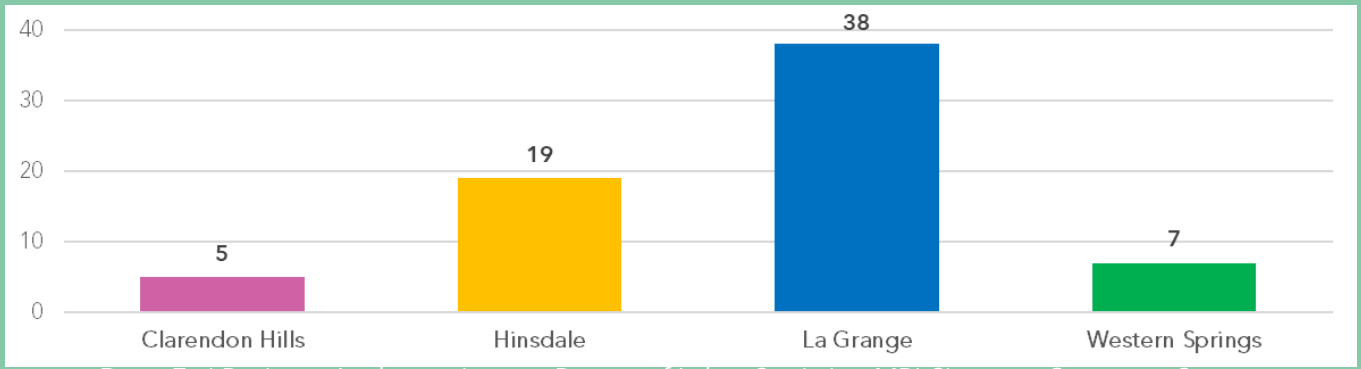


FIGURE 11: *DOWNTOWN RESTAURANT/FOOD SERVICE BUSINESSES (five-minute walk time)*

Data: Esri Business Analyst estimates, Bureau of Labor Statistics, MRI-Simmons Consumer Surveys

**Note: Esri business categorization includes home businesses and other less-traditional business uses*

Western Springs' strong meals index reflects the number of dining options in the community and in surrounding business districts. The efficiency of Western Springs' smaller but high-demand food service sector is more nuanced when compared to larger downtown areas. While larger districts may offer a wider variety of food businesses, the sheer concentration of restaurants in Western Springs may work to attract more customers who are specifically drawn to the area for dining. In larger districts, like La Grange, customers may choose to go there for lunch and then decide where to eat once they arrive, which spreads customer traffic across a broader range of establishments. In contrast, Western Springs' more concentrated food service sector fosters a situation where people are more likely to visit the area for a specific dining option. The quality of local dining options in Western Springs is a large part of what helps to ensure strong engagement with each establishment. Based on interviews, downtown Western Springs appears to be approaching the level of attraction seen in the larger downtowns, creating a similar draw where customers are motivated to visit its downtown for a focused, high-demand dining experience; this finding is supported by the community survey wherein a majority of respondents cited dining as a factor for why they visit downtown.

The availability of parking plays a role in competitive alignment. Areas where suburban visitors feel they can more easily park will have an advantage. As noted in interviews with local business owners, parking remains a challenge in the area, with perception that it has worsened in recent years. The limited parking availability, exacerbated by commuter/long-term parking spaces, has become a barrier (real and perceived) to potential customers and additional foot traffic. Parking was not cited as an advantage for competitively-aligned downtowns, and the parking situation in Hinsdale was noted as more challenging; however, Hinsdale and La Grange have prominent public and private garages and lots which can improve the perception of parking availability.

What makes downtown Western Springs distinctive is its loyal customer base and charming atmosphere, which contribute to its unique appeal. While hard to quantify, the frequency with which this characteristic was raised in conversations is notable. Per stakeholder findings, business owners note the community's strong sense of connection, and the success of local shops are key factors that contribute to the town's retail resilience. This highlights the value of fostering long-term relationships and the advantages to the Village of strategic succession planning, ensuring the continued presence of downtown businesses that are beloved by the community.

In terms of business activity, Western Springs may have a smaller overall business base, but its strength lies in the deep loyalty of its community. This loyalty, coupled with relatively higher income levels, helps sustain the downtown area despite its small size, non-traditional parking, and unconventional layout and street presence with office spaces mixed in. Unlike larger commercial districts that benefit from more competition and diversification, Western Springs thrives because of the strong, consistent support from its highly engaged and loyal customer base. Downtown Western Springs' resilience comes from the commitment of local residents and their continued patronage, not from trying to match the size or number of businesses in other areas. Understanding and supporting these strengths is critical for maintaining the vitality of downtown Western Springs and growing the district in a manner that reflects community priorities.

Competitive Alignment

Primary data collected from customers and business is as valuable to the Market Assessment as third-party quantitative data. To capture and understand public sentiment and shopping patterns, an online survey was conducted regarding the use and opinion of downtown Western Springs and surrounding areas. The customer survey was paired with a business owner survey that helped provide understanding of the realities of running a business and to find overlap between business and customer goals. Primary findings of these surveys are summarized below, with the full survey results provided in the appendix to this report.

Customer Survey

174 participants responded to the downtown Western Springs Customer Survey in the months of November and December 2024 (a sizable response for this type of survey). The intent of the survey was to understand what draws people to the downtown area and what sort of improvements would attract new users and keep people coming back more often. Nearly all the survey respondents were Village residents.

- For survey respondents, Western Springs was the most commonly visited business district among regional competitors (Oakbrook, downtown La Grange, Burr Ridge Town Center, etc.), with over 90% of respondents making at least a few purchases monthly within the district. Garden Market was the second most popular. Even with regional competition like the Quarry in Countryside or neighboring downtowns, this presents evidence that residents prefer to support businesses within the boundaries of Western Springs.

- Downtown Western Springs and downtown La Grange were the most commonly visited dining areas among respondents, while Garden Market, downtown Western Springs, and the internet were the most common locations for shopping generally. This suggests that downtown Western Springs is already capturing the spending of many of its residents.

- Dining was selected by 76% of respondents as a reason they visit downtown Western Springs, and shopping was cited as a reason by 71% of respondents. Events (44%) and commuting (27%) were also notable draws, shown in Figure 12.

- Variety and quality of goods and dining options are important to survey respondents and was frequently mentioned as a reason why they elect to shop or dine elsewhere. This is in keeping with qualitative feedback heard from stakeholder interviews about larger nearby downtowns attracting customers due to a broader range of businesses. Hours of business operation and parking were also listed among the reasons why respondents decided to dine elsewhere. This is depicted in Figure 13.
  - Increased variety of dining and shopping options may capture more resident spending that currently leaks into neighboring communities. Over half of the survey respondents said they would spend more time in the downtown area with the addition of more casual and sit-down restaurants, entertainment options, taverns or breweries, specialty food stores, coffee shops, cafes, and convenience items. Over half of respondents also stated that they would visit local restaurants more often if they had longer hours of operation.

- An open-ended question asking for additional comments about the downtown area garnered many responses wishing for a breakfast restaurant downtown to fill the gap left by the closing of Hash Stacks. The lack of a quick-serve breakfast business in the downtown area was also noted as a restaurant gap (and potential opportunity) in stakeholder interviews.

- Despite a desire for longer hours of business operation, nearly half (48%) of respondents noted that daytime (10am-5pm) was the most convenient time for them to shop. Saturday received the second most responses at 26%. With most downtown businesses open during the day on weekdays and on Saturdays, downtown Western Springs generally caters to the preferences of 75% of survey participants in regard to hours of operation. With flexible post-pandemic work schedules, it is not possible to determine whether business hours meet consumer preference or consumers have adapted to existing business hours. (Figure 14).

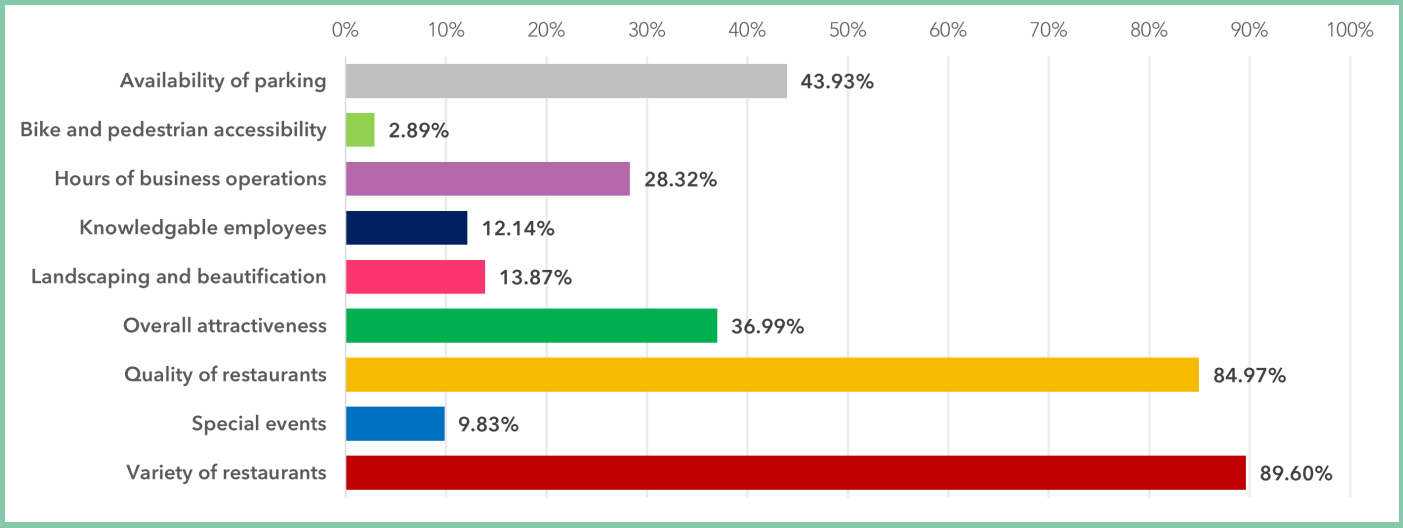

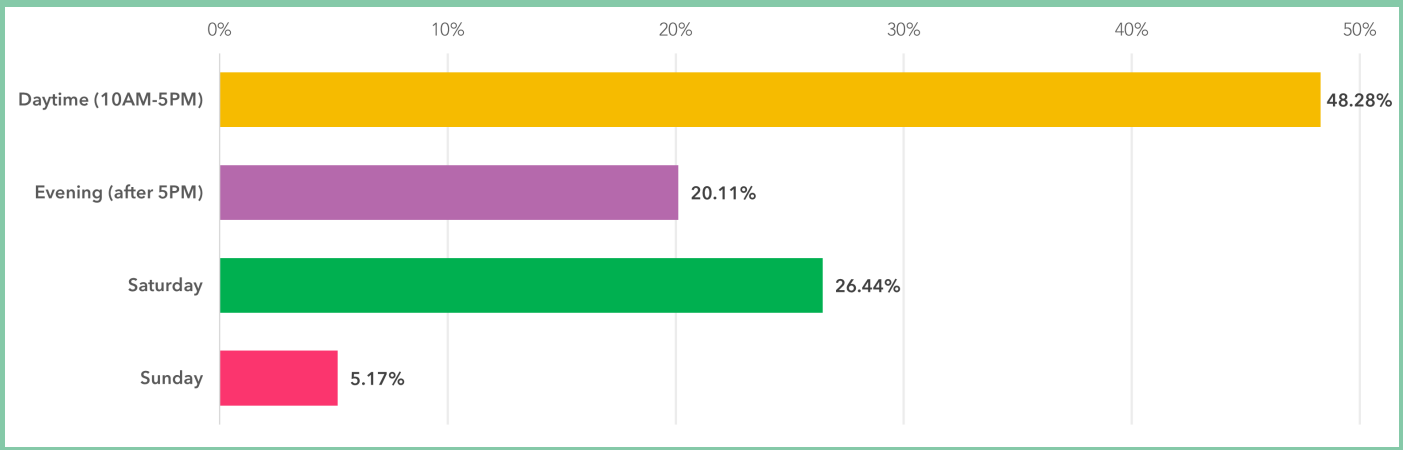

FIGURE 14: *SHOPPING PREFERENCES BY TIME AND DAY OF THE WEEK*

Data: Customer survey data

Business Owner Survey

Though responses to the business owner survey were limited, responses largely echoed the sentiments expressed at stakeholder interviews (12 responses were received). Many of the positive attributes of the Village, such as loyal customers, safety, and community involvement, were acknowledged in the survey:

- Western Springs was chosen as a place for business because it was close to home; many business owners are Village residents or live nearby and other adjacent suburbs were contemplated by business owners.
- Business owners characterize the community as welcoming, accessible, and sporting a loyal customer base. These reasons were also cited as why they moved to the community as an individual or family, later starting a business.
- Safety, community events, beautification, and a cooperative business environment were generally considered at least "above average" by the majority of respondents.
- Parking availability and the need for a wider variety of stores and restaurants were selected as concerns that business owners heard from their customers.

Retail Market Potential

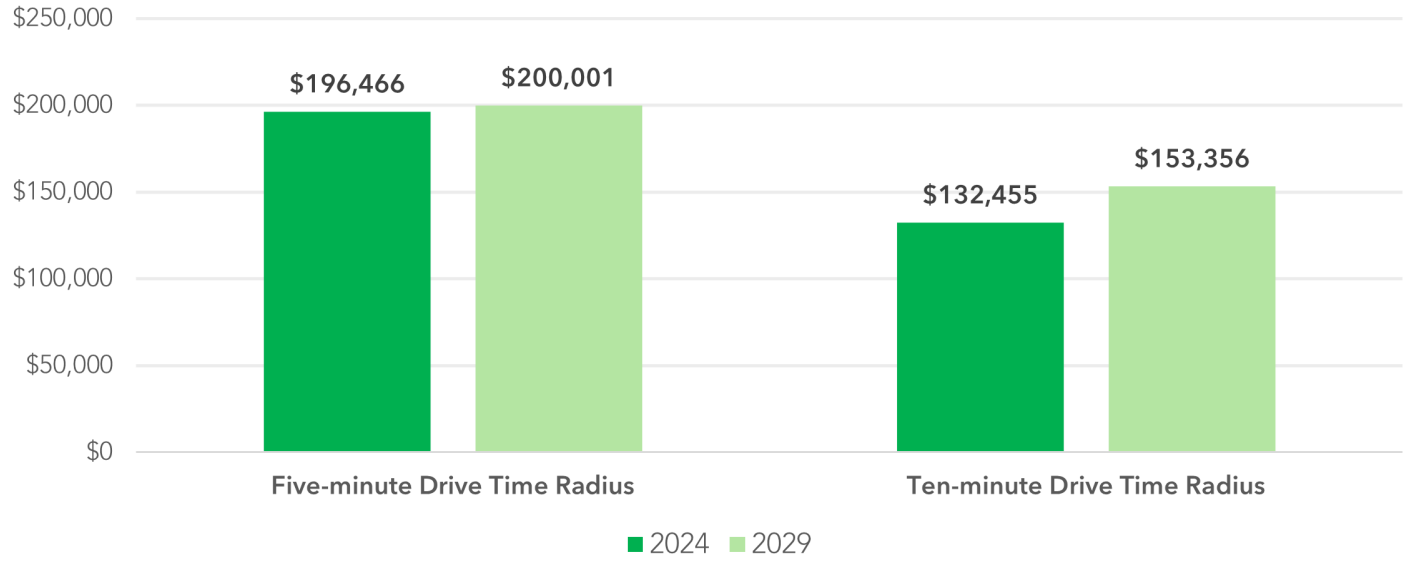
The market potential in Western Springs is most clearly observed within the five- and ten-minute drive-time radius from the Metra station, which serves as a common central point for the downtown area. These radii are used to analyze the local consumer base and determine the economic stability and spending power of the population that can easily access the downtown. Retail spending growth is analyzed at the five-minute drive time level, which is typical travel time for convenience goods, and generally also a walkable distance. A ten-minute drive time represents the consumer habits and demographics of potential customers the Village may attract but may not capture due to competition with other business districts at a similar driving time. For example, a resident in the northern portion of the Village would likely choose downtown Western Springs for convenience goods, but for specialty goods, one may choose to travel farther than five minutes, which opens up different downtowns and commercial centers with which downtown Western Springs must compete at the ten-minute drive time.

The five-minute drive-time radius from downtown Western Springs shows particularly strong indicators, with a median household income of $196,466 in 2024, projected to increase to $200,001 by 2029. This high level of income provides a foundation for retail, services, and luxury goods, suggesting that businesses targeting such households can be positioned to succeed. Similarly, the ten-minute drive-time radius, which expands the market reach, also reveals a robust median household income of $132,455 in 2024, with an increase to $153,356 by 2029. This demonstrates a broader, and still higher-income, customer base, further highlighting the area's economic stability and strong consumer spending power. Figure 15 highlights these findings.

Demographically, the five-minute radius shows a stable population, with a slight decline from 20,859 people in 2024 to 20,163 by 2029, along with a small reduction in households and the population aged 18 and older. Despite this fluctuation, the relatively high household count indicates a steady local residential market. Similarly, the ten-minute radius shows a more populous area, with a slight decrease in population from 99,660 in 2024 to 96,514 in 2029, along with a small dip in number of households. Although these numbers reflect modest declines, they are not indicative of a larger trend of instability, which can be seen in Figure 16. The consistency in population and household income is important because it aligns with qualitative insights from stakeholder interviews, which highlighted that Western Springs retains strong consumer loyalty, driven by high-

quality customer service, owner involvement, and a tight-knit community atmosphere. This connection between demographic stability and the qualitative feedback from local business owners reinforces the idea that the area continues to provide a strong customer base, especially for businesses offering premium goods and services. The data and feedback together paint a consistent picture of an economically stable market.

FIGURE 15: *MEDIAN HOUSEHOLD INCOME (five- and ten-minute drive time radii from Western Springs)*



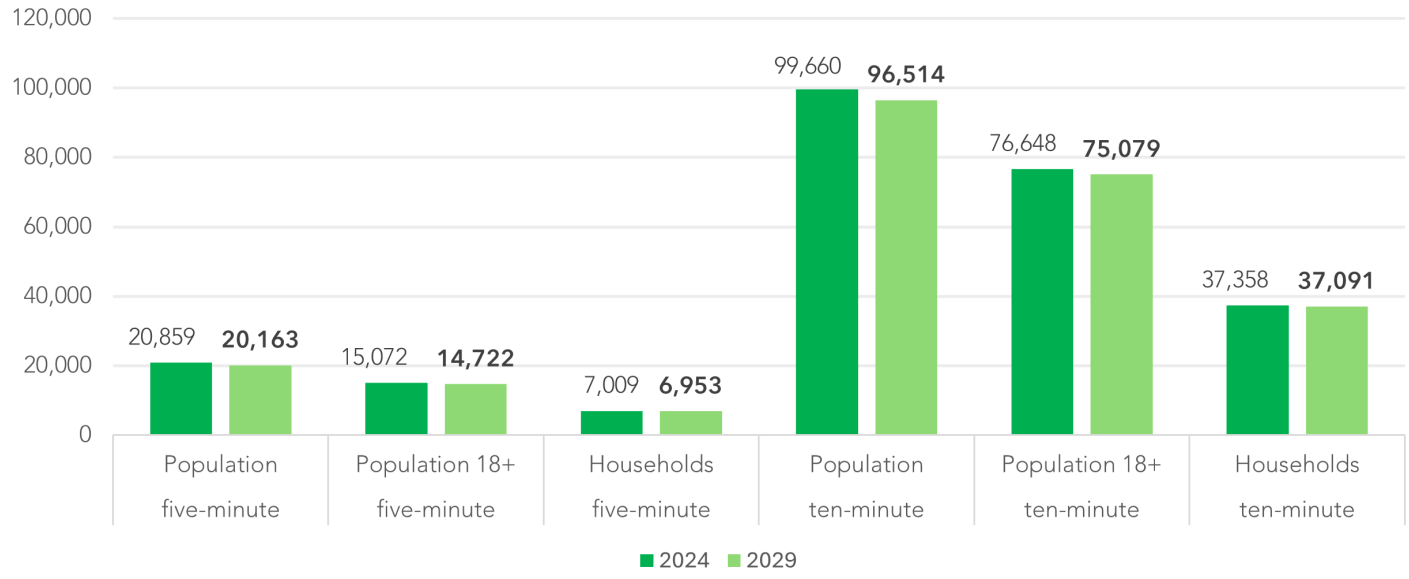


FIGURE 16: *DEMOGRAPHIC SNAPSHOT (five- and ten-minute drive time radii from Western Springs)*

Data: Esri Business Analyst 2024, US Census Bureau ACS (2018-2023) Five-year Estimates

Based on Esri analysis of American Community Survey & Bureau of Labor of Statistics (ACS & BLS, respectively) data, the retail potential of downtown Western Springs is promising, particularly in the areas of apparel, entertainment, and food, based on consumer spending data from 2024 to 2029. The projected demand for these sectors shows steady growth, signaling a positive retail outlook for the region; projected demand is shown in Figures 17, 18, 19, and 20.

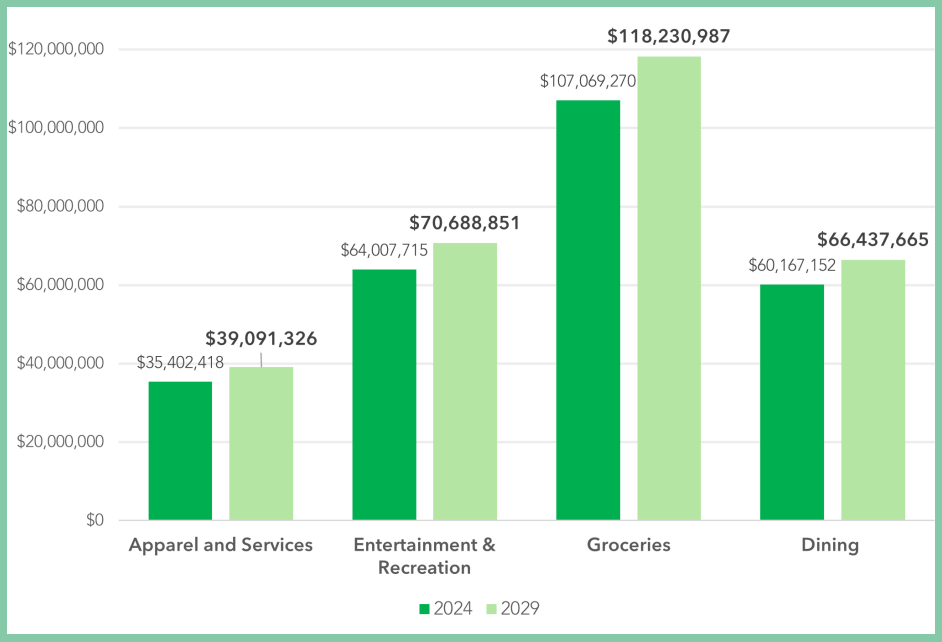
At a five-minute drive time, the apparel and services sector, consumer spending is expected to grow by approximately $3.7 million, from $35.4 million in 2024 to $39.1 million by 2029. This growth rate aligns with the 10% projected increase over the five years, suggesting a stable and expanding market for clothing, accessories, and related services. Entertainment and recreation spending is expected to grow at a similar rate with a $6.7 million increase from 2024 to 2029, grocery spending is expected to grow by $11.2 million and dining spending is expected to grow by $6.3 million. These figures signify a healthy and growing market for traditional downtown retail goods; however, the Village can also pursue capturing spending at a ten-minute drive time. Though this drive-time radius presents more competition for the Village, Western Springs can endeavor to introduce new commercial offerings downtown and attract prospective customers from outside the Village.

The ten-minute drive time radius mirrors the trends and projected growth of the five-minute drive time radius; however, planning for this increase in spending at a subregional level will allow the Village to pursue business types that can take a portion of this projected growth. Based on a ten-minute drive time, the apparel and services sector, consumer spending is expected to grow by approximately $16.7 million. This growth rate mirrors the projections for the smaller five-minute drive time radius. Given the relatively high median household incomes in the area, there is an opportunity for both mid-range and premium apparel retailers to meet the demands of local consumers. While national retailers will likely choose to move to more established premium commercial areas like Oakbrook Center, local entrepreneurs can meet the local demand with locally focused boutiques, in keeping with the small business nature of the downtown area.

The entertainment and recreation sectors are other areas with growth potential. Consumer spending is forecasted to increase by about $30.1 million, from $258.4 million in 2024 to $288.5 million by 2029. This growth highlights an expanding appetite for entertainment services such as movie theaters, recreational facilities, music venues, and leisure activities. The 10.4% increase in spending over the five-year period signals a sustained interest in recreational experiences, making it an attractive sector for both local businesses and larger entertainment brands. The Opry in downtown Western Springs serves as an example of entertainment-oriented small businesses; however, spatial constraints in the downtown may limit the scale and type of entertainment there.

The food sector shows the largest forecasted growth, with consumer spending projected to increase by $79.6 million, from $683.7 million in 2024 to $763.3 million in 2029; comprised of a $51.2 million increase in grocery spending and $28.3 increase in spending on dining and food away from the home. The consistent 10.4% increase in food spending points to a strong and growing demand for dining establishments, grocery stores, and other food-related services. This is a critical sector for the region, driven by the area's higher income population and local demand for dining out and purchasing food products. Importantly, restaurants, specialty grocers, and other food service operations are flexible and have shown the ability to be accommodated within the older, smaller storefront spaces already present in downtown Western Springs.

FIGURE 17: *PROJECTED SPENDING GROWTH (five-minute drive time from Western Springs Metra)*



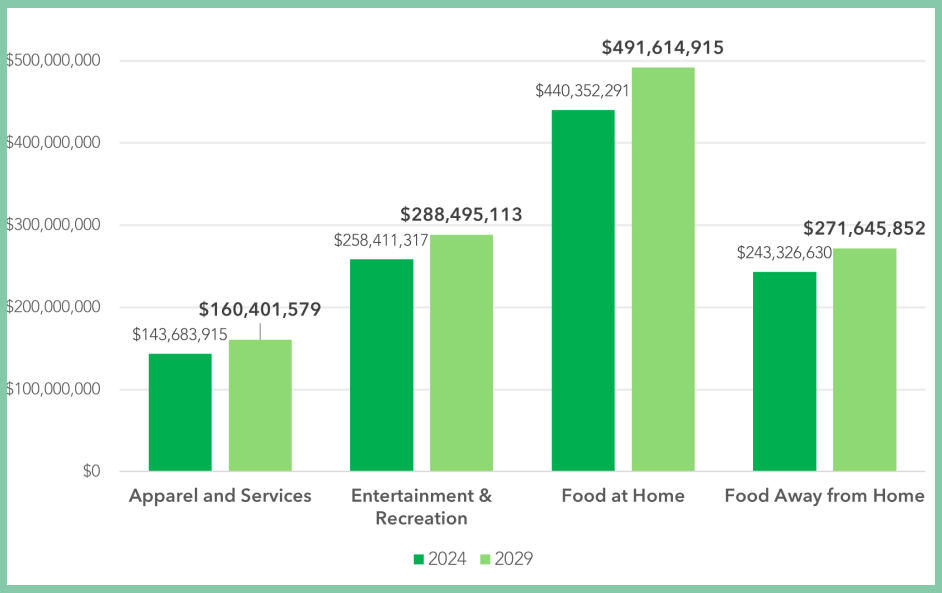


FIGURE 18: *PROJECTED SPENDING GROWTH (ten-minute drive time from Western Springs Metra)*

Data: Esri, Bureau of Labor Statistics, MRI Simmons Consumer Surveys 2024

Overall, Western Springs presents healthy retail potential across key sectors, driven by consistent spending growth and a higher income, steady population. The favorable demographic trends support this potential, particularly in food, entertainment, and apparel and sustained demand. In keeping with this information, local restaurant owners have shared positive feedback about the business environment, noting a desire for more dining options to attract additional traffic to the area. This aligns with customer and business owner interest in expanding the culinary offerings in Western Springs.

On balance, this demand is tempered by the limited availability of retail space, parking configurations, and challenges related to accessibility, which are factors that can impact the ability to fully capitalize on the area's potential. While there is clear demand for more businesses, particularly in food service, the lack of space for new stores, non-traditional customer parking, and challenges with foot traffic and access stand as ongoing challenges to the area's retail success. Survey data highlights the importance of adding more retail offerings, as when customers were asked about their preferences for choosing grocery and specialty food stores, variety of goods available was rated the highest priority. Availability of parking was also considered a factor in choosing where to shop. These findings highlight the challenge of balancing demand with infrastructure limitations. Striking a balance between fostering growth in retail and service sectors, while continuing to address these physical constraints, will be needed to make downtown Western Springs the best version of itself.

Retail Market Potential

Rent, vacancy, and market insights are sourced from Moody's Analytics, a leading provider of economic, financial, and market data, along with comprehensive analysis and forecasting tools. To better understand the office market dynamics in Western Springs, it's necessary to define several key terms: "Subject Property Rent," "Comp Group Rent," and "West Rent" that are applied in Figures 20 and 21.

The **Subject Property Rent** refers to the rental rates of a specific office property under analysis—in this case, the Berkshire Hathaway and Edward Jones office on Hillgrove Avenue, which serves as a geographic focal point for the study of Western Springs' office market. This property is strategically located at or near the center of downtown Western Springs, making it a representative example of the area's office rental market.

Comp Group Rent compares the rent levels and vacancy trends for typical office spaces in Western Springs to those in nearby areas such as La Grange, Hinsdale, and Clarendon Hills. By examining rental rates and vacancy data across these comparable communities, how Western Springs' office market stands in relation to its neighbors and whether it is more competitive or faces challenges in terms of pricing and demand can be better understood.

West Rent encompasses the broader submarket (**West**) in which Western Springs is located, which includes surrounding suburbs and villages. This data is used to analyze the overall office rental trends within a larger geographical region, capturing a wider scope of economic conditions, demand, and availability across neighboring areas. Understanding "West Rent" helps contextualize Western Springs within a larger market area, providing insight into regional trends that might influence office rent and vacancy rates locally. Submarkets vary based on real estate product, and Western Springs is located in the **Near West** submarket for retail.

Office

According to aggregate real estate data, the asking rent for office space in Western Springs is listed at $19.97 per square foot in 2024, compared to an average of $18.62 per square foot in the Comp Group (La Grange, Hinsdale, and surrounding areas). In contrast, the submarket Western Springs is in had a higher asking rent of $24.66 per square foot. This suggests that office spaces in Western Springs are more affordable than those in the West Suburban market; this is likely a function of Western Springs' older office stock in comparison to newer, high amenity offices found in suburban office parks and along interstates. The higher rent in Western Springs reflects stronger demand for office space in the downtown area compared to its neighbors, which is driven by the limited supply of office spaces. The difference in rent is indicative of the demand for space in the area, where businesses are willing to pay a premium to secure office locations in the vibrant downtown environment.

Western Springs' office market is reflective of national and regional trends in the wake of the COVID-19 pandemic. High office space vacancy rate remains a major issue in the U.S. post-pandemic, with the trend of remote and hybrid work reducing demand for traditional office spaces. Western Springs resides in a market that has a high office vacancy rate of 25.4%, depicted below by the West Vacancy line. This reflects reduced demand as many businesses have shifted to remote or hybrid work models, which significantly lowers the need for physical office spaces. Suburban areas also face unique challenges, as they often rely on small and older offices in small-to-medium-sized buildings that are more vulnerable to economic downturns. The low vacancy rate and higher rent in downtown Western Springs stands in contrast to that economic trend. Additionally, companies are increasingly opting for central urban locations or flexible office spaces, leaving suburban offices struggling to fill vacancies. In Chicago, the vacancy rate is slightly lower at 19% but still signals significant challenges for the office market overall. Figure 21 on the following page highlights these trends.

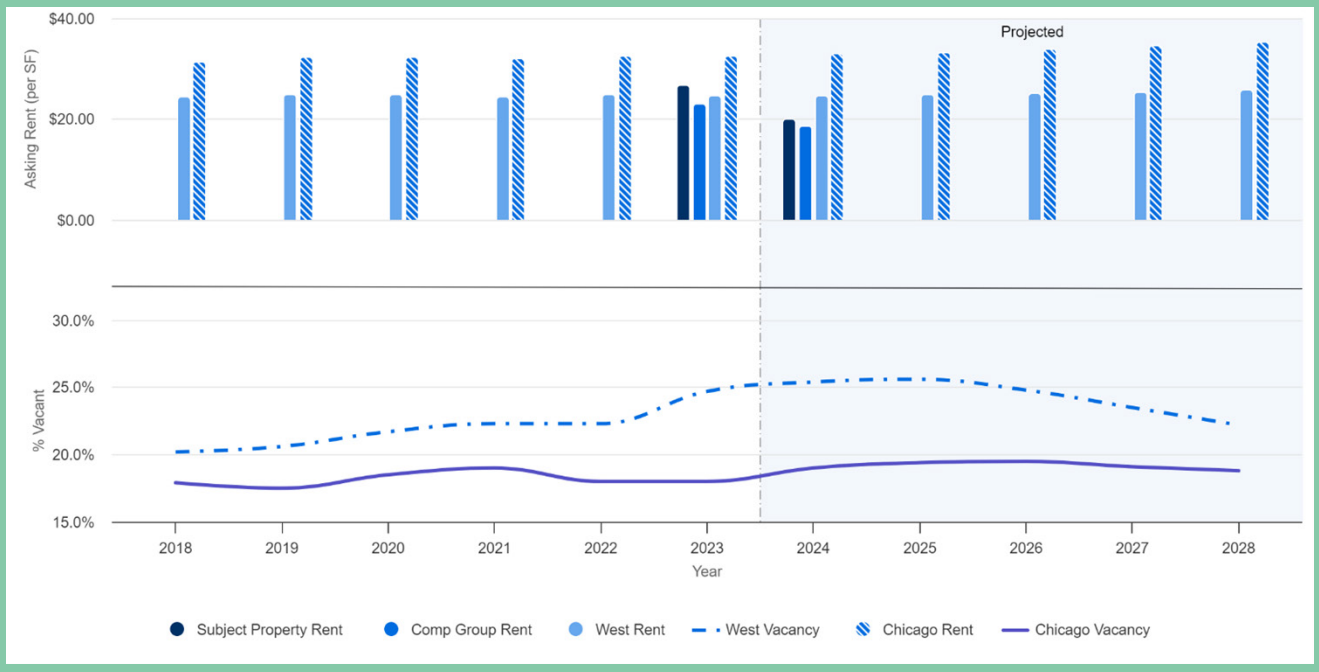
Retail

The complexity of retail rent and vacancy rates can vary significantly from one location to another. Much like the office space market, retail vacancy rates are influenced by factors such as local demand and market conditions. Retail spaces can either thrive dramatically or face significant downturns, depending on the specific area and its market trends.

For the nearby comparable group – including Western Springs, La Grange, Hinsdale, and Clarendon Hills — the average asking rent is $22.47 per square foot. The asking rent in Western Springs is slightly lower than the surrounding comparable villages, at $21.79 per square foot. This indicates that Western Springs offers somewhat more affordable retail spaces compared to some neighboring areas. This affordability may be a function of older space compared to new commercial centers as well as lower foot traffic compared to neighboring La Grange and Hinsdale; it is also affected by the low vacancy rates of downtown Western Springs.

In 2024, the Near West submarket of Western Springs has a vacancy rate of 13.2%, which is slightly higher than the Chicago region's overall rate of 12.8%. However, this rate does not reflect the downtown area, which is largely leased. While the vacancy rate has decreased slightly from 2023, it is expected to continue declining, indicating a healthier retail market in suburban areas like Western Springs. As demand increases and vacancies continue to decrease, the retail market in suburban villages is likely to strengthen further in the coming years. For a community like Western Springs with a network of largely leased downtown storefronts, a recovering market could signal more demand for downtown storefront space for retail uses (Figure 22).

FIGURE 21: *OFFICE RENT AND VACANCY TRENDS*



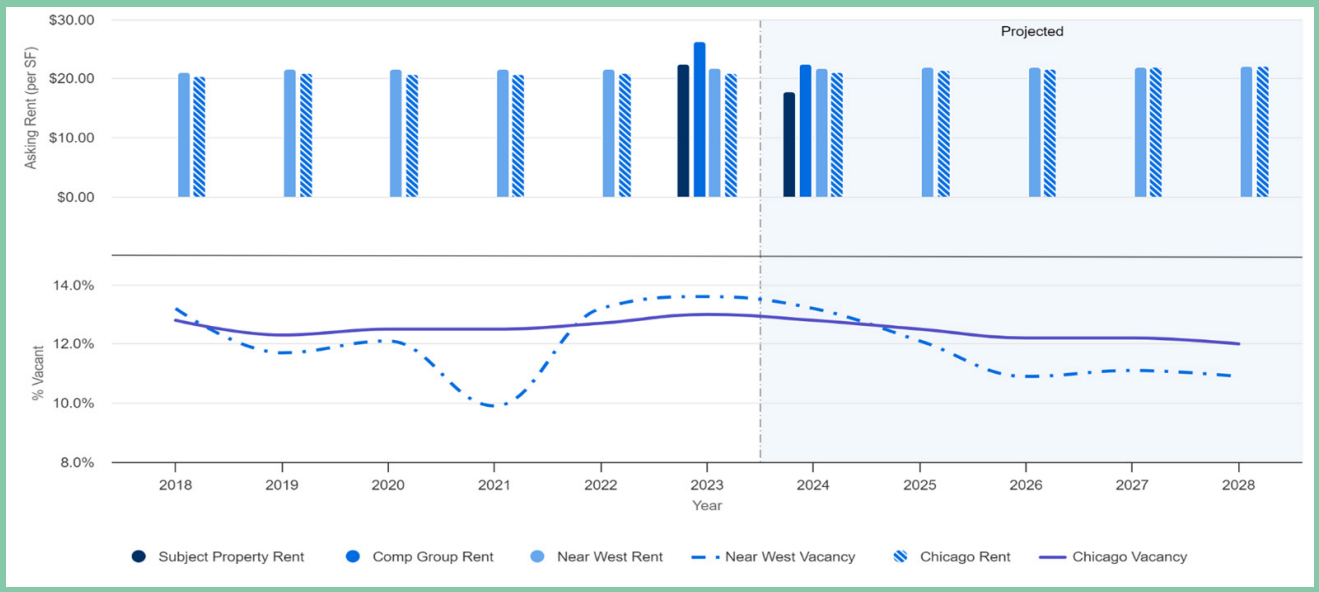


FIGURE 22: *RETAIL RENT AND VACANCY TRENDS*

Data: Moody's Analytics

Socioeconomic Findings

Though a five-minute drive time analysis can help better understand the nearby market of the downtown, it is also beneficial to look to the Village as a whole, particularly since downtown still manages to capture a high amount of its spending from Western Springs residents. The presence of "conscious consumers" in the Village also signals that many residents are likely to prefer shopping in local stores and supporting community merchants, therefore it is important to examine the Village as a whole. According to the US Census Bureau's 2023 American Community Survey (ACS) five-year estimates, Western Springs has a highly educated population. The chart below provides an overview of the educational attainment levels of the Village's residents. 47.3% of the population holds at least a bachelor's degree, while 34.8% have earned a graduate or professional degree. Figure 23 depicts the high level of educational attainment, which is often associated with higher income levels, greater career opportunities, and a higher quality of life.

Based on the 2023 ACS data, the median household income in the Village has increased steadily over the last five years. This tracks with residents' high level educational attainment. In just five years, the median household income increased from $174,760 to $218,839. This is a $44,079 increase (25.2% Increase over five years). The workforce in Western Springs is well-equipped for higher-paying careers, which contributes to the overall increase in household income. Figure 24 illustrates the growth in household income.

American Community Survey data regarding median home values show a consistent and healthy increase. Over the last ten years, the median housing value increased from $535,300 to $720,800. This equates to a 35% increase over ten years, illustrated in Figure 25. As a community of mostly single-family homes, median home prices may be higher than other nearby communities with more townhome and multifamily stock. Nonetheless, these figures alongside income statistics point to a consumer base with incomes to support existing and new businesses.

4 ASSESSMENT SUMMARY

Though competing with larger neighbors, the commercial business market in downtown Western Springs remains healthy for dining, retail, and office uses. This market condition is supported by the Village's continuing support of the area beautification and maintenance efforts, coordination with local businesses, and ongoing economic development policies. These help to address the structural market challenges in the downtown:

- High demand for downtown space and very low vacancies.
- Striking a balance between retail, offices, and services on the first floor.
- Attracting new retailers and eateries while maintaining convenient parking access.
- Drawing residents to the downtown more frequently and attracting potential customers from neighboring communities.
- Maintaining a unique identity to remain competitive with nearby downtowns.

These findings are expanded in this section, which summarizes demographics, market realities, and consumer sentiment. Based on those findings, next steps for consideration are also outlined.

Findings

Supportive Demographics

- The population of Western Springs and surrounding communities is highly educated. Nearly half of the Village's residents hold a bachelor's degree and a third possess graduate or professional degrees, which supports a skilled workforce and higher disposable incomes.
- Demographics support a stable and growing demand for retail, luxury goods, and services, despite little projected population increases, making Western Springs an appealing market for premium businesses and potential entrepreneurs.
- Village has a seemingly high presence of "conscious consumers," who prefer shopping local.

Strong Focus on Food Service

- Western Springs has a notably high meals index, reflecting a strong and focused food service market. Despite fewer establishments, the demand is more concentrated, leading to strong potential sales per restaurant and food business.
- There is a loyal customer base, with residents making focused, strategic visits to local establishments.

Retail Market with Growth Potential

- Retail spending in key sectors like food, apparel, and entertainment is projected to grow, reflecting a steady increase in consumer demand. This presents potential for continuing to attract / increasing expenditures through longer, multi-visit trips to the Downtown.
- **Food:** Strong demand for dining establishments, expected to see a $79.6 million increase in consumer spending by 2029.
- **Apparel and Entertainment:** Both sectors are expected to grow, driven by an affluent local population seeking higher-end products and experiences.

Spatial Challenges and Limitation

- **Parking Issues:** Non-traditional parking availability (real and perceived) reduces foot traffic and can be a barrier for customers.
- **Vacancy in Retail and Office Space:** Low vacancies downtown reflect strong demand for space by businesses but create challenges for attracting new ventures.

Commercial Space Market

- **Affordable Commercial Rent:** Western Springs offers relatively affordable office and retail space compared to the region, with office rents lower than La Grange and Hinsdale.

Real Estate Appreciation

- The housing market has seen consistent growth, with the median housing value rising 35% over the past decade, indicating a healthy real estate market and a stable investment environment.

Compact Business Community

- While Western Springs has fewer businesses compared to larger nearby areas like Hinsdale or La Grange, the tight-knit community allows for stronger customer relationships and higher engagement with local shops and restaurants.

Next Steps for Consideration

The Village and the Western Springs Business Association have worked to engage and support downtown businesses. The next steps for Village consideration below acknowledge those existing efforts and suggest continuation of related programs. These next steps may be contemplated in future Village programs and plan making, such as the zoning code, small-area plans, comprehensive plans, and economic development policies.

- Consumer survey data, existing building layouts, and retail trends suggest the Village may pursue "target business types," which include:
  - Restaurants of all types, with a special focus on breakfast and/or cuisines not presently available in the downtown area.
  - Microbrewery, distillery, or taproom.
  - Apparel stores, boutiques, and other specialty locally oriented retailers.
  - Unique groceries.
  - Small scale entertainment, such as concert venues.
  - Children's play center, perhaps through the community facilities to the west of downtown.
  - Mixed-use development, considering retail on the first floor in central locations but allowing for offices near the downtown fringes.
  - Development which can support additional public parking for the downtown area.

- With a steady and growing population and income base, the market holds potential for growth, particularly in retail, food service, and other consumer-focused sectors.

- Increase joint marketing with events like the French Market or other Western Springs Business Association (WSBA) signature events.
  - Continue to advertise the Village's Property Improvement Grant Program via WSBA channels and other direct business and property owner connections.
  - Continue to collaborate with WSBA and expand opportunities for advertising, where feasible. Partnerships between the Village and WSBA can be continued in the form of events or co-marketing in newsletters, social media, and other outlets. This partnership may be effective in engaging legacy businesses to develop resiliency and succession plans can help maintain the iconic storefronts that keep visitors coming back.
  - Continuing hosting local business-focused events to drive local engagement.
  - Address business concerns with community events through improved signage or pop-up events.

- Evaluate zoning ordinances to designate "retail streets" or refine zoning to guide retail development to areas with existing retail clusters, while supporting commercial office spaces.

- Continue and expand downtown property improvement programs through TIF or special service area (SSA). Upgrading the downtown building stock can create a more attractive and desirable downtown for businesses and visitors alike.

- Improving the quality of or expanding second floor office space or developing new spaces may help reduce the number of ground floor offices.

- Consider pop-up style businesses or incubators to attract more foot-traffic downtown and support entrepreneurs in the community.

CLERK'S CERTIFICATE

I, Edward Tymick, the Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that attached hereto is a true and correct copy of the Resolution now on file in my office, entitled:

RESOLUTION NO. 25-_____

A RESOLUTION AUTHORIZING THE ACCEPTANCE AND APPROVAL OF THE DOWNTOWN WESTERN SPRINGS MARKET ASSESSMENT DATED FEBRUARY 10, 2025 AND PREPARED BY TESKA ASSOCIATES, INC. FOR THE VILLAGE OF WESTERN SPRINGS

which was passed by a roll call vote of the Village President and Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 10th day of February, 2025, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 10th day of February, 2025.

I further certify that the vote on the question of the passage of the said Resolution by the Village President and Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Village President and Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Resolution, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs this 10th day of February, 2025.

_____
Edward Tymick, Village Clerk

[Seal]

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: February 10, 2025

AGENDA ITEM 8.I.

To: Board of Trustees
From: Heather Valone, Director of Community Development , Kelsey Fawell, Senior Planner
CC: Ellen Baer, Village Manager, Michael Jurusik, Village Attorney, Casey Biernacki, Deputy Village Manager
RE: [Previously discussed] PC-2024-02 – A Waiver of the Five Acre Minimum Area and Reduction of Certain Planned Development Submission Materials - 5600 Wolf Road, McNaughton Development, LLC (Old Business)

Recommendation

The Plan Commission recommended approval of the application with conditions on November 18, 2024. The Planning and Zoning Committee reviewed the application on January 16, 2025 and recommended the application be advanced to the Village Board for review and discussion. The Village Board reviewed the application on January 27, 2025 and directed staff to finalize the ordinances and resolutions for consideration.

Summary

McNaughton Development, LLC (the "Applicant") submitted an application for a comprehensive plan amendment, map amendment, conditional use permit for a planned development, variations, and subdivision for the property located at 5600 Wolf Rd (the "Subject Property"). The Subject Property is one of few sites in the Village zoned O-1 Limited Office District. The Applicant is seeking a comprehensive plan amendment and zoning map amendment to rezone the property to R4 Multiple-Family Residence District. This project also entails the request of the vacation of Village-owned Lawn Avenue right-of-way, immediately adjacent to the site.

The Applicant is proposing a development of 29 townhome units, comprised of nine buildings. There will be seven three-unit buildings and two four-unit buildings. Each unit will have a front-loading two-car attached garage, driveway, front and rear balconies, and rear patios. The Applicant proposes constructing a continuation of the existing Heritage Court to the southeast through the site to the development's access driveway proposed along Wolf Road Heritage Court connects to 55th Street to the north. The existing Heritage Court is a private drive, maintained by the Heritage Springs Homeowner's Association. An automatic gate will be separating the proposed development and Heritage Springs, access will only be granted to residents of the two developments. The gate will be constructed with an Opticom system that will allow access to emergency services. It should be noted that some Heritage Springs planned development approvals will need to be amended to adequately reflect the proposed Heritage Crossing development, if approved.

The Applicant's request also includes variations/relief from the Village's Development Control Ordinance ("DCO"), which are detailed in the below Table 1.

Table 1

Requested Zoning Relief		
Code Section	**Requirement**	**Proposed**
10-4-4(F)3a: Fences, Height Restrictions	Rear & side yards: 6 ft.	8 ft.
10-6-5(D): Minimum Development Parcel Size	5 ac.	2.76 ac.
10-6-5(E)(1): Minimum Front Yard	25 ft.	7 ft.
10-6-5(E)(2): Minimum Corner Side Yard	25 ft.	14.48 ft.
10-6-5(E)(3): Minimum Interior Side Yard	30 ft.	6.67 ft.
10-6-5(E)(4): Minimum Rear Yard	30 ft.	12.75 ft.
10-8-4(B)(1)(e): Maximum Building Height	35 ft.	36.33 ft.
10-10-7: Street Design Criteria	Pavement width of 27 ft.	23 ft.
10-10-7: Street Design Criteria	Minium horizontal curve radius of 150 ft.	Less than 150 ft.
10-10-7: Street Design Criteria	Minimum vertical curves 100 ft. in length	40 ft.
10-11-11(C)2: Detention	Streets are not to be used for the storage of excess stormwater, ponding depths shall not encroach more than 3' on the adjacent traffic lane and shall not remain flooded for more than 8 hours for any event less than or equal to the 100-year event	Allow for storage of 1.5 ft on the entire street width from the northern property line to a point roughly 36.5 ft. south along the Heritage Court.

Requested Zoning Relief		
Code Section	**Requirement**	**Proposed**

Requested	7 ft.	6.67 ft.	14.48 ft.	12.75 ft.	2.76	36.33

** includes both single family and townhome acreage.*

The application was heard by the Plan Commission on August 13, 2024, September 24, 2024,

and November 18, 2024. Over 30 members of the public submitted public comment on the case. The Plan Commission continued the case both at their August and September meetings. At the August meeting, the Commission continued the application, requesting additional information on stormwater engineering information, as well as of changing the location of the main entrance to the development, which was originally proposed off Park Place to the south. At the September meeting, the application was continued, with the Commission requesting additional information on potential storage of stormwater in the proposed street and updating plans to reflect the proposed Wolf Road access. The Applicant revised the plans per the discussion of the Plan Commission and the public comments and submitted revised plans.

On November 18, 2024, the Plan Commission reviewed the revised plans and voted to recommend approval with conditions of application. The Plan Commission recommended the plans with a total of 73 conditions, some of which had multiple sub-requirements. Roughly half of the conditions were conditions that had been included in previous recommendations for planned developments. The remaining half were generally technical updates to the plans. The Applicant submitted revised plans that address the conditions recommended by the Plan Commission as well as comments provided by Village Staff. The plans were reviewed by Village staff and consultants. Plan review comments from the Village's consulting engineer were provided in the January 27, 2025 Village Board agenda packet. All outstanding comments from the Village's consulting landscape architect and traffic engineer have been addressed. The remaining conditions are technical in nature and can be addressed prior to permitting. These conditions have also been incorporated into the ordinances and resolutions.

The Planning and Zoning Committee reviewed the application on January 16, 2025 and recommended the application be advanced to the Village Board for review and discussion. At the meeting six members of the public provided public comment. Of those six commenters, five commented with concerns related to stormwater management and / or the number of proposed units. One spoke in favor of the application.

The Village Board of Trustees reviewed the application on January 27, 2025. At the meeting seven members of the public provided public comment. Of those seven commenters, six provided comments related to stormwater management concerns. Two comments included concerns regarding the development's proposed number of guest parking, and three comments also included traffic concerns. Concerns were also expressed about the development's proposed density and number of units, as well as potential construction impacts of the development. Two public comments have been received since the January 27, 2025 Village Board meeting and prior to the publishing of this report, which can be found in Attachment 1.

To: Heather Valone
Subject: Follow up to Monday night's meeting(January 27, 2025)

Heather and Kelsey,

Some of this will be a repeat of comments/points already made across the board. I'd like to reiterate! Many are points made by not only me, but all others who attended.

1) I am 100% opposed to the project. It is way out of character for our beautiful subdivision of residential homes. I haven't come across anyone who is in favor of it.
It doesn't belong there. It is massive. Our beautiful community of Western Springs has been labeled one of the best places to live in America. This is not good for one of the best subdivisions in Western Springs...let alone the entire community of Western Springs. No one wants it. Isn't that enough? How would you like it if that was going in across from your beautiful homes. Many of you have beautiful homes in Western Springs.

2) The development is way too dense for that amount of space.
Cramming 29-30 units in that amount of space is ridiculous. They are way too tall, too.

3) Let's take into consideration the points made by Barry regarding the actual figures connecting to revenue, as well as additional charges regarding water usage. We are already paying excessive charges at the village level and county level due to the water issues
around here.

4) The flooding is such a big concern to many of the current homeowners. We cannot be certain that there won't be a problem with storm water regardless of what they aim to do with the retention basins. During the last heavy rain the recycling bins were floating all the way up and down Longmeadow. We are making an existing problem worse! I am reiterating what happened to us. There was approval for that massive house to the south of us to be built. It changed the grade and we got socked with water pouring into our basement...even through the windows. No help from the village and we had to spend $16,000.00 to have our yard swaled to get the water away from the house. I tried to get some help. Janet Dahl even came over and tried to help at the village level. The Larkins who were there before the Nawrockis spent $10,000.00 at the same time with Country Landscaping.

5)There is already a big problem with water pressure. Adding 29-30 units is really going to influence water pressure in a negative way.

5) The development as it looks is not attractive at all. They are all the same with no variation. They are too high. They will stick out like a sore thumb in an otherwise beautiful neighborhood. That is just not the location for the development. The homes in Ridgewood have character and each has its own unique variation. This development has zero character. The appearance is nothing like those built in Timber Trails. I'm not for it at all, but at least the ones in Timber Trails are brick and are a little more attractive.

6) The length of time for construction is unimaginable. Two years is a long time for those of us close by to contend with the view of that mess and worry about safety.
We will be worrying about the safety of the children who are traveling by foot or riding bicycles to and from school. With the large construction vehicles coming and going, there is too much risk involved with the operators not being able to see pedestrians. The neighborhood currently is congested with cars coming and going, not even counting the additional cars with adding 30 units.

7) The parking is a real problem when you consider the lack of space in between driveways etc. as the development stands now. Six parking spaces is NOT enough and will end bleeding onto Park Place and the other close streets. The area near the park is already very busy with activities, events and games and terribly congested at times.

8) So the townhomes are supposed to appeal to the empty nesters. The steps are a concern. If wanting an elevator, then you are adding another $45,00.00 to 50,000.00. That is a lot of money. Will they really sell to young people and aging folks? There is no yards for the kids.

9) We have all said it. Rachel Muldowney said it. No one wants it. Do something else with that property. Nice individual residential homes would be appropriate or turn it back into a wetland.

10) There is heresay that this spring or summer, there might be a booster pump put in near the park to assist with water pressure? Can the underground pipes handle all of that? The addition of all of those townhomes is going to take an existing problem and make it worse.
How many water main breaks have
there been in just in the month of January?

To: Kelsey Fawell; Heather Valone
Subject: Opposition to Townhomes at 5600 Wolf Road

Kelsey and Heather,

Unfortunately, I was unable to attend last night's meeting but I wanted to send another e-mail in regards to my opposition to the townhome development being proposed for 5600 Wolf Road.

The work done recently on 55th caused enough of a headache for morning commuters and for rush hour commuters that I can't even imagine how inconvenient the building of 30 new townhomes would be for both the residents of Ridgewood and those who take Wolf on the daily. Both entrances to Ridgewood will be no doubt be a mess. This is not only a danger to those of us driving, but also to the children who ride their bikes to other neighborhoods. Having 3 grade school aged boys myself, they love Western Springs because they are able to ride their bikes to friends' houses - not only in Ridgewood but in neighboring communities as well. I already worry about them crossing Wolf and 55th, but the development of these townhomes and the increased traffic will take that to a whole new level.

I don't have data to prove reasons as to why the townhomes shouldn't be built. But I do know that we have a great community as is and the people of Ridgewood would happily support an endeavor that made sense to those in our community. Expensive townhomes just doesn't fit the bill.

I believe the next meeting is 2/10, but please confirm so I can hopefully attend.

Thank you for your consideration.

RESOLUTION NO. 25-_____
Roll Call Vote.
VOTE:_____
AYES:_____
NAYS:_____
ABSTAIN: _____
ABSENT: _____
DATE: _____, 2025.
OTHER: None.

A RESOLUTION APPROVING A WAIVER OF THE FIVE (5) ACRE MINIMUM LAND AREA REQUIREMENT UNDER SECTION 10-8-3 (GUIDELINES) OF THE WESTERN SPRINGS VILLAGE CODE AND THE REDUCTION OF CERTAIN PLANNED DEVELOPMENT SUBMISSION MATERIALS UNDER SECTION 10-8-8 (SUBMITTAL REQUIREMENTS) OF THE WESTERN SPRINGS VILLAGE CODE AS REQUESTED BY APPLICANT / CONTRACT PURCHASER MCNAUGHTON DEVELOPMENT, LLC FOR APPROVAL OF A CONDITIONAL USE FOR A PLANNED DEVELOPMENT TO CONSTRUCT THE PROPOSED 29 UNIT HERITAGE CROSSING TOWNHOME DEVELOPMENT AT THE PROPERTY COMMONLY KNOWN AS 5600 SOUTH WOLF ROAD, WESTERN SPRINGS, ILLINOIS.

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village of Western Springs ("Village") that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"). The Property Owner has further executed a "Written Consent and Waiver" to allow McNaughton Development, LLC to enter into this Agreement, a copy of which is on file with the Community Development Department and is incorporated herein by reference and made a part hereof; and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a conditional use permit for a planned development, a map amendment, an amendment to the Village's Comprehensive Land Use Plan, a plat of consolidation, a plat of abrogation for storm sewer easement and public utility easement, a plat of vacation relating to a portion of Lawn Avenue, which is utilized as a stormwater detention basin, certain development allowances, exceptions and variations, and other zoning relief as noted below in accordance with the applicable provisions of the Village's Development Control Ordinance ("DCO"), in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached, front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, stormwater detention basins, open space and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the

Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowners Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent subdivisions will be controlled by a swing gate and gate access will only be granted to residents of both subdivisions with clicker-access and Village emergency service vehicles. The swing gate will be improved with an Opticom system that will give Village emergency service vehicles access similar to the systems on streetlights; and

WHEREAS, the requested zoning relief consists of: (1) approval of a conditional use permit for a planned development in accordance with Chapter 3 (Conditional Uses) and Chapter 8 (Planned Developments) of the DCO to construct the Development, subject to the requested exceptions, variations and zoning relief from the DCO regulations; (2) a waiver of the five (5) acre minimum land area requirement under Section 10-8-3 (Guidelines) of the DCO; (3) the reduction of certain planned development submission materials under Section 10-8-8 (Submittal Requirements) of the DCO as set forth below; (4) approval of a single stage Final Plan review and approval process (i.e., a combined Preliminary Plan / Final Plan approval) for the Development per Subsection 10-8-8(C) of the DCO, provided that the Applicant complies with the submittal and plan review requirements of Section 10-8-5(C) (Final Plan) of the DCO, subject to the reduction in the submittal requirements and other exceptions authorized by this Resolution; (5) a Comprehensive Plan Amendment to the Long-Range Land Use Map that reclassifies the Property from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District; (6) a map amendment to re-zone the Property from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District; (7) an Exception (Variations) from Subsection 10-8-4(B)(1)(d) (Exceptions From District Regulations; Site Design Regulations; Exceptions From District Regulations) of the DCO applicable only to the Development to provide: "Along the periphery of such planned developments, set back yards shall be provided as required by the regulations of the underlying zoning district, except that in the R4 - Multiple-Family Residence District variations of not more than 61% to the front yard regulation and the corner side yard regulation may be allowed as part of the approval of the planned development."; (8) Exception (Variations) from Subsection 10-8-4(B)(1)(e) (Exceptions From District Regulations; Site Design Regulations; Exceptions From District Regulations) of the DCO to provide: "Building height shall comply with the Zoning District regulations approved by the Village for the planned development, except that a variation of not more than 9% above the maximum height of buildings and structures may be allowed as part of the approval of a planned development."; (9) Exceptions (Text Amendments / Variations) from requirements of Section 10-6-5 (R4 - Multiple-Family Residence District) regulations, including:

i. Subsection 10-6-5(D): Minimum Development Parcel Size: Required: five (5) acres (217,800 square feet); and Requested: 2.76 acres;
ii. Subsection 10-6-5(E)(1): Minimum Yards Requirements: Front Yard: Required: Twenty-five feet (25'); and Requested: Seven Feet (7');
iii. Subsection 10-6-5(E)(2): Minimum Yards Requirements: Corner Side Yard: Required: Twenty-five feet (25'); and Requested: fourteen feet and five inches (14.42');
iv. Subsection 10-6-5(E)(3): Minimum Yards Requirements: Interior Side Yard: Required: Thirty feet (30'); and Requested: six feet and eight inches (6.67');
v. Subsection 10-6-5(E)(4): Minimum Yards Requirements: Rear Yard: Required: Thirty feet (30'); and Requested: Twelve feet and nine inches (12.75'); and
vi. Any additional exception(s) or variation(s) identified at the Public Hearing from the other use, bulk and site design requirements contained in the DCO that are necessary to

permit the construction of the Development and allow the above real Property to be used for its intended purposes in accordance with the filed Application shall also be considered for Village approval; and

(10) a Variation from Subsection 10-11-11(C)(2) (Stormwater Management Requirements For All Developments; Detention; Streets) of the DCO to allow the portion of the north end of Heritage Court (a private street) between the north lot line of the Property to a point approximately forty feet (40') south of the north lot line of the Property, which is not intended to be used for primary ingress and egress vehicle access to the Property, to be designed and constructed to temporarily hold stormwater during certain infrequent rain events to facilitate the movement of excess stormwater from the Property to the on-site stormwater detention basins and to draw stormwater off of the remainder of Heritage Court and away from the private driveways of northerly dwelling units so that there is no ponding of stormwater in front of the dwelling units. The standards for consideration and approval of the proposed map amendment and text amendments are set forth in Section 10-3-12 (Amendments) of the DCO; and

WHEREAS, a public hearing has been conducted by the Western Springs Plan Commission relative to the Application during public meetings held on August 13, 2024, September 24, 2024 and November 18, 2024, as required by the applicable provisions of State law, including the Illinois Open Meetings Act, 5 ILCS 120/ and Division 11-13 of the Illinois Municipal Code (65 ILCS 5/ 11-13), and the applicable provisions of the DCO (the "Public Hearing"). Prior to conducting the Public Hearing, a notice of Public Hearing was published in a newspaper, a "zoning application pending" sign was posted at the Property, a notice of Public Hearing was mailed to those persons who are required to be mailed the notice in compliance with applicable State law and the DCO, and separate agendas for each of the Plan Commission meetings where the Public Hearing sessions were held were posted as required by the Open Meetings Act; and

WHEREAS, pursuant to Section 10-8-3 (Guidelines) of the DCO, the Village Board, upon finding just cause, may waive the five (5) acre minimum land area requirement for planned developments; and

WHEREAS, pursuant to Section 10-8-8(B) (Submittal Requirements; Preliminary Plan Stage) of the DCO, the Village Board may "modify and/or reduce the required submission materials for any proposed planned development by resolution upon request of the Applicant and after receiving the recommendation of the Village Manager". The Applicant has requested that the following required submission materials for the planned development be waived (the "Waiver Requests"):

(1) Subsection 10-8-8(B)(4)(d): Market Study prepared by a qualified, independent market research firm. [This waiver is supported by the fact that the Applicant has submitted a report with supporting market and financial data relative to other recent, active townhouse developments in the Village to demonstrate the market demand for the housing type and base cost.]
(2) Subsection 10-8-8(B)(3)(g): "Site lighting plan". [Due to the relatively small size of the Development, the site lighting details and specifications are identified on the submitted development plans and will be reviewed and approved by Village Staff as part of the plan review process.]; and

WHEREAS, pursuant to the applicable provisions of the DCO, the Village Board may grant the following requests of the Applicant ("Zoning Process Allowances"):

(1) Approval of a combined Preliminary Plan / Final Plan as part of the Final Plan stage per Subsection 10-8-5(C) of the DCO to allow a single simultaneous submission per the Final Plan stage requirements and exemptions to specific requirements of Subsection 10-8-8 of the DCO deemed unnecessary due to the small size of the Development;
(2) Pursuant to Subsection 10-3-6(B) of the DCO, ratifying direction to the Plan Commission to conduct a review of this Application and associated documents, to conduct the required public hearing and to make a recommendation to the Village Board, which has the final authority to grant approval of a map amendment and requested zoning relief; and

WHEREAS, Village Manager Ellen Baer has issued a recommendation dated December 26, 2024 in support of the waiver of the five (5) acre minimum land area requirement and the Waiver Requirements ("Village Manager Recommendation"), a copy of which is attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, in accordance with the authority granted by the applicable provisions of the DCO, the President and Board of Trustees of the Village of Western Springs make the following just cause findings and determinations in regard to the Waiver Requests and the Zoning Process Allowances:

(a) It is reasonable and justified to approve the waiver of the five (5) acre minimum land area requirement because the Village Board has consistently waived this requirement for other in-fill planned developments involving the construction of residential townhomes;
(b) It is reasonable and justified to approve the Waiver Requests and the Zoning Process Allowances, given the limited scope of the proposed Development to be constructed at the Property;
(c) The absence of certain limited submission materials will not hinder or prejudice the Plan Commission's or the Village Board's ability to evaluate and take action on the requested zoning relief in the Application;
(d) For this specific Development, the costs associated with preparing the submission materials that are the subject of the Waiver Requests are unduly burdensome when compared to the public benefit that such materials will provide;
(e) Certain portions of the submission materials already exist in various formats and are public information that is available via the Freedom of Information Act; and

WHEREAS, at open public meetings held on **January 9, 2025 and January 16, 2025**, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the Waiver Requests and the Zoning Process Allowances and the Village Manager Recommendation, and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its **January 16, 2025 meeting,** the Committee recommended that the Corporate Authorities of Village **consider** the Waiver Requests and the Zoning Process Allowances; and

WHEREAS, at open public meetings held on **January 13, 2025, January 27, 2025 and February 10, 2025,** the Corporate Authorities of Village reviewed and discussed the Committee's Recommendation and the Village Manager Recommendation regarding the Waiver Requests and the Zoning Process Allowances, and received input from the Village staff on the matter and provided an opportunity for input from the public on the matter. **At its _____, 2025 meeting**, the Corporate Authorities of the Village accepted the Committee's Recommendation and the Village Manager Recommendation regarding approval of the Waiver Requests and the Zoning Process Allowances; and

WHEREAS, for the above-stated reasons, the President and Board of Trustees of the Village of Western Springs find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local business owners and the public to approve the waiver of the five (5) acre minimum land area requirement and the Waiver Requests and the Zoning Process Allowances as set forth in this Resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each of the Whereas paragraphs set forth above are incorporated by reference into Section 1 of this Resolution.

SECTION 2. Approval of Waiver Requests and Zoning Process Allowances; Acceptance of Village Manager Recommendation. The President and Board of Trustees of the Village of Western Springs approve and grant the above-requested Waiver Requests and Zoning Process Allowances, and further accept the Village Manager Recommendation and approve the waiver of the five (5) acre minimum land area guideline requirement for the Development under Section 10-8-3 (Guidelines) of the DCO, with the Village Board having found just cause to grant this waiver based the five (5) acre area requirement being outdated for the development of infill parcels within the Village and there is consistent past precedent of other Village Boards waiving this requirement for other recent planned developments recognizing that Section 10-8-3 states "it is not intended that each and every one of these guidelines be rigidly conformed to, provided that just cause for any departure from these guidelines is demonstrated".

SECTION 3. Termination of Resolution for Failure of Developer to Acquire Title to the Property. This validity of this Resolution is subject to the Developer purchasing the Property from the Property Owner. In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract entered into between the Property Owner and the Developer, this Resolution shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Resolution based on the Developer not purchasing the Property. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract.

SECTION 4. Recording; Covenants That Run With The Land. Upon approval by the President and Board of Trustees of the Village of Western Springs, a certified copy of this Resolution shall be filed with the Cook County Clerk's Office, Recording Division ("CCCORD") by the Village, at the Applicant's cost. The Village shall provide the Applicant with a file stamped copy of this Resolution after it is filed with the County Clerk. The terms, provisions and conditions set forth in this Resolution, including those incorporated herein by reference, are covenants that run with the land and shall be released or amended only upon the written consent of the President and Board of Trustees of the Village of Western Springs.

SECTION 5. Effective Date. This Ordinance shall be in full force and effect from and after its adoption and approval as provided by law.

PASSED by a roll call vote of the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a **Regular Meeting** thereof, held on the ____ day of _____, 2025 and approved by me as President on the same day.

To: **President Heidi Rudolph and the Board of Trustees**
From: **Ellen Baer, Village Manager**
Subject: **Heritage Crossing Townhome Development, 5600 South Wolf Road: Recommendation Regarding Request for Waiver of Planned Development Submittal Requirements**
Date: **December 26, 2024**
CC: **Heather Valone, Director of Community Development**

McNaughton Development, LLC, the contract purchaser / proposed developer of the 5600 South Wolf Road property (the "Property"), has submitted an application and site plan for the rezoning, subdivision approval, conditional use permit / planned development approval and certain variation approvals to redevelop the Property with twenty-nine (29) unit residential townhomes known as the Heritage Crossing Townhome Development (the "Development"). The application and proposed site plan have been processed as a planned development. The Village's Plan Commission has held and completed the required public hearing (conducted on August 13, 2024, September 24, 2024 and November 18, 2024) and has issued Recommendation No. 24-02, which favorably recommends Village Board approval of the application and the request for zoning and development relief to allow the Developer to construct the Development, subject to a number of development conditions including the vacation of a portion of the Lawn Avenue right-of-way ("Lawn Avenue ROW Area") to transfer legal title to that real property to the Developer as part of the Developer's completion of certain stormwater drainage enhancements at the Property. In a separate memo provided in the Village Board packet, Director Heather Valone has outlined the Developer's request for a waiver of certain submittal requirements required by the Village Code. The requested waivers are also listed below.

Waivers of submittal requirements are not uncommon, since planned developments can vary in acreage, complexity, land use, and other features. The Development Control Ordinance of the Village Code ("DCO") states the following:

"10-8-8: SUBMITTAL REQUIREMENTS:
B. Preliminary Plan Stage: Required submission materials for the preliminary plan stage are outlined below. The village board may modify and/or reduce the required submission materials for any proposed planned development by resolution upon request of the petitioner and after receiving the recommendation of the village manager. The village manager shall inform the petitioner in writing of any such modification or reduction."

Proposed Planned Development Submittal Waivers

- Simultaneous Preliminary and Final Submission:

Exemption from separate submissions for Preliminary Plan stage per DCO 10-8-8(B) and Final Plan stage per DCO 10-8-8 (C) to allow a single simultaneous submission per the Final Plan stage requirements.

- **Waiver of the 5 acre minimum land area guideline under Section 10-8-3**

(Guidelines) of the DCO. [The Property, with the inclusion of the Lawn Avenue ROW Area, meets the minimum lot area requirement of the R4 – Multiple-Family Residence District regulations. The most recent planned developments (Field Park 17 Ogden Avenue Townhomes and Foxford Station) have been granted waivers from this guideline.]

- **Reduction of certain planned development submission materials under Section 10-8-8 (Submittal Requirements) of the DCO:**

DCO Subsection 10-8-8(B)(4)(d): Market study (financial information) prepared by a qualified, independent market research firm. [The Applicant submitted fiscal impact projections showing that the Development will positively impact all taxing districts and generate impact fees. While the Applicant has requested a waiver from the market study submittal, the Applicant has submitted data on other townhouse developments in Western Springs to demonstrate the market demand for the housing type and base cost.] Although the applicant is requesting waivers, they are requests that have historically been granted to other infill developments. Additionally, although the applicant has requested waivers to the submittal requirements, the applicant has used other types of submittals to provide the same information that is required by the Village Code. I am in agreement with Director Valone that the waivers are reasonable and should be granted by the Village Board.

If you have any questions regarding this matter, please feel free to contact Director Valone or me.

DATE: _____, 2025.
OTHER: Published in pamphlet form.

AN ORDINANCE APPROVING AND ADOPTING AN UPDATED LONG RANGE LAND USE MAP TO THE WESTERN SPRINGS OFFICIAL COMPREHENSIVE LAND USE PLAN FOR PURPOSES OF RECLASSIFYING THE ZONING DESIGNATION OF THE 5600 SOUTH WOLF ROAD PROPERTY, WESTERN SPRINGS, ILLINOIS FROM THE O – LIMITED OFFICE ZONING DISTRICT TO THE R4 - MULTIPLE-FAMILY RESIDENCE DISTRICT TO ALLOW FOR THE CONSTRUCTION THE PROPOSED HERITAGE CROSSING TOWNHOME DEVELOPMENT BY APPLICANT / CONTRACT PURCHASER MCNAUGHTON DEVELOPMENT, LLC.

WHEREAS, Sections 11-12-5, 11-12-6 and 11-12-7 of the Illinois Municipal Code (65 ILCS 5/11-12-5, 11-12-6 and 11-12-7) authorize the Village President and Board of Trustees of the Village of Western Springs ("Village") to adopt an official comprehensive plan or any amendments to an official comprehensive plan, but only after a public hearing on the plan or amended plan has been held; and

WHEREAS, after the required public hearing process was completed, the Village President and Board of Trustees of the Village of Western Springs approved and adopted the Village's Official Land Use Plan with the passage of Ordinance No. 03-2226 on February 24, 2003 (the "2003 Land Use Plan). The 2003 Land Use Plan has been amended as follows: (i) by Ordinance No. 11-2643 dated August 22, 2011, as part of the adoption of the "2011 Western Springs Downtown Redevelopment Plan" (the "2011 Downtown Plan"); and (ii) by Ordinance No. 21-3046 dated June 28, 2021, as part of the adoption of the "2021 Concept Plans for Townhome Project at 17 West Ogden Avenue Property"; and

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"); and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a conditional use permit for a planned development, a map amendment, an amendment to the Village's Comprehensive Land Use Plan, a plat of consolidation, a plat of abrogation for storm sewer easement and public utility easement, a plat of right-of-way vacation relating to a sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of Lawn Avenue, which is utilized as a stormwater detention basin, certain development allowances, exceptions and variations and other zoning relief as noted below in accordance with the applicable provisions of the Village's Development Control Ordinance ("DCO"), in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached,

front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, an expanded stormwater detention basin system and stormwater management facilities and other private and public infrastructure, open space, landscaped areas and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowner's Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent subdivisions will be controlled by a swing gate and gate access will only be granted to residents of both subdivisions with clicker-access and Village emergency service vehicles. The swing gate will be improved with an Opticom system that will give Village emergency service vehicles access similar to the systems on streetlights; and

WHEREAS, using information gathered during the public hearing process, including a report and data submitted by the Applicant on other townhouse developments recently constructed and/or currently under construction in the Village to demonstrate the market demand for the housing type and base cost, the Applicant's Development Plans, submitted as part of the Application, were presented as an amendment to the Village's existing 2003 Land Use Plan to amend the Property's Long Range Land Use from its current designation of O – Limited Office Zoning District to the R4 - Multiple-Family Residence District in order to allow for the construction and operation of the Development. **A copy of the updated version of the Long Range Use Map of the Village's Comprehensive Land Use Plan showing the zoning classification amendment for the Property is attached as Exhibit "A" and made a part hereof and a copy of the Long Range Plan shall be produced by the Village in conjunction with the printing of the Village's Official Zoning Map in March 2025 (the "Updated Long Range Use Map");** and

WHEREAS, the Village's 2003 Land Use Plan, like all comprehensive land use plans, is an advisory document that contains recommendations for the implementation of new land uses, design standards, and zoning changes within the Village. Upon Village Board approval of this Ordinance, the Applicant's proposed amendment of the Property's Long Range Land Use from its current designation of O – Limited Office Zoning District to the R4 - Multiple-Family Residence District, with a conditional use permit for a planned development overlay approval, will allow provide a planning basis for the map amendment (rezoning) of the Property to the R4 - Multiple-Family Residence District allow for the construction and operation of the Development. Once the Property is rezoned, it will expand the types of other possible adaptive uses that could be developed on the Property under the R4 - Multiple-Family Residence District classification, if the Development is not constructed, subject to Village approval of another conditional use permit for a planned development after the conducting of the required public hearing; and

WHEREAS, on August 13, 2024, September 24, 2024 and November 18, 2024, the Plan Commission conducted public hearings at which it reviewed the Application, the requested zoning relief and the requested amendment to the **Long Range Use Map** for its compliance with the applicable DCO provisions. Prior to conducting the public hearing, a notice of public hearing was published in a newspaper, a "zoning application pending" sign was posted at the Property, a public hearing notice was mailed to those persons who are required to be mailed the public hearing notice in compliance with applicable State law and the DCO, and separate agendas for each of the Plan Commission meetings

where the public hearing sessions were held were posted as required by the Open Meetings Act. At the November 18, 2024 public hearing, the Plan Commission heard statements from representatives of the Applicant, Village staff and the Village Attorney, Interested Parties and the public and provided an opportunity for public input regarding the Application, the requested zoning relief and the requested amendment to the Long Range Use Map and the applicable DCO provisions. The Plan Commission reviewed and considered a **Village Staff Memorandum dated November 15, 2024** and prepared by Director of Community Development Heather Valone and Village Senior Planner Kelsey Fawell regarding the requested amendment to the Long Range Use Map. A copy of the Village Staff Memorandum is incorporated herein by reference and is on file with the Community Development Department; and

WHEREAS, on November 18, 2024, the Plan Commission, after finding that sufficient evidence was presented at the public hearing to conclude that the applicable standards relating to the requested zoning relief were met, voted to approve Recommendation No. 24-02, which contains the Plan Commission's report of findings and recommendations relative to its favorable recommendation to the Village Board on the adoption and implementation of the requested amendment to the Long Range Land Use Map to change the Property's current designation of O – Limited Office Zoning District to the R4 - Multiple-Family Residence District, with a conditional use permit for a planned development overlay approval, in order to allow for the construction and operation of the Heritage Crossing Townhome Development. Recommendation No. 24-02 has been filed with the Village President and Board of Trustees, who have taken the report's findings and recommendations under advisement and have incorporated by reference Recommendation No. 24-02 into this Ordinance; and

WHEREAS, at open public meetings held on January 9, 2025 and January 16, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed the Updated Long Range Use Map and Plan Commission Recommendation No. 24-02 and received input from the Village staff and provided an opportunity for public input on the Updated Long Range Use Map. At its January 16, 2025 meeting, the Committee voted to recommend that the Village Board consider the Updated Long Range Use Map; and

WHEREAS, at open public meetings held on **January 13, 2025, January 27, 2025 and February 10, 2025,** the Village Board discussed the Updated Long Range Use Map and Plan Commission Recommendation No. 24-02 and the Committee's recommendation, and received input from the Village staff and provided an opportunity for public input on the Updated Long Range Use Map. At the **_____, 2025 public meeting**, the Village Board considered the findings and recommendations of the Plan Commission and the Committee, and the input from the Village staff and the public, and agreed to **approve / deny** the Updated Long Range Use Map; and

WHEREAS, pursuant to the authority contain in Sections 11-12-5, 11-12-6 and 11-12-7 of the Illinois Municipal Code (65 ILCS 5/11-12-5 11-12-6 and 11-12-7), the Village President and Board of Trustees of the Village of Western Springs, after finding that sufficient evidence was presented at the public hearing to conclude that the applicable standards relating to the requested zoning relief were met, further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local business owners and the public to approve and adopt the Updated Long Range Use Map, as an amendment to certain portions of the Village's 2003 Land Use Plan, a copy of which is attached hereto as **Exhibit "A"** and made a part hereof.

BE IT ORDAINED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Ordinance.

SECTION 2. Approval of Updated Long Range Use Map. The Village President and the Board of Trustees of the Village of Western Springs adopt and approve the Updated Range Use Map, a copy of which is attached hereto as **Exhibit "A"** and made a part hereof, as an amendment to certain portions of the Village's Official Comprehensive Land Use Plan.

SECTION 3. Amendment of the 2003 Official Comprehensive Land Use Plan; Superseding Effect and Validity of Updated Long Range Use Map. The provisions of the Updated Long Range Use Map supplements, amends and supersedes the provisions of the 2003 Official Comprehensive Land Use Plan, as amended. In particular, where provisions of the Updated Long Range Use Map are inconsistent with or in conflict with similar provisions of the 2003 Official Comprehensive Land Use Plan, as amended, the Updated Long Range Use Map shall control. To the extent that the Updated Long Range Use Map contains provisions not found in the 2003 Official Comprehensive Land Use Plan, as amended, the provisions of the Updated Long Range Use Map shall control. The remainder of the 2003 Official Comprehensive Land Use Plan, as amended, shall be valid, enforceable and in full effect until amended or repealed by action of the Village President and the Board of Trustees.

SECTION 4. Publication, Website Posting and Availability of Updated Long Range Use Map. The Village Clerk is authorized and directed to publish this Ordinance in pamphlet form as provided by law, and to make available to the public copies of the Updated Long Range Use Map in accordance with the Freedom of Information Act and to arrange for the posting of the Updated Long Range Use Map on the Village's website.

SECTION 5. Effective Date. This Ordinance shall be in full force and effect from and after its adoption, approval and publication in pamphlet form as provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the _____ day of _____, 2025, and approved by me as Village President, and attested by the Village Clerk on the same day.

AN ORDINANCE APPROVING A MAP AMENDMENT TO REZONE THE 5600 SOUTH WOLF ROAD PROPERTY, WESTERN SPRINGS, ILLINOIS, FROM THE O – LIMITED OFFICE ZONING DISTRICT TO THE R4 - MULTIPLE-FAMILY RESIDENCE DISTRICT; APPROVING AN APPLICATION FOR A CONDITIONAL USE PERMIT FOR A PLANNED DEVELOPMENT FOR THE CONSTRUCTION AND OPERATION OF THE PROPOSED 29 UNIT HERITAGE CROSSING TOWNHOME DEVELOPMENT LOCATED AT THE 5600 SOUTH WOLF ROAD PROPERTY, INCLUDING THE APPROVAL OF THE COMBINED PRELIMINARY / FINAL DEVELOPMENT PLANS, SUBJECT TO VILLAGE PLAN REVIEW PROCESS, AND APPROVAL OF CERTAIN DEVELOPMENT ALLOWANCES, EXCEPTIONS AND VARIATIONS FROM THE VILLAGE ZONING REGULATIONS, INCLUDING A WAIVER OF THE FIVE (5) ACRE MINIMUM LOT AREA REQUIREMENT AND A REDUCTION OF CERTAIN PLANNED DEVELOPMENT SUBMISSION REQUIREMENTS.

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village of Western Springs ("Village") that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"). The Property Owner has further executed a "Written Consent and Waiver" to allow McNaughton Development, LLC to enter into this Agreement, a copy of which is on file with the Community Development Department and is incorporated herein by reference and made a part hereof; and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a conditional use permit for a planned development, a map amendment, an amendment to the Village's Comprehensive Land Use Plan, a plat of consolidation, a plat of abrogation for storm sewer easement and public utility easement, a plat of vacation relating to a portion of Lawn Avenue, which is utilized as a stormwater detention basin, certain development allowances, exceptions and variations, and other zoning relief as noted below in accordance with the applicable provisions of the Village's Development Control Ordinance ("DCO"), in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application

is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached, front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, an expanded stormwater detention basin system and stormwater management facilities and other private and public infrastructure, open space, landscaped areas and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowner's Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent subdivisions will be controlled by a swing gate and gate access will only be granted to residents of both subdivisions with clicker-access and Village emergency service vehicles. The swing gate will be improved with an Opticom system that will give Village emergency service vehicles access similar to the systems on streetlights. The Developer agrees to accept title to a sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of Lawn Avenue (the "ROW Parcel") that will be vacated by the passage of a vacation ordinance and a plat of right-of-way vacation and retention of stormwater facility easement by the Village for purposes of incorporation into the Property and the Development so that the Developer can construct an expanded stormwater detention basin system as part of the construction of the Development; and

WHEREAS, as part of the Application and its Exhibits, the Applicant requested one-stage final approval of the submitted "Development Plans" for the Development, which have been revised by the Developer since their initial filing and which are listed at the end of this Ordinance as part of **Group Exhibit "1"** and made a part hereof. The Application and other documents that comprise **Group Exhibit "1"** are on file with the Village Clerk's Office and the Community Development Department and are incorporated by reference into this Ordinance and made a part hereof. The Applicant shall submit a set of "Final Development Plans" (i.e., architectural plans and engineering plans) for Village staff review and Village Engineer review prior to those Plans being considered for final approval by the President and Board of Trustees of the Village (the "Corporate Authorities") at a public meeting in order for the Developer to be eligible to receive a site development permit or building permit to commence site work on the Property or construction of the Development; and

WHEREAS, the Property is legally described as follows:

PARCEL 1: THE WEST ½ OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION BEING A SUBDIVISION OF THE EAST 473 FEET OF THE NORTH 775.5 FEET (EXCEPT THE EAST 145.2 FEET OF THE WEST 178.2 FEET OF THE NORTH 350 FEET THEREOF) OF THE NORTH EAST ¼ OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, IN COOK COUNTY, ILLINOIS.

PARCEL 2: LOT 1 IN VIAL'S FAIRWAY, A SUBDIVISION OF PART OF THE NORTH EAST ¼ OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN,

ACCORDING TO THE PLAT RECORDED APRIL 17, 1957 AS DOCUMENT 16879637 IN COOK COUNTY, ILLINOIS.

Legal Description for the Lawn Avenue ROW Parcel is as follows:

THAT PART OF THE 66 FEET WIDE LAWN AVENUE, LYING SOUTH OF THE NORTH LINE OF WESTERN SPRINGS TOWNHOMES, RECORDED MARCH 29, 1999, AS DOCUMENT NO. 99297584, LYING NORTH OF THE SOUTH LINE OF RIDGEWOOD UNIT 12, RECORDED OCTOBER 6, 1965, AS DOCUMENT NO. 19610359, LYING WEST OF THE EAST LINE OF THE WEST ½ OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION, RECORDED NOVEMBER 13, 1948, AS DOCUMENT NO. 14442019, AND LYING EAST OF THE WEST LINE OF RIDGEWOOD UNIT NO. 11, RECORDED APRIL 3, 1964, AS DOCUMENT NO. 19089916, IN THE EAST HALF OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, COOK COUNTY, ILLINOIS.

Common Address: 5600 South Wolf Road, Western Springs, Illinois

P.I.N.S: Parcel 1: 18-18-200-017-0000, Parcel 2: 18-18-200-038-0000 and Parcel 3: 18-18-200-001-0000 (Lawn Avenue ROW Parcel); and

WHEREAS, with the passage of **Resolution No. 25-_____ on _____, 2025**, the Corporate Authorities of the Village approved the following relief from certain DCO submittal requirements for planned developments for this Development:

a. Waiver of the five (5) acre minimum land area requirement for planned developments.
b. Waiver of the submittal requirement of a "Market Study" prepared by a qualified, independent market research firm per Subsection 10-8-8(B)(4)(d) of the DCO. This waiver is supported by the fact that the Applicant has submitted a report with supporting market and financial data relative to other recent, active townhouse developments in the Village to demonstrate the market demand for the housing type and base cost.
c. Waiver of the submittal requirement of a "Site lighting plan" per Subsection 10-8-8(B)(3)(g) of the DCO, due to the relatively small size of the Development. There will be site lighting details and specifications provided by the Applicant; and

WHEREAS, the remaining zoning relief necessary for the Applicant to construct the Development is set forth in Section 3 below of this Ordinance; and

WHEREAS, a public hearing has been conducted by the Western Springs Plan Commission relative to the Application during public meetings held on August 13, 2024, September 24, 2024 and November 18, 2024, as required by the applicable provisions of State law, including the Illinois Open Meetings Act, 5 ILCS 120/ and Division 11-13 of the Illinois Municipal Code (65 ILCS 5/ 11-13), and the applicable provisions of the DCO (the "Public Hearing"). Prior to conducting the Public Hearing, a notice of Public Hearing was published in a newspaper, a "zoning application pending" sign was posted at the Property, a notice of Public Hearing was mailed to those persons who are required to be mailed the notice in compliance with applicable State law and the DCO, and separate agendas for each of the Plan Commission meetings where the Public Hearing sessions were held were posted as required by the Open Meetings Act; and

WHEREAS, at the November 18, 2024, Public Hearing session, the Western Springs Plan Commission, after finding that sufficient evidence was presented at the Public Hearing to conclude that the applicable standards relating to the requested zoning relief were met, passed a motion approving Report and Recommendation No. 24-02, which recommended approval of the zoning relief needed for the Applicant to construct the Development, subject to certain conditions related to the Development (See, Section V (Conditions) of Report and Recommendation No. 24-02). A copy of Report and Recommendation No. 24-02 is on file with the Village Clerk's Office and is incorporated into this Ordinance by reference; and

WHEREAS, at open public meetings held on January 9, 2025 and January 16, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the proposed Heritage Crossing Townhome Development and Plan Commission Report and Recommendation No. 24-02 and this Ordinance, and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its January 16, 2025 meeting, the Committee recommended that the Corporate Authorities of Village consider the Development and this Ordinance; and

WHEREAS, the Village Board, at open public meetings held **on January 13, 2025, January 27, 2025 and February 10, 2025,** reviewed and discussed the Applicant's Application and its request for zoning relief, the findings, recommendations and conditions of the Plan Commission as set forth in Report and Recommendation No. 24-02, received input from Village staff and provided an opportunity for public input. At the **_____, 2025** public meeting, the Village Board considered the findings, recommendations and conditions of the Plan Commission as set forth in Report and Recommendation No. 24-02 and, with the passage of this Ordinance, the Village Board, after finding that sufficient evidence was presented at the Public Hearing to conclude that the applicable standards relating to the requested zoning relief were met, then accepted, adopted and approved the findings, recommendations and conditions set forth in Report and Recommendation No. 24-02, subject to the approvals and conditions of this Ordinance; and

WHEREAS, in accordance with the authority granted by Sections 11-13-1 and 11-13-1.1 of the Illinois Municipal Code (65 ILCS 5/11-13-1 and 11-13-1.1) and the applicable provisions of the DCO, the Village President and Board of Trustees of the Village of Western Springs approve the zoning relief, as requested by the Applicant, relative to the issuance of the Conditional Use Permit for a Planned Development for the construction, operation and maintenance of the Development, subject to the Village-approved zoning relief contained in Section 2 below and the conditions contained in Section 3 below in this Ordinance.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. The above recitals are incorporated by reference into Section 1 of this Ordinance as material terms and provisions.

SECTION 2. Approval of Requested Zoning Relief. Pursuant to the applicable provisions of Title 10 (Development Control Ordinance) of the Western Springs Municipal Code, the President and Board of Trustees approve the following zoning relief and development approvals relative to the Property in order to allow the construction and operation of the Development under a Conditional Use Permit for Planned Development, subject to the conditions set forth in Section 4 below:

A. Approval of a conditional use permit for a planned development in accordance with Chapter 3 (Conditional Uses) and Chapter 8 (Planned Developments) of the DCO to construct the Development, subject to the requested exceptions, variations and zoning relief from the DCO regulations;
B. A waiver of the five (5) acre minimum land area requirement under Section 10-8-3 (Guidelines) of the DCO, with the Village Board having found just cause to grant this waiver based the five (5) acre area requirement being outdated for the development of infill parcels within the Village and the consistent past precedent of other Village Boards waiving this requirement for other recent planned developments recognizing that Section 10-8-3 states "it is not intended that each and every one of these guidelines be rigidly conformed to, provided that just cause for any departure from these guidelines is demonstrated";
C. Reduction of certain planned development submission materials under Section 10-8-8 (Submittal Requirements) of the DCO as set forth below; approval of a single stage Final Plan review and approval process (i.e., a combined Preliminary Plan / Final Plan approval) for the Development per Subsection 10-8-8(C) of the DCO, provided that the Applicant complies with the submittal and plan review requirements of Section 10-8-5(C) (Final Plan) of the DCO, subject to the reduction in the submittal requirements and other exceptions authorized by this Ordinance;
D. A Comprehensive Plan Amendment to the Long-Range Land Use Map that reclassifies the Property from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District;
E. A map amendment to re-zone the Property and the Lawn Avenue ROW Parcel from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District;
F. An Exception (Variations) from Subsection 10-8-4(B)(1)(d) (Exceptions From District Regulations; Site Design Regulations; Exceptions From District Regulations) of the DCO applicable only to the Development to provide: "Along the periphery of such planned developments, set back yards shall be provided as required by the regulations of the underlying zoning district, except that in the R4 - Multiple-Family Residence District variations of not more than 61% to the front yard regulation and the corner side yard regulation may be allowed as part of the approval of the planned development.";
G. An Exception (Variations) from Subsection 10-8-4(B)(1)(e) (Exceptions From District Regulations; Site Design Regulations; Exceptions From District Regulations) of the DCO to provide: "Building height shall comply with the Zoning District regulations approved by the Village for the planned development, except that a variation of not more than 9% above the maximum height of buildings and structures may be allowed as part of the approval of a planned development.";
H. Exceptions (Text Amendments / Variations) from requirements of Section 10-6-5 (R4 - Multiple-Family Residence District) regulations, including:
    i. Subsection 10-6-5(D): Minimum Development Parcel Size: Required: five (5) acres (217,800 square feet); and Requested: 2.76 acres;
    ii. Subsection 10-6-5(E)(1): Minimum Yards Requirements: Front Yard: Required: Twenty-five feet (25'); and Requested: Seven Feet (7');
    iii. Subsection 10-6-5(E)(2): Minimum Yards Requirements: Corner Side Yard: Required: Twenty-five feet (25'); and Requested: fourteen feet and five inches (14.42');
    iv. Subsection 10-6-5(E)(3): Minimum Yards Requirements: Interior Side Yard: Required: Thirty feet (30'); and Requested: six feet and eight inches (6.67');

v. Subsection 10-6-5(E)(4): Minimum Yards Requirements: Rear Yard: Required: Thirty feet (30'); and Requested: Twelve feet and nine inches (12.75’); and

vi. Any additional exception(s) or variation(s) identified at the Public Hearing from the other use, bulk and site design requirements contained in the DCO that are necessary to permit the construction of the Development and allow the above Property to be used for its intended purposes in accordance with the filed Application shall also be considered for Village approval; and

I. A variation from Subsection 10-11-11 (C)(2) (Stormwater Management Requirements For All Developments; Detention; Streets) of the DCO to allow the portion of the north end of Heritage Court (a private street) between the north lot line of the Property to a point approximately forty feet (40’) south of the north lot line of the Property, which is not intended to be used for primary ingress and egress vehicle access to the Property, to be designed and constructed to temporarily hold stormwater during certain rain events to facilitate the movement of excess stormwater from the Property to the on-site stormwater detention basins and to draw stormwater off of the remainder of Heritage Court and away from the private driveways of northerly dwelling units so that there is no ponding of stormwater in front of the dwelling units. The standards for consideration and approval of the proposed map amendment and text amendments are set forth in Section 10-3-12 (Amendments) of the DCO; and

SECTION 3. Conditions of Approval of Requested Zoning Relief. The above zoning relief and development approvals granted for the Development as contained in Section 2 above are subject to the following conditions:

1. General

a. The Applicant shall comply with all of the applicable federal, state, county, local and special district laws, ordinances and regulations, including the provisions of the Village’s Municipal Code, relative to the construction and maintenance of the Development, except as otherwise modified by Village approvals.

b. The uses generally approved for this Conditional Use Permit for Planned Development for the Development are limited to residential uses and uses ancillary to the foregoing uses. Such ancillary uses shall comply with the requirements for accessory uses established under the DCO. The approval of the Conditional Use Permit for Planned Development for the Development does not authorize the Applicant or any other tenant or occupant to use the Property without applying for and obtaining any required temporary use permit, conditional use permit, or any other Village or other governmental approval. Such specific use approval shall be obtained by the Applicant, tenant or occupant of the Property before commencing such use.

c. In regard to the construction, operation and maintenance of the Development, these conditions shall be the only conditional use and planned development conditions applicable to that use of the Property, unless amended by mutual agreement of the Applicant and the Village, or unless amended by ordinance approved by the Village Board after the required public hearing.

d. The Applicant shall pay the required impact fees (i.e., school site / school improvement impact fee; and park and recreation site impact fee) to the Village in lieu of land dedication, as calculated by the Village, in accordance with the formula set forth in Section 10-10-14 of the DCO, at the time it applies for a building permit

e. In the event that the Applicant does not obtain a site development permit or a building permit and commence and actively perform construction of the Development within twelve (12) months of the approval of the Conditional Use Permit for Planned Development for this Project, the Conditional Use Permit for Planned Development for this Project shall expire in accordance with Section 10-3-14(L) of the DCO, unless the 12-month period is extended by approval of an ordinance by the President and Board of Trustees of the Village. Any extension of the above 12-month period to avoid an expiration of the Conditional Use Permit for Planned Development for this Project shall be approved by an ordinance passed by the President and Board of Trustees of the Village, in their discretion. Approval of such an extension does not require a public hearing, but such ordinance must be approved by the President and Board of Trustees of the Village at a public meeting in accordance with the Open Meetings Act. The Applicant shall use all commercially reasonable efforts to secure all necessary governmental permits needed to complete the Development and to actively and diligently pursue completion of the Development. The Applicant shall use all commercially reasonable efforts to hire an adequate number of experienced contractors, subcontractors and other skilled labor, and provide for adequate equipment and building materials to ensure that construction of the Development is actively and diligently pursued.

f. The Applicant shall revise the Declaration of Covenants, Conditions and Restrictions for the Homeowners Association (the "Declaration") in accordance with comments provided by the Village Attorney and shall file the Declaration with the Cook County Clerk's Office, Recording Division ("CCCORD") prior to the sale of any portion of the Property to any other person. The Declaration shall require that, at the closing of each dwelling unit, the Applicant shall allocate $600.00 (or an amount equal to three (3) months' Community Assessment) and pay said amount into a "Capital Reserve" fund, as defined and required by the Declaration, for the maintenance reserve account for the benefit of and use of the Homeowners Association for maintenance purposes consistent with the Declaration. In addition, the Declaration shall provide for adequate building reserve funds to pay for operating expenses (insurance, building maintenance and cleaning vendors, utilities, security) and short-term and long-term maintenance, repair and replacement expenses for the exterior and interior of the building and its common areas, and also contain all necessary cross access easements for driveway use and garage access for the benefit of each of the dwelling units as well as common area easements for use, repair, replacement and maintenance of common areas and common elements (driveway, fencing, landscaping, roof and exterior building materials) of the building.

g. The Village and the Applicant shall execute the Final Plat of Heritage Crossing and the Declaration, which shall be filed against title to the above-described property with the CCCORD. The Plat shall be filed by the Village, at the Developer's cost, along with a certified copy of the Ordinance approving the Development. The Declaration shall be filed by the Developer, at its cost, with the CCCORD after the townhome units are constructed but prior to the sale and conveyance of legal title to any townhome. The Declaration shall

contain provisions that are enforceable against the Applicant, and any successor owners, property managers, associations, lessees, licensees, transferees, receivers or successors in interest, which, in part, provides for the future installation, maintenance, repair and replacement of all stormwater management and other drainage structures, public utilities, water and sewer mains and related structures, including without limitation fire hydrants, driveway and parking lot improvements, parking lot and landscape lighting, and landscaping and retaining wall improvements. The Plat and the Declaration shall be in a form and content approved by the Village Engineer and the Village Attorney. The Plat and the Declaration shall impose on the Applicant, and any successor owners, lessees, licensees, transferees, receivers or successors in interest, at their cost, the obligation and responsibility of performing all future maintenance, repair and replacement work in regard to the above-described development improvements as reasonably deemed necessary by the Director of Code Enforcement and the Village Engineer in order to comply with the Village Code, as amended, and shall grant to the Village a non-exclusive easement for entry upon and access to all parts of the Property, for purposes of providing the Village with the right but not the obligation to perform such maintenance, repair and replacement work, in its sole, reasonable discretion, along with the right to recover the cost of such work directly from the owners, successor owners or successors in interest or to lien the property and take all other action provided for in 65 ILCS 5/11-31-2, as amended, or similar applicable law, including any law contained in the Illinois Municipal Code, as amended. The Applicant, and any successor owners, property managers, associations, lessees, licensees, transferees, receivers or successors in interest, at their cost, shall repair pavement, concrete, landscaped areas or other areas damaged by the Village if the Village performs such future installation, maintenance, repair and replacement work.

h. Prior to the issuance of a building or development permit, the Applicant shall submit a construction schedule, routing, construction staging, restoration plan and phasing plan with map and plan exhibits, which are in conformance with the final set of Village approved engineering and construction plans for the Development. These plans shall identify construction access routes, temporary detours, regular street cleaning intervals and refuse removal, and other appropriate safety, restricted access and “good neighbor” practices. Standard Village construction hours shall apply, except as otherwise permitted by the Village Manager.

i. Prior to the issuance of a building or development permit, the Applicant shall enter into a Maintenance and Development Agreement with the Village, as prepared by the Village Attorney and approved by the Village Board, which includes conditions for the construction and long-term maintenance of the Development, consisting generally of the following items:

   i. The posting of an irrevocable letter of credit or other form of security with the Village to secure the completion of the required SSA Maintained Improvements and the landscape improvements for the Development (the “Developer Security”). The Developer Security shall be in a form acceptable to the Village Attorney and of a dollar amount to be determined by the Village Engineer and shall be managed by the Village in accordance with Subsection 10-10-19(2) (Land Dedications and Completion,

Maintenance and Acceptance of Improvements; Posting of a Bond, Cash, or Other Securities) of the Municipal Code;

ii. The posting of a two-year maintenance bond (performance and payment bond) for the SSA Maintained Improvements and the landscape improvements;

iii. The submittal of construction access plans for the Development requiring the Applicant and all of its employees, consultants and development and construction crews to use Wolf Road as the sole point of ingress and egress to the Development. It is the Applicant's responsibility to ensure that access to the site is maintained during all Development construction activities;

iv. The Applicant shall either enter into a private tow company contract to enforce the community parking spaces with the Development or enter into a private parking / private street enforcement agreement with the Village that will allow for the posting of appropriate parking regulation signs and vehicle speed signs to enable Village police officers to issue parking tickets and traffic citations to enforce the parking and traffic regulations of Heritage Court within the Heritage Crossing Subdivision;

v. At the request of the Applicant and the Homeowners Association for Heritage Springs Subdivision, the Village will consider approving an amendment to the planned development ordinance granted for the Heritage Springs Subdivision to allow for additional on-street parking spaces and the operation of the swing gate and such other requested amendments that are necessitated by the Development, and the Village will also consider entering into a private parking / private street enforcement agreement that will allow for the posting of appropriate parking regulation signs and vehicle speed signs to enable Village police officers to issue parking tickets and traffic citations to enforce the parking and traffic regulations of Heritage Court within the Heritage Springs Subdivision;

vi. Prior to the issuance of a building or development permit, the submittal to the Village of a fully executed agreement with Cook County for perpetual maintenance of the Project-related roadway structures and all infrastructure improvements within the portion of the Wolf Road right-of-way, as required by Cook County;

vii. Per Section 10-11-11 (Stormwater Management Requirements For All Developments) of the DCO, prior to obtaining any type of building or site development permit for the Project, the Applicant shall execute and enter into a stormwater management facilities maintenance agreement ("stormwater maintenance agreement") with the Village, as prepared by the Village Attorney and approved by the Village Board, relative to the stormwater drainage facilities located on the Property, which facilities shall be the responsibility of the Applicant and its successor owners (i.e., the Homeowners Association). Within the stormwater maintenance agreement, the Applicant shall guarantee that the Applicant and all of the successor owners of the Property will maintain the stormwater management facilities and the stormwater drainage system and provide to the Village periodic written reports on the stormwater management facilities' monitoring and maintenance. The stormwater maintenance agreement shall also specifically authorize representatives of the Village

to enter onto the Property for the purpose of inspections of the stormwater drainage system. Such agreement shall be recorded with the CCCORD. The stormwater maintenance agreement shall include a schedule for regular maintenance of each aspect of the Property's stormwater drainage system and shall provide for access to the system for inspection by authorized personnel of the Village. The stormwater maintenance agreement shall also stipulate that, if the appropriate authorized personnel of the Village notify the property owner in writing of maintenance problems which require correction, the property owner shall make such corrections within thirty (30) calendar days of such notification. If the corrections are not made within this time period, the Village may have the necessary work completed and assess the cost to the property owner.

viii. Revise the Declaration to exclude/prohibit charcoal grills on the proposed balconies.

j. Prior to the sale of any portion of the Property by the Developer or the issuance of any occupancy permits for the Development, the Developer shall participate in good faith in the formation process, and not object to the formation, of a dormant "Special Service Area" ("SSA") to be established by the Village, at the Developer's cost, pursuant to 35 ILCS 200/27-5, et seq. The SSA shall govern the Property for the purpose of ensuring, as and when appropriate, the maintenance, repair and replacement of the "SSA Maintained Improvements". The SSA Maintained Improvements shall include those public and privately-owned and developed improvements within the Development or within utility easements outside of the Property that are necessary to support and serve some or all of the Development including, but not limited to, new or the replacement, maintenance, extension or upsizing of existing public or private stormwater detention and drainage facilities, including the Lawn Avenue Detention Basin, the Outlot 31 Detention Basin and the Outlot 33 Detention Basin (each detention basin shall be privately-owned and maintained by the Homeowners Association), privately-owned Heritage Court, the Heritage Court Gate Access Improvements and its Opticom sensor system, other roads or pathways, drive aisles, curbs, light poles and light fixtures for roads, sidewalk and pedestrian pathways, and access drives, sanitary sewer mains and service lines and other sanitary sewer system facilities and equipment (i.e., lift stations), water mains and service lines and other water system facilities and equipment (i.e., pump and/or booster stations, vaults, generators, water storage tank or tower), and electric, telecommunications, cable and gas service lines and facilities.

k. The individual dwelling units and platted lots within the Development shall not be permitted to request variations from the Village's Municipal Code that are unique and specific to the individual dwelling unit and lot owner. Amendments to the planned development ordinance that are not unique and specific to an individual dwelling unit and a specific lot owner may be applied for and presented to the Village in accordance with the applicable provisions of the Municipal Code.

l. The residential buildings must comply with the architecture approved by the Village's Planned Development Ordinance.

m. The exterior of the newly constructed buildings and other above grade structures of the Project shall be constructed primarily of high quality brick, brick veneer that is a minimum

of three-fourths inches and individually adhered, stone, masonry, architectural-faced concrete block, stamped concrete panels, cement fiber board (i.e., Hardies or LP cement board products), architectural metals, and synthetic architectural products to provide a high quality aesthetic appearance. Sidewalks and pedestrian pathways shall be constructed of concrete. Vinyl siding shall not be permitted. Exterior Insulation and Finish Systems (EIFS) materials (i.e., Dry-vit materials) shall not be permitted. The Applicant agrees to take all commercially reasonable steps to ensure that the building design, building materials and exterior color schemes of the proposed building and its related landscaping are designed to blend in and complement the adjacent residential uses.

n. The Applicant shall prepare and submit to the Village final versions of the Plat of Heritage Crossing Subdivision, the Plat of Abrogation for Storm Sewer Easement and Public Utility Easement, and the Plat of Vacation of Public Right-of-Way that have been revised to address the review comments of the Village Engineer and the Village Attorney. The Plat of Heritage Crossing Subdivision shall be revised to specifically identify all terms and conditions associated with the road and driveway usage and maintenance, including cleanliness standards, snow removal and other required reasonable terms. These Plats, and any other plats that may be required for this Development, are subject to approval by the Village Board (or the Trustees), and, if approved, then said Plats will be filed with the CCCORD, by the Village Attorney, at the Applicant's cost prior to the sale of any dwelling unit.

o. In accordance with Subsection 9-1A-1 (Plan Review Deposits and Fees) and Subsection 9-1B-5: (Additional Deposit Required) of the Municipal Code, within five (5) business days of Village Board approval of the Requested Zoning Relief, the Applicant shall provide to the Village a developer-reimbursable costs / plan review escrow deposit of $58,000.00 to defray the Village's cost of plan reviews and payment of other developer-reimbursable costs incurred by the Village relative to the processing of the Application and the plan reviews by the Village staff and Village consultants of the development plans submitted for development permit approval. The developer-reimbursable costs / plan review escrow deposit shall always maintain a positive cash balance of not less than $10,000.00 and the Applicant shall provide the Village with additional funds to replenish the escrow within five (5) business days upon written demand from the Village.

p. Once the Property is rezoned from its current designation of O – Limited Office Zoning District to the R4 - Multiple-Family Residence District, with a conditional use permit for planned development overlay approval, to allow for the construction and operation of the Development, it will expand the types of other possible adaptive uses that could be developed on the Property under the R4 - Multiple-Family Residence District classification, if the Development is not constructed, subject to Village approval of another conditional use permit for a planned development after the conducting of the required public hearing.

q. The conditional use permit for planned development ordinance and its conditions shall be covenants of record that run with the land and shall be placed in a recordable format, acceptable to the Village Attorney, and then recorded by the Village against title to the Property with the Cook County Clerk's Office – Recording Division, at the Applicant's cost.

r. The approval of the Requested Zoning Relief is subject to the Developer purchasing the Property from the Property Owner.

s. Execution by the Applicant of the ACKNOWLEDGMENT Page that is part of the conditional use permit for planned development ordinance.

2. Engineering

a. The Applicant, at its cost, shall install a new eight inch (8.00") ductile iron watermain and new fire hydrants to service the Development. The Developer shall obtain an IEPA permit for the new watermain. The Village, at the Applicant's cost, shall have a water system engineering inspection performed and an assessment report prepared by a licensed professional water system engineer to verify the condition and capacity of the existing adjacent water main located in the Heritage Springs Subdivision and to provide a recommendation for the sizing of the water main that will service the Development. The Applicant, at its cost, shall be responsible for any repairs and/or replacement related to its connection to and extension of the existing water main that are determined by the water system engineer to be necessary to provide adequate water main and service line connections to the Development.

b. The Applicant shall be responsible to pay for any damage to any public improvements caused by any activities related to the Development. The Village will be the sole arbiter of determining if the damage was caused by the Applicant's actions. Within seven (7) calendar days of inspecting any damage, the Village will notify the Applicant in writing and define the scope of the damage and expected repairs. The Village and the Applicant will discuss whether the damage is to be repaired by the Applicant or if the estimated costs of repairs are paid to the Village.

c. The existing drainage pattern for the Property will not be altered by the construction of the Development, the stormwater drainage system, the landscaping or any of the related improvements.

d. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated geometric plan that shows not only the location of a safety rail on top of the retaining walls, as shown on the current geometric plan, but also contains a detailed and structural design and calculations for the safety rail, which are needed to ensure the rail is adequate and meets applicable codes.

e. The Applicant's engineer shall submit to the Village, as part of the Village plan review and approval process, accurate calculations showing that the stormwater management system is able to manage bypass stormwater appropriately as determined by the Village Engineer.

f. The Applicant shall submit to the Village, as part of the Village plan review and approval process, accurate calculations that show that the rate of flow of the stormwater drainage bypass system is equal to or less than the current rate of all bypass flows (low flow and

overland). This submittal must demonstrate that the bypass stormwater does not reach the Lawn Avenue Detention Basin faster than it currently does under the existing conditions.

g. The Village will not accept the twin 54" aluminum pipes that are proposed by the Applicant to be installed in the rear yard of Units 1 through 7. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated design plan that utilizes reinforced concrete pipes or precast reinforced concrete box culverts to convey the stormwater. The Applicant shall submit to the Village design calculations that demonstrate the proposed pipes meet all relevant design criteria for capacity and velocity of stormwater.

h. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a detailed operations and maintenance ("O&M") plan for the enclosed stormwater drainage bypass system. The O&M plan is required to be incorporated into the final plat of subdivision, the Declaration, and the Maintenance and Development Agreement.

i. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated design plan that shows:

   i. All components of the stormwater bypass system (open channel and piping) are secured and not accessible to the public.

   ii. The Applicant shall install infrastructure to ensure that the stormwater bypass system is not a danger to the public.

j. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a wetland plantings plan for the stormwater basins to be used with the volume control retention system needed to be designed by a licensed / certified ecologist and reviewed by the Village prior to the issuance of any site development permit. This plan must also include a maintenance plan.

k. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a set of structural design plans sealed by an Illinois licensed structural engineer for the retaining walls.

l. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an O&M plan for the stormwater detention basins. The Applicant shall create an O&M plan for the stormwater detention basins and create a mechanism to fund all required maintenance activities for the establishment period of three (3) to five (5) years. A licensed / certified ecologist with experience in wetland basins shall produce this type of O&M plan for Village review and approval prior to the issuance of any site development permit.

m. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an exhibit showing that the street light photometrics conform with the Village Code for Village review prior to the issuance of any site development permit.

n. The plans have been updated to show new retaining walls along the west edge of the Lawn Avenue Detention Basin which will require the removal of the existing walls. However, the structural design of this new retaining wall and the other proposed retaining walls are not complete and are not provided. The Applicant shall submit to the Village, as part of the Village plan review and approval process, complete retaining wall details, elevations, and signoff approval by an Illinois licensed structural engineer.

o. Since the structural design is not complete, it is not known if tiebacks or over excavation needed to construct the walls will be contained within the Property. Work needed to construct the new retaining walls cannot take place on private property unless temporary or permanent easements are acquired. Construction limits behind the retaining walls shall be identified and contained within the Property or copies of executed easements are to be provided prior to the issuance of any site development permit.

p. Neighboring properties cannot be flooded as a result of any interim construction conditions or activities by the Applicant that could occur if the old retaining wall is torn down and the new retaining wall is not yet complete. The development plans shall contain provisions that temporarily protect the west property line to a pre-project elevation. The development plans shall identify a stormwater management plan that the Applicant shall comply with to address stormwater management issues during the site development phase and construction phase of the Development.

q. The retaining wall design of the detention area between Units 20 and 21 shall be constructed and maintained to accommodate for overland flows that may occur if the twin 54" sewers are overwhelmed or not functioning properly

r. Replace the existing flat grate that is part of the existing Heritage Springs stormwater system, which is prone to clogging, with a vaulted frame and grate. A vaulted grate will be much less prone to clogging and will improve performance and reliability of both developments' stormwater management systems.

s. The plans show inlets proposed to be located on the Heritage Springs property. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated plan that relocates the inlets to the south so they are located on the Heritage Crossing's property and adjusts the location of the inlets directly under the proposed swing gate to be fully located on Heritage Crossing property. The plans also need to be updated so that the Heritage Court roadway vertical curve is adjusted so the low point is moved south, which will result in the inlets being placed on the Heritage Crossing property and relocate the depressional area from Heritage Springs to Heritage Crossing.

t. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a set of street lighting plans for the Development, which include all lighting conduits, cables, controllers, and service location. Also, these plans shall include light pole foundation and controller foundation details, and the street lighting plans shall be signed and sealed by an Illinois licensed structural engineer.

u. The Applicant's narrative report shall be updated and resubmitted to the Village with a section discussing the development of the HEC-HMS modeling and results.

v. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a report that discusses how the hydraulic modeling impacted the subdivision grading plan.

w. The Applicant's narrative report shall be updated and resubmitted to the Village with a section discussing the worst-case flooding scenario. This updated report shall include exhibits sent to Engineering on October 31, 2024, which illustrate stormwater storage in this worst-case scenario. The updated report shall clearly state there is a net increase in stormwater storage despite the removal of the existing parking lot area and the back-filling of that parking lot area with soil as part of the site development work and lot grading work.

x. The proposed design of the dual culverts suggests a full-flowing velocity of 14 ft/s, well above the acceptable maximum velocity. The Applicant's next plan submittal shall contain documentation that confirms 11 ft/s is the maximum flow velocity through these culvert stormwater pipes.

y. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a set of calculations for the riprap sizing at the outfall of the dual culverts. The current riprap gradation, shape and area do not appear to match the design provided by the Illinois Urban Manual. Furthermore, the detail provided (IL-610 on Sheet 6) is missing dimensions and shall be updated by the Applicant.

z. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated grading plan for the Property line north of Unit 14 that demonstrates that the final re-grading of the area will prevent overland flow from continuing onto the Heritage Springs property.

aa. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated Stormwater Management Report and HEC-HMS Model that includes:

    i. An updated Stormwater Management Report's narrative revised to include a discussion of modeling results, reference and a discussion of the supporting modeling documentation, and also shall include a set of inundation maps.

    ii. Clarification on how the discharge flows are defined between stormwater detention basins. The HEC-HMS files provided indicate that the discharge curves for all stormwater detention basins are turned off in both existing and proposed scenarios. Additionally, many of the nodes do not have discharge functions defined.

    iii. Clarification on the distinction between the nodes "Storage East of Wolf Road" and "Box Inlet East Side Wolf Rd". Pages 71 and 72 of the report show stage-storage tables for these nodes, but the areas for elevations 664.0 and 665.0 match for these two, suggesting some volume may be double-counted. Furthermore, the "Box Inlet-

East Side Wolf Rd" node table differs significantly from that shown in the HEC-HMS model.

iv. Provide a set of HEC-HMS results that match the conservative scenario displayed in the inundation maps because: (i) The inundation maps provided are for the scenario where the Ashbrook Subdivision ponds are not modeled, and the 2-hour duration storm is the critical duration., (ii) However, the HEC-HMS results provided are for the scenario where the ponds are modeled, and the 1-hour duration is critical.

v. Revise the inundation maps to reflect flood elevations upstream of Basin "C". For example, the "Storage West Side Wolf Road" node has critical duration elevations in excess of 660, which need to be shown on the inundation maps. This would include surcharging inlets along the dual culverts under proposed conditions.

bb. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a written response to each of the initial plan review comments from the Village Engineer and Village's consulting engineer contained in Attachment 4 of the Village Staff Memo dated November 18, 2024.

cc. The Applicant shall submit to the Village, as part of the Village plan review and approval process, a set of final engineering plans that include the location of all utilities and light poles that demonstrate there are no conflicts between utilities, light poles, and the proposed landscape areas.

3. Landscaping

a. The Applicant (and any successor owners, property managers, property associations), at its cost, shall be required to maintain each building façade and long-term lawn and landscape maintenance of the green spaces for the Development, which obligations shall be set forth in a combined Property Maintenance Plan / Landscaping Plan for the Village's plan review approval and final Village Board approval. Maintenance standards, tree replacement standards and other appropriate landscaping standards shall be part of the Applicant's Property Maintenance Plan / Landscape Plan for the Project, and the Applicant shall comply with the obligations and standards contained in the Property Maintenance Plan.

4. Right-Of-Way, Road, and Traffic

a. The Applicant proposes to maintain the current Wolf Road access point as the primary point of ingress and egress for the Development, subject to Cook County Department of Transportation and Highways approval of certain Wolf Road right-of-way modifications (i.e., required Project-related reconfiguration work to Wolf Road that may include a deceleration / turning lane) and modifications to the existing drainage culvert improvements that will allow it to construct the Development consistent with the current Site Plan. The Village's consideration of approval of the Development is conditioned on the Cook County Department of Transportation and Highways' approval of the current Wolf Road access point as the primary point of ingress and egress for the Development based on the current Site Plan and the Applicant's agreement to abide by the conditions

of approval required of the Applicant by the Cook County Department of Transportation and Highways relative to the Wolf Road right-of-way modifications and modifications to the existing drainage culvert improvements. The Applicant, at its cost, shall be responsible for entering into all easements, maintenance agreements and other binding documents with the Cook County Department of Transportation and Highways, and completing the Wolf Road right-of-way modifications and any modifications to the existing drainage culvert improvements. Other than the Village's plan review process, the Village shall not be obligated to participate in the Cook County Department of Transportation and Highways' required Wolf Road right-of-way modifications and modifications to the existing drainage culvert improvements that are necessary to construct the Development under the current Site Plan and that will allow the Applicant to construct the Development consistent with the current Site Plan. In the event the Cook County Department of Transportation and Highways does not approve of the current Wolf Road access point as the primary point of ingress and egress for the Development, the Applicant will have to petition for an amendment to the planned development ordinance and present a revised Site Plan with a modified point of ingress and egress for the Development for review and consideration by the Plan Commission at a public hearing and then review and consideration by the Village Board.

b. The Applicant, at its cost, shall construct a fence and swing gate across Heritage Court at the north lot line where the new Heritage Court meets the existing Heritage Court that serves the Heritage Springs Subdivision. The swing gate shall be operated by an Opticom sensor that shall be taller than the proposed fence/gate. The design of the swing gate shall ensure that gate electrical and control equipment is elevated one foot (1.0') above flood elevation. The swing gate must work at all times and shall have a battery backup system capable of operating the gate for at least 24 hours after loss of power to ensure operation during power outages. The swing gate must have appropriate sensors on both sides to ensure the gate can operate in either direction for emergency vehicles. Design plans, operational details, and loss of power procedure for the swing gate and the Opticom system must be submitted by the Applicant for review and approval by the Village's Director of Fire and EMS before any permit is issued for site development. The Applicant shall enter into an operations and maintenance agreement with the Homeowners Association for the Heritage Springs Subdivision relative to the swing gate and the Opticom sensor(s).

c. Vehicles parked in the driveway of Units 8, 15 and 21 may not overhang the curb or the sidewalk (if present).

d. New sidewalks installed by the Applicant are required along the west side of Wolf Road and the north side of Park Place frontage per the Village Code. Replacement of existing sidewalks along the west side of Wolf Road as needed as a result of the new access to Wolf Road is required by the Applicant. Placement of sidewalks must be as far from the paved roadways as practical, but the Village will defer to the Cook County Department of Transportation and Highways, as they will review and approve sidewalk placement and issue the permit for the work. On Park Place, placement of the sidewalk shall be one foot (1.0') inside the public right-of-way along the southern edge of the Development, except where it conflicts with the existing Ridgewood sign and the sidewalk shall dead end at west termini point. All new sidewalks shall comply with IDOT and Illinois Accessibility Code

standards for slopes. The northwest corner of the Park Place and Wolf Road sidewalk ramp shall be removed and replaced by the Applicant.

e. As part of the Maintenance and Development Agreement and the Declaration, the Applicant and the Heritage Crossing Homeowners Association shall be obligated to maintain the swing gate on a regular basis and to repair the swing gate, as needed, to ensure that the swing gate operates at all times.

f. The Applicant shall submit to the Village, as part of the Village plan review and approval process, updated plans that Convert the turnaround area north of Unit 15 to grasscrete or similar material.

g. The Applicant shall submit to the Village, as part of the Village plan review and approval process, an updated version of the color site plan prepared by BSB Design (revised November 5, 2024) with the crosswalk shown perpendicular (not angled) to Heritage Court, consistent with the Final Engineering Plans for Heritage Crossing, prepared by DesignTek Engineering, Inc. (revised November 4, 2024).

5. Signage

a. Provide information on any roadway vehicle traffic signage related to Heritage Court and other proposed subdivision signage type (private) for Village review for the Development for Village Board approval as part of its consideration of the planned development ordinance. All approved and required on-site parking restriction signage that pertains to the Development shall be installed and maintained by the Applicant, at its cost, or the Homeowners Association, at its cost.

b. Provide for the Ridgewood monument sign, in its current location, or in an alternate location in close proximity to its current location, as agreed upon by the Ridgewood Subdivision Civic Association and Cook County. If the Ridgewood monument sign remains in its current location, the Developer, at its cost, shall provide to the Ridgewood Subdivision Civic Association an easement over the portion of the Property that the sign is partially located on. If the sign is relocated, the Developer, at its cost, will make the required legal arrangements (i.e., easement agreement or land dedication) with either the Ridgewood Subdivision Civic Association or Cook County, or both, to provide for the long-term placement and maintenance of the monument sign.

c. The placement of the sidewalk on Park Place will require the movement of the Ridgewood subdivision sign. The relocation of the subdivision sign must be addressed by the Applicant as part of the Village plan review and approval process. The Applicant is required to provide the written approval from the Ridgewood Civic Association of the subdivision sign design and sign placement.

SECTION 4. Acknowledgement and Agreement to Comply With the Obligations, Conditions, Terms and Provisions Set Forth in This Ordinance. The Applicant agrees to comply with all of the obligations, conditions, terms and provisions of this Ordinance. The Applicant acknowledges and agrees that the Village is not and will not be, in any way, liable for any damages or injuries that may be sustained as a result of the Village's approval of this Ordinance or its review and approval of any plans for the

Development or the issuance of any permits for the Development, and that the Village's review and approval of any such plans and issuance of any such permits do not and will not, in any way, be deemed to insure the Applicant against third party claims, causes of action and damages or injuries of any kind at any time. The Applicant consents to the approvals granted in the Approval Ordinance and all conditions of those approvals and also to the recordation of this Ordinance with the CCCORD against title to the Property for the purpose of providing notice that the Applicant, and its transferees, successors-in-interest, all legal or beneficial owners of record, assigns, tenants, licensees and all subsequent owners of the Property or any part of the Property, or any other person and each and all homeowners associations or their equivalent within the Property, are subject to the obligations, conditions, terms and provisions of this Ordinance.

SECTION 5. Termination of Ordinance for Failure of Developer to Acquire Title to the Property. This validity of this Ordinance is subject to the Developer purchasing the Property from the Property Owner. In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract entered into between the Property Owner and the Developer, this Ordinance shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Ordinance. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract.

SECTION 6. Severability. The sections, terms, provisions and conditions of this Ordinance shall be severable, and if any section, term, provision or condition is found to be invalid or unenforceable for any reason by a court of competent, final jurisdiction, the remaining sections, terms, provisions and conditions shall remain in full force and effect.

SECTION 7. Repealer; Covenants that Runs With the Land. Any Ordinance, or portion thereof, in conflict with this Ordinance is repealed to the extent of such conflict. The terms, provisions and conditions set forth in this Ordinance, including those incorporated herein by reference, are covenants that run with the land and shall be released or amended only by mutual agreement of the Applicant and the Village, or unless amended by ordinance approved by the Village Board after the required public hearing.

SECTION 8. Filing with Cook County Recorder of Deeds Office. A certified copy of this Ordinance shall be recorded against title to the Property with the Cook County Clerk's Office, Recording Division ("CCCORD") by the Village, at the Applicant's cost. The Village shall provide the Applicant with a stamped copy of this Ordinance after it is filed with the CCCORD. The terms, provisions and conditions set forth in this Ordinance, including those incorporated herein by reference, are covenants that run with the land and shall be released or amended only upon the written consent of the Village Board.

SECTION 9. Effective Date. This Ordinance shall be in full force and effect from and after its adoption, approval and publication, as provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the ____ day of _____, 2025, and approved by me as President on the same day.

_____
Heidi Rudolph, Village President

ATTEST:

Group Exhibit "1"

The Application consists of information supporting the requested zoning relief, a description of the proposed improvements to be constructed as part of the Development, and the proposed Preliminary Development Plans, as follows:

Code Section	Requirement	Proposed
10-4-4(F)3a: Fences, Height Restrictions	Front yard: 3.5 ft. Rear & side yards: 6 ft.	8 ft.
10-6-5(D): Minimum Development Parcel Size	5 ac.	2.76 ac.
10-6-5(E)(1): Minimum Front Yard	25 ft.	7 ft.
10-6-5(E)(2): Minimum Corner Side Yard	25 ft.	14.48 ft.
10-6-5(E)(3): Minimum Interior Side Yard	30 ft.	6.67 ft.
10-6-5(E)(4): Minimum Rear Yard	30 ft.	12.75 ft.
10-8-4(B)(1)(e): Maximum Building Height	35 ft.	36.33 ft.
10-10-7: Street Design Criteria	Pavement width of 27 ft.	23 ft.
10-10-7: Street Design Criteria	Minium horizontal curve radius of 150 ft.	40 ft.
10-10-7: Street Design Criteria	Minimum vertical curves 100 ft. in length	50 ft.
10-11-11(C)2: Detention	Streets are not to be used for the storage of excess stormwater, ponding depths shall not encroach more than 3' on the adjacent traffic lane and shall not remain flooded for more than 8 hours for any event less than or equal to the 100-year event	Allow for storage of 1.5 ft on the entire street width from the northern property line to a point roughly 36.5 ft. south along the Heritage Court.

(incorporated herein by reference and with copies on file at
the Village Clerk's Office and the Community Development Department)

h. Variation from Subsection 10-11-11 (C)(2) (Stormwater Management Requirements For All Developments; Detention; Streets) of the DCO to allow the portion of the north end of Heritage Court (a private street) between the north lot line of the Property to a point approximately forty feet (40') south of the north lot line of the Property, which is not intended to be used for primary ingress and egress vehicle access to the Property, to be designed and constructed to temporarily hold stormwater during certain infrequent rain events to facilitate the movement of excess stormwater from the Property to the on-site stormwater detention basins and to draw stormwater off of the remainder Heritage Court and away from the private driveways of northerly dwelling units so that there is no ponding of stormwater in front of the dwelling units.

6. The Village's Official Land Use Plan, adopted by Ordinance No. 03-2226 dated February 24, 2003, was amended in 2021 in order to allow for the redevelopment of the 17 West Ogden Avenue Property with a higher density residential development. The Land Use Plan Amendment was approved on June 28, 2021, with the passage of Ordinance No. 21-3046. Similar to the Village's approval of the 17 West Ogden Avenue development, the proposed rezoning of the Property from O – Limited Office Zoning District to the R4 - Multiple-Family Residence District, with a conditional use permit for a planned development overlay approval, will follow the guidelines as set forth in Subsection 10-5-2(A)(6) (Purpose Statements) of the DCO:

> "R4 - Multi-Family Residence District: This district is intended to provide for a multiple-family residential environment of moderate density. The R4 district is intended to accommodate existing apartment buildings which have developed over time within the village. While this district will be applied to existing multi-family development built on a lot by lot basis, it is intended that new multi-family dwelling units shall be constructed as part of a planned development. (Ord. 01-2158, 1-22-2001)"

7. Based on the regulations set forth in the Village's DCO, the Requested Zoning Relief has to be considered by the Plan Commission at a public hearing and then the Village Board must consider approval of the Requested Zoning Relief.

8. As a supplement to its Application, the Applicant provided the following revised or supplemental documents:

a. On July 12, 2024, a set of revised or supplemental documents were filed.
b. On July 24, 2024, revised or supplemental documents were filed.
c. On August 1, 2024, a set of revised or supplemental documents were filed.
d. On August 26, 2024, a set of revised or supplemental documents were filed.
e. On September 10, 2024, a set of revised or supplemental documents were filed.
f. On September 16, 2024, a set of revised or supplemental documents were filed.
g. On September 20, 2024, a set of revised or supplemental documents were filed.
h. On September 24, 2024, a set of revised or supplemental documents were filed.
i. On September 25, 2024, a set of revised or supplemental documents were filed.
j. On October 3, 2024, a set of revised or supplemental documents were filed.
k. On October 18, 2024, a set of revised or supplemental documents were filed.
l. On October 22, 2024, a set of revised or supplemental documents were filed.
m. On October 24, 2024, a set of revised or supplemental documents were filed.
n. On November 6, 2024, a set of revised or supplemental documents were filed.

APPLICATION FOR DEVELOPMENT APPROVAL AND ZONING RELIEF;

MAP AMENDMENT AND CONDITION USE PERMIT FOR PLANNED DEVELOPMENT

To: Heather Valone
Director of Community Development
Village of Western Springs
4353 Wolf Road
Western Springs, IL 60558

By: Paul R. McNaughton
John Barry
McNaughton Development, LLC
11S220 Jackson Street
Burr Ridge, Illinois 60527

Project Summary: McNaughton Development LLC, as the contract purchaser of the property at 5600 S. Wolf Road in Western Springs is making the following application to allow for the demolition of the existing underutilized office building and its associated parking lots and for the construction of twenty-nine new three-story townhome units. The current 24,000 square foot office building and the parking lot sit on two parcels of land that total 2.414 acres. The final development will also include 0.341 acre of land currently owned by the village as a previous right-of-way for Lawn Avenue. This Lawn Area right-of-way is currently being maintained by the Heritage Estates Townhome Association as a detention facility. The Heritage Crossing townhome development would require the vacation of the Lawn Avenue right-of-way and the consolidation of it and the two existing parcels creating a 2.755-acre parcel to be rezoned under a Planned Development with an underlaying zoning district of R4 – Multi Family Residence District.

Applicant: McNaughton Development LLC, will be the owner and general contractor for the new twenty-nine three-story for sale townhome units within the Heritage Crossing development.

Subject Property Address: 5600 S. Wolf Road, Western Springs, Illinois 60558

Legal Description:

PARCEL 1: THE WEST 1/2 OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION BEING A SUBDIVISION OF THE EAST 473 FEET OF THE NORTH 775.5 FEET (EXCEPT THE EAST 145.2 FEET OF THE WEST 178.2 FEET OF THE NORTH 350 FEET THEREOF) OF THE NORTH EAST 1/4 OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, IN COOK COUNTY, ILLINOIS.

PARCEL 2: LOT 1 IN VIAL'S FAIRWAY, A SUBDIVISION OF PART OF THE NORTH EAST 1/4 OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT RECORDED APRIL 17, 1957 AS DOCUMENT 16879637 IN COOK COUNTY, ILLINOIS.

LAWN AVENUE: THAT PART OF THE 66 FEET WIDE VACATED LAWN AVENUE (VACATED PER DOCUMENT NO. 96138577), LYING SOUTH OF THE NORTH LINE OF WESTERN SPRINGS TOWNHOMES, RECORDED MARCH 29, 1999, AS DOCUMENT NO. 99297584, LYING NORTH OF THE SOUTH LINE OF RIDGEWOOD UNIT 12, RECORDED OCTOBER 6, 1965, AS DOCUMENT NO. 19610359, LYING WEST OF THE EAST LINE OF THE WEST 1/2 OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION, RECORDED NOVEMBER 13, 1948, AS DOCUMENT NO. 14442019, AND LYING EAST OF THE WEST LINE OF RIDGEWOOD UNIT NO. 11, RECORDED APRIL 3, 1964, AS DOCUMENT NO. 19089916, IN THE EAST HALF OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, COOK COUNTY, ILLINOIS.

PIN:

PARCEL 1:	18-18-200-038
PARCEL 2:	18-18-200-017
LAWN AVENUE RIGHT-OF-WAY:	18-18-200-001

Lot Size: Approximately 2.755 Acres

Current Zoning District:

PARCELS 1 & 2: O – Limited Office District
LAWN AVENUE
RIGHT-OF-WAY: R4PUD – Residential Planned Unit Development

Zoning Approval & Relief Requested:
Comprehensive Land Use Plan Amendment: Amend the Comprehensive Land Use Plan of the Village of Western Springs, Illinois Adopted February 24, 2003 from Office to Multiple Family (9-18 Density Units/ Acre).

Zoning Map Amendment: Amend to rezone the property to R4 – Multiple Family Residence District (Chapter 10-6-5) allowing for a permitted use of multi-family dwellings not exceeding six (6) dwelling units per building

Plat of Consolidation: Approval of a Plat of Consolidation that will result in creating a parcel of 2.755 acres which is less than the five-acre minimum requirement within the R4 - Multiple Family Residence District and the Planned Development

Resubdivision: Approval of a Plat of Resubdivision (10-10-3) to allow for the construction of twenty-nine townhome units, a stormwater detention facility and a private road

Conditional Use for a Planned Development: Approval of Conditional Use for a Plan Development with requested deviations from the R4 – Multi Family Residence District as reflected in the following exhibits.

Vacation of Right-of-Way: Approval of the Vacation of the existing Lawn Avenue as depicted in the preceding legal description and included in the following plat of consolidation.

PROJECT NARRATIVE DESCRIPTION
McNaughton Development LLC is the contract purchaser and Casey & Fran Gaik are the owners of the property located at 5600 S. Wolf Road, Western Springs. The property is currently zoned O – Limited Office District. It is one of just five properties within the Village of Western Springs with this zoning designation. The site is improved with a 24,000 square foot office building with its associated parking lots. The property, originally developed as a private school in the 1960's was later converted into and expanded for its current office use in the early 1990's. In recent years the tenant base has vacated the property to the point where the building is at five percent occupancy due to the building's obsolescence. The owners have aggressively marketed the property to other prospective tenants with no success. In addition, it has not been attractive to owner users for any other permitted or conditional use under the O – Limited Office District. It was then decided by the owner, at the suggestion of their real estate broker, that after great effort, the property value would most likely be found in redevelopment for multi-family residential use.

The proposed multi-family residential use will continue to provide for an orderly zoning transition from the intersection of 55th Street and Wolf Road. The existing zoning classification at that corner is C2 – Community Shopping District surrounded by a small A – Single Family Residence parcel

improved with a ComEd facility, a R4 – Multi-Family Residence District improved with condominium units and a R4 – Multi-Family Residence District Planned development improved with townhome units.

The proposed zoning request would permit the resubdivision of and the redevelopment of the property into twenty-nine three-story townhome units. The twenty-nine units will be constructed in eight different buildings ranging from duplex units to four, five and six wide unit buildings. The units will be three stories tall with a two-car garage and recreation room on the ground level, the main living areas on the middle level and the bedrooms on the third level. There are no roof top deck options being offered at this time. The buildings will be 38 feet tall as measured from the proposed final grade to the midpoint of the roof. The living area within the units will range from 2,400 to 2,600 square feet. All of the units will have three bedrooms, two full and two one-half bathrooms and two-car garages. None of the units will have a basement.

The property will have two access points with one at Park Place west of Wolf Road and a second, controlled access via the existing terminus of Heritage Court to the north of the site. The current access to Wolf Road is being eliminated due to a conflict with the current deceleration lane approach to Park Place, conflicts with entrance spacing between the condominium development and Park Place, and the county highway department's preference to eliminate curb cuts along minor arterial roadways such as Wolf Road. By offsetting the access to Park Place, providing entry monumentation and proposing offsite landscaping site access has been proposed in such a way to lessen the impact on the current property owners along the south side of Park Place. A preliminary application was made to the Cook County Highway Department and their response noted that they agreed with the above noted reasoning for the applicant's decision to provide access from Park Place and not directly from Wolf Road. The controlled access point to the north will be improved with four-foot heigh decorative aluminum operable gate. The gate will prevent cut through traffic from eastbound 55th Street to southbound Wolf Road. Gate access will be granted solely to the current fourteen residents along Heritage Court and the prospective twenty-nine residents of this proposed development. Emergency services will also be granted access to the gate.

The property will comply with the stormwater ordinances of both the Metropolitan Water Reclamation District (MWRD) and the Village of Western Springs. The proposed redevelopment will result in a reduction in the site's impervious surface as compared to the existing conditions, volume control storage and stormwater detention storage. The applicant is aware of the downstream flooding issue that are a result of approximately one hundred eighty acres of undetained stormwater from the LaGrange Highlands area east of Wolf Road which is directed through this site and ultimately reaching Flagg Creek. The proposed development will have no detrimental effect to downstream owners and the stormwater improvements will provide for marginal improvements to the area.

The proposed development is a for sale townhome development with private improvements that will be managed by its homeowner's association. The expected base purchase price is anticipated to be between $800,000.00 and $850,000.00. The exterior and interior finishes will be of the utmost quality to support the anticipated base pricing. At the same time, interior finish upgrades will be offered to the purchaser. It is anticipated that the target market will be young professionals with no or very young children and active adult move down buyers native to Western Springs and the surrounding communities. Elevator options will be possible in at least fifty percent of the units. The private improvements to be owned and maintained by the association will include the common area landscaping, stormwater improvements and the extended Heritage Crossing. Water main improvements will be turned over to Village of Western Springs and the sanitary sewer improvements to the La Grange Highlands Sanitary District.

I. PETITION FOR REQUESTED ZONING RELIEF

The applicant is requesting the following zoning relief and approvals as part of this applications:

(1) Amendment to the Comprehensive Land Use Plan of the Village of Western Springs, Illinois adopted February 24, 2003 from Office to Multiple Family (9-18 Density Units/ Acre).

(2) Zoning Map Amendment

Existing Zoning and Land Use:	O – Limited Office District / 24,000 square foot office building	
Adjacent Zoning and Land Use:	**North**	C2 – Community Shopping District/ gas station and community shopping, A – Single Family Residence parcel / ComEd facility, R4 – Multi-Family Residence District / condominium units and R4 – Multi-Family Residence District Planned development / townhome units.
	South	A – Single Family Residence
	East	Unincorporated Cook County Single-Family Residence District R4
	West	A – Single Family Residence
Proposed Zoning and Land Use:	R4 – Multi Family Residence District allowing for a permitted use of multi-family dwellings not exceeding six (6) dwelling units per building	

(3) Plat of Consolidation
Approval of a Plat of Consolidation that will result in creating a parcel of 2.755 acres which is less than the five-acre minimum requirement within the R4 - Multiple Family Residence District and the Planned Development. The consolidation of the parcels will allow for an orderly redevelopment of the property, particularly as it relates to stormwater management.

(4) Resubdivision
Approval of a Final Plat of Resubdivision to allow for the construction of twenty-nine townhome units, a stormwater detention facility and a private road on a parcel of less than the five acres minimum requirement. The applicant is requesting to bypass the Resubdivision requirement to submit preliminary plans and simply request final plan approvals in light of the size of the property.

(5) Conditional Use Permit
Approval of a Conditional Use to allow for a Planned Development with the following deviations from the requirements R4 – Multi Family Residence District and per the following plans and exhibits.

R4 – Multiple Family Residence District Requirements vs Requested Relief:

Minimum Development Parcel Size
Required: 5 Acres
Requested: 2.755 Acres

Front Yard Setback
Required: Twenty-Five Feet (25)
Requested: Twenty Feet (20) Garage Face to the Closer of the Sidewalk or Curb with the permitted encroachment of the Middle Level Deck and Third Level Living Area

Interior Sideyard Yard Setback
Required: Thirty Feet (30)
Requested: Eight Feet (8) with the permitted encroachment of bay windows

Corner Sideyard Yard Setback
Required: Twenty Feet (25)
Requested: Twenty Feet (25) with the permitted encroachment of bay windows

Rear Yard Setback
Required: Thirty Feet (30)
Requested: Twenty-Five Feet (25) with the permitted encroachment of Middle and Third Level Projections and Balconies

Multiple – Family Dwelling Height
Required: Thirty-Five (35) Feet
Requested: Thirty-Eight (38) Feet

Maximum Building FAR
Required: 54,311.51 SF
Requested: 126,008.40 SF

Vacation of Right-of-Way

Approval of the vacation of the 0.341 acre of land currently owned by the village as a previous right-of-way for Lawn Avenue. The applicant is requesting that the acquisition cost of this vacation be made at no cost to the applicant. The applicant feels that its offer to make stormwater improvements to the site, including to the detention facility, and its commitment and its successors commitment of perpetual care and maintenance is sufficient compensation.

(1) MAP AMENDMENT STANDARDS

Pursuant to Section 10-3-12(F)(1) (Map Amendments) of the DCO, the Applicant must provide the information relative to each of the Standards that are to be used by the Plan Commission and the Village Board to evaluate the suitability of a map amendment.

a. Existing uses of property within the general area of the property in question. The property is currently zoned O – Limited Office District and is along Wolf Road which is under the jurisdiction of the Cook County Highway Department.

North Parcels: Gas station and community shopping, ComEd facility, condominium units and townhome units.

East Parcels: Unincorporated Cook County Single-Family Residence District R4

South & West Parcels: Single Family Home

b. The zoning classification of property within the general area of the property in question.

North Parcels:
C2 – Community Shopping District
A – Single Family Residence
R4 – Multi-Family Residence District
R4 – Multi-Family Residence District Planned Development.

East Parcels: Unincorporated Cook County Single-Family Residence District R4

South & West Parcels: A- Single Family Residence

c. The suitability of the property in question to the uses permitted under the existing zoning classification.

The property is not suitable for uses permitted under the O – Limited Office District. This zoning district permits for professional offices, including, but not limited to, offices for attorneys, physicians, dentists, architects, consulting engineers, insurance agents, and village government offices. This use has proven to have failed in light of the current building occupancy being at 5% for an extended period of time. The zoning district does permit for multi-family however, when placed on the second floor of the other permitted uses within the development.

d. **The trend of development, if any, in the general area of the property in question, including changes, if any, which have taken place in its present zoning classification.**

The trend of development is for multi-family residential construction. In fact, the existing office building is not compatible to the trend of development. The existing office uses and commercial developments are all located along 55th Street. Wolf Road in the southwest portion of Western Springs is dominated by residential development. This property is bounded of the north with a three-story condominium building and two-story townhomes. Due to the unique shape of this parcel and its size, the continuation of a multi-family product is an appropriate transition to the single-family development to the west and south

e. **The suitability of the property in question for permitted uses listed in the proposed zoning classification.**

The property is suitable for the uses within the R4 – Multi-Family Residence District Planned Development.

The compatibility of the surrounding property with the permitted uses listed in the proposed zoning classification.

Being residential in nature, the proposed R4 – Multi-Family Residence District Planned Development is compatible with the surrounding residential uses.

The objectives of the current comprehensive plan for the village and the impact of the proposed amendment on the said objectives.

The applicant is requesting an amendment to the Comprehensive Land Use Plan of the Village of Western Springs, Illinois Adopted February 24, 2003 from Office to Multiple Family (9-18 Density Units/ Acre). This amendment will not result in any detrimental effects within the village or the neighborhood. The amendment will allow for the demolition of an underperforming building, orderly redevelopment of the site providing a positive tax generating use for the village, school districts and other taxing bodies.

(2) CONDITIONAL USE PERMIT STANDARDS

Pursuant to Section 10-3-14(G) of the DCO, the following Standards need to be satisfied in order for the Village Board to approve the Conditional Use Permit establishing the Planned Development.

1. **That the establishment, maintenance, or operation of the conditional use will not be detrimental to, or endanger the public health, safety, morals, comfort, or general welfare.**

The granting of the conditional use permit to allow for a R4 – Multi-Family Residence District Planned Development on a site less than 5 acres will not be detrimental to or, endanger the public health, safety, morals, comfort or general welfare or injurious to other nearby property or improvements. The proposed conditional use permit will allow for the development of a well-designed townhome development that reduces current impervious services and provides storm management facilities which results in downstream benefits. According to

a traffic study prepared by KLOA, no significant negative impacts on the surrounding road network would result from the development. Given the foregoing, granting the conditional use permit will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.

2. **That the conditional use will not be injurious to the uses and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood in which it is to be located.**

The proposed conditional use will allow a well-designed townhome development that minimizes impact on natural areas and is well separated from existing development with the use of landscaping fencing and setbacks. Setbacks within the development allow adequate light and air while preserving views across the site. Density is consistent with surrounding multi-family developments and according to a traffic study prepared by KLOA, no substantial impact on the surrounding street system is anticipated. Site engineering is designed to reduced impervious surfaces, preserve natural topography and existing drainage patterns and enhance the stormwater management facilities on-site so as to provide marginal improvements to the overall area.

As represented in the applicant's materials, a fiscal analysis indicates a positive impact on property values and real estate taxes. Given the foregoing, the proposed conditional use permit will not impair an adequate supply of light and air to adjacent property or substantially increase the congestion of the public streets, or increase the danger of fire, or impair natural drainage or create drainage problems on adjacent properties, or endanger the public safety, or substantially diminish or impair property values within the neighborhood.

3. **That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.**

The subject property is in an immediate area dominated by commercial development, multi-story attached single family, attached single family and detached single-family residential development. The anticipated density of the proposed development is consistent with the requested comprehensive plan amendment and is appropriate in light of the intensity of the surrounding uses and the local roadway system.

Given the foregoing, the proposed development will not impede the normal and orderly development of surrounding property but will in fact be complimentary to existing and future uses.

Those adequate public utilities, access roads, drainage and/or necessary facilities have been or will be provided.

There is an adequate supply of public utilities in the vicinity of the property. The property can be served easily by public sewer and public water. The development will cause no substantial impact on the surrounding street system. Site

engineering is designed to reduced impervious surfaces, preserve natural topography and existing drainage patterns and enhance the stormwater management facilities on-site so to provide marginal improvements to the overall area.

4. **That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.**

The property will have two access points with one at Park Place west of Wolf Road and a second, controlled access via the existing terminus of Heritage Court to the north of the site. The current access to Wolf Road is being eliminated due to a conflict with the current deceleration lane approach to Park Place, conflicts with entrance spacing between the condominium development and Park Place and the county highway department's preference to eliminate curb cuts along minor arterial roadways such as Wolf Road. The access to Park Place has been engineered in such a way to lessen the impact on the current property owners along the south side of Park Place.

The controlled access point to the north will be improved with four-foot heigh decorative aluminum operable gate. The gate will prevent cut through traffic from eastbound 55th Street to southbound Wolf Road. Gate access will be granted solely to the current fourteen residents along Heritage Court and the prospective twenty-nine residents of this proposed development. Emergency services will also be granted access to the gate.

According to a traffic study prepared by KLOA, no substantial impact on the surrounding street system is anticipated.

5. **That the proposed conditional use is not contrary to the objectives of the current comprehensive plan for the Village of Western Springs.**

The applicant is requesting an amendment to the Comprehensive Land Use Plan of the Village of Western Springs, Illinois Adopted February 24, 2003 from Office to Multiple Family (9-18 Density Units/ Acre). However, the proposed amendment and the proposed plan do meet the goals set forth in the of the Comprehensive Land Use Plan for residential areas. The proposal enhances and protects the overall single family residential feel of the village. The product provides variety in housing types available in the village to entice new residents to the village and also allow for long-term residents to remain in the community. The proposal is compatible with the commercial and multi-family uses to the north and provides for an orderly transition to the south and west.

6. **That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified pursuant to the recommendations of the plan commission and approved by the village board.**

The proposed development will conform with the R4 – Multi-Family Residence District except for the requested deviations requested for approval by the Village Board.

(3) ADDITIONAL SUBMITTAL REQUIREMENTS

Pursuant to DCO 10-8-8, the Applicant would like to specifically address the following submittal requirements.

3. Project Design Features:

a. A detailed site plan has been provided illustrating street and pedestrian ways, typical building layouts, setbacks building heights, open spaces and site data

b. Final engineering plans are provided with complete topographical information and stormwater calculations

c. Final engineering plans are provided indicating the feasibility of providing utility service to the site via water mains, sanitary, and storm sewers and storm water detention facilities.

d. Final landscape plans are provided depicting project signage. Project marketing signage has not been developed as of this submittal. Any public facing signage shall be submitted for review to village staff for comment and approval.

e. Final landscape plans are provided indicating the location, number and desired effect of proposed landscaping.

f. Character elevations are provided along with floor plans and exterior color pallets

g. Final engineering plans are provided indicating street lighting

h. Final engineering plans are provided including a sediment and erosion control plan indicating methods to control erosion and sedimentation on and adjacent to the site.

4. Other Requirements: Applications for planned developments shall also include the submission of the following:

a. Fiscal impact study has been provided by the applicant illustrating the impact of the development on the Village of Western Springs and School Districts 106 & 204

b. Fiscal impact study has been provided by the applicant illustrating the impact of the development on the school districts from a fiscal and population standpoint

c. Traffic impact study has been provided by Kenig, Lindgren, O'Hara, Aboona, Inc. (KLOA)

d. The applicant has provided comparable sales research and a letter from a local real estate professional in lieu of a full market study report.

e. Final engineering plans are provided indicating how construction activity will be controlled by addressing contractor ingress/egress, construction parking, street cleaning and pest control.

f. The applicant has a forty-year track record of custom development and construction will provide financial references upon request.

g. Proposed covenants are provided.

i. The applicant is a contract purchaser of the property and has included a letter from the owner authorizing the applicant to make this application.

j. Notification list for public hearing to be provided by the village.

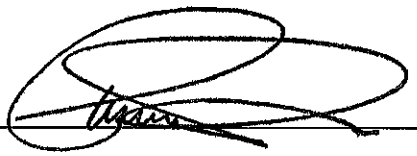
k. Development schedule.
- Application submittal 5/10/2024
- Community meeting 6/5/2024
- Plan Commission meeting 6/19/2024
- Planning and Zoning Committee Meeting 7/2/2024
- Village Board Workshop / Village Board Meeting 7/22/2024
- Site demolition 8/19/2024
- Site grading and underground utilities 9/2/2024
- Start construction on model building 9/16/2024
- Site pavement 9/30/2024
- Model grand opening 3/1/2025

l. Final engineering plans are provided with this submittal, which complies with of all applicable plans and materials required in Chapter 11 of this Ordinance, "Flood Plain and Storm Water Management".

DEVELOPER/BUILER & PROJECT TEAM INFORMATION

McNaughton Development LLC is a custom home builder and land development company that builds architecturally exciting high-end, distinctive homes. It has extensive experience in the construction of high-end residential product. It has developed numerous properties from one to three hundred acres. McNaughton Development is a family owned and operated company that is deeply rooted in Chicagoland area since 1981 and believes that a custom home is the product of the customers ideas and dreams and our commitment to making it a reality.

DesignTek Engineering has been an established civil engineering design and consulting firm servicing the Chicagoland region, surrounding suburbs, and northwest Indiana for over 20 years. Founded in 2003, DesignTek has expanded its services and client base by providing personalized attention to the needs and expectations of their clients. Their team of professional engineers, surveyors, and support staff tackle a wide variety of diverse projects in all fields of land development including residential, commercial, industrial, institutional, and municipal projects.



BSB Design, founded in 1966 by Jack Bloodgood, began as a one-man shop operating out of a barn in Des Moines, Iowa. Today, it has grown into a renowned architectural and design firm,

making an impact on much more than just the single-family home market. With offices coast to coast, they offer national experience with regional sensitivity. As a preeminent design firm, it has leveraged its unique abilities to see the future more clearly and to create environments that transform lives.

Kenig, Lindgren, O'Hara, Aboona, Inc. was formed in 1995 by Neil Kenig, Gerald Lindgren, Donald O'Hara and Luay Aboona. Today, Luay Aboona continues with his partner Michael Werthmann to lead the firm in providing quality traffic, transportation, and parking consulting services to its clients. KLOA, Inc.'s staff of transportation engineers and planners represent over 150 years of professional experience. Their high standards, commitment to the industry, and concern for each client assure the KLOA, Inc. mission to provide superior service in a timely and cost-effective manner. They approach each project as a special assignment that requires critical analysis, detailed research, creative thinking, and communicative interaction to develop practical solutions.

VII. CONCLUSION

McNaughton Development LLC is pleased to submit this application and is confident, with the approval of the village board, that the development will be an excellent addition to the Village of Western Springs.

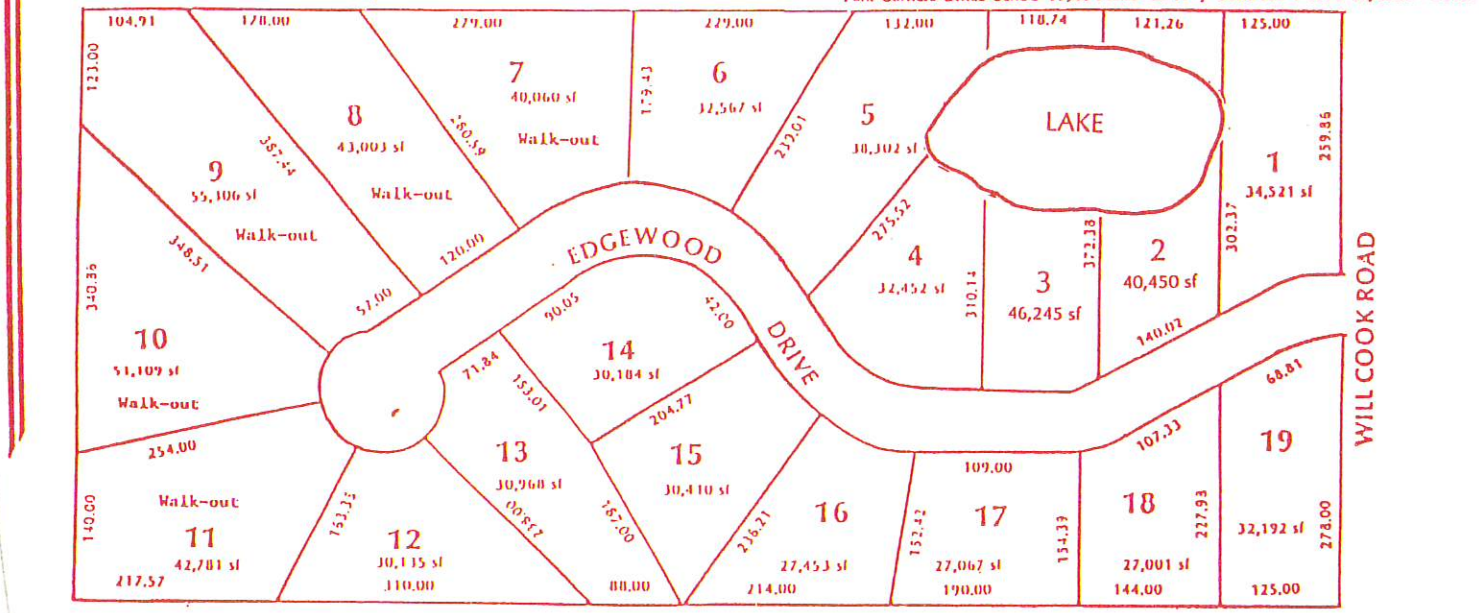
This plan was prepared to illustrate the development potential for the site. As a Site Plan, it is conceptual in nature. Therefore, all dimensions are subject to verification and the Site Plan is subject to modification pending a final planning, engineering, architecture and municipal approval.



MEADOWS EDGE

McNaughton Development Inc.

General Contractor • Builder
Custom Designed Homes 708/361-8300

McNAUGHTON REALTY GROUP INC.
Park Corners Office Centre 11900 Southwest Hwy Suite 101 Palos Park, Illinois 60464

"MEADOWS EDGE" is a planned development consisting of 19 rolling homesites, many of which are wooded "walk-outs". This exclusive development provides the home owner with the serenity of a country setting with city conveniences only minutes away.

These choice lots range in size from 3/4 acre to over 1 acre. A scenic private lake will compliment this beautiful serene community. Located on Will cook Road at 14900 South, just 3 miles west of LaGrange Road (Route 45) makes this the location for your dream home!

TYPICAL SETBACK & EASEMENT DETAIL
(UNLESS OTHERWISE SHOWN)

1. ALL AREAS ARE PLUS OR MINUS.
2. ALL EASEMENTS ARE HEREBY GRANTED.
3. ALL DISTANCE ARE IN FEET AND DECIMAL PARTS THEREOF.
4. THERE SHALL BE NO INGRESS OR EGRESS FROM OUTLOT "A" TO SOUTHWEST HIGHWAY.

EASEMENT PROVISIONS

Easements are hereby reserved for and granted to the Village of Orland Park, Illinois and to those public utility companies operating under franchise from the Village of Orland Park, including, but not limited to Ameritech, Northern Illinois Gas Company (NICOR), Commonwealth Edison Company, Cable Television and their successors and assigns, over all the areas marked "Public Utilities and Drainage Easement" (P.U. & D.E.) on the plat for the perpetual right, privilege and authority to construct, reconstruct, repair, inspect, maintain and operate various utility transmission and distribution systems, community antenna television systems and including storm and/or sanitary sewers, together with any and all necessary manholes, catch basins, connections, appliances and other structures and appurtenances as may be deemed necessary by said village, over, upon, along, under and through said indicated easements, together with right of access across the property for necessary men and equipment to do any of the above work.

No right is also granted to trim or remove fences, trees, shrubs or other plants on the easements that interfere with the operation of the sewers or other utilities. No permanent buildings shall be placed on said easements, but same may be used for gardens, shrubs, landscaping and other purposes that do not harm or later interfere with the aforesaid uses or rights, where an easement is used both for sewers and other utilities, the other utility installation shall be subject to the ordinances of the Village of Orland Park.

Easements are hereby reserved for and granted to the Village of Orland Park and other governmental authorities having jurisdiction of the land platted hereby over the entire easement area for ingress, egress and the performance of municipal and other governmental services, including water, storm, and sanitary sewer services and maintenance.

NICOR GAS COMPANY

AN EASEMENT IS HEREBY RESERVED FOR AND GRANTED TO NORTHERN ILLINOIS GAS COMPANY, ITS SUCCESSORS AND ASSIGNS ("NI-GAS") TO INSTALL, OPERATE, MAINTAIN, REPAIR, REPLACE AND REMOVE FACILITIES USED IN CONNECTION WITH THE TRANSMISSION AND DISTRIBUTION OF NATURAL GAS IN, OVER, UNDER, ACROSS, ALONG AND UPON THE SURFACE OF THE PROPERTY SHOWN ON THIS PLAT MARKED "EASEMENT," "COMMON AREA OR AREAS" AND STREETS AND ALLEYS, WHETHER PUBLIC OR PRIVATE, AND THE PROPERTY DESIGNATED IN THE DECLARATION OF CONDOMINIUM AND/OR ON THIS PLAT AS "COMMON ELEMENTS," TOGETHER WITH THE RIGHT TO INSTALL REQUIRED SERVICE CONNECTIONS OVER OR UNDER THE SURFACE OF EACH LOT AND COMMON AREA OR AREAS TO SERVE IMPROVEMENTS THEREON, ON OR ADJACENT LOTS, AND COMMON AREA OR AREAS, AND TO SERVE OTHER PROPERTY, ADJACENT OR OTHERWISE, AND THE RIGHT TO REMOVE OBSTRUCTIONS, INCLUDING BUT NOT LIMITED TO, TREES, BUSHES, ROOTS AND FENCES, AS MAY BE REASONABLY REQUIRED INCIDENT TO THE RIGHTS HEREIN GIVEN, AND THE RIGHT TO ENTER UPON THE PROPERTY FOR ALL SUCH PURPOSES. OBSTRUCTIONS SHALL NOT BE PLACED OVER NI-GAS' FACILITIES OR IN, UPON OR OVER THE PROPERTY IDENTIFIED ON THIS PLAT FOR UTILITY PURPOSES WITHOUT THE PRIOR WRITTEN CONSENT OF NICOR. AFTER INSTALLATION OF ANY SUCH FACILITIES, THE GRADE OF THE PROPERTY SHALL NOT BE ALTERED IN A MANNER SO AS TO INTERFERE WITH THE PROPER OPERATION AND MAINTENANCE THEREOF.

THE TERM "COMMON ELEMENTS" SHALL HAVE THAT MEANING SET FORTH FOR SUCH TERM IN SECTION 605/2(e) OF THE "CONDOMINIUM PROPERTY ACT" (ILLINOIS COMPILED STATUTES, CH. 765, SEC. 605/1(e)), AS AMENDED FROM TIME TO TIME, THE TERM "COMMON AREA OR AREAS" IS DEFINED AS A LOT, PARCEL OR AREA OF REAL PROPERTY, INCLUDING REAL PROPERTY SURFACED WITH INTERIOR DRIVEWAYS AND WALKWAYS, THE BENEFICIAL USE AND ENJOYMENT OF WHICH IS RESERVED IN WHOLE AS AN APPURTENANCE TO THE SEPARATELY OWNED LOTS, PARCELS OR AREAS WITHIN THE PROPERTY, EVEN THOUGH SUCH AREAS MAY BE DESIGNED ON THIS PLAT BY OTHER TERMS.

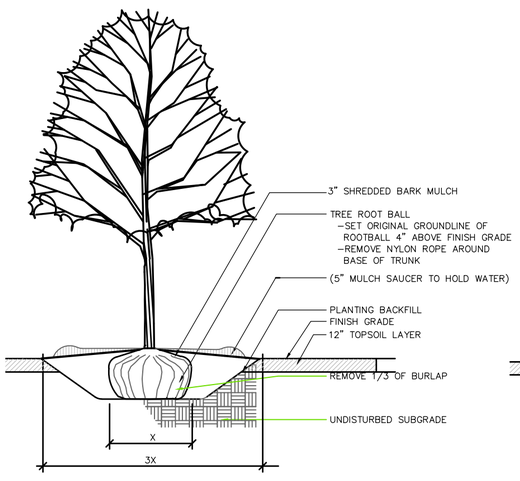
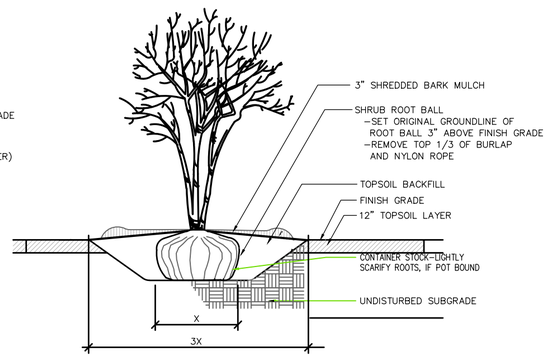
SLOPE INSTALLATION
APLICACIONES PARA TALUDES

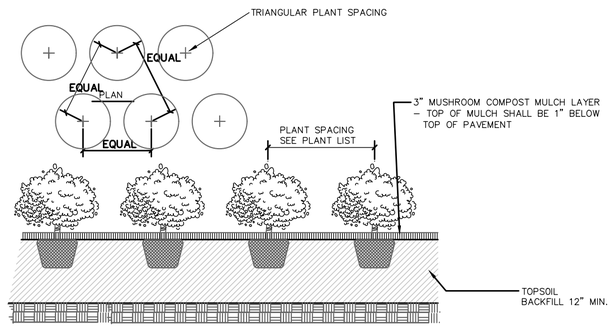
NORTH AMERICAN GREEN
EROSION CONTROL *Products* *Guaranteed* SOLUTIONS

14649 HIGHWAY 41 NORTH
EVANSVILLE, IN 47725
800-772-2040
www.nagreen.com





1. PREPARE SOIL BEFORE INSTALLING ROLLED EROSION CONTROL PRODUCTS (RECP's), INCLUDING ANY NECESSARY APPLICATION OF LIME, FERTILIZER, AND SEED.
   NOTE: WHEN USING CELL-O-SEED DO NOT SEED PREPARED AREA. CELL-O-SEED MUST BE INSTALLED WITH PAPER SIDE DOWN.
2. BEGIN AT THE TOP OF THE SLOPE BY ANCHORING THE RECP's IN A 6" (15 CM) DEEP X 6" (15 CM) WIDE TRENCH WITH APPROXIMATELY 12" (30cm) OF RECP's EXTENDED BEYOND THE UP-SLOPE PORTION OF THE TRENCH. ANCHOR THE RECP's WITH A ROW OF STAPLES/STAKES APPROXIMATELY 12" (30 CM) APART IN THE BOTTOM OF THE TRENCH. BACKFILL AND COMPACT THE TRENCH AFTER STAPLING. APPLY SEED TO COMPACTED SOIL AND FOLD REMAINING 12" (30 CM) PORTION OF RECP's BACK OVER SEED AND COMPACTED SOIL. SECURE RECP's OVER COMPACTED SOIL WITH A ROW OF STAPLES/STAKES SPACED APPROXIMATELY 12" (30 CM) APART ACROSS THE WIDTH OF THE RECP's.
3. ROLL THE RECP's (A.) DOWN OR (B.) HORIZONTALLY ACROSS THE SLOPE. RECP's WILL UNROLL WITH APPROPRIATE SIDE AGAINST THE SOIL SURFACE. ALL RECP's MUST BE SECURELY FASTENED TO SOIL SURFACE BY PLACING STAPLES/STAKES IN APPROPRIATE LOCATIONS AS SHOWN IN THE STAPLE PATTERN GUIDE. WHEN USING THE DOT SYSTEM™, STAPLES/STAKES SHOULD BE PLACED THROUGH EACH OF THE COLORED DOTS CORRESPONDING TO THE APPROPRIATE STAPLE PATTERN.
4. THE EDGES OF PARALLEL RECP's MUST BE STAPLED WITH APPROXIMATELY 2" – 5" (5 CM – 12.5 CM) OVERLAP DEPENDING ON RECP's TYPE.
5. CONSECUTIVE RECP's SPLICED DOWN THE SLOPE MUST BE PLACED END OVER END (SHINGLE STYLE) WITH AN APPROXIMATE 3" (7.5 CM) OVERLAP. STAPLE THROUGH OVERLAPPED AREA, APPROXIMATELY 12" (30 CM) APART ACROSS ENTIRE RECP's WIDTH.
   NOTE:
   *IN LOOSE SOIL CONDITIONS, THE USE OF STAPLE OR STAKE LENGTHS GREATER THAN 6" (15 CM) MAY BE NECESSARY TO PROPERLY SECURE THE RECP's.



1. PREPARE EL TERRENO ANTES DE INSTALAR LAS MANTAS, INCLUYENDO LA APLICACION DE CAL, FERTILIZANTE Y SEMILLA.
   NOTA: CUANDO ESTE USANDO CELL-O-SEED NO SIEMBRE EL AREA PREPARADA. CELL-O-SEED TIENE QUE INSTALARSE CON EL LADO DE PAPEL HACIA ABAJO.
2. COMIENCE EN LA CABECERA DEL TALUD SUJETANDO LA MANTA EN UNA ZANJA DE 6" (15 CM) DE PROFUNDIDAD FOR 6" (15 CM) DE ANCHO CON APROXIMADAMENTE 12" (30 CM) DE LA MANTA EXTENDIDA MAS ALLA DE LA PENDIENTE ALTA DE LA ZANJA. SUJETE LA MANTA AL FONDO DE LA ZANJA CON UNA LINEA DE GRAPAS O ESTACAS APROXIMADAMENTE 12" (30 CM) UNA DE LA OTRA. RELLENE Y COMPACTE LA ZANJA DESPUES DEL ENGRAPE. RIEGE LA SEMILLA EN EL SUELO COMPACTADO Y DOBLE LAS 12" (30 CM) REMANENTES DE MANTA SOBRE LA SEMILLA EL SUELO COMPACTADO. ASEGURE LA MANTA SOBRE EL SUELO CON UNA LINEA DE GRAPAS O ESTACAS APROXIMADAMENTE 12" (30 CM) UNA DE LA OTRA A TRAVES DEL ANCHO DE LA MANTA.
3. DESENROLLE LAS MANTAS (3A) HACIA ABAJO U (3B) HORIZONTALMENTE A TRAVES DEL TALUD CON EL LADO APROPIADO HACIA LA SUPERFICIE DEL SUELO. TODAS LAS MANTAS DEBERAN ASEGURARSE A LA SUPERFICIE DEL SUELO POR MEDIO DE GRAPAS O ESTACAS EN LUGARES APROPIADOS TAL Y COMO SE INDICA EN EL PATRON GUIA DE ENGRAPADO. CUANDO ESTE USANDO EL DOT SYSTEM™, LAS GRAPAS O ESTACAS DEBEN COLOCARSE A TRAVES DE CADU UNDO DE LOS PUNTOS CON COLOR CORRESPONDIENTES AL PATRON DE ENGRAPADO APROPIADO.
4. LOS BORDES DE LAS MANTAS PARALELAS TIENEN QUE ENGRAPARSE CON UN TRASLAPE DE APROXIMADAMENTE 2" – 5" (5 CM – 12.5 CM) DEPENDIENDO DEL TIPO DE MANTA.
5. MANTAS CONSECUTIVAS UNIDAS EN LA BAJADA DE LOS TALUDES, DEBEN COLOCARSE ORILLA SOBRE ORILLA (TIPO ESCALONADO) CON UN TRASLAPE DE APROXIMADAMENTE 3" (7.5 CM). ENGRAPE EL AREA TRASLAPADA CON UNA SEPARACION DE APROXIMADAMENTE 12" (30 CM) A TRAVES DE TODO EL ANCHO DE LA MANTA.

   NOTA:
   * EN CONDICIONES DE SUELTO, PUEDE QUE SE NECESITEN GRAPAS O ESTACAS DE MAS DE 6" (15 CM) DE LARGO PARA ASEGURAR LAS MANTAS CORRECTAMENTE.

REV. 01/05

LANDSCAPE SPECIFICATIONS

1.11 GENERAL LANDSCAPE NOTES

A. Unless stated otherwise herein, all seeding, sodding and landscape planting work shall be performed in accordance with the Iowa Department of Transportation (IDOT) Standard Specifications for Highway and Bridge Construction (latest edition) as specified in Section 200 (Earthwork, Landscaping and Erosion Control).

B. Unless stated herein, all materials shall meet the requirements of the following Articles of Standard the Iowa DOT Specifications for Road and Bridge Construction Section 1000 – Materials:

Item	Section
Erosion Control	2601
Furnish Install Trees Shrubs/Warranty	2611
Erosion Control Materials	4169
Landscape Plant Materials	4170

1.12 TOPSOIL/FINE GRADING

A. Approved topsoil shall be supplied and installed at the following depths:
Seeded and sodded areas – 8-12" depth
Shrub bed areas and landscaped islands – 12" depth
Groundcover/perennial areas – 12" depth (amended soil mix as shown in detail)

B. Approved topsoil shall be free of roots, noxious weed seeds, sticks, rocks or miscellaneous debris which may impair plant growth. Topsoil shall not be worked or graded while frozen or in an excessively wet or dry condition. Topsoil shall not be accessibly acidic or alkaline and shall not contain any herbicide residue. The Owner reserves the right to have representative samples of the topsoil tested by a qualified soil testing laboratory at no cost to the Owner.

C. All top-soiled areas shall be fine graded to elevations indicated on the grading plan prior to receiving sod or landscaping. All areas shall drain properly so that there are no puddles or standing water in any lawn or plant bed areas. Areas improperly graded shall be regarded at the Contractor's expense.

D. Remove rocks, stones and other foreign debris while spreading and grading. If necessary, had spread topsoil around buildings, structures, walks, drives or trees to avoid damage.

E. Where graded areas interface with non-graded undisturbed edges, remove turf along edge to create a straight smooth transition line between graded and non-graded areas. Fine grade transition area so that finis grades of graded and non graded areas are flush.

1.13 SEEDING/SODDING

A. Seeding work shall conform to Section 4169 of the IDOT Standard Specifications for Highway and Bridge Construction.

B. Seed mix for seeded turf grass areas shall be the following:

1. Type A Seed Mix (General Lawn Area). Field of Dreams Reseeder Seed Mix- Blend

25% Accent Perennial Ryegrass
25% Caddieshack Perennial Ryegrass
25% Blue Chip Kentucky Bluegrass
25% Freedom III Kentucky Bluegrass

Apply at the rate of five pounds per 1,000 SF. Supplier- National Seed Company,4720 Yender Avenue, Lisle, Illinois (630) 417-9055

C. Prior to work, submit three copies of seed vendor's certificate for grass seed mixture, indicating weight, and percentages of purity, germination and weed seed.

D. Sodding work, if provided, shall conform to Section 2601 of the IDOT Standard Specifications for Highway and Bridge Construction.

E. Prior to work, submit three copies of sod grower's location for approval. Sod shall be from a locally grown source. Sod shall be in healthy growing condition, free of weeds, pests and cut to the specified thickness. The Owner has the right to reject unacceptable sod at the growing site.

F. All fine grading for seeded and sodded areas shall be approved by the Owner prior to work.

G. Install seeding on prepared, finished graded areas and in favorable weather conditions within the following periods: April 1st through May 31st; and August 15th through October 15th.

H. Install sodded areas per Section 2601 of the IDOT Standard Specifications for Highway and Bridge Construction.

I. Fertilize seeded areas per Section 2601 of the IDOT Standard Specifications for Highway and Bridge Construction. Fertilizer shall be a 10-10-10 Max Lawn mix (or Equal) and applied to 14.4 pounds per 1,000 square feet.

J. Fertilize sodded areas per Section 2601 of the IDOT Standard Specifications for Highway and Bridge Construction.

K. Apply seed blanket to all lawn seeded areas per the details indicated on the drawings.

L. Guarantee all seeding and sodding work for a period of one year following final acceptance. Areas not accepted upon completion of the guarantee period shall be resodded to fill in voids and areas not covered in seed or sod.

M. Maintain seeded and sodded areas for a period of 45 days following installation. Maintenance shall consist of watering, mowing and weeding. Repair and reseed bare spots or seeded and sodded areas that have not established or have washed out due to erosion.

N. Initial mowing shall be done at a 3" cutting height so than not more than 33% of the grass is removed in a single mowing. Cutting heights on follow up mowings can be readjusted to a 2.5" grass blade height.

1.14 TREE, SHRUB AND GROUNDCOVER PLANTING

A. The Owner reserves the right to inspect all material at the nursery. Only nursery grown stock will be permitted to be used on the Project.

B. All tree, shrub and groundcover planting shall be performed between the dates of March 15 and May 31, and August 15 and October 15. Actual planting shall be performed only during periods within this season when weather and soil conditions are suitable and in accordance with locally accepted practice, as approved by the Owner's Representative.

A. Location for all trees, intermediate trees and evergreen trees shall be staked and outlines of bed areas shall be clearly marked on the ground by a qualified landscape representative of the Contractor, and shall be subject to approval by the Owner's Representative prior to commencement of planting.

B. All shrub beds shall be mulched with 3" of shredded hardwood bark mulch. Groundcover beds shall be mulched with 2" of mushroom compost. Provide shredded hardwood bark mulch rings (3" depth) for all shade and flowering trees. Diameter of mulch rings shall be equal to diameter of root ball.

C. Mulch shall comprise partially decomposed shred hardwood bark. Mulch shall be a brown-black color, and, free of oversized pieces (1/2" x4") and fine particles. Prior to work, Contractor shall submit three mulch samples for approval for use prior to work.

D. Imported topsoil, if necessary, shall consist of fertile, friable natural topsoil typical for this locality. It shall not contain a mixture of subsoil or slag and free of lumps, stones, plants and their roots, stalks and other extraneous matter and shall not be used while in a frozen or muddy condition. Topsoil shall have a pH range of 6.0-7.0 and shall not contain less than 12 percent organic matter.

E. Tree, Shrub and Groundcover Establishment Period, Inspections and Guarantees.

1. Establishment Period. For a period of 60 days after planting of trees, shrubs, and groundcovers, (not including dormancy periods), the Contractor shall properly care for all plants, and planning beds including watering, weeding fertilizing, cultivating, adjusting or bracings or other maintenance work which is necessary to keep the plants in a healthy condition and in a plumb position. All plants shall be watered as season conditions require, and as directed by the Owner, until provisional acceptance of the planting.

2. Provisional Acceptance. At the end of the Establishment period, the planting shall be inspected by the Owner for provisional acceptance of the planting. Any plant material which is dead, damaged, untrue to natural form of the species, or otherwise unhealthy, shall be replaced by the Contractor at his expense. The Owner shall accept maintenance responsibilities of the planting after the provisional acceptance.

3. Guarantee and Final Acceptance. The Contractor shall guarantee that all plants shall be in a healthy and vigorous condition one full growing season after the provisional acceptance. The planting shall be inspected by the Owner at the end of the guarantee period. Any plant material which is dead, damaged, untrue to natural for of the species, or otherwise unhealthy, shall be replaced by the Contractor at his expense.

4. Provisional acceptance and guaranteed periods of landscaped plantings may be in part or whole.
NATIVE PLANTING SPECIFICATIONS

2.0 PURPOSE

These specifications, and the plan drawing, detail the standards and procedures required to successfully establish native plant communities within and adjacent to the on-site stormwater detention basin (SDB). Upon successful establishment, the native vegetation will provide water quality benefits to the surrounding area by filtering sediments and pollutants from stormwater runoff generated on-site. Additionally, the floral diversity created by these plantings will provide a valuable source of wildlife habitat, as well as a unique and aesthetically pleasing landscape.

2.01 CONTRACTOR QUALIFICATIONS

The Native Landscape Contractor chosen for the establishment and enhancement of the natural areas must be experienced in the restoration, installation, and management of said areas. They must have a minimum of five years experience in the field. There shall be a supervisor available at all times that can identify non-native and native plants by genus and species. The goal of installing successful native plant communities is a long-term process. Therefore, it is imperative that a qualified Native Landscape Contractor perform the initial installation and maintenance.

2.02 QUALITY AND CONDITION

1. Native seed shall be obtained from sources east of the Mississippi River, within the same EPA Level III Ecoregion as the project site (Central Corn Belt Plains). Plant origins outside of the Ecoregion shall be approved by the Wetland Consultant.

2. Native seeds shall be blended by the vendor, and the mixture and ratio shall be guaranteed in writing to be as specified. The amount of seed indicated on the specifications shall mean the total amount of pure live seed (PLS) per acre for all species listed. It is the sole responsibility of the Native Landscape Contractor to provide approved seed that meets industry-standard PLS requirements.

3. Native Landscape Contractor shall provide the Wetland Consultant with the name and location of the seed supplier, origin of the various kinds of plants, and a statement of the purity of the seed.

4. Seed shall conform to applicable State and Federal regulations as in effect on the date of letting. Unless otherwise specified, seed shall not contain in excess of 1 percent weed seeds; 0 percent is desirable.

5. All storage requirements, stratification, and scarification considerations shall be the sole responsibility of the Native Landscape Contractor.

6. Mycorrhizal inoculants shall be palletized and mixed at 1 lb. per acre with the fine seeds before installation. The inoculants shall contain a diverse mixture of Glomales fungal species (Glomus spp.) in palletized form.

2.03 HANDLING

1. Native Landscape Contractor shall be solely responsible for the proper handling and storage of the seed according to the best seed handling and storage practices, including fungicide treatments and stratification considerations. Owner shall make no compensation for damage to the seed because of improper storage, cleaning, threshing, or screening operations.

2. All native seeds shall be packed and covered in such a manner as to ensure adequate protection against damage and maintain dormancy while in transit, storage, or during planting operations.

3. Seed shall be kept dry and unopened until needed for use. Seed shall not be stored or temporarily stored in locations or vehicles where the temperature will be in excess of 90 degrees F.

Table 4. Erosion Control Blanket Details
See Plans

2.04 SITE PREPARATION

1. The General Contractor and Native Landscape Contractor shall be responsible for performing all work necessary to achieve and maintain an acceptable seedbed prior to seeding. All areas must be properly prepared before seeding begins. Underground utility location maps and plans should be reviewed prior to work. Equipment having low unit pressure ground contact shall be utilized within the planting areas.

2. Unless the Landscape Architect agrees to another approach, the seedbed shall be prepared by working the topsoil to a depth of 3 inches. Site preparation equipment shall be of a design that can be utilized efficiently by the Native Landscape Contractor to meet the requirements for the work specified. The equipment proposed for use by the Native Landscape Contractor for disking and herbicide applications shall be subject to approval by the Landscape Architect.

3. Prior to seeding, at least 6 inches of topsoil shall be present and free of all clods, stones, roots, sticks, rivulets, gullies, crusting, and cracking. The soil aggregate size will be no greater than 2 inches in the largest diameter.

4. If present, compacted soils shall be disked or raked prior to seeding. Remedial measures for the access area may, at the direction of the Wetland Consultant, involve ripping from 12 to 18 inches of the soil horizon prior to disking. If compaction is not a concern and the seedbed needs to be loosened prior to seeding to ensure good seed-soil contact, disking or raking shall be performed using equipment and the approach recommended by the Native Landscape Contractor, subject to approval by the Wetland Consultant.

5. If needed, cultivation shall occur within 24 hours prior to seeding. Seeding should occur immediately after the last cultivation preferably before a rain.

FIRE STROBE 2OOO

EMERGENCY VEHICLE STROBE DETECTOR

The FIRE STROBE 2OOO provides rapid access to automatic gates and secured areas. The FIRE STROBE 2OOO opens gates when activated by an emergency vehicle equipped with the standard operational strobe. The most common frequency is (14Hz).

Now with STROBEWATCH™.

FEATURES:

RAPID DETECTION OF ANY EMERGENCY STROBE

- Fire
- Paramedics
- Police
- 911 Response Vehicles
- Double and Quad Flash Strobes
- 100% Digital

FIELD PROGRAMMABLE

- Coated Optics
- 2 Relay Outputs
- Relay Timing

EASE OF INSTALLATION

- FIRE STROBE 2OOO can be installed on any existing gate system
- Sensitive photodiode complete with PVC housing and lens assembly can be mounted in a variety of ways
- FIRE STROBE 2OOO is designed to accommodate AC or DC operation
- Units are provided with a 12 VAC plug in transformer

MANUFACTURED BY:
ACCESS PRODUCTS, INC.
(858) 292-1561 FAX (858) 292-6955
www.firestrobe.com

DISTRIBUTED BY:

FIRE STROBE 2OOO Technical Specifications

BASIC CONCEPT

The FIRE STROBE 2OOO signal is received optically by line of sight. The range varies with the ambient light and intensity of the strobe emitter. A typical range varies from 150 feet to 500 feet. The detector will not allow false operation with unwanted signals from radio interference and/or flashing headlights or loud sounds.

The acquisition time from the emitter light source to the discriminate module is approximately .5 seconds.

The FIRE STROBE 2OOO is widely used for security /electric gate access. It can be used for firehouse garage doors and other related access needed by emergency vehicles. This emergency-vehicle strobe detector provides rapid access to any gated community that has been serviced by fire and emergency equipment from the OPTICOM* STROBE SYSTEM.

INSTALLATION & TESTING

Complete installation instructions are provided with the FIRE STROBE 2OOO for simple hook-up of the unit to interface with your gate or access control. Two dry contacts are also provided for bi-directional operation where needed

The photoeye assembly is typically mounted 8 feet to 10 feet above the street level and is aimed for optimal strobe signal. (A total of (2) photoeye assemblies may be used). A 12 VAC power supply is provided with the FIRE STROBE 2OOO system.

Testing can be accomplished with the optional fire strobe transmitter tester. This FIRE STROBE 2OOO transmitter will enable a throughput of signals from the photoeye assembly to the relay output. This is a hand-held transmitter which operates via 9-volt battery.

TECHNICAL SPECIFICATIONS

1. Frequency 14.035 Hz+/- .25 Hz for class II signals. For OPTICOM* emitters, double, quad flash strobes 140-170 fpm. 100 % digital.
2. The FIRE STROBE 2OOO is fully compatible with the OPTICOM* priority control emitter.
3. Now with Strobewatch™ programmable for double and quad flash, vehicle mounted strobes. These are usually found on police and other emergency vehicles.
4. The strobe acquisition time is .5 seconds.
5. The PC board construction is mounted in the enclosed 8" x 8" x 4" rain-tight NEMA J-Box.
6. The weight is approximately seven pounds.
7. The power requirements are 12/24 volts AC/DC non-polarity conscious, approximately 1 watt draw.

WARRANTY

The FIRE STROBE 2OOO has a one year warranty when used according to the manufacturer's specifications. This warranty does not apply when the FIRE STROBE 2OOO has been abused, over voltaged, or altered in any way, The warranty coverage is at the sole discretion of the manufacturer. This unit is to be used only for the operations described above.

BENCHMARKS

BENCHMARK: (INITIAL) NGS PID: ME1716

BRASS DISK SET IN TOP OF CONCRETE MONUMENT LOCATED AT THE NORTHWEST CORNER OF THE INTERSECTION OF 55TH STREET AND WOLF ROAD. MONUMENT IS 80' NORTH OF THE CENTERLINE OF 55TH STREET AND 40' WEST OF THE CENTERLINE OF WOLF ROAD.

ELEVATION = 662.19' (NAVD 88)

BENCHMARK: (ON-SITE)

CROSS CUT IN TOP OF CURB LOCATED 47.71' SOUTH AND 3.55' EAST OF THE SOUTHEAST CORNER OF PARCEL 2 AS SHOWN HEREON.

ELEVATION = 665.70' (NAVD 88)

NOTES:

1. THE EXACT LOCATION OF UNDERGROUND UTILITIES SUCH AS GAS, TELEPHONE, FIBER OPTIC, ELECTRIC, CABLE TV AND PIPE LINES ARE UNKNOWN. THE CONTRACTOR SHALL CONTACT JULIE (1-800-892-0123 OR 811) AND ALL OTHER UTILITY OWNERS WHICH ARE IN THE PROJECT LIMITS BEFORE COMMENCING EXCAVATION.

2. THE SUBSURFACE UTILITY QUALITY INFORMATION IN THIS PLAN IS LEVEL D. THIS UTILITY QUALITY LEVEL WAS DETERMINED ACCORDING TO THE GUIDELINES OF CI / ASCE 38-02 ENTITLED "STANDARD GUIDELINES FOR THE COLLECTION AND DEPICTION OF EXISTING SUBSURFACE UTILTIY DATA."

TOPOGRAPHIC SURVEY AND BOUNDARY NOTES:

THE TOPOGRAPHY AND BOUNDARY SHOWN HEREON WAS PREPARED BY WOLFPAK CONSULTING, LLC AND SUPPLIED BY THE CLIENT STATED HEREON.

TOPOGRAPHIC SURVEY AND BOUNDARY NOTES:

SUPPLEMENTAL TOPOGRAPHY SHOWN HEREON WAS PREPARED BY DESIGNTEK ENGINEERING, INC.

SURFACE WATER DRAINAGE CERTIFICATE

STATE OF ILLINOIS)
COUNTY OF WILL)

TO THE BEST OF OUR KNOWLEDGE AND BELIEF THE DRAINAGE OF SURFACE WATERS WILL NOT BE CHANGED BY THE CONSTRUCTION OF THESE LOT IMPROVEMENTS OR ANY PART THEREOF, OR THAT IF SUCH SURFACE WATER DRAINAGE WILL BE CHANGED, REASONABLE PROVISIONS HAVE BEEN MADE FOR THE COLLECTION AND DIVERSION OF SUCH WATERS INTO PUBLIC AREAS OR DRAINS WHICH THE OWNER HAS A RIGHT TO USE, AND THAT SUCH SURFACE WATERS WILL BE PLANNED FOR IN ACCORDANCE WITH GENERALLY ACCEPTED ENGINEERING PRACTICES SO AS TO REDUCE THE LIKELIHOOD OF DAMAGE TO THE ADJOINING PROPERTIES BECAUSE OF THE CONSTRUCTION OF THESE LOT IMPROVEMENTS.

COVER SHEET

EARTHWORK

1. Topsoil Excavation Includes:
   a. Excavation of topsoil and other structurally unsuitable materials within those areas that will require earth excavation or compacted earth fill material, in order to achieve the plan subgrade elevations. The amount of topsoil to be stripped shall be verified in the field by a soils engineer.
   b. Placement of the excavated material in OWNER designated areas for future use within areas to be landscaped, and those areas not requiring structural fill material.
   c. Compaction of the excavated material where placed in areas not requiring structural fill material, shall be moderate.
   d. Excess materials, if not utilized as fill or if not stockpiled for future landscaping, shall be completely removed from the construction site and disposed of by the CONTRACTOR.
2. Earth Excavation Includes:
   a. Excavation of earth and other materials which are suitable for use as structural fill. The excavation shall be to within a tolerance of 0.3 feet (+) of the plan subgrade elevations. The (+) tolerance within pavement areas shall be such that the earth material shall "balance" as part of the fine grading operation.
   b. Placement of the earth and other suitable materials shall be within those areas requiring structural fill in order to achieve the plan subgrade elevations to within a tolerance of 0.3 feet (+). The fill material shall be placed in loose lifts that shall not exceed eight (8) inches in thickness, and the water content shall be adjusted in order to achieve the required compaction. Earth material may be placed within those portions of the building site not requiring structural fill, to within four (4) inches of the plan finished grade elevation. In areas requiring structural fill, however, the earth material shall not be placed over topsoil or other unsuitable materials unless specifically directed by a Soils Engineer with the concurrence of the OWNER.
   c. Compaction of the earth and other suitable materials, shall be to at least 95% of the maximum dry density as determined by the Modified Proctor Test, ASTM D1557 laboratory procedure within proposed pavement areas and building areas, an rear yards abutting to the proposed lakes. Moderate compaction is required elsewhere. All fill shall be placed in 8" lifts, loose measure.
   d. Excess materials, if not utilized as fill, shall be completely removed from the construction site and disposed of by the CONTRACTOR.
3. Unsuitable Material
   a. Unsuitable material shall be considered as material which is not suitable for the support of pavement and building construction, and is encountered below normal topsoil depths and the proposed subgrade elevation. The decision to remove said material, and to what extent, shall be made by a Soils Engineer with the concurrence of the OWNER in writing.
4. General

   The Grading CONTRACTOR shall:
   a. Maintain proper site drainage at all times during the course of construction, and prevent storm water from running into or standing in excavated areas.
   b. Spread and compact uniformly to the degree specified all excess trench spoil after completion of the underground improvements.
   c. Scarify and compact to the degree specified the upper twelve (12) inches of the suitable subgrade material, in all areas that may be soft due to excess moisture content. This applies to cut areas as well as fill areas.
   d. Provide water to add to dry material in order to adjust the moisture content for the purpose of achieving the specified compaction.
5. Testing and Final Acceptance
   a. The CONTRACTOR shall provide as a minimum, a fully loaded tri-axle dumptruck or similar equipment for proof rolling the pavement subgrade prior to the placement of the curb and gutter and the base material. In addition, the pavement aggregate base course shall also be proof rolled. The Village Engineer shall be notified 48 hours in advance of any proof roll.
   b. Specific compaction testing may be required by the OWNER in selected fill areas. The CONTRACTOR shall bear the cost of any compaction testing which does not meet specification as well as the responsibility and cost for the necessary correction(s).
   c. Approval of the pavement subgrade by the OWNER shall be required prior to the placement of the pavement materials.
   d. The subgrade soil shall be tested by a professional geotechnical engineer at the developer's expense and shall have a minimum designated Illinois Bearing Ratio (IBR equal to three (3).
   e. A soil investigation report shall be provided to the Village to verify the in situ IBR value. Pavement structures with subgrade soil having an IBR value less than three (3) shall have an increased pavement structure as necessary to carry the design traffic loading.
6. Method of Measurement
   a. As-built measurements of earthwork for the purpose of payment shall not apply. the quantities shown in the engineer's "quantity estimate" shall be utilized unless said quantities are adjusted by mutual consent of the owner and contractor prior to the signing and acceptance of a contract.
   b. The quantities as shown in the engineer's "quantity estimate" are those estimated by the engineer and are provided solely for the convenience of the contractor. the contractor by choosing to utilize these quantities in the preparation of his "lump sum" bid, also accepts their accuracy. the contractor is therefore encouraged to make his own independent earthwork calculation, and to visit the site prior to the preparation of his bid.
   c. Prior to the removal of unsuitable material, the contractor shall notify the owner for authorization to remove said material, upon authorization and removal, the contractor shall request that the unsuitable material shall be field measured by the engineer in place.
7. Basis of payment
   a. Payment for all earthwork shall be "lump sum". the contractor shall provide unit prices for earthwork for the purpose of contract adjustment, if required.
   b. Payment for the removal of unsuitable material shall be based on the quantities as field measured by the engineer. the contractor shall provide as part of his bid a unit price per cubic yard for the removal of unsuitable material. said unit price shall include the complete removal of the material, replacement with a suitable material obtained by the contractor from a borrow source, and compaction to the required specification.

UNDERGROUND UTILITIES - GENERAL

1. The Underground CONTRACTOR Shall:
   a. Adhere to the criteria for the separation between water mains and sanitary sewers, storm sewers, combined sewers, sewer services and septic fields according to the requirements stated in the IEPA Rules for Public Water Supplies (the formal citation is Title 35, Subtitle F, Chapter II, Parts 651–654). All sewer water main separations shall be constructed per the "Standard Specifications for Water and Sewer Main Construction in Illinois".
   b. Be responsible to place on grade, and coordinate with other CONTRACTORS, all underground utility structure frames such as manholes, catch basins, and inlets.
   c. Be aware of potential conflicts with existing utilities. The CONTRACTOR shall excavate around the existing utilities to determine their exact location and elevation prior to the construction of the proposed utility improvements. Should unforeseen conflicts be found, the CONTRACTOR shall contact the ENGINEER prior to constructing the proposed improvements.
   d. Adjust or reconstruct any existing utility structure to the satisfaction of the utility owner. Adjustments and/or reconstructions not called for on the plans shall be considered incidental to the contract. No more than two adjusting rings within a min. of four inches (4") and a max. of twelve inches (12") of adjusting rings.
   e. Provide poured concrete fillets conforming to the shape of the pipe in all sanitary and storm manholes, and inlets.
   f. Be responsible for maintaining the top of any utility trench at least three (3) feet away from any existing or proposed curb or pavement, in those instances where the trench runs parallel to said curb or pavement.
   g. Be responsible for the dewatering of utility trenches during construction and providing the necessary trench bracing that may be required to assure safe working conditions.
   h. Remove soft material that may be encountered at the pipe invert elevation to a depth of at least one (1) ft. below the bottom of the pipe, and backfill with compacted bedding material.
   i. No damage to the road subgrade with excessive water saturation from hydrant flushing or from leaks in the water distribution system. The cost of repair for such damage shall be borne by the CONTRACTOR. Hoses should be used to direct the water from hydrant flushing into the storm sewer system (if available).
   j. Repair any existing field drainage tile damaged during construction, and properly reroute and/or connect said tile to the nearest storm sewer outlet. All locations of encountered field drainage tile shall be properly indicated on the CONTRACTOR'S record drawing.
   k. Furnish one (1) set of Record drawings to the ENGINEER upon completion of the sanitary sewers and water mains. Drawings (or table of locations) shall indicate the location of all sanitary sewer wyes (measured from the nearest downstream manhole), sewer stubs, water service along main and b–boxes. The CONTRACTOR shall also furnish linear distance along water main from appurtenances to appurtenance (valve vault to tee, tee to bend, etc.).
   l. Be responsible for implementation of the "Soil Erosion and Sedimentation Control Measures" as applicable.
   m. Maintain erosion control measures (straw bales and filter fabric) until grass is established.
2. Method of Measurement
   a. All sanitary sewer, storm sewer, and water main pipe shall be measured in the field after its installation. Payment shall be based on these field measurements.
   b. All appurtenances such as manholes, catchbasins, inlets, valves and valve vaults, valve boxes, and fire hydrants, shall be paid for on the basis of in–place quantities.
   c. Trench backfill material shall be measured by multiplying the as–constructed length of pipe (where applicable) by the average depth of the pipe by the "Payment Quantities per foot of Conduit" listed in Table 1, pg. 138 and "Typical Detail of Conduit Installation", pg. 137 of the Standard Specification for Sewer and Water in Illinois. If requested, the CONTRACTOR shall provide load tickets to the ENGINEER for verification of the trench backfill material delivered to the construction site. Load tickets for bedding material shall be submitted separately.
3. Basis of Payment
   a. All sanitary sewer, water main, and storm sewer pipe shall be paid for at the contract unit price per LINEAL FOOT. The price shall include the necessary labor and material for a complete in–place installation, as well as all incidental construction, testing, bedding material, and connections to existing utilities.
   b. All appurtenances for the underground improvements shall be paid for at the contract unit price EACH, said price to include the necessary labor and material for a complete in–place installation. The price for manholes, inlets, and catchbasins shall also include the frame and grate and all incidental construction. The price for fire hydrants shall also include a six (6) inch valve and box, and all incidental construction.
   c. Trench backfill material shall be paid for at the contract unit price per CUBIC YARD. Compaction must be made by mechanical methods.
4. As–Built Water & Sanitary Services
   a. As–built locations shall be provided for all water and sanitary sewer stubs. They shall also be stamped on the curb.
5. Structure Castings
   a. Frames and lids (or grates) for sanitary, watermain and storm sewer structures shall be as indicated on the plans, and the cost of same shall be integrated into the representative structure costs. Each structure lid shall be cast with text identifying the type of structure (storm, sanitary, water).
   b. Manhole castings shall be adjusted to finished grade using precast adjusting rings set on bitumastic material. All structures shall have no more than two adjusting rings w/ a min. of four inches (4") and a max. of twelve inches (12") of adjusting rings.
   c. All frames shall be set on a mastic bed with all gaps tuck pointed.
   d. All castings shall be made in the U.S.A. with U.S.A. materials.
6. Trench Backfill
   a. Bedding, haunching and the initial backfill shall consist of IDOT CA–7, CA–11 OR CA–19 aggregate. The initial backfill shall be placed to at least 12" above the pipe.
   b. Final backfill of the trench shall be accomplished by careful replacement of the excavated material. Any pipe installed under or within a 45 degree angle of repose (1:1) from the top of pipe to the edge of pavement, driveway (when driveway location is known) or curb and gutter shall be backfilled to the top of the trench with compacted IDOT CA–7, CA–11 or CA–19 material.
   c. Compaction shall be in achieved using 8" lifts (uncompacted) and mechanical compaction to 95% density. All costs for compaction and testing shall be paid for by the Developer or Contractor. Results shall be copied to the Village Engineer.

SANITARY SEWER

1. Material shall be:
   a. Green polyvinyl chloride pipe (PVC) SDR 26.
   b. PVC SDR 26 or D.I.P. CL 52.
   c. sewer pipe and fittings shall be in accordance with ASTM D–3034 for sizes 4"–15" (100–375 mm).
2. Joints shall be:
   a. for PVC; flexible elastomeric seal joints, ASTM D–3139, pressure joint.
   b. for DIP; rubber gasket joints, ANSI A21.11
3. Bedding shall be as detailed on the Engineering Plan.
4. Minimum size for mains shall be eight inches (8") and the minimum size for services shall be 6".
5. Wyes or Tees shall be provided on the new sanitary sewers for proposed building services.
6. "Band Seal" or similar couplings shall be used when joining pipes of dissimilar materials.
7. All sanitary structures shall have an external wrap, MAC or approved equal.
8. Polyethylene encasement shall be provided for all DIP sanitary sewer in accordance with AWWA latest standards.
9. Prior to pipe laying and jointing, the trench shall be sufficiently dewatered to maintain the water level in the trench at or below the base of the bedding. State / Federal permits, license agreements or other required approvals shall be obtained prior to dewatering.
10. Where separation from water main cannot be maintained as required per Illinois specifications, the sanitary sewer shall be mechanical joint PVC pressure pipe meeting C–900 or C–905.
11. Sewers shall be laid straight in both horizontal and vertical planes between manholes with a minimum cover of 4 feet.
12. Sanitary sewers shall be located a minimum of 10 feeet from any building and meet separation requirements of the Standard Specifications for Water and Sewer Main Construction in Illinois.
13. Services shall be a minimum 6 inches and extend to the property line or beyond any utility located in the front yard of a lot being served (single–family development), or to within five (5) feet from the face of a proposed building being served (multi–family and commercial development). The termination points shall be clearly located with a green–topped 4 inch x 4 inch stake extending a minimum 3 feet above final grade. The service lines shall be connected to the sewer using a wye at the 10:00 and 2:00 positions. Service lines not immediately connected to the building to be served shall be tightly plugged, using a plug provided by the pipe manufacturer for such use.
14. Testing and Final Acceptance
   a. Sanitary sewer mains and services shall be tested for exfiltration of air under pressure and deflection for flexible thermoplastic pipe in accordance with the Standard Specifications for Water and Sewer Construction in Illinois prior to their final acceptance. Allowable testing limits shall be as described in the "Standard Specifications" unless the local requirements are more restrictive. Service stubs must be properly plugged and sealed and clearly located at their termination points prior to testing. All sewer mains, service lines and manholes shall be clean and free of debris prior to their final acceptance. Sanitary Sewer shall be inspected and tested in accordance with the local jurisdictional requirements for television inspection and reviewed by the Village Engineer. Two copies of all test results shall be provided to the Municipality.
   b. Sanitary Manhole structures shall be tested, prior to acceptance, for watertightness by either of the following methods in conformance with the requirements specified: ASTM C 969: "Standard Practice for Infiltration and Exfiltration Acceptance Testing of Installed Precast Concrete Pipe Sewer Lines." OR ASTM C 1244: "Standard Test Method for Concrete Sewer Manholes by the Negative Pressure (Vacuum) Test."
   c. All public sanitary sewer extensions shall be internally video taped by remote camera. Tapes shall be in color using VHS or CD–ROM format and submitted with written reports to the Village Engineer for review and approval priot to acceptance of the sewer improvements by the Village.
   d. LaGrange Highlands will be the agency responsible for sewer main acceptance.

WATER MAIN

1. The Village of Western Springs is the agency responsible for the water main.
2. All installations shall conform to the requirements of the Standard Specifications for Water and Sewer Main Construction in Illinois.
3. Material for main pipe and fittings shall be class 52 ductile iron pipe with poly wrap for the public water main per AWWA C–151, with mechanical and push–on joints complying with AWWA C–111.
4. Material for the services shall be soft temper, Type K, copper water tubing, conforming to ASTM latest standard w/ compression fittings, unless otherwise noted on the plans.
5. Sizes for main & service lines shall be as indicated on the Engineering Plan.
6. Connections to Village water system shall be made under full water service pressure. Unless noted on plans and Village approval granted for shutdown. Shutdown requests need to be made to municipal services department 4 days prior to desired shutdown date. Contractor required to distribute shutdown notices to any impacted customers 2 business days prior. Village to provide notice text.
   a. Tapping sleeves shall include two piece bolted sleeve type with mechanical joints, Mueller–H615, or equal with joint accessories.
   b. Tapping valves shall include fully ported gate valves complying with AWWA C500 and mechanical joints type, Mueller–H667 or equal. Tapping valves shall be placed in precast concrete vaults.
7. The shut–off valve or curb stop for services shall be located as shown on the plans and shall be installed with a valve box of design approved by the Municipality. The termination point shall be clearly located with a blue–topped 4 inch x 4 inch stake extending a minimum of 3 feet above and below final grade.
8. Valves: Mueller, Clow or equal mechanical joint, resilient wedge seat, cast iron, bronze–mounted, O–ring seal, bronze non–rising stems, gate valves. Valvesshall open left and be tested to 500 psi with a 250 psi working pressure.
9. Water services, where indicated on the "Quantity Estimate" as "long" or "short", shall include the necessary length of Type "K": copper water tube of the size shown on the plans, corporation stop, curb stop, and service box, and all necessary labor, tools, equipment, excavation & backfill, for a complete installation as shown on the Engineering plans. Trench backfill will be paid for separately, when required.
10. Valve Boxes
    a. Valve boxes shall be adjustable, 3–piece cast iron, 5–1/4 inch shaft roadway–type and no–tilit drop cover with "WATER" cast into it.
    b. Valve box stabilizer of PVC manufactured by Valve Box Stabilizer, Inc. for six–inch (6") and eight–inch (8") valve boxes shall be provided.
    c. Valve box must have additional upward or downward travel when adjusted to finished grade.
11. Valve Vaults
    a. All valve vaults shall be precast reinforced concrete only.
    b. All valve vaults shall have no more than two adjusting rings with a minimum of four inches (4") and a maximum of twelve inches (12") of adjusting rings.
    c. All lifting holes, joints between precast reinforced concrete sections, rubber gaskets cast into concrete structures need to be water tight and shall be tuckpointed with hydraulic cement.
    d. All castings shall be set on bitumastic material.
    e. Bitumastic material shall be placed between precast reinforced concrete sections.
    f. All valve vaults shall have neoprene coated or fiberglass steps.
    g. Vaults and boxes shall not be allowed under streets, sidewalks or driveways.

WATER MAIN

11. Fire Hydrants
    a. Fire Hydrants shall be Mueller super centurian 250. Factory painted safety red with 5–1/4 inch valve opening and shall be painted red.
    b. The hydrant shall be for a five foot (5') bury with mechanical joint shoe and have two 2–1/2 inch hose connections and one four and one–half inch (4–1/2") male pumper connection. Thread shall be National Standard.
    c. The hydrant shall have a break–away traffic flange and connections.
    d. All fire hydrants not in service shall be bagged.
    e. Hydrants leads shall be six–inch (6") swivel anchoring coupling. Hydrant tees shall be used in lieu of swivel anchoring coupling pipe where required to meet plan locations.
    f. The maximum distance between fire hydrants shall be 350 feet.
    g. All fire hydrants shall be kept clear of obstructions within three (3) feet in all directions. This shall include posts, fences, vehicles, growth, trash, storage, and any other material or objects.
    h. All fire hydrants to have a 10 pound anode bag attached to the hydrant.
12. Pipe Cover and Separation
    a. Cover over water pipes shall be a minimum of 5.5 feet.
    b. Horizontal and vertical separation shall meet requirements of the "Standard Specifications for Water and Sewer Main Construction in Illinois." Locations requiring alternative materials are noted on the plans.
13. Pipe Laying
    a. The contractor shall keep the trench free from water while the water main is being placed and until the pipe joint has been sealed to the satisfaction of the Village Engineer.
    b. Adequate provisions shall be made for the safety, storage, and protection of all water pipe prior to installation in the trench. Care shall be taken to prevent damage to the pipe castings, both inside and out. Provisions shall be made to keep the inside of the pipe clean throughout its storage period and to keep mud and/or other debris from being deposited therein. All pipe shall be thoroughly cleaned on the inside before laying of the pipe. Proper equipment shall be used for the safe handling, conveying, and laying of the pipe so as to prevent damage to water main materials and protective coatings and linings. Under no circumstances shall water main materials be dropped or dumped into the trench.
    c. In making joints, all portions of the jointing materials and the socket and spigot ends of the joining pipe shall be wiped clean of all foreign materials. The actual assembly of the jointing shall be in accordance with the manufacturer's installation instructions. During construction, until jointing operations are complete, the open ends of all pipes shall at all times be protected and sealed with temporary watertight plugs.
    d. During water main installation, to make a closure between two pipe ends, or between pipe end fittings, or between pipe end and valve, short lengths shall be used with proper connections or couplings. Repair sleeves shall not be used to make closures during new construction.
    e. All pipe and trenching shall be viewed and approved by the Municipality prior to cover and backfill.
    f. All bends of 22–1/2 degrees or greater, and all tees and plugs shall be thrust protected to prevent movement of the line under pressure. Thrust protection may also be attained by the use of a combination or retaining glands and threaded rods. All locations of thrust blocking or retaining glands/rods need to be marked on the as built drawing.
14. Testing and Disinfection
    a. Water main shall be tested in accordance with AWWA C–600 & the local jurisdictional requirements prior to it final acceptance. A 24 hour system pressure test needs to be performed as per the Standard Specifications. The pressure and leakage tests and disinfection of the mains shall be as described in the "Standard Specifications" unless the local requirements are more restrictive. All valve vaults shall be clean and free of debris and water, and individual service boxes shall be visible and clearly located prior to their final acceptance.
    b. The preferred point of application of the chlorinating agent shall be at the beginning of the pipeline extension or any valved section of it and through a corporation stop in the top of the newly laid pipe. The injector for delivering the chlorine gas into the pipe should be supplied from a tap on the pressure side of the gate valve controlling the flow into the pipeline extension.
    c. Water from the existing distribution system or any other source of supply shall be controlled so as to flow slowly into the newly laid pipeline during the application of chlorine–gas. The rate of chlorine mixture flow shall be in such proportion to the rate of water entering the pipe that the chlorine dose applied to the water entering the newly laid pipe shall be at least fifty parts–per–million (50ppm), or enough to meet the requirements during the retention period.
    d. Valves shall be manipulated so that the strong chlorine solution in the line being treated shall not flow back into the line supplying the water. The pipe section being chlorinated shall be kept at a lower pressure than the water system pressure.
    e. Treated water shall be retained in the pipe long enough to destroy all spore–forming bacteria. This retention period shall be at least twenty–four (24) hours. After the chlorine–treated water has been retained for the required time, the chlorine residual at the pipe extremities and at other representative points shall be at least twenty five parts–per–million (25ppm).
    f. In the process of chlorinating newly laid pipe, all valves or other appurtenances shall be operated while the pipeline is filled with the chlorinating agent.
    g. After all mains have been pressure tested, they shall be disinfected and tested according to the requirements of the Standards for Disinfecting Water Mains, AWWA C–601 and C–651, and as required by this Section. All disinfection, as required by this Section, shall be performed by an independent firm exhibiting experience in the methods and techniques of this operation, and shall be approved by the Village Public Works Department. The contractor shall obtain two samples of water from the main for bacteriological testing. A second series of samples shall be collected no less than 24 hours after the first set of samples has been collected. The contractor and the Village will be furnished with copies of the bacteriological report for their records.

STORM SEWER

1. All storm sewer shall conform to the requirements of The Standard Specifications for Water and Sewer Main Construction in Illinois
2. Storm sewers shall be reinforced concrete pipe conforming to ASTM C76 minimum Class III with O–ring joints conforming to ASTM C443.
3. Bedding shall be minimum of 6" of CA–7.
4. Minimum size shall be twelve inches (12").
5. Storm Structures
   a. Rear yard catch basins are not allowed.
   b. All storm structures shall be precast reinforced concrete only.
   c. All storm structures shall be set on a six–inch (6") CA–7 cushion.
   d. All storm structures shall have no more than two adjusting rings within a minimum of four inches (4") and a maximum of twelve inches (12") of adjusting rings.
   e. All lifting holes, joints between precast reinforced concrete sections, gaps between pipes and structures shall be tuckpointed with hydraulic cement.
   f. Bitumastic material shall be placed between precast reinforced concrete sections.
   g. All steps shall be fiberglass or neoprene coated.
   h. All structure connections shall be concrete sewer pipe, ASTM C14 for extra strength pipe
6. Storm sewer and all storm structures shall be clean and free of debris prior to their final acceptance. Storm Sewer shall be inspected and tested in accordance with the local jurisdictional requirements including television inspection for review by the Village Engineer.
7. All flared end sections less than 48" (effective diameter) require grates in accordance with IDOT specifications.
8. All castings shall be made in the USA with USA materials. Closed covers shall be stamped per Exhibit 2B. Open covers shall have the grates as specified in the plans.

PAVING CURBS AND SIDEWALK

1. Fine Grading
   a. Prior to the construction of the curb and gutter and the placement of the base material, the streets shall be fine graded to within 0.1 feet + of final subgrade elevation, to a point two (2) feet beyond the back of the proposed curb.
2. Curb and Gutter
   a. The curb and gutter shall be the type as detailed on the Engineering Plans.
   b. The curbs shall be backfilled after their construction and prior to the placement of the base course.
3. Pavement
   a. The pavement materials shall be as detailed on the Engineering Plans. Thickness specified shall be considered to be the minimum compacted thickness.
4. General. The Paving Contractor shall:
   a. Repair any base course and binder course failures prior to the installation of the final bituminous concrete surface course.
   b. Sweep clean the binder course prior to the installation of the final bituminous concrete surface course. Excessive cleaning of the binder course that may be required, and is not the fault of the Paving CONTRACTOR, shall be paid for on a time and material basis by prior agreement with the OWNER.
   c. Permit the bituminous concrete binder course to weather one (1) winter season prior to the installation of the bituminous concrete surface course.
   d. Street signs & Traffic signs.
5. Testing and Final Acceptance
   a. Prior to the placement of the base course, the subgrade must pass a proof roll test to be approved by the local jurisdictional authority. The Village shall be contacted at least 2 business days in advance of the proof roll. (See "Testing and Final Acceptance for Earthwork")
   b. Prior to placement of the bituminous concrete surface course, the CONTRACTOR if requested by the OWNER, shall obtain specimens of the binder course with a core drill where directed by the ENGINEER, for the purpose of thickness verification. Coring shall be in accordance with the applicable provisions of ART.406.15 of the Standard Specification entitled "Standard Specifications for Road and Bridge Construction". The cost for obtaining cores, which meet or exceed the specification, shall be borne by the OWNER.
   c. Deficiencies in the bituminous concrete binder course shall be adjusted for by increasing the plan thickness of the surface course with no additional cost to the OWNER.
   d. A nuclear density test must be conducted on asphalt pavement in accordance with IDOT standards.
   e. Final acceptance of the total pavement installation shall be subject to the testing and checking requirements cited above.
6. Method of Measurement
   a. Curb and Gutter, and base course shall be measured in the field by the CONTRACTOR. The quantities shall be submitted to the OWNER for verification.
   b. When requested by the OWNER, documentation for the installed base course, bituminous concrete binder, and surface, shall be submitted to the ENGINEER for verification. Deficiencies in total bituminous concrete pavement thickness shall be adjusted for in accordance with the requirements of the jurisdictional authority.
7. Basis of Payment
   a. Curb and Gutter will be paid for at the contract unit price per LINEAL FOOT.
   b. Prime Coat material will be paid for at the contract unit price per GALLON.
   c. Base Course will be paid for at the contract unit price per SQUARE YARD.
   d. Bituminous Concrete will be paid for at the contract unit price per SQUARE YARD.

GENERAL NOTES

1. Definition of Terms
   a. The CONTRACTOR is the individual, firm, partnership or corporation contracting with the OWNER for performance of the prescribed work.
   b. The OWNER is the individual, firm, partnership or corporation having the authority to award the contract for the prescribed work.
   c. The ENGINEER where specifically referred to in the Specifications shall be the OWNER'S representative.
2. All CONTRACTORS shall be responsible for the following, which shall also be incidental to the cost of construction:
   a. Examination of the Engineering Plans and Specifications and the existing site conditions prior to submitting a bid, and notifying the ENGINEER at once of any discrepancies.
   b. The obtaining of any necessary permits not previously applied for by the OWNER, and posting of the necessary bonds.
   c. The notification of the start of construction to theVillage of WESTERN SPRINGS Public Services Dept. at (708) 246–8540, utility companies, and the ENGINEER at least two (2) working days prior to said start. All existing utilities must be staked prior to construction. All construction, including equipment startup, shall be between the hours of 7:00 a.m. to 8:00 p.m. weekdays, and 8:00 a.m. to 7:00 p.m. weekends and holidays.
   d. Calling attention to the OWNER of any errors or discrepancies, which may be suspected in lines and grades, which are established by the OWNER. The CONTRACTOR shall not proceed with the work until the lines and grades which are believed to be in error have been verified or corrected by the OWNER. Additional staking that may be required due to CONTRACTOR negligence shall be paid for by the CONTRACTOR.
   e. The providing of safe and healthful working conditions throughout the prosecution of the construction work. This shall include, but not be limited to: the removal of debris, the protecting of construction hazards with barricades and the keeping of public street pavements clean of construction dirt and debris.
   f. The restoration to the original condition or better of any areas that are damaged by the CONTRACTOR during construction.
   g. The testing of materials, if required by the OWNER and/or the jurisdictional agencies.
   h. The guarantee of all materials and workmanship for a period of one (1) year upon final acceptance by the OWNER and other jurisdictional agencies.
   i. Trees shall be installed a minimum of five (5) feet horizontally from sanitary sewers, sanitary services, watermains, and water services. Trees and light poles shall be installed a minimum of ten (10) feet horizontally from utility structures and appurtenances, including but not limited to manholes, valve vaults, valve boxes and fire hydrants.
   j. The contractor shall be responsible for implementation & maintenance of all soil erosion & sedimentation control measures throughout the entire project.
   k. Contractors are required to obtain applicable permits from the Municipality.
3. The OWNER shall be responsible for the following:
   a. Scheduling the necessary preconstruction meeting(s) with the jurisdictional agencies at least two (2) working days prior to the commencement of work.
   b. Insurance certificates from all contractors, naming the Village of WESTERN SPRINGS as additional insured, prior to preconstruction meeting being set.
   c. Providing the CONTRACTOR with one (1) set of control line and grade stakes (at offsets mutually agreed upon) for the proper prosecution and control of the work.
   d. Applying for IEPA, IDOT, and all applicable County, Municipal and Sanitary District Permits. Other necessary permits shall be the responsibility of the CONTRACTOR.
4. The ENGINEER shall be responsible for the following:
   a. To periodically visit the construction site in order to better carry out the duties and responsibilities assigned by the OWNER and undertaken by the ENGINEER.
   b. The ENGINEER shall not, during such visits or as a result of such observations of the CONTRACTOR(S)' work in progress, supervise, direct or have control over the CONTRACTOR(S)' work nor shall the ENGINEER have authority over or responsibility for the means, methods, techniques, sequences or procedures of construction selected by the CONTRACTOR(S)', for safety precautions and programs incident to the work of the CONTRACTOR(S) or for any failure of the CONTRACTOR(S) to comply with laws, rules, regulations, ordinances, codes or orders applicable to the CONTRACTOR(S) furnishing and performing their work. Accordingly, the ENGINEER can neither guarantee the performance of the construction contracts by the CONTRACTOR(S) nor assume responsibility for the CONTRACTOR(S)' failure to furnish and perform their work in accordance with the Contract Documents.
5. Except where modified by the contract documents, all work proposed herein shall be in accordance with the following specifications, which are hereby made a part hereof:
   a. "Standard Specifications for Road and Bridge Construction", and "Supplemental Specifications and Recurring Special Provisions", latest edition, prepared by the Illinois Department of Transportation (IDOT Standard Specifications).
   b. Standard Specifications for Water and Sewer Main Construction in Illinois, latest edition, as adopted by the Illinois Society of Professional Engineers, etal.
   c. Illinois Urban Manual, latest edition.
   d. Village of WESTERN SPRINGS Codes and Ordinances, current edition when these plans were approved.
   e. American With Disabilities Act, Standards for Accessible Design, latest ed.
6. In the event of a conflict between statements, which apply to the construction work, the OWNER should contact the Public Works Director for direction.

MWRD SPECIFICATIONS

A. Referenced Specifications

1. All construction shall be in accordance with the applicable sections of the following, except as modified herein or on the plans;
   a. Sstandard Sspecifications for Road and Bridge Construction (latest edition), by the Illinois Department of Transportation (IDOTt SS) for all improvements except sanitary sewer and water main construction;
   b. Standard Specifications for Water and Sewer Main Construction in Illinois, latest edition (SSWS) for sanitary sewer and water main construction;
   c. Village of WESTERN SPRINGS municipal code (latest edition);
   d. The Metropolitan Water Reclamation District of Greater Chicago (NWRD) Watershed Management Ordinance and Technical Guidance Manual (latest edition);
   e. In case of conflict between the applicable ordinances noted, the more stringent shall take precedence and shall control all construction.

B. Notifications

1. The MWRD local sewer systems section field office must be notified at least two (2) working days prior to the commencement of any work (call 708–588–4055).
2. The Village of WESTERN SPRINGS Engineering Department and Public Works must be notified at least 24 hours prior to the start of construction and prior to each phase of work. Contractor shall determine items requiring inspection prior to start of construction or each work phase.
3. The Contractor shall notify all utility companies prior to beginning construction for the exact locations of utilities and for their protection during construction. If existing utilities are encountered that conflict in location with new construction, immediately notify the engineer so that the conflict can be resolved. call J.U.L.I.E. at 1–800–892–0123.

C. General Notes

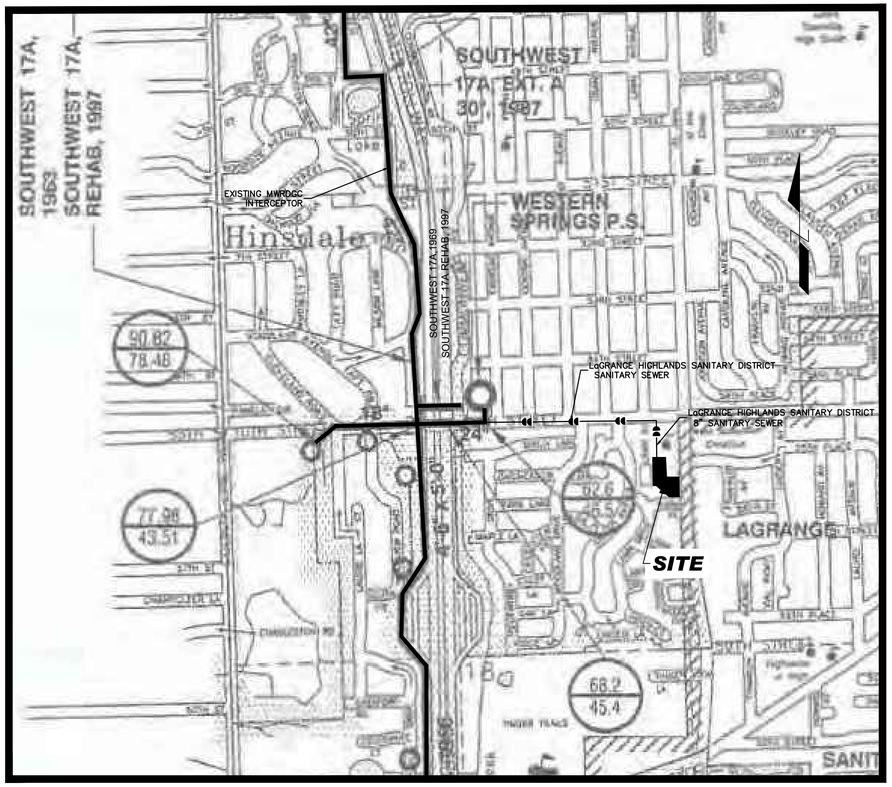
1. All elevations shown on plans reference the north american vertical datum of 1988 (NAVD88). Conversion factor is XXXX ft.
2. MWRD, the Municipality and the Owner or Owner's Representative shall have the authority to inspect, approve, and reject the construction improvements.
3. The Contractor(s) shall indemnify the Owner, Engineer, Municipality, MWRD, and their Agents,from all liability involved with the construction, installation, or testing of this work on the project.
4. The proposed improvements must be constructed in accordance with the engineering plans as approved by mwrd and the municipality unless changes are approved by MWRD, the Municipality, or authorized agent. The construction details, as presented on the plans, must be followed. Proper construction techniques must be followed on the improvements indicated on the plans.
5. The location of various underground utilities which are shown on the plans are for information only and represent the best knowledge of the Engineer. Verify locations and elevations prior to beginning the construction operations.
6. Any existing pavement, sidewalk, driveway, etc., damaged during construction operations and not called for to be removed shall be replaced at the expense of the Contractor.
7. Material and compaction testing shall be performed in accordance with the requirements of the Municipality, MWRD, and Owner.
8. The Underground Contractor shall make all necessary arrangements to notify all inspection agencies.
9. All new and existing utility structures on site and in areas disturbed during construction shall be adjusted to finish grade prior to final inspection.
10. Record drawings shall be kept by the Contractor and submitted to the Engineer as soon as underground improvements are completed. Final payments to the Contractor shall be held until they are received. Any changes in length, location or alignment shall be shown in red. All wyes or bends shall be located from the downstream manhole. All valves, B–Boxes, tees or bends shall be tied to a fire hydrant.

D. Sanitary Sewer

1. The Contractor shall take measures to prevent any polluted water, such as ground and surface water, from entering the existing sanitary sewers.
2. A water–tight plug shall be installed in the downstream sewer pipe at the point of sewer connection prior to commencing any sewer construction. the plug shall remain in place until removal is authorized by the Municipality and/or MWRD after the sewers have been tested and accepted.
3. Discharging any unpolluted water into the sanitary sewer system for the purpose of sewer flushing of lines for the deflection test shall be prohibited without prior approval from the Municipality or MWRD.
4. All sanitary sewer construction shall be in accordance with the Standard Specifications for Water and Sewer Main Construction in Illinois (latest edition).
5. All floor drains shall discharge to the sanitary sewer system.
6. All downspouts and footing drains shall discharge to the storm sewer system.
7. All sanitary sewer pipe materials and joints (and storm sewer pipe materials and joints in a combined sewer area) shall conform to the following:

Pipe Material	Pipe Specifications	Joint Specifications
Vitrified Clay Pipe	ASTM C–700	ASTM C–425
Reinforced Concrete Sewer Pipe	ASTM C–76	ASTM C–443
Cast Iron Soil Pipe	ASTM A–74	ASTM C–564
Ductile Iron Pipe	ANSI A21.51	ANSI A21.11
Polyvinyl Chloride (PVC) Pipe 6–inch to 15–inch Diameter SDR 26 18–inch to 27–inch Diameter F/DY=46	ASTM D–3034 ASTM F–679	ASTM D–3212 ASTM D–3212
High Density Polyethylene (HDPE)	ASTM D–3350 ASTM D–3035	ASTM D–3261, F–2620 (heat fusion) ASTM D–3212, F–477 (gasketed)
Water Main Quality PVC 4–inch to 36–inch 4–inch to 12–inch 14–inch to 48–inch	ASTM D–2241 AWWA C900 AWWA C905	ASTM D–3139 ASTM D–3139 ASTM D–3139

The following materials are allowed on a qualified basis subject to District review and approval prior to permit issuance. A special condition will be added to the permit when the pipe material below is used for sewer construction or a connection is made.



Pipe Material	Pipe Specification	Joint Specification
Polypropylene (PP) Pipe		
12–inch to 24–inch Double Wall	ASTM F–2736	ASTM D–3212,F–477
30–inch to 60–inch Triple Wall	ASTEM F–2764	ASTM D–3212, F–477

8. All sanitary sewer construction (and storm sewer construction in combined sewer areas), requires stone bedding with stone ¼" to 1" in size, with minimum bedding thickness equal to ¼ the outside diameter of the sewer pipe, but not less than four (4) inches or more than eight (8) inches. Material shall be CA–7, CA–11 or CA–13 and shall be extended at least 12" above the top of the pipe when using PVC.
9. Non–shear flexible–type couplings shall be used in the connection of sewer pipes of dissimilar pipe materials.
10. All manholes shall be provided with bolted, watertight covers. Sanitary lids shall be constructed with a concealed pickhole and watertight gasket with the word "sanitary" cast into the lid.
11. When connecting to an existing sewer main by means other than an existing wye, tee, or an existing manhole, one of the following methods shall be used:
    a. A circular saw–cut of sewer main by proper tools ("shewer–Tap" machine or similar) and proper installation of hubwye saddle or hub–tee saddle.
    b. Remove an entire section of pipe (breaking only the top of one bell) and replace with a wye or tee branch section.
    c. With pipe cutter, neatly and accurately cut out desired length of pipe for insertion of proper fitting, using "band seal" or similar couplings to hold it firmly in place.
12. Whenever a sanitary/combined sewer crosses under a watermain, the minimum vertical distance from the top of the sewer to the bottom of the watermain shall be 18 inches. Furthermore, a minimum horizontal distance of 10 feet between sanitary/combined sewers and watermains shall be maintained unless: the sewer is laid in a separate trench, keeping a minimum 18" vertical separation; or the sewer is laid in the same trench with the watermain located at the opposite side on a bench of undisturbed earth, keeping a minimum 18" vertical separation. If either the vertical or horizontal distances described above cannot be maintained, or the sewer crosses above the watermain, the sewer shall be constructed to water main standards or it shall be encased with a water main quality carrier pipe with ends sealed.
13. All existing septic systems shall be abandoned. Abandoned tanks shall be filled with a granular material or removed.
14. All sanitary manholes, (and storm manholes in combined sewer areas), shall have a minimum inside diameter of 48 inches, and shall be cast in place or pre–cast reinforced concrete.
15. All sanitary manholes, (and storm manholes in combined sewer areas), shall have precast "rubber boots" that conform to ASTM C–923 for all pipe connections. Precast sections shall consist of modified groove tongue and rubber gasket type joints.
16. All abandoned sanitary sewers shall be plugged at both ends with at least 2 feet long non–shrink concrete or mortar plug.
17. Except for foundation/footing drains provided to protect buildings, or perforated pipes associated with volume control facilities, drain tiles/field tiles/underdrains/perforated pipes are not allowed to be connected to or tributary to combined sewers, sanitary sewers, or storm sewers tributary to combined sewers in combined sewer areas. Construction of new facilities of this type is prohibited, and all existing drain tiles and perforated pipes encountered within the project area shall be plugged or removed, and shall not be connected to combined sewers, sanitary sewers, or storm sewers tributary to combined sewers.
18. A backflow preventer is required for all detention basins tributary to combined sewers. Required backflow preventers shall be inspected and exercised annually by the property owner to ensure proper operation, and any necessary maintenances shall be performed to ensure functionality. In the event of a sewer surcharge into an open detention basin tributary to combined sewers, the permittee shall ensure that clean up and wash out of sewage takes place within 48 hours of the storm event.

MWRD SPECIFICATIONS CONT'D

E. Erosion and Sediment Control

1. The contractor shall install the erosion and sediment control devices as shown on the approved erosion and sediment control plan.
2. Erosion and sediment control practices shall be functional prior to hydrologic disturbance of the site.
3. All design criteria, specifications, and installation of erosion and sediment control practices shall be in accordance with the Illinois urban manual.
4. A copy of the approved erosion and sediment control plan shall be maintained on the site at all times.
5. Inspections and documentation shall be performed, at a minimum:
   a. Upon completion of initial erosion and sediment control measures, prior to any soil disturbance.
   b. Once every seven (7) calendar days and within 24 hours of the end of a storm event with greater than 0.5 inch of rainfall or liquid equivalent precipitation.
6. Soil disturbance shall be conducted in such a manner as to minimize erosion. If stripping, clearing, grading, or landscaping are to be done in phases, the co–permittee shall plan for appropriate soil erosion and sediment control measures.
7. A stabilized mat of crushed stone meeting the standards of the illinois urban manual shall be installed at any point where traffic will be entering or leaving a construction site. Sediment or soil reaching an improved public right–of–way, street, alley or parking area shall be removed by scraping or street cleaning as accumulations warrant and transported to a controlled sediment disposal area.
8. Concrete washout facilities shall be constructed in accordance with the Illinois Urban Manual and shall be installed prior to any on site construction activities involving concrete.
9. Mortar washout facilities shall be constructed in addition to concrete washout facilities for any brick and mortar building envelope construction activities.
10. Temporary diversions shall be constructed as necessary to direct all runoff from hydrologically disturbed areas to an appropriate sediment trap or basin. Volume control facilities shall not be used as temporary sediment basins.
11. Disturbed areas of the site where construction activities have temporarily or permanently ceased shall be stabilized with temporary or permanent measures within seven (7) days.
12. All flood protection areas and volume control facilities shall, at a minimum, be protected with a double–row of silt fence (or equivalent).
13. Volume control facilities shall not be constructed until all of the contributing drainage area has been stabilized.
14. Soil stockpiles shall, at a minimum, be protected with perimeter sediment controls. Soil stockpiles shall not be placed in flood protection areas or their buffers.
15. Earthen embankment side slopes shall be stabilized with appropriate erosion control blanket.
16. Storm sewers that are or will be functioning during construction shall be protected by appropriate sediment control measures.
17. The contractor shall either remove or replace any existing drain tiles and incorporate them into the drainage plan for the development. Drain tiles cannot be tributary to a sanitary or combined sewer. Drain tiles allowed in combined sewer area for green infrastructure practices.
18. If dewatering services are used, adjoining properties and discharge locations shall be protected from erosion and sedimentation. Dewatering systems should be inspected daily during operational periods. the site inspector must be present at the commencement of dewatering activities.
19. The contrctor shall be responsible for trench dewatering and excavation for the installation of sanitary sewers, storm sewers, watermains as well as their services and other appurtenances. Any trench dewatering, which contains sediment shall pass through a sediment settling pond or equally effective sediment control device. Alternatives may include dewatering into a sump pit, filter bag or existing vegetated upslope area. sediment laden waters shall not be discharge to waterways, flood protection areas or the combined sewer system.
20. All permanent erosion control practices shall be initiated within seven (7) days following the completion of soil disturbing activities.
21. All erosion and sediment control measures shall be maintained and repaired as needed on a year–round basis during construction and any periods of construction shutdown until permanent stabilization is achieved.
22. All temporary erosion and sediment control measures shall be removed within thirty (30) days after permanent site stabilization.
23. The erosion and sediment control measures shown on the plans are the minimum requirements. additional measures may be required, as directed by the Engineer, Site Inspector, or MWRD.

EROSION CONTROL & SEDIMENTATION NOTES

1. UNLESS OTHERWISE INDICATED, ALL VEGETATIVE AND STRUCTURAL EROSION AND SEDIMENT CONTROL PRACTICES WILL BE CONSTRUCTED ACCORDING TO MINIMUM STANDARDS AND SPECIFICATIONS IN THE ILLINOIS URBAN MANUAL, LATEST EDITION, AND ALL OTHER AUTHORITIES HAVING JURISDICTION.
2. THE APPLICANT AND/OR CONTRACTOR IS RESPONSIBLE FOR INSURING THE OBTAINED PERMIT WITH THE COMPLETED SWPPP IS POSTED ON SITE IN A PROMINENT LOCATION BEFORE COMMENCEMENT OF ANY WORK ON SITE AND SHALL CONTACT THE VILLAGE AT LEAST 2 WORKING DAYS BEFORE THE START OF CONSTRUCTION, INSTALLATION OF SEDIMENT AND EROSION MEASURES AND COMPLETION OF FINAL LANDSCAPING.
3. THE VILLAGE SHALL BE PROVIDED WITH A COPY OF THE IEPA LETTER OF NOTIFICATION OF COVERAGE PRIOR TO COMMENCEMENT OF CONSTRUCTION.
4. THE DEVELOPER IS RESPONSIBLE FOR HAVING THE SWPPP AND A STAMPED AND SIGNED COPY OF THE APPROVED SOIL EROSION AND SEDIMENT CONTROL PLAN ON SITE AT ALL TIMES AND BE PRESENTED WHEN REQUESTED BY ANY AUTHORIZED AGENCY.
5. THE DEVELOPER SHALL INSPECT THE SOIL EROSION AND SEDIMENT CONTROL PRACTICES EVERY SEVEN (7) DAYS AND AFTER 0.5" OR MORE RAINFALL. IMMEDIATE REPAIR SHALL BE MADE OF ANY DAMAGED EROSION CONTROL ELEMENTS THROUGHOUT THE CONSTRUCTION OF THE PROJECT.
6. ALL CONSTRUCTION TRAFFIC SHALL ENTER SITE ONLY AT PROPOSED STABILIZED CONSTRUCTION ENTRANCE AS SHOWN ON PLANS.
7. ALL DIRT, MUD, OR DEBRIS THAT REACHES THE PUBLIC ROADS SHALL BE CLEANED IMMEDIATELY BY THE CONTRACTOR.
8. TECHNIQUES SHALL BE EMPLOYED TO PREVENT THE BLOWING OF DUST OR SEDIMENT FROM THE SITE.
9. SILT FENCE, SILT BASINS, AND STABILIZED CONSTRUCTION ENTRANCE(S) SHALL BE CONSTRUCTED AS DETAILED ON THE FINAL ENGINEERING PLANS PRIOR TO THE START OF CONSTRUCTION AND SHALL REMAIN IN PLAN UNTIL THE DISTURBED AREA IS STABILIZED. IN ADDITION, SILT FENCE SHALL BE PROVIDED FOR AREAS DRAINING 200' AND GREATER IN ACCORDANCE WITH NRCS CODE 920.
10. SCHEDULE OF CONTROL MEASURE IMPLEMENTATION:
    A. CONSTRUCT THE APPLICABLE PORTIONS OF THE EROSION AND SEDIMENTATION CONTROLS PRIOR TO SITE CLEARING.
    B. CONTROL SITE DEVELOPMENT IN ACCORDANCE WITH THE SPECIFICATIONS.
    C. MAINTAIN INLET PROTECTION, CONSTRUCTION TRAFFIC SURFACES, CLEANING OF STORM STRUCTURES AND THE LIKE ON A REGULAR BASIS AFTER EACH HEAVY RAIN OR AS OTHERWISE REQUIRED.
11. THE ESTIMATED CONSTRUCTION SCHEDULE IS AS FOLLOWS:

DEMOLITION	WINTER	2025
MASS EARTHWORK	SPRING	2025
TEMPORARY BASIN STABILIZATION	SPRING	2025
UNDERGROUND IMPROVEMENTS	SPRING/SUMMER	2025
ROADWAY (CURB & PAVEMENT)	SUMMER	2025
BUILDING CONSTRUCTION	SUMMER	2025
FINAL GRADING	SUMMER	2025
BASIN STABILIZATION	SUMMER	2025
FINAL LANDSCAPING	SUMMER	2026

    THE ENTIRE SITE MUST BE STABILIZED, USING A HEAVY MULCH LAYER OR ANOTHER METHOD AT THE CLOSE OF THE CONSTRUCTION SEASON.
12. DISTURBED AREAS WITHIN ALL PUBLIC R.O.W.'S SHALL BE RESTORED W/ 6" MIN. TOPSOIL & SOD. RESTORATION SHALL OCCUR IMMEDIATELY AFTER COMPLETION OF CONSTRUCTION, WEATHER PERMITTING. ALL OTHER DISTURBED AREAS SHALL BE RESTORED WITH 4" TOPSOIL & SEED.
13. STRAW BALES ARE NOT PERMITTED IN AREAS OF CONCENTRATED FLOW. ROCK CHECK DAMS SHALL BE USED IN THESE AREAS. TECHNIQUES THAT DIVERT UPLAND RUNOFF PAST DISTURBED SLOPES SHALL BE EMPLOYED.
14. THE PROTECTION OF THE OPEN LID DRAINAGE STRUCTURES SHALL BE CONSTRUCTED AS SPECIFIED IN DETAILS. ALL OPEN LID DRAINAGE STRUCTURES LOCATED IN YARD AREAS AND THE SEDIMENTATION BASIN MUST BE PROTECTED PER INLET PROTECTION DETAILS UNTIL SUCH A TIME THAT THE LANDSCAPING IS IN PLACE AND EFFECTIVELY PREVENTING POTENTIAL SILTATION OF THESE STRUCTURES. ALL OPEN LID DRAINAGE STRUCTURES IN PAVED AREAS SHALL HAVE FILTER BASKETS INSTALLED UNDER THE LIDS. IN THE EVENT THE GRAVEL BASE IS NOT IN PLACE UPON INSTALLATION, INLET PROTECTION SHALL BE PROVIDED AS INDICATED PER INLET PROTECTION DETAIL.
15. EROSION CONTROL BLANKET (ECB) SHALL BE INSTALLED TO ALL DISTURBED AREAS WITH SLOPES EQUAL TO OR STEEPER THAN 5H:1V AND IN CRITICAL AREAS (EX: DETENTION BASIN PERIMETERS, STREAMBANKS, BERMS, ETC.) IMMEDIATELY UPON FINAL GRADING. S175 NORTH AMERICAN GREEN (OR SIMILAR) ECB SHALL BE USED. ECB WITH GREEN DYE IS NOT ACCEPTABLE.
16. SOIL STOCKPILES SHALL BE STABILIZED OR COVERED AT THE END OF EACH WORKDAY. STOCKPILES TO REMAIN IN PLACE FOR 14 DAYS OR MORE SHALL RECEIVE TEMPORARY SEEDING.
17. DURING DEWATER OPERATIONS, WATER WILL BE PUMPED INTO SEDIMENT BASINS OR SILT TRAPS. DEWATERING DIRECTLY INTO FIELD TILES OR STORMWATER STRUCTURES IS PROHIBITED.
18. AN INCIDENT OF NON-COMPLIANCE (ION) MUST BE COMPLETED AND SUBMITTED BY THE OWNER TO THE IEPA AND COPIED TO THE VILLAGE IF, AT ANY TIME, AN EROSION OR SEDIMENT CONTROL DEVICE FAILS.
19. A NOTICE OF TERMINATION (NOT) SHALL BE COMPLETED BY THE OWNER IN COMPLIANCE WITH THE NPDES PHASE II REQUIREMENTS WHEN ALL PERMANENT EROSION CONTROL MEASURES ARE IN PLACE WITH A 70% ESTABLISHED RATE OF VEGETATION. THE NOTICE OF TERMINATION SHALL BE SENT TO THE IEPA AND THE VILLAGE.
20. THE CONTRACTOR SHALL TAKE THE NECESSARY STEPS TO CONTROL WASTE SUCH AS DISCARDED BUILDING MATERIALS, CONCRETE TRUCK WASHOUT, CHEMICALS, LITTER AND SANITARY WASTE AT THE CONSTRUCTION SITE THAT MAY CAUSE ADVERSE IMPACTS TO WATER QUALITY.

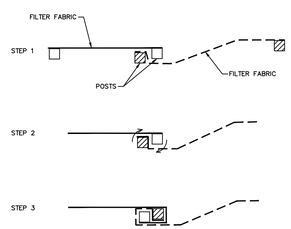
SILT FENCE PLAN

ELEVATION

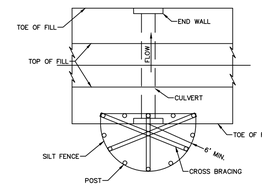


FABRIC ANCHOR DETAIL

NOTES:
1. TEMPORARY SEDIMENT FENCE SHALL BE INSTALLED PRIOR TO ANY GRADING WORK IN THE AREA TO BE PROTECTED. THEY SHALL BE MAINTAINED THROUGHOUT THE CONSTRUCTION PERIOD AND REMOVED IN CONJUNCTION WITH THE FINAL GRADING AND SITE STABILIZATION.
2. FILTER FABRIC SHALL MEET THE REQUIREMENTS OF MATERIAL SPECIFICATION 509 GEOTEXTILE TABLE 1 OR 2, CLASS I WITH EQUIVALENT OPENING SIZE OF AT LEAST 30 FOR NONWOVEN AND 50 FOR WOVEN.
3. FENCE POSTS SHALL BE WITHER STANDARD STEEL POST OR WOOD POST WITH A MINIMUM CROSS–SECTIONAL AREA OF 3.0 SQ. IN.

REFERENCE		STANDARD DWG. NO.
Project	NRCS	IL-620
Designed Date	Natural Resources Conservation Service	SHEET 1 OF 2
Checked Date		DATE 11-20-01
Approved Date		

SILT FENCE



ATTACHING TWO SILT FENCES

NOTES:
1. PLACE THE END POST OF THE SECOND FENCE INSIDE THE END POST OF THE FIRST FENCE.
2. ROTATE BOTH POSTS AT LEAST 180 DEGREES IN A CLOCKWISE DIRECTION TO CREATE A TIGHT SEAL WITH THE FABRIC MATERIAL.
3. DRIVE BOTH POSTS A MINIMUM OF 18 INCHES INTO THE GROUND AND BURY THE FLAP.

REFERENCE		STANDARD DWG. NO.

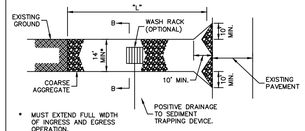
Designed Date	Natural Resources Conservation Service	SHEET 1 OF 2
Checked Date		DATE 1-29-99
Approved Date		

CULVERT INLET PROTECTION - SILT FENCE



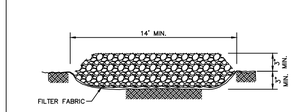
PLAN VIEW

NOTES:
1. THE SILT FENCE SHALL MEET THE REQUIREMENTS AS SHOWN ON STANDARD DRAWING IL-620 SILT FENCE EXCEPT THE MINIMUM POST SPACING SHALL BE 3 FEET AND THE TOPS OF POSTS SHALL BE CROSS BRACED.
2. SEDIMENT SHALL BE REMOVED WHEN THE SEDIMENT HAS ACCUMULATED TO ONE–HALF THE HEIGHT OF THE SLT FENCE.
3. THE MAXIMUM DRAINAGE AREA TO THE CULVERT BEING PROTECTED IS 1 ACRE.

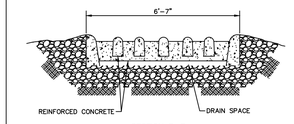
REFERENCE		STANDARD DWG. NO.
Project	NRCS	IL-508SF
Designed Date	Natural Resources Conservation Service	SHEET 1 OF 1
Checked Date		DATE 1-29-99
Approved Date		

STABILIZED CONSTRUCTION ENTRANCE PLAN

PLAN VIEW



SIDE ELEVATION



NOTES:
1. FILTER FABRIC SHALL MEET THE REQUIREMENTS OF MATERIAL SPECIFICATION 592 GEOTEXTILE, TABLE 1 OR 2, CLASS I,II OR IV AND SHALL BE PLACED OVER CLEARED AREA PRIOR TO THE PLACING OF ROCK.
2. ROCK OR RECLAIMED CONCRETE SHALL MEET ONE OF THE FOLLOWING IDOT COARSE AGGREGATE GRADATION, CA–1, CA–2, CA–3, OR CA–4 AND BE PLACED ACCORDING TO CONSTRUCTION SPECIFICATION 25 ROCKFILL USING PLACEMENT METHOD 1 AND CLASS III COMPACTION.
3. ANY DRAINAGE FACILITIES REQUIRED BECAUSE OF WASHING SHALL BE CONSTRUCTED ACCORDING TO MANUFACTURERS SPECIFICATIONS.
4. IF WASH RACKS ARE USED THEY SHALL BE INSTALLED ACCORDING TO THE MANUFACTURER'S SPECIFICATIONS.

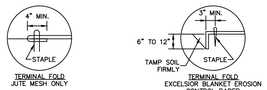
PIPE OUTLET SEDIMENT TRAP - ST I



NOT TO SCALE

6. CONSTRUCTION OPERATIONS SHALL BE CARRIED OUT IN SUCH A MANNER THAT EROSION AND WATER POLLUTION ARE ABATED. ONCE CONSTRUCTED, THE TOP AND OUTSIDE FACE OF THE EMBANKMENT SHALL BE STABILIZED WITH SEED AND MULCH. POINTS OF CONCENTRATED INFLOW SHALL BE PROTECTED IN ACCORDANCE WITH GRADE STABILIZATION STRUCTURE CRITERIA. THE REMAINDER OF THE INTERIOR SLOPES SHOULD BE STABILIZED (ONE TIME) WITH SEED AND MULCH UPON TRAP COMPLETION AND MONITORED AND MAINTAINED EROSION FREE DURING THE LIFE OF THE TRAP.
7. THE STRUCTURE SHALL BE REMOVED AND AREA STABILIZED WHEN THE DRAINAGE AREA HAS BEEN PROPERLY STABILIZED.
8. ALL CUT AND FILL SLOPES SHALL BE 2:1 OR FLATTER.
9. ALL PIPE CONNECTIONS SHALL BE WATERTIGHT.
10. ABOVE THE WET STORAGE ELEVATION, THE RISER SHALL BE PERFORATED WITH 1/2" WIDE BY 6" LONG SLITS OR 1" DIAMETER HOLES SPACED 6" VERTICALLY AND HORIZONTALLY. NO PERFORATIONS WILL BE ALLOWED WITHIN 6" OF THE HORIZONTAL BARREL.
11. THE RISER SHALL BE WRAPPED WITH 1/2" HARDWARE CLOTH (WIRE) THEN WRAPPED WITH GEOTEXTILE CLASS E. THE FILTER CLOTH SHALL EXTEND 6" ABOVE THE HIGHEST SLIT AND 6" BELOW THE LOWEST SLIT. WHERE ENDS OF FILTER CLOTH COME TOGETHER, THEY SHALL BE OVERLAPPED, FOLDED AND FASTENED TO PREVENT BYPASS. FILTER CLOTH SHALL BE REPLACED AS NECESSARY TO PREVENT CLOGGING.
12. STRAPS OR CONNECTING BANDS SHALL BE USED TO HOLD THE FILTER CLOTH AND WIRE FABRIC IN PLACE. THEY SHALL BE PLACED AT THE TOP AND BOTTOM OF THE CLOTH.
13. FILL MATERIAL AROUND THE PIPE SPILLWAY SHALL BE HAND COMPACTED IN 4" LAYERS. A MINIMUM OF 2' OF HAND–COMPACTED BACKFILL SHALL BE PLACED OVER THE PIPE SPILLWAY BEFORE CROSSING IT WITH CONSTRUCTION EQUIPMENT.
14. THE RISER SHALL BE ANCHORED WITH EITHER A CONCRETE BASE OR STEEL PLATE BASE TO PREVENT FLOTATION. CONCRETE BASES SHALL BE AT LEAST TWICE THE RISER DIAMETER AND 12" DEEP WITH THE RISER EMBEDDED 9". STEEL PLATE BASES SHALL BE AT LEAST TWICE THE RISER DIAMETER, 1/4" MINIMUM THICKNESS AND ATTACHED TO THE BOTTOM OF THE RISER BY A CONTINUOUS WELD TO FORM A WATERTIGHT CONNECTION. THEN PLACE 2' OF STONE, GRAVEL OR TAMPED EARTH ON THE PLATE.
15. ANTI SEEP COLLARS SHALL BE CONSTRUCTED IN ACCORDANCE WITH PLANS (REF. TABLE 16 AND DETAILS 13 AND 14).
16. CONCENTRIC TRASH RACK AND ANTI–VORTEX DEVICE DESIGN DETAILS ARE ON DETAIL 16.
17. REFER TO SECTION D FOR DEWATERING REQUIREMENTS OF SEDIMENT TRAPS.
18. OUTLET – AN OUTLET SHALL BE PROVIDED, WHICH INCLUDES A MEANS OF CONVEYING THE DISCHARGE IN AN EROSION FREE MANNER TO AN EXISTING STABLE CHANNEL.
19. WHERE DISCHARGE OCCURS AT THE PROPERTY LINE, LOCAL ORDINANCES AND DRAINAGE EASEMENT REQUIREMENTS SHALL BE MET.

EROSION BLANKET PLAN

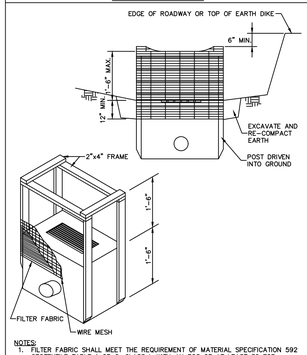
DETAIL 3 DETAIL 4



DETAIL 5

NOTES:
1. ON EROSION CONTROL PAPER, CHECK SLOTS, IN DITCH CHANNEL SHALL BE SPACED SO THAT ONE OCCURS WITHIN EACH 50' ON SLOPES OF MORE THAN 4% AND LESS THAN 6% ON SLOPES OF 6% OR MORE, THEY SHALL BE SPACED SO THAT ONE OCCURS WITHIN EACH 25'.
2. STAPLES ARE TO BE PLACED ALTERNATELY, IN COLUMNS APPROXIMATELY 2' APART AND IN ROWS APPROXIMATELY 3' APART. APPROXIMATELY 175 STAPLES ARE REQUIRED PER 4'x 225' ROLL OF MATERIAL AND 125 STAPLES ARE REQUIRED PER 4'x 150 ROLL OF MATERIAL.
3. EROSION CONTROL MATERIAL SHALL BE PLACED LOOSELY OVER GROUND SURFACE. DO NOT STRETCH.
4. ALL TERMINAL ENDS AND TRANSVERSE LAPS SHALL BE STAPLED AT APPROXIMATELY 12" INTERVALS.

STORM SEWER GRATES

ROADWAY: EJIW 7525Z & EJIW 7525M
GRASS: EJIW 6527
(UNLESS OTHERWISE NOTED ON PLANS)

UTILITY CROSSING INFORMATION (XX)

1. MAINTAIN 18" MINIMUM VERTICAL SEPARATION BETWEEN WATERMAIN AND STORM/SANITARY SEWERS.
2. DEPTHS OF EXISTING WM ARE ASSUMED AND MUST BE FIELD VERIFIED PRIOR TO START OF CONSTRUCTION.
3. WHEN THE WM CROSSES BELOW A SEWER, THE SEWER MUST BE CONSTRUCTED WITH WM QUALITY PIPE & JOINTS THAT COMPLY WITH 35 IAC 653.119 OR ELSE EITHER PIPE MUST BE INSTALLED IN A CASING. THE PROTECTION MUST EXTEND ON EACH SIDE OF THE CROSSING UNTIL THE NORMAL DISTANCE FROM THE WM TO THE SEWER IS AT LEAST 10 FEET. IN ADDITION, THE WM MUST BE LOCATED AT LEAST 18 INCHES BELOW THE SEWER. THIS 18 INCHES IS A STRUCTURAL PROTECTION TO PREVENT THE SEWER FROM SETTLING AND BREAKING THE WM.
4. WHEN THE WM CROSSES ABOVE A SEWER AND IT IS NOT 18 INCHES ABOVE THE CROWN OF THE SEWER WHERE THE PIPE CROSSES, THE SEWER MUST BE CONSTRUCTED WITH WM QUALITY PIPE & JOINTS (COMPLIANCE SAME AS ABOVE) OR A CASING PIPE CAN BE INSTALLED AROUND THE WM OR THE SEWER. THE CASING PIPE MUST BE A MATERIAL THAT IS APPROVED FOR USE AS WM. CONCRETE IS NOT AN ACCEPTABLE ENCASEMENT.
5. WHEN THE ENCASEMENT OPTION IS USED, IT SHALL BE ONE CONTINUAL SECTION (NO JOINTS).

TYPICAL UTILITY SERVICE DETAIL

NOTES:

1. ALL WATER SERVICES SHALL BE 1-1/2" TYPE "K" COPPER WATER TUBE FROM WATERMAIN TO B-BOX
2. ALL SANITARY SERVICES SHALL BE 6" PVC (SDR 26) AT 1.0% SLOPE MINIMUM FROM SANITARY MAIN TO B-BOX.
3. WATER SERVICES SHALL BE SLEEVED WITH WATER QUALITY PIPE 10' EITHER SIDE OF STORM SEWER CROSSINGS. CASING PIPE VOIDS SHALL BE FILLED AND ENDS SEALED.
4. UNDERGROUND UTILITIES SHALL RECEIVE FULL DEPTH TRENCH BACKFILL WHERE INDICATED PER UNDERGROUND UTILITIES SPECIFICATIONS ON SHEET 2.
   = TRENCH BACKFILL
5. ALL DOWNSPOUTS MUST DISCHARGE AT GRADE AND THE DISCHARGE MUST BE WITHIN 5 FEET OF THE BUILDING WALL PER VILLAGE CODE.

INTERIM BY-PASS DRAINAGE SWALE PLAN

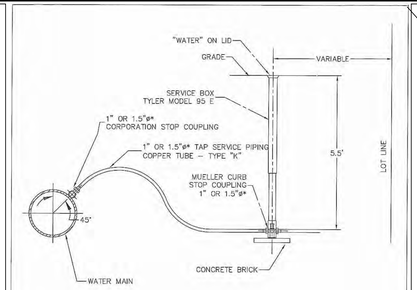
L:\Projects\2024\24-0001\Engineering\DWG\Final\24-0001 FE.dwg Plot Date: 1/27/2025 2:45:33 PM By dseth

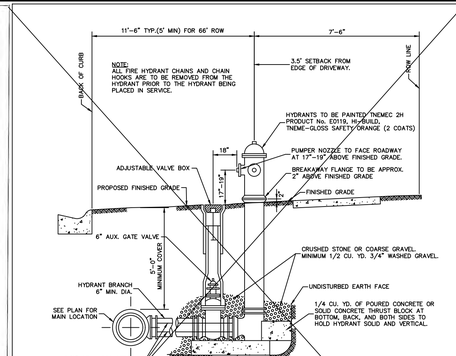


NOTES:

1. PROVIDE SELECT GRANULAR BACKFILL, CA- 11 AROUND CATCH BASIN TO SUBGRADE IN PAVED AREAS
2. ALTERNATE INLET BOTTOM – PRECAST REINFORCED CONCRETE BASE.
3. CONCRETE FILLETS SHALL BE MADE WITH NON-SHRINK MORTAR TO PROVIDE A SMOOTH TRANSITION BETWEEN THE CASTING AND ADJUSTING RING (OR TOP OF STRUCTURE).
4. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PREFORMED NON-HARDENING MASTIC (RUB-R-NEK OR APPROVED EQUAL) TO A MAX. HEIGHT OF TWELVE INCHES. TWO (2) INCH RINGS SHALL ONLY BE USED WHEN ADJUSTMENT IS LESS THAN THREE (3) INCHES.
5. NO MORTAR SHALL BE USED TO DRESS UP INTERIOR JOINTS OF ADJUSTING RINGS.
6. A MINIMUM OF FOUR (4), TWO (2) INCH DIAMETER DRAIN HOLES SHALL BE PROVIDED WITHIN ONE (1) FOOT OF THE LOWEST PIPE INVERT. THE HOLES SHALL BE DISTRIBUTED EQUIDISTANT AROUND THE PERIMETER OF THE STRUCTURE. A ONE (1) FOOT BY ONE (1) FOOT SECTION OF UNDERDRAIN FILTER CLOTH MATERIAL SHALL BE SUFFICIENTLY FIXED TO THE OUTSIDE OF THE MANHOLE WITH MASTIC MATERIALS TO PREVENT SLIPPAGE DURING BACKFILLING. THE HOLES SHALL BE EITHER PRECAST OR DRILLED. DRAIN HOLES ARE REQUIRED FOR ALL INLETS IN PAVED AREAS.

CATCH BASIN TYPE C

NOT TO SCALE



NOTES:

1. ALL FITTINGS SHALL BE COMPRESSION TYPE.
2. TRENCH BACKFILL (CA–7 CRUSHED LIMESTONE) SHALL BE USED UNDER AND WITHIN 2 FEET OF ALL PAVED AREAS (SIDEWALK, DRIVEWAY AND ROADWAY).
3. NO OPEN CUTTING OF PAVEMENT WILL BE PERMITTED. AUGER AND PUSH OR DIRECTIONAL BORE TO RECEIVING PIT IF MAIN IS UNDER PAVEMENT. SEE VILLAGE STANDARD DETAILS FOR PAVEMENT, SIDEWALK OR DRIVEWAY REPLACEMENT. ALL PAVEMENT, SIDEWALK, CURB AND DRIVEWAYS MUST BE SAW CUT FULL DEPTH PRIOR TO REMOVAL.
4. ON 4" WATER MAINS, AN ALL STAINLESS STEEL TAPPING CLAMP SHALL BE USED. IN ADDITION, THE HOLE DRILLED IN THE MAIN SHALL NOT EXCEED 1". EXCEPT FOR THE HOLE DRILLED IN THE MAIN, ALL HARDWARE FOR A 1.5" SERVICE SHALL BE SIZED FOR 1.5"ø.
5. Abandonment of existing water service requires removal of the corporation stop and placement of a stainless solid sleeve repair clamp.
6. NEW SERVICES SHALL BE TAPPED MIN. OF 2 FT. FROM EXISTING TAP.
7. RESTORATION OF PARKWAY SHALL BE MINIMUM 4" OF TOPSOIL AND SOD.
8. ANY DEVIATION FROM THIS PLAN SHALL BE APPROVED IN WRITING BY THE DEPARTMENT OF PUBLIC WORKS (708)246–1800 EXT. 200

**SIZE DETERMINED BY FIXTURE LOAD PER ILLINOIS PLUMBING CODE*

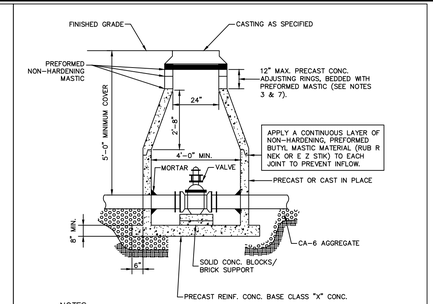
FIRE HYDRANT

NOT TO SCALE

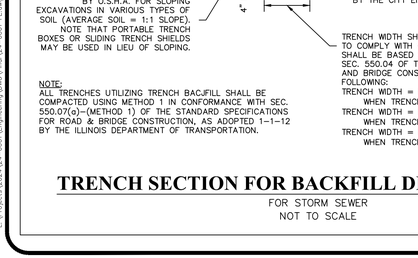


NOTES:

1. 60" DIA FOR ALL PRESSURE CONNECTIONS.
2. PIPE OPENINGS TO BE CAST INTO WALL.
3. PROVIDE CA–6 AGGREGATE BACKFILL AROUND WAULT TO SUBGRADE ELEVATION, IN PAVED AREAS.
4. NO MORE THAN 12 INCHES OF ADJUSTING RINGS MAY BE USED;HOWEVER NO MORE THAT ONE TWO INCH ADJUSTING RING OR NO MORE THAN TWO RINGS IN TOTAL MAY BE USED.
5. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PERFORMED NON–HARDENING MASTIC (RUB R NEK OR APPROVED EQUAL) TO A MAXIMUM HEIGHT OF TWELVE INCHES (12").

VALVE VAULT FOR PRESSURE CONNECTION

NOT TO SCALE



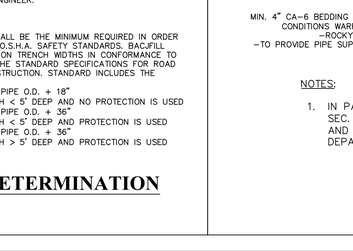
NOTES:

1. VAULT DIAMETER TO BE ONE FOOT LARGER, WHERE VALVE IS LOCATED AT TEE CONNECTION OF MAIN.
2. PROVIDE CA–6 AGGREGATE BACKFILL AROUND VAULT TO SUBGRADE ELEVATION, IN PAVED AREAS.
3. NO MORE THAN 12 INCHES OF ADJUSTING RINGS MAY BE USED. HOWEVER NO MORE THAN ONE, TWO INCH ADJUSTING RING OR NO MORE TAN TWO RINGS IN TOTAL MAY BE USED.
4. VALVE MUST BE ALIGNED WITH CENTER OF VAULT OPENING.
5. CONES MUST BE CONCENTRIC WITH VALVES 12" AND SMALLER.
6. BUTTERFLY VALES REQUIRE ECCENTRIC CONES.
7. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PREFORMED NON–HARDENING MASTIC (RUB R NEK OR APPROVED EQUAL) TO A MAXIMUM HEIGHT OF TWELVE INCHES (12").

VALVE VAULT TYPE A

(WATER TIGHT)

NOT TO SCALE

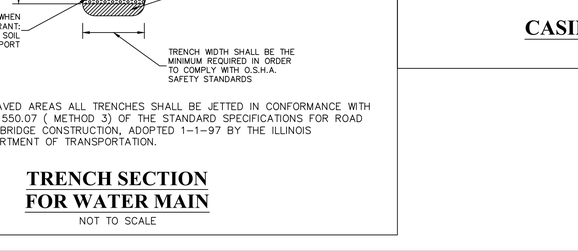


NOTES:

1. PROVIDE SELECT GRANULAR BACKFILL, CA– 11 AROUND MANHOLE TO SUBGRADE ELEVATION IN PAVED AREAS.
2. ALTERNATE MANHOLE BOTTOM – PRECAST REINFORCED CONCRETE
3. CONCRETE FILLETS SHALL BE MADE WITH NON–SHRINK MORTAR TO PROVIDE A SMOOTH TRANSITION BETWEEN THE CASTING AND ADJUSTING RING (OR TOP OF STRUCTURE).
4. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PREFORMED NON–HARDENING MASTIC (RUB–R–NEK OR EQUAL) TO A MAXIMUM HEIGHT OF TWELVE INCHES. TWO (2) INCH RINGS SHALL ONLY BE USED WHEN ADJUSTMENT IS LESS THAN THREE (3) INCHES.
5. NO MORTAR SHALL BE USED TO DRESS UP INTERIOR JOINTS OF ADJUSTING RINGS.
6. A MINIMUM OF FOUR (4), TWO (2) INCH DIAMETER DRAIN HOLES SHALL BE PROVIDED WITHIN ONE (1) FOOT OF THE LOWEST PIPE INVERT. THE HOLES SHALL BE DISTRIBUTED EQUIDISTANT AROUND THE PERIMETER OF THE STRUCTURE. A ONE (1) FOOT BY ONE (1) FOOT SECTION OF UNDERDRAIN FILTER CLOTH MATERIAL SHALL BE SUFFICIENTLY FIXED TO THE OUTSIDE OF THE MANHOLE WITH MASTIC MATERIALS TO PREVENT SLIPPAGE DURING BACKFILLING. THE HOLES SHALL BE EITHER PRECAST OR DRILLED. DRAIN HOLES ARE REQUIRED FOR ALL MANHOLES IN PAVED AREAS.

STORM MANHOLE TYPE A

NOT TO SCALE



NOTES:

1. CATCH BASINS ARE TO BE USED IN PAVED AREAS ONLY.
2. PROVIDE SELECT GRANULAR BACKFILL, CA– 11 AROUND CATCH BASIN TO SUBGRADE ELEVATION.
3. ALTERNATE CATCH BASIN BOTTOM – PRECAST REINFORCED CONCRETE BASE.
4. CONCRETE FILLETS SHALL BE MADE WITH NON–SHRINK MORTAR TO PROVIDE A SMOOTH TRANSITION BETWEEN THE CASTING AND ADJUSTING RING (OR TOP OF STRUCTURE).
5. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PREFORMED NON–HARDENING MASTIC (RUB–R–NEK OR APPROVED EQUAL) TO A MAX. HEIGHT OF TWELVE INCHES. TWO (2) INCH RINGS SHALL ONLY BE USED WHEN ADJUSTMENT IS LESS THAN THREE (3) INCHES.
6. NO MORTAR SHALL BE USED TO DRESS UP INTERIOR JOINTS OF ADJUSTING RINGS.
7. A MINIMUM OF FOUR (4), TWO (2) INCH DIAMETER DRAIN HOLES SHALL BE PROVIDED WITHIN ONE (1) FOOT OF THE LOWEST PIPE INVERT. THE HOLES SHALL BE DISTRIBUTED EQUIDISTANT AROUND THE PERIMETER OF THE STRUCTURE. A ONE (1) FOOT BY ONE (1) FOOT SECTION OF UNDERDRAIN FILTER CLOTH MATERIAL SHALL BE SUFFICIENTLY FIXED TO THE OUTSIDE OF THE CATCH BASIN WITH MASTIC MATERIALS TO PREVENT SLIPPAGE DURING BACKFILLING. THE HOLES SHALL BE EITHER PRECAST OR DRILLED. DRAIN HOLES ARE REQUIRED FOR ALL CATCH BASINS.

* RADIUS AS FURNISHED BY MANUFACTURER ALL SLOPE RATIOS ARE EXPRESSED AS UNITS OF VERTICLE DISPLACEMENT TO UNITS OF HORIZONTAL DISPLACEMENT (V:H)

NOTES:

1. PRECAST CONCRETE FLARED END SECTIONS SHALL CONFORM TO THE APPLICABLE REQUIREMENTS OF AASHTO M–170 CLASS III, WALL "B" REINFORCED CONCRETE PIPE.
2. PRECAST CONCRETE FLARED END SECTION FOR PIPE DIAMETER REQUIRED SHALL BE AS INDICATED ON DETAIL PLAN FOR EACH INDIVIDUAL INSTALLATION.
3. THE END BLOCK SHALL BE PLACED PRIOR TO THE INSTALLATION OF THE FLARED END SECTION. THE END BLOCK SHALL BE BACKFILLED IN ACCORDANCE WITH ART. 502.10 OF THE STANDARD SPECIFICATIONS ADOPTED 7–1–94. COST INCIDENTAL TO END SECTION.
4. ALL REINFORCEMENT SHALL BE IN ACCORDANCE WITH I.D.O.T. STANDARD 2449–1.
5. ALL FLARED END SECTIONS FOR PIPE GREATER THAN 12" IN DIAMETER SHALL BE PROVIDED WITH A GRATE.

PRECAST REINFORCED CONCRETE FLARED END SECTION

NOT TO SCALE

NOTE:
ALL TRENCHES UTILIZING TRENCH BACJFILL SHALL BE COMPACTED USING METHOD 1 IN CONFORMANCE WITH SEC. 550.07(a)–(METHOD 1) OF THE STANDARD SPECIFICATIONS FOR ROAD & BRIDGE CONSTRUCTION, AS ADOPTED 1–1–12 BY THE ILLINOIS DEPARTMENT OF TRANSPORTATION.

TRENCH SECTION FOR BACKFILL DETERMINATION

FOR STORM SEWER

NOT TO SCALE

NOTES:

1. IN PAVED AREAS ALL TRENCHES SHALL BE JETTED IN CONFORMANCE WITH SEC. 550.07 (METHOD 3) OF THE STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, ADOPTED 1–1–97 BY THE ILLINOIS DEPARTMENT OF TRANSPORTATION.

TRENCH SECTION FOR WATER MAIN

NOT TO SCALE

NOTES:

1. SPACERS TO BE SIZED TO ALLOW CARRIER PIPE TO BE CENTERED IN CASING LOCATE SPACERS 2' FROM END OF CASING AND EVERY 6' EACH PIPE LENGTH
2. CASING TO BE SEALED AT BOTH ENDS WITH WATERTIGHT BITUMINOUS PLUG.
3. CASING PIPE SHALL CONFORM TO ASTM A 139, GRADE B, WITH 60,000 P.S.I. MINIMUM TENSILE STRENGTH. CASING PIPE SHALL BE BITUMINOUS COATED.

CASING SPACER DETAIL

NOT TO SCALE

NOTES:

1. PROVIDE SELECT GRANULAR BACKFILL, CA–11 AROUND INLET TO SUBGRADE ELEVATION IN PAVED AREAS.
2. ALTERNATE INLET BOTTOM: PRECAST REINFORCED CONCRETE BASE.
3. CONCRETE FILLETS SHALL BE MADE WITH NON–SHRINK MORTAR TO PROVIDE A SMOOTH TRANSITION BETWEEN CASTING AND ADJUSTING RING (OR TOP OF STRUCTURE)
4. WHEN ADJUSTMENTS ARE NECESSARY, THEY WILL BE PERFORMED WITH A MAXIMUM OF TWO (2) PRECAST CONCRETE RINGS SET IN A BED OF PREFORMED NON–HARDENING MASTIC (RUB–R–NEK OR EQUAL) TO A MAXIMUM HEIGHT OF TWELVE INCHES. TWO (2) INCH RINGS SHALL ONLY BE USED WHEN ADJUSTMENT IS LESS THAN THREE INCHES.
5. NO MORTAR SHALL BE USED TO DRESS UP INTERIOR JOINTS OF ADJUSTING RINGS.
6. A MINIMUM OF FOUR (4), TWO (2) INCH DIAMETER DRAIN HOLES SHALL BE PROVIDED WITHIN ONE (1) FOOT OF THE LOWEST PIPE INVERT. THE HOLES SHALL BE DISTRIBUTED EQUIDISTANT AROUND THE PERIMETER OF THE STRUCTURE. A ONE (1) FOOT BY ONE (1) FOOT SECTION OF UNDERDRAIN FILTER CLOTH MATERIAL SHALL BE SUFFICIENTLY FIXED TO THE OUTSIDE OF THE MANHOLE WITH MASTIC MATERIALS TO PREVENT SLIPPAGE DURING BACKFILLING. THE HOLES SHALL BE EITHER PRECAST OR DRILLED. DRAIN HOLES ARE REQUIRED FOR ALL INLETS IN PAVED AREAS.

INLET TYPE A

NOT TO SCALE

Specifications

HOUSING:
16GI HH high-strength, low-copper, proprietary cast aluminum alloy. 6000-T5 extruded aluminum. Anchor rods are hot dipped galvanized steel. Tenon is 356 HM sand cast aluminum.

FINISH:
A durable polyurethane enamel finish is applied after assembled use shot blasted to create a surface profile which allows for the highest level of paint adhesion. Laboratory tested for superior weatherability and fade resistance in accordance with ASTM B-117-64 and ANSI/ASTM G53-77 specifications. For larger projects where a custom color is required, contact the factory for more information.

WARRANTY:
Please visit **www.signify.com/warranties** for more details on structural and finish warranty.

OUTLET:
Standard Duplex Outlet has universal metal weatherproof cover. Weatherproof while in use. Heavy-duty all-metal construction. Lockable security cover. Meets NEC 406.9 (B). Weather resistant. GFI Duplex Outlet has built-in function indicator light, universal metal weatherproof cover. Weatherproof while in use. Heavy-duty all-metal construction. Lockable security cover. Meets NEC 406.9 (B). Weather resistant.

Post top

Project: HERITAGE CROSSING
Location: WESTERN SPRINGS
QM NO.
Type: SM
Catalog #:
Notes: QTY: 1

Hadco's Hagerstown LED post top gives you the ability to create a unique style through our modular post top concepts to blend into any residential and historic urban settings. With the latest LED technology you can seamlessly replace traditional HID technology to maximize energy savings and significantly reduce total cost of ownership. The Hagerstown luminaire provides excellent uniformity, traditional cosmetics look, with the benefits of modern technology.

* Configurations with 64 (64 LED array boards are limited to a 25C ambient rating with the 900mA (8) drive current.

** System wattage or total luminaire wattage includes the LED module and the LED driver. Note: Experience should always be confirmed by a photometric report.

Note: Experience should always be confirmed by a photometric report. Due to rapid and continuous advances in LED technology, LED luminaire data is subject to change without notice and at the discretion of Signify.

TX03 Hagerstown

Post top

Specifications

Roof
Roof (0.0.090" thick spun aluminum (12"x7/8" 16"x7/8). Easy fixture replacement of either roof or bottom globe section if required.

Globe
Narrow body globe is constructed of clear injection-molded vertically ribbed UV stabilized acrylic globe. Globe is secured to the fitter with a heavy cast aluminum gasketed ring at the bottom diameter of 9". Globe (wasroof) has a 13"x11"x 14"x14"W".

Cage
Cage for narrow body globes (10" dia.) is constructed of die-cast 360 aluminum alloy with hinged door providing 180° entry into the fitter housing. Solid rectangular bars on each side of cage, height of cage is 17" and width of cage is 10". Finish is powder coated to match pole color.

Pods
Wrong block to accept three #8 solid or stranded wires key cast aluminum post adapter. Pod is secured to the fitter with four stainless steel set screws (hex head or Allen head as specified) for mounting to 3" O.D. post tenon. Glass holder has an interference water trap to prevent water from entering ballast compartment. Glass is secured to holder with 5/16-18 black cadmium stainless steel fasteners (Hex head or Allen head as specified). All hardware to be stainless steel and captive.

Optional Decorative Pods
Octagonal fitter (A) is constructed of die-cast 360 aluminum alloy with bottom-hinged door providing 180° entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (3"H x 1"W x 1"W).

Round fitter with sculpted petals (B) is constructed of die-cast 360 aluminum alloy with side-hinged door providing 180° entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (3"H x 1"W x 1"W).

Fluted tapered hourglass fitter (C) is constructed of 356 HM High-Strength, Low-Copper cast aluminum. Optional internal button eye photocell. (3"H x 1"W x 1"W).

Smooth tapered hourglass fitter (D) is constructed of 356 HM High-Strength, Low-Copper cast aluminum. Optional internal button eye photocell. (3"H x 1"W x 1"W).

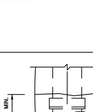
Tapered fluted fitter with scalloped flower petals (E) is constructed of 356 HM High-Strength, Low-Copper cast aluminum. Optional internal button eye photocell (10"H x 1"W x 1"W).

Tall round fluted fitter (G) is constructed of die-cast 360 aluminum alloy with removable door providing entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (14"H x 1"W).

Round contemporary fitter (H) is constructed of 356 HM High-Strength, Low-Copper cast aluminum. Optional internal twist-lock photocell receptacle or optional internal button eye photocell. Two-piece access to photo eye through top/mess door on pod (10"H x 1"W).

Round fluted long fitter (L) is constructed of 356 HM High-Strength, Low-Copper cast aluminum with a side-hinged door providing 180 degrees entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (15"H x 1"W).

Decorative leaf fitter with scalloped petals (T) is constructed of 356 HM High-Strength, Low-Copper cast aluminum with side-hinged door providing 180 degrees entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (15"H x 1"W).



Tall round fluted fitter (G) is constructed of die-cast 360 aluminum alloy with removable door providing entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Two-piece access to photo eye through top/mess door on pod (10"H x 1"W).

Round contemporary fitter (H) is constructed of 356 HM High-Strength, Low-Copper cast aluminum. Optional internal twist-lock photocell receptacle or optional internal button eye photocell. Two-piece access to photo eye through top/mess door on pod (10"H x 1"W).

Round fluted long fitter (L) is constructed of 356 HM High-Strength, Low-Copper cast aluminum with a side-hinged door providing entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (15"H x 1"W).

Decorative leaf fitter with scalloped petals (T) is constructed of 356 HM High-Strength, Low-Copper cast aluminum with side-hinged door providing 180 degrees entry into the fitter assembly for easy access to the electrical components. Optional internal twist-lock photocell receptacle or optional button eye photocell. Easy access to photo eye through the door on the pod (15"H x 1"W).

Finials
All finials are cast aluminum mounted with 1/4-20 stainless steel threaded studs. Standard finial is Ball. Optional finials feature finials as specified. Finials N (Nonmetal) is optional.

Fasteners
Used to secure post fitter to post tenon and globe to globe holder. Hex Head (T) and Allen Head (A) are standard. Factory Black cadmium stainless steel.

Light Engine
LED light is composed of five plain components: Board, Sink, Lens, LED lamp, Optical System, and Driver. Electrical components are RoHS compliant.

LED Engine
Composed of high-performance white LEDs. Color temperature as per ANSI/NEMA (on - Neutral White, 4000 kelvin nominal (3985K to 4509K) and 3000K (2895K to 3465K). Minimum CRI of 70 (Typical 75). Typical CCT of 3000K, 4000K or 5000K.

Heat Sink
Made of cast aluminum optimizing the LEDs efficiency and life. Product does not use any cooling device with moving parts (only passive cooling device).

Future Proof Control
R7 - Receptacle with 7 pin enabling dimming and additional functionality (to be determined). Can be used with a twist lock nute or a shorting cap. Will ship with a shorting cap installed for ease of ordering. Purchase shorting caps when you're ready to install your node.

Optical System
2 - Type 2
3 - Type 3
3L - Type 3 with House side shield
3HL - Type 3 with House side shield
3W - Type 3 Wide
3WHL - Type 3 Wide with House side shield
4 - Type 4
5 - Type 5

Above options are all composed of high performance optical grade PMMA acrylic refractor lenses to achieve desired distribution optimized to get maximum spacing, target lumens and a superior lighting uniformity. Optical system is designed for 70 CRI minimum and Correlated Color Temperature (CCT) of 3000K, 4000K or 5000K.

Surge Protection
Surge protector tested in accordance with ANSI/IEEE C62.41 per ANSI/IEEE C62.41.2 Scenario I Category C High Exposure 10kV/10kA waveforms for Line-0-ruund, Line-Neutral and Neutral-Ground. Surge protector tested to DOE (US Department of Energy) MSSLC (Municipal Solid State Street Lighting Consortium) solid state lighting (SSL) recommended practice for electrical immunity requirements for High Test Level 10kV / 10kA. Option for SP2 20kV/20kA.

Finish
Color in accordance with the ASMA 2603 standard. Application of polyester powder coating. Super durable TGIC polyester. 2.5 mil minimum of tolerance. The Thermoset TGIC resins provides a discoloration resistant finish, superior gloss and color retention. The finish as well as outer retention in keeping with the ASTM D523 standard and humidity proof in accordance with the ASTM D2247 standard. The surface treatment achieves a minimum of 1000 hours salt spray resistance rating in accordance with testing performed and per ASTM B117 standard.

Luminaire Useful Life
DLL, factor for long term energy consumption and delivered lumens for each option. Based on IESNT in situ thermal testing in accordance with LM-80 and LM-80, using LM-80 data from LED manufacturers and engineering projections, the useful life of the luminaire is expected to reach 70,000+ hours with >L70 lumen maintenance @ 25°C. Luminaire useful life accounts for LED lumen maintenance and additional factors, including LED life, driver life, PCB substrate, solder joints and thermal cycles and burning hours for normal applications.

Predicted Lumen Performance Data

Predicted lumen maintenance data*			
Ambient Temperature (°C)	Driver Hrs	Calculated L(p)hours^	Lp per TM-21^^	Lumen Maintenance % at 60,000 hours
25°C	up to 1050 mA	>100,000 hrs	>60,000 hrs	92.49%

1. Predicted performance derived from LED manufacturer's lumen engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. Projected performance for 60,000 hours of operation per IESNA TM-21 guidelines.
3. Calculated per IESNA TM21-11 Published by Illuminating Engineering Society of North America.

FIRE STROBE 2000

EMERGENCY VEHICLE STROBE DETECTOR

The FIRE STROBE 2000 provides rapid access to automatic gates and secured areas. The FIRE STROBE 2000 opens gates when activated by an emergency vehicle equipped with the standard operational strobe. The most common frequency is (1.4Hz).

Now with STROBEWATCH™.

FEATURES:

RAPID DETECTION OF ANY EMERGENCY STROBE

- Fire
- Paramedics
- Police
- 911 Response Vehicles
- Double and Quad Flash Strobes
- 100% Digital

FIELD PROGRAMMABLE

- Coated Optics
- 2 Relay Outputs
- Relay Timing

EASE OF INSTALLATION

- FIRE STROBE 2000 can be installed on any existing gate system
- Sensitive photodiode complete with PVC housing and lens assembly can be mounted in a variety of ways
- FIRE STROBE 2000 is designed to accommodate AC or DC operation
- Units are provided with a 12 VAC plug in transformer

MANUFACTURED BY:
ACCESS PRODUCTS, INC.

FIRE STROBE 2000 Technical Specifications

BASIC CONCEPT

The FIRE STROBE 2000 signal is received optically by line of sight. The range varies with the ambient light and intensity of the strobe emitter. A typical range varies from 150 feet to 500 feet. The detector will not allow false operation with unwanted signals from radio interference and/or flashing headlights or loud sounds.

The acquisition time from the emitter light source to the discriminate module is approximately 5 seconds.

The FIRE STROBE 2000 is widely used for security /electric gate access. It can be used for firehouse garage doors and other related access needed by emergency vehicles. This emergency-vehicle strobe detector provides rapid access to any gated community that has been serviced by fire and emergency equipment from the OPTICOM® STROBE SYSTEM.

INSTALLATION & TESTING

Complete installation instructions are provided with the FIRE STROBE 2000 for simple hook-up of the unit to interface with your gate or access control. Two dry contacts are also provided for bi-directional operation where needed.

The photoeye assembly is typically mounted 8 feet to 10 feet above the street level and is aimed for optimal strobe signal. (A total of (2) photoeye assemblies may be used). A 12 VAC power supply is provided with the FIRE STROBE 2000 system.

Testing can be accomplished with the optional fire strobe transmitter tester. This FIRE STROBE 2000 transmitter will enable a throughput of signals from the photoeye assembly to the relay output. This is a hand-held transmitter which operates via 9-volt battery.

TECHNICAL SPECIFICATIONS

1. Frequency 14.035 Hz+/- .25 Hz for class II signals. For OPTICOM® emitters, double, quad flash strobes 140-170 fpm. 100% digital.
2. The FIRE STROBE 2000 is fully compatible with the OPTICOM® priority control emitter.
3. Now with Strobewatch™ programmable for double and quad flash, vehicle mounted strobes. These are usually found on police and other emergency vehicles.
4. The strobe acquisition time is .5 seconds.
5. The PC board construction is mounted in the enclosed 8" x 8" x 4" rain-tight NEMA J-Box.
6. The weight is approximately seven pounds.
7. The power requirements are 12/24 volts AC/DC non-polarity conscious, approximately 1 watt draw.

WARRANTY

The FIRE STROBE 2000 has a one year warranty when used according to the manufacturer's specifications. This warranty does not apply when the FIRE STROBE 2000 has been abused, over voltaged, or altered in any way. The warranty coverage is at the sole discretion of the manufacturer. This unit is to be used only for the operations described above.

*OPTICOM is a trademark of 3M

INSTALLATION

⚠CAUTION

- *To AVOID damaging gas, power or other underground utility lines, contact underground utility locating companies BEFORE digging more than 18 inches (46 cm) deep.*
- ALWAYS wear protective gloves and eye protection when changing the battery or working around the battery compartment.

Installation Tips

Do's

- Weld a horizontal bar across entire gate on any installation for strength. Make sure that the operator is mounted level or it will not function properly.
- Make sure there is slack in the operator cable.
- The operator can be mounted on top of the gate frame.
- The operator must be installed at least 12" (30 cm) from the ground.

Don'ts

- DO NOT install upside-down.
- DO NOT install next to sprinklers or any area that may expose the bottom of operator to water.
- DO NOT install on uphill or downhill gates.
- DO NOT install on ANY pedestrian passageways, doorways, or gates.
- DO NOT over-bend the operator cable. Doing this will cause the wires to eventually break.
- DO NOT weld the crossbar on just a few pickets, or they could bend.

INSTALLATION

Large Metal Control Box

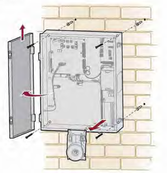
The control box MUST be mounted within 5 feet (1.52 m) of the gate operator. Mount the control box as high as possible for best radio reception. Make sure the control box is level.
NOTE: *The Large Metal Solar Control Box (Model XLSOLARCONTUL) does not have the electrical outlets or the expansion board shown in the images.*

Wall or Column Mount

1. Open the control box. The control box door may be removed by opening the door 90°. Lift the door from the hinges and set aside until the installation is complete.
2. Remove the toroid assembly from the control box by loosening the three screws and lifting the assembly up and out.
3. Use knock outs located at the 4 corners of the control box and knock out using a screwdriver and hammer.
4. Secure the control box to mounting surface using the provided screws (4).

Post Mount

NOTE: *The post mount option is not recommended for the 33AH battery application.*



1. Open the control box. The control box door may be removed by opening the door 90°. Lift the door from the hinges and set aside until the installation is complete.
2. The control box can be mounted to a post with 1/2" bolts (refer to chart). The knock out will accommodate a 3/8" diameter 1/2" bolt. Select center mounting holes (top and bottom) and knock out using a screwdriver and hammer.
3. Secure the control box to mounting surface with U-bolts and rubber washers (not provided) to ensure a watertight seal.

Illinois Department of Transportation
PASSED January 1, 2022
Engineer of Bridges and Concrete
APPROVED January 1, 2022
Engineer of Design and Environment
BDE 2406 (1/22)

DATE	REVISIONS
1-1-22	Revised contraction joint spacing adjacent to pcc pavement.
1-1-18	Revised General Note for tie bar spacing to 36 (900) ctr.

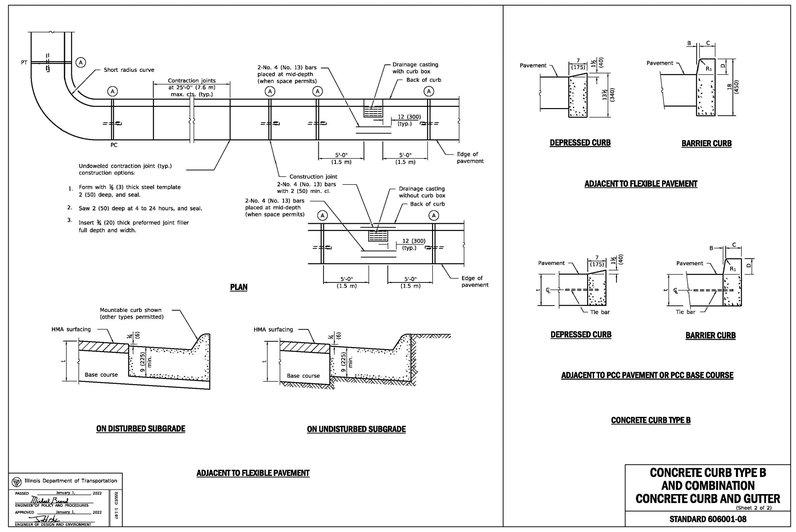
CONCRETE CURB TYPE B AND COMBINATION CONCRETE CURB AND GUTTER
(Sheet 1 of 2)

STANDARD 606001-08

GENERAL NOTES

The bottom slope of combination curb and gutter constructed adjacent to pcc pavement shall be the same slope as the subbase or 6% when subbase is omitted.

t = Thickness of pavement.



Longitudinal joint tie bars shall be No. 6 (No. 19) at 36 (900) centers in accordance with details for longitudinal construction joint shown on Standard 420001.

A minimum clearance of 2 (50) between the end of the tie bar and the back of the curb shall be maintained.

The dowel bars shown in contraction joints will only be required for monolithic construction.

See Standard 606301 for details of corner islands.

All dimensions are in inches (millimeters) unless otherwise shown.

SPECIAL PROVISION FOR DETECTABLE WARNINGS (SPECIAL)

Effective: *10/01/18* (Modification of IDOT D1 Special Provision for Detectable Warnings (Special) in City of Chicago)
Revised: *4/13/21 (added Galvanized and Stainless Steel material options)*

Description:

Work under this item shall consist of installing cast iron or steel detectable warning tiles as shown on the plans. Work shall be performed according to Section 424 of the Illinois Department of Transportation Standard Specifications for Road and Bridge Construction, except as herein modified.

Materials:

Detectable warning tiles shall be of uniform quality, and free of surface defects. The detectable warnings shall be constructed out of one of the following:
1) Cast iron meeting requirements of ASTM A 48 Class 30 or better.
2) Galvanized steel – 10 gauge, C90 galvanization or better
3) Stainless steel – 10 gauge or better

The dome size and spacing of the detectable warnings shall meet all requirements of sections R305.1.1 and R305.1.2 of PROWAG.

The color of the detectable warning tiles is to be approved by the Engineer unless otherwise specified in the plans and comply with the requirements of section R305.1.3 of PROWAG.

If a concrete border is required for installation of the detectable warnings, it shall comply with section R305.2 of PROWAG.

Responsibility of the Contractor:

The contractor shall verify all dimensions with the product manufacturer. If using radial units, the contractor shall verify that the radius of the detectable warnings supplied by the manufacturer matches that of the curb radius.

The contractor shall ensure that the supplied detectable warnings allow placement of the rows of domes that are aligned parallel with the path of travel. Where detectable warnings are radial, dome orientation is not significant.

The contractor shall ensure a maximum vertical transition of ¼" between the edge of the detectable warnings and adjacent concrete.

Measurement and Payment:

This work will be paid for at the contract unit price per square foot for DETECTABLE WARNINGS (SPECIAL).

CCDOTH DETAILS

THE OWNER OF HERITAGE CROSSING SUBDIVISION, MCNAUGHTON DEVELOPMENT, LLC. WITH FACILITIES AS SHOWN ON THIS EXHIBIT (EXHIBIT R), SHALL ASSUME RESPONSIBILITY FOR THE FOLLOWING MAINTENANCE ACTIVITIES, UNTIL SUCH TIME WHERE CERTAIN REQUIREMENTS ARE MET. STORM WATER RETENTION AND DETENTION FACILITIES SHALL BE OWNED AND MAINTAINED BY THE HOMEOWNERS ASSOCIATION (H.O.A.)

GRAPHIC SCALE
30 0 15 30
(IN FEET)
1 inch = 30 ft.

1. General
Regular inspections and routine maintenance of general areas shall be performed on a monthly or as-needed basis. Specific items of concern include:
- X Litter and debris shall be controlled
- X Landscaped areas shall be maintained with regular mowing and restored with appropriate seeding/vegetation as necessary
- X Accumulated sediment shall be disposed of properly, along with any wastes generated during maintenance operations
- X Riprap areas shall be repaired with the addition of new riprap, as necessary, of similar size and shape
- X Roads shall be swept, vacuumed and/or washed on a regular basis

2. Stormwater Management Facilities
All components of the stormwater management facilities shall be checked monthly between March and November and maintained as necessary to ensure proper performance. It is critical that all inflows and outflows to the detention facility are clean and performing as designed. In addition, the design volume of the detention facility shall also be maintained. Inspections for the following specific items should be conducted monthly between March and November:

Side Slopes/Embankment/Emergency Overflow Structure
- X Inspect embankments for settlement and erosion
- X Remove woody growth from the embankment
- X Any breaks, hire Registered Professional Engineer for design resolution
- X Seed and sod any eroded areas
- X Signs of piping (leakage) or seepage, repair
- ___ Stabilize emergency overflow structure if erosion observed
- ___ Remove obstructions blocking emergency overflow spillway

Vegetated Areas
- X Regular mowing to control vegetation, no cutting of native vegetation
- X Need for planting, reseeding or sodding. Supplement alternative native vegetation if a significant portion has not established (50% of the surface area). Reseed with alternative grass species if original grass cover has not successfully established.
- X Evidence of grazing, motorbikes or other vehicles, repair
- X Check for invasive vegetation, remove where possible
- X All vegetation must be maintained per the approved planting plan

Outlet Control Structure
- ___ Inspect restrictor and remove debris if clogged or discharge reduced
- ___ Remove accumulated sediment at outlet
- ___ Scour and erosion at outlet, repair and reseed
- ___ Any ice damage to outlet of pipe, repair if necessary
- ___ Condition of trash tracks, remove debris
- ___ Outlet channel conditions downstream

Access for Maintenance Equipment
- X Remove any obstructions placed in maintenance easements

Safety Features
- ___ Access controls to hazardous areas
- X Fences
- X Loose or damaged posts
- X Loose or broken wires
- X Condition of gates
- X Signs

Detention Volume
- X Inspect all stormwater detention facilities to ensure that the constructed volume for detention is maintained. No sediment, topsoil, or other dumping into the facility shall be allowed. Specific locations in the stormwater management system, designed to accumulate sediment, shall be dredged as necessary to prevent sediment from reaching the invert of any gravity outlet pipe.

3. Volume Control Facility
Routine inspections and maintenance of volume control facilities shall be performed by the Owner on a yearly or as-needed basis. Specific items of concern include:
- ___ Facility shall be inspected yearly using the monitoring well to verify the system is functioning properly.
- ___ Surface of permeable pavement shall be cleaned with low-pressure power washer.
- X Accumulated sediment from surface shall be vacuumed out and disposed of properly.
- X Appropriate signage shall be repaired if damaged or illegible.

4. Stormwater Collection System
The Owner shall perform monthly inspections of all components of the stormwater collection system. The monthly inspection shall occur between March and November and include the following specific areas of concern:

Storm Inlets/Manholes
- X Remove accumulated leaves and other debris from grates
- X Reset covers/lids on as-needed basis
- X Remove accumulated sediment from manhole bottom when 50% of sump is filled

Storm Sewers/Culverts
- X Visually inspect pipes by removing manhole lids, make repairs as necessary
- X Storm sewers and culverts shall be checked for siltation deposits at inlets, outlets, and within the conduit, clean out as necessary
- X Restore riprap at outfalls if erosion observed
- X Restore riprap at outfalls
- X Replant and reseed any eroded areas

Overland Flow Routes (Ditches/Swales)
- X Annual visual inspections shall be performed that verify the design capacity of the overland flow routes is maintained. The slope and cross-sectional area of the ditch/swale shall be verified during this inspection.
- X Remove any obstructions that have been placed in the drainage path
- X Seed and sod any eroded areas
- X Restore riprap as necessary
- X Regrade to provide positive drainage as necessary
- X Regular mowing to control vegetation

5. Vegetated Areas
- X Need for planting, reseeding, or sodding. Supplement alternative native vegetation if a significant portion has not established (50% of the surface area after second growing season). Reseed with alternative native grass species if original grass cover has not successfully established.
- X Evidence of grazing, motorbikes, or other vehicles, repair.
- X Check for invasive vegetation, remove when possible.
- X Regular mowing to control vegetation; it is recommended that native vegetation remain uncut.
- X Dead or damaged non-native grassy areas – repair with seeding with fertilization or seeding with mulch.
- ___ Compensatory storage area shall be reseeded with appropriate vegetation according to the approved planting plan.

6. Qualified Sewer Construction
- X Perform manhole inspections once every five years, make repairs as necessary.
- X Perform sewer inspections once every five years, make repairs as necessary.
- X Perform regular cleaning so that each sewer segment is cleaned once every 5 years.
- X Remove any obstructions placed in maintenance easements that may impede maintenance equipment access.

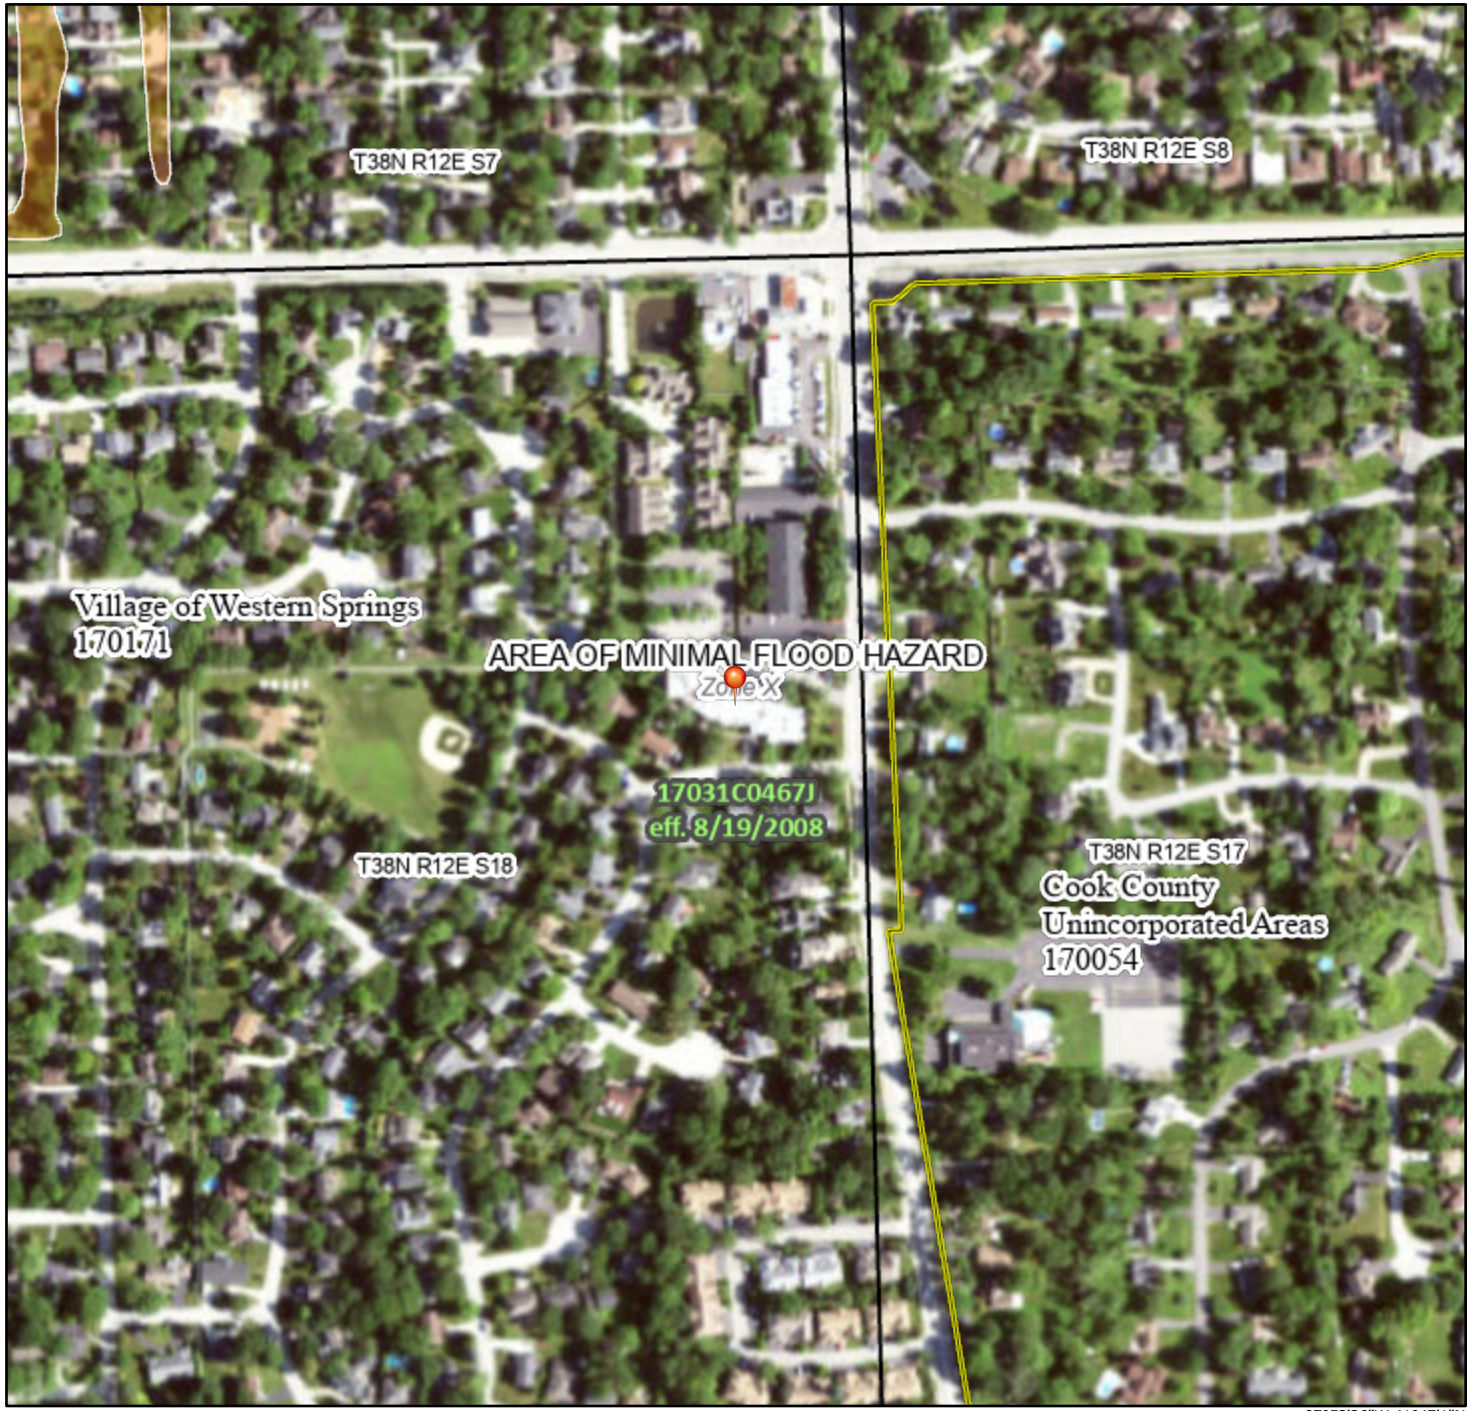
SUMMARY

The Heritage Crossing re-development is approximately 2.41 gross acres with the current use being professional office buildings and associated parking lot areas. An existing stormwater detention basin is located adjacent to the site in a 0.34-acre parcel dedicated as Lawn Avenue. The proposed re-development consists of twenty-nine residential single family attached units with related roadway, utilities, and a stormwater management area. The existing stormwater management facility (South Detention Pond) owned by the Village of Western Springs and maintained by the Heritage Springs HOA will be enhanced to provide the MWRD required volume control elements and will include increased stormwater storage volume to provide additional detention to attenuate more of the off-site upstream stormwater run-off prior to being released downstream. The FEMA FIRM map 17031CO467J effective 8/19/2008 indicates that there are no special flood hazard areas (floodplain) on the subject property (Zone "X"). The intent of this report is to convey the existing site conditions along with the final planning development and calculations that have been completed to support Final Engineering.

The existing site is not located in the FEMA mapped floodplain. Evidence has shown that the existing site and the Heritage Springs subdivision experience flooding during large storm events. DesignTek Engineering was contracted to complete a detailed flood analysis for the detention system maintained by the Heritage Springs HOA. An off-site area of approximately172.3 acres, to the east of Wolf Road was determined to be tributary to the subject site via an existing 4'x6' concrete box culvert that crosses under Wolf Road. The upstream off-site area is developed, and the area was divided into two sub-areas. They were delineated as Ashbrook Subdivision and LaGrange Highlands offsite with areas 42.90 acres and 129.40 acres, respectively. Time of concentrations and curve numbers were calculated for each area. MWRD permit number 99-0525 was obtained for the Ashbrook Subdivision. This information was used in HEC HMS computer modeling software to analyze the system and determine a 100-year critical duration peak flowrate of 359.61 cfs. This occurs during the 1-hour event. The high-water level (HWL) for the existing detention basin (basin C) was determined to be 655.16.

To allow for the required Cook County DOTH site distance requirements the existing box culvert under Wolf Road will be extended 66 feet away from the proposed Heritage Court intersection. A bypass system will be constructed to collect and convey the peak discharge through a proposed 4'x6' concrete box culvert. The box culvert matches the upstream condition. The calculated peak HWL was determined to be 655.11 for the proposed condition. This is a reduction of 0.05'. The site will be inundated with water at the north end of Heritage Court, near the property line. Under existing conditions this area was also inundated with water. The proposed condition will have no significant impacts when compared to existing conditions. An interim swale will be constructed on site to convey the discharge during rainfall events during the construction of the bypass system. The swale was designed to carry the peak discharge.



The existing condition (professional office buildings) has a total impervious area of 1.67 acres with the proposed re-development (residential) consisting of 1.50 acres equating to a total reduction in impervious area of 0.17 acres or 10%. Utilizing the proposed impervious area within the re-development site, the required MWRD volume control storage has been calculated to be 0.13 ac-ft. This volume is proposed as surface storage (elevations 647.0 – 648.0) below the NWL in the stormwater management pond and has a proposed volume of 0.15 ac-ft. A PVC underdrain is proposed below the volume control area. Recent soil investigation for the existing south detention pond revealed that the Estimated Seasonal High Groundwater Table (ESHGWT) is at

elevation 644.0, 3’ feet below the proposed pond bottom. See enclosed Soil Investigation Report within the appendix section of this report for reference.

The previously issued MWRD permit (99-228) for the original development was obtained and is included in the appendix for reference. Upon examination the detention review sheet within the permit does not depict any detention volume requirements for the original development. Although the as-built plan dated (09-29-2007) for the original development depicts the volume provided for the subject “South Detention Pond” as 0.729 Ac-Ft. and based on the recent topographic survey for the proposed re-development we have calculated the South Detention Pond storage volume to currently be 0.76 Ac-Ft. which appears to match the original intent. Initial conversations with Village staff revealed that even though the re-development has a decrease in impervious area they have experienced stormwater flooding issues off-site and further downstream within the same tributary of the subject site and expansion of the existing stormwater facility, if possible, would be a regional benefit. Taking this into account the proposed re-development will include an expansion of the South Detention Pond volume to 1.64 Ac-Ft increasing the storage volume by 0.85 Ac-Ft which essentially doubles the volume. The 100-year peak flowrate for the development site will also be reduced to 13.96 cfs from the existing condition of 15.64 cfs (+/- 11% reduction). The proposed residential buildings also will not have basements and therefore no sump pump discharges will be tributary to the stormwater management area.

Custom Soil Resource Report for Cook County, Illinois

Heritage Crossing

Preface

Soil surveys contain information that affects land use planning in survey areas. They highlight soil limitations that affect various land uses and provide information about the properties of the soils in the survey areas. Soil surveys are designed for many different users, including farmers, ranchers, foresters, agronomists, urban planners, community officials, engineers, developers, builders, and home buyers. Also, conservationists, teachers, students, and specialists in recreation, waste disposal, and pollution control can use the surveys to help them understand, protect, or enhance the environment.

Various land use regulations of Federal, State, and local governments may impose special restrictions on land use or land treatment. Soil surveys identify soil properties that are used in making various land use or land treatment decisions. The information is intended to help the land users identify and reduce the effects of soil limitations on various land uses. The landowner or user is responsible for identifying and complying with existing laws and regulations.

Although soil survey information can be used for general farm, local, and wider area planning, onsite investigation is needed to supplement this information in some cases. Examples include soil quality assessments (http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/health/) and certain conservation and engineering applications. For more detailed information, contact your local USDA Service Center (https://offices.sc.egov.usda.gov/locator/app?agency=nrcs) or your NRCS State Soil Scientist (http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/contactus/?cid=nrcs142p2_053951).

Great differences in soil properties can occur within short distances. Some soils are seasonally wet or subject to flooding. Some are too unstable to be used as a foundation for buildings or roads. Clayey or wet soils are poorly suited to use as septic tank absorption fields. A high water table makes a soil poorly suited to basements or underground installations.

The National Cooperative Soil Survey is a joint effort of the United States Department of Agriculture and other Federal agencies, State agencies including the Agricultural Experiment Stations, and local agencies. The Natural Resources Conservation Service (NRCS) has leadership for the Federal part of the National Cooperative Soil Survey.

Information about soils is updated periodically. Updated information is available through the NRCS Web Soil Survey, the site for official soil survey information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require

alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

How Soil Surveys Are Made

Soil surveys are made to provide information about the soils and miscellaneous areas in a specific area. They include a description of the soils and miscellaneous areas and their location on the landscape and tables that show soil properties and limitations affecting various uses. Soil scientists observed the steepness, length, and shape of the slopes; the general pattern of drainage; the kinds of crops and native plants; and the kinds of bedrock. They observed and described many soil profiles. A soil profile is the sequence of natural layers, or horizons, in a soil. The profile extends from the surface down into the unconsolidated material in which the soil formed or from the surface down to bedrock. The unconsolidated material is devoid of roots and other living organisms and has not been changed by other biological activity.

Currently, soils are mapped according to the boundaries of major land resource areas (MLRAs). MLRAs are geographically associated land resource units that share common characteristics related to physiography, geology, climate, water resources, soils, biological resources, and land uses (USDA, 2006). Soil survey areas typically consist of parts of one or more MLRA.

The soils and miscellaneous areas in a survey area occur in an orderly pattern that is related to the geology, landforms, relief, climate, and natural vegetation of the area. Each kind of soil and miscellaneous area is associated with a particular kind of landform or with a segment of the landform. By observing the soils and miscellaneous areas in the survey area and relating their position to specific segments of the landform, a soil scientist develops a concept, or model, of how they were formed. Thus, during mapping, this model enables the soil scientist to predict with a considerable degree of accuracy the kind of soil or miscellaneous area at a specific location on the landscape.

Commonly, individual soils on the landscape merge into one another as their characteristics gradually change. To construct an accurate soil map, however, soil scientists must determine the boundaries between the soils. They can observe only a limited number of soil profiles. Nevertheless, these observations, supplemented by an understanding of the soil-vegetation-landscape relationship, are sufficient to verify predictions of the kinds of soil in an area and to determine the boundaries.

Soil scientists recorded the characteristics of the soil profiles that they studied. They noted soil color, texture, size and shape of soil aggregates, kind and amount of rock fragments, distribution of plant roots, reaction, and other features that enable them to identify soils. After describing the soils in the survey area and determining their properties, the soil scientists assigned the soils to taxonomic classes (units). Taxonomic classes are concepts. Each taxonomic class has a set of soil characteristics with precisely defined limits. The classes are used as a basis for comparison to classify soils systematically. Soil taxonomy, the system of taxonomic classification used in the United States, is based mainly on the kind and character of soil properties and the arrangement of horizons within the profile. After the soil

scientists classified and named the soils in the survey area, they compared the individual soils with similar soils in the same taxonomic class in other areas so that they could confirm data and assemble additional data based on experience and research.

The objective of soil mapping is not to delineate pure map unit components; the objective is to separate the landscape into landforms or landform segments that have similar use and management requirements. Each map unit is defined by a unique combination of soil components and/or miscellaneous areas in predictable proportions. Some components may be highly contrasting to the other components of the map unit. The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The delineation of such landforms and landform segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, onsite investigation is needed to define and locate the soils and miscellaneous areas.

Soil scientists make many field observations in the process of producing a soil map. The frequency of observation is dependent upon several factors, including scale of mapping, intensity of mapping, design of map units, complexity of the landscape, and experience of the soil scientist. Observations are made to test and refine the soil-landscape model and predictions and to verify the classification of the soils at specific locations. Once the soil-landscape model is refined, a significantly smaller number of measurements of individual soil properties are made and recorded. These measurements may include field measurements, such as those for color, depth to bedrock, and texture, and laboratory measurements, such as those for content of sand, silt, clay, salt, and other components. Properties of each soil typically vary from one point to another across the landscape.

Observations for map unit components are aggregated to develop ranges of characteristics for the components. The aggregated values are presented. Direct measurements do not exist for every property presented for every map unit component. Values for some properties are estimated from combinations of other properties.

While a soil survey is in progress, samples of some of the soils in the area generally are collected for laboratory analyses and for engineering tests. Soil scientists interpret the data from these analyses and tests as well as the field-observed characteristics and the soil properties to determine the expected behavior of the soils under different uses. Interpretations for all of the soils are field tested through observation of the soils in different uses and under different levels of management. Some interpretations are modified to fit local conditions, and some new interpretations are developed to meet local needs. Data are assembled from other sources, such as research information, production records, and field experience of specialists. For example, data on crop yields under defined levels of management are assembled from farm records and from field or plot experiments on the same kinds of soil.

Predictions about soil behavior are based not only on soil properties but also on such variables as climate and biological activity. Soil conditions are predictable over long periods of time, but they are not predictable from year to year. For example, soil scientists can predict with a fairly high degree of accuracy that a given soil will have a high water table within certain depths in most years, but they cannot predict that a high water table will always be at a specific level in the soil on a specific date.

After soil scientists located and identified the significant natural bodies of soil in the survey area, they drew the boundaries of these bodies on aerial photographs and

identified each as a specific map unit. Aerial photographs show trees, buildings, fields, roads, and rivers, all of which help in locating boundaries accurately.

Soil Map

The soil map section includes the soil map for the defined area of interest, a list of soil map units on the map and extent of each map unit, and cartographic symbols displayed on the map. Also presented are various metadata about data used to produce the map, and a description of each soil map unit.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:12,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Cook County, Illinois
Survey Area Data: Version 17, Aug 28, 2023

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jun 13, 2020—Jul 6, 2020

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Descriptions

The map units delineated on the detailed soil maps in a soil survey represent the soils or miscellaneous areas in the survey area. The map unit descriptions, along with the maps, can be used to determine the composition and properties of a unit.

A map unit delineation on a soil map represents an area dominated by one or more major kinds of soil or miscellaneous areas. A map unit is identified and named according to the taxonomic classification of the dominant soils. Within a taxonomic class there are precisely defined limits for the properties of the soils. On the landscape, however, the soils are natural phenomena, and they have the characteristic variability of all natural phenomena. Thus, the range of some observed properties may extend beyond the limits defined for a taxonomic class. Areas of soils of a single taxonomic class rarely, if ever, can be mapped without including areas of other taxonomic classes. Consequently, every map unit is made up of the soils or miscellaneous areas for which it is named and some minor components that belong to taxonomic classes other than those of the major soils.

Most minor soils have properties similar to those of the dominant soil or soils in the map unit, and thus they do not affect use and management. These are called noncontrasting, or similar, components. They may or may not be mentioned in a particular map unit description. Other minor components, however, have properties and behavioral characteristics divergent enough to affect use or to require different management. These are called contrasting, or dissimilar, components. They generally are in small areas and could not be mapped separately because of the scale used. Some small areas of strongly contrasting soils or miscellaneous areas are identified by a special symbol on the maps. If included in the database for a given area, the contrasting minor components are identified in the map unit descriptions along with some characteristics of each. A few areas of minor components may not have been observed, and consequently they are not mentioned in the descriptions, especially where the pattern was so complex that it was impractical to make enough observations to identify all the soils and miscellaneous areas on the landscape.

The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The objective of mapping is not to delineate pure taxonomic classes but rather to separate the landscape into landforms or landform segments that have similar use and management requirements. The delineation of such segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, however,

onsite investigation is needed to define and locate the soils and miscellaneous areas.

An identifying symbol precedes the map unit name in the map unit descriptions. Each description includes general facts about the unit and gives important soil properties and qualities.

Soils that have profiles that are almost alike make up a *soil series*. Except for differences in texture of the surface layer, all the soils of a series have major horizons that are similar in composition, thickness, and arrangement.

Soils of one series can differ in texture of the surface layer, slope, stoniness, salinity, degree of erosion, and other characteristics that affect their use. On the basis of such differences, a soil series is divided into *soil phases*. Most of the areas shown on the detailed soil maps are phases of soil series. The name of a soil phase commonly indicates a feature that affects use or management. For example, Alpha silt loam, 0 to 2 percent slopes, is a phase of the Alpha series.

Some map units are made up of two or more major soils or miscellaneous areas. These map units are complexes, associations, or undifferentiated groups.

A *complex* consists of two or more soils or miscellaneous areas in such an intricate pattern or in such small areas that they cannot be shown separately on the maps. The pattern and proportion of the soils or miscellaneous areas are somewhat similar in all areas. Alpha-Beta complex, 0 to 6 percent slopes, is an example.

An *association* is made up of two or more geographically associated soils or miscellaneous areas that are shown as one unit on the maps. Because of present or anticipated uses of the map units in the survey area, it was not considered practical or necessary to map the soils or miscellaneous areas separately. The pattern and relative proportion of the soils or miscellaneous areas are somewhat similar. Alpha-Beta association, 0 to 2 percent slopes, is an example.

An *undifferentiated group* is made up of two or more soils or miscellaneous areas that could be mapped individually but are mapped as one unit because similar interpretations can be made for use and management. The pattern and proportion of the soils or miscellaneous areas in a mapped area are not uniform. An area can be made up of only one of the major soils or miscellaneous areas, or it can be made up of all of them. Alpha and Beta soils, 0 to 2 percent slopes, is an example.

Some surveys include *miscellaneous areas*. Such areas have little or no soil material and support little or no vegetation. Rock outcrop is an example.

Cook County, Illinois

854B—Markham-Ashkum-Beecher complex, 1 to 6 percent slopes

Map Unit Setting

National map unit symbol: 28shj
Elevation: 510 to 930 feet
Mean annual precipitation: 28 to 40 inches
Mean annual air temperature: 45 to 52 degrees F
Frost-free period: 140 to 180 days
Farmland classification: Not prime farmland

Map Unit Composition

Markham and similar soils: 40 percent
Ashkum and similar soils: 30 percent
Beecher and similar soils: 25 percent
Minor components: 5 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Markham

Setting

Landform: End moraines, ground moraines
Landform position (two-dimensional): Summit, backslope
Landform position (three-dimensional): Interfluve
Down-slope shape: Convex
Across-slope shape: Convex
Parent material: Thin mantle of loess or other silty material and in the underlying till

Typical profile

H1 - 0 to 8 inches: silt loam
H2 - 8 to 21 inches: silty clay loam
H3 - 21 to 32 inches: silty clay loam
H4 - 32 to 60 inches: silty clay loam

Properties and qualities

Slope: 1 to 6 percent
Depth to restrictive feature: 20 to 55 inches to densic material
Drainage class: Moderately well drained
Runoff class: Medium
Capacity of the most limiting layer to transmit water (Ksat): Moderately low to moderately high (0.06 to 0.20 in/hr)
Depth to water table: About 24 to 42 inches
Frequency of flooding: None
Frequency of ponding: None
Calcium carbonate, maximum content: 30 percent
Available water supply, 0 to 60 inches: Low (about 5.1 inches)

Interpretive groups

Land capability classification (irrigated): None specified
Land capability classification (nonirrigated): 3e
Hydrologic Soil Group: C
Ecological site: R110XY010IL - Moist Glacial Drift Upland Savanna
Hydric soil rating: No

Description of Ashkum

Setting

Landform: End moraines, ground moraines
Landform position (two-dimensional): Toeslope
Landform position (three-dimensional): Talf
Down-slope shape: Linear
Across-slope shape: Concave
Parent material: Colluvium and in the underlying till

Typical profile

H1 - 0 to 12 inches: silty clay loam
H2 - 12 to 29 inches: silty clay
H3 - 29 to 54 inches: silty clay loam
H4 - 54 to 60 inches: silty clay loam

Properties and qualities

Slope: 1 to 2 percent
Depth to restrictive feature: More than 80 inches
Drainage class: Poorly drained
Runoff class: Negligible
Capacity of the most limiting layer to transmit water (Ksat): Moderately high (0.20 to 0.60 in/hr)
Depth to water table: About 0 to 12 inches
Frequency of flooding: None
Frequency of ponding: Frequent
Calcium carbonate, maximum content: 25 percent
Available water supply, 0 to 60 inches: High (about 9.8 inches)

Interpretive groups

Land capability classification (irrigated): None specified
Land capability classification (nonirrigated): 2w
Hydrologic Soil Group: C/D
Ecological site: R110XY008IL - Wet Glacial Drift Upland Prairie
Hydric soil rating: Yes

Description of Beecher

Setting

Landform: End moraines, ground moraines
Landform position (two-dimensional): Backslope, footslope
Landform position (three-dimensional): Interfluve
Down-slope shape: Convex
Across-slope shape: Convex
Parent material: Thin mantle of loess or other silty material and in the underlying till

Typical profile

H1 - 0 to 7 inches: silt loam
H2 - 7 to 24 inches: silty clay loam
H3 - 24 to 36 inches: silty clay loam
H4 - 36 to 60 inches: silty clay loam

Properties and qualities

Slope: 2 to 4 percent
Depth to restrictive feature: 24 to 45 inches to densic material
Drainage class: Somewhat poorly drained

Runoff class: High
Capacity of the most limiting layer to transmit water (Ksat): Moderately low to moderately high (0.06 to 0.20 in/hr)
Depth to water table: About 6 to 24 inches
Frequency of flooding: None
Frequency of ponding: None
Calcium carbonate, maximum content: 35 percent
Available water supply, 0 to 60 inches: Low (about 5.4 inches)

Interpretive groups

Land capability classification (irrigated): None specified
Land capability classification (nonirrigated): 2e
Hydrologic Soil Group: C/D
Ecological site: R110XY010IL - Moist Glacial Drift Upland Savanna
Hydric soil rating: No

Minor Components

Orthents, clayey

Percent of map unit: 5 percent
Landform: Lake plains, ground moraines
Landform position (two-dimensional): Summit, backslope
Landform position (three-dimensional): Interfluve
Down-slope shape: Convex
Across-slope shape: Convex
Ecological site: F095XB010WI - Loamy and Clayey Upland
Hydric soil rating: No

Soil Investigation Report
5600 S. Wolf Road
Western Springs, IL

AET Project Number: Geo – 9951

Gentleman / Madam,

Associated Engineering & Technology, Inc. (AE&T) has completed two (2) soil borings and sampling of soils to determine the Estimated Seasonal High Groundwater Level (ESHGWL) at the above referenced site in Western Springs, IL. The borings were done at the existing detention pond area and the locations are shown in the appendix of this report. The soil samples were analyzed in the laboratory for soil description, visual classification and moisture content by a geotechnical engineer. Munsell Chart and FEMA maps were also used to estimate the seasonal high groundwater elevations. Based upon our investigation the ESHGWL was noted to be at six (6) feet below the bottom of existing pond.

If you have any questions regarding this report, please contact us.

Sincerely,
Associated Engineering & Technology, Inc.

Ashok Medhi, M.S.
Geotechnical Engineer

Toby C. Mickey, P.E.
Senior Engineer

1.0 SOIL BORING

A total of two (2) soil borings were done were done at the proposed development to 10 feet depth each in accordance with American Society for Testing and Materials procedure for Standard Penetration Test and Split Barrel Sampling of Soils (ASTM 1586). The borings were done with a CME 45 drill rig mounted on All-Terrain Vehicle.

The soil samples were collected at 2-1/2 feet interval to a depth of 10 feet and thereafter at 5 feet interval. The boreholes were backfilled with auger cuttings after completion of drilling.

The soil samples were placed in glass containers and brought to our laboratory. A site plan showing the approximate soil boring locations is included in appendix. Log of the soil borings along with lab classifications are included in Appendix B.

2.0 LABORATORY TESTING

All samples were visually classified according to the Unified Soil Classification System (ASTM D-2488) by a geotechnical engineer. The Auger boring samples are disturbed and were generally used for classification testing (D2487, D2488), moisture content and pocket penetrometer test (ASTM D 854) to evaluate unconfined compressive strength for clayey and clayey silt soils. The primary purpose of this investigation was to determine the Estimated Seasonal High Groundwater Elevation. The boring logs with soil description are included in the Appendix.

3.0 SOIL DESCRIPTION & ANALYSIS

The sub-surface materials in the borings (B-1 & B-2) comprised 8 to 10 inches of black topsoil with roots.

It was underlain by very stiff to hard moist **brown silty Clay** with fine sand and gravel (CL) to depths of about 6.0 feet. Beneath it, medium dense moist **brownish gray fine to medium Sand** trace small gravel (SP) was noted to depths of 8 feet and changed color to **gray** Fine Sand trace small gravel (SP) to the boring depths of 10 feet.

Groundwater was **not** encountered during and after completion of the borings.

3.1 Estimated Seasonal High Ground Water Level

The Estimated seasonal high groundwater level (ESHGWL) at Borings B-1 and B-2 located at existing Detention Pond is at about (six) 6 feet. It is based upon visual classification of the soil samples, existing groundwater levels, site topography, soil conditions, color description and change of color from brown to brownish gray at 6 feet, FIRM maps and Munsell chart (10 YR**).**

Note: Soil colors are expressed in terms of hue, value, and chroma, in accordance with the standardized Munsell color system (Soil Survey Staff, 1951). Hue refers to the wavelength, value expresses the degree of lightness or darkness, whereas chroma notes the purity or strength of a particular color (Munsell, 1974). This system is used to describe the matrix or dominant soil color and the blotches of less-prevalent colors commonly called mottles.

Soil colors are commonly associated with the presence or absence of iron. Weathering of soil minerals is a slow process but with time causes the release of mineral constituents to the environment. Soluble weathering-products are removed from the soil profile, while more stable compounds will precipitate. Iron (Fe), released from a mineral, frequently coats soil particles with thin oxide-coatings. Well-aerated soils typically are yellowish brown-colored from these iron-oxide coatings. Depending on the intensity of the weathering cycles, the iron-oxides may display different colors.

5.0 Warranty / Limitations of liability

Associated Engineering & Technology, Inc. understands that the Boring log depicts conditions disclosed at the particular location and date indicated and may vary within 5 feet of vertical and lateral distance from the borings.
If significant variations or changes are in evidence during construction, it may then be necessary to re-evaluate the recommendations of this report.
In no event shall Associated Engineering & Technology, Inc. be liable for any indirect, special, consequential or incidental damages, of any kind or nature however caused and based on any theory of liability, arising out of or relating to this report, whether or not such party has been advised of the possibility of such damages.

MUNSELL SOIL COLOR CHART

Soil colors are expressed in terms of hue, value, and chroma, in accordance with the standardized Munsell color system (Soil Survey Staff, 1951). Hue refers to the wavelength, value expresses the degree of lightness or darkness, whereas chroma notes the purity or strength of a particular color (Munsell, 1974). This system is used to describe the matrix or dominant soil color and the blotches of less-prevalent colors commonly called mottles. Soil colors are commonly associated with the presence or absence of iron. Weathering of soil minerals is a slow process but with time causes the release of mineral constituents to the environment. Soluble weathering-products are removed from the soil profile, while more stable compounds will precipitate. Iron (Fe), released from a mineral, frequently coats soil particles with thin oxide-coatings. Well-aerated soils typically are yellowish brown-colored from these iron-oxide coatings. Depending on the intensity of the weathering cycles, the iron-oxides may display different colors.

GENERAL NOTES

In order to provide uniformity throughout our project, the following system has Been adopted to describe each soil sample. Rock Shale and other materials will be described in detail as encountered.

CONSISTENCY OF COHESIVE SOIL		RELATIVE DENSTY OF GRANULAR SOIL	
UNCONFINED COMPRESSIVE STRENGTH **QU(TSF)**	**CONSISTENCY**	**"N" VALUE (Blows/foot)**	**RELATIVE DENSITY**
<0.25	VERY SOFT	0 – 3	VERY LOOSE
0.26 – 0.49	SOFT	4 – 9	LOOSE
0.50 – 0.99	MEDIUM STIFF	10 – 29	MEDIUM DENSE
1.00 – 1.99	STIFF	30 – 49	DENSE
2.00 – 3.99	VERY STIFF	50 – 80	VERY DENSE
4.00 – 8.00	HARD	>80	EXTREMELY DENSE
> 8	VERY HARD		

- **Number of blows per foot required to drive a 2" O.D. split-spoon sampler using a140lb. Weight falling free for 30 inches, except where otherwise noted.**

COLOR AS DETERMINED ON THE FRESH, MOST SAMPLES

PREDOMINATE COLORS		SHADES	MODIFYING ADJECTIVE

Worksheet 3: Time of Concentration (T_c) or Travel Time (T_t)

Project: Heritage Crossing By: AJS Date: 10/31/2024

Location: Western Springs Chkd: SDS Date: 10/31/2024

Conditions (i.e. Present / Developed) Existing conditions - LaGrange Highlands Off-Site 129.4 Acre

NOTES: Space for as many as two segments per flow type can be used for each worksheet.
Include a map, schematic, or description of flow segments.

Sheet Flow: (Applicable to T_c only)		Segment ID	AB			
1 Surface Description (Table 3-1)			grass			
2 Manning's Roughness Coeff., '**n**' (Table 3-1)			0.24			
3 Flow Length, **L** (Total < 300 ft)		ft	100			
4 Two-year, 24-hour Rainfall, P_2		in	3.34	3.34		
5 Land slope, **S**		ft / ft	0.0200	0.0100		
6 $T_t = \frac{0.007\,(nL)^{0.8}}{P_2^{0.5}S^{0.4}}$	Compute T_t	hr	0.23	+ 0.00	=	0.23

Shallow Concentrated Flow:		Segment ID	BC			
7 Surface Description (paved or unpaved)			unpaved			
8 Flow Length, **L**		ft	2028			
9 Watercourse slope, **S**		ft / ft	0.0180			
10 Average Velocity, **V** (Figure 3-1)		ft / s	2.2			
11 T_t = **L** / 3600**V**	Compute T_t	hr	0.26	+	=	0.26

Channel Flow:		Segment ID	CD			
12 Cross Sectional Flow Area, **a**		ft^2				
13 Wetted Perimeter, p_w		ft				
14 Hydraulic Radius, **R** = **a**/p_w		ft				
15 Channel Slope, **S**		ft / ft				
16 Manning's Roughness Coeff., '**n**'						
17 **V** = [1.49$R^{2/3}S^{1/2}$]/**n**		ft / s	3	3		
18 Flow Length, **L**		ft	3436	0		
19 T_t = **L** / 3600**V**	Compute T_t	hr	0.32	+ 0.00	=	0.32
20 Watershed or Subarea T_c or T_t (add T_t in steps 6, 11, and 19)					hr	**0.81**

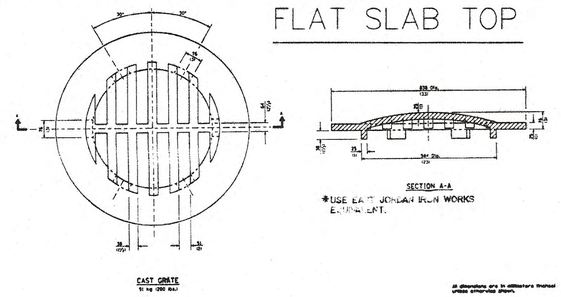
NOTES:
1. RISERS TO BE CONSTRUCTED IN LIEU OF WYES WHERE SEWER DEPTH EXCEEDS 12'-0" FOR PIPE MATERIAL AND CONCRETE. SEE SPECIFICATIONS.
2. ALL SANITARY SERVICES SHALL BE INSPECTED BY THE LA GRANGE HIGHLANDS SANITARY DISTRICT OR THE VILLAGE OF INDIAN HEAD PARK PRIOR TO THE TRENCH BEING BACKFILLED.

SANITARY SEWER SERVICE



SANITARY-SANITARY SEWER TO BE BEDDED IN CA-6 CRUSHED STONE WITHIN THE PIPE ZONE, WHICH EXTENDS FROM 6" BELOW THE PIPE TO 12" ABOVE PIPE.
WATER MAIN-WATER MAIN WILL BE BEDDED WITH TYPE B GRANULAR CRADLE (PER STD. SPECS FOR WATER AND SEWER MAIN CONSTRUCTION IN ILLINOIS) FROM 4" BELOW THE BOTTOM OF THE PIPE TO THE TOP OF THE PIPE.
STORM-STORM SEWER SHALL BE BEDDED WITH TYPE B GRANULAR CRADLE FROM 4" BELOW THE BOTTOM OF THE PIPE TO THE SPRINGLINE OF THE PIPE.

PIPE BEDDING AND BACKFILL

SECTION 1

Storm Water Management Summary

Storm Water Management Summary

Existing Conditions:

The subject 37.9 acre property is located along the east side of Wolf Road between 60th and 63rd Streets in Indian Head Park, Illinois (refer to the location map included in this section). The site is lightly wooded and currently consists of a par three golf course with a small clubhouse building and gravel parking lot. It is bounded by single family homes to the west, north and east and the Acacia multi-family development along its entire southern border. Except for approximately one half acre in the southeast corner of the property, the parcel drains unrestricted in a northerly direction to a pair of 12" diameter storm sewer pipes at the north boundary which in turn discharge to an existing 24" x 18" corrugated metal pipe under 60th street. This culvert then conveys storm water to a drainage swale which flows northerly to Plainfield Road.

There are approximately 6.2 acres of tributary watershed to the west and south of the site (refer to the USGS map copies in section 3). This upstream area is comprised of three separate drainage areas. The first two are approximately 3.4 and 1.3 acres in size and drain to the property through separate 18" diameter culverts under Wolf Road. The third off-site area consists of an estimated 1.5 acres of rear yards of the adjacent Acacia development along the south boundary of the property. Record drawings for the Acacia development indicate that the majority of that site now drains to the southeast and away from the proposed Ashbrook Subdivision.

Proposed Development Conditions:

The proposed Ashbrook Subdivision will occupy 36.4 acres of the 37.9 gross acreage, with 1.5 acres being dedicated to the Wolf Road right-of-way. The development will consist of 25 multi-family buildings containing a total of 112 townhome units and 54 single family home sites. Wolf Road will be widened to provide a left turn lane into the site.

A proposed storm sewer system and drainage swales will convey storm water to three on-site storm water retention ponds which will provide the necessary detention storage in the event of a 100-year frequency storm event. The high water level on each of the three retention ponds has been designed at a minimum of 1.5 feet below the lowest adjacent proposed foundation elevation. Each pond will contain an overflow weir to accommodate the appropriate off-site 100-year bypass flow without exceeding a flow depth of 0.5 feet. The discharge from each pond will be restricted by a circular orifice cut into a metal plate permanently mounted (in accordance with MWRD regulations) over the outflow pipe inside of a downstream catch basin. The site release has been reduced beyond typical allowable rates so that only one of the two existing downstream 12" diameter storm sewer pipes will be needed to convey it. Finally, the existing 24" x 18" culvert under 60th Street, which is in poor condition, will be replaced with a brand new pipe of the same material and size.

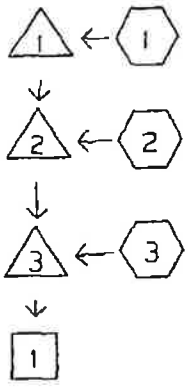
Storm Water Management Calculations:

HydroCAD storm water modeling software, which employs the SCS TR-20 and TR-55 methods, was utilized along with Bulletin 70 rainfall intensities in determining the 100-year storm runoff hydrographs for the site and routing the resultant flows through the proposed retention ponds. Section 2 includes all data calculated for basin characteristics, times of concentration, runoff hydrographs, detention storage, and pond routing. The off-site bypass flows were calculated using the rational method and Bulletin 70 rainfall intensities and are shown in Section 3. Storm sewers on the site have been designed, utilizing the rational method and the Bulletin 70 rainfall data to convey a 10-year frequency storm flow. The calculations for these are in Section 4. Supporting technical reference data can be found in Section 5.

The primary calculated hydrologic information is as follows:

POND	TRIBUTARY BASIN AREA (Ac)	N.W.L. ELEV.	H.W.L. ELEV.	STORAGE VOLUME (Ac-Ft)	RESTRICTOR ORIFICE DIAMETER (in)	MAX.100-YR STORM RELEASE (cfs)
1	17.57	694.5	701.0	5.1	10.0	4.2
2	11.02	691.5	698.0	5.2	9.0	3.5
3	8.07	688.5	695.0	4.5	5.7	2.2

Total Development Area = 36.4 Ac



Total Proposed Detention Volume = 14.8 Ac-Ft

Proposed Site Release = 2.2 cfs (0.06 cfs/Ac)

SCALE

SITE BYPASS FLOW

1. OFF-SITE AREA A ≈ 3.4 Ac ON WEST SIDE OF WOLF RD. (SEE ATTACHED USGS MAP'S)

ASSUME T_c = 20 MIN & C = 0.60

Q_{100} = C · I · A = 0.60 × 6.9"/HR × 3.4 ≈ 14.1 cfs

2. OFF-SITE AREA B ≈ 1.3 Ac ON WEST SIDE OF WOLF ROAD (SEE ATTACHED USGS MAPS)

ASSUME T_c = 20 min & C = 0.60

Q_{100} = 0.60 × 6.9"/HR × 1.3 ≈ 5.4 cfs

3. OFF-SITE AREA C ≈ 1.5 Ac ALONG ACACIA DEVELOPMENT TO SOUTH (BASED ON 1275' × 50' AVG BACK YARD AREA. REMAINING PORTION OF ACACIA DRAINS TO SOUTH PER SITE RECORD DRAWINGS.)

ASSUME T_c = 10 min & C = 0.50

Q_{100} = 0.50 × 10.02"/HR × 1.5 ≈ 7.5 cfs

∴ BYPASS FLOW THROUGH POND #1 = 5.4 + 7.5
= 12.9 cfs

BYPASS FLOW THROUGH POND #'S 2 & 3 = TOTAL BYPASS FLOW
= 27.0 cfs

East Side of Wolf Road - Flood Control Structure / Box Inlet
Stage-Discharge Tables

1) Tributary Areas:

Tributary Area

Delineated Area: 172.30 acres
0.2692188 Square Miles

2) Curve Numbers:

See attached Worksheet 2 for each area.

3) Time of Concentration:

See attached Worksheet 3 for each area.

Notes	Elevation	Bottom Orifice Flow (cfs)	Rectangular Weir Flow (cfs)	Inlet Box Structure Flow (cfs)	Total Flow (cfs)

	664.50	87.52	92.08	268.12	447.72

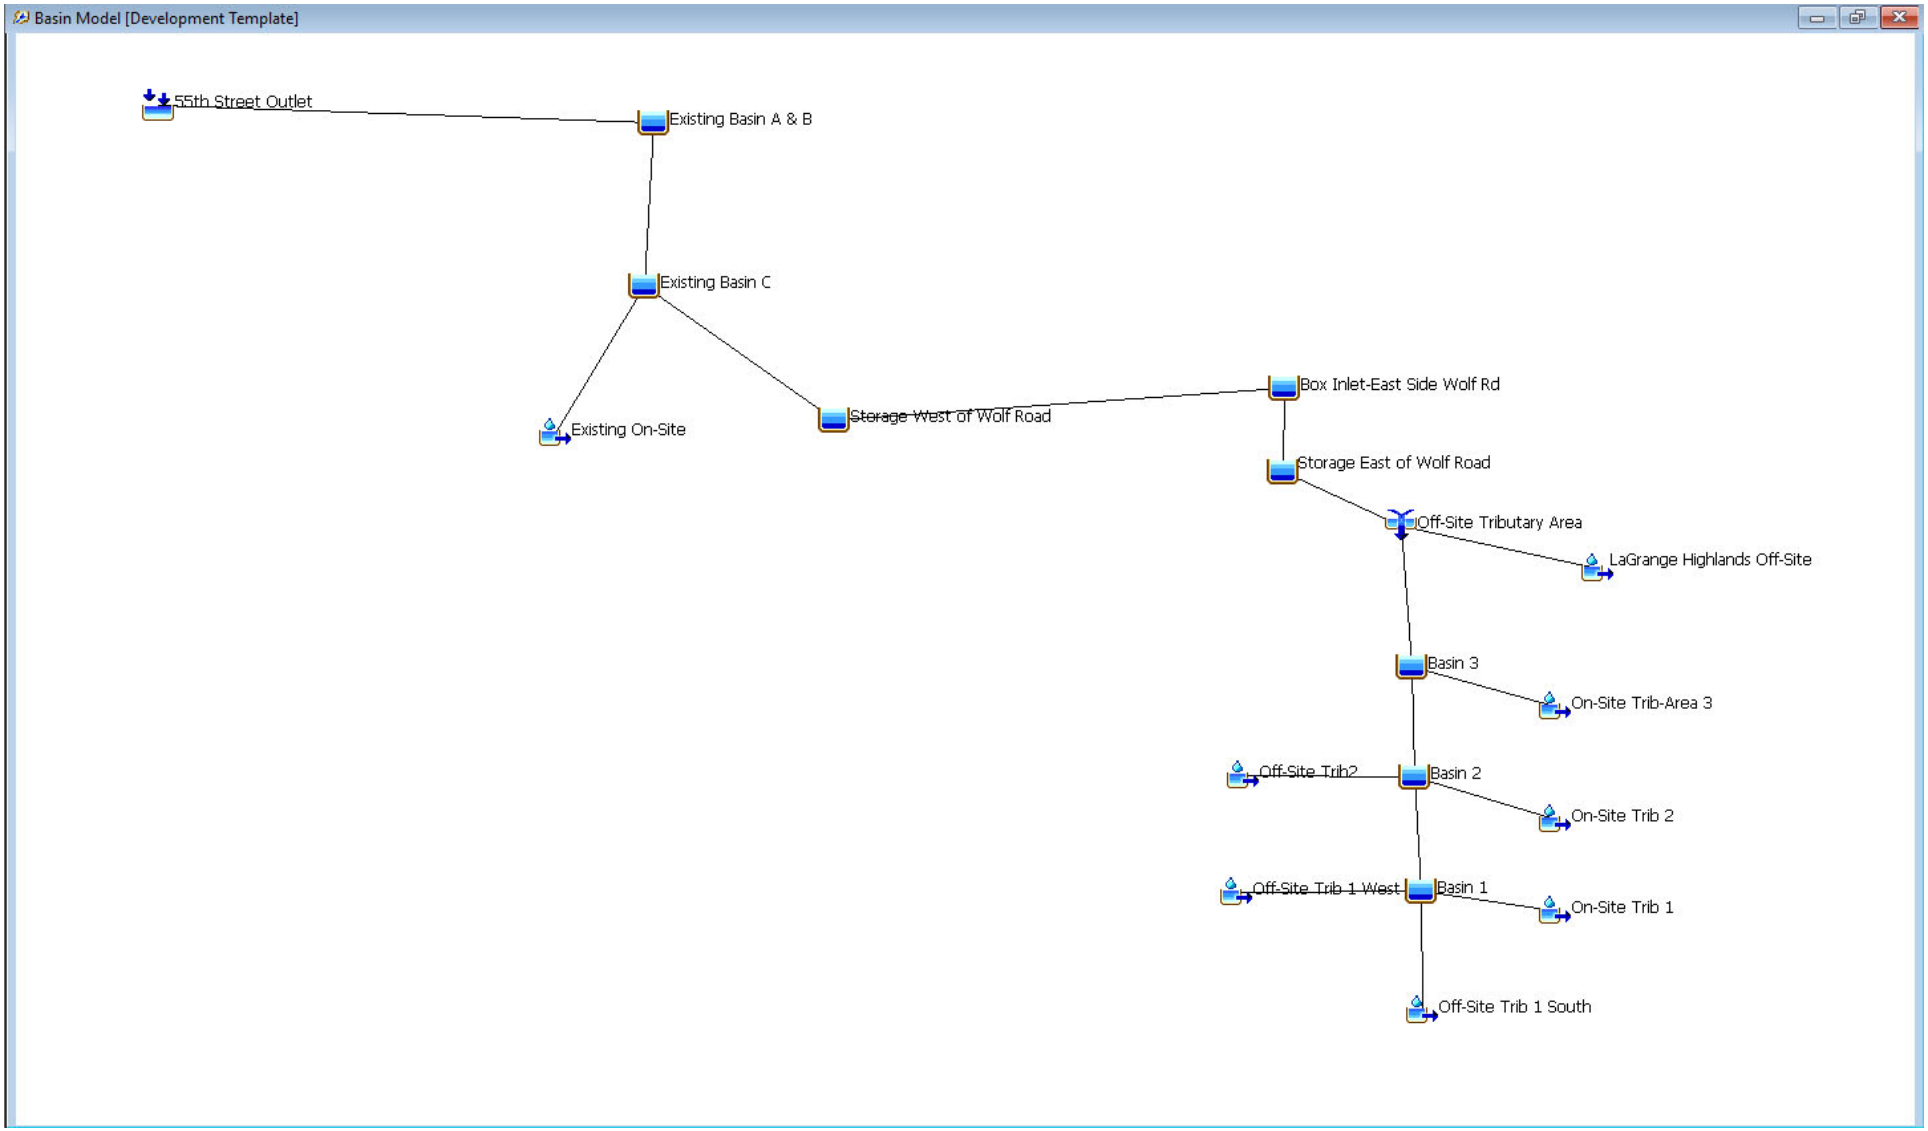
1) Bottom Orifice Flow

C = 0.80
Rectangular Orifice 2.0' x 2.85'
Area = 5.71 feet

Centerline of Orifice = 658.80

2) Rectangular Weir

Weir Flow



C = 2.700
Length = 6.1
Elevation = 661.35

3) Inlet Box Structure

10'x5' Grate

Water Elevation (feet)	Head (feet)	Weir Flow (cfs)	Orfice Flow (cfs)
663.30	0.00	0.00	
663.40	0.10	1.90	
663.50	0.20	5.37	
663.60	0.30	9.86	
663.70	0.40	15.18	
663.80	0.50	21.21	
663.90	0.60		189.59
664.00	0.70		204.78
664.10	0.80		218.92
664.20	0.90		232.20
664.30	1.00		244.76
664.40	1.10		256.71
664.50	1.20		268.12

Weir Formula	Orfice Formula
Q = CLH^3/2	Q = AC √64.4(H)
Q = (3)(20)H^3/2	Q = (50)(0.61) √64.4(H)
Q = (60)H^3/2	Q = (30.5) √64.4(H)

Proposed Conditions

Curve Number

Project: Heritage Crossing By: AJS Date: 8/26/2024

Location: NE Corner of Wolf Road and Park Place Chkd: SDS Date: 8/26/2024

Conditions (i.e. Present / Developed): Proposed

Curve Number

Soil Name and Hydrologic Group (Appendix A)	Cover Description (cover type, treatment, and hydrologic condition; percent impervious; unconnected/connected impervious area ratio)	CN			Area ☑ acres ☐ mi² ☐ %	Product of CN x Area
C	Lawn, good condition (grass cover > 75%)	74			1.0008	74.06
C	Pavement, Parking, Curb and Gutter	98			0.3374	33.07
C	Carriage Walk	98			0.0644	6.31
C	Driveways	98			0.2829	27.72
C	Stoops & Patios	98			0.0681	6.67
C	Buildings	98			0.6564	64.33
				Totals =	2.4100	212.16

* Use only one CN source per line.

CN (weighted) = $\frac{\text{total product}}{\text{total area}} = \frac{212.16}{2.4100} = 88.03$; use CN = **88.03**

FULL-DEPTH HMA PAVEMENT
DESIGN CALCULATIONS FOR LOCAL PUBLIC AGENCIES
Figure 44-4N

HARD COPIES UNCONTROLLED

40. Traffic Factor (TF). The total number of 18-kip equivalent, single-axle load applications anticipated in the design lane during the design period, expressed in millions.

41. Untied Shoulder. Any shoulder that does not provide edge support. The shoulder may consist of earth, aggregate, or bituminous stabilized materials. PCC shoulders that are tied with smaller reinforcing steel than the size indicated in the *Illinois Highway Standards* are considered untied for purposes of determining pavement thickness.

44-1.02 Accessibility Requirements

All pavements constructed shall meet the accessibility requirements in Section 41-6 of this manual.

44-1.03 Basic Mechanistic Design Procedures

Mechanistic pavement design procedures use the actual stresses, strains, and deflections experienced by the pavement to determine its expected fatigue life.

44-1.03(a) Mechanistic Design Factors

Factors that are considered in mechanistic designs include:

- design HMA strain;
- design pavement HMA mixture temperature;
- design HMA mixture modulus (E_{HMA});
- subgrade support rating (SSR);
- design reliability;
- degree of PCC edge support;
- degree of PCC base erosion;
- PCC joint spacing; and
- PCC stresses.

44-1.03(b) Design Period

The level of traffic and type of facility to be constructed affect the selection of the design period. Generally, it is desirable to design highway pavements to carry traffic without necessitating the need for major rehabilitation for a period of 15 to 20 years. However, it may be advantageous to design lesser roadways (e.g., frontage roads, alleys, temporary roads) for shorter periods.

For all pavement types, the minimum design period allowed is 20 years for Class I and II roads and streets. For all pavement types, the minimum design period allowed is 15 years for Class III roads and streets. For Class IV roads and streets with 48 or fewer HCV's, pavement thicknesses provided in each Section 44-2, 44-3, 44-4, and 44-5 should be satisfactory for design periods of 15 years or 20 years.

HARD COPIES UNCONTROLLED

44-1.03(c) Structural Design Traffic

The structural design traffic is the estimated ADT for the year representing one-half of the design period. For example, when the design period is 20 years, the structural design traffic will be an estimate of the ADT projected to 10 years after the construction date.

1. Estimate ADT of PV, SU, and MU. Vehicular classification and traffic volume projections for structural design traffic are based on available traffic data (i.e., ADT). ADT and vehicular classification data for various roadway classes may be obtained from published IDOT traffic maps. If traffic data is unavailable or if published data is dated or does not appear to reflect known conditions or field observations (e.g., land uses, directional distributions), traffic volume and classification studies may be needed to establish a representative base of existing conditions. Factors that compound annual growth typically are used in traffic projections. It is important to consider any future land development or land use changes that may affect the volume or composition of traffic that will use the facility. If vehicular classification data is not available for Class III or Class IV facilities, use the percentages in Figure 44-1A to estimate the number of PV, SU, and MU vehicles from ADT. Also, consider the potential impacts of heavily loaded vehicles, especially in areas near mines, grain elevators, factories, and river ports. It may be necessary to specifically design for such vehicles.

2. Assign Traffic to the Design Lane. Although the sum of the PV, SU, and MU vehicular volumes determined in Step 1 represents the total ADT that will be carried by the highway facility in the year of the projection, the structural design of the pavement will be based on the lane which carries the greatest number of SU and MU vehicles (i.e., the design lane). The distribution factors in Figure 44-1B have been applied to TF equations contained in this chapter. Use the total two-way ADT for multilane facilities when calculating the structural design traffic as the distribution factors account for directional traffic and the percentage of vehicles in the design lane.

   Note that the design lane distribution factors in Figure 44-1B are based on previous traffic studies under average conditions. Unusual traffic control or design features may influence lane usage (e.g., lane restrictions of commercial vehicles, directional influence of major commercial generator). Adjustments may be necessary. Contact the CBLRS for additional guidance.

Class of Road or Street	Percentage of Structural Design Traffic		
	PV (%)	SU (%)	MU (%)
III	88	7	5
IV	88	9	3

TRAFFIC PERCENTAGE
(Class III and IV)

Figure 44-1A

HARD COPIES UNCONTROLLED

PG Binder Grade Selection [1]			
	Traffic Loading Rate (Adjustment)		
Districts 1 – 4	Standard Traffic [2]	Slow Traffic [3]	Standing Traffic [4]
Surface[5]	PG 58-28 [6][7]	PG 64-28 or SBS PG 64-28	SBS PG 70-28
Remaining Lifts[5]	PG 64-22 or PG 58-22	PG 64-22 or PG 58-22	PG 64-22 or PG 58-22
Districts 5 – 9			
Surface[5]	PG 64-22 [6][7]	PG 70-22 or SBS PG 70-22	SBS PG 76-22
Remaining Lifts[5]	PG 64-22	PG 64-22	PG 64-22

Notes:

1. *The binder grades provided in this table are based on the recommendations given in Illinois-Modified AASHTO* MP-2, Table 1, "Binder Selection on the Basis of Traffic Speed and Traffic Level."
2. *Standard traffic is used where the average traffic speed is greater than 43 mph (70 km/h).*
3. *Slow traffic is used where the average traffic speed ranges from 12 to 43 mph (20 to 70 km/h).*
4. *Standing traffic is used where the average traffic speed is less than 12 mph (20 km/h).*
5. *Consideration should be given to increasing the high temperature grade by one grade equivalent when 10 ≤ T.F. ≤ 30. For example, if use of a PG 64-22 is specified for standard traffic, a PG 70-22 or a SBS PG 70-22 should be specified.*
6. *Surface includes the top 2 in. (50 mm) of HMA. The remaining lifts of HMA may be the same PG binder grade as surface; however, this may increase or decrease the pavement design thickness. If multiple PG Binder grades are used in a HMA design, the predominant PG Binder grade should be used for determining HMA Modulus on Figure 44-4H.*
7. *The high temperature grade should be increased by one grade equivalent when T.F. > 30. For example, if use of a PG 64-22 is specified for standard traffic, a PG 70-22 or a SBS PG 70-22 should be specified.*

PG BINDER GRADE SELECTION FOR FULL-DEPTH HMA PAVEMENTS

Figure 44-4C

44-4.02(e) PG Binder Selection

The PG binder grade may affect the performance of a HMA mixture. The full-depth HMA pavement design procedure assumes that HMA rutting and thermal cracking are adequately considered in the material selection and mixture design process. Selection of the appropriate binder grade can impact the ability of the mix to resist rutting at higher temperatures and thermal cracking at lower temperatures. Both high and low temperature levels need to be considered when selecting the appropriate binder grade for full-depth HMA pavements.

HARD COPIES UNCONTROLLED

44-4.03 Thickness Design

The following processes are used to determine the design thickness:

1. Class I, II and III Roads and Streets. The design procedure is as follows:
   - Calculate the TF from the appropriate equation found in Figure 44-4A.
   - Use Figure 44-6A in conjunction with the subgrade soil grain-size analysis to determine the subgrade support rating.
   - Use Figure 44-4C in conjunction with traffic speed and location to determine the PG binder grade.
   - Use Figure 44-4E to determine the HMA pavement mixture temperature. The design mixture temperature should be interpolated to the nearest 0.5°F.

     Note: The design HMA mixture temperatures for conventional flexible and full-depth HMA pavements are not the same. For the same location, the conventional flexible HMA design mixture temperature is lower than the full-depth HMA design mixture temperature, because conventional flexible design time dates occur earlier in the spring.
   - Use Figure 44-4F (TF < 0.5) or Figure 44-4G (TF ≥ 0.5) to determine the design HMA strain.
   - Use Figure 44-4H to determine the design pavement HMA modulus (E_{HMA}).
   - Use Figures 44-4I, 44-4J, or 44-4K, depending on the subgrade support rating, to determine the design HMA thickness. Round the final design thickness to the next highest 0.25 in.
   - The minimum full-depth HMA design thickness is 6 in.
   - A 12 in. improved subgrade is required for Class I and II pavements and is optional for Class III pavements. Class III pavement subgrades must satisfy the requirements of Section 44-7 during construction.
2. Class IV Roads and Streets. The following procedure applies:
   - If HCV's per day ≤ 48, use a minimum 5 in. HMA pavement. A 12 in. improved subgrade layer is optional. Class IV pavement subgrades must satisfy the requirements of Section 44-7 during construction.
   - If HCV's per day > 48, use a Class III TF equation and design procedure.

44-4.04 Typical Sections

Figures 44-4L and 44-4M illustrate typical LPA full-depth HMA pavement designs.

SUPERINTENDENT OF TRANSPORTATION AND HIGHWAYS COOK COUNTY, ILLINOIS

RESPONSIBILITY OF H.O.A., VILLAGE OF WESTERN SPRINGS AND LAGRANGE HIGHLANDS SANITARY DISTRICT

The Homeowners Association (H.O.A.) shall be responsible for maintenance of all landscaping areas within all Lots and Outlots within the subdivision, together with all improvements within the ingress-egress easement, and all storm sewers and structures. The individual homeowners shall be responsible for all sanitary and water services from the public sanitary service connections and B-Boxes to the constructed buildings. The Village of Western Springs shall be responsible for all watermain and structures attached thereto. The LaGrange Highlands Sanitary District shall maintain the sanitary sewer and all structures attached thereto. The Homeowners Association shall maintain those specified areas and features described above in a manner consistent with the plans approved by the Village of Western Springs (Village) and the standards typical of private property maintenance throughout the community. In the event the Owners fail to properly maintain these areas, the Village shall, upon seventy-two (72) hours prior notice to the H.O.A., have the right, but not the duty, to perform, or have performed on its behalf, any maintenance work to or upon the specified areas and features. In the event of an emergency situation, as determined by the Village, the seventy-two (72) hours prior notice requirement set forth above shall not apply, and the Village shall have the right, but not the duty, to proceed without notice to the H.O.A.

In the event the Village shall perform, or have performed on its behalf, any maintenance work of the specified areas or features, the cost of such work shall, upon recordation of Notice of Lien with the Recorder of Deeds of Cook County, Illinois, constitute a lien against the assets of the property owners and against each and every lot within the subdivision. The cost of the work incurred by the Village shall include all expenses and costs associated with the performance of such work including, but not limited to, reasonable engineering, consulting and attorneys' fees related to the planning and actual performance of the work.

PRIVATE INGRESS - EGRESS PROVISIONS

An easement for ingress and egress over and across the Property for the benefit of the Owner(s) of Subdivision and/or Lots, their heirs, successors, assigns, guests and invitees, as more particularly bounded and described on the Plat. This easement shall be perpetual and shall run with the land.

The Homeowners Association (H.O.A.) shall be responsible for maintenance of all improvements within said ingress and egress areas within the subdivision. The Homeowners Association shall maintain those specified areas and features described above in a manner consistent with the plans approved by the Village of Western Springs (Village) and the standards typical of private property maintenance throughout the community. In the event the Owners fail to properly maintain these areas, the Village shall, upon seventy-two (72) hours prior notice to the H.O.A., have the right, but not the duty, to perform, or have performed on its behalf, any maintenance work to or upon the specified areas and features. In the event of an emergency situation, as determined by the Village, the seventy-two (72) hours prior notice requirement set forth above shall not apply, and the City shall have the right, but not the duty, to proceed without notice to the H.O.A.

In the event the Village shall perform, or have performed on its behalf, any maintenance work of the specified areas or features, the cost of such work shall, upon recordation of Notice of Lien with the Recorder of Deeds of Cook County, Illinois, constitute a lien against the assets of the property owners and against each and every lot within the subdivision. The cost of the work incurred by the Village shall include all expenses and costs associated with the performance of such work including, but not limited to, reasonable engineering, consulting and attorneys' fees related to the planning and actual performance of the work.

STORMWATER MANAGEMENT EASEMENT

Declarant hereby reserves and grants to the Village of Western Springs (Village) easements in, over, under, through, and upon those areas designated on the Plat as 'Stormwater Management Easement,'including but not limited to all outlots (Outlot 30-33 inclusive), and all areas detailed in the Declaration of Covenants Conditions and Restrictions for the Heritage Crossing Townhome Association of Western Springs pertaining to maintenance, repair, and replacement of stormwater management facilities, for purposes of providing adequate stormwater drainage control together with reasonable access thereto. [Continue with the same language currently on the plat in this first paragraph, I don't want to rewrite it all].

In the event the Village shall perform, or have performed on its behalf, removal of any obstruction or alteration to or upon the stormwater facilities drainage easement, as set forth in this easement, The Village shall establish a Special Service Area, pursuant to 35 ILCS 200/27-5 et seq., that includes the entire Premises after the approval of the Planned Development by the Village but prior to the sale and conveyance of title to any Lot to any person by the Developer, which shall govern the Premises for the purpose of ensuring, as and when appropriate, the maintenance, repair and replacement of the SSA Maintained Improvements. The Special Service Area shall be an encumbrance on title to the Premises, including each Lot, Dwelling Unit and Common Areas. The Developer agrees to cooperate with the Village in creating the Special Service Area and agrees not to object to the formation of the Special Service Area, provided the terms of the Special Service Area are consistent with the Development Agreement and this Declaration. In the event the owner of any portion of the Premises (the Developer, the Declarant, the Association, a Dwelling Unit Owner or Owner), at any time, shall fail to maintain, repair or replace the SSA Maintained Improvements, as and when appropriate, and, after receipt of Village notice of such failure and opportunity to cure, the Village shall have the right to levy a special service tax on the parcel(s) where the owner(s) has failed to perform its maintenance, repair or replacement obligations on the Premises, perform such work and receive reimbursement of the costs and expenses it has incurred, including any legal fees and related expenses, engineering fees and related expenses, other consultant fees and related expenses and a reasonable allocation of Village staff and overhead costs. The Village shall not levy a tax in accordance with the Special Service Area unless the applicable owner(s) fails or refuses to fulfill its maintenance, repair and replacement obligations or its reimbursement obligation to the Village, as contained in this Agreement and the Declaration. The tax levy by the Village may extend to one owner or a limited number of owners, and not the entire Premises, if such limited tax levy is appropriate. In the event the failure or refusal to fulfill maintenance, repair and replacement obligations or the reimbursement obligation to the Village relates to one or more components of the SSA Maintained Improvements that support or serve the entire Premises or the Development, then the levy shall extend to the Association and each of the property owners of the Development. The maximum tax established for the Special Service Area shall be based on the actual incurred expenses or, if the improvements have not been made yet, the Village Engineer's reasonable, estimated expense for maintenance, repair or replacement of such improvements. If the Association or a property owner(s) shall fail to pay the Special Service Area Tax, the Village shall be authorized to: (1) take all other legal action and legal remedies to recoup the Village's funds spent on the enforcement of the obligations and shall be entitled to recover its actual incurred legal fees and related expenses from the owner(s) who fails or refuses to fulfill its maintenance, repair and replacement obligations or its reimbursement obligation to the Village; and (2) take all other legal action and legal remedies to recoup the Village's funds spent on the enforcement of the obligations of the Developer hereunder, including such lien foreclosure action authorized by 65 ILCS 5/11-31-1, as amended, or provided for in 65 ILCS 5-11-31-2, as amended, or similar applicable laws to foreclose on the lien and may collect its reasonable attorney's fees and litigation expenses incurred in the enforcement of the obligations.

COMED COMPANY AND AT & T CORPORATION

An easement for serving the subdivision and other property with electric and communication service is hereby reserved for and granted to COMED COMPANY and AT & T CORPORATION, their respective licensees, successors, and assigns, jointly and severally, to construct, operate, repair, maintain, modify, reconstruct, replace, supplement, relocate and remove, from time to time, poles, guys, anchors, wires, cables, conduits, manholes, transformers, pedestals, equipment cabinets or other facilities used in connection with overhead and underground transmission and distribution of electricity, communications, sounds and signals in, over, under, across, along and upon the surface of the property shown within the dashed or dotted lines (or similar designation) on the plat and marked Public Utility & Drainage Easement, or P.U. & D.E." designation), the property designated in the Declaration of Condominium and/or on this plat as 'Common Elements'; and the property designated on the plat as 'common area or areas'; and the property designated on the plat for streets and alleys, whether public or private, together with the rights to install required service connections over or under the surface of each lot and common area or areas to serve improvements thereon, or on adjacent lots, and common area or areas, the right to cut, trim or remove trees, bushes, roots and saplings and to clear obstructions from the surface and subsurface as may be reasonably required incident to the rights herein given, and the right to enter upon the subdivided property for all such purposes. Obstructions shall not be placed over Grantees' facilities or in, upon or over the property within the dashed or dotted lines (or similar designation) marked 'Easement', 'Utility Easement', 'Public Utility Easement', 'P.U.E' (or similar designation) without the prior written consent of Grantees. After installation of any such facilities, the grade of the subdivided property shall not be altered in a manner so as to interfere with the proper operation and maintenance thereof.

The term 'Common Elements' shall have the meaning set forth for such term in the 'Condominium Property Act', Chapter 765 ILCS 605/2, as amended from time to time.

The term 'common area or areas' is defined as a lot, parcel or area of real property, the beneficial use and enjoyment of which is reserved in whole or as an appurtenance to the separately owned lots, parcels or areas within the planned development, even though such be otherwise designated on the plat by terms such as 'outlots', 'common elements', 'open space', 'open area', 'common ground', 'parking' and 'common area'. The term 'common area or areas', and 'Common Elements' include real property surfaced with interior driveways and walkways, but excludes real property physically occupied by a building, Service Business District or structures such as a pool, retention pond or mechanical equipment. Relocation of facilities will be done by Grantees at cost of the Grantor/Lot Owner, upon written request.

NICOR CORPORATION / NICOR GAS COMPANY PROVISIONS

An easement is hereby reserved for and granted to NICOR GAS COMPANY OF ILLINOIS, its successors and assigns, in all platted 'easement' areas, streets, alleys, other public ways and places shown on this plat, said easement to be for the installation, maintenance, relocation, renewal and removal of gas mains and appurtenances for the purpose of serving all areas shown on this plat as well as other property, whether or not contiguous thereto. No buildings or other structures shall be constructed or erected in any such 'easement' areas, streets, alleys, or other public ways or places nor shall any other use be made thereof which will interfere with the easements reserved and granted hereby.

PUBLIC UTILITY AND DRAINAGE EASEMENT PROVISIONS

A non-exclusive perpetual easement is hereby reserved and granted to the Village of Western Springs (Village), LaGrange Highlands Sanitary District and their successors and assigns over all areas designated "Public Utility and Drainage Easement" and those areas designated "P.U. & D.E." on the plat, to construct, reconstruct, repair, inspect, maintain and operate various transmissions, distribution, and collection systems, including but not limited to water lines, sanitary sewers and storm sewers, together with any and all necessary valve vaults fire hydrants, manholes, catch basins, connections, appliances and other structures and appurtenances as may be deemed necessary by said Village, over, upon, along, under and through the surface of the property shown on the plat, together with the right of access for necessary labor, materials and equipment to do any of the above work.

The right is also granted to cut down, trim or remove, without obligation to restore or replace any obstruction, including but not limited to trees, shrubs, other plants, structures or improvements on the easement that interfere with the operation of such lines and sewers. No permanent buildings or structures shall be placed on said easement, but same may be used for gardens, landscape areas, and other purposes that do not then or later interfere with the aforesaid uses or rights. Where an easement is used for both sewer and other utilities, the other utility installation shall be subject to the ordinance of the Village of Western Springs and to Village approval as to design and location.

Perpetual easements are hereby reserved for and granted to the Village of Western Springs and other governmental authorities having jurisdiction of the land, over the entire easement area for ingress, egress, and the performance of municipal and other governmental services including water, storm and sanitary sewer service and maintenance and emergency and routine police, fire, and other public safety related services.

COMCAST COMMUNICATIONS PROVISIONS

An easement is hereby reserved and granted to COMCAST COMMUNICATIONS CORPORATION, operating within the Village of Western Springs, it's successors and assigns, jointly and severally, for the installation, maintenance, relocation, renewal and removal of communication and broadcast signal systems in, under, across, along and upon the surface of the property shown on the plat and designated as "Public Utility and Drainage Easement" or "P.U. & D.E." and the property designated on the plat for streets and alleys as required to provide the planned unit development and other property, whether or not contiguous thereto, with communication and broadcast TV services, together with the right to install required service connections for each lot. No buildings or other obstructions shall be constructed or erected in any such "Public Utility and Drainage Easement" or "P.U. & D.E." areas, without the prior written consent of grantees. Nor shall any other use be made thereof which will interfere with the easements reserved and granted hereby.

SURVEYOR'S CERTIFICATE

STATE OF ILLINOIS)
) SS
COUNTY OF WILL)

THIS IS TO CERTIFY THAT I, STEVEN J. LAUB, AN ILLINOIS PROFESSIONAL LAND SURVEYOR, NO. 035-003160, HAVE SURVEYED AND SUBDIVIDED THE FOLLOWING DESCRIBED PROPERTY:

PARCEL 1: THE WEST 1/2 OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION BEING A SUBDIVISION OF THE EAST 473 FEET OF THE NORTH 775.5 FEET (EXCEPT THE EAST 145.2 FEET OF THE WEST 178.2 FEET OF THE NORTH 350 FEET THEREOF) OF THE NORTH EAST 1/4 OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, IN COOK COUNTY, ILLINOIS.

PARCEL 2: LOT 1 IN VIAL'S FAIRWAY, A SUBDIVISION OF PART OF THE NORTH EAST 1/4 OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT RECORDED APRIL 17, 1957 AS DOCUMENT 16879637 IN COOK COUNTY, ILLINOIS.

PARCEL 3: THAT PART OF THE 66 FEET WIDE LAWN AVENUE, LYING SOUTH OF THE NORTH LINE OF WESTERN SPRINGS TOWNHOMES, RECORDED MARCH 29, 1999, AS DOCUMENT NO. 99297584, LYING NORTH OF THE SOUTH LINE OF RIDGEWOOD UNIT 12, RECORDED OCTOBER 6, 1965, AS DOCUMENT NO. 19810036, LYING WEST OF THE EAST LINE OF THE WEST 1/2 OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION, RECORDED NOVEMBER 13, 1948, AS DOCUMENT NO. 14442019, AND LYING EAST OF THE WEST LINE OF RIDGEWOOD UNIT NO. 11, RECORDED APRIL 3, 1964, AS DOCUMENT NO. 19089916, IN THE EAST HALF OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, COOK COUNTY, ILLINOIS.

AS SHOWN BY THE ANNEXED PLAT WHICH IS A CORRECT REPRESENTATION OF SAID SURVEY AND SUBDIVISION.

I FURTHER CERTIFY THAT THIS SUBDIVISION LIES WITHIN THE CORPORATE LIMITS OF THE VILLAGE OF WESTERN SPRINGS, ILLINOIS, WHICH HAS ADOPTED A MUNICIPAL PLAN AND IS EXERCISING SPECIAL POWERS AUTHORIZED BY ARTICLE 11, DIVISION 12 OF THE ILLINOIS MUNICIPAL CODE, AS NOW AND HEREAFTER AMENDED AND THAT ALL REGULATIONS ENACTED BY THE VILLAGE OF WESTERN SPRINGS RELATIVE TO PLATS AND SUBDIVISIONS HAVE BEEN COMPLIED WITH IN THE PREPARATION OF THIS PLAT.

I FURTHER CERTIFY THAT IRON PIPE 1" X 24" WILL BE SET AT ALL LOT CORNERS, BLOCK CORNERS, POINTS OF CURVE, EXCEPT WHERE CONCRETE MONUMENTS ARE INDICATED, AND THAT THE PLAT HEREON DRAWN CORRECTLY REPRESENTS SAID SURVEY AND SUBDIVISION.

I FURTHER CERTIFY THAT THE SUBJECT PROPERTY LIES WITHIN ZONE "X" (AREAS OF MINIMAL FLOODING) AS DEFINED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY'S (FEMA) FLOOD INSURANCE RATE MAP (FIRM) OF THE VILLAGE OF WESTERN SPRINGS, ILLINOIS, MAP NUMBER 17031C0467J, EFFECTIVE DATE ON AUGUST 19, 2008.

DIMENSIONS ARE GIVEN IN FEET AND DECIMAL PARTS THEREOF AND ARE CORRECTED TO A TEMPERATURE OF 68 DEGREES FAHRENHEIT.

ALL CURVE LENGTHS SHOWN ARE ARC DIMENSIONS.

GIVEN UNDER MY HAND AND SEAL AT MOKENA, ILLINOIS, THIS 10th DAY OF JULY A.D., 2024.

Traffic Impact Study
Proposed Residential Development
Western Springs, Illinois

Prepared For:

McNaughton DEVELOPMENT, LLC
YOUR LUXURY HOME BUILDER

KLOA
Kenig, Lindgren, O'Hara, Aboona, Inc.

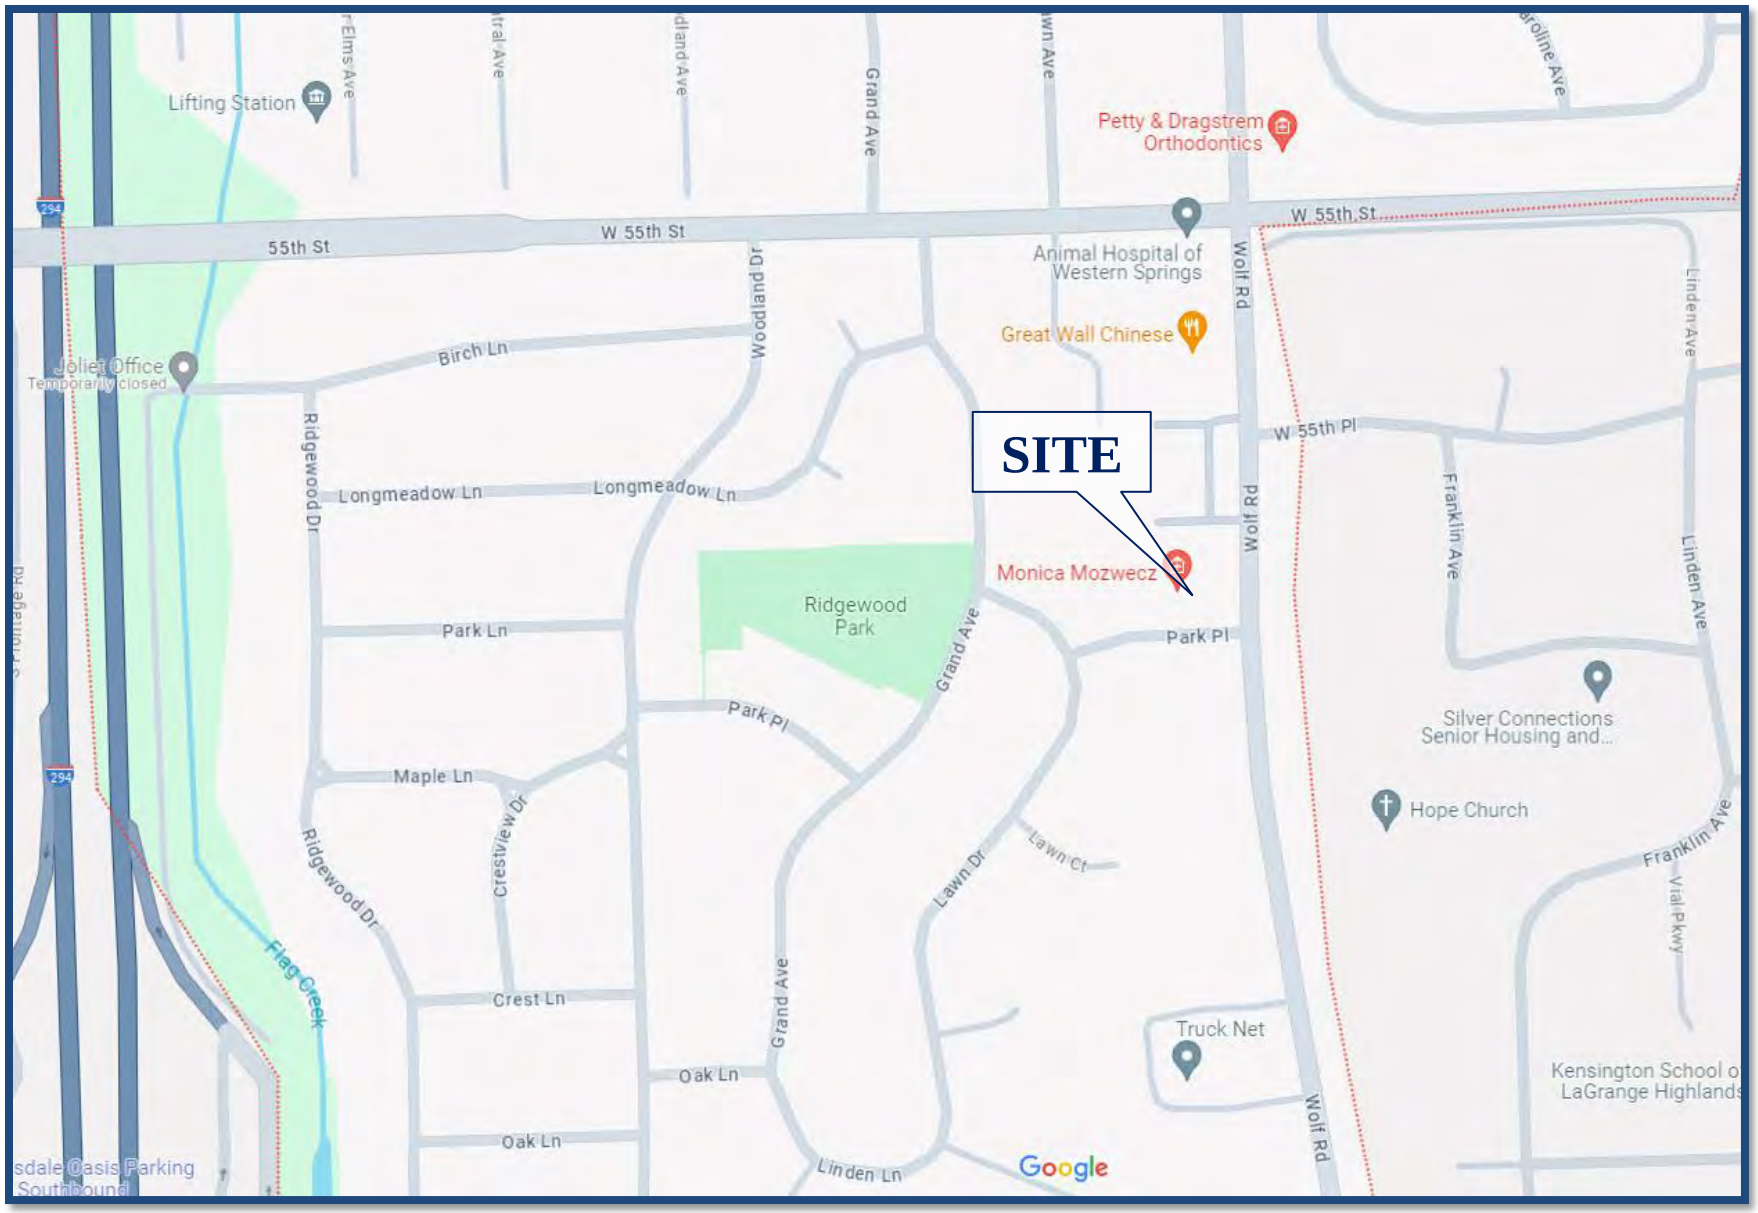
July 9, 2024 – Revised November 25, 2024

1. Introduction

This report summarizes the methodologies, results, and findings of a traffic impact study conducted by Kenig, Lindgren, O'Hara, Aboona, Inc. (KLOA, Inc.) for a proposed residential development to be located in Western Springs, Illinois. The site, which currently contains a medical office building, is located in the northwest corner of the intersection of Wolf Road (Cook County Highway W22) with Park Place. As proposed, the site will be redeveloped with a residential development consisting of 29 townhome units. Access to the development will be provided via a full-movement access drive off Wolf Road at approximately the same location of the existing access drive serving the medical office building. A gated access will be provided on Heritage Court, only allowing cross-access between the proposed development and the existing Heritage Court townhomes.

The purpose of this study was to examine background traffic conditions, assess the impact that the proposed development will have on traffic conditions in the area, and determine if any additional roadway or access improvements are necessary to accommodate traffic generated by the proposed development. **Figure 1** shows the location of the site in relation to the area roadway system. **Figure 2** shows an aerial view of the site.

The sections of this report present the following:



- Existing roadway conditions
- A description of the proposed development
- Directional distribution of the development traffic
- Vehicle trip generation for the development
- Future traffic conditions including access to the development
- Traffic analyses for the weekday morning and weekday evening peak hours
- Recommendations with respect to adequacy of the site access and adjacent roadway system

Traffic capacity analyses were conducted for the weekday morning and weekday afternoon/evening peak hours for the following conditions:

1. Existing Traffic Conditions – Analyzes the capacity of the existing roadway system using peak hour traffic volumes from traffic counts conducted in 2024.

2. Year 2030 No-Build Conditions – Analyzes the capacity of the existing roadway system using existing traffic volumes increased by an ambient area growth factor not attributable to any particular development.

3. Year 2030 Total Projected Conditions – Analyzes the capacity of the future roadway system using the projected traffic volumes that include the Year 2030 no-build volumes and the traffic estimated to be generated by the proposed development.

Site Location **Figure 1**

Proposed Residential Development
Western Springs, Illinois

KLOA
Kenig,Lindgren,O'Hara,Aboona,Inc.

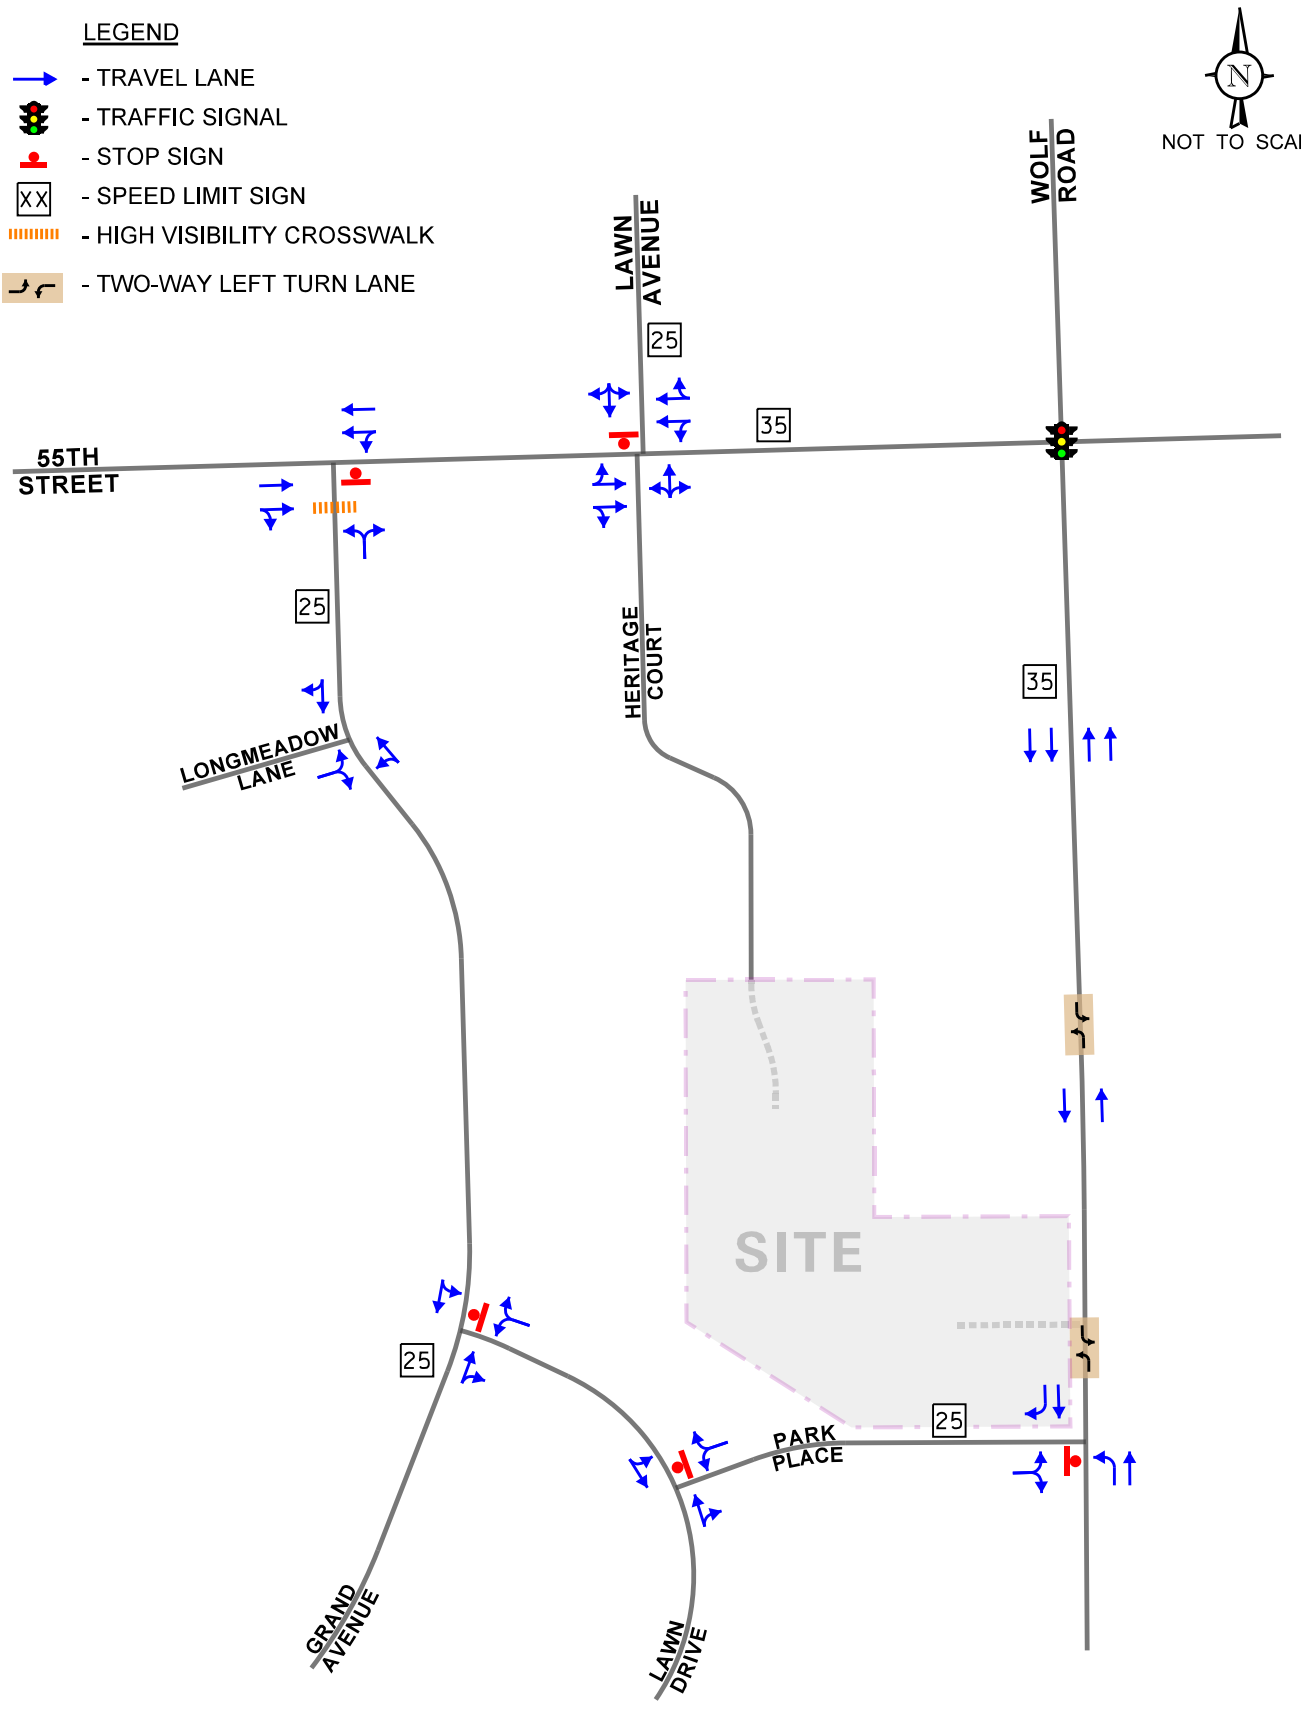
Aerial View of Site **Figure 2**

2. Existing Conditions

Existing transportation conditions in the vicinity of the site were documented based on field visits conducted by KLOA, Inc. in order to obtain a database for projecting future conditions. The following provides a description of the geographical location of the site, physical characteristics of the area roadway system including lane usage and traffic control devices, and existing peak hour traffic volumes.

Site Location

The site, which currently contains a medical office building, is generally bounded by Springwood Manor condominiums and the Western Springs Heritage Townhomes to the north and single-family homes (Ridgewood of Western Springs) to the west and south. Wolf Road borders the site to the east. Land uses in the vicinity of the site are primarily residential in all directions.



Existing Roadway System Characteristics

The characteristics of the existing roadways near the development are described below and illustrated in **Figure 3**.

Wolf Road (Cook County Highway W22) is a north-south minor arterial roadway that provides one lane in each direction divided by a striped median. At its unsignalized intersection with Park Place, Wolf Road provides an exclusive left-turn lane and a through lane on the northbound approach. The southbound approach provides a through lane and an exclusive right-turn lane. Wolf Road is under the jurisdiction of the Cook County Division of Transportation and Highways (CCDOTH), is not designated as a Strategic Regional Arterial (SRA), and has a posted speed limit of 35 miles per hour. According to the Illinois Department of Transportation (IDOT), Wolf Road carries an annual average daily traffic (AADT) volume of 9,150 vehicles (IDOT - 2022).

Park Place is an east-west local roadway that provides one lane in each direction. At its unsignalized intersection with Wolf Road, Park Place is under stop sign control and provides a shared left-turn/right-turn lane on the eastbound approach. At its unsignalized intersection with Lawn Drive, Park Place is under stop sign control and provides a shared left/right-turn lane on the westbound approach. Park Place is under the jurisdiction of the Village of Western Springs and has a posted speed limit of 25 miles per hour.

55th Street is an east-west minor arterial that provides two lanes in each direction divided by a painted median. No exclusive turn lanes are provided on 55th Street at its unsignalized intersection with Heritage Court/Lawn Avenue. However, it is important to note that eastbound and westbound left-turn movements are accommodated by the painted median. No exclusive turn lanes are provided on 55th Street at its unsignalized intersection with Grand Avenue. 55th Street has a posted speed limit of 35mph, carries an AADT volume of 16,600 vehicles (IDOT – 2022), and is under IDOT's jurisdiction.

Heritage Crossings
Western Springs, Illinois

Existing Roadway Characteristics

KLOA
Kenig,Lindgren,O'Hara,Aboona,Inc.

Job No: 24-068 Figure: 3

Heritage Court is a north-south two-lane private road that serves the Western Springs Heritage townhomes and is aligned opposite Lawn Avenue. At its unsignalized intersection with 55th Street, Heritage Court provides a shared left/right-turn lane under stop sign control.

Grand Avenue is a local north-south two-lane roadway serving the Ridgewood of Western Springs subdivision. At its unsignalized intersection with 55th Street, Grand Avenue provides a shared left/right-turn lane under stop sign control. No exclusive turn lanes are provided at its unsignalized intersection with Lawn Drive. Grand Avenue has a posted speed limit of 25 mph and is under the jurisdiction of the Village of Western Springs.

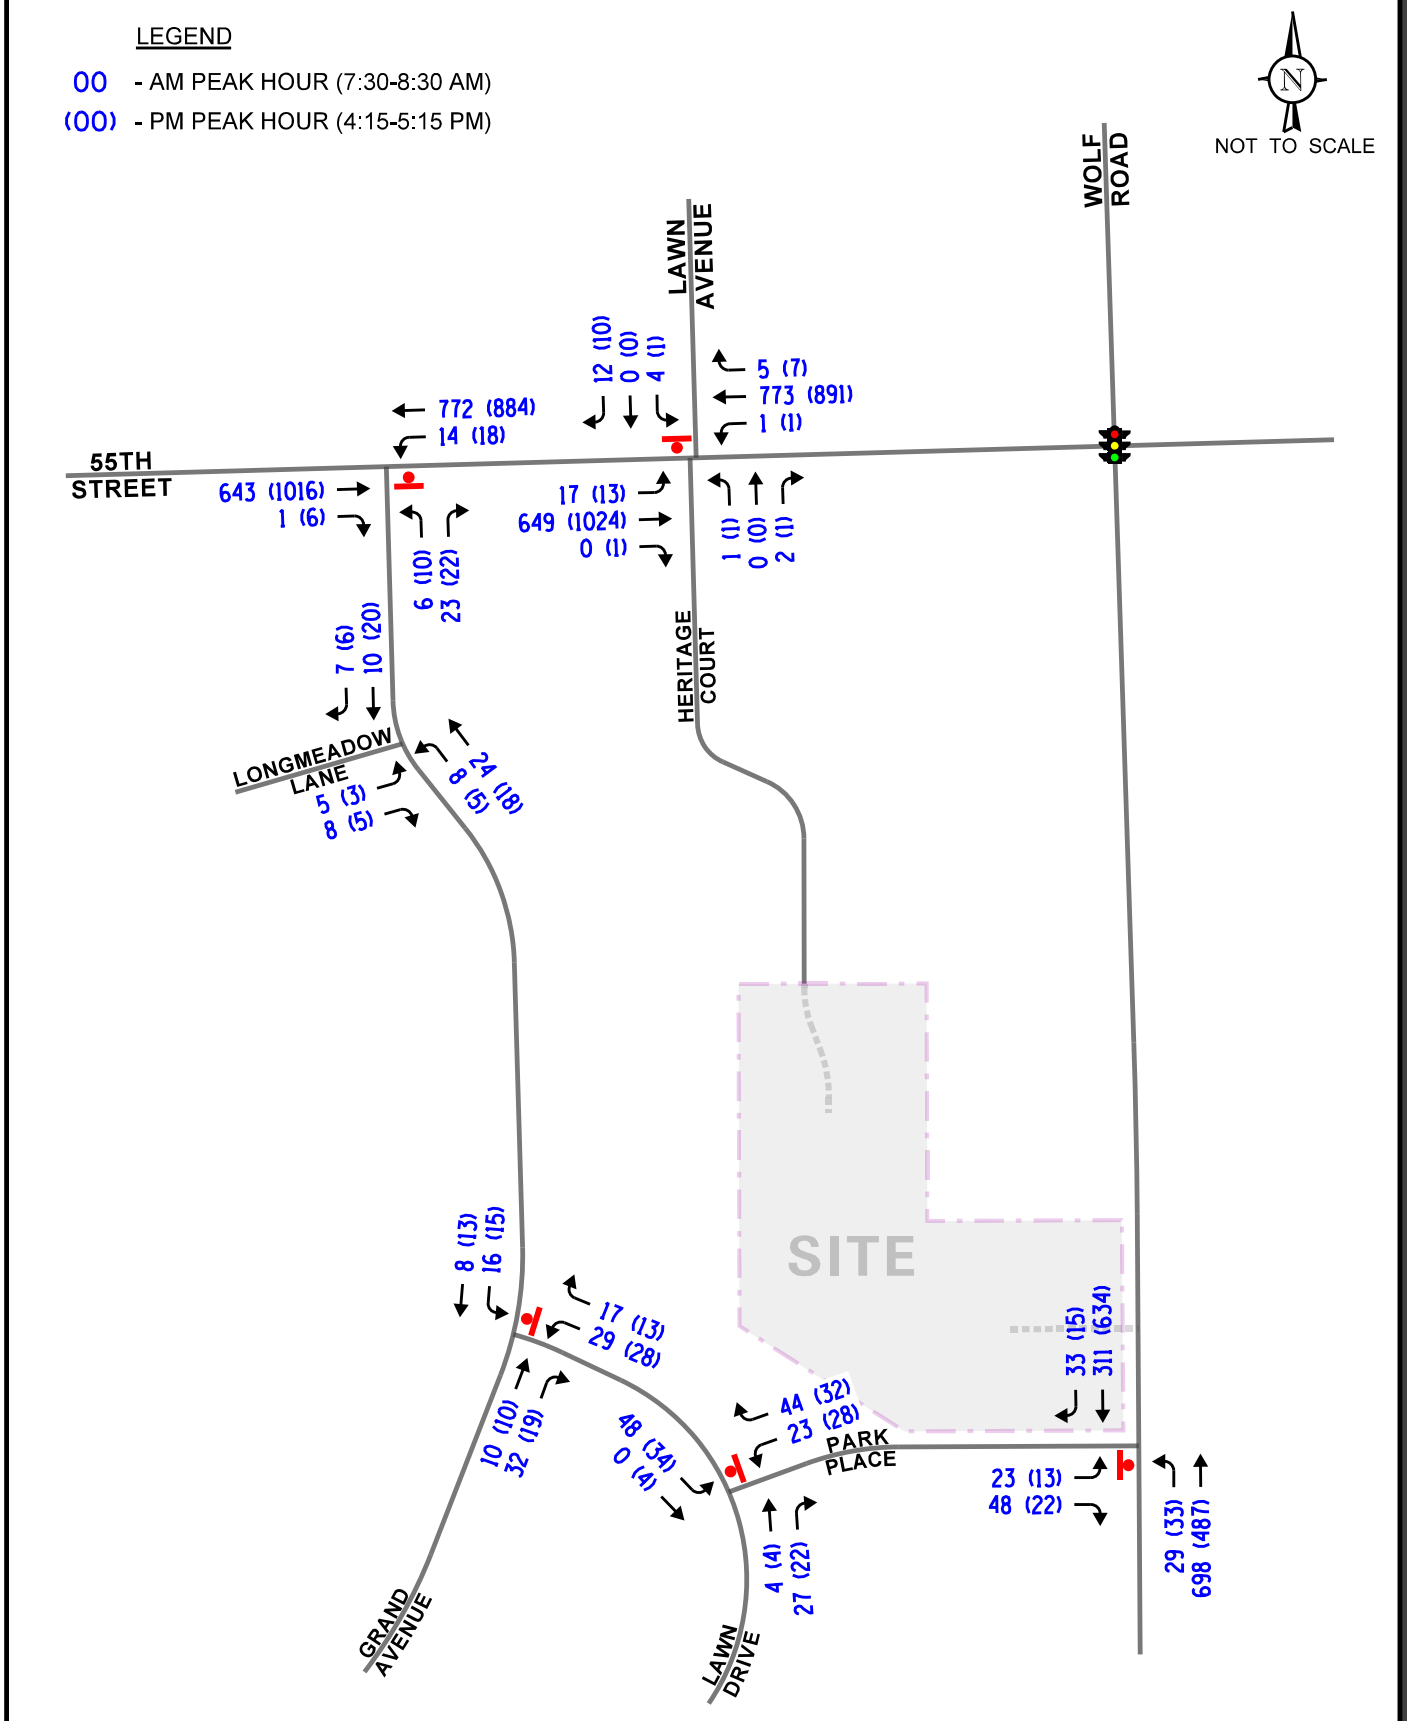
Longmeadow Lane is an east-west two-lane local roadway. No traffic control is provided at its unsignalized intersection with Grand Avenue. Longmeadow Lane is under the jurisdiction of the Village of Western Springs.

Pedestrian Facilities

Based on our field visits, no sidewalks are provided along Park Place or any of the roads within the Ridgewood of Western Springs subdivision. However, a sidewalk is provided along the west side of Wolf Road. A north-south standard style crosswalk is provided on Park Place at its intersection with Wolf Road. Furthermore, a midblock east-west pedestrian high visibility crosswalk is provided on Wolf Road at its intersection with 59th Street. This mid-block pedestrian also provides rapid flashing beacons with proper signage. Additionally, push buttons are provided at each side of the roadway and advance signage is provided to vehicles to be aware of the upcoming crossing.

Existing Traffic Volumes

In order to determine current traffic conditions within the study area, KLOA, Inc. conducted peak period traffic counts utilizing Miovision Scout Collection Units at the following intersections:



- Wolf Road with Park Place
- Park Place with Lawn Drive
- 55th Street with Heritage Court
- 55th Street with Grand Avenue
- Grand Avenue with Longmeadow Lane
- Grand Avenue with Lawn Drive

The traffic counts were conducted on Thursday, March 21, 2024 and on Tuesday, April 2, 2024, during the weekday morning (7:00 A.M. to 9:00 A.M.) and weekday afternoon/evening (4:00 P.M. to 6:00 P.M.) peak periods. The results of the traffic counts show that the peak hours of traffic generally occur between 7:30 A.M. and 8:30 A.M. during the weekday morning peak period and between 4:15 P.M. and 5:15 P.M. during the weekday evening peak period. Copies of the traffic count summary sheets are included in the Appendix. The existing traffic volumes are illustrated in **Figure 4A**. **Figure 4B** shows the existing pedestrian and bicycle traffic volumes.

It is important to note that LaGrange Highlands Elementary School is located approximately 0.4 miles southeast of the intersection of Wolf Road with Park Place. Based on a review of the District 106 student calendar, all schools were in session when the traffic counts were conducted. Furthermore, the LaGrange Highlands Elementary School arrival is between 8:10 A.M. and 8:20 A.M. with class starting at 8:25 A.M. Upon further review of their website, the school's regular dismissal time is at 3:15 P.M. In order to determine the peak traffic and pedestrian volumes during the dismissal time, an additional traffic count was conducted at the intersection of Wolf Road with Park Place during the 3:00 P.M. to 4:00 P.M. hour.

Furthermore, in September 2024, the Village of Western Springs conducted an additional pedestrian count (walking, bicycle, scooter, etc.) for the west leg of the intersection of Wolf Road with Park Place. These volumes, which yielded a higher pedestrian volume than the March 2024 counts conducted by KLOA, Inc. were utilized for the purposes of this evaluation.

Figure 5A shows the existing school peak traffic volumes while **Figure 5B** shows the existing school peak pedestrian and bicycle traffic volumes.

Crash Data Summary

KLOA, Inc. obtained accident data for the most recent available past five years (2018 to 2022) for the study area intersections. A summary of the crash data at the intersections of Wolf Road with Park Place and 55th Street with Grand Avenue is shown in **Tables 1** and **2**. No fatalities were reported at any of the studied intersections during the review period.

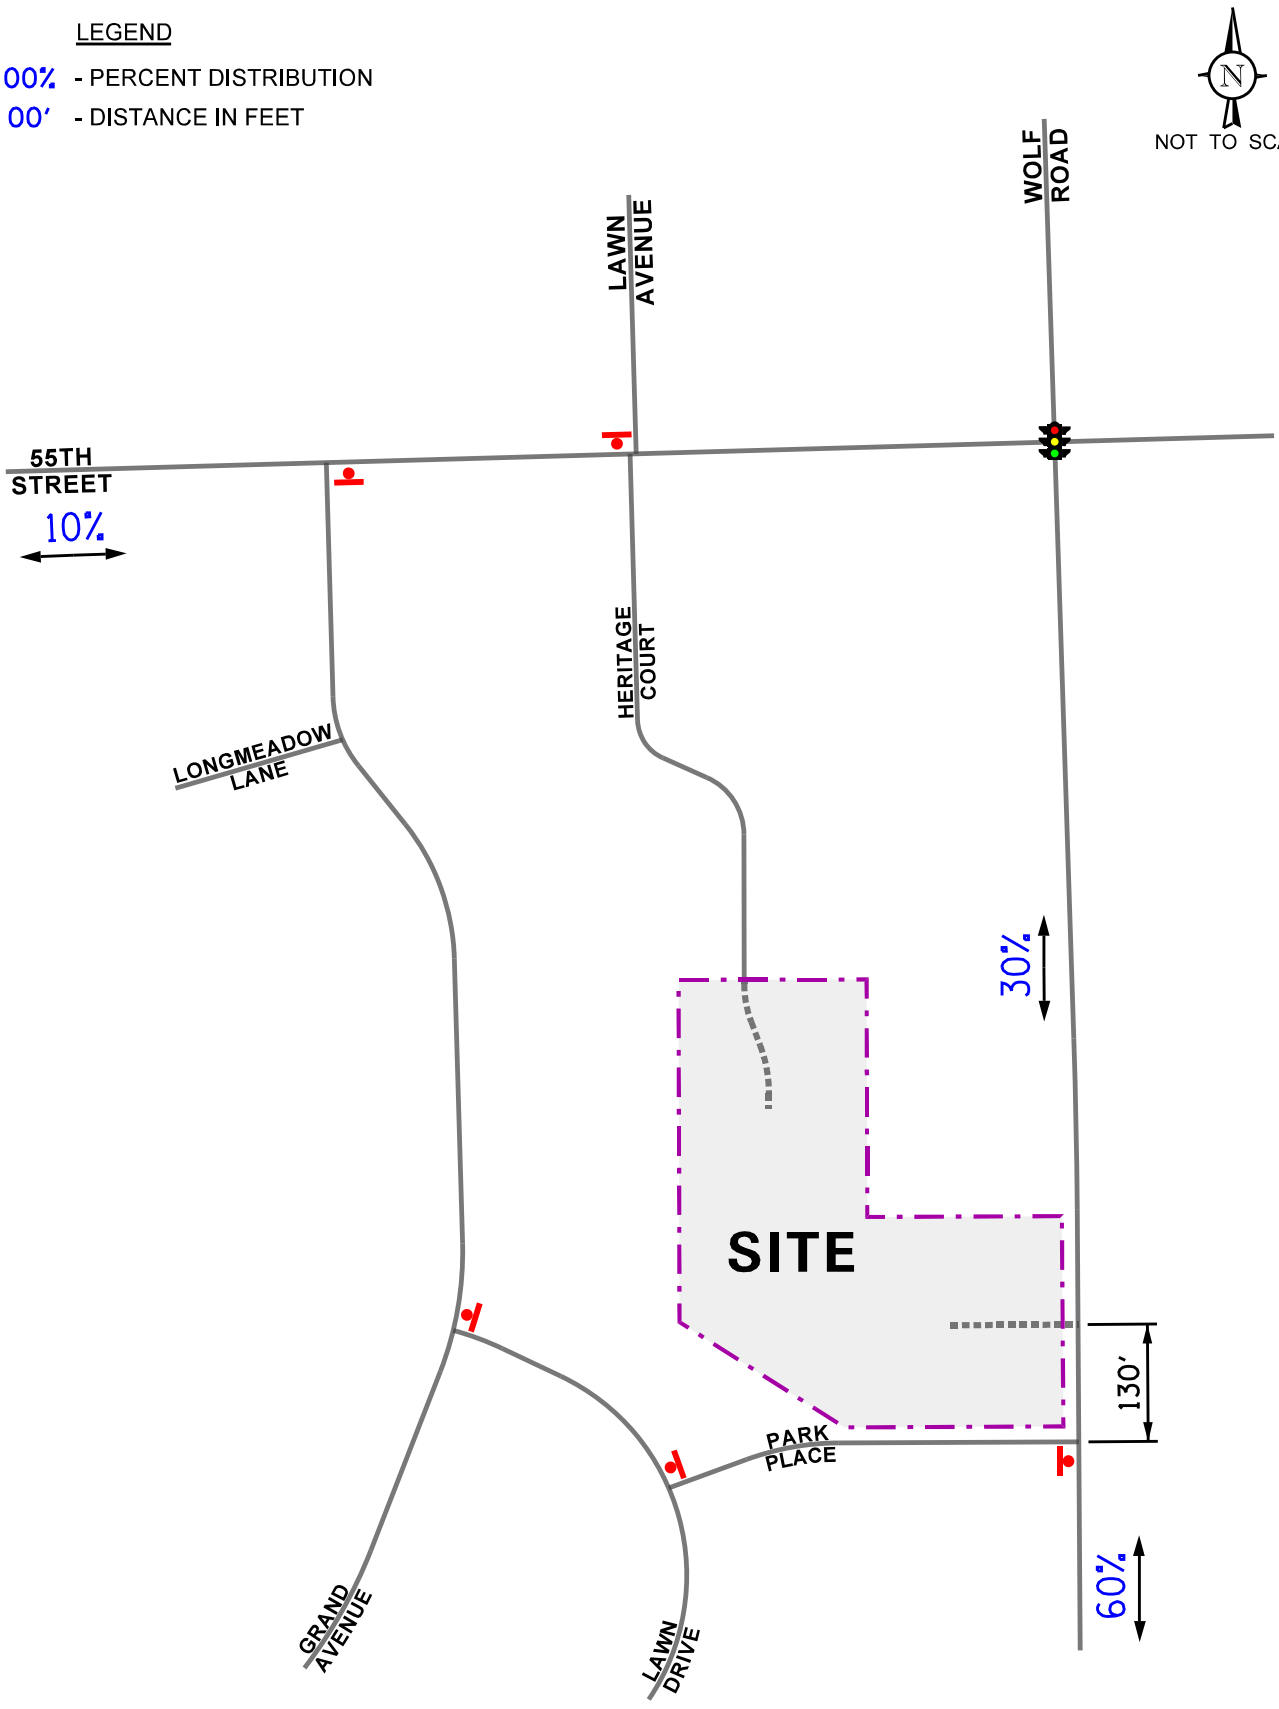
3. Traffic Characteristics of the Proposed Development

In order to properly evaluate future traffic conditions in the surrounding area, it was necessary to determine the traffic characteristics of the proposed development, including the directional distribution and volumes of traffic that it will generate.

Proposed Site and Development Plan



As proposed, the site will be redeveloped with a residential development consisting of 29 townhome units. Access to the development will be provided via a proposed full-movement access drive on Wolf Road to be located at approximately the same location of the existing full access drive serving the medical office building, approximately 130 feet north of Park Place's centerline. The access drive will provide one inbound lane and one outbound lane with outbound movements under stop sign control. The existing access drive on Wolf Road will be eliminated. A gated access to the north with Heritage Court will also be provided. This access will only provide accessibility to the proposed development and to the existing Heritage townhomes and will be controlled via a clicker that will be provided to residents of both developments. A copy of the preliminary site plan is included in the Appendix.

Directional Distribution

The directions from which residents will approach and depart the site were estimated based on existing travel patterns, as determined from the traffic counts. **Figure 6** illustrates the directional distribution of the development-generated traffic. Figure 6 also shows the distance, in feet, between the existing and proposed access intersections.

Peak Hour Traffic Volumes

The number of peak hour trips (vehicles, bicycles and pedestrians) estimated to be generated by the proposed residential development was based on trip generation rates contained in *Trip Generation Manual*, 11th Edition, published by the Institute of Transportation Engineers (ITE). The "Single-Family Attached Housing" (Land-Use Code 215) rates were used to determine the traffic to be generated by the development. **Table 3** shows the weekday morning, weekday afternoon and weekday evening peak hour traffic, pedestrian, and bicycle trips to be generated by the proposed residential development as well as the daily total traffic volumes. It is important to note that the weekday afternoon peak hour volumes were estimated based on the time-of-day distribution Excel data provided within the *Trip Generation Manual* Appendices. Copies of the trip generation graphs and the hourly distribution Excel sheet are included in the Appendix.

	Pedestrians [1]	1	2	3	3	3	6	3	3	6	N/A	N/A	N/A
	Bikes [1]	--	--	--	--	1	1	--	1	1	N/A	N/A	N/A

1 – Pedestrian and bicycle trip generation was assumed to be the same as during the evening peak hour

Trip Generation Comparison

As previously mentioned, the site currently contains a medical office building. The existing medical office building is approximately 21,536 square feet in size of which only 1,200 square feet are currently being utilized.

Given that the current zoning allows for both medical office and professional office uses, the volume of traffic that was generated by the full occupancy of the building assuming half of it as medical office and the other half as professional office and that of the proposed development during the weekday morning, afternoon, evening peak hours and on a daily basis was estimated based on the following trip rates published in the Institute of Transportation Engineers (ITE) *Trip Generation Manual*, 11th Edition:

- Medical-Dental Office Building (Land-Use Code 720)
- General Office Building (Land-Use Code 710)
- Single-Family Attached Housing (Land-Use Code 215)

Table 4 shows a comparison of what the full occupancy of the medical office building was generating and what the proposed rowhomes would generate.

As can be seen, the proposed development will generate substantially less traffic than what the full occupancy of the previous land use was generating. Therefore, the proposed development will have a lower traffic impact than the previous land use.

Table 4
TRIP GENERATION COMPARISON

ITE Land-Use Code	Type/Size	Weekday Morning Peak Hour			Weekday Afternoon Peak Hour			Weekday Evening Peak Hour			Daily Trips		
		In	Out	Total	In	Out	Total	In	Out	Total	In	Out	Total

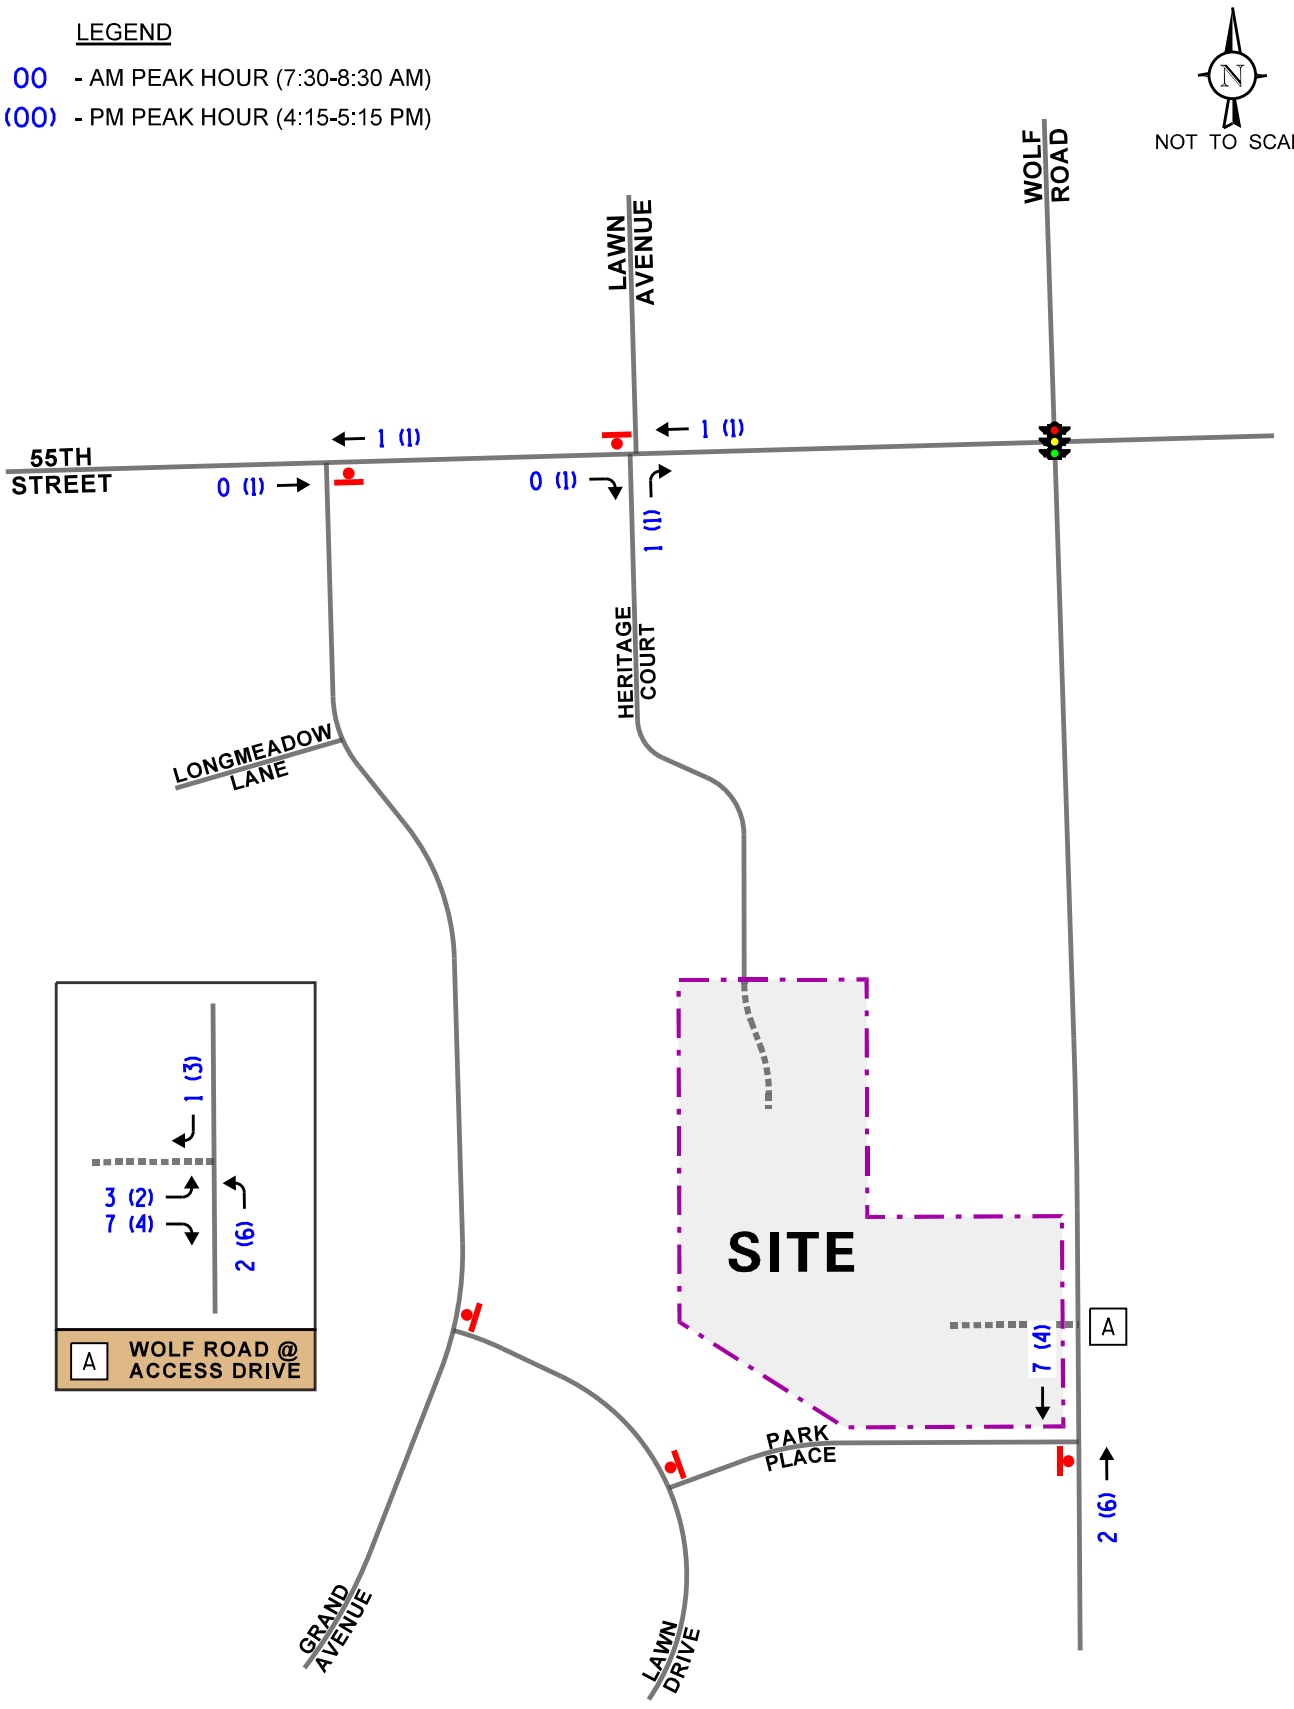
710	General Office Building (10,768 s.f.)	22	3	25	6	7	13	4	22	26	83	84	167
215	Townhomes (29 units)	3	11	14	9	5	14	10	7	17	105	105	210
Difference		**-45**	**+2**	**-43**	**-13**	**-20**	**-33**	**-6**	**-44**	**-50**	**-155**	**-157**	**-312**

4. Projected Traffic Conditions

The total projected traffic volumes include the existing traffic volumes, increase in background traffic due to growth, and the traffic estimated to be generated by the proposed subject development.

Development Traffic Assignment

The estimated weekday morning and evening peak hour traffic volumes that will be generated by the proposed development were assigned to the roadway system in accordance with the previously described directional distribution (Figure 6). The traffic assignment for the development is illustrated in **Figure 7.** The re-assignment of the Heritage Court townhomes to take into account the proposed connection between the proposed development and the existing townhomes is illustrated in **Figure A** in the Appendix.



Background (No-Build) Traffic Conditions

The existing traffic volumes (Figure 4) were increased by a regional growth factor to account for the increase in existing traffic related to regional growth in the area (i.e., not attributable to any particular planned development). Based on Average Daily Traffic (ADT) projections provided by the Chicago Metropolitan Agency for Planning (CMAP), the existing traffic volumes were increased by an annually compounded growth rate of 0.4 percent per year for six years (buildout year plus five years) for a total of approximately 2.5 percent to project Year 2030 background conditions. **Figure 8** illustrates the Year 2030 no-build conditions. A copy of the CMAP 2050 projections letter is included in the Appendix.

Total Projected Traffic Volumes

The development-generated traffic (Figure 6) was added to the Year 2030 no-build traffic volumes (Figure 7) to determine the Year 2030 total projected traffic volumes, shown in **Figure 9.** The Year 2030 total projected traffic volumes for the weekday afternoon peak hour is illustrated in **Figure B** in the Appendix.

The total projected traffic volumes also include the existing turning movements to and from the medical office building and in order to provide a conservative analysis, these vehicles were not removed from the area roadway system or the traffic volumes at other study area intersections.

5. Traffic Analysis and Recommendations

The following provides an evaluation conducted for the weekday morning and weekday evening peak hours. The analysis includes conducting capacity analyses to determine how well the roadway system and access drives are projected to operate and whether any roadway improvements or modifications are required.

Traffic Analyses

Roadway and adjacent or nearby intersection analyses were performed for the weekday morning and weekday evening peak hours for the existing, Year 2030 no-build, and Year 2030 total projected traffic volumes.

The traffic analyses were performed using the methodologies outlined in the Transportation Research Board's *Highway Capacity Manual (HCM),* 7th Edition and analyzed using Synchro/SimTraffic 12 software.

The analyses for the unsignalized intersections determine the average control delay to vehicles at an intersection. Control delay is the elapsed time from a vehicle joining the queue at a stop sign (includes the time required to decelerate to a stop) until its departure from the stop sign and resumption of free flow speed. The methodology analyzes each intersection approach controlled by a stop sign and considers traffic volumes on all approaches and lane characteristics.

The ability of an intersection to accommodate traffic flow is expressed in terms of level of service, which is assigned a letter from A to F based on the average control delay experienced by vehicles passing through the intersection. The *Highway Capacity Manual* definitions for levels of service and the corresponding control delay for signalized intersections and unsignalized intersections are included in the Appendix of this report.

Summaries of the traffic analysis results showing the level of service and overall intersection delay (measured in seconds) for the existing, Year 2030 no-build, and Year 2030 total projected conditions are presented in **Tables 5** through **7**. A discussion of each intersection follows. Summary sheets for the capacity analyses are included in the Appendix.

Discussion and Recommendations

The following summarizes how the intersections are projected to operate and identifies any roadway and traffic control improvements necessary to accommodate the development-generated traffic.

Wolf Road with Park Place

The results of the capacity analyses indicate that the eastbound approach operates at Level of Service (LOS) C during the weekday morning, afternoon and weekday evening peak hours while the northbound left-turn movement operates at LOS A during all three peak hours. Based on the peak hour turning movement counts, Park Place is estimated to carry 1,250 – 1,300 daily trips. As stated in the publication titled *Residential Streets*, 3rd Edition published by the Urban Land Institute (ULI), the National Association of Home Builders (NAHB), the American Society of Civil Engineers (ASCE) and ITE, the average daily traffic volumes for a residential collector are typically greater than 1,500 vehicles. As such the road is operating below its typical design threshold.

Under Year 2030 no-build and total projected conditions, the eastbound approach and the northbound left-turn movement are projected to operate at the same existing levels of service during all three peak hours with increases in delay of less than two seconds. The 95th percentile queue for the eastbound approach is projected to be approximately one to two vehicles and will not extend back to the location of the proposed access drive. The 95th percentile queue for the northbound left-turn movement is projected to be approximately one vehicle and can be accommodated by the existing left-turn lane. As such, Park Place and its intersection with Wolf Road have sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

55th Street with Grand Avenue

The results of the capacity analyses indicate that the westbound left-turn/through movement operates at LOS A during the weekday morning peak hour and LOS B during the weekday evening peak hour. The northbound approach operates at LOS B during the weekday morning peak hour and LOS D during the weekday evening peak hour.

Under Year 2030 no-build and total projected conditions, all the approaches and their critical movements are projected to operate at the same existing levels of service during both peak hours with increases in delay of less than three seconds. As such, the intersection has sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

55th Street with Heritage Court/Lawn Avenue

The results of the capacity analyses indicate that the northbound and southbound approaches currently operate at LOS B during the weekday morning and weekday evening peak hours. The eastbound and westbound left-turn movements operate at LOS B or better during both peak hours.

Under Year 2030 no-build and total projected conditions, the northbound and southbound approaches will operate at LOS B during the weekday morning and weekday evening peak hours except for the northbound approach that is projected to operate at LOS C during the weekday evening peak hour under projected conditions. The eastbound and westbound left-turn movements are projected to operate at LOS A during the weekday morning peak hour and LOS B during the weekday evening peak hour with increases in delay of less than one second. It should be noted that based on the peak hour turning movement counts at this intersection, Heritage Court is estimated to carry approximately 40 to 50 daily trips and is anticipated to carry the same amount of daily traffic given the proposed connection to the south with the proposed development. As such, the intersection has sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

Grand Avenue with Longmeadow Lane

The results of the capacity analyses indicate that the eastbound approach and the northbound left-turn/through movement currently operates at LOS A during the weekday morning and weekday evening peak hours and will continue to do so under Year 2030 no-build and total projected conditions with minimal increases in delay. As such, the intersection has sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

Grand Avenue with Lawn Drive

The results of the capacity analyses indicate that the westbound approach and the southbound left-turn/through movement currently operates at LOS A during the weekday morning and weekday evening peak hours and will continue to do so under Year 2030 no-build and total projected conditions with minimal increases in delay. As such, the intersection has sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

Lawn Drive with Park Place

The results of the capacity analyses indicate that the westbound approach and the southbound left-turn/through movement currently operates at LOS A during the weekday morning and weekday evening peak hours and will continue to do so under Year 2030 no-build and total projected conditions with minimal increases in delay. As such, the intersection has sufficient reserve capacity to accommodate the traffic to be generated by the development and no roadway improvements or traffic control modifications are required.

Wolf Road with Proposed Access Drive

As proposed, a full-movement access drive will be provided on Wolf Road at approximately the same location as the existing full access drive serving the medical office building, approximately 130 feet north of Park Place's centerline. The access drive will provide one inbound lane and one outbound lane with outbound movements under stop sign control. It is important to note that Wolf Road provides a two-way left-turn lane at the location of this access drive. As such, the analysis assumed a short (40-foot) exclusive left-turn lane.

Under Year 2030 total projected conditions, outbound movements from the access drive are projected to operate at LOS B and C during the weekday morning and weekday evening peak hours, respectively. The northbound left-turn movement will operate at LOS A. Furthermore, the 95th percentile queue for the northbound left turn is projected to be one vehicle, which will not interrupt the traffic flow on Wolf Road. As such, the proposed access drive will be sufficient to accommodate the traffic projected to be generated by the proposed development and will ensure efficient and flexible access is provided.

Sight Distance Evaluation

In order to determine if sufficient sight distance is provided along Wolf Road for a vehicle stopped at the access drive, a sight distance study was performed for the intersection of Wolf Road with the existing access drive. While intersection sight distance is desirable, *A Policy on Geometric Design of Highways and Streets* (Green Book) published by the American Association of State Highway and Transportation Officials (AASHTO) indicates that, at a minimum, the location of a side road or access road must meet the minimum stopping sight distance requirements.

As previously indicated, Wolf Road has a posted speed limit of 35 mph. It is important to note that per the Illinois Department of Transportation (IDOT) Bureau of Design and Environment (BDE) Manual design procedures, the intersection sight distance is obtained by providing clear sight triangles. Furthermore and as stated in the Manual, "The length of leg along the minor road is based on two parts. The first is the location of the driver's eye on the minor road. The distance is not wholly based on the location of the stop bar, but instead through research on how far away from through traffic the stopping motorist feels comfortable, even potentially after a two-stop process (stop at stop bar, then pull up and stop at a safe spot closer to the edge of pavement that maximizes sight lines). This distance is typically assumed to be 14.4 feet from the edge of the major road traveled way, but can be increased due to site specific issues".

The minimum stopping sight distance required along Wolf Road for a posted 35 mph speed limit (design speed of 40 mph) based on IDOT's BDE Manual and the *Bureau of Design and Environment (BDE*) Manual and the *A Policy on Geometric Design of Highways and Streets* (Green Book) published by the American Association of State Highway and Transportation Officials (AASHTO) is 305 feet.

As part of the proposed plans, the culvert will be reworked and the existing chain link fence will be moved further back west (For additional details, please refer to Design Tek Engineering, Inc. engineering plans). Based on Exhibit A (see Appendix), the location of the access drive meets the minimum stopping sight distance requirements for the posted speed limit. While the access drive is within the influence of the southbound right-turn lane taper, it is important to note that this is an existing access drive that was approved in the past and has been operating for many years with higher traffic volumes than what the proposed development will generate.

6. Conclusion

Based on the preceding analyses and recommendations, the following conclusions have been made:

- As proposed, the site will be redeveloped with a residential development consisting of 29 townhome units.

- Access to the development will be provided via a full-movement access drive on Wolf Road at approximately the same location as the existing full access drive serving the medical office building, approximately 130 feet north of Park Place's centerline. The access drive will provide one inbound lane and one outbound lane with outbound movements under stop sign control.

- The existing chain-link fence will be relocated further west and adequate sight distance will be provided at the full access drive's intersection with Wolf Road.

- A gated connection to the north with Heritage Court will be provided. This connection will only provide accessibility to the proposed development and the existing Heritage Townhomes and will be controlled via a clicker that will be provided to residents of both developments.

- The area roadway system generally has sufficient reserve capacity to accommodate the traffic to be generated by the proposed development and no additional roadway improvements or traffic control modifications are required.

- The proposed access system will be adequate in accommodating the traffic projected to be generated by the proposed development and will ensure efficient and flexible access will be provided.

- As part of the proposed plans, the existing chain link fence around the culvert will be moved further back west and as such, the location of the access drive will meet the minimum stopping sight distance requirements for the posted speed limit.

CMAP Projections Letter

Chicago Metropolitan Agency for Planning

433 West Van Buren Street, Suite 450
Chicago, IL 60607
cmap.illinois.gov | 312-454-0400

March 6, 2024

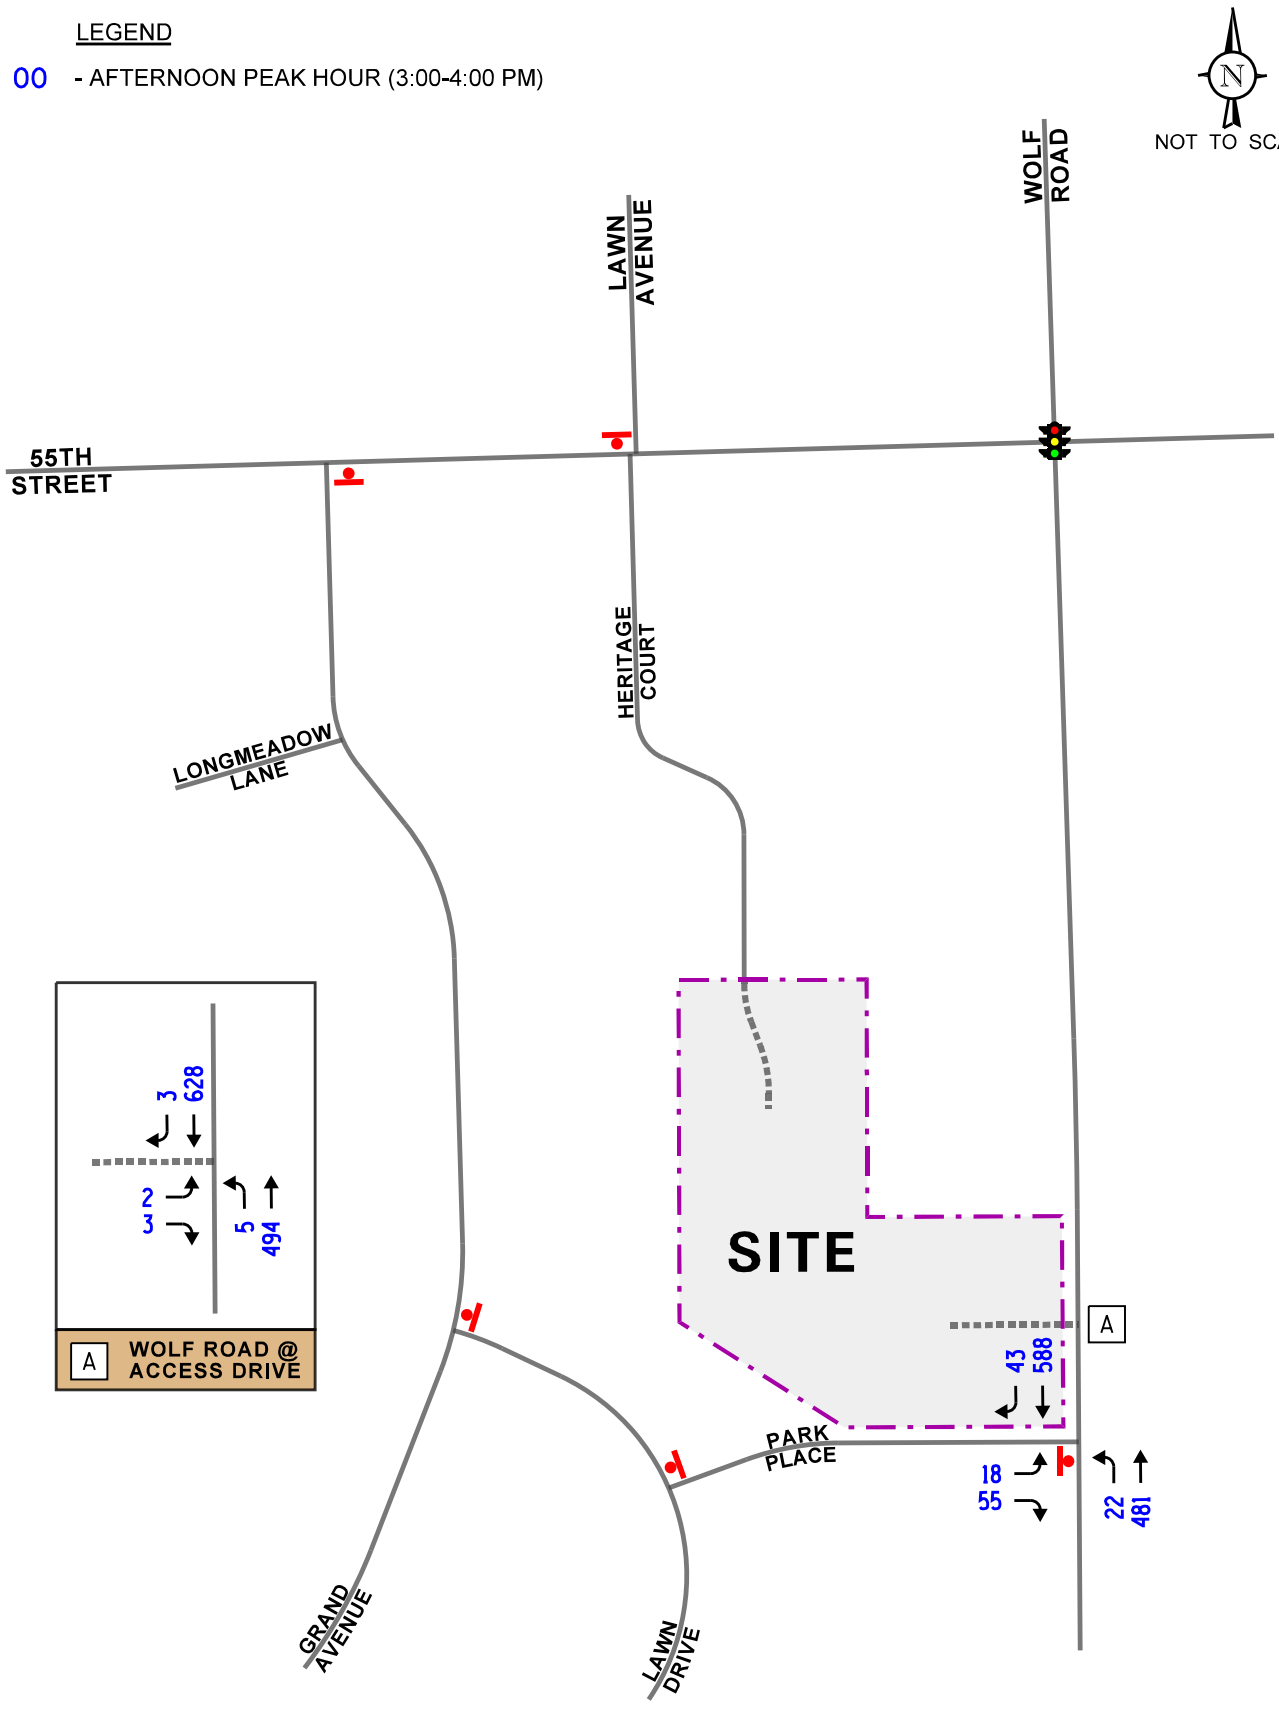
Ryan May
Project Coordinator
Kenig, Lindgren, O'Hara and Aboona, Inc.
9575 West Higgins Road
Suite 400
Rosemont, IL 60018

Subject: 55th Street @ Wolf Road \ Heritage Court \ Grand Avenue
IDOT

Dear Ms. May:

In response to a request made on your behalf and dated March 5, 2024, we have developed year 2050 average daily traffic (ADT) projections for the subject location.

ROAD SEGMENT	Current ADT	Year 2050 ADT
Wolf Rd, at 55th St	9,150	10,200
55th St, at Wolf Rd	16,600	18,500
Heritage Ct, at 55th St	375	410
Grand Ave, at 55th St	2,800	3,100



Traffic projections are developed using existing ADT data provided in the request letter and the results from the December 2023 CMAP Travel Demand Analysis. The regional travel model uses CMAP 2050 socioeconomic projections and assumes the implementation of the ON TO 2050 Comprehensive Regional Plan for the Northeastern Illinois area. The provision of this data in support of your request does not constitute a CMAP endorsement of the proposed development or any subsequent developments.

If you have any questions, please call me at (312) 386-8806 or email me at jrodriguez@cmap.illinois.gov

Level of Service Table

LEVEL OF SERVICE CRITERIA

Signalized Intersections		
Level of Service	**Interpretation**	**Average Control Delay (seconds per vehicle)**
A	Favorable progression. Most vehicles arrive during the green indication and travel through the intersection without stopping.	≤10
B	Good progression, with more vehicles stopping than for Level of Service A.	> 10 - 20
C	Individual cycle failures (i.e., one or more queued vehicles are not able to depart as a result of insufficient capacity during the cycle) may begin to appear. Number of vehicles stopping is significant, although many vehicles still pass through the intersection without stopping.	> 20 - 35
D	The volume-to-capacity ratio is high and either progression is ineffective or the cycle length is too long. Many vehicles stop and individual cycle failures are noticeable.	> 35 - 55
E	Progression is unfavorable. The volume-to-capacity ratio is high and the cycle length is long. Individual cycle failures are frequent.	> 55 - 80
F	The volume-to-capacity ratio is very high, progression is very poor, and the cycle length is long. Most cycles fail to clear the queue.	> 80

Unsignalized Intersections	
Level of Service	**Average Total Delay (sec/veh)**
A	0 - 10
B	> 10 - 15
C	> 15 - 25
D	> 25 - 35
E	> 35 - 50
F	> 50

Exhibit A – Available Sight Distance

IDOT BDE MANUAL - CHAPTER 31

$SSD = 1.47\ Vt + 1.075\ \frac{V^2}{a}$

where: SSD = Stopping Sight Distance, ft (m)
V = design speed, mph (km/h)
t = brake time, 2.5 seconds
a = driver deceleration, ft/s^2 (m/s^2)

$305 = 1.47\ 40(2.5) + 1.075\ (\frac{1600}{11.2})$

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, in the County of Cook and State of Illinois, certify that the attached document is a true and correct copy of that certain Ordinance now on file in my office, entitled:

AN ORDINANCE APPROVING A MAP AMENDMENT TO REZONE THE 5600 SOUTH WOLF ROAD PROPERTY, WESTERN SPRINGS, ILLINOIS, FROM THE O – LIMITED OFFICE ZONING DISTRICT TO THE R4 - MULTIPLE-FAMILY RESIDENCE DISTRICT; APPROVING AN APPLICATION FOR A CONDITIONAL USE PERMIT FOR A PLANNED DEVELOPMENT FOR THE CONSTRUCTION AND OPERATION OF THE PROPOSED 29 UNIT HERITAGE CROSSING TOWNHOME DEVELOPMENT LOCATED AT THE 5600 SOUTH WOLF ROAD PROPERTY, INCLUDING THE APPROVAL OF THE COMBINED PRELIMINARY / FINAL DEVELOPMENT PLANS, SUBJECT TO VILLAGE PLAN REVIEW PROCESS, AND APPROVAL OF CERTAIN DEVELOPMENT ALLOWANCES, EXCEPTIONS AND VARIATIONS FROM THE VILLAGE ZONING REGULATIONS, INCLUDING A WAIVER OF THE FIVE (5) ACRE MINIMUM LOT AREA REQUIREMENT AND A REDUCTION OF CERTAIN PLANNED DEVELOPMENT SUBMISSION REQUIREMENTS

which Ordinance was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting on the ___ day of _____, 2025, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the ____ day of _____, 2025.

I further certify that the vote on the question of the passage of said Ordinance by the Board of Trustees of the Village of Western Springs was taken by Ayes and Nays and recorded in the minutes of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Ordinance, of which the foregoing is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this _____ day of _____, 2025.

AN ORDINANCE APPROVING AND AUTHORIZING THE VACATION OF THE 66.00 FEET BY 225.00 FEET PORTION OF THE LAWN AVENUE RIGHT-OF-WAY ADJACENT TO AND WEST OF THE 5600 SOUTH WOLF ROAD PROPERTY LOCATED IN WESTERN SPRINGS, ILLINOIS AND LOT 5 AND LOT 6 OF MAXTED SUBDIVISION, AND APPROVING A PLAT OF VACATION AND RESERVATION OF A STORMWATER DRAINAGE EASEMENT (APPLICANT: MCNAUGHTON DEVELOPMENT, LLC)

WHEREAS, the Village President and Board of Trustees (the "Village Board" or the "Corporate Authorities") of the Village of Western Springs ("Village") approved a revised policy governing the disposal of public right-of-way property on April 24, 2017, under Resolution No. 17-2384; said policy is entitled "Village Excess Rights-of-Way Disposal Policy and Procedures Dated April 24, 2017" (the "ROW Policy"). The ROW Policy incorporates the requirements for vacating public rights-of-way as set forth in the State Vacation Statute (65 ILCS 5/11-91-1, *et seq*.) and Section 10-10-20 (Vacations) of the Western Springs Municipal Code; and

WHEREAS, while not expressly listed in the ROW Policy, the sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of the Lawn Avenue right-of-way located adjacent to and immediately West of Lot 5 and Lot 6 of Maxted Subdivision (the "ROW Parcel") is public property that may be vacated by the Village, in the sole discretion of the Board of Trustees, in accordance with the provisions of the ROW Policy; and

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"). The Property Owner has further executed a "Written Consent and Waiver" to allow McNaughton Development, LLC to enter into this Agreement, a copy of which is on file with the Community Development Department and is incorporated herein by reference and made a part hereof; and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a plat of vacation relating to the ROW Parcel, which is utilized as a stormwater detention basin (the "Lawn Avenue Detention Basin"), so the Applicant could purchase title to the ROW Parcel and incorporate it into the Development. The Application also requested approval of a Comprehensive Plan Amendment to the Long-Range Land Use Map, a Map Amendment (Rezoning of the Property from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District), a Conditional Use for a Planned Development, and Exceptions / Variations to the Village Development Control Ordinance ("DCO"), and a Subdivision approval for the construction, operation, and maintenance of a Townhome Subdivision Development referred to as "Heritage Crossing", and a single stage Final Plan review and approval process (i.e., a combined Preliminary

Plan / Final Plan approval) for the Development per Subsection 10-8-8(C) of the DCO, provided that the Applicant complies with the submittal and plan review requirements of Section 10-8-5(C) (Final Plan) of the DCO, subject to certain stated conditions of approval (the "Development Zoning Relief") in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached, front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, an expanded stormwater detention basin system and stormwater management facilities and other private and public infrastructure, open space, landscaped areas and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowner's Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent subdivisions will be controlled by a swing gate and gate access will only be granted to residents of both subdivisions with clicker-access and Village emergency service vehicles. The swing gate will be improved with an Opticom system that will give Village emergency service vehicles access similar to the systems on streetlights. The Developer agrees to accept title to a sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of Lawn Avenue (the "Lawn Avenue ROW Parcel") that will be vacated by the passage of a vacation ordinance and a plat of right-of-way vacation and retention of stormwater facility easement by the Village for purposes of incorporation into the Property and the Development so that the Developer can construct an expanded stormwater detention basin system as part of the Development; and

WHEREAS, the Applicant's Lawn Avenue ROW Parcel purchase proposal is an integral part of the Development because it allows for the Applicant to meet certain zoning bulk regulations and to expand the size and capacity of the existing Lawn Avenue Detention Basin and to construct two (2) additional, new on-site stormwater detention facilities referred to on the updated Site Plan as "Outlot 31 Detention Basin" and "Outlot 33 Detention Basin"; and

WHEREAS, a public hearing has been conducted by the Western Springs Plan Commission relative to the Application, including the requested purchase offer for the Lawn Avenue ROW Parcel, during public meetings held on August 13, 2024, September 24, 2024 and November 18, 2024, as required by the applicable provisions of State law, including the Illinois Open Meetings Act, 5 ILCS 120/ and Division 11-13 of the Illinois Municipal Code (65 ILCS 5/ 11-13), and the applicable provisions of the DCO. Prior to conducting the public hearing, a notice of public hearing was published in a newspaper, a "zoning application pending" sign was posted at the Property, a public hearing notice was mailed to those persons who are required to be mailed the public hearing notice in compliance with applicable State law and the DCO, and separate agendas for each of the Plan Commission meetings where the public hearing sessions were held were posted as required by the Open Meetings Act; and

WHEREAS, during the Plan Commission public hearing sessions, the Applicant's request to purchase the ROW Parcel and the Village's intent to consider the vacation of the Lawn Avenue ROW Parcel and conveyance to the Applicant for the purpose of incorporating the Lawn Avenue ROW Parcel into the Development and to require that the Applicant complete certain enhancements to the existing stormwater detention basin located within the Lawn Avenue ROW Parcel for the benefit of the Development were discussed with the attendees of the public hearing. The Plan Commission, in place of the Village Board, conducted the public hearing to consider the merits of the Applicant's purchase offer regarding the vacation of the Lawn Avenue ROW Parcel and provided an opportunity for the adjacent property owners and taxpayers of record to the Lawn Avenue ROW Parcel and the public to provide comments relative to the Applicant's purchase proposal and intended use for the Lawn Avenue ROW Parcel. With the passage of Plan Commission Recommendation No. 24-02, the Plan Commission favorably recommended the approval of the Development, the Development Zoning Relief, and the vacation of the Lawn Avenue ROW Parcel and its conveyance to the Applicant to allow the Lawn Avenue ROW Parcel to be incorporated into the Development and to require that the Applicant complete certain enhancements to the existing stormwater detention basin located within the Lawn Avenue ROW Parcel for the benefit of the Development; and

WHEREAS, after completion of the required public hearing before the Village Plan Commission, on **_____, 2025, with the passage of Ordinance No. 25-_____,** the President and Board of Trustees of the Village of Western Springs ("Corporate Authorities") granted approval of the Development Zoning Relief (the "Approval Ordinance"); and

WHEREAS, pursuant to Sections A and B of the ROW Policy, the Corporate Authorities of the Village may deviate from the ROW Policy or grant an exception or variation from any provision of the ROW Policy under the appropriate circumstances, provided such deviation, exemption or variation is approved by a three-fourths vote of the Corporate Authorities of the Village, and, in the case of a proposed residential planned development, the Village Board "reserves the right to set a price for the sale of such right-of-way based on: (1) the fair market value of the property; or (2) on the benefits (as documented in the public record by the Village Board) which will accrue to the Village as a result of the vacation and the incorporation of the vacated right-of-way into the Development." In lieu of paying the fair market value that is assigned to the Lawn Avenue ROW Parcel under the ROW Policy (which equals $408,375.00), the Applicant has requested that the Village Board approve the vacation of the Lawn Avenue ROW Parcel in exchange for the Applicant completing equivalent "like-kind, like value" improvements consisting of the enhanced stormwater drainage improvements to the Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin at an estimated construction cost of $505,729.00 based on the Lawn Avenue Detention Pond Budget, which is part of the Application; and

WHEREAS, because the Application involves a proposed residential planned development, the Corporate Authorities of the Village find that it is appropriate to grant the following deviations, exceptions or variations from the ROW Policy: (1) to offer the Lawn Avenue ROW Parcel for sale only to the Applicant for purposes of its incorporation into the Development to provide for enhanced stormwater drainage facilities, and to not offer the Lawn Avenue ROW Parcel to all adjacent property owners for purposes of submitting competing purchase proposals; and (2) to vacate and convey title to the Lawn Avenue ROW Parcel to the Applicant, at no cost, in exchange for the construction of enhanced stormwater drainage improvements to the Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin, provided that the final actual, documented construction costs are

approximately $505,729.00, as confirmed by the Village Engineer; and

WHEREAS, in accordance with the ROW Policy, the Board of Trustees of the Village has agreed to vacate and convey title to the Lawn Avenue ROW Parcel to the Applicant in exchange for the Applicant completing equivalent "like-kind, like value" improvements consisting of the enhanced stormwater drainage improvements to the Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin at an estimated construction cost of $505,729.00 based on the Lawn Avenue Detention Pond Budget, subject to the Applicant agreeing to the conditions set forth in Section 3 below, including the acceptance **of a storm water drainage easement**, as shown on the attached Plat of Vacation of Public Right Of Way and Stormwater Drainage Easement dated **July 10, 2024** and prepared by DesignTek Engineering, Inc., a copy of which is attached hereto as **Exhibit "1"** (the "Plat of ROW Vacation"); and

WHEREAS, the Board of Trustees has determined that it is protective of the health, wealth and safety of and in the best interests of the Village to sell this Lawn Avenue ROW Parcel at the above-stated purchase contribution obligation (i.e., completing equivalent "like-kind, like value" improvements consisting of the enhanced stormwater drainage improvements to the Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin at an estimated construction cost of $505,729.00) to the Applicant, based on the benefits that will accrue to the Village as a result of the development of the Lawn Avenue ROW Parcel in conjunction with the development of the adjacent 5600 South Wolf Road property by the Applicant, including the return of the property to the real estate tax rolls as a tax producing parcel and the removal of the property from the Village's inventory of property that has to be maintained and insured at the Village's cost; and

WHEREAS, pursuant to the State Vacation Statute (65 ILCS 5/11-91-1), Section 10-10-20 (Vacations) of the Western Springs Municipal Code, and the ROW Policy, the President and Board of Trustees have determined that the public interests of the Village will be subserved by vacating the Lawn Avenue ROW Parcel for the reasons stated in the Whereas paragraphs of this Ordinance, that the vacation will relieve the Village from the burden and responsibility of the Lawn Avenue ROW Parcel, and that, in the judgment of the President and Board of Trustees, based on a review of comparable real estate sales data, the estimated fair market value of the Lawn Avenue ROW Parcel to be acquired by the Applicant, subject to the conditions set forth in Section 3 below, is **Four Hundred Eight Thousand Three Hundred Seventy-Five and 00/100 Dollars ($408,375.00)**; and

WHEREAS, pursuant to Section A and Section B of the ROW Policy, the Corporate Authorities of the Village may deviate from the ROW Policy or grant an exception or variation from any provision of the ROW Policy under the appropriate circumstances, provided such deviation, exemption or variation is approved by a three-fourths vote of the Corporate Authorities of the Village; and

WHEREAS, at open public meetings held on January 9, 2025 and January 16, 2025, the Village's Planning and Zoning Committee ("Committee") reviewed and discussed the proposed Heritage Crossing Townhome Development and the vacation of the Lawn Avenue ROW Parcel, and received input from the Village staff on the matter, and provided an opportunity for public input on the matter. At its January 16, 2025 meeting, the Committee recommended that the Corporate Authorities of Village consider the vacation of the Lawn Avenue ROW Parcel as part of the approval of the Development; and

WHEREAS, at open public meetings held on **January 13, 2025, January 27, 2025 and February 10, 2025,** the Corporate Authorities of Village reviewed and discussed the Committee's recommendation regarding the proposed Heritage Crossing Townhome Development and the vacation of the Lawn Avenue ROW Parcel as part of the approval of the Development, and received input from the Village staff on the matter and provided an opportunity for input from the public on the matter. At its February 10, 2025 open public meeting, the Corporate Authorities of the Village unanimously passed a motion finding and determining that there are appropriate circumstances, based on the statements set forth in the above Whereas paragraphs of this Ordinance and those other statements and documents that are part of the public record relating to this matter, to approve all necessary deviations from the ROW Policy and to grant all necessary exceptions or variations from any procedural requirements of the ROW Policy in order to approve this Ordinance; and

WHEREAS, the Board of Trustees of the Village is authorized to pass this Ordinance pursuant to the State Vacation Statute (65 ILCS 5/11-91-1, *et seq.*) and the applicable provisions of the ROW Policy.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each of the Whereas paragraphs set forth above are incorporated into Section 1 of this Ordinance as material provisions.

SECTION 2. Approval of Right-of-Way Vacation. Pursuant to Chapter 65 of the Illinois Compiled Statutes, Section 5/11-91-1, as amended, the Board of Trustees of the Village of Western Springs vacate that portion of the dedicated Lawn Avenue right-of-way (the "Lawn Avenue ROW Parcel") legally described as follows:

> THAT PART OF THE 66 FEET WIDE LAWN AVENUE, LYING SOUTH OF THE NORTH LINE OF WESTERN SPRINGS TOWNHOMES, RECORDED MARCH 29, 1999, AS DOCUMENT NO. 99297584, LYING NORTH OF THE SOUTH LINE OF RIDGEWOOD UNIT 12, RECORDED OCTOBER 6, 1965, AS DOCUMENT NO. 19610359, LYING WEST OF THE EAST LINE OF THE WEST ½ OF LOT 4 (EXCEPT THE NORTH 75 FEET THEREOF), LOTS 5 AND 6 IN MAXTED SUBDIVISION, RECORDED NOVEMBER 13, 1948, AS DOCUMENT NO. 14442019, AND LYING EAST OF THE WEST LINE OF RIDGEWOOD UNIT NO. 11, RECORDED APRIL 3, 1964, AS DOCUMENT NO. 19089916, IN THE EAST HALF OF SECTION 18, TOWNSHIP 38 NORTH, RANGE 12 EAST OF THE THIRD PRINCIPAL MERIDIAN, COOK COUNTY, ILLINOIS

The Lawn Avenue ROW Parcel described above contains approximately 14,850.00 square feet.

The property legally described above is shown on the Plat of ROW Vacation and Reservation of Stormwater Drainage Easement dated **July 10, 2024** and prepared by DesignTek Engineering, Inc., a copy of which is attached hereto as **Exhibit "1"** (the "Plat of ROW Vacation"). The property legally described above is vacated, SUBJECT TO THE CONDITIONS SET FORTH IN SECTION 3 BELOW.

SECTION 3. Conditions of Approval for Right-of-Way Vacation. The vacation of the property legally

described in Section 2 above is subject to the following conditions, each of which have been agreed to by the Applicant, as evidenced by the Applicant's execution of the "Acknowledgement And Agreement To Comply With The Obligations, Conditions, Terms And Provisions" of this Ordinance, which is attached to this Ordinance as **Exhibit "1":**

A. **Payment of "Like-Kind, Like Value" Consideration / Purchase Price.** In lieu of paying the fair market value assigned to the Lawn Avenue ROW Parcel as set forth in the ROW Policy (which equals $408,375.00), the Village agrees to vacate and convey title to the Lawn Avenue ROW Parcel to the Applicant in exchange for the Applicant completing equivalent "like-kind, like value" improvements consisting of the enhanced stormwater drainage improvements to the existing Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin at an estimated construction cost of $505,729.00 based on the Lawn Avenue Detention Pond Budget and the Site Plan dated November 5, 2024 as part of the Applicant's construction of the Development. As part of the Village's construction inspection and post-construction approval process of the enhanced and newly constructed stormwater drainage facilities, including the Lawn Avenue Detention Basin, the Outlot 31 Detention Basin and the Outlot 33 Detention Basin, within five (5) business days of any written request for Development-related documents from the Village, the Applicant shall provide the Village with true and accurate copies of expenditure summaries, as prepared and certified by the Applicant, with appropriate supporting documentation (i.e., construction escrow statements, paid invoices, proof of payment to contractors, subcontractors and suppliers, executed liens waivers, contractor's sworn statement and affidavit, lender financing statements, lender progress payments and evidence of wire transfers, etc.), as deemed reasonably necessary by the Village (i.e., Village Manager, Village Engineer or Village Attorney) to allow the Village Engineer to verify the actual incurred costs of the enhancements to and construction of those stormwater drainage facilities. If the actual cost of the construction of the stormwater drainage improvements is less than the fair market value assigned to the Lawn Avenue ROW Parcel as set forth in the ROW Policy ($408,375.00), as determined by the Village Engineer, the Applicant shall pay to the Village the dollar amount representing the difference between the actual cost of the construction of the stormwater drainage improvements and the fair market value assigned to the Lawn Avenue ROW Parcel ($408,375.00) upon written demand of the Village. If necessary, the Parties agree to meet and confer upon written notice delivered by the requesting Party to the other Party in order to discuss and attempt to resolve any dispute(s) relative to the Village Engineer's verification of the actual incurred costs of the enhancements to and construction of those stormwater drainage facilities. If the Parties are not able to resolve the dispute(s) within thirty (30) calendar days of their initial meet / confer session, the Village Engineer's final determination shall be a final, non-appealable decision within the Village's organizational hierarchy for purposes of resolving the matter and any further dispute of the matter shall be redressed in a court of equity or law. If, after acquiring title to the Lawn Avenue ROW Parcel, the Applicant, or its successors-in-interests, successor owners, assignees or transferees, do not construct the Development or do not complete the enhanced stormwater drainage improvements to the Lawn Avenue Detention Basin and the construction of the Outlot 31 Detention Basin and the Outlot 33 Detention Basin, as shown on the Village-approved Development Plans, the Applicant or its successors-in-interests, successor owners, assignees or transferees shall be obligated to pay the Village an amount equal to

$408,375.00 plus all of the incurred reimbursable costs and fees that are payable to the Village under the ROW Policy (e.g., engineering, legal, survey fees and 10% administrative fees, etc.) upon written demand of the Village.

B. Reservation of New Storm Water Drainage Easement. The reservation of a new sixty-six (66.00) foot by two hundred twenty-five (225.00) foot wide storm water drainage easement area that extends over the entire Lawn Avenue ROW Parcel, as shown on the attached Plat of ROW Vacation (**Exhibit "1"**), is agreed to by the Applicant for the purposes set forth in the easement description contained in the Plat of ROW Vacation.

C. No Effect on Other Recorded Easements and Encumbrances. This Vacation Ordinance does not affect or alter any other private or public easements or encumbrances of record.

D. Conveyance of Title. Title to the Lawn Avenue ROW Parcel shall be conveyed to and accepted by the Applicant by the passage of this Vacation Ordinance in "AS-IS, WHERE-IS" condition, including all known and unknown environmental conditions (including but not limited to soil and groundwater) and soil quality conditions. The Village makes no representations, warranties or guaranties of any kind in regard to the Lawn Avenue ROW Parcel to the Applicant, except that the Lawn Avenue ROW Parcel will be zoned as an R-4 - Multiple-Family Residence District property as defined under the Village's Development Control Ordinance.

E. Hold Harmless, Defense and Indemnity. In the event that litigation of any kind is filed by any person against the Village and/or its appointed or elected officials, president and trustees, agents, engineers, attorneys, employees and representatives ("Village Affiliates") relating to any matters covered by or contained in this Ordinance, the Applicant and/or their successors-in-interest, successor owners, assignees or transferees of the 5600 South Wolf Road property shall defend, hold harmless and indemnify the Village and the Village Affiliates from and against any and all claims, actions, lawsuits, damages, judgments, costs, expenses and liabilities of any kind, including the reasonable fees and expenses of any attorneys, expert witnesses, staff time and consultants, defenses costs, court costs and fines, asserted against the Village and/or the Village Affiliates or sought to be imposed upon the Village and/or the Village Affiliates, individually, jointly or severally, and which arise directly or indirectly out of or in connection in any way with this Ordinance or the vacation of the Lawn Avenue ROW Parcel. The Village shall select its own attorney(s) to defend itself and the Village Affiliates in any such litigation or claims. The scope of the above Hold Harmless, Defense and Indemnity provisions specifically include any claims, causes of action or lawsuits for damages or other relief filed by any person(s), and the award and/or payment of such damages, judgments, costs, expenses and liabilities of any kind or other relief arising out of or relating to the vacation and conveyance of the Lawn Avenue ROW Parcel to the Applicant where the claims, causes of action or lawsuits and damages, judgments, costs, expenses and liabilities of any kind or other relief are filed pursuant to 65 ILCS 5/11-91-1.

F. Reimbursement of Village for Enforcement of This Ordinance and its Conditions. If the Village files a lawsuit to enforce any provision or condition of this Ordinance, the Applicant and/or their successors-in-interest, successor owners, assignees or transferees of the 5600 South Wolf Road property shall reimburse the Village for its reasonable attorney's fees and litigation defenses

costs in prosecuting the litigation. This hold harmless and indemnity provision is a covenant that runs with the land and shall survive the vacation and conveyance of title of the Lawn Avenue ROW Parcel into the 5600 South Wolf Road property.

G. Compliance With ROW Policy. Compliance with the other applicable terms and conditions of the ROW Policy.

H. Acknowledgement and Agreement to Comply With the Obligations, Conditions, Terms and Provisions Set Forth in This Ordinance. The Applicant agrees to comply with all of the obligations, conditions, terms and provisions of this Ordinance. The Applicant acknowledges and agrees that the Village is not and will not be, in any way, liable for any damages or injuries that may be sustained as a result of the Village's approval of this Ordinance or its review and approval of any plans for the Development or the issuance of any permits for the Development, and that the Village's review and approval of any such plans and issuance of any such permits do not and will not, in any way, be deemed to insure the Applicant against third party claims, causes of action and damages or injuries of any kind at any time. The Applicant consents to the approvals granted in the Approval Ordinance and all conditions of those approvals and also to the recordation of the Approval Ordinance and this Ordinance with the CCCORD against title to the Property for the purpose of providing notice that the Applicant, and its transferees, successors-in-interest, all legal or beneficial owners of record, assigns, tenants, licensees and all subsequent owners of the Property or any part of the Property, or any other person and each and all homeowners associations or their equivalent within the Property, are subject to the obligations, conditions, terms and provisions of the Approval Ordinance and this Ordinance.

Upon satisfaction of the above conditions, and the filing of this Ordinance and the Plat of ROW Vacation with the Cook County Clerk's Office, Recording Division ("CCCORD"), the Lawn Avenue ROW Parcel legally described in Section 2 above shall be vacated and title to the vacated right-of-way shall be conveyed and pass to the legal owner of the adjacent property commonly known as 5600 South Wolf Road, Western Springs, Illinois **(P.I.N.: 18-18-200-038-000).** In consideration of the vacation of the right-of-way, the Applicant agrees to each of the easement reservations specifically listed above in this Section 3 and as shown on the attached Plat of ROW Vacation.

SECTION 4. Filing Ordinance With the Cook County Clerk's Office, Recording Division. The Village shall cause a certified copy of this Ordinance and the original of the attached Plat of ROW Vacation to be recorded with the CCCORD upon satisfaction of the conditions set forth in Section 3 above. The Village shall provide the Applicant with a CCCORD-filed stamped copy of this Ordinance and the Plat of ROW Vacation.

SECTION 5. Repealer; Severability. All Ordinances or parts of Ordinances in conflict herewith are, to the extent of such conflict, hereby repealed, and each section, paragraph, clause and provision of this Ordinance is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any part thereof, other than that part affected by such decision.

SECTION 6. Termination of Ordinance for Failure of Developer to Acquire Title to the Property. This validity of this Ordinance is subject to the Developer purchasing the Property from the Property Owner.

In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract entered into between the Property Owner and the Developer, this Ordinance shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Ordinance based on the Developer not purchasing the Property. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract**.**

SECTION 7. Publication; Effective Date. This Ordinance shall be in full force and effect from and after its passage and due publication in pamphlet form according to law.

PASSED by an affirmative vote of at least five (5) of six (6) of the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the ____ day of _____, 2025, and approved by me as President on the same day.

OTHER: Published in pamphlet form.

AN ORDINANCE AUTHORIZING THE APPROVAL AND EXECUTION OF A PLAT OF ABROGATION FOR STORM SEWER EASEMENT AND PUBLIC UTILITY EASEMENT LOCATED WITHIN THE PROPERTY COMMONLY KNOWN AS 5600 SOUTH WOLF ROAD, WESTERN SPRINGS, ILLINOIS FOR THE CONSTRUCTION OF THE PROPOSED 29 UNIT HERITAGE CROSSING TOWNHOME DEVELOPMENT BY APPLICANT / CONTRACT PURCHASER MCNAUGHTON DEVELOPMENT, LLC.

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village of Western Springs ("Village") that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"). The Property Owner has further executed a "Written Consent and Waiver" to allow McNaughton Development, LLC to enter into this Agreement, a copy of which is on file with the Community Development Department and is incorporated herein by reference and made a part hereof; and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a conditional use permit for a planned development, a map amendment, an amendment to the Village's Comprehensive Land Use Plan, a plat of consolidation, a plat of abrogation for storm sewer easement and public utility easement, a plat of vacation relating to a portion of Lawn Avenue, which is utilized as a stormwater detention basin, certain development allowances, exceptions and variations, and other zoning relief as noted below in accordance with the applicable provisions of the Village's Development Control Ordinance ("DCO"), in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached, front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, an expanded stormwater detention basin system and stormwater management facilities and other private and public infrastructure, , open space, landscaped areas and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowner's Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent subdivisions will be controlled by a swing gate and gate access will only be granted to residents of both subdivisions with clicker-access and Village emergency service vehicles. The

swing gate will be improved with an Opticom system that will give Village emergency service vehicles access similar to the systems on streetlights. The Developer agrees to accept title to a sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of Lawn Avenue (the "ROW Parcel") that will be vacated by the passage of a vacation ordinance and a plat of right-of-way vacation and retention of stormwater facility easement by the Village for purposes of incorporation into the Property and the Development so that the Developer can construct an expanded stormwater detention basin system as part of the construction of the Development; and

WHEREAS, based on the Application submitted by the Applicant, the Village conducted a public hearing relative to certain zoning relief requested by the Applicant in order to construct the Development, pursuant to prior notice, postings and newspaper publication as required by the applicable provisions of State law, including the Illinois Open Meetings Act, 5 ILCS 120/ and Division 11-13 of the Illinois Municipal Code (65 ILCS 5/ 11-13), and the applicable provisions of the DCO (the "Public Hearing"). The Public Hearing was conducted by the Village Plan Commission and commenced on August 13, 2024 and concluded November 18, 2024. The Village Plan Commission issued Recommendation No. PC-2024-02 on November 18, 2024 that favorably recommended approval of the zoning relief contained in the Application, including a Comprehensive Plan Amendment to the Long-Range Land Use Map, a Map Amendment (Rezoning of the Property from the O – Limited Office Zoning District to the R4 - Multiple-Family Residence District), a Conditional Use for a Planned Development, and Exceptions / Variations to the Village Development Control Ordinance ("DCO"), and a Subdivision approval for the construction, operation, and maintenance of a Townhome Subdivision Development referred to as "Heritage Crossing", and a single stage Final Plan review and approval process (i.e., a combined Preliminary Plan / Final Plan approval) for the Development per Subsection 10-8-8(C) of the DCO, provided that the Applicant complies with the submittal and plan review requirements of Section 10-8-5(C) (Final Plan) of the DCO, subject to certain stated conditions of approval (the "Development Zoning Relief"). A copy of Plan Commission Recommendation No. 24-02 is incorporated herein by reference and is on file with the Community Development Department; and

WHEREAS, after completion of the required public hearing before the Village Plan Commission, on **_____, 2025** with the passage of **Ordinance No. 25-_____**, the President and Board of Trustees of the Village of Western Springs ("Corporate Authorities") granted approval the Development Zoning Relief; and

WHEREAS, pursuant to Subsection 10-10-3(F) (Procedures And Requirements For Subdivision Approval; Final Plat) of the DCO and Section 11-12-8, Section 11-12-12 and Section 11-15-1 of the Illinois Municipal Code (65 ILCS 5/11-12-8; 11-12-12 and 11-15-1) (Approval of Maps and Plats; Prerequisite to Recording), the Applicant has filed with the Village for its approval a Plat of Abrogation For Storm Sewer Easement And Public Utility Easement prepared by DesignTek Engineering, Inc. with a **latest revision date of October 15, 2024** ("Plat"), which abrogates the easements imposed on the Property as legally described on the attached Plat. A copy of the Plat is attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, the Applicant desires to have the Plat approved by the Village prior to the Village's approval of the Applicant's "Final Plat of Heritage Crossing Resubdivision", that was prepared by DesignTek Engineering, Inc. with a latest revision date of **December 9, 2024** ("Plat of Subdivision"), which has been submitted to the Village for its review and approval in accordance with the applicable provisions of the DCO; and

WHEREAS, at open public meetings held on **January 9, 2025 and January 16, 2025,** the Village's Planning and Zoning Committee ("Committee") reviewed the Plat and Plan Commission

Recommendation No. 24-02 and received input from the Village staff and provided an opportunity for public input on the Plat. At its January 16, 2025 meeting, the Committee voted to recommend that the Village Board consider the Plat by the Village Board; and

WHEREAS, at open public meetings held on **January 13, 2025, January 27, 2025 and February 10, 2025,** the Village Board discussed the Plat and Plan Commission Recommendation No. 24-02 and the Committee's recommendation, and received input from the Village staff and provided an opportunity for public input on the Plat. At the **_____, 2025** public meeting, the Village Board considered the findings and recommendations of the Plan Commission and the Committee, and the input from the Village staff and the public, and agreed to **approve / deny** the Plat; and

WHEREAS, in accordance with the authority set forth in the applicable provisions of the DCO and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), including 65 ILCS 5/11-15-1, and the contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) of the Constitution of the State of Illinois of 1970, the Village President and Board of Trustees of the Village of Western Springs find that the **approval / denial** of this Ordinance and the Plat is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the general public.

BE IT ORDAINED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Ordinance.

SECTION 2: Approval and Execution of Plat. The Village President and Board of Trustees of the Village of Western Springs approve and authorize the execution of the attached "Plat of Abrogation For Storm Sewer Easement And Public Utility Easement" that was prepared by **DesignTek Engineering, Inc. with a latest revision date of October 15, 2024** ("Plat"), a copy of which is attached hereto as **Exhibit "A"**. The Village Board further authorizes and directs the Village President, the Village Clerk, the Village Plan Commission Chairperson, the Village Treasurer, the Village Engineer and the Village Attorney, or their designees, and any other Village officials, as needed, to execute the final version of the Plat, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and such other documents as are necessary to fulfill the Village's obligations under this Ordinance.

SECTION 3: Delivery of Executed Plat for Filing With the Cook County Clerk's Office, Recording Division. After approval of this Ordinance, certified copies of this Ordinance and a fully executed original of the attached Plat shall be filed by the Village, at the Applicant's cost, with the Cook County Clerk's Office, Recording Division. Thereafter, the Village shall provide the Applicant with Cook County Clerk's Office, Recording Division filed-stamped copies of this Ordinance and the Plat for purposes of record retention and compliance with the terms of this Ordinance.

SECTION 4: Repealer; Severability. Any ordinance, or portion thereof, in conflict with this Ordinance is repealed to the extent of such conflict, and the text of this Ordinance shall control and govern**.** Each Section, paragraph, clause and provision of this Ordinance is separable, and if any such Section, paragraph, clause or provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any portion hereof, other than that part affected by such decision.

SECTION 5: Termination of Ordinance for Failure of Developer to Acquire Title to the Property. This validity of this Ordinance is subject to the Developer purchasing the Property from the Property Owner. In the event the Developer does not purchase the Property from the Property Owner, upon written notice delivered to the Village Manager of the termination of the real estate purchase contract entered into between the Property Owner and the Developer, this Ordinance shall automatically terminate without further action by the Corporate Authorities of the Village and shall be void and unenforceable. If the Developer does not purchase the Property, the Developer agrees to waive all claims, causes of action and damages of any kind that the Developer could file against the Village arising out of or related to the termination of this Ordinance based on the Developer not purchasing the Property. The Developer is required to provide written notice to the Village within five (5) calendar days of the termination of the real estate purchase contract.

SECTION 6: Effective Date. This Ordinance shall be in full force and effect from and after its passage, approval and publication as provided by State law.

PASSED by the Village President and Board of Trustees of the Village of Western Springs, Cook County, Illinois, on a roll call vote at Regular Meeting thereof, held on the ___ day of _____, 2025, and approved by me as Village President, and attested by the Village Clerk on the same day.

DATE: _____, 2025.
OTHER: Published in pamphlet form.

AN ORDINANCE AUTHORIZING THE APPROVAL AND EXECUTION OF A FINAL PLAT OF HERITAGE CROSSING RESUBDIVISION FOR THE PROPOSED 29 UNIT HERITAGE CROSSING TOWNHOME DEVELOPMENT TO BE CONSTRUCTED AT 5600 SOUTH WOLF ROAD, WESTERN SPRINGS, ILLINOIS BY APPLICANT / CONTRACT PURCHASER MCNAUGHTON DEVELOPMENT, LLC.

WHEREAS, McNaughton Development, LLC, with its principal business office located at 11S220 Jackson Street, Burr Ridge, Illinois 60527 ("Applicant"), is the contract purchaser and prospective developer of the real property commonly known as 5600 South Wolf Road, Western Springs, Illinois ("Property"). Casey and Fran Gaik (collectively the "Property Owner") are the fee simple title owners of the Property and have submitted a written authorization to the Village of Western Springs ("Village") that allowed the Applicant to file with the Village a completed "General Information Application for Land Use and Development in the Village" form with supporting documents (the "Application") for the redevelopment of the Property as a twenty-nine (29) unit residential townhome development (the "Development"). The Property Owner has further executed a "Written Consent and Waiver" to allow McNaughton Development, LLC to enter into this Agreement, a copy of which is on file with the Community Development Department and is incorporated herein by reference and made a part hereof; and

WHEREAS, in 2024, the Applicant submitted the Application to the Village requesting approval of a conditional use permit for a planned development, a map amendment, an amendment to the Village's Comprehensive Land Use Plan, a plat of consolidation, a plat of abrogation for storm sewer easement and public utility easement, a plat of right-of-way vacation relating to a sixty-six (66.00) foot by two hundred twenty-five (225.00) foot portion of Lawn Avenue, which is utilized as a stormwater detention basin, certain development allowances, exceptions and variations, and other zoning relief as noted below in accordance with the applicable provisions of the Village's Development Control Ordinance ("DCO"), in order to construct the Development, which is commonly referred to as the Heritage Crossing Subdivision or the Heritage Crossing Townhome Development. A copy of the Application is on file with the Village's Community Development Department and is incorporated herein by reference; and

WHEREAS, the proposed Development consists of nine (9) townhome buildings with unit counts of either three-units or four-units. Each dwelling unit will have a balcony, a rear patio, and an attached, front-loaded garage with a driveway accessed by a private street through the Development. The Development will have off-street community parking spaces, possible on street-parking, sidewalks, an expanded stormwater detention basin system and stormwater management facilities, open space, landscaped areas and streetlights. The Applicant proposes to extend private Heritage Court to the southeast through the Property to the Development's access driveway proposed along Wolf Road. The existing portion of Heritage Court, a private road, currently services only the Heritage Springs Townhome Development, connects to 55th Street to the north of the Property and is maintained by the Heritage Springs Homeowner's Association. The Applicant's plans indicate that the new portion of Heritage Court will match the existing road's width. An automatic gate will separate the Development from the existing Heritage Springs Subdivision to the north. Vehicle access between the adjacent
