Public Works and Water Committee Meeting Minutes
Tuesday, August 12, 2025
Village Hall 740 Hillgrove Ave
Western Springs IL 60558

Call to Order

5:15 PM Scott Lewis, Chairman-Trustee Presiding

Committee Members' Present:

Karen Martin, Trustee

Committee Members Absent:

None

Electronic Attendance:

Heidi Rudolph, Village President

Staff Present:

Ellen Baer, Village Manager
Casey Biernacki, Deputy Village Manager
Jeff Koza, Village Engineer
Inga Cebelis, Staff Engineer
Christopher Breakey, Public Works Superintendent
John Mastandona, Finance Director
Ron Derengowski, Water Plant Superintendent
Diana Puga, Municipal Services Coordinator
Jenny Pesek, MS Administrative Assistant
Anne Skrodzki, Village Attorney

Roll Call

As noted above.

Approval of Minutes:

Chair Scott Lewis motioned to approve July 15, 2025, Public Works and Water Committee meeting minutes seconded by Trustee, Karen Martin. Motion passed unanimously on a voice vote.

Public Comment- None

Contract with Mauro Sewer Construction for 53rd St and Flagg Creek Watermain Project

Ron Derengowski reported the Village issued a request for Bids for the 53rd Street and Flagg Creek Watermain Project. Bids were opened on August 4, 2025, total of (3) bids. The lowest bidder was Mauro Sewer Construction \$334,350.00. The project involves removal of an eight inch and the existing is failing. The Village budgeted \$300,000 however this will require a budget amendment of \$44,350.00.

Motion to recommend to the Village Board and award the contract to Mauro Sewer Construction, by Chair Scott Lewis and seconded by Trustee Martin. Motion passed unanimously on a voice vote

(Previously discussed) Springdale Drainage Improvements Project and Change Orders #1, # 2, 3

Director Jeff Koza reported this was discussed previously at the July 15, 2025, Committee meeting. He reported to the Committee to consider a recommendation to approve the change orders #1,2 and for the Springdale Drainage Improvement Project. Staff recommended the approval of these changes to resolve the Springdale flooding problem. The project awarded contract amount is \$5,188,313. Estimated total of change orders +\$405,670 (7.8% increase)

Motion to approve the change orders for the Springdale Improvement Project by Scott Lewis, and seconded by Trustee, Karen Martin. Motion passed unanimously on a voice vote.

Cured in Place Pipelining, Design and Construction Engineering Forest Hills, 51st Street

Village Engineer Koza reported Robinson Engineering presented a proposal for this project, it includes the improvements to the Village's sanitary sewer collection system in the Forest Hills subdivision on 51st street. This is a proposal for Professional Engineering Services currently.

Other Business

Water System Update

Water Plant Superintendent, Ron Derengowski reported on the Water System Update.

As part of the Springdale Park Detention Basin and Water Main Project, PCE installed approximately 1440 linear feet of 8" ductile water main. Service connections will occur soon in the future but operational for fire protection.

Eaton 1600 Amp Breaker

Monday August 25, 2025, Eaton will install a new main 1600 AMP breaker at the Water Treatment Plant. This requires coordination with ComEd for a temporary disconnection.

Phase 2 IEPA Loan Application

He reported the Village will be submitting a loan application for the phase 2 lead service line replacements. The Finance Dept and Municipal Services and HR Green will be finalizing the loan amount and requirements for the application. This project has been approved but the funds have been bypassed currently. Director Supert has done a nice timeline to keep the project focused and able to receive funds when available.

Schedule for the Next Committee Meeting:

The Public Works and Water Committee next meeting is scheduled for **Wednesday, August 27, 2025, 6:00 p.m.**

Adjourn

Chair Lewis motioned to adjourn the meeting, seconded by Trustee Martin. Motion passed unanimously on a voice vote.

Meeting adjourned at 5:34 PM

Respectfully Submitted: Jenny Pesek

AGENDA ITEM SUMMARY

PUBLIC WORKS AND WATER COMMITTEE

Public Works and Water Committee: August 27, 2025

AGENDA ITEM D.1.

To: Public Works and Water Committee

From: Jeff Koza, Director of Engineering Services

CC: Ellen Baer, Village Manager

RE: Burlington Avenue Raised Pedestrian Crossing and Concrete Pavement Repairs

Recommendation

Consider a recommendation to award a contract for the Burlington Avenue Raised Pedestrian Crossing and Concrete Pavement Repairs Project to the lowest responsive bidder provided the lowest responsive bidder's bid is found to be within budget. Staff will provide the bid results and award recommendation after the bid opening on September 3, 2025.

Summary

Included in the FY 2025 budget are funds for three separate small-scale infrastructure improvement projects that each involve concrete flatwork construction. These projects have been combined into a single project to achieve better economies of scale and therefore better contract unit pricing for the work. The project is titled "Burlington Avenue Raised Pedestrian Crossing and Concrete Pavement Repairs" ("Project"). Staff expects to complete the bid review in time to allow for the project to be considered for award at the September 8, 2025 Board Meeting.

Site 1 - Burlington Avenue Raised Crosswalk Construction

The work includes construction of a new raised crosswalk on Burlington Avenue south of the west underpass. The work also includes new sidewalk on the south side of the street which will connect to the Spring Rock Park path system just west of the crosswalk. This project aims to provide improved safety for residents using the west underpass to get to and from Spring Rock Park. The contract documents call for this work to be completed by November.

Site 2 - Hillgrove Avenue Concrete Pavement Repairs

Portions of the concrete parking areas on the south side of Hillgrove Avenue between Wolf Road and Howard Avenue require repair and or replacement of deteriorated concrete. Repairs between Wolf Road and Franklin Avenue will be completed this year and repairs between Franklin Avenue and east of Howard Avenue will be included in the project, but the work won't commence until next summer to avoid conflicts with Field Park Elementary school.

Site 3 - Fire Station 1 Driveway Repairs

The driveway pavement near the south driveway apron at Fire Station 1 is in disrepair. The

pavement will be removed and replaced with new concrete pavement. A small portion of sidewalk near the back door of Village Hall will also be removed and replaced at the same time. The contract calls for this work to be completed by November.

Financial Impact

The bid opening for the Project will be September 3, 2025 so the bid amount for the lowest responsive bidder is not yet known. Funding for the project is provided in the Village's FY 2025 Budget in the following accounts:

Account Name/Number	Budget
4104310-62010 Land Improvements	\$140,300
4102375-60011 Roadway Construction	\$150,000
Total: \$290,300	

Recommended Motion

I move to recommend to the Village Board the approval of a contract award to the lowest responsive bidder for the Burlington Avenue Raised Pedestrian Crossing and Concrete Pavement Repairs Project.

From: Jeff Koza, Director of Engineering Services

CC: Ellen Baer, Village Manager

RE: Proposal from V3 Companies for In-Depth Bridge Inspection

Recommendation

Consider a recommendation to approve a professional services agreement with V3 Companies for the performance of in-depth bridge inspections on the Commonwealth Avenue and 53rd Street bridges over Flagg Creek for an amount not to exceed \$25,000.

Summary

The Village maintains two bridges listed in the National Bridge Inventory:

Commonwealth Avenue over Flagg Creek – Structure No. 016-6804

53rd Street over Flagg Creek – Structure No. 061-6805

Both bridges are currently on a 24-month routine inspection cycle. In accordance with the Illinois Department of Transportation (IDOT) Structural Services Manual (Section 3.3.7), the in-depth inspection interval is a multiple of the routine inspection interval. Specifically, for structures on a 24-month routine cycle, IDOT recommends an in-depth inspection every 72 months (6 years). In-depth inspections provide a closer evaluation of structural elements that cannot be fully assessed during routine inspections. They are critical for identifying early signs of deterioration, ensuring public safety, and planning for future maintenance.

Financial Impact

This work was included in the Village's FY 2025 Budget in account 4801100-50100 Professional Services. The budgeted amount is \$25,000.

Recommended Motion

I move to approve a professional services agreement with V3 Companies for the performance of in-depth bridge inspections on the Commonwealth Avenue and 53rd Street bridges over Flagg Creek for an amount not to exceed \$25,000.

1. Western Springs Bridge Inspection Proposal - 2025 08 15

August 15, 2025

Mr. Jeff Koza, PE, CFM
Director of Engineering/Village Engineer
Village of Western Springs
740 Hillgrove Ave.
Western Springs, IL 60558

RE: Village of Western Springs In-depth Bridge Inspections and Reports - 2025

Dear Mr. Koza:

On behalf of V3 Companies (V3), we are pleased to submit this proposal for the inspection of and reporting for the following two bridges in Western Springs. If you find this proposal to be acceptable, the executed copies of this letter, together with the General Terms and Conditions attached hereto which sets forth the contractual elements of this agreement, will constitute an agreement between the Village of Western Springs (CLIENT) and V3 Companies, Ltd. (ENGINEER) for services on this project.

PROJECT UNDERSTANDING

V3 understands that the Village of Western Springs is requesting in-depth bridge inspections for SN 016-6804 and SN 016-6805. V3 will provide inspection personnel including an IDOT designated Team Leader to perform the inspections. Inspections will follow the National Bridge Inspection Standards (NBIS) and reporting requirements outlined by the Illinois Department of Transportation (IDOT).

SCOPE OF SERVICES

Full NBIS Inspections

V3 will perform the required, in-depth IDOT NBIS bridge inspections and reporting for the following bridges that require NBIS reporting and have been previously inspected:

- SN 016-6804 – Commonwealth Avenue over Flagg Creek (due November 15, 2025)
- SN 016-6805 – 53rd Street of Flagg Creek (due November 15, 2025)

Completion of all required forms for NBIS reporting will be done and provided to Western Springs' Program Manager (Jeff Koza) to be filed through IDOT. Additionally, V3 will provide results in a letter report that will detail any deficiencies of the bridge, provide appropriate photographic documentation, provide an estimate of probable cost for any recommended repairs, and provide recommendations for timing of future inspections and work.

The Scope of Services includes pre-inspection prep work which includes review of existing bridge plans, available photographs, and past inspection data. As well, V3 performed a pre-inspection site visit to determine if the use of a snooper is feasible. Due to the proximity and size of the surrounding trees snooper access may be limited in some areas but will be used where access is available. V3 will coordinate the equipment rental (snooper) and traffic control required (one way lane closure).

SCHEDULE

Both inspections shall be inspected within their NBIS designated interval. The reports and additional documentation will be completed within 30 days following the date of inspection.

COMPENSATION

V3 Companies will be paid a total “not-to-exceed” cost of **\$12,000.00** (\$6,000 per structure for two locations) for the scope of services as outlined above including expenses.

In addition to the professional services set forth above, the Village of Western Springs will be billed for a snooper truck rental directly and associated traffic control. Alternatively, V3 will be compensated for these reimbursable expenses if coordinated. The cost of a single-day snooper rental is expected to be **\$13,000**. The cost of traffic control will be determined.

Compensation Summary:

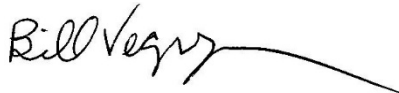

Bridge Inspections and Reports:	\$ 12,000
Snooper Rental 1 Day:	\$ 13,000
Total:	\$ 25,000

ADDITIONAL CONTRACT STIPULATIONS

- If there are any instances where a structure is not accessible and cleaning or debris removal is necessary to facilitate a thorough inspection, V3 will inform the City, who shall provide such cleaning and removal.

We appreciate the opportunity to present this proposal and look forward to working with you on this project. If you have any questions regarding this submittal or require additional information, please contact Bill Vegrzyn at 630-330-4241 or Zaida Morillo at 407-925-4740.

Sincerely,
V3 Companies

William J. Vegrzyn, P.E., S.E.

RE: Request for Qualifications for Water & Sewer On-Call Repair Services

Recommendation

Proposals will be opened on Thursday, August 28, 2025. Staff will bring forward recommendations for contractors to the September 8, 2025 Board meeting.

Summary

On August 14, the Village issued a Request for Qualifications (RFQ) for Sewer and Water On-Call Repair Services. Proposals are due at 10:00 AM on Thursday, August 28.

The Village budgets annually for contractual repairs and occasionally outsources repairs when underground utility depths exceed the Village's staff and equipment capabilities, when breaks happen in succession and staff are unable to address the various breaks or have worked continuous hours, and where safety would be compromised with the Village's existing equipment. These instances can happen on an emergency (unscheduled) or a pre-planned (scheduled) basis.

With the issuance of this RFQ, staff hope to create a pool of qualified contractors that they can rotate for scheduled and unscheduled repairs. A summary and recommendation of received proposals is planned to be submitted to the Village Board during the September cycle.

Financial Impact

The Village budgets for contractual water system repairs annually.

RE: Water Meter and Accessories Purchase from Ferguson

Recommendation

Consider the motion to approve and purchase water meters and accessories for the Community Development department from Ferguson Waterworks not to exceed \$18,535.00

Summary

The Village of Western Springs has received many new permit applications and the issuance of new water meters throughout town within the first three quarters of the year. These include water service upgrades from remodeling projects and from new single-family home developments. The Village made a purchase in January for the initial replenishment of water meters and accessories. The costs incurred in January have been collected through the water meter fee by Community Development.

Water Resources, from whom the Village has purchased these water meters, was purchased by Ferguson Enterprises, LLC (Ferguson) back on July 28, 2025. This letter is attached. Included is the DBA for Water Resources and Ferguson Waterworks as names utilized and provided by Ferguson Enterprises, LLC. Water Resources is the sole-authorized distributor in Cook and DuPage County for Neptune water meters, equipment, and software.

Municipal Services is requesting the approval for a total not to exceed \$18,535.00 from Ferguson Waterworks to replace the inventory of:

1. (10) 1" ultrasonic water meters
2. (15) 1.5" ultrasonic water meters
3. (2) 2" flange kits
4. (15) 1.5" flange kits
5. (20) 1" meter couplings

Financial Impact

WATER RESOURCES

390 Sadler Ave.
Elgin, Illinois 60120
(847) 742-3400

July 28, 2025

Dear Valued Customer,

We would like to thank you for your business over the last 35 years. After much consideration, we are excited to share we've made the decision to sell Water Resources to Ferguson Enterprises, LLC (Ferguson) effective July 28, 2025.

This sale will strengthen our regional presence, improve our supply chain and allow us to better serve you with additional products and solutions. Ferguson's resources will make it easier to provide you with the same exceptional service you've experienced with Water Resources, as well as provide our associates with the opportunity to grow within the Ferguson family.

Business changes

Your sales representative(s) will not change as we integrate into Ferguson. However, we will relocate to the following address on 7/29/2025:

1845 Western Drive
West Chicago
IL 60185

To ensure we maintain exemplary service, please call ahead at our same phone number prior to arriving.

Payment remittance information has changed – please see updated Lockbox and ACH information below.

Please be assured you will still have access to the same products, services and personal customer service you have come to expect from us. We have worked hard to earn both your business and your trust, and we are certain these strong relationships will continue to grow.

About Ferguson

Ferguson is an industry leader that places tremendous value on taking care of its associates and providing world-class customer service. It is the largest value-added distributor in North America providing expertise, solutions, and products from infrastructure, plumbing and appliances to HVAC, fire, fabrication and more. Celebrating more than 70 years in business and headquartered in Newport News, VA, the company employs more than 35,000 associates in 1,800+ locations.

Ferguson Waterworks distributes pipe, valves and fittings (PVF), hydrants, meter systems and related water management products and delivers innovative solutions across the water, sanitary sewer and stormwater management industries. As one of the nation's largest waterworks companies, public and private water sewer authorities, utility contractors, public works/line contractors and heavy highway contractors count on Ferguson.

If you have any questions, please do not hesitate to contact us.

Sincerely,

Mike Pedone
Vice President

CC: Ellen Baer, Village Manager, Matthew Supert, Director of Municipal Services

RE: Water System Update

Recommendation

Update only.

Summary

Replacement Need for Membranes on Reverse Osmosis Well 4 Skid

Over the past 3 years, the rejection and recovery of the membrane cartridges has significantly decreased in the reverse osmosis skid that treats the raw water from Well 4. It is highly recommended that the membranes of the unit be replaced to optimize the treatment process. Since this maintenance and replacement of the cartridges will be over \$25,000.00, the Village will proceed with the Request for Qualifications in September for the replacement and installation of the cartridges and will bring the recommendation and cost to the Public Works and Water Committee and the Village Board in October.

As you will see below, the data shows the rejection and recovery for Well 3 and Well 4 and the difference between the two units.

Fire Hydrant Painting

Go Painters are in town and are currently working on painting 200 fire hydrants. Hydrants undergo sandblasting to remove the old paint and a primer is applied. The final coat of paint will be administered, and it is anticipated that the 200 hydrants will be completed by the end of September.

New Fire Hydrant Installations

Public Works is waiting for the delivery of fire hydrants that were purchased from Ziebell. Once received, replacement of these fire hydrants will be scheduled for those that are inoperable or that require replacement due to age and condition.
