A. [Previously discussed] Greenest Region Compact Resolution (Omnibus Item)

B. Presentation of the Safe Routes to School Village-Wide Travel Plan

12. Consideration of and Action on Agenda Items

13. Explanation of Omnibus Voting Procedure

The Illinois State Statutes allow a municipality to collectively vote on a group of ordinances, resolutions, and other motions, such as awards of contract, appointments, etc. This is known as an omnibus vote. All the items contained on the omnibus vote list have been previously discussed by the President and Board of Trustees on at least one occasion, and often on several occasions. By placing them on the omnibus vote list, a single vote may be taken to approve them. A Trustee may remove any item from the list and have it discussed and voted on separately, prior to the omnibus vote. Is there any such request?

14. Consideration of an Omnibus Vote

A. Resolution No. 26-2972
A Resolution approving and authorizing the execution of a vendor contract for goods, supplies and services between the Village of Western Springs and Teska Associates, Inc. for the preparation of an update to the Village of Western Springs Comprehensive Plan

B. Ordinance No. 26-3307
An Ordinance amending Title 6 (Police Regulations), Chapter 2 (Animals) of the Western Springs Municipal Code related to residential honey beekeeping

C. Ordinance No. 26-3308
An Ordinance amending Title 10 (Development Control Ordinance), Chapter 2 (Definitions and Rules of Word Usage), Chapter 3 (Administrative Bodies and Procedures), Chapter 4 (Development Standards of General Applicability), Chapter 5 (Zoning Districts), Chapter 7 (Business District Regulations), Chapter 8 (Planned Developments), and Appendix B (Gross Floor Area Supporting

Documents) of the Western Springs Municipal Code

D. Resolution No. 26-2973
A Resolution approving the waiver of the competitive bid process in favor of the solicitation of competitive proposals and accepting and authorizing the execution of an agreement to be entered into between the Village of Western Springs and Wigen Water Technologies of Chaska, Minnesota for the replacement of reverse osmosis membranes and authorizing the expenditure of Village funds to pay for the services in an amount not to exceed $266,795.50

E. Resolution No. 26-2974
A Resolution waiving the competitive bid process in favor of the solicitation of competitive proposals and authorizing the execution of an agreement to be entered into between the Village of Western Springs and Hawkins, Inc. Water Treatment Group of University Park, Illinois for the supply and delivery of chemicals for the treatment of potable water, and authorizing the expenditure of Village funds in an amount not to exceed $325,000

F. Resolution No. 26-2975
A Resolution accepting the lowest cost, qualified, responsive bid, authorizing the execution of an agreement to be entered into between the Village of Western Springs and National Power Rodding Corp. of Chicago, Illinois for the 2026 catch basin and inlet cleaning services, and authorizing the expenditure of Village funds to pay for the project in an amount not to exceed $200,000

G. Resolution No. 26-2976
A Resolution approving the waiver of the competitive bidding process in lieu of purchase from a sole source provider and authorizing the approval and execution of a vendor contract to be entered into with Custom Filtration Solutions, LLC of Wheaton, Illinois for the supply and delivery of pre-treatment cartridge membranes and authorizing the expenditure of Village funds in an amount of $40,000

H. Resolution No. 26-2977
A Resolution approving and authorizing the execution of amendments to the Joint Agreement for the Southeast Association for Special Parks and Recreation (“SEASPAR”)

I. Resolution No. 26-2978
A Resolution accepting the lowest cost, qualified, responsive bid and authorizing the execution of an agreement to be entered into between the Village of Western Springs and Advanced Tree Care Of Lincolnshire, Illinois for the 2026 tree inventory updates and authorizing the expenditure of Village funds to pay for the project in an amount not to exceed $29,000

J. Resolution No. 26-2979
A Resolution approving and endorsing the Metropolitan Mayors Caucus’ Greenest Region Compact

15. Second to Omnibus Motion/Discussion of Omnibus Motion/Roll Call Vote

16. New Business

17. Other Business

A. Motion to approve:
Ordinance No. 26-3309
An Ordinance amending Title 10 (Development Control Ordinance), Chapter 2 (Definitions and Rules of Word Usage) and Chapter 7 (Business District Regulations) related to medical cannabis of the Western Springs Municipal Code.
Second to the motion:
Roll call vote.

B. Motion to approve:
Ordinance No. 26-3311
An Ordinance authorizing the Village of Western Springs, Cook County to borrow funds from the Public Water Supply Loan Program of the Illinois Environmental Protection Agency for the completion of the replacement of forty-two (47) residential lead service lines within the Village of Western Springs.
Second to the Motion:
Roll call vote.

18. Reports

A. Monthly Financial Report (Trustee Martin)
Motion to approve:
I move to approve the November and December 2025 Financial Reports as presented.
Second to the motion:
Roll call vote.

B. Village President Rudolph

C. Village Manager Baer

D. Village Attorney Skrodzki

19. Closed Meeting (If needed)

20. Adjournment

Individuals with disabilities who plan to attend / participate in this meeting and who require accommodations to allow them to observe and participate, or who have questions regarding accessibility of the meeting or facilities, please email accomodations@wsprings.com or contact Jill Izzo at 708-246-1800, extension 127.

MINUTES OF THE VILLAGE OF WESTERN SPRINGS
PRESIDENT AND BOARD OF TRUSTEES REGULAR MEETING
Monday, January 12, 2025

President Heidi Rudolph, Presiding
Call to Order, 7:00 pm
Edward Tymick, Village Clerk

Board Members Present:
Amy Avakian
Nicole Chen
Scott Lewis
Karen Martin
Phil Nawrocki

Board Members Absent:
Al Fink

Village Attorney Present:
Anne Skrodzki, Village Attorney

Staff Present:
Ellen Baer, Village Manager
Casey Biernacki, Deputy Village Manager
Kelsey Fawell, Senior Planner
Heather Valone, Director of Community Development
Matt Supert, Director of Municipal Services
Daisy Chavez, Assistant to the Village Manager
Jill Izzo, Deputy Village Clerk

Electronic Attendance:
None.

PLEDGE OF ALLEGIANCE

President Rudolph led the audience in the Pledge of Allegiance.

ROLL CALL

Roll call as noted above.

DRAFT

PUBLIC COMMENT

A resident spoke regarding the storm that occurred on Thursday, January 8, 2026 and the flooding that it caused.

A resident spoke regarding the flooding near his home.

A resident spoke regarding unsafe sidewalks due to snow and ice and lack of shoveling by homeowners.

APPROVAL OF MEETING MINUTES

The December 15, 2025 President and Board of Trustees meeting minutes were approved as read.

GENERAL GOVERNMENT COMMITTEE REPORT

No report.

FINANCE COMMITTEE REPORT

No report.

PLANNING AND ZONING COMMITTEE REPORT

Trustee Avakian reported on behalf of Trustee Fink that the Plan Commission and Planning and Zoning Committee reviewed and recommends the proposed text amendments to the Development Control Ordinance, Title 10 of the Village Code. Senior Planner Kelsey Fawell gave a brief presentation regarding the proposed amendments. Discussion was held regarding the proposed amendments related to medical cannabis and an overly district at 55th and Wolf Road allowing a conditional use permit to operate a medical dispensary.

Trustee Avakian reported on behalf of Trustee Fink that the Planning and Zoning Committee reviewed and recommends a Professional Services Agreement with Teska Associates, Inc. for the update of the Village Comprehensive Plan.

PUBLIC WORKS & WATER COMMITTEE REPORT

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends a vendor contract with Wigen Water Technologies for the supply and installation of the replacement of reverse osmosis membranes at the water treatment plant. The performance of the existing membranes have declined and need to be replaced.

DRAFT

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends a vendor contract with Hawkins, Inc. for the 2026 water treatment chemical supply and delivery.

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends a vendor contract with National Power Rodding Corporation for the 2026 catch basin & inlet cleaning for an amount not exceed $200,000.

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends a bid waiver and vendor contract with Custom Filtration Solutions, LLC to purchase filtration cartridges in an amount not to exceed $40,000.

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends Resolution to allow the Village forgo a surety bond for permit work performed by Village employees on State maintained right of ways. Trustee Lewis reported that this item will be on tonight's omnibus, if no objection.

Trustee Lewis reported that the Public Works and Water Committee reviewed and recommends the following 2026 Contract Renewals: Murphy Construction for sidewalk curb and gutter repair as well as a contract with Murphy Construction for sidewalk shaving; and a contract renewal with National Power Rodding Corporation for sewer televising and cleaning.

PROPERTIES & RECREATION COMMITTEE REPORT

Trustee Nawrocki reported that the Properties and Recreation Committee reviewed and recommends an amendment to the annual contribution calculation for the Southeast Association for Special Parks and Recreation Joint Agreement due to delays in receiving Cook County's Equalized Assessed Valuation reports and as a result the levy amounts are not always communicated to communities with fiscal year budgets in a timely manner. To address this, it is proposed that SEASPAR use the preceding year's EAV report instead.

Trustee Nawrocki reported that the Properties and Recreation Committee reviewed and recommends the surplus of two file cabinets.

Trustee Nawrocki reported that the Properties and Recreation Committee reviewed and recommends a vendor contract with Advanced Tree Care, Inc. for the 2026 tree inventory updates

DRAFT

Trustee Nawrocki reported that the Properties and Recreation Committee reviewed and recommends the following 2026 Contract Renewals with Beary Landscaping for landscape maintenance and The YMI Group, Inc. for HVAC maintenance and Winkler Tree and Lawn Care for tree maintenance services.

PUBLIC HEALTH & SAFETY COMMITTEE REPORT

Trustee Avakian reported that the Public Health and Safety Committee reviewed and recommends Epstein's Safe Routes to School Village-Wide Travel Plan. A representative from Epstein will be at the next Village Board meeting on January 26, 2026 to present.

Trustee Avakian reported that the Public Health and Safety Committee reviewed and recommends the Greenest Region Compact Resolution which sets forth goals to assist municipalities to improve sustainability plans.

CONSIDERATION OF AN OMNIBUS VOTE

Trustee Chen moved that the ordinances, resolutions and motions as contained on the meeting agenda for January 12, 2026, be adopted and/or approved under an Omnibus vote. Trustee Chen read the Omnibus in its entirety and motioned it be approved.

Omnibus:
A motion to approve the December 15, 2025 meeting minutes as read.

Resolution No. 26-2971
A Resolution allowing the Village of Western Springs to forgo a surety bond for permit work to be performed by employees of the Village on State maintained rights of way including emergency work on broken watermains or sewers for a two-year period.

A motion to approve one-year contract renewals with the following vendors Murphy Construction, Inc. for sidewalk shaving, and sidewalk, curb and gutter replacement; National Power Rodding for sewer televising and cleaning; Beary Landscaping Management, LLC for landscape maintenance services; The YMI Group, Inc. for HVAC maintenance services; and Winkler Tree and Lawn Care for tree trimming services.

Trustees Nawrocki seconded the motion. The motion passed on a roll call vote.
Voting Aye: Avakian, Chen, Lewis, Martin, Nawrocki and President Rudolph
Voting Nay: None.
Absent: Trustee Fink

DRAFT

REPORTS

Monthly Financial Report (Trustee Martin)
No report.

Village President Rudolph
President Rudolph reported on the many flooded areas in Western Springs as a result of Thursday's storm. President Rudolph indicated the Village Manager Baer mobilized Police, Fire and staff who were out clearing the storm drains to alleviate flooding.

Village Manager Baer
Manager Baer acknowledged the 45-50 Village staff who were out helping to clear leaves and debris out of the storm drains during Thursday's rain event. Manager Baer indicated LRS has been out cleaning the streets and asked residents not to put additional leaves or debris in the street at this time.

Manager Baer reported that Senator Glowiak Hilton and the Village worked together to provide another mobile emissions testing site in Western Springs on January 26, 2026 from 10:00 a.m. to 4:00 p.m.

Village Attorney Skrodzki
No report.

ADJOURNMENT

Trustee Chen made a motion to adjourn, seconded by Trustee Martin. Motion passed on a unanimous voice vote. Meeting adjourned at 8:33 p.m.

Submitted by:

Jill Izzo
Deputy Village Clerk

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 8.A.

To: Board of Trustees
From: Kelsey Fawell, Senior Planner, Heather Valone, AICP, Director of Community Development
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Jill Izzo, Deputy Village Clerk, Anne Skrodzki, Village Attorney
RE: [Previously discussed] Vendor Contract with Teska Associates, Inc. for the update of the Village Comprehensive Plan (Omnibus Item)

Recommendation

The Planning and Zoning Committee reviewed this item at their meeting on January 7, 2026, and recommended the approval of the vendor contract with Teska Associates, Inc. for the update of the Village Comprehensive Plan. The Village Board discussed the draft resolution and vendor contract at their meeting on January 12, 2026, and directed Village staff and the Village Attorney to finalize the resolution for consideration.

Summary

A comprehensive plan is a community's long-term vision, guiding future growth and development. It serves as a policy guide and advisory land use planning tool, outlining community conditions, identifying goals and objectives, and providing guidance for implementation.

The Village's current Comprehensive Plan (Comprehensive Land Use Plan Update) was adopted on February 24, 2003. For the past five years, it has been a strategic goal to develop an updated comprehensive community development plan in order to better serve current and future community needs and goals. Under the agreement, the selected firm will oversee public and stakeholder engagement, assessment of existing community conditions, perform market studies, transportation analyses, economic development strategies, a draft and final plan, and additional plan documents. The plan will provide analysis on the following key tasks: analysis of redevelopment potential of institutional and open space, commercial corridors or areas, subareas, residential neighborhoods, environmental sustainability, and more.

On October 3, 2025, the Village issued a Request for Proposals ('RFP') seeking consultants to prepare the comprehensive plan update, with responses due by November 3, 2025. Several qualified firms submitted proposals, and four were selected for interviews. Following deliberation, Teska Associates, Inc. ('Teska') was chosen based on the evaluation criteria outlined in the RFP.

The anticipated project timeline is 12 to 14 months, beginning with kick-off meetings and an existing community conditions report. Teska will guide public engagement throughout the project, from workshop meetings and online interactive resources to stakeholder outreach and distribution of materials. Teska will document progress of the comprehensive plan update as well as oversee a project website. A draft and final plan will be presented to the Plan Commission and Village Board for final approval. Section 13-3-6 of the Development Control Ordinance ('DCO') tasks the Plan Commission with preparing, recommending, and updating the comprehensive plan, as well as advising the Village Board on its implementation and completion of projects identified in the plan.

Attachment

---

1. Resolution - A Resolution Approving and Authorizing the Execution of a Vendor Contract for the Goods, Supplies and Services Between the Village of Western Springs and Teska Associates, Inc. for the Preparation of an Update to the Village of Western Springs Comprehensive Plan.

Financial Impact

The proposal estimate is $100,000. Funds have been budgeted for fiscal year 2026. Teska Associates, Inc. will not exceed with the fiscal year 2026 budgeted amount.

Recommended Motion

I move to approve the resolution executing the vendor contract with Teska Associates, Inc. for the update of the Village Comprehensive Plan.

Strategic Plan Alignment

Community Planning and Economic Development.

1. Resolution

RESOLUTION NO. 26-_____
VOTE:
AYES: _____
NAYS: _____
ABSENT: _____
ABSTAIN: _____
DATE: January 26, 2026
OTHER: None.

A RESOLUTION APPROVING AND AUTHORIZING THE EXECUTION OF A VENDOR CONTRACT FOR GOODS, SUPPLIES AND SERVICES BETWEEN THE VILLAGE OF WESTERN SPRINGS AND TESKA ASSOCIATES, INC. FOR THE PREPARATION OF AN UPDATE TO THE VILLAGE OF WESTERN SPRINGS COMPREHENSIVE PLAN

WHEREAS, the President and Board of Trustees of the Village of Western Springs (the "Village Board" or "Village") and Teska Associates, Inc. (the "Consultant") desire to enter into a Vendor Contract for Goods, Supplies and Services for the Preparation of an Update to the Village of Western Springs Comprehensive Land Use Plan Update (the "Contract"), a copy of which is attached hereto as **Exhibit "A"** and made a part hereof; and

WHEREAS, the Contract relates to the provision of certain consulting services by the Consultant for the completion of a Comprehensive Plan Update for delivery to and use by the Village ("Services"). The Services are set forth in more detail in the Contract (**Exhibit "A"**) as well as on the Consultant's Proposal ("Proposal"), a copy of which is incorporated as an attachment to the Contract; and

WHEREAS, as set forth in the Contract, the Consultant's fee to perform the Services is a "not to exceed fee" of $100,000.00. The Consultant's fee will be paid with Village General Funds or such other funds that are eligible to spend on this Project; and

WHEREAS, on January 7, 2026, the Planning and Zoning Committee (the "Committee") conducted an open, public meeting and reviewed the terms of the Contract and the Proposal and received input from the Village staff, and provided an opportunity for public input on the matter, and then the Committee recommended that the Village Board approve the Contract; and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Contract, the Proposal and the Committee's recommendation, and received input from the Village staff and provided an opportunity for public input on the matter. At its January 26, 2026 meeting, the President and Board of Trustees of the Village of Western Springs accepted the Committee's recommendation to approve and enter into the Contract; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10(a) (Intergovernmental Cooperation) of the Constitution of the State of Illinois of 1970 and the Intergovernmental Cooperation Act (5 ILCS 220), to approve and enter into the Contract, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to enter into the Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2. Approval and Execution of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of the attached Contract with Teska Associates, Inc., substantially in the form attached hereto as **Exhibit "A"**, with certain non-substantive and non-financial changes as may be approved by the Village Attorney. In addition, the Village Board authorizes and directs the Village President and Clerk, or their designees, to execute the final version of the Contract, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and further authorizes and directs the President and Clerk, or their designees, to execute such other documents as are necessary to fulfill the Village's obligations under the Contract.

SECTION 3. Approval of Financial Obligations and Other Necessary Actions. The President and Board of Trustees further approve and authorize the expenditure of Village funds and/or other available funds to pay for the Village's financial obligations under the Contract, and also authorize and direct the Village Manager and the Village Attorney, or their designees, to take all necessary actions to comply with the Village of Western Springs' obligations under the attached Contract.

SECTION 4. Delivery of Signed Documents. The President and Board of Trustees of the Village direct the Village Clerk's Office to forward a certified copy of this Resolution and a fully executed copy of the Contract to the Consultant for record retention purposes.

SECTION 5. Effective Date. This Resolution shall be in full force and effect from and after its adoption and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, on a roll call vote at a Special Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President on the same day.

Exhibit "A"

A Vendor Contract For Goods, Supplies And Services Between The Village Of Western Springs And Teska Associates, Inc. For The Preparation Of An Update To The Village Of Western Springs Comprehensive Plan

Exhibit A

VENDOR CONTRACT

VENDOR CONTRACT FOR
GOODS, SUPPLIES AND SERVICES
(Contractor: Teska Associates, Inc.)

This Vendor Contract for Goods, Supplies and Services (the "Contract") is entered into between the Village of Western Springs, an Illinois municipal corporation (the "Village"), and Teska Associates, Inc. (the "Vendor"), and is dated as of _____, 2026. The Village and the Vendor are at times referred to below individually as a "Party" and collectively as the "Parties".

IN CONSIDERATION of the mutual promises, performance of certain obligations and payment of financial consideration by the Parties, as set forth below and in the attachments to this Contract, the Vendor agrees to provide the goods and supplies and/or perform the services, collectively defined as "Work" below, and the Village agrees to pay for the Work as set forth in this Contract.

1. **Contract.** This Contract shall incorporate and include the following exhibits:
   - **a.** Vendor's Invoice, Purchase Order or Agreement, or similarly titled document, (the "Invoice/Purchase Order/Agreement"), which describes the certain goods, supplies and services to be performed, provided, delivered, supplied and/or installed by the Vendor (the "Work") for the benefit of the Village, which is dated November 3, 2025, (Invoice or Purchase Order No. _____ or Agreement), and a true and correct copy of said Invoice/Purchase Order/Agreement is attached hereto as **Exhibit "1";** and
   - **b.** Rider to Contract (General Provisions), which is attached hereto as **Exhibit "2"** and which contains certain "General Provisions" that constitute additional terms and conditions applicable to this Contract and to the Parties.

2. **Incorporation of Exhibits; Priority of Documents.** The Exhibits attached to this Contract are incorporated herein and made a part of this Contract. Where there is a conflict or inconsistency between the language in this Contract and any Exhibit, the language of this Contract shall supersede and control, but only to the extent that the language in this Contract is more restrictive in that it provides the Village with greater protections and/or benefits. Where there is a conflict or inconsistency between the language in **Exhibit "1"** (Invoice/Purchase Order/Agreement/Agreement) and **Exhibit "2"** (Rider to Contract - General Conditions), the language of **Exhibit "2"** (Rider to Contract - General Conditions) shall supersede and control, but only to the extent that the language therein is more restrictive in that it provides the Village with greater protections and/or benefits.

3. **Provision of the Goods, Supplies, Equipment and/or Services.** The Vendor agrees to perform, provide, deliver, supply and/or install all of the goods, supplies and/or services as set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "1".**

4. **Payment to Vendor.** Provided that the Vendor performs in accordance with the terms and provisions of this Contract, the Village agrees to pay the Vendor for the goods, supplies and/or services at the stated prices and pursuant to the payment schedule (if any) set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "1"** or as set forth below in this Section 4; however, the financial payments and any penalties associated with late payments due under this Contract shall be paid by the Village only in accordance with the Local Government Prompt Payment Act (50 ILCS 505/).

    a. The following **Alternate Payment Schedule** has been agreed to by the Parties: ***NOT APPLICABLE.***

        i. _____ % payment of the Total Contract Price payable to the Vendor at the time of execution of this Contract or the date of the Notice to Proceed;

        ii. _____ % payment of the Total Contract Price payable to the Vendor upon written proof from the Vendor and Village verification of completion of 50% of the Work;

        iii. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 75% of the Work; and

        iv. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 90% of the Work; and

        v. 10% of the Total Contract Price held by the Village as retention and payable to the Vendor upon written proof from the Vendor and Village verification of completion 100% completion of the Work. Depending on the type of Work, partial and final lien waivers may be required by the Village in order to release payments.

5. **Notice to Proceed With the Work.** The Vendor shall commence the Work under this Contract only upon issuance of written Notice to Proceed from the Village delivered to the Vendor and shall complete the Work within four hundred and fifty-five **(455) calendar days** from the date of the Notice to Proceed or as otherwise stated in the Vendor's Invoice/Purchase Order (the "Completion Date").

    a. The Vendor shall diligently and continuously work on the Work until the completion of the Work or upon the termination of this Contract, but in no event later than the Completion Date. The Parties may mutually agree in writing to modify the Completion Date. Delays caused by the Village shall extend the Completion Date in equal proportion to the delay caused by the

Village. In the event that the Vendor performs any Work and incurs any expenses in furtherance of the Work prior to receiving a written notice to proceed from the Village in regard to the Work or any phase of the Work, the Work performed and the expenses incurred are at the Vendor's sole risk, and such Work and expenses are not authorized for payment or reimbursement, unless and until a written notice to proceed is issued by the Village. The actual, documented Work performed prior to the issuance of the Village notice to proceed shall be paid by the Village as part of the "not to exceed" Fee provided by this Contract.

b. Suspension of Work. The Village, at any time and for any reason, may suspend work on any or all Work by issuing a written work suspension notice to the Vendor. The Vendor must stop the performance of all Work within the scope of the suspension notice until the Village directs the Vendor in writing to resume performance of the Work.

c. Phasing of Scope of Work. The Vendor shall not commence performance of the Work on the initial phase or any subsequent phase of the Scope of Work, unless it first receives a written Notice to Proceed from the Village Representative. In the event that the Village decides not to proceed with the Work or any subsequent phase of the Work for any reason, this Contract shall terminate upon written notice to the Vendor issued by the Village advising of the termination of this Contract. In such case, the Village shall be liable to the Vendor only for payment of all actual, completed, documented Work, based on a prorated value of the contract price or the actual amount of quantities of deliverables or completed work if the contract pricing is based on unit pricing, through the date of termination. The Vendor agrees to waive any and all claims and causes of action for any other damages or losses of any kind that could be brought relative to the termination of this Contract by the Village based on the Village's decision not to proceed with the Work or any phase of the Scope of Work. The Vendor understands and agrees that funds for payment of each Phase of the Work and the Work related thereto are subject to the availability of an annual or periodic appropriations for this purpose by the appropriate federal or State agencies or the Village. In the event of non-receipt of funds marked for appropriation for this Work from the appropriate State agencies or nonappropriation of funds by the Village for the work and Work to be provided under this Contract, the Village will either not authorize the Vendor to commence the next Phase of the Work or, if a Phase has been commenced, this Contract shall be terminated, without termination charge or responsibility for or obligation to the Vendor or for damages or other liability beyond the payment of all actual, completed work and Work that conform to the approved plans through the date of termination. If at any time funds are not appropriated for the continuance of this Contract, cancellation shall be accepted by the Vendor on thirty (30) days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated

under this Contract beyond the date of termination. For the purposes of this Contract, the phases for the Work are set forth in **Exhibit "1".**

d. Reporting; Delivery Date of Final Report. The Vendor shall regularly, and no less than bi-weekly, provide both written and verbal reports to the Village Manager to the Village and to any other Village staff or officials upon request regarding the progress of the Work. The Village Manager can require more frequent reporting by the Vendor at any time. Upon final completion of the Work, the Vendor shall deliver a final written report addressed to the Village and with copies delivered to the Village Manager that confirms the completion of the Work (the "Final Report"). The Final Report shall be completed and delivered to the Village on or before the Completion Date.

e. Electronic Reporting. In addition to providing the Village with paper copies of all reports, data or results and the Final Report, the Vendor (and the Primary Representative) shall, to the extent possible, submit documentation regarding the Work to the Village electronically. The Parties agree to work together to develop a procedure for electronic communication of data that is effective and efficient for all Parties.

f. Final Acceptance. The Work, or, if the Work are to be performed in separate phases, each phase of the Work, shall be considered complete on the date of final written acceptance by the Village Manager of the Work or each phase of the Work, as the case may be, which acceptance shall not be unreasonably withheld or delayed.

6. **Independent Contractor Status; Reporting.** The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. **To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.**

7. **Effective Date.** After this Contract has been signed by the Vendor, this Contract shall be approved by the Village Board and deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

SIGNATURE PAGE TO FOLLOW

IN WITNESS WHEREOF, the signatories below, pursuant to properly issued authority, have signed this Contract, which shall become effective on the date that the Village President or Village Manager signs this Contract.

Scope of Work

Phases at a Glance

Phase 1: Kick-off & Existing Conditions

Duration: Four months

An implementable, effective, and tailored comprehensive plan requires a sound foundation of data, input, and community priorities. Phase 1 of the Western Springs Comprehensive Plan will focus on expanding the team's present experience in and knowledge of the Village. Teska's previous work within the Village will allow for cost savings and efficiencies during this process, affording the planning team an opportunity to dig deeper into the data and better focus discussions with stakeholders and committees.

This will establish an updated understanding of Western Springs and acquire information to develop the plan. This includes information related to land uses, real estate markets, development and transportation trends, infrastructure capacity, Village policies from past plans, etc. It will also include a reasonable projection of community needs over the implementation period of the plan to ensure Western Springs is planning realistically for its future.

Task 1.1: Kick-off Meeting with Staff

Conduct project kickoff and community tour. Establish protocols for meetings and communications. Assist in Steering Committee selection. Discuss preferred engagement strategies, current challenges and opportunities, data expectations and needs, scheduling, project management.

Task 1.2: Kick-off meeting with Steering Committee

Facilitate a meeting with Comprehensive Plan Steering Committee to review scope of services and the comprehensive plan update objectives. The primary purpose of the meeting will be to workshop with the group about the Village's past, present, and future, seeking initial input from the Committee to inform subsequent plan steps.

Task 1.3: Public Engagement Plan

Customize a public engagement program to Western Springs that outlines communications and outreach activities, timing, events, and individuals/groups to involve throughout the process. The plan will be reviewed and refined with Village staff.

Task 1.4: Existing Conditions Report

Prepare presentation summary of team's analysis of existing conditions with key findings and questions to answer in the plan update. Draft shared with Village staff and revised as needed. Topics to be included:

- **Existing Village plans:** Review existing studies, and ordinances.
- **Demographics and market data:** Evaluate Census, Esri Business Analyst, and Moody's Commercial Real Estate data to identify demographic and market trends. See Task 1.5: Market Assessment for additional information on market components.
- **Environment & Sustainability:** Collect existing natural resources and features, tree canopy coverage, flood susceptibility, and inventory of existing Village sustainability programs.
- **Housing:** Assess the age, structural, value and occupancy characteristics of existing housing stock, within the Village's distinct neighborhoods.
- **Land Use & Community Design:** Compile existing land use, vacant land and opportunity sites, existing development regulations, physical conditions using Nearmap aerial imagery to understand neighborhood design, building and siting characteristics, off-street parking areas, and commercial districts. Institutional sights will be inventoried.
- **Open Space:** Review environmental, community facilities, and open space information, review of Park District facilities and plans.
- **Transportation:** Consider transit ridership and regional plans, roadway performance, bike/pedestrian access conditions, crash records from IDOT and results of the Village's newly approved Comprehensive Capital improvement Plan.

Task 1.5: Market Assessment

Build on existing quantitative and qualitative findings from the Downtown Market Assessment and refresh data related to commercial, residential, and office market data (trends, age distribution, educational levels, income levels, employment characteristics, major employers, retail and office market trends, competitive commercial districts, analysis of retail spending power to attract investment). Develop understanding of Village wide and business district market potentials and types of businesses most appropriate for those areas, based on data evaluation.

Building on Market Knowledge

Teska understands that a market assessment is more than just charts and tables, but it is a process that involves both quanitative data and qualitative sentiments. As part of the market assessment for Western Springs' downtown, Teska analyzed parking regulations in and around the Village's central district to determine its role in supporting downtown businesses (pictured at right). This holistic approach to markets and development will be the standard for analysis of other business districts in Western Springs.

Task 1.6: Steering Committee Meeting #2

Present Existing Conditions Report to Steering Committee and solicit feedback for revisions prior to posting to website for public comment. Report includes preliminary goals, objective, and vision statement to focus plan making tasks. Facilitate interactive activity to develop community vision.

Task 1.7:Village Board Update

Present findings of data analysis and initial public engagement to Village Board and receive their feedback. Other Village boards and commissions are invited to participate.

Phase 1 Deliverables

Public Engagement Plan

Steering Committee 1 & 2 Materials

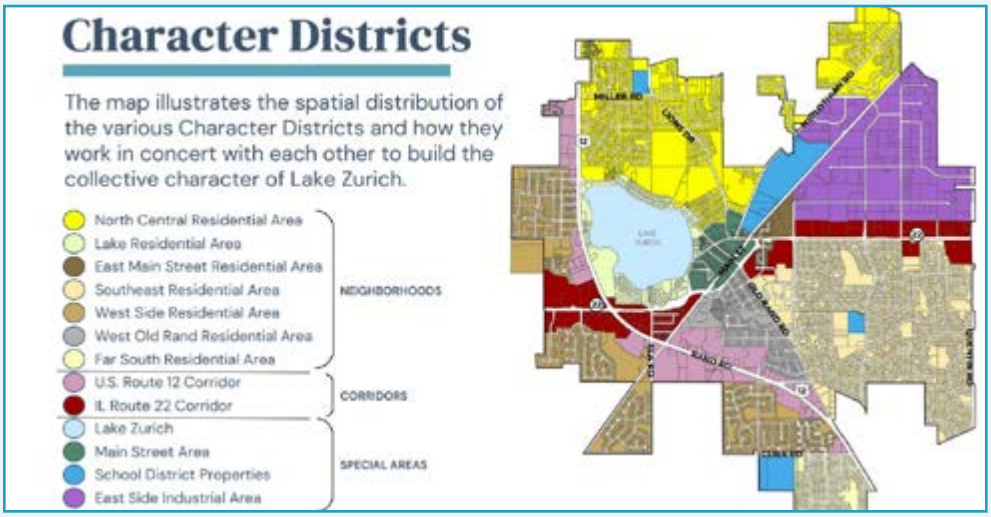

Existing Conditions Report

Market Assessment

Existing Conditions Data Visualization

Our team will develop clear, accessible maps and graphics to illustrate complex findings from the existing conditions analysis. These easy-to-digest visuals will spark conversation, deepen understanding, and ensure that plan recommendations for Western Springs are not only data-driven, but also transparent and approachable for all who engage with the planning process.

Pictured at right: selections from Lake Zurich Comprehensive Plan's Community Conditions Report

Phase 2: Public Engagement & Visioning

Duration: Four months (Visioning), Twelve months (ongoing community engagement)

Though engagement is the second phase of the proposed scope, all of Teska's plans incorporate engagement opportunities at every stage from the project kick-off to the final adoption. Initial engagement activities (visioning) will be focused on developing a consensus-based Village-wide vision based on community values and aspirations, the quintessential traits of Western Springs, and the bounds of practical development and market feasibility. This vision will serve as a north star to guide future planning, design, and policy recommendations.

Documents throughout the process, such as the Existing Conditions Report, Preliminary Recommendations, and Draft Plans, will serve as project milestones, allowing the public to follow the process and providing transparency. Community input will be solicited at each milestones in various forms, including open houses, an online survey, and the other in-person and online forms of engagement. A plan website will be maintained throughout the process as a "one-stop shop" for residents to learn about the process, share ideas 24/7 on a comment map and/or ideas wall, and stay updated by subscribing to the website. Maintaining these ongoing lines of communication will ensure community voices are heard, helping build community ownership of the process and the ultimate plan.

Task 2.1: Project Branding

Develop unique project brand to identify the plan and process. Print project postcards for distribution across the Village to spread the word about the planning process.

Task 2.2: Stakeholder Interviews

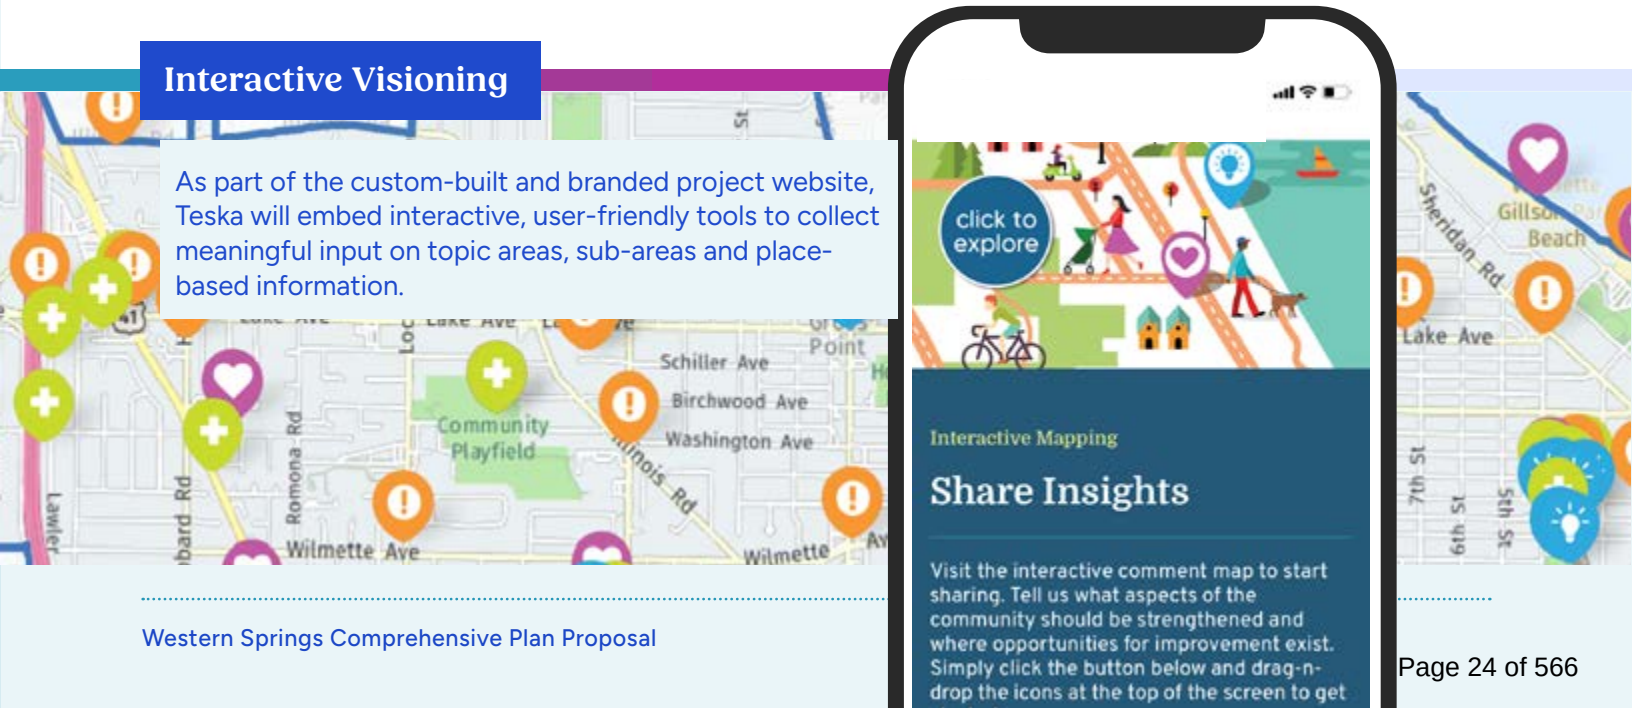

Work with Village officials to identify a broad cross-section of stakeholders consisting of Village residents, businesspeople, leaders, and partner governmental institutions and agencies. Schedule and conduct group interviews with participants based around their relationship to the Village.

Task 2.3: Project Website

Create project website that incorporates the project brand. The project website will include key engagement tools, including a comment map and ideas wall. The website will include pages for frequently asked questions and background information, relevant planning documents and interim files throughout the process, and a "News" page that will be regularly updated as project milestones are reached or as engagement opportunities are announced.

Interactive Visioning

As part of the custom-built and branded project website, Teska will embed interactive, user-friendly tools to collect meaningful input on topic areas, sub-areas and place-based information.

Task 2.4: Pop-up

Coordinate with Village to operate a pop-up table at a community event (such as the French Market) to spread the word about the plan and solicit initial feedback to guide the community vision.

Task 2.5: Community Open House & Workshop

Schedule and promote an interactive, accessible in-person open house. Present Phase 1 findings (including feedback and data) to develop a community vision. Held early in planning process, input will inform development of a plan vision for the future.

As part of the open house, we also propose a "village building" activity targeting the Wolf Road/55th Street and Gilberts/Willow Springs subarea (downtown opportunity sites can also be included, should the Village desire), allowing residents to place desired land uses on basemaps in an engaging, real-life version of the game Sim City. See project example below for more information.

Task 2.6: Draft Plan Open House

Schedule and promote a second interactive open house (at the end of Phase 3) focused on major preliminary recommendations in the draft plan. Solicit community feedback on the appropriateness of central recommendations and preliminary subarea concept plans.

Phase 2 Deliverables

Project Postcards

Pop-up Materials

Stakeholder Interview Summary

Project Website

Open House Materials

Democratizing Development Concepts

As part of our community engagement effort, we will coordinate a "village building" workshop as part of the first community open house. This engaging and interactive activity allows for focused discussion of community land use and development preferences with scale model building blocks. Such an activity may be held on-site at the Garden Market shopping center or other community facility.

Phase 3: Draft Plan

Duration: Five months

Building on findings of data analysis and community visioning process, Phase 3 transforms the community vision into recommended actions through development of as integrated planning framework. Work in this phase will identify redevelopment, housing, and economic development opportunities, suggest how to strengthen Western Springs' distinct identity with design, offer placemaking strategies, and shape a multimodal mobility network. Draft development concepts will be created for subareas identified in the RFP based on economic development potential and alignment with local priorities and markets. Through a series of collaborative work sessions with Village officials, meeting with the Steering Committee, and an engaging community workshop, ideas will be presented and refined into a draft plan.

Task 3.1: Land Use and Subarea Strategies

Prepare Village-wide and district-specific draft land use recommendations and implementation strategies. District recommendations will focus on the Downtown, Gilbert/Willow Springs and Wolf Road/55th Street subareas. Planning and development criteria for potential infill sites will be developed.

Task 3.2: Economic Development and Housing Strategies

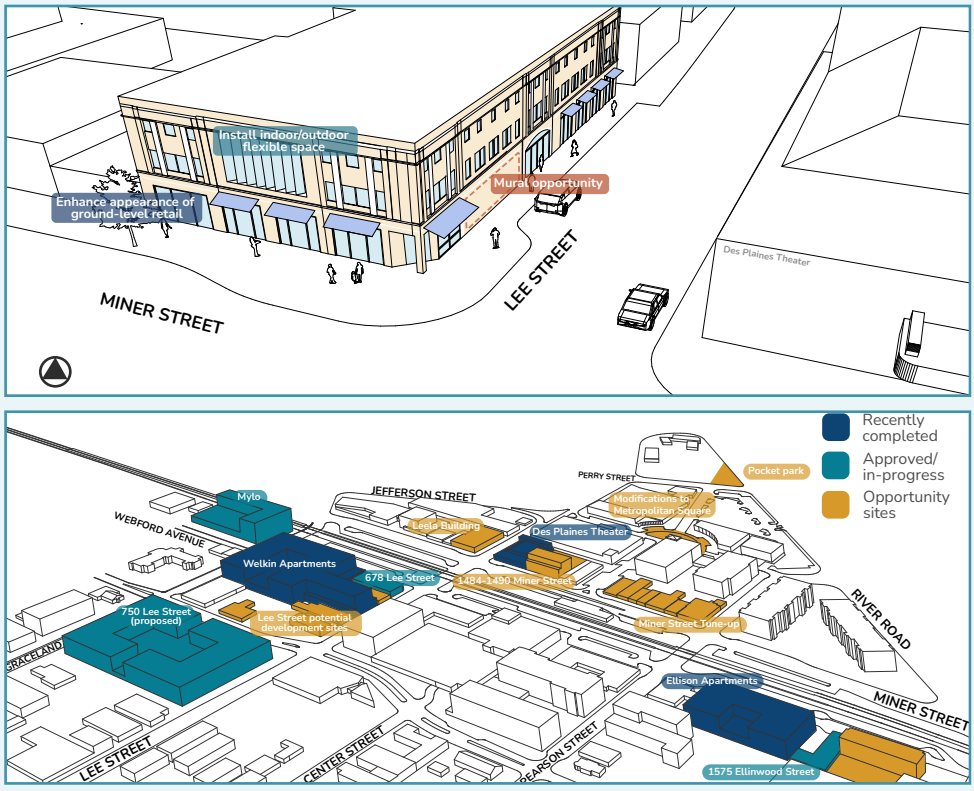

Prepare a series of economic development strategies based on the community vision, real estate market trends and indicators, and community expectations. Special attention will be paid to the enhancement of the downtown area, commercial nodes, and potential redevelopment opportunities at institutional sites. Strategies to achieve Village housing goals, infill development, housing affordability, and diversity of housing stock will be established.

Advancing Plan Goals Through Site-Specific Recommendations

Teska led development of the Des Plaines Downtown Development Strategy, which focused on developing policies, development and design parameters, and prioritizing financial incentives to spark the reinvestment of key opportunity sites.

The Downtown Development Strategy prioritized retaining and attracting local businesses while fostering mixed-use development that fit the character of the community.

Pictured at right: Downtown Des Plaines Development Strategy

Task 3.3: Community Character Strategies

Develop initial strategies for the continued enhancement of Western Springs' distinct character, including residential areas, gateways, business districts and open space. Task will also provide recommendations for design guidelines related to multi-family development, residential planned developments, and downtown commercial redevelopment aimed to reinforce the look and feel of the community that has been cultivated over its 150-year history.

Task 3.4: Multimodal Transportation Strategies

Identify key locations in the Village to improve multimodal transportation access and connectivity. Policies and treatments to facilitate a safe transportation network for all ages and abilities will be created as part of this task.

Task 3.5: Environmental and Sustainability Strategies

Analyze efficacy of existing Village sustainability efforts and policies and set forth preliminary recommendations to prioritize existing policies and recommend others.

Task 3.6: Draft Recommendations Report

Prepare a draft recommendation report outlining key plan strategies outlined in tasks 3.1-3.5. Recommendations will be workshopped with Village staff prior to being reviewed with the Steering Committee and at the second community open house.

Task 3.7: Steering Committee Meeting #3

Present Draft Recommendations Report to Steering Committee and conduct interactive consensus-building activity.

Task 3.8: Village Board Update

Present Draft Recommendation to Village Board and receive their feedback. Other Village boards and commissions invited to participate.

Phase 3 Deliverables

Draft Recommendations Report

Steering Committee Meeting 3 Materials

Phase 4: Final Plan & Adoption

Duration: Two months

Feedback from the Steering Committee and Second Open House will be incorporated into a final, formatted plan document for the Village. This document will be reviewed by staff and the Steering Committee before being presented to the community for their review and comment. The plan document will then be presented to the Plan Commission at a public hearing for recommendation to the Village Board for adoption.

Task 4.1: Initial Plan Document

Compile all findings and recommendations in to a formatted, accessible, and graphically-engaging plan document. Draft will be provided for staff review prior to being reviewed with the Steering Committee.

Task 4.2: Steering Committee Meeting #4

Present key plan contents and discuss refinement ahead of public hearing.

Task 4.3: Plan Commission Public Hearing

Present revised plan (incorporating staff, Steering Committee, and public feedback) to Plan Commission for recommendation to Village Board. (Consultant will be available for two meetings)

Task 4.4: Village Board Adoption

Present final plan to the Village Board of Trustees for adoption.

Task 4.5: File Transfer

Provide final plan as electronic document (PDF and Word formats) to Village, as well as all relevant data and interim documents.

OPTIONAL TASK: Online Plan (via StoryMaps)

Develop and host online, interactive version of the plan.

Tasked with a creating an engaging, interactive, and user-friendly plan, Teska developed an online plan in tandem with a traditional print plan for Glencoe. This online format also allows for flexibility in promoting key aspects of the plan and implementation efforts. **Click here** to view the online plan or scan the QR code below.

Project Timeline

We propose a 12-month timeline to complete the scope of work. Our approach is structured for steady progress, with regular bi-monthly check-ins with staff to ensure transparency, track milestones, and adjust as needed. The timeline is flexible and can be refined in collaboration with the Village, as desired.

Exhibit "2"
Rider to
Vendor Contract for Goods, Supplies and Services
(General Provisions)

1. **Authority.** The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

2. **Taxes, Benefits and Royalties.** Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

3. **Compliance With Laws.** The Vendor represents and warrants that it will comply will all applicable Federal, State and local laws concerning prevailing wage rates and all Federal, State and local laws concerning equal employment opportunities and its performance of this Contract.

4. **Bonds; Prevailing Wage Act.** If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate upon completion of the Work, but shall be reduced to ten percent (10%) of the Contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of issuance of the final payment by the Village. All performance and material bonds provided by Contractor under the terms of this Contract shall include such provisions as will guarantee the faithful performance of the contractor's obligations under this Section and under all applicable Federal, State and local laws concerning prevailing wage rates, including the Illinois Prevailing Wage Act, 820 ILCS 130/. The Contractor and its subcontractors shall comply with the reporting requirements of the Prevailing Wage Act and the Davis Bacon Wage Act throughout the duration of this Contract.

5. **Payment and Liens.** If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the Work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all

required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total Contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

6. **Successors/Assigns.** This Contract shall enure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the Parties hereto. This Contract and the obligations it imposes upon the Vendor are not transferable by Vendor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

7. **Severability.** In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

8. **Entire Agreement.** This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

9. **Litigation, Venue and Governing Law.** The Parties agree that, for the purpose of any litigation relative to this Contract and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois or the United States District Court located in Chicago, Illinois, and the Parties consent to the jurisdiction of said Courts for any such action or proceeding. This Contract, and all questions of interpretation, construction and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois.

10. **Applicable Laws and Regulations.** The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to

the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:

a. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in this Contract to be entered into; that this Contract is made without connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.
b. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is it delinquent in the payment of any money owed to the Village.
c. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
d. The Vendor complies with the Illinois Drug Free Work Place Act.
e. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.
f. The Vendor complies with the Americans with Disabilities Act.
g. The Vendor states that any Work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all **applicable** Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
h. The Vendor also agrees to require any subcontractor doing Work under this Contract to agree to adhere to the requirements of this Section 10.

11. **Waiver.** The waiver of one Party of any breach of this Contract or the failure of one Party to enforce any provision hereof shall be limited to the particular instance and shall not operate to bar or be deemed a waiver of enforcing against other or future breaches.

12. **Time.** Time is of the essence with the performance of the Work covered by this Contract; however, the Vendor shall perform the Work in accordance with the terms and provisions set forth in the attached **Exhibit "1".**

13. **Guaranties, Warranties and Representations.** The Vendor warrants and represents as follows:
    a. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.
    b. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.
    c. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.
    d. It is authorized to sell and install the goods, supplies, equipment and/or services.
    e. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.
    f. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.
    g. In addition to any other third-party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.
    h. The Vendor shall maintain a current, valid Village business license, and the Vendor shall post with the Village and keep on file and in force for the duration of this Contract a contractor's license bond in the amount required by the Village Code.

14. **Insurance.**
    a. **Insurance – Village.** The Village will not provide any form of insurance coverage, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability insurance, errors and omissions insurance, or professional liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract.

b. **Insurance – Vendor.** The Vendor, at its own cost, shall provide all of its own insurance coverages as applicable to the Work being performed, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability and property insurance, errors and omissions insurance or professional liability insurance, employment practices liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract. The insurance coverages shall be written on the comprehensive form and as an "occurrence" policy. The minimum dollar amount of annual coverage for the general liability and property insurance, errors and omissions insurance or professional liability insurance and employment practices liability insurance shall be mutually agreed to by the Village Manager and the Vendor in writing, but in no case shall such dollar amount of coverages be less than:

   i. Comprehensive General Liability – $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate
   ii. Umbrella Coverage – $1,000,000.00
   iii. Property Damage – $500,000.00 per occurrence
   iv. Automobile Coverage - $1,000,000.00 per occurrence
   v. Errors and omissions insurance or professional liability: TBD by Village Manager
   vi. Workers' Compensation – Statutory

   [adjustments to be made to the insurance coverage amounts based on type of use, in the Village Manager's discretion]

The Vendor shall furnish certificates of insurance, with premiums paid in full, prior to the Effective Date of this Contract, copies of which are incorporated herein and attached hereto as **Exhibit "3"** and made a part hereof. A copy of certificate(s) of insurance, insurance policies and endorsements shall contain the insurer(s) written confirmation that the nature, scope, duration and amount of insurance coverage meets the requirements of this Contract and shall remain in effect for all aspects of the Work for both ongoing and completed operations. The Vendor agrees to have the Village of Western Springs and its officers, appointed and elected officials, President and Board of Trustees, employees, volunteers, attorneys, engineers and agents (the "Village Affiliates") expressly named as additional insureds on its insurance policies, in its endorsements and on its certificates related to the operation of the Special Event for the purposes stated herein. The Village shall have the right to approve the coverage and the carrier, which approval shall not be unreasonably withheld. All Certificate(s) of Insurance, insurance policies and endorsements shall contain the following endorsement: "Should any of the above-described policies be canceled before the expiration date thereof, the issuing company shall serve thirty (30) calendar days prior written notice to the Village."

The Vendor's policy or policies of insurance shall specifically recognize and cover the indemnification obligations under this Contract. Said insurance shall provide that the insurance provided by the Vendor shall be primary to the Village's own insurance and that any provision of any contract of insurance or other risk protection benefit or self-insurance policy purchased or in effect or enacted by the Village and any other insurance

or benefit of the Village shall be in excess of the Vendor's insurance. In the event of the cancellation of any insurance policy required herein, or upon the Vendor's failure to procure said insurance, the Village shall have the right to immediately terminate this Contract. The Vendor and its insurer(s) agree to waive any right of recovery of any kind, including the waiver of subrogation rights, they may have against the Village or its Affiliates because of any financial payments made to any person as a result of the indemnification / hold harmless / defense provision and the additional insured requirement under this Contract. The insurance policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest in the property damaged. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 14 shall survive the termination of this Contract.

15. **Indemnification.** To the fullest extent permitted by Illinois law, the Vendor shall indemnify, defend and hold harmless the Village and each of its officers and officials, agents, attorneys, employees, engineers, volunteers and representatives (collectively, the "Village Affiliates") from all claims, demands, lawsuits, actions, costs (including litigation expenses and Village attorney fees and any award of prevailing party attorney fees assessed against the Village or the Village Affiliates) of any kind, caused by, resulting from, arising out of or occurring in connection with the Vendor's performance of the Work under this Contract, but only to the extent caused by the negligent act, misconduct or omission of the Vendor or anyone or entity directly or indirectly employed by the Vendor for whose acts Vendor may be liable.

    Waiver and Assumption of Liability. The Vendor assumes all liability for personal injuries or illness of any kind or death that might occur to itself while acting under this Contract. The Vendor assumes all liability and responsibility for its personal property while performing any Work under this Contract. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 15 shall survive the termination of this Contract.

    No Personal Liability. No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

16. **Default and Termination.** This Contract is subject to termination by the Village or the Vendor upon forty-eight (48) hours prior written notice should the other Party fail to perform its obligations hereunder. The written notice of default shall specify the nature and type of default and shall be delivered to the alleged defaulting Party at the address listed below. The Party in default shall have twenty-four (24) hours within which to cure

the default. In the event of any termination by the Village, the Vendor will be paid for all actual services rendered, which are accepted by the Village as being in conformance with this Contract, through the date of termination. In the event of termination of this Contract by the Village for nonperformance by the Vendor, the Village shall not be obligated to pay for any of the equipment or professional services or other related costs and expenses of the Vendor that relate to that portion of this Contract that the Vendor fails, refuses or is unable to perform or complete. In the event of default or termination for nonperformance, the Village reserves all of its legal rights and remedies to seek damages of any kind from the Vendor, and no provision limiting liability or damages found elsewhere in this Contract or in **Exhibit "1"** shall be valid or enforceable.

17. **Notice.** All notices required to be delivered hereunder shall be in writing and shall be deemed sufficient if: (a) personally delivered, (b) sent by facsimile, (c) sent by a nationally recognized overnight courier, or (d) sent by certified mail, return receipt requested, postage prepaid and addressed to the Parties to this Contract at the addresses set forth below or at such other addresses as may be designated by the Parties in writing. Notices personally delivered and sent by overnight courier shall be deemed delivered on the date of receipt. Notices mailed by certified mail shall be deemed received on the date of receipt or refusal to accept delivery as evidenced by the return receipt. Notices served by facsimile machine shall also require that copies of the notice and proof of transmission be sent by regular mail on the date of transmission, and notice shall be deemed received on the actual date of receipt of the facsimile.

If to Village:

Current Business Address

18. **Independent Contractor**. The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining

to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (A) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (B) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

19. **Inspections By Village.** During the term of this Contract, the Village, or its designee, shall have the right at any time and from time to time to enter upon the Project site for the purpose of conducting such inspections in order to confirm that the Work is being performed in accordance with the terms of the Contract. In the event that the Village, or its designee, discovers a noncompliance matter or a defect or deficiency in the construction of the, the Project, the Village, or its designee, shall notify the Contractor thereof in writing within five (5) calendar days. Any such inspection by the Village, or its designee, shall not be construed as a representation by the Village, or its designee, that there has been compliance with the Contract Documents, this Contract or that the Project will be or are free of faulty materials or workmanship, or as a waiver of any right that the Village, or its designee, or any other party may have against the Construction, its agents or any subcontractors or any other party for failure to comply with the Contract Documents or the provisions of this Contract.

20. **FOIA Compliance.** Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor's possession and to provide the

requested public records to the Village within two (2) business days of the request being made by the Village. The Contractor agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Contract. The Contractor acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10).

21. **Open Book Project; Audit.** The Project will be an “open book” project, and the Village and the general contractor (or contractors, if more than one) will ensure access by the Village Superintendent, or their designee, upon request for the purpose of reviewing and auditing the Contractor’s or its subcontractors’ respective books and records relating to the Project.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 8.B.

To: Board of Trustees
From: Heather Valone, AICP, Director of Community Development , Kelsey Fawell, Senior Planner
CC: Ellen Baer, Village Manager, Casey Biernacki, Deputy Village Manager, Jeff Koza, Director of Engineering Services, Michael Jurusik, Village Attorney, Anne Skrodzki, Village Attorney
RE: (Previously discussed) PC 2025-04 – Village of Western Springs Community Development Department – Text Amendments to Title 6 (Police Regulations) and Title 10 (Development Control Ordinance) (Omnibus Item)

Recommendation

The Plan Commission reviewed this item at their meeting on October 28, 2025, and recommended approval of the proposed text amendments with modifications.

The Planning and Zoning Committee reviewed this item and the Plan Commission's recommendation at their meeting on November 18, 2025 and recommended approval of the Development Control Ordinance ('DCO') (Title 10) text amendments related to general development, residential, and commercial / mixed-use, as well as text amendments to the Police Regulations (Title 6) for single-family residential honey beekeeping. With respect to medical cannabis text amendments, the Planning and Zoning Committee directed staff to bring forward, for discussion, the option of establishing a medical cannabis overlay district as was discussed by the Plan Commission, along with the alternative recommended by staff.

The Village Board discussed the draft ordinances approving the DCO (Title 10) text amendments related to general development, residential, and commercial / mixed-use, as well Text Amendments to the Police Regulations (Title 6) for single-family residential honey beekeeping, at their meeting on January 12, 2026. The Village Board directed Village staff and the Village Attorney to finalize the ordinances for consideration. Regarding the proposed medical cannabis text amendments, the Village Board discussed the draft ordinance and proposed alternatives, and directed Staff and the Village Attorney to place the ordinance for additional discussion and consideration on the January 26, 2026, Village Board agenda.

Summary

The Community Development Department is proposing updates to revise portions of the DCO. The purpose of these proposed changes is to ensure that the regulations are consistent with current development practices and the Village Downtown Market Assessment. The proposed changes are categorized as follows: General Development, Residential, and

Commercial. A summarized list of amendments is as follows:

General Development (Chapter 8)

- Removal of references to “large-scale” development and minimum 5-acre area requirement for planned developments.

Residential

- Creation of an administrative adjustment policy for specific minor variations that could be approved by the Director of Community Development. Applicants would be required to notify nearby properties to allow for public comment. The minor variations proposed are as follows:
    - Replacement garage setbacks less than the required five feet, but not less than one foot from the property lines;
    - Six foot depth front porches;
    - A 100 square foot adjustment to building coverage;
    - A 100 square foot adjustment to gross floor area; and
    - In-line vertical/horizontal extension of an existing exterior wall, provided 1) the existing exterior wall does not encroach more than 10% into the required yard and 2) the extension may not encroach further into the required yard than the existing exterior wall.
- Exclusion of detached garages from maximum rear yard coverage on corner and reverse corner lots.
- Creation of requirements for single-family residential beekeeping, which requires updating Title 6 Police Regulations for animals to be in harmony with the DCO.
- Clarification of accessory use / structure regulations.
- Update to the gross floor area regulation.

Commercial

- Updates to commercial and mixed use district purpose statements.
- Updates to definitions related to commercial uses.
- Consolidation and creation of a permitted/conditional use table.
- Creation of requirements for mobile food vendors (e.g. commercial food truck)
- Creation of Downtown Pedestrian Overlay District:
    - As a result of the Village’s updated Downtown Market Study approved in February, staff are seeking revisions to the permitted uses for the properties within the core downtown area (the two blocks of Burlington Avenue between

Wolf Road and Grand Avenue and the two blocks of Hillgrove Avenue between Johnson and Lawn Avenues zoned C-1 and the property at the southeast corner of the intersection of Wolf Road and Burlington Avenue zoned MXD) (Figure 1).

Figure 1 The red outlines indicate C-1 zoned parcels. The pink outline indicates the MXD zoned parcel. The teal hatch indicates the parcels that are proposed in the Downtown Pedestrian Overlay District.

Medical Cannabis

In 2014, the State of Illinois required that all non-Home Rule municipalities allow for medical cannabis retail establishments in their zoning regulations. The Village placed a pause on defining how medical cannabis would be allowed. In 2019, the State legalized adult-use (recreational) cannabis sales, granting the existing 55 medical dispensaries early approval for recreational sales. Since 2019, all 55 medical-only dispensaries have begun to offer adult-use sales. No new medical licenses have been issued since 2019 and there are no medical-only dispensaries located in Illinois. With respect to recreational cannabis, the Village is allowed to opt-in or opt-out, unlike medical cannabis. Village staff is proposing text amendments to clarify that recreational cannabis uses are not permitted in the Village.

At their October 28, 2025 meeting, the Plan Commission discussed and recommended approval of an amendment creating a Restricted Business Overlay District, allowing medical cannabis as a conditional use for C-2 commercial properties within this district (near the intersection of Wolf Road and 55th Street). Following the Plan Commission meeting, Village staff is proposing that medical cannabis be a conditional use within the C-1, C-2, and O districts, only permitted after the operator has completed the process and obtained a conditional use permit. Also proposed are standards related to spacing from sensitive uses along with other certain restrictions to capture any externalities of the use. The proposed alternate amendment from what was discussed by the Plan Commission creates consistency and presents the requirements in a clearer, more accessible manner.

The Plan Commission reviewed and discussed the proposed text amendments and conducted a public hearing on October 28, 2025. The item summary report prepared by Village staff for the

October 28, 2025 meeting is available on the Village website [LINK]. At the public hearing, two members of the public were in attendance. One member of the public provided comments in support of residential beekeeping and the other member of the public attended with feedback on various amendments. The Plan Commission recommended approval of the text amendments with the minor modifications related to the draft language. The Plan Commission's recommendation with the minor modifications is available on the Village website [LINK]. The recommendation was drafted based on the October 28, 2025 meeting. Village staff revised the text amendments based on the Plan Commission's recommendation.

The Planning and Zoning Committee reviewed this item at their meeting on November 18, 2025, and recommended approval of the DCO text amendments related to general development, residential, and commercial. With respect to medical cannabis text amendments, the Planning and Zoning Committee directed staff to bring forward, for discussion, the option of establishing a medical cannabis overlay district as was discussed by the Plan Commission, along with the alternative recommended by staff. The item summary report prepared by Village staff for the November 18, 2025 meeting is available on the Village website [LINK]

The Village Board discussed the draft ordinances approving the DCO (Title 10) text amendments related to general development, residential, and commercial / mixed-use, as well as text amendments to the Police Regulations (Title 6) for single-family residential honey beekeeping, at their meeting on January 12, 2026. The Village Board directed Village staff and the Village Attorney to finalize the ordinances related to the DCO (Title 10) Police Regulations (Title 6) and medical cannabis for consideration. Regarding the proposed medical cannabis text amendments, the Village Board discussed the draft ordinance and proposed alternatives, and directed Staff and the Village Attorney to place the ordinance for additional discussion and consideration on the January 26, 2025 Village Board agenda. Attachment 1 contains the ordinance related to honeybee keeping within Police Regulations (Title 6). Attachment 2 contains the ordinance related to the DCO text amendments for residential, commercial, and planned developments. Attachments 1 and 2 are included in the omnibus portion of the agenda. **Attachment 3 contains the ordinance related to medical cannabis which is included in the Other Business portion of the agenda.**

AN ORDINANCE AMENDING TITLE 6 (POLICE REGULATIONS), CHAPTER 2 (ANIMALS) OF THE WESTERN SPRINGS MUNICIPAL CODE RELATED TO RESIDENTIAL HONEY BEEKEEPING.

WHEREAS, the President and Board of Trustees of the Village of Western Springs desire to make certain amendments to the regulations of Title 6 (Police Regulations), Chapter 2 (Animal) of the Western Springs Municipal Code of 1997, as amended, relating to the regulations for animals within the Village, set forth below (the "Code Amendments)"; and

WHEREAS, at an open, public meeting held on November 18, 2025, the Planning and Zoning Committee ("Committee") considered the Code Amendments set forth below, in conjunction with additional amendments to the Municipal Code, and voted to favorably recommend the Code Amendments to the President and Board of Trustees of the Village of Western Springs for final approval; and

WHEREAS, at open, public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village considered the Code Amendments set forth below, and further considered the input of the Committee and Village staff and provided the public with an opportunity for input regarding the Code Amendments, and at its January 26, 2026 meeting the President and Board of Trustees approved the recommendation of the Committee to adopt the Code Amendments; and

WHEREAS, the Village has a responsibility to ensure the health, safety, and welfare of the Village and its residents, and the regulation of animals within its jurisdiction is necessary to carry out this duty;

WHEREAS, the Village has the authority under the Municipal Code (65 ILCS 5/11-20-9) and the Illinois Animal Control Act (510 ILCS 5/24 *et seq*.) to regulate animals and to ensure the health, safety, and welfare of the Village and its residents; and

WHEREAS, pursuant to the authority of Section 11-20-9 of the Illinois Municipal Code (65 ILCS 5/11-20-9), and the Illinois Animal Control Act (510 ILCS 5/24 *et seq*.) and in accordance with the authority granted by Title 1 (Administration), Chapter 1 (Official Village Code), Section 1-1-3 (Amendments) of the Western Springs Municipal Code of 1997, as amended, the Presidents and Board of Trustees of the Village of Western Springs find that the adoption of the Code Amendments to be in the best interests of and in furtherance of the health, safety and welfare of the Village residents.

SECTION 1. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Ordinance.

SECTION 2. Title 6 (Police Regulations), Chapter 2 (Animals), Section 6-2-1 (Definitions) of the Western Springs Municipal Code is amended to add a new term "Bee", which shall be placed in

alphabetical order and shall read as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

> Bee: Any stage of the common domestic honeybee, limited to the *Apis mellifera* species, specifically excluding the African Honeybee, *Apis mellifera ssp scutellata* or Africanized Honeybees.

SECTION 3. Title 6 (Police Regulations), Chapter 2 (Animals), Section 6-2-17 (Prohibited Acts and Conditions), Subsection 6-2-17(E)) of the Western Springs Municipal Code shall be amended in its entirety as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

E. Keeping Certain Animals: No animal defined in this chapter as "livestock" or "wild game" shall be kept, stabled or harbored in the Village. Animals defined in this chapter as "poultry" shall be kept and maintained within the Village only in accordance with the regulations set forth at subsection 5-1-1N of this Code. "Bees" shall be kept and maintained within the Village only in accordance with regulations set forth in subsection 10-4-5 of this Code.

SECTION 4. Codifier to Make All Necessary Internal Amendments. To the extent necessary, all tables of contents, indexes, headings and internal references or cross-references to sections contained in the Western Springs Municipal Code shall be amended by the Village's codifier so as to be consistent with the amendments set forth in this Ordinance.

SECTION 5. Repeal of Conflicting Legislation; Severability; Validity of Non-Conflicting Legislation. All ordinances or parts of ordinances in conflict with this Ordinance are, to the extent of such conflict, repealed. Each section, paragraph, clause and provision of this Ordinance is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any part thereof, other than that part affected by such decision. Except for the Code Amendments set forth above in this Ordinance, all chapters and sections of the Municipal Code of the Village of Western Springs shall remain in full force and effect.

SECTION 6. Effective Date. This Ordinance shall become effective after its passage, approval and publication as provided by State law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the 26th day of January 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

AN ORDINANCE AMENDING TITLE 10 (DEVELOPMENT CONTROL ORDINANCE), CHAPTER 2 (DEFINITIONS AND RULES OF WORD USAGE), CHAPTER 3 (ADMINISTRATIVE BODIES AND PROCEDURES), CHAPTER 4 (DEVELOPMENT STANDARDS OF GENERAL APPLICABILITY), CHAPTER 5 (ZONING DISTRICTS), CHAPTER 7 (BUSINESS DISTRICT REGULATIONS), CHAPTER 8 (PLANNED DEVELOPMENTS), AND APPENDIX B (GROSS FLOOR AREA SUPPORTING DOCUMENTS) OF THE WESTERN SPRINGS MUNICIPAL CODE.

WHEREAS, the Village of Western Springs (the "Village") is a non-home rule municipality, having all of the powers and authority granted to such municipalities pursuant to Article VII, Section 7 of the Illinois Constitution of 1970 and applicable provisions of the Illinois Municipal Code, including the zoning authority granted under Division 13 of the Illinois Municipal Code (65 ILCS 5/11-13); and

WHEREAS, The Community Development Department of the Village has proposed certain amendments to the Village's Development Control Ordinance ("DCO" or "Zoning Code"), which is part of the Village's Municipal Code, relative to, but not limited to, creating definitions for commercial uses, an administrative adjustment approval processes, modifications to accessory structure requirements, regulations for single-family residential beekeeping and mobile food vending, updating purpose statements for business districts, creation of the Downtown Pedestrian Overlay District, creating a permitted and conditional use table for business districts, remove minimum area requirement for planned developments, removing decks from required gross floor area calculations, and related amendments (the "Code Amendments"); and

WHEREAS, on October 28, 2025, the Plan Commission conducted a public hearing relative to the Code Amendments pursuant to notice thereof given in the manner required by law, and, after considering all of the testimony and evidence presented at the public hearing, including input from Village staff and members of the public, the Plan Commission approved Report and Recommendation No. 2025-04 dated October 28, 2025 (the "Plan Commission Report and Recommendation"), which recommended approval with modifications of the Code Amendments; and

WHEREAS, at an open, public meeting held on November 18, 2025, the Planning and Zoning Committee considered the Code Amendments set forth below and voted to favorably recommend the Code Amendments to the President and Board of Trustees of the Village of Western Springs for final approval; and

WHEREAS, at open, public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village considered the Code Amendments set forth below, the recommendations of staff, and further received input from Village staff and offered an opportunity for public input relative to the Code Amendments, and at its January 26, 2026 meeting, the President and Board of Trustees of the Village accepted the findings and recommendations of the Planning and Zoning Committee and the Plan commission relative to the Code Amendments, and incorporated said findings and recommendations into this Ordinance by reference; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs have duly considered the findings and recommendations of the Plan Commission Report and Recommendation, and all of the materials, facts and circumstances affecting the Code Amendments; and

WHEREAS, pursuant to the authority granted under Division 13 of the Illinois Municipal Code (65 ILCS 5/11-13), the President and Board of Trustees of the Village of Western Springs approve the Code Amendments to the Municipal Code set forth below, and find the adoption of the Code Amendments to be in the best interests of the Village, its residents, property owners, business owners and the public.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Ordinance.

SECTION 2. Title 10 (Development Control Ordinance), Chapter 2 (Definitions and Rules of Word Usage), Section 10-2-2 (Definitions) of the Western Springs Municipal Code shall be amended in its entirety as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

10-2-2: Definitions:

ABANDONMENT: The complete or substantially complete discontinuance of a use, building or structure.

ACCESSORY BUILDING OR STRUCTURE: A subordinate building or structure located on the same lot with the principal building, occupied by or devoted to an accessory use, but not to be used for habitation. Where an accessory building is attached to the principal building in a substantial manner, as by a wall or roof, such accessory building shall be considered part of the principal building.

ACCESSORY USE: See Use, Accessory.

ACRE: A measure of land area equal to forty-three thousand five hundred sixty (43,560) square feet.

ADULT BOOK STORE: An establishment having as a substantial or significant proportion of its stock in trade books, magazines and other periodicals that are distinguished or characterized by their emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas.

ADULT CABARET: A nightclub, bar, theater, restaurant or similar establishment which frequently features live performances by topless and/or bottomless dancers, go-go dancers, exotic dancers, strippers, or similar entertainers, where such performances are distinguished or characterized by an emphasis on specified sexual activities or by exposure of specified anatomical areas and/or which regularly feature films, motion pictures, video cassettes, slides, or other photographic reproductions which are distinguished or characterized by an emphasis upon the depiction or description of specified sexual activities or specified anatomical areas for observation by patrons.

ADULT THEATER: An establishment which presents the viewing of motion pictures, films, theatrical productions, video cassettes, slides, and other forms of visual productions, for any form of consideration, in which a preponderance of the total presentation time is devoted to showing materials which are

distinguished or characterized by an emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas for observation by patrons therein. Adult theater facilities may include but is not limited to open lots for viewing from a motor vehicle or outdoor eating area; an enclosed building with private viewing areas for five (5) or fewer people, or; an enclosed building with viewing areas for more than five (5) people.

ADULT USE: A use which involves either wholly or partially an activity distinguished or characterized by its emphasis on matters depicting, describing, or relating to specified sexual activities or specified anatomical areas, including but not limited to, the operation of adult bookstores, adult cabarets, and adult video stores.

ADULT VIDEO STORE: An establishment having as a substantial or significant proportion of its stock in trade video cassettes and similar materials which are distinguished or characterized by their emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas.

AGRICULTURE: The use of land for agricultural purposes, including farming, pasturage, agriculture, horticulture, floriculture, viticulture, and the necessary accessory uses for parking, treating or storing the produce; provided, however, that the operation of any such accessory uses shall be secondary to that of the normal agricultural activities.

AIRCRAFT: Any contrivance now known or hereafter invented for use in or designed for navigation of or flight in air.

AIRPORT: Any area of land or water which is used or intended for use for the landing and taking off of aircraft, and any appurtenant areas which are used or intended for use for airport buildings or other airport facilities or rights of way, including all necessary taxiways, aircraft storage and tie down areas, hangars, and other necessary buildings and open spaces.

ALLEY: A public or private right of way primarily designed to serve as a secondary access to the side or rear of those properties whose principal frontage is on a street.

ALLOWABLE OBSTRUCTION: Any accessory building or structure, including appurtenances on principal buildings, which is located within a required yard and is permitted under chapter 4 of this ordinance.

ALTERATION: Any change in size, shape, or character of a building or structure.

AMATEUR RADIO: A type of wireless communication, capable of transmitting as well as receiving electromagnetic radiation, and whose operator is licensed by the federal communications commission, and regulated by part 97 of the FCC rules and regulations.

AMENDMENT: Any addition to, deletion from, or change in this ordinance, including text and/or map.

AMUSEMENT DEVICES: Any machine or device which, upon the insertion of a coin, slug, token, plate or disc, may be operated by the public generally by manipulating special equipment whereby a score is established, the object of which is to secure a special number or numbers or a total score, whether a prize is offered or not.

AMUSEMENT ESTABLISHMENT: Any use or establishment with more than eight (8) amusement devices.

ANIMAL HOSPITAL: ~~Any building or portion thereof designed or used for the care, observation, or treatment of domestic animals.~~ A business designed or used for the care, observation, or treatment of domestic animals. "Animal Hospital" does not include kenneling or pet boarding of animals.

ANTENNA, DISH: See definition of Satellite Dish Antenna.

ANTENNA STRUCTURE: A system of wires, poles, rods, or similar devices, external to or attached to the exterior of a building, together with any supporting structure, for sending or receiving electromagnetic radiation.

ANTENNA TOWER: Any structure designed for the mounting of an antenna.

APARTMENT: See definition of Dwelling, Multiple-Family.

APPEAL: A request to review a decision or interpretation of the department of code enforcement or other authorized official relative to the administration of this ordinance.

ARBOR: See definition of Trellis.

ART GALLERY: A commercial establishment engaged in the sale of paintings, sculptures, video art or other works.

ASSISTED LIVING UNITS: Any premises within a continuing care retirement community (CCRC) in which food, shelter and personal assistance or supervision are provided for a period exceeding twenty four (24) consecutive hours for one or more adults who are not relatives of the operator and who require assistance or supervision in matters such as dressing, bathing, diet or medication prescribed for self- administration, but do not require hospitalization or care in a skilled nursing facility. An assisted living unit shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois.

ATTIC: The space between the ceiling beams of a top habitable story and the roof rafters.

AUTOMOBILE REPAIR: ~~The general repair, engine rebuilding or reconditioning of motor vehicles, collision service such as body, frame and fender straightening and repair, and painting of motor vehicles.~~ A business that performs general repair, reconditioning, and painting of motor vehicles. Services offered may include the changing of motor oil, installation of tires, batteries and minor accessories, minor automobile repairs, and greasing or washing of individual automobiles.

AUTOMOBILE SERVICE STATION: ~~Any building or premises used for dispensing or sale of automobile fuels, lubricating oil or grease, tires, batteries, or minor automobile accessories. Services offered may include the changing of motor oil, installation of tires, batteries and minor accessories, minor automobile repairs, and greasing or washing of individual automobiles.~~ An establishment used for dispensing or sale of automobile fuels. It is common for the sale of limited convenience goods and automotive accessories incidental to the sale of fuels to also exist on the premises. Accessory Auto Repair may be included as part of this use.

AWNING: A rooflike cover, temporary in nature, which projects from the wall of a building.

BAKERY/COFFEE SHOP: A retail establishment that sells baked goods prepared on- or off-site and/or a store which sells and/or brews specialty coffee, tea, frozen, or related beverages.

BALCONY: An architectural appurtenance providing usable floor area located above the first floor that is either entirely unenclosed or covered only by a roof.

BANKS AND FINANCIAL INSTITUTIONS: A business providing financial services, including but not limited to, banks, credit unions, savings and loan institutions, wealth management, and mortgage companies.

BASEMENT: That portion of a building below the first or ground floor level, and having less than five feet (5') of clearance from the ceiling to the grade from which building height is measured. A basement is not considered a story for the purposes of determining building height.

BLOCK: A tract of land bounded by streets, or by a combination of streets and public parks, cemeteries, railroad, rights of way, shorelines of waterways, municipal boundary lines, township lines or county lines.

BLOCK FACE: That property on a block having the same frontage onto a public street.

BOAT: A watercraft of any description used or capable of being used as a means of transportation on water except a seaplane on the water and inner tubes, air mattress, or similar device.

BREWERY: See Microbrewery, Microdistillery, or Micro-winery.

BREWPUBS: An establishment that includes a microbrewery, microdistillery, or micro-winery in conjunction with a restaurant and a bar.

BUILDABLE AREA: The area of the lot remaining after the minimum open space and/or yard requirements of this ordinance have been complied with.

BUILDING: Any structure built, used, designed, or intended for the support, shelter, protection, or enclosure of persons, animals, or property of any kind, and which is permanently affixed to the land. When a building is divided into separate parts by unpierced fire or party walls extending continuously from the ground through all stories to and above the roof, each part shall be deemed a separate building.

BUILDING COVERAGE: The lot area covered by the principal building(s) and any roofed over accessory buildings or structures, measured from the exterior faces of exterior walls, but excluding decks, terraces and other accessory structures which are open to the sky.

BUILDING, DETACHED: A building surrounded by open area on the same lot.

BUILDING HEIGHT: The vertical distance as measured from the sidewalk level, or its equivalent established grade, opposite the middle front of the building to the highest point of the coping of a flat roof, or to the point of intersection of the two (2) roof planes of a mansard roof, or to the average height of the highest gable of a pitch or hip roof. When a penthouse or any similar structure is located on the roof of a building, the top of the building height shall be measured to the highest point of said structure. Notwithstanding the foregoing sentences, the following shall not be considered in determining the height of a building: mechanical equipment and any wall or similar structure designed exclusively for the purpose of screening such mechanical equipment from view; chimneys; railings; and decorative structures such as nonhabitable

architectural building elements, turrets, parapets, widow's walks or cupolas, provided that such structures and equipment do not have an exterior height in excess of four feet (4').

In the case of detached accessory buildings or structures, building height is the vertical distance from the top of floor, slab or existing grade to the highest point of the coping of a flat roof, or the point of intersection of the two (2) roof planes of a mansard roof, or to the average height of the highest gable of a pitch or hip roof.

BUILDING, PRINCIPAL: A nonaccessory building in which is conducted the principal use of the lot on which it is located.

BUILDING SETBACK LINE: A building line establishing the minimum allowable distance between a street right of way and any structure.

BUILDING, TEMPORARY: Any building not designed to be permanently located, placed, or affixed to the place where it is located.

BULK: The term used to indicate the size and setbacks of the buildings or structures and the location of same with respect to one another, and includes:

A. Height and area of buildings.

B. Location of exterior walls in relation to lot lines, streets, or other buildings.

C. Gross floor area of buildings in relation to lot areas (floor area ratio).

D. All open spaces allocated to buildings.

E. Amount of lot area required for each dwelling unit.

BUS: A motor vehicle, other than a commuter van, designed for carrying more than ten (10) persons.

BUSINESS: An occupation, employment, or enterprise which occupies time, attention, labor and materials, wherein merchandise is exhibited or sold, or where services are offered.

CANOPY: A rooflike structure projecting from a wall and supported in whole or in part by vertical supports from the ground, and erected primarily to provide shelter from the weather.

CAR WASH: ~~A building, or portion thereof, containing facilities for washing one or more automobiles at any one time, using production line methods such as a chain conveyor, blower, steam cleaning device, or other mechanical devices; or providing space, water, equipment, or soap for the complete or partial cleaning of such automobiles, whether by operator or by customer.~~ An establishment containing facilities for washing one or more automobiles at any one time, using production line methods such as a chain conveyor, blower, steam cleaning device, or other mechanical devices; or providing space, water, equipment, or soap for the complete or partial cleaning of such automobiles, whether by operator or by customer.

CARPORT: An open sided (on at least 2 sides), roofed automobile shelter, usually formed by extension of the roof from the side of a building.

CEILING: The overhead inside lining of a room.

CENTERLINE: The midpoint in the width of a public right of way as established by recorded plats of survey.

CERTIFICATE OF OCCUPANCY: A certificate certifying that the building or structure, as illustrated on approved plans, conforms to the provisions of this ordinance and, if constructed and used in conformance with such plans, may be occupied upon completion of construction.

CLINIC, MEDICAL OR DENTAL: ~~An organization of specializing physicians or dentists or both, who have their offices in a common building. A clinic shall not include inpatient care.~~ A business organization of specializing physicians or dentists or both, who operate a walk-in medical facility that provides unscheduled, ambulatory care for minor illnesses and injuries, outside of a hospital.

CLUB OR LODGE, PRIVATE (NONPROFIT): ~~A nonprofit association of persons, who are bona fide members paying dues, which owns, hires, or leases a building, or portion thereof, the use of such premises being restricted to members and their guests. The affairs and management of such "private clubs or lodge" are conducted by a board of directors, executive committee, or similar body chosen by the members. It shall be permissible to serve food, meals and beverages on such premises.~~ A membership association of dues paying persons, which owns, hires, or leases a building, or portion thereof, the use of such premises being restricted to members and their guests. It is common to serve food, meals, and beverages on such premises.

COMMERCIAL LEARNING CENTER: A school that provides extracurricular tutoring and training at a small-scale facility. “Commercial Learning Centers” may include such uses as driving schools or tutoring centers.

COMMERCIAL/RESIDENTIAL MIXED USE DEVELOPMENT: A building or interconnected group of buildings housing both dwelling units and commercial office, retail or service uses, for which exceptions from the regulations of the applicable zoning district ordinance may be granted by the village board upon plan commission review and recommendation.

COMMON OPEN SPACE: Open space accessible to either the general public or to multiple owners/tenants. Such space is generally maintained by agreement of persons utilizing the space.

CONDITIONAL USE: See definition of Use, Conditional.

CONSOLIDATION: The act of combining more than one lot of record, in whole or in part, into a single lot of record or into multiple lots of record, but fewer in number than the underlying existing lots of record that are being consolidated.

CONTINUING CARE RETIREMENT COMMUNITY (CCRC): A planned residential development intended for individuals sixty two (62) years of age or older or couples at least one member of which is sixty two (62) years of age or older. The CCRC shall obtain and maintain a permit to operate as a "life care CCRC" as defined by the state of Illinois department of public health. The CCRC shall be distinguished from other forms of residential development by the fact that it shall include a licensed nursing home facility as an integral part of the development and the CCRC shall obtain and maintain a certificate of need approval

for the nursing home facility from the state of Illinois. The licensed nursing home facility shall be developed and created in accordance with the applicable provisions of the Illinois administrative code as such provisions are administered and enforced by the relevant agencies and shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois. The CCRC shall also provide facilities for varying degrees of assisted living for residents and other such accessory uses that may be appropriate for a CCRC and each of these other facilities, to the extent required by law, shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois. The form of business structure of the development, i.e., rental, endowment, condominium, etc., is irrelevant to a determination that it is a CCRC. However, the owner or operator of a CCRC (and any successor owners or operators) as well as the owner (and any successor owners, lessees or occupants) of the land on which the CCRC is built and operated shall remain subject to real estate taxation and shall not petition or seek real estate tax exempt status for the land.

CONTRACTORS' OFFICE: A room or group of rooms used for construction contractors' business affairs that does not use any exterior storage area.

CONVALESCENT, NURSING OR REST HOME: ~~An establishment for the care of the aged or infirm, or a place of rest for those suffering bodily disorders. Such home does not contain equipment for surgical care or for the treatment of disease or injury.~~ A business for the care of the aged or infirm, or a place of rest for those suffering from bodily disorders. Such home does not contain equipment for surgical care or for the treatment of disease or injury.

CONVENIENCE STORE: An establishment where the direct retail sale of food items such as meats, cereals, grains, produce, baked goods, dairy products, and prepared food products, beverages, cleaning supplies, pet food and supplies, pharmaceuticals, over-the-counter medicines, personal products, household goods, books and magazines, plants, and other sundry and similar items are available to be purchased by the consumer.

CUL-DE-SAC: A short street ending in a turnaround design and intended as a permanent terminus.

CULINARY SCHOOL: Any public place kept, used, maintained, advertised, and held out to the public as a place where education and hands on instruction regarding the preparation and cooking of meals and desserts takes place as well as the occasional service of complete meals prepared as part of such culinary program on the licensed premises, with an adequate and sanitary kitchen and dining room equipment and with adequate staff to instruct the patrons in the preparation and service of meals and desserts.

CURB LEVEL: The level of the established curb in front of a building measured at the center of such front. (Where no curb elevation has been established, the pavement elevation at the street centerline similarly measured, or the mean elevation of the finished lot grade immediately adjacent to a building shall be considered the curb "level".)

DAY: As used in this ordinance, shall mean one calendar day. If a projected day falls on a weekend or holiday, the next following working day or weekday shall fulfill requirements.

DAYCARE CENTER: ~~An institution or place in which are received three (3) or more children, not of common parentage, apart from their parent or guardian, for part or all of the hours between six o'clock (6:00) A.M. and nine o'clock (9:00) P.M. The term "daycare center" includes, but is not limited to, the following: nursery schools, childcare centers, day nurseries, kindergartens and play groups, but does not include~~

~~bona fide kindergartens or nursery schools operated by public or private elementary or secondary school systems.~~ A use in which are received three (3) or more children, not of common parentage, apart from their parent or guardian, for part or all of the hours between six o'clock (6:00) A.M. and nine o'clock (9:00) P.M. The term "daycare center" includes, but is not limited to, the following: nursery schools, childcare centers, day nurseries, kindergartens and play groups, but does not include kindergartens or nursery schools operated by public or private elementary or secondary school systems.

DAYCARE, HOME: A family home which receives more than three (3) and up to a maximum of eight (8) children, for part or all of the hours between six o'clock (6:00) A.M. and nine o'clock (9:00) P.M., where tuition, fees, or other forms of compensation for the care of children is charged. The maximum of eight (8) children includes the family's natural or adopted children and all other persons under the age of fourteen (14). The term does not include facilities which receive only children from a single household. Daycare homes should meet all applicable village and state requirements.

DECK: An accessory structure which is elevated from ground level and is open to the sky.

DEPARTMENT OF CODE ENFORCEMENT: The enforcing department of the provisions of this ordinance.

DEVELOPER: Any person seeking to build upon or develop land in the village of Western Springs.

DIGITAL SATELLITE STATION: A small, satellite dish (not more than 24 inches in diameter) that has been designed for the purpose of receiving electromagnetic radiation.

DISTRICT: A portion of the corporate area of the village, within which certain uniform regulations and requirements, or various combinations thereof, apply under the provisions of this ordinance.

DORMITORY: A building or part of a building containing a room or rooms forming one or more habitable units which are used or intended to be used by residents primarily for living and sleeping.

DRIVE-THROUGH: ~~**ESTABLISHMENT:** A place of business, being operated for the sale and purchase at retail of food and other goods, services or entertainment, which is laid out and equipped so as to allow its patrons to be served or accommodated while remaining in their automobiles.~~ An accessory use to a restaurant, bakery/coffee shop, bank/financial services, or other retail use.

DWELLING: A building, or portion thereof designed or used exclusively for residential occupancy, including single-family dwellings, two-family dwellings, and multiple-family dwellings, but not including hotels or motels.

DWELLING, MULTIPLE-FAMILY: A building, or portion thereof, containing three (3) or more dwelling units.

DWELLING, SINGLE-FAMILY ATTACHED: One which is joined to another single-family dwelling at one or both sides by party walls. A dwelling that is joined to another single-family dwelling at one or more sides by party walls.

DWELLING, SINGLE-FAMILY DETACHED: One which is entirely surrounded by open area on the same lot.

DWELLING, TWO-FAMILY: A building containing two (2) dwelling units, attached either vertically or horizontally.

DWELLING UNIT: Any room or group of rooms located within a dwelling and forming a single habitable unit with facilities that are used, or intended to be used for living, sleeping, cooking, and eating.

DWELLING UNIT, ABOVE GROUND FLOOR: A dwelling unit located above the ground floor of a building.

EARTH SATELLITE STATION: An apparatus or device (greater than 24 inches in diameter) that has been designed for the purpose of transmitting and/or receiving electromagnetic radiation, but does not include conventional television, radio and amateur radio antenna.

EASEMENT: Land or an interest in land that has been designated by lawful agreement between the owner or owners of the land and another person or persons, for a specified use only by such person or persons.

EFFICIENCY UNIT: A dwelling unit consisting of one principal room exclusive of bathroom, kitchen, hallway, closets, or dining alcove directly off the principal room, provided such dining alcove does not exceed one hundred twenty five (125) square feet in area.

ESTABLISHMENT, BUSINESS: A place of business carrying on operations, the ownership and management of which are separate and distinct from those of any other place of business located on the same zoning lot.

EVENT SPACE: A business consisting of a room(s) or hall(s) available for rent for banquets, exhibitions, and/or meetings that may include the provision of food, drink, and/or entertainment.

EXEMPTION: The exempting of a person from compliance with a particular village policy, practice, regulation, or a particular regulation set forth in the development control ordinance or the village code, based on specific criteria set forth in the specific policy, practice, regulation, ordinance or code provision providing for the exemption.

EXTENDED MEDICAL CARE FACILITIES: Refers to those medical facilities designed to accommodate inpatients in need of lengthy recuperative periods requiring nursing attention and periodic medication.

FAMILY: An individual or two (2) or more persons related by blood, marriage, or legal adoption living together as a single housekeeping unit within a dwelling unit, including foster children, domestic servants, and not more than two (2) guests or roomers living in the dwelling on an extended basis. A family may also consist of not more than five (5) unrelated persons.

FENCE: A structure that is a barrier and is used as a boundary or means of protection or confinement, which is made of manufactured material, such as, but not limited to: wire mesh, chainlink, wood or stone material.

FINAL PLAT: A map of subdivision with accompanying material, intended for final approval and recording, on the basis of which land can be transferred, leased, or encumbered.

FIREARMS AND FIREARMS AMMUNITION: As such terms are defined in the Illinois firearm owners identification card act, 430 Illinois Compiled Statutes 65/1.1, as amended from time to time.

FLOOR AREA (For Determining Off Street Parking And Loading Requirements): The sum of the gross horizontal areas of the several floors of the building, as measured from the outside of the exterior walls, devoted to the principal use, including accessory storage areas located within selling or working space such as counters, racks, or closets, and any floor area devoted to retailing activities, to the production or processing of goods or to business or professional offices.

However, "floor area" for the purposes of measurement for off street parking spaces shall not include:

A. Floor area devoted primarily to storage purposes (except as otherwise noted herein);

B. Floor area devoted to off street parking or loading facilities, including aisles, ramps, and maneuvering space; or

C. Mechanical or storage floor area other than area devoted to retailing activities, to the production or processing of goods, or to business or professional offices.

FLOOR AREA, GROSS (For Determining Allowable Area In One- And Two-Family Residential Districts): Except as hereinafter provided, the sum of the gross horizontal areas of all floors of all stories and partial stories of a building, or such area devoted to a specific use, measured from the exterior face of exterior walls or from the centerline of walls separating two (2) buildings or uses. The application of the gross floor area regulations shall be in conformance with appendix B that is an integral part of this ordinance.

FLOOR AREA, INTERIOR (For Determining Maximum Area Of A Home Occupation): The sum of the gross horizontal area of the several floors of the dwelling as measured from the inside of the exterior walls. However, interior floor area, for the purpose of regulating home occupations, shall include only the habitable portions of the dwelling and shall exclude:

A. Attached garages;

B. Unfinished basements; and

C. Unfinished attics.

FOOD STORE/GROCERY: An establishment that retails a general line of food, such as canned and frozen foods, fresh fruits and vegetables, and fresh and prepared meats, fish, and poultry. Included in this class are meat and seafood markets, delicatessen-type establishments, and establishments retailing baked goods (not for immediate consumption and/or made off-premises).

FRONTAGE, BLOCK: The length of all the property fronting on one side of a street between the two (2) nearest intersecting streets, measured along the line of the street, or if dead ended, then all of the property abutting on one side between an intersecting street and the dead end of the street.

FRONTAGE, ZONING LOT: The length of all the property of such zoning lot fronting on a street, as measured between side lot lines.

FUNERAL HOME: A business that prepares the dead for burial or internment and conducts funerals (i.e. providing facilities including chapels for wakes, arranging transportation for the dead, selling caskets and related merchandise).

GARAGE, PRIVATE: A detached accessory building or portion of a main building housing the automobiles of the occupants of the premises.

GARAGE, PUBLIC: A building or portion thereof, other than a private garage, designed or used for equipping, servicing, repairing, hiring, selling, storing, or parking motor driven vehicles. The term repairing shall not include an automotive body repair shop or the rebuilding, dismantling, or storage of wrecked or junked vehicles, unless expressly authorized.

GARDEN CENTER: A retail establishment whose principal activity is the selling of plants, gardening equipment and supplies, these uses typically have seasonal outside storage, growing or display.

GAS/FUEL STATIONS: *See Automotive Service Station.*

GOVERNMENT BUILDINGS AND FACILITIES: A use owned and operated by a municipal, state, federal, or other taxing body institution in which governmental services are provided or conducted.

GRADE: The level of the finished surface of the ground adjacent to the exterior walls of the building or structure.

GROSS FLOOR AREA: Refers to all the floor area contained within a building or buildings, without exception.

GROUND FLOOR: That level of a building which is the first story and is situated above the basement or, if no basement exists, on top of foundation walls.

HABITABLE SPACE: Any area or room designed and/or used for living or sleeping. For example, unfinished attics, bathrooms, toilet compartments, closets, halls, storage rooms, laundry and utility rooms, basement recreation rooms, foyers, areas or rooms used for cooking or eating, and similar areas are not considered habitable areas or rooms.

HEDGE: A row of shrubs planted to create a visual screen.

HOME OCCUPATION: An accessory use conducted completely within a dwelling unit, carried on by any member of the immediate family residing on the premises, clearly incidental and secondary to the use of the dwelling for residential purposes.

HOSPITAL: A medical institution devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, and care of individuals suffering from illness, disease, injury, deformity or other abnormal physical condition.

HOTEL OR MOTEL: ~~An establishment which is open to transient guests, in contradistinction to a boarding, rooming or lodging house, and is commonly known as a hotel in the community in which it is located; and which provides customary hotel services such as maid service, the furnishing and laundering of linen, telephone and secretarial or desk service, the use and upkeep of furniture and bellboy service.~~ An establishment that is open to transient guests, which provides customary hotel services such as housekeeping, front desk services, and common amenities. Restaurants and meeting rooms are common accessory uses.

INCOMPATIBLE USE: A use or service which is unsuitable for direct association with certain other uses because it is contradictory, incongruous, or discordant.

INDOOR ATHLETIC FACILITIES: A business or facility used for and providing indoor recreation facilities, gym and fitness facilities, and sport courts, swimming pools, or similar uses that are enclosed in buildings.

INDOOR ENTERTAINMENT FACILITIES: A business with predominantly leisure or spectator uses conducted within an enclosed building including, but not limited to, movie theaters, bowling alleys, arcades, and concert venues. This does not include any adult uses as defined in Section 10-2-2 in the Village Code.

JUNK (OR SALVAGE) YARD: An open area where waste or scrap materials are bought, sold, exchanged, stored, baled, packed, disassembled, or handled, including, but not limited to, scrap iron and other metals, paper, rags, rubber tires, and bottles. A "junk or salvage yard" includes an auto wrecking yard, but does not include uses established entirely within enclosed buildings.

KENNEL: ~~Any business, premises, or portion thereof, in which more than three (3) dogs or other domestic animals over three (3) months of age are boarded for compensation, bred, cared for, or kept for sale.~~ Any business in which more than three (3) dogs or other domestic animals over three (3) months of age are cared for or boarded for compensation.

LABORATORY: A place devoted to experimental study such as testing and analyzing. Manufacturing of produce or products is not to be permitted within this definition.

LANDSCAPE AREA: That portion of a lot devoted exclusively to landscaping, except that streets, drives and sidewalks may be located within such area to provide reasonable access.

LANDSCAPING: The aesthetic improvement of property through the installation of plant materials, berming, walls and fences, and other decorative elements.

LAUNDRY FACILITIES: An establishment used for dry cleaning drop off or retrieval, clothing repair or alterations, or services to be performed for households, but not firms. Excludes automotive and equipment cleaning or dry cleaning processing plant. Typical uses include laundry drop off station.

LIGHT ASSEMBLY: Assembly of parts or products from previously prepared materials. Typical uses include: catering, printing or publishing and related support activities, computer and electronic products, or other establishments that have no negative impacts on surrounding properties.

LINE OF SIGHT: A clear line of vision at an intersection.

LIQUOR STORE: A retail establishment where the direct sale of packaged wine, beer, spirits, and non-alcoholic beverages is available to be purchased by the customer for off-site consumption.

LOT: A parcel of land located within a single block and may be either a "lot of record" or a "zoning lot".

LOT AREA, GROSS: The area of a horizontal plane bounded by the front, side, and rear lot lines, but not including any area occupied by the waters of a duly recorded lake or river.

LOT, ATTACHED SINGLE-FAMILY EXTERIOR: A lot occupied by an attached single-family dwelling which has a common side wall along only one side lot line.

LOT, ATTACHED SINGLE-FAMILY INTERIOR: A lot occupied by an attached single-family dwelling which has common side walls along both side lot lines.

LOT, CORNER: A lot situated at the intersection of two (2) streets.

LOT COVERAGE: The maximum percentage of total lot coverage that is improved with a principal residential structure and any other impervious surfaces, including, but not limited to, accessory structures, detached garages, driveways, outdoor residential recreational facilities (including all swimming pools or similar structures), private sidewalks, terraces, and patios.

LOT DEPTH: The mean horizontal distance between the front lot line and the rear lot line of a lot, measured within the lot boundaries.

LOT, INTERIOR: A lot other than a corner or reversed corner lot.

LOT LINE, CORNER SIDE: Any lot line between the front and rear lot lines which abuts a public street.

LOT LINE, FRONT: That boundary of a lot which is along an existing or dedicated public street or, where no public street exists, is along a public way. On corner lots, the front lot line shall be the lot line along a street which has the shortest dimension. In the case of landlocked land, the front lot line shall be that lot line that faces the access to the lot.

LOT LINE, INTERIOR SIDE: Any lot line between the front and rear lot lines which does not abut a public street.

LOT LINE, REAR: That boundary of a lot which is most distant from, and is, or is most nearly, parallel to the front lot line.

LOT OF RECORD: A lot which is part of a subdivision, the plat of which has been recorded in the office of the recorder of deeds of Cook County; or a parcel of land, the deed to which was recorded in the office of said recorder of deeds prior to the adoption of this ordinance.

LOT, REVERSED CORNER: A corner lot, the corner side lot line of which is substantially a continuation of the front lot line of the first lot to its rear.

LOT, THROUGH: A lot having a pair of opposite lot lines along two (2) more or less parallel public streets, and which is not a corner lot. On a "through lot" both street lines shall be deemed front lot lines.

LOT WIDTH: The horizontal distance between the side lot lines of a lot, measured at the narrowest width within the first thirty feet (30') of lot depth immediately in back of the required front yard. In no instance shall the required front yard exceed the yard requirements of the zoning district in which such lot is located. In addition, the front lot line shall be at least seventy five percent (75%) of the lot width, except that lots on cul-de-sacs shall be exempt from this requirement.

LOT, ZONING: A single tract of land located within a single block which (at the time of filing for a building permit) is designated by its owner or developer as a tract to be used, developed, or built upon as a unit, under single ownership or control. Therefore, a "zoning lot or lots" may or may not coincide with a lot of record.

MARQUEE: A roof like structure of a permanent nature which projects from the wall of a building.

MEZZANINE: An intermediate story between the floor and ceiling of a main story and extending over only part of the main floor.

MICROBREWERY, MICRODISTILLERY, AND MICRO-WINERY: An alcoholic beverage production establishment that does not exceed 50,000 gallons a year with a retail space and publicly accessible tap room.

MINIWAREHOUSE: A structure or group of structures not exceeding one story or seventeen feet (17') in height in a controlled access, fenced compound containing individual storage units with access to each unit for the storage and warehousing of personal property as opposed to commercial property. Miniwarehouses do not include wholesaling, retailing, servicing or repair of household or commercial goods in conjunction with storage.

MOBILE FOOD VEHICLE: A commercially manufactured, motorized mobile food unit in which ready-to-eat food is cooked, wrapped, packaged, processed, or portioned for service, sale or distribution.

MOBILE FOOD VEHICLE (NONMOTORIZED): A commercially manufactured mobile food unit which may be affixed onto a vehicle, such as a trailer, in which ready-to-eat food is cooked, wrapped, packaged, processed, or portioned for service, sale or distribution.

MOBILE FOOD VEHICLE VENDOR: The owner of mobile food vehicle or the owner's agent; hereinafter referred to as "vendor".

MOTEL: See definition of Hotel Or Motel.

MOTOR VEHICLE, NONPASSENGER: Any bus, trailer, truck or recreational vehicle as defined in the Illinois motor vehicle code.

MOTOR VEHICLE, PASSENGER: Any vehicle designed, built and used primarily for the transport of between one and eleven (11) persons.

MUSEUMS OR CULTURAL FACILITIES: A business, use, or structure designed, intended, or used primarily for dance, dramatic, music or other performances, or a library, museum or gallery operated primarily for the display, rather than the sale, of works of art. A "cultural facility" does not include a performance entertainment venue.

NONCONFORMING BUILDING OR STRUCTURE: Any building or structure, lawful at the time of enactment of this ordinance, which does not comply with all of the regulations of this ordinance or of any amendment hereto governing bulk for the zoning district in which such building or structure is located.

NONCONFORMING USE: The use of any land, buildings, or structures for a use which is either not permitted in the applicable district regulations, or is not a lawfully established conditional use.

NOXIOUS MATTER: Matter which is capable of causing injury or illness to living organisms, or is capable of causing detrimental effects to the health or the psychological, social, or economic well being of humans.

NURSING HOME: See definition of Convalescent, Nursing Or Rest Home.

OBSTRUCTION: An accessory structure or building located within a required yard, or an appendage to a principal building which projects into a required yard.

OCCUPANCY CERTIFICATE: See definition of Certificate Of Occupancy.

ODOROUS MATTER: Any matter or material that yields an odor which is offensive in any way.

OFFICE, MEDICAL AND DENTAL: A business where appointment-based medical services activities are conducted, which may include medical laboratories, psychological counseling, physical therapy, or other medical services to patients. This use may include retail sales of related items such as eyeglasses or medical devices.

OFFICE, PROFESSIONAL AND BUSINESS: ~~A professional organization, or an administrative unit of business enterprise, including, but not limited to, offices of accountants, financial brokers, insurance agents, architects, engineers, planners, medical arts (such as dentists, physicians, and optometrists), attorneys, real estate and title companies. An office includes activities which are limited to the administrative professional functions of business, and excludes sales of merchandise, manufacturing, product testing or other nonadministrative functions.~~ **A business where professional activities are conducted and/or business or professional services are made available to the public, including but not limited to, accounting, architecture, legal services, professional consulting, real estate services.**

OFFICIAL PLAN: The official land use plan, or any geographical or functional part thereof, as adopted by the village of Western Springs, indicating the general locations recommended for streets, parks, public buildings, and other community development aspects.

OPEN AREA: That area of a lot, parcel, or tract that is not covered by a building or structure.

OPEN SALES LOT: A principal or accessory use involving the selling of merchandise not contained within an enclosed building.

OPEN SPACE: That portion of a lot or tract not covered with impervious surfaces (buildings and paving).

OVERHANG: That portion of a building which horizontally extends beyond the building walls of the first story of such building.

OWNER: Any person having legal or equitable title to the land sought to be subdivided.

PARKING FACILITY, PRIVATE: An accessory use reserved or used for parking or storage of motor vehicles for a permitted commercial or residential development.

PARKING FACILITY, PUBLIC: A use or area reserved or used for parking or storage of motor vehicles that is publicly available to customers, commuters, or other visitors to an area.

PARKING SPACE: An enclosed or unenclosed surfaced area permanently reserved for the temporary storage of one automobile and appropriately connected with a street or alley by a surfaced driveway affording adequate ingress and egress.

PARTY WALL: A wall which is common to but divides contiguous buildings.

PERSON: Includes any corporation, partnership, groups of persons, associations, or agent, so that where the word "person" is used it is clear that any entity who would be subject to this ordinance would be defined as a person.

PERSONAL SERVICES: A business where services are offered directly to customers, including, but not limited to, beauty services, hair cutting and styling, spa services, dry cleaning, and tailoring.

PET BOARDING: See *Kennel.*

PET CARE SERVICES: A business that provides services to animals (except veterinary) such as clipping, bathing and training. Boarding of animals is not a part of this use.

PET STORES: A retail establishment primarily involved in the sale of domestic animals and pet-related supplies.

PHILANTHROPIC INSTITUTION: An organization and/or facilities devoted to the betterment and/or improvement of community life, including, but not limited to, such institutions as the YMCA, YWCA, boys clubs, and educational or charitable foundations.

PLANNED DEVELOPMENT: ~~A parcel of land or contiguous parcels of land of a size sufficient to create its own environment, controlled by a single landowner or by a group of landowners in common agreement as to control, to be developed as a single entity, the environment of which is compatible with adjacent parcels, and the intent of the zoning district or districts in which it is located; the developer or developers may be granted relief from specific land use regulations and design standards and may be awarded certain premiums in return for assurances of an overall quality of development, including any specific features which will be of exceptional benefit to the community as a whole; and is a subdivision approved as a conditional use.~~ A tract of land that is developed as a unit under single ownership or control pursuant to the requirements of the Planned Development specifications of Chapter 8.

PLAT OF CONSOLIDATION: A plat that combines more than one lot of record, in whole or in part, into a single lot of record or into multiple lots of record, but fewer in number than the underlying existing lots of record that are part of the consolidation.

PLAT OFFICER: The chairman of the plan commission of the village of Western Springs, or the director of community development, but only for administratively approved plats of consolidation or subdivisions or resubdivisions.

PRELIMINARY PLAT: A preliminary map of subdivision with accompanying material, upon which the design for the subdivision is presented, submitted for approval by the village but not for recording.

PROPERTY LINES: The lines bounding a "zoning lot", as defined herein.

PUBLIC WAY: Any sidewalk, street, alley, highway, or other public thoroughfare.

RECREATIONAL DEVICE: A structure or outdoor facility not attached to the principal structure on a lot and intended principally for recreational use such as, but not limited to, a playhouse, a swing set, a trampoline, a sandbox, or a freestanding basketball standard.

RECREATIONAL FACILITY, RESIDENTIAL: An outdoor area, court, pool, or facility composed of impervious surface material (e.g., asphalt, concrete, rubber or synthetic material) or nonimpervious surface material (e.g., sand) or any combination thereof, other than a recreational device, intended for active recreational or athletic use such as game courts, swimming pools, or ball fields established as an accessory use to a single-family residential dwelling.

RECREATIONAL VEHICLE: A camping trailer, motor home, mini- motor home, travel trailer, truck camper or van camper used primarily for recreational purposes and not used commercially nor owned by a commercial business.

RELIGIOUS INSTITUTION: A use, together with its accessory buildings and uses, where people regularly assemble for religious purposes and related social events and which, together with its accessory buildings and uses, is maintained and controlled by a religious body organized to sustain religious ceremonies and purposes.

RESEARCH AND DEVELOPMENT (R&D): ~~A business that engages in research, or research and development of computer software, information systems, communication systems, transportation, geographic information systems, multimedia and video technology. R&D does not include manufacturing. The use or storage of hazardous materials as determined by the fire department shall not be permitted~~. A business which focuses on non-manufacturing research and/or development of products, including but not limited to, computer software, information systems, medicine, communication systems, transportation, geographic information systems, multimedia and video technology.

RESIDENTIAL: Refers to the use of land or buildings for dwelling purposes.

REST HOME: See definition of Convalescent, Nursing Or Rest Home.

RESTAURANT: ~~A business establishment within which food is offered for sale and consumption only within the structure on the premises.~~ An establishment within which food is offered for sale and consumption within the building on the premises or as a carry-out option for consumption elsewhere.

RESUBDIVISION: The relocation of property boundaries or the reallocation of property in a final plat that creates new lots of record or modifies the boundary lines of existing lots of record. A resubdivision may also be referred to as a subdivision. The dissolution of property lines not accompanied by the relocation of new property lines shall not constitute a resubdivision, but shall be considered a consolidation.

RETAIL STORE: An establishment for the display and sale of merchandise directly to the ultimate consumer. This use may include stocks of goods, wares or merchandise incidental to the primary business.

RIGHT OF WAY: A dedicated parcel of land to provide vehicular access to private and public property.

ROADWAY: The portion of the street right of way available for vehicular movement. Roadway width shall be measured from back of curb to back of curb.

ROOF: That portion of a building or structure which encloses such building or structure from the sky.

ROOF, MANSARD: A roof with two (2) slopes, the lower slope being steeper than the upper slope.

SATELLITE DISH ANTENNA: Any accessory structure used to receive radio or television signals from a transmitter or transmitter relay in planetary orbit.

SCREENING: A structure erected or vegetation planted for the purpose of concealing from view the area behind it.

SELF-STORAGE FACILITY: A building consisting of individual, small self-contained units that are leased or owned for the storage of business and household goods or contractors' supplies. Such supplies may not include hazardous materials as determined by the fire department.

SERVICE USE: A class of commercial uses that do not generate sales tax but trade directly with the consuming public.

SHOPPING CENTER: A group of commercial establishments, planned, developed, and managed as a unit related in location, size and type of shops to the trade area that the unit serves.

SHRUBS: Refers to a planting or growth of multistemmed woody plants.

SINGLE-FAMILY ATTACHED DWELLING: A dwelling type consisting of three (3) or more dwelling units in a single structure, in a side by side arrangement sharing common side walls such that each dwelling unit provides an individual exterior at grade entrance.

SKETCH PLAN: A general map or drawing on which the design for the subdivision of the land is presented for discussion purposes prior to the preparation of the preliminary plat.

SPECIALTY SHOP: A retail shop that sells a narrow range of goods and products and serves a specific clientele or provides a specific product not readily found in other retail establishments.

SPECIFIED ANATOMICAL AREAS:

A. Less than completely or opaquely covered: 1) human genitals, 2) pubic region, 3) buttock, and 4) female breast below a point immediately above the top of the areola;
B. Human male genitals in a discernible turgid state, even if completely or opaquely covered.

SPECIFIED SEXUAL ACTIVITIES:

A. Human genitals in a state of sexual stimulation or arousal;
B. Acts of human masturbation, sexual intercourse, fellatio or sodomy;
C. Fondling, kissing, or other erotic touching of specified anatomical areas.

STORY: That part of a building between the surface of any floor and the surface of the floor next above, and if there is no floor above, then the ceiling above. A basement is a story if its ceiling is five feet (5') or more above the level from which the height of the building is measured.

STORY, HALF: That portion of a building under a gable, hip, or mansard roof, the wall plates of which on at least two (2) opposite exterior walls are not more than four and one-half feet (41/2') above the finished ceiling of the story immediately below.

STREET, COMMUNITY ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET, CUL-DE-SAC: See subsection 10-10-7B of this ordinance.

STREET HALF: That portion of the street on either side of a tract boundary when a proposed street has its centerline, or within its right of way, the boundaries of one or more tracts.

STREET, LOCAL: See subsection 10-10-7B of this ordinance.

STREET, NEIGHBORHOOD ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET, PRIVATE: A paved area located on private property for the purpose of providing vehicular access to that property.

STREET, PUBLIC: A paved area within a dedicated right of way established to provide vehicular access abutting properties.

STREET, REGIONAL ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET WIDTH: The shortest distance between the lines delineating the right of way of a street.

STRUCTURAL ALTERATION: Any change, other than incidental repairs, which would prolong the life of the supporting members of a building, such as the addition, removal, or alteration of bearing walls, columns, beams, girders, or foundations.

STRUCTURE: Anything which is constructed or erected which requires permanent location on the ground or attachment to something having permanent location on the ground.

SUBDIVIDER: Any owner or other person proceeding under the subdivision ordinance to subdivide or develop land.

SUBDIVISION: The division of land into two (2) or more lots of record, the creation of any easement or right of way, the establishment of a planned development, or any change in the boundary lines of a lot.

SUBDIVISION, ADMINISTRATIVE MINOR: A subdivision or resubdivision of residentially zoned lot(s) that results in the creation of not more than two (2) lots that meet or exceed the minimum lot area and size requirements for the applicable zoning district classification and shall otherwise be in full compliance with applicable provisions of this ordinance. The newly created lots shall front on an existing improved street, and not involve the construction of any new street, road or public utilities (other than service lines) or public or private drainage infrastructure improvements (excluding any on site drainage features or

structures that are site specific) and shall not adversely affect the development of or create any nonconformity for the remainder of the parcel, or create a conflict with any provision of the ordinances of the village of Western Springs.

SUBDIVISION, MAJOR: Any subdivision or resubdivision not classified as a minor subdivision or not specifically exempted under the terms of this ordinance.

SUBDIVISION, MINOR: Any subdivision or resubdivision that results in the creation of not more than four (4) lots, and fronting on an existing improved street, and not involving the construction of any new street, road or public utility, and not adversely affecting the development of the remainder of the parcel or adjoining property, and not in conflict with any provision or portion of the land development ordinance of the village of Western Springs.

SURFACE AREA, ANTENNA: An area determined by adding together the actual surface area of each solid element or part of an antenna or its support structure, where "solid" is defined to include all air spaces that are fully bounded by solid elements.

SURVEYOR: A land surveyor, registered as such by the state of Illinois.

SWIMMING POOL: A permanent or semipermanent structure used for recreational swimming or bathing that is located either below ground level, above ground level or a combination thereof.

TAVERN: An establishment where liquor is sold to be consumed on the premises. This use may include limited food service, but does not include restaurants (where the principal business is the serving of food).

TEMPORARY OCCUPANCY: Occupancy of a dwelling, structure or lot, by a person or persons to perform a particular use for a limited period of time, such as selling real estate, overseeing building construction, or selling Christmas trees.

TEMPORARY RETAIL USES: Retail stores operating under short term leases for seasonal sales, testing retail potentials, or meeting other commercial opportunities, with no more than 120 days per customer-facing commercial operation.

TEMPORARY USE: See definition of Use, Temporary.

TERRACE: An accessory structure adjoining a building consisting of a relatively level, paved area which is open to the sky.

TOWNHOME: See *Dwelling Units, Single-family Attached.*

TOXIC MATERIAL: Any substance (liquid, solid or gaseous) which by reason of an inherent deleterious property when emitted in any amount, is injurious to plants, animals, or human beings.

TRAILER: A movable or portable unit to be towed on its own chassis and which is used for recreational or temporary office purposes, and is not designed for permanent or long term residence.

TRANSITIONAL YARD: See definition of Yard, Transitional.

TRELLIS: A vertical or diagonal lattice structure that is either freestanding or attached to a building for the purpose of growing vines.

TRUCK: A motor vehicle including a road tractor or a truck- tractor designed, used, or maintained primarily for the transportation of property, including "pickup trucks" and "cargo vans" in which at least one-third (1/3) of the total vehicle length is designed, used, or maintained for the transportation of property rather than human passengers.

TWO-FAMILY DWELLING: A dwelling type consisting of two (2) dwelling units in a single structure, arranged either as side by side units sharing a common wall or stacked units, with individual exterior entrances or individual unit access from a shared foyer.

UNDEVELOPED LAND: Land in and surrounding the village that has not been subdivided and/or improved under the requirements of the development control ordinance.

USE: Use of property is the purpose or activity for which the land or building thereon is designed, arranged, or intended, or for which it is occupied or maintained.

USE, ACCESSORY: An activity conducted within a building or structure, or on the open area of the lot which is:

A. Conducted or located on the same zoning lot as the principal building or use served, except as may be specifically provided elsewhere in this ordinance;
B. Clearly incidental to, subordinate in purpose to, and serves the principal use; and
C. Either in the same ownership as the principal use or is clearly operated and maintained solely for the comfort, convenience, necessity, or benefit of the occupants, employees, customers, or visitors of or to the principal use.

USE, CONDITIONAL: A use, either public or private, which, because of its unique characteristics, cannot be properly classified as a permitted use in a particular district or districts. After due consideration, in each case, of the impact of such use upon neighboring land and of the public need for the particular use at the particular location, such "conditional use" may or may not be granted, subject to the terms of this ordinance.

USE, EXISTING: Any use of a parcel of land or a building which exists on the effective date hereof.

USE, NONCONFORMING: Any use of land, building, or structure, lawful at the time of the enactment of this ordinance, which does not comply with all of the regulations of this ordinance or of any amendment hereto governing use of the zoning district in which such use is located.

USE, PERMITTED: A use which may be lawfully established in a particular district or districts provided it conforms with all requirements, regulations, and standards of such district.

USE, PRINCIPAL: The main use of land or buildings as distinguished from a subordinate or accessory use. A "principal use" may be "permitted" or "conditional".

USE, TEMPORARY: Any use which is established only for a fixed period of time, with the intent to discontinue such use upon the expiration of such time, and which does not involve the construction or alteration of any permanent structure.

VARIATION: A relaxation of the provisions of this ordinance where such variation will not be contrary to the public interest and where a literal enforcement of this ordinance would result in unnecessary and undue hardship or encroach upon the property rights of others.

VARIETY STORE: A retail shop that sells a range of goods and products not generally falling into one category.

VEHICLE: Any device in, upon or by which any person or property is or may be transported or drawn upon a highway or waterway, except devices moved by human power.

VEHICLE SALES: An establishment that sells or leases new or used automobiles, trucks, vans, trailers, recreational vehicles, boats, motorcycles, or other similar motorized transportation vehicles. A vehicle dealership may include inventory of the vehicles for sale or lease and on-site facilities for the repair and service of vehicles.

VETERINARY OFFICES: See *Animal Hospital.*

VIEW OBSTRUCTION: An obstruction of a line of sight (see definition of Line Of Sight).

VILLAGE: The village of Western Springs.

VILLAGE ATTORNEY: The attorney or legal firm retained by the village to represent its interests.

VILLAGE ENGINEER: A professional engineer, registered in the state of Illinois, who has been duly appointed as such by the village board.

WALKWAY/BIKEWAY: A way, however designated, across or within a block for use by pedestrian and bicycle traffic, which shall include, but not be limited to, sidewalks and crosswalks.

WALL: A vertical structure of a linear nature which serves to support, retain, or screen.

WATCHMAN'S QUARTERS: Working facilities for an owner/operator or employee to provide twenty four (24) hour security in any zoning district where such accommodations are a permitted use. Watchman's quarters shall not serve as a primary residence for a watchman.

YARD: An area on the same zoning lot with a building or structure, unoccupied and unobstructed from its lowest level to the sky, except as otherwise permitted in this ordinance. A yard is the distance between a building and a lot line.

YARD, CORNER SIDE: A side yard which adjoins a public street, extending from the front face of the building to the rear face of the building.

YARD, FRONT: A yard extending from the front building face to the front lot line along the full width of the lot between the side lot lines.

YARD, INTERIOR SIDE: A side yard which is located immediately adjacent to another zoning lot or to an alley separating such side yard from another zoning lot, extending from the side face of the building to the interior side lot line between the front and rear yards.

YARD, REAR: A yard extending from the building face to the rear lot line along the full width of the lot between the side lot lines, except that for corner lots the rear lot shall terminate at the corner side yard.

YARD, REQUIRED: The front, rear, interior side or corner side yard required by the applicable provisions of this ordinance.

YARD, TRANSITIONAL: A required yard on a lot in circumstances where the lot abuts a more restrictive zoning district and the proposed use of the lot could create potential impacts on adjacent property. No principal buildings are permitted in transitional yards.

SECTION 3. Title 10 (Development Control Ordinance), Chapter 3 (Administrative Bodies and Procedures), Section 10-3-11 (Variations), Subsection 10-3-11(C) (Variation Procedures) of the Western Springs Municipal Code is amended to add below subsections, which shall be placed in numerical order and shall read as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

5. Administrative Variations: Variations that can be granted administratively by the Director of Community Development are established below, provided the standards applicable to the request are met. These administrative variations are for zoning lots classified in the A Single Family Residence, R1 Single Family Residence, and R2 Single Family Residence and improved with a single family detached dwelling.

a. Required Setback for Detached Garage. An administrative variation to allow an existing detached garage accessory to a single family detached dwelling to be renovated or replaced in its existing location, subject to the conditions that: (1) the garage, including the exterior walls, eaves, and gutters, may not be closer than one foot to any side yard lot line or rear lot line, and (2) the adjustment will not result in undue adverse effect on abutting property.

b. Front and Corner Side Yards for Front Porch. An administrative variation from a required front yard of corner side yard, or both, to allow an attached, covered, and unenclosed front porch on an existing single family detached house to encroach into that yard by not more than the following distances: six feet into a front yard, or 6 feet into a corner side yard. The administrative variation may only be approved if the Director of Community Development determines that the encroachment will not result in an adverse change in the character of the front yard depths on the block in which the subject property is located

c. Maximum Building Coverage. An administrative variation increasing by not more than 100 square feet, the maximum building coverage on a zoning lot for the purpose of renovating a single family detached dwelling originally constructed prior to January 1, 1993. This administrative variation may apply to the expansion of the footprint of the single family detached dwelling or an increase of the building coverage attributable to construction of a detached garage in replacement of an attached garage.

d. Maximum Gross Floor Area. An administrative variation increasing by not more than 100 square feet, the maximum gross floor area on a zoning lot for the purpose of renovating a single family

detached dwelling originally constructed prior to January 1, 1993. This administrative variation may apply to the expansion of the footprint of the single family detached dwelling or an increase of the building coverage attributable to construction of a detached garage in replacement of an attached garage.

e. Vertical or Horizontal Extensions of Nonconforming Single Family Detached Dwelling. An administrative variation to allow the vertical or horizontal extension(s) of an existing exterior wall of a single family detached dwelling that is nonconforming with respect to the minimum required interior side, corner side, or rear yard, provided that 1) the extension does not increase the encroachment into the required yard and 2)the existing exterior wall does not encroach more than 10% into the required yard.

SECTION 4. Title 10 (Development Control Ordinance), Chapter 4 (Development Standards of General Applicability), Table 4-1 (Allowable Obstructions) shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

Table 4-1: ALLOWABLE OBSTRUCTIONS

Type Of Structure Or Use Obstruction	**Front And Corner Side Yards**	**Side Yard**	**Rear Yard**
Air conditioning condenser / compressor; subject to the provisions of subsection 10-4-4(G) of this chapter			X
Air conditioners which are window units projecting not more than 18 inches into the required yard	X	X	X
Arbors and trellises	X	X	X
Awnings and canopies, extending not more than $2^1/_2$ feet into front or side yards and not more than 5 feet into rear yards	X	X	X
Balconies projecting not more than 5 feet			X
Bay windows which project 2 feet or less on the first or second floors, but not both	X		X
Breezeways and open porches			X
Central air conditioning systems, heating, ventilating, pool and filtering equipment, the outside elements of which extend not more than 4 feet into the yard. (See 10-4-4: "Accessory Uses and Structures" for additional regulations that may apply.)			X
Chimneys projecting ~~18~~ 24 inches or less into the yard	X	X	X
Decks (open), 2 feet high or less			X

Eaves, not including gutters projecting 3 feet or less into the yard	X	X	X
Fallout shelters (completely underground)			X
Fences or walls subject to applicable height restrictions of subsection 10-4-4F of this chapter	X	X	X
~~Fire escapes projecting 4 feet or less~~	-	-	~~X~~
Flagpoles	X	X	X
Garages, detached, subject to the provisions of subsection 10-4-4A of this chapter			X
Laundry drying equipment (clothesline and poles)			X
Parking, carports and covered parking spaces			X
Porches (attached, covered and unenclosed) projecting 5 feet or less. In the case of existing homes where the average block face setback exceeds the minimum front yard setback for that zoning district, open unenclosed porches may encroach into the required front yard setback (block face average) to a maximum of 8 feet provided that the encroachment does not exceed the front building face of the adjoining properties by more than 8 feet or exceed the minimum allowed encroachment of the district of 5 feet in a 30 foot setback	X		X
Recreational equipment, provided that basketball standards and backboards shall be allowed in all yards			X
Satellite dish antennas			X
Signs, subject to the Western Springs sign ordinance	X	X	X
Steps 4 feet or less above grade which are necessary for access to a permitted building or for access to a zoning lot from a street or alley projecting to within 6 feet of the lot line	X	X	X
Terraces which are open and not over 3 feet above the average level of the adjoining ground (does not include permanently roofed over terrace or porch)	X	X	X

SECTION 5. Title 10 (Development Control Ordinance), Chapter 4 (Development Standards of General Applicability), Section 10-4-4 (Accessory Uses and Structures), Subsection 10-4-4(A)(2) (General Provisions; Area Limitation) of the Western Springs Municipal Code is amended to read, in its entirety), as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

2. Area Limitation: Enclosed accessory uses and structures shall comprise no more than a total of ten percent (10%) of the lot area. In addition, accessory uses, whether within enclosed structures

or not, shall comprise not more than thirty five percent (35%) of a required yard of a lot in a residence district, except that detached garages within the required rear yard of a corner or reverse corner lot shall be excluded from the maximum thirty five percent (35%). In the case of driveways, not more than twenty percent (20%) of the lot area in a residence district may be devoted to a driveway. In addition, the size of driveway area in the required front or corner side yard shall be no more than one thousand one hundred (1,100) square feet in the A and R-1 districts and not more than six hundred sixty (660) square feet in any other residence district, or forty four percent (44%) of said required yards in any residence district, whichever is greater. In no case shall driveway width in required front or corner side yards exceed twenty two feet (22') with the exception of three (3) car garages which may have a width of thirty three feet (33').

SECTION 6. Title 10 (Development Control Ordinance), Chapter 4 (Development Standards of General Applicability), Section 10-4-5 (Temporary Uses), Subsection 10-4-5(D) (Temporary Uses and Structures Subject to Administrative Approval) of the Western Springs Municipal Code shall be amended as follows, which shall be placed in alphabetical and numerical order (new text is marked with underlining; deletions to existing text are marked using strikethrough):

9. Beekeeping on single-family residential lots are allowed in accordance with the following regulations:

a. Beekeeping is only permitted on single-family residential lots in the A, R-1, and R-2 Districts.

b. No more than two (2) colonies shall be located on one lot and no more than one (1) apiary on one lot.

c. Setbacks: Bees and beekeeping shelters are prohibited in the required front, corner side, and interior side yards. No colony shall be kept closer than ten feet (10') from any lot line.

d. Fencing Or Flyways: The owner shall establish and maintain a flyway barrier at least six feet (6') in height consisting of a solid wall, fence, dense vegetation or combination thereof. The flyway barrier shall be parallel to the property line, located only upon such property line as is closest to the colony, and extend ten feet (10') beyond the colony in each direction so that all bees are forced to fly at an elevation of at least six feet (6') above the ground level over the property lines in the vicinity of the hive. In instances where more than one hive is kept, a flyway shall be installed and maintained per hive. This flyway barrier requirement shall not apply if the setback between any colony and the closest lot line is twenty five feet (25') or more.

e. General Maintenance: Owners shall keep all beekeeping equipment in good condition and secure unused equipment from weather, potential theft, vandalism or occupancy by migratory colonies. Each owner shall ensure that no bee comb or other materials are left upon the grounds of the property where a hive is maintained. Upon their removal from the hive, all such materials shall promptly be disposed of in a sealed container or placed within a building or other beeproof enclosure.

f. Queens: In any instance in which a colony exhibits unusually aggressive characteristics by stinging or attempting to sting without due provocation, or exhibits an unusual

disposition toward swarming, it shall be the duty of the beekeeper to requeen the colony. Queens shall be selected from stock bred for gentleness and nonswarming characteristics.

g. Noncommercial Use: No commercial use or retail sales of bees, honey, honeycomb or other bee products or beekeeping products shall be permitted from any residential property.

h. Water: Each beekeeper shall ensure a convenient source of water is available to the bees at all times during the year so the bees will not congregate at swimming pools, pet watering bowls, birdbaths, or other water sources where they may cause human, bird, or domestic pet contact. A permit may be required depending on the proposed source, see Title 9 of this Code for more information.

i. Registration: The beekeeper must register the colonies and maintain valid registration with the Illinois Department of Agriculture or as otherwise required by the State of Illinois.

j. Signage. A weatherproof sign no greater than twelve (12) inches by ten (10) inches must be posted on all property lines and outside the apiary fencing stating “State Registered Beehive(s) on Property” or similar wording approved by the Director of Community Development.

k. Compliance: All beekeepers shall be in compliance with the Illinois Bees and Apiaries Act, including, but not limited to having all hives accessible for State inspectors to check on a routine basis on their practice and schedule or as needed. Owners must have their beehives inspected by the State of Illinois Apiary Inspector at least every other year.

l. Permit Required: Beekeeping shall require a permit from the Village. Permit submittals must demonstrate compliance with all requirements of this Subsection. At the time of application for a Beekeeping Permit, the applicant shall: 1) Submit a scaled site plan of the proposed Apiary showing placement of the Beehive(s), the flyway barrier and fences and compliance with all applicable requirements outlined in this Article; 2) Provide a Certificate of Insurance from property owner's homeowner's insurance company verifying that Beekeeping is covered by the insurance policy covering the property where the apiary will be located; 3) Provide a certificate of completion or similar documentation, from a Beekeeping training course. Owners are required to stay current and demonstrate their knowledge of colony health and management; 4) Submit written consent from all neighbors on residential property that abuts the proposed location, in a form provided by the Village. Notification is not required for renewals; 5) Submit a properly executed hold harmless agreement between the applicant, (if the location of the Apiary is owned by a 3rd party, then the property owner as well) and the Village, waiving any liability for any loss or injury resulting from the design, construction or operation of the apiary, in lieu of any zoning or building permits that may be associated with the construction of an apiary; 6) Pay a nonrefundable initial permit fee as determined by the current published fee schedule; 7) Provide written consent of the property owner, if the apiary will be located on residential property not owned by the applicant. The property owner will be required to sign the application as well; 8) State Registration. The owner must, within 30 days of installation of a colony into a Beehive, register their Beehive(s) with the Illinois Department of Agriculture or as otherwise required by the State of Illinois. State

Registration must be maintained for the life of the Beehive; 9) Expiration and Renewal. Beekeeping Permits shall be valid for up to one year. All Beekeeping Permits expire on March 31st of each calendar year. Beekeepers must submit their renewal application at least thirty (30) days prior to the expiration date. A renewal permit shall be subject to the requirements in this section, with payment of a permit renewal fee as determined by the current published fee schedule.

SECTION 7. Title 10 (Development Control Ordinance), Chapter 4 (Development Standards of General Applicability), Section 10-4-5 (Temporary Uses) of the Western Springs Municipal Code shall be amended to add a new subsection 'Mobile Food Vending' as follows, which shall be placed in alphabetical and numerical order (new text is marked with underlining; deletions to existing text are marked using strikethrough):

G. Mobile Food Vending:

1. Licensing, Health and Safety Requirements:

a. It shall be unlawful for any person to operate a mobile food vehicle within the Village without first having obtained a Mobile Food Vending License for that purpose.

b. Any person wishing to operate a mobile food vehicle within the Village shall complete an application and receive a Mobile Food Vehicle Vending License from the Village. Each application must include:

i. A copy of the vendor's food handler certification card provided by the Illinois Department of Public Health.

ii. A copy of a valid driver's license of vendor or operator of the vehicle.

iii. Vendor's certification of the mobile food vehicle's compliance with the Illinois Food Code.

iv. A preliminary health inspection or in possession of a current health inspection passing mark from the Cook County Department of Public Health.

v. A signed hold harmless agreement.

vi. Proof of comprehensive general liability insurance with the following requirements: 1) Coverage of $1,000,000 per occurrence and $2,000,000 in aggregate; 2) Umbrella coverage ($1,000,000 per occurrence and $1,000,000 in aggregate); 3) Workers Compensation – Statutory; 4) Village listed as certificate owner.

vii. A list of food items offered and schematic drawing showing safe usage of energy source and waste disposal.

viii. Proposed location of vehicle, identifying the locations for the vehicle, power source(s), and customer queuing. If the vehicle is planned to be parked in different locations in the Village over 12 months, these proposed locations must be identified before each operation.

c. A Mobile Food Vehicle Vending License shall be valid from January 1 to December 31 of each calendar year.

i. A licensing fee of $100 must be paid to the Village upon issuance of a license.

ii. A license certificate will be issued to the vendor for use on the approved vehicle and must be on display at all times.

iii. Licenses are not transferable between vehicles or vendors.

d. The Village reserves the right to rescind licensure if provided information is found to be embellished, falsified, or otherwise misleading.

e. Vendors must detail plans for the mitigation of litter and disposal of grease, food waste, and other items associated with the preparation of food.

2. Operation:

a. Mobile food vendors shall pay Village sales tax and submit receipts from sales, if open to the general public.

b. Mobile food vendors seeking to operate within the public right-of-way must notify the Village, and provide all required information, a minimum of 14 business days prior to the proposed date of operation.

c. Mobile food vending may occur between 9 a.m. and 9 p.m., unless operating as part of a separately permitted, Village-sanctioned event.

d. Alcohol sale by food vendors is not permitted.

e. Mobile food vending may not occur within 500 feet of a school, except one hour after dismissal. Food trucks may be permitted on school property if part of a separately-permitted school event.

f. Mobile food vending shall occur from the side of the vehicle closest to the curb.

g. Mobile food vending on a private property for private events may occur a maximum of one (1) day per year for a property in residential zoning districts.

h. Mobile food vending on a private property for private events may occur a maximum of two (2) days per month for a private property in a commercial

district and institutional uses (including but not limited to Western Springs Park District facilities, and public and private schools).

i. Mobile food vending must be hosted by or otherwise affiliated with a local business or entity.

ii. When hosting a food vendor, the local business shall be responsible for obtaining licensure for the mobile food vending operation, submitting a mobile food vending application, and providing adequate notice to the Village.

i. Mobile food vending to the general public may occur on public right-of-way a maximum of one (1) day per year adjacent to a property in residential zoning districts, per license holder, excluding Village sanctioned events.

j. Mobile food vending to the general public may occur on public right-of-way a maximum of two (2) days per month adjacent to a private property in a commercial district and institutional uses (including but not limited to Western Springs Park District facilities, and public and private schools), per license holder, excluding Village-sanctioned events.

k. No more than two (2) mobile food vending operations may operate on the public right-of-way at the same time in the C-1 zoning district, excluding during Village-sanctioned events.

l. Vendors must pay the municipal parking fees (if any) of permit spaces they occupy.

m. At least one State-certified food handler must be within the vehicle when serving occurs.

3. Location

a. Mobile food vending shall not obstruct the flow of traffic, the ease of pedestrian or cycle movement, or the visibility of intersections, crosswalks, curb cuts, drive aisles, or alleys.

b. Licensed vendors shall submit an application for location on a public right-of-way no less than 14 business days prior to the planned event.

c. Vendor is required to provide barricades and property safety measures to ensure safety and visibility of the site. For downtown diagonal parking spaces, three contiguous spaces will be reserved. (Note: The Village can consider preparing a location map for permitted downtown vending locations).

d. Mobile food vendors must submit proof of access to a restroom with handwashing facilities within 300 feet of the proposed location.

e. Mobile food vendors may not operate within 300 feet of the lot line of an existing restaurant, unless having received written consent from that entity.

i. Mobile food vendors may not exchange money or other gifts for approval from restaurant owners.

4. Enforcement:

a. Village Law Enforcement Services and Fire and Emergency Medical Services will approve planned locations within the public right-of-way as applications are sent in.

b. Vendors must prominently display the active Village license on the passenger side of the front windshield.

c. Violation of Village codes will result in a $750 per day fine.

d. Falsified information in the license or public right-of-way application will result in the immediate suspension of a Village license.

SECTION 8. Title 10 (Development Control Ordinance), Chapter 5 (Zoning Districts), Section 10-5-2 (Purpose Statements), Subsections 10-5-2(B) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text marked using strikethrough):

B. **Business Districts:**

1. C1 - Village Center Commercial District: ~~This district constitutes the town center or downtown of Western Springs and is intended to accommodate a range of compatible retail, financial, service, governmental, professional and residential uses in a setting conducive to and safe for pedestrian activity. This district is intended principally for retail commercial uses.~~ This district constitutes downtown Western Springs and supports a range of harmonious activities in a safe environment for pedestrians. Appropriate uses in the district generally include retail, service, governmental, professional and multiple family residential. As a vibrant downtown district, the area may also see a variety of secondary or accessory functions to permitted uses that attract more people to a particular business and to the area generally. While this district is intended principally for retail commercial uses on the first floor, it is understood that some other first-floor uses can fit into the fabric of the district, provided the area maintains its retail commercial emphasis.

2. C2 - Community Shopping District: ~~This district is intended to provide for those commercial activities that require locations along arterial or collector streets with larger lots and greater vehicular access.~~ This district provides for commercial activities serving the Village and surrounding areas, and that are typically located on sites along arterial or collector streets with comparatively large lots, high visibility, and easy vehicular access. Development in this district should support auto-oriented commercial uses on sites with designs and amenities that incorporate well landscaped on-site parking, adequate signage, pedestrian safety, outdoor dining, and plazas or seating areas.

3. Downtown Pedestrian Overlay District (POD): This overlay district promotes retail and service-based ground floor uses in the central portion of downtown Western Springs along Burlington and Hillgrove Avenues. The district reserves first-floor commercial spaces primarily for retail or personal service uses that will foster a vibrant, pedestrian-oriented shopping, dining, and services district. Upper stories are appropriate for office, medical, and residential uses. The design of buildings should promote pedestrian access from the street with prominent front door entrances, clear and transparent windows, and pedestrian-oriented signage. Design elements that limit pedestrian character are not in keeping with the desired character of this area (such as tinted or mirrored windows, curb cuts, and monolithic front facades).

~~3.~~ 4. O - Limited Office District: This district is intended to provide an environment for small office facilities that generate minimal vehicular traffic and require little visibility from the streets on which they are located. It is intended that this district be located principally to function as a buffer between commercial and residential districts. This district must be located adjacent to a commercial district. A single residential dwelling is permitted above the first floor.

~~4~~. 5. ORI - Office Research And Limited Industrial District: This district is intended to provide an environment for light industrial uses that do not produce noise, vibration, smoke, particulate matter, fire and explosive hazards, toxic matter, odorous matter, and/or glare, or otherwise create nuisances which could impact nearby residential development. (Ord. 92-1855, 12-14-1992)

~~5.~~ 6. DT - Downtown Transitional District: This district is intended to provide a transitional zone used to gradually decrease the intensity of use and to separate single-family residentially zoned property and commercially zoned property. It provides a location for surface parking lots and potentially other compatible land uses adjacent to and serving commercial uses within the C1 - village center commercial district. (Ord. 03-2266, 10-27-2003)

~~6.~~ 7. MXD - Mixed Use Commercial-Residential District: This district is intended to provide opportunities for development of sites with new or rehabilitated buildings that contain a mix of commercial and residential uses. The first floor of such buildings should provide space for commercial ~~office, retail and service~~ uses that support the vibrancy of the downtown area and that are easily accessible to the public. First floor residential uses are permitted but should be located in areas that are secondary to the commercial spaces. The first floor of the building also should include other related ancillary services and amenities that support the building occupants, such as internal pedestrian accessways and elevator areas, storage areas, concierge or security desk, mechanical and utility rooms, restrooms, meeting rooms and common areas that serve some or all of the building uses. The properties that are eligible to be rezoned to this district are located at the southeast corner of the Burlington Avenue and Wolf Road intersection and are identified as: property index numbers 18-05-305-011, 18-05-305-028 and 18-05-305-029 (formerly the Tischler's Grocery Store site and the Breen's Drycleaner Store site); property index numbers 18-05-305-009, 18-05-305-010 and 18-05-305-023 (the Benak Auto Repair Shop site); and property index numbers: 18-05-305-026 (the Commonwealth Edison site) (see also, plan commission recommendation no. 15-01).

SECTION 9. Title 10 (Development Control Ordinance), Chapter 7 (Business District Regulations) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text marked using strikethrough):

CHAPTER 7: BUSINESS DISTRICT REGULATIONS

SECTION
10-7-1: Permitted And Conditional Uses
10-7-2: ~~10-7-1:~~ C1 - Village Center Commercial District
10-7-3: ~~10-7-2~~: C2 - Community Shopping District
10-7-4: ~~10-7-3:~~ O - Limited Office District
10-7-5: ~~10-7-4:~~ ORI - Office Research And Limited Industrial District
10-7-6: ~~10-7-5:~~ DT - Downtown Transitional District
10-7-7: ~~10-7-6:~~ Personal Wireless Service Facility On Village Owned Property
10-7-8: ~~10-7-7:~~ MXD - Mixed Use Commercial-Residential District

10-7-1: PERMITTED AND CONDITIONAL USES

A. Business District Use Table: Table 7-1 below establishes the uses allowed in each business district.

1. Permitted Use ("P"): A "P" indicates that a use is a permitted use allowed by-right within the designated zoning district provided all applicable standards are met.

2. Conditional Use ("C"): A "C" indicates the use requires the approval of a conditional use permit in order to be allowed within the designated zoning district.

3. No designation: The absence of a letter (a blank space) or the absence of the use from the table indicates that the use is not allowed within the designated zoning district.

TABLE 7-1: BUSINESS DISTRICT USE TABLE

Use	C-1	C-2	O	ORI	DT	MXD
Accessory / compatible uses – up to 30% of total square footage	P	P	P	P	P	P
Accessory / compatible uses – greater than 30% of total square footage	C	C	C	C	C	C

Taverns / pubs	P					
Theaters				C		
Two-family dwellings					P	
Vehicle sales, indoor sales only (new and used, including automobiles, motorcycles, and recreational vehicles)						
Veterinary offices	C	C				
Village government offices and buildings and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting telecommunication towers greater than forty five feet (45') in height, except for monopoles owned by a state, federal or local government body that are used primarily for governmental or public safety communications, provided that the monopole has a maximum height of one hundred feet (100') and conforms to the regulations set forth in chapter 4, part V of this ordinance	C	C				

*If this use is located within the Downtown Pedestrian Overlay District (for those properties located along Burlington Avenue from Grand Avenue to Johnson Avenue, and along Hillgrove Avenue from Lawn Avenue to Johnson Avenue), then the use is subject to the following conditions: if the use is proposed on the first/ground floor, the full width of the storefront must be devoted exclusively to retail sales to a depth within the store of not less than an average of 15 feet as measured from the storefront windows.

~~10-7-1:~~ 10-7-2: C1 - VILLAGE CENTER COMMERCIAL DISTRICT:

~~A. Permitted Uses:~~

~~Bakeries.~~
~~Culinary schools.~~
~~Dwelling units located on the second floor or above, provided the minimum floor area per dwelling unit meets the requirements of subsection 10-6-5I of this ordinance.~~
~~Offices.~~
~~Restaurants, except drive-in and drive-through restaurants.~~
~~Retail stores (excluding retail sales of firearms and ammunition), including, but not limited to, food stores, candy shops, clothing and shoe stores, sporting goods stores (excluding retail sales of firearms and ammunition), fabric shops, furniture and home furnishings stores, camera and photographic shops, appliance stores, florists, jewelry stores, hardware stores (excluding the retail sale of firearms and ammunition), drugstores and gift stores.~~

~~Service uses including, but not limited to, laundry and dry cleaning facilities, beauty parlors, travel agencies, financial institutions and shoe repair.~~

~~B. Conditional Uses:~~

~~All retail establishments, financial institutions and service uses that include drive-through facilities.~~
~~Automobile service stations.~~
~~Commercial/residential mixed use development.~~
~~Fire and police stations.~~
~~Municipally owned parking lots, commuter or otherwise.~~
~~Music, art and dance schools.~~
~~Outdoor eating facilities, in connection with restaurants, provided the owner or operator shall provide daily litter cleanup within one hundred fifty feet (150') of the property along the rights of way of public streets abutting the property.~~
~~Post offices.~~
~~Privately owned parking lots, provided that the parking lot is exclusively used in conjunction with an adjacent building located in the C1 - village center commercial district as a convenience for patrons, employees, tenants and owners of the building. As a condition of the issuance of the conditional use permit, the property owner shall file with the office of the Cook County recorder of deeds a covenant against title to the commercial building and parking lot properties, which has been approved by the village attorney, requiring that title to said properties always be held by the same owner. A copy of the recorded covenant shall be filed with the village. The private parking lot shall not be operated as a commuter parking lot.~~
~~Village government offices and buildings and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting telecommunication towers greater than forty five feet (45') in height, except for monopoles owned by a state, federal or local government body that are used primarily for governmental or public safety communications, provided that the monopole has a maximum height of one hundred feet (100') and conforms to the regulations set forth in chapter 4, part V of this ordinance.~~

A. ~~C.~~ Minimum Lot Area: None.

B ~~D~~. Minimum Lot Width: None.

C ~~E.~~ Minimum Yard Requirements:

1. Front yard: None required.
2. Corner side yard: None required.
3. Interior side yard: None required.
4. Rear yard: Ten percent (10%) of the lot depth or ten feet (10'), whichever is less.

D ~~F.~~ Transitional Yard Requirements: Where the lot line of a lot in the C1 district abuts a lot in a residence district, a transitional yard will be provided as outlined below:

1. Front yard: None required.

2. Corner side yard: Where the rear lot line of a corner lot abuts a lot in a residential district, or is located across a street right of way from a residential lot, a five foot (5') corner side yard shall be provided.
3. Interior side yard: Equal to that of the abutting residential district, but not less than five feet (5').
4. Rear yard: Ten percent (10%) of the lot depth or twenty feet (20'), whichever is less.

E. ~~G~~. Maximum Building Height:

1. Permitted uses: Thirty five feet (35') or two and one-half ($2^1/_2$) stories, whichever is less.
2. Conditional uses: Forty five feet (45') or three and one-half ($3^1/_2$) stories, whichever is less.
3. Conditional uses for Commercial/Residential Mixed Use Developments: Forty-five feet (45') or four (4) stories, whichever is less, provided that the fourth story is set back a minimum of fifteen feet (15') from the front building parapet wall." (collectively, the "Code Amendments"); and

F ~~H~~. Maximum Building Coverage: The amount of lot area covered by permitted or accessory buildings or structures shall not exceed ninety percent (90%).

~~10-7-2:~~ 10-7-3: C2 - COMMUNITY SHOPPING DISTRICT:

~~A. Permitted Uses:~~

~~Art gallery and artists' studios.~~
~~Automobile service and repair to include gasoline sales and outdoor sales and display limited to the sales of tires, motor oil and other typical automobile service goods.~~
~~Bakeries.~~
~~Culinary schools.~~
~~Garden centers and florists, including outdoor sales where such outdoor sales areas are separated and screened from parking areas and public streets.~~
~~Laundry and dry cleaning facilities.~~
~~Offices.~~
~~Restaurants, except drive-in restaurants and restaurants with drive-through facilities.~~
~~Retail stores as listed under the C1 - village center commercial district.~~
~~Service uses as listed under the C1 - village center commercial district.~~

~~B. Conditional Uses:~~

~~All retail establishments, financial institutions and service uses that include drive-through facilities.~~
~~Animal hospitals, veterinarians' offices.~~
~~Car washes.~~
~~Churches, synagogues and other places of religious worship, including any related parsonage, convent or retreat house.~~
~~Daycare centers.~~
~~Drive-in restaurants and restaurants with drive-through facilities.~~

~~Hotels and motels.~~
~~Nursing homes and convalescent centers.~~
~~Planned developments.~~
~~Police and fire stations.~~
~~Vehicle sales, new and used, including automobiles, motorcycles and recreational vehicles.~~
~~Village government offices and buildings and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting telecommunication towers greater than forty five feet (45') in height, except for monopoles owned by a state, federal or local government body that are used primarily for governmental or public safety communications, provided that the monopole has a maximum height of one hundred feet (100') and conforms to the regulations set forth in chapter 4, part V of this ordinance.~~

A ~~C.~~ Minimum Lot Area: Twenty thousand (20,000) square feet.

B ~~D~~. Minimum Lot Width: One hundred fifty feet (150').

C ~~E.~~ Minimum Yard Requirements:

1. Front yard: Fifty feet (50').
2. Corner side yard: Fifty feet (50').
3. Interior side yard: Fifteen feet (15').
4. Rear yard: Twenty five feet (25').

D ~~F.~~ Minimum Open Space: The minimum amount of open space (lot area not covered with buildings, paving or other impervious surface materials) shall not be less than twenty percent (20%) of lot area.

E ~~G~~. Maximum Building Height: No building shall exceed thirty five feet (35') or two and one-half ($2^1/_2$) stories in height, whichever is less.

~~10-7-3:~~ 10-7-4: O - LIMITED OFFICE DISTRICT:

~~A. Permitted Uses:~~

~~Multi-family dwelling units, located above the first floor.~~
~~Professional offices, including, but not limited to, offices for attorneys, physicians, dentists, architects, consulting engineers, insurance agents, and village government offices.~~

~~B. Conditional Uses:~~
~~Churches, synagogues and other places of worship.~~
~~Financial institutions that may or may not include drive- through facilities.~~
~~Libraries.~~
~~Planned developments.~~
~~Public parks and playgrounds.~~
~~Schools, public and private including elementary, junior high and high schools but excluding colleges, universities and trade schools.~~

A ~~C~~. Minimum Lot Area: Six thousand two hundred (6,200) square feet.

B ~~D~~. Minimum Lot Width: Fifty feet (50').

C ~~E~~. Minimum Yard Requirements: Yard requirements shall be the same as those in the adjacent or nearest residential district, provided that in the front yard, no parking shall be allowed.

D ~~F~~. Minimum Open Space: The minimum amount of open space (lot area not covered with buildings, paving or other impervious surface materials) shall not be less than forty percent (40%) of lot area.

E ~~G~~. Maximum Building Height: Thirty five feet (35') or two and one-half ($2^1/_2$) stories, whichever is less.

F ~~H~~. Maximum Building Coverage:

1. Corner lots: Thirty five percent (35%) of lot area.
2. Interior lots: Forty percent (40%) of lot area. (Ord. 92-1855, 12-14-1992)

~~10-7-4~~: 10-7-5: ORI - OFFICE RESEARCH AND LIMITED INDUSTRIAL DISTRICT:

A. Permitted Uses: Permitted uses shall consist of office, research and light industrial uses operated within entirely enclosed buildings which do not produce nuisances in terms of noise, smoke, light, odor, vibration, fumes, dust or traffic and are compatible with adjacent public, residential or business uses~~, including, but not limited to, the following:~~ as listed in Table 7-1.

~~Accessory uses and buildings, incidental to and on the same zoning lot as the principal use.~~
~~Contractors' offices.~~
~~Light assembly.~~
~~Offices.~~
~~Public service buildings and uses.~~
~~Research and development.~~
~~Storage, within enclosed buildings including self-storage facilities. (Ord. 09-2530, 3-23-2009)~~

~~B. Conditional Uses:~~
~~Adult uses.~~
~~Laundry facilities.~~
~~Outdoor storage yards which are accessory to permitted uses conducted principally within enclosed buildings.~~
~~Retail sales of firearms and ammunition.~~
~~Theaters.~~
~~Village government offices and buildings and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting telecommunication towers greater than forty five feet (45') in height, except for monopoles owned by a state, federal or local government body that are used primarily for governmental or public safety communications, provided that the monopole has a maximum height of one hundred feet (100') and conforms to the regulations set forth in chapter 4, part V of this ordinance. (Ord. 03-2266, 10-27-2003; amd. Ord. 07-2432, 1-22-2007)~~

B ~~C.~~ Minimum Lot Area: Twenty thousand (20,000) square feet.

C ~~D.~~ Minimum Lot Width: One hundred feet (100').

D ~~E.~~ Minimum Yard Requirements:

1. Front yard: Fifteen feet (15').
2. Corner side yard: Fifteen feet (15').
3. Interior side yard: Six feet (6').
4. Rear yard: Twenty feet (20').

E ~~F.~~ Maximum Building Height: Thirty five feet (35') or two and one-half ($2^1/_2$) stories, whichever is less.

F. ~~G.~~ Maximum Building Coverage: Sixty percent (60%) of lot area. (Ord. 03-2266, 10-27-2003)

~~10-7-5~~: 10-7-6: 10-DT - DOWNTOWN TRANSITIONAL DISTRICT:

~~A. Permitted Uses:~~
~~Accessory uses and buildings, incidental to and on the same zoning lot as the principal use.~~
~~Churches, synagogues and other places of religious worship, including any related parsonage, convent or retreat house.~~
~~Two-family dwellings. (Ord. 03-2266, 10-27-2003)~~

~~B. Conditional Uses:~~
~~Churches, synagogues and other places of worship including any related parsonage, convent or retreat house in cases where said building or structure does not meet the minimum requirements of chapter 4, "Development Standards Of General Applicability", of this ordinance, this chapter, and chapter 11, "Floodplain And Stormwater Management", of this ordinance or where a use does not qualify as an accessory use of said church, synagogue or other place of worship.~~
~~Daycare centers located in institutional buildings (e.g., churches, schools, etc.).~~
~~Libraries, publicly owned not for profit.~~
~~Municipal utility and service uses including fire stations, police stations, waterworks, reservoir, pumping stations and filtration plants.~~
~~Planned developments.~~
~~Private utilities including substations, transmission facilities and related facilities and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting transmitting or receiving telecommunication towers greater than forty five feet (45') in height.~~
~~Privately owned parking lots, provided that the parking lot is exclusively used in conjunction with an adjacent building located in the C1 village center commercial district as a convenience for patrons, employees, tenants and owners of the building. As a condition of the issuance of the conditional use permit, the property owner shall file with the Cook County recorder of deeds a covenant against title to the commercial building and parking lot properties requiring that title to said properties always be held by the same owner. A copy of the recorded covenant shall be filed with the village. The private parking lot shall not be operated as a commuter parking lot.~~
~~Public parking lots owned and operated by the village of Western Springs.~~
~~Public parks and playgrounds.~~

~~Schools, public and private including elementary, junior high, and high schools, but excluding colleges, universities and trade schools.~~
~~Single-family attached dwellings, up to four (4) dwelling units per building.~~

A ~~C.~~ Minimum Lot Area:

1. Two-family dwellings: Three thousand one hundred (3,100) square feet per dwelling unit.
2. Single-family attached dwellings: Three thousand one hundred (3,100) square feet per dwelling unit.

B ~~D.~~ Minimum Lot Width: Fifty feet (50'), except that lots platted after the effective date hereof shall be not less than sixty feet (60') in width.

C ~~E~~. Minimum Yard Requirements:

1. Front yard: Thirty feet (30') provided that the front yard need not be any greater than the average setback of existing dwellings along the same block face.
2. Corner side yard: Fifteen feet (15').
3. Interior side yard: For all lots, including corner lots, and reversed corner lots platted prior to October 1, 1999, the corner side yard shall be ten feet (10') or ten percent (10%) of the lot width, whichever is less. For interior lots only, the other yard shall be not less than ten feet (10') in width.

For reversed corner lots, platted after October 1, 1999, the corner side yard shall be a minimum of fifteen feet (15') and not less than the average setback of existing dwellings along the same block face yet not be required to be greater than the required front yard setback of the district.

4. Rear yard: Thirty feet (30').

D ~~F~~. Maximum Building Height: Thirty five feet (35') or two and one-half ($2^1/_2$) stories, whichever is less. In no case shall building height exceed thirty eight feet (38') as measured from the sidewalk level, or its equivalent established grade, opposite the middle front of the building at the top of the highest gable.

E ~~G~~. Maximum Building Coverage: The surface coverage of all principal and enclosed buildings and structures shall not exceed thirty percent (30%) of the lot area. Notwithstanding the above, the maximum allowable building coverage shall be reduced by four hundred forty (440) square feet and said reduction shall be allocated for garage space, attached or detached, present or future.

F ~~H.~~ Floor Area, Gross (For Determining Allowable Area In Two- Family Residential Districts): Except as hereinafter provided, the sum of the gross horizontal areas of all floors of all stories and partial stories of a building, or such area devoted to a specific use, measured from the exterior face of exterior walls or from the centerline of walls separating two (2) buildings or uses. The application of the gross floor area regulations shall be in conformance with appendix B that is an integral part of this ordinance. (Ord. 03-2266, 10-27-2003)

~~10-7-6~~: 10-7-7: PERSONAL WIRELESS SERVICE FACILITY ON VILLAGE OWNED PROPERTY:

Personal wireless service facilities (including telecommunication towers and antennas) located on property owned, leased or otherwise controlled by the village are permitted in any zoning district provided a license agreement or lease agreement authorizing such personal wireless service facilities has been approved by the village and the other applicable provisions of this ordinance are complied with, except that towers and related personal wireless service support facilities are not permitted in any village public right of way within two hundred feet (200') of any habitable residential building or structure. The installation and maintenance of antennas, nontower personal wireless service facilities and related personal wireless service support facilities such as the installation of wi-fi equipment and related infrastructure on light poles or utility poles located on property owned, leased or otherwise controlled by the village is not subject to the two hundred foot (200') setback regulation. (Ord. 07-2432, 1-22-2007)

~~10-7-7~~: 10-7-8: MXD - MIXED USE COMMERCIAL-RESIDENTIAL DISTRICT:

~~A. Permitted Uses:~~
~~Each of the permitted uses allowed in the C1 - village center commercial district.~~

~~B. Conditional Uses:~~
~~All retail establishments, financial institutions and service uses that include drive-through facilities.~~
~~Daycare centers.~~
~~Planned developments including commercial-residential mixed use developments.~~
~~Private utilities, including substations, transmission facilities and related facilities, and telecommunication towers, antennas and personal wireless services facilities, but prohibiting transmitting or receiving telecommunication towers greater than forty five feet (45') in height.~~
~~Privately owned parking lots, provided that the parking lot is exclusively used in conjunction with an adjacent building located in the MXD - mixed use commercial- residential district as a convenience for patrons, employees, tenants and owners of the building. As a condition of the issuance of the conditional use permit, the property owner shall file with the office of the Cook County recorder of deeds a covenant against title to the building and parking lot properties, which has been approved by the village attorney, requiring that title to said properties always be held by the same owner. A copy of the recorded covenant shall be filed with the village. The private parking lot shall not be operated as a commuter parking lot, unless the village's corporate authorities, by adoption of an ordinance, allow for the use as a commuter parking lot but not a detached multilevel enclosed parking garage.~~

A. ~~C~~. Eligible Properties: The properties that are eligible to be rezoned to this district are located at the southeast corner of the Burlington Avenue and Wolf Road intersection and are identified as property index numbers 18-05-305-011, 18-05-305-028 and 18-05-305-029 (formerly the Tischler's Grocery Store site and the Breen's Drycleaner Store site); property index numbers 18-05-305-009, 18-05-305-010 and 18-05-305-023 (the Benak Auto Repair Shop site); and property index numbers: 18-05-305-026 (the Commonwealth Edison site).

B. ~~D.~~ Minimum Lot Area: None.

C. ~~E~~. Minimum Lot Width: None.

D. ~~F.~~ Minimum Yard Requirements:

1. Front yard: None.
2. Corner and reversed corner side yard: None.
3. Interior side yard: None.
4. Rear yard: None.
5. Side yard: None.

E. ~~G.~~ Transitional Yard Requirements:

1. Front yard: None.
2. Corner side yard: None.
3. Interior side yard: Equal to that of the abutting residential district, but not less than five feet (5'); except that no interior side yard is required if the abutting property is not used for a residential purpose. The setback requirement may be waived or reduced by the village's corporate authorities as part of the approval of a development application.
4. Side yard: Equal to that of the abutting residential district, but not less than five feet (5'); except that no side yard is required if the abutting property is not used for a residential purpose. The setback requirement may be waived or reduced by the village's corporate authorities as part of the approval of a development application.
5. Rear yard: Twenty percent (20%) of the lot depth or thirty feet (30'), whichever is less; except that no rear yard is required if the abutting property is not used for a residential purpose. The setback requirement may be waived or reduced by the village's corporate authorities as part of the approval of a development application.

F. ~~H.~~ Minimum Required On Site Parking For Residential Dwelling Units: One on site parking stall per dwelling unit shall be provided for all multi-unit residential developments and commercial-residential mixed use developments.

G. ~~I.~~ On Site Parking For Commercial Spaces; Building Height Adjustment: On site parking spaces are not required to serve the commercial spaces located in a commercial-residential mixed use development; however, if on site parking spaces are dedicated for use by customers of the commercial tenant spaces, then the maximum building height of the commercial- residential mixed use development can be increased as provided in subsection J3 of this section.

H. ~~J.~~ Maximum Building Height:

1. Permitted uses: Thirty five feet (35'), or two and one-half ($2^1/_2$) stories, whichever is less.
2. Conditional uses: Forty five feet (45'), or three and one- half ($3^1/_2$) stories, whichever is less.
3. Conditional use with on site parking for commercial spaces: Fifty feet (50') or four (4) stories, whichever is less. For each on site parking space that is dedicated for use by customers of the commercial spaces, the forty five foot (45') maximum building height under subsection J2 of this section can be increased by one-half foot (0.5') up to a maximum of five feet (5') of additional vertical building height.

I. ~~K.~~ Minimum Setback For Fourth Floor: At least fifty percent (50%) of each side of the building adjacent to a public right of way (e.g., alley, sidewalk or street) shall have its fourth floor exterior wall set back from the third floor exterior perimeter wall a distance of at least six feet (6.0').

J. ~~L.~~ Maximum Building Coverage: The amount of lot area covered by a principal building shall not exceed ninety percent (90%).

K. ~~M.~~ Minimum Floor Area For Dwelling Units: The minimum floor area for dwelling units is set forth below:

1. Studio units: Six hundred fifty (650) square feet.
2. One bedroom units: Eight hundred (800) square feet.
3. Two (2) bedroom units: One thousand (1,000) square feet.
4. Three (3) bedroom units: One thousand two hundred (1,200) square feet.

The minimum floor area requirement for any dwelling unit(s) may be reduced by no more than twenty percent (20%) by ordinance approved by the village's corporate authorities as part of the approval of commercial- residential mixed use development after a public hearing is conducted by the plan commission.

Major changes to a set of approved final plans for a commercial-residential mixed use development may be approved by ordinance by the village's corporate authorities at a public meeting after compliance with subsection 10-8-5D of this ordinance. Minor changes to a set of approved final plans for a commercial-residential mixed use development may be approved by ordinance by the village's corporate authorities at a public meeting after compliance with subsection 10-8-5D of this ordinance. The submittal requirements for any minor changes to an approved set of final plans shall be a revised set of final plans showing the proposed changes and a signed cover memorandum from the architect or applicant explaining the changes and such other relevant documents requested by the community development director and the corporate authorities of the village. Minor changes shall not result in or create nonconformities with this ordinance. Major changes and minor changes are defined in subsection 10-8-5B of this ordinance.

L. ~~N.~~ Exemptions For Planned Developments: Any development that is approved as a planned development under this district shall be exempt from the following regulations contained in chapter 8, "Planned Developments", of this ordinance:

1. Subsection 10-8-3E: The minimum area of a planned development should be five (5) acres.
2. Subsection 10-8-3F: Yards along the periphery of a planned development should be compatible with the yards of the adjacent properties.
3. Subsection 10-8-4A3: Proposed use exceptions shall not represent more than forty percent (40%) of the site area or more than forty percent (40%) of the total floor area, whichever is less. However, in a residential planned development area no more than ten percent (10%) of the site area or a total floor area whichever is less, shall be devoted to commercial use, and provided that such commercial use is integral to the nature of the planned development.
4. Subsection 10-8-4B1b: In residential planned developments, the maximum number of dwelling units allowed shall not exceed by more than forty percent (40%) of the number of dwelling units permitted in the underlying zoning district.
5. Subsection 10-8-4B1c: The area of open space provided in a planned development shall be at least twenty five percent (25%) more than that required in the underlying zoning district.
6. Subsection 10-8-4B1d: Along the periphery of such planned developments, yards shall be provided as required by the regulations of the underlying zoning district.

7. Subsection 10-8-4B1e: Building height shall not exceed thirty five feet (35'), except that utilization of a building existing on the site which is taller than thirty five feet (35') shall be permitted.

8. Section 10-4-9, "Landscape Requirements": All developments in this district are exempt from the landscape requirements of this ordinance, subject to compliance with subsection O of this section.

M. ~~O.~~ Landscape Plan: As part of the application, the applicant shall provide a detailed landscape and streetscape plan for the development for village staff review and input, which shall be subject to approval by the village board after a recommendation is received from the plan commission.

N. ~~P.~~ Application Submittals, Approval Process, And Exceptions:

1. Application Submittals: The required submittals for a commercial-residential mixed use development shall be as set forth in subsection P4 of this section. The required submittals for any other conditional use or any other planned development shall be the same as set forth in subsection 10-3-14C, "Initiation Of Conditional Use Application", or section 10-8-8, "Submittal Requirements", of this ordinance, as applicable; however, the village board, at any time after the application is filed or as part of any preliminary or final approval, may approve the modification and/or reduction of the required application submission materials by passage of motion, resolution or ordinance for any proposed planned development or a commercial-residential mixed use development.

2. Review And Approval Process: The procedure for consideration of an application for a commercial-residential mixed use development, a conditional use or a planned development under this district shall be the same as set forth in subsections 10-3-14E, "Public Hearing", and 10-3-14F, "Plan Commission Action", and section 10-8-5, "Procedure", of this ordinance, except an applicant may request a "simultaneous approval process" that combines the preliminary plan and final plan approvals as set forth in subsections 10-8-5B and C of this ordinance.

3. Exceptions: At the request of the applicant, the village board may grant exceptions from any of the applicable submittal requirements, standards or the applicable provisions of this ordinance as part of the consideration of the application and/or approval of application for commercial- residential mixed use development, a conditional use or a planned development.

4. Submittals; Commercial-Residential Mixed Use Development: The required submittals for a commercial-residential mixed use development shall be as follows:

a. Narrative description of the project, developer/applicant background and experience, and description of how the plan complies with the design guidelines of the 2011 downtown redevelopment plan.

b. Market study (prepared by applicant or others) including unit sizes, sales projections, marketing materials, impact fees, real estate tax and sales tax projections, and land dedications and other relevant data.

c. Project pro forma (required only if financial incentives are requested).

d. Plat of survey.

e. Site plan (which shows the location and dimensions of all proposed buildings, structures, driveways, easements, landscaping and site data table for bulk regulations and parking).

f. A topographic survey and location map.

g. Floor plans for all levels of the building.

h. Exterior/interior color perspective drawings.

i. Building elevation drawings.

j. Signage plan.

k. Sample building materials (including exterior wall and window materials, shingles, etc.).

l. Engineering plans.

m. Stormwater drainage calculations, SWPPP and related plans.

n. Landscape plan (including proposed location of fences, walls, landscape and other improvements).

o. Lighting and photometric plan.

p. Traffic study.

q. School impact study.

r. Plat of condominium conforming to the Illinois condominium property act 1 or plat of subdivision (in recordable form) (required at the time of request for a temporary or final occupancy permit).

s. Declaration of easements, covenants and restrictions (approved as to form and content by the village attorney) and bylaws of proposed homeowners' association (required at the time of request for a temporary or final occupancy permit).

t. Property maintenance plan (which covers the continued maintenance of the common areas, landscaped areas, driveways and exterior of the buildings, unless maintenance is covered in declaration) (approved as to form and content by the director of community development) (required at the time of request for a temporary or final occupancy permit).

u. Statement of legal ownership of the property, the ownership interest of the applicant in the property, a listing of all restrictions, lis pendens and encumbrances of record (or a title commitment), the nature of ownership to the subsequent purchasers (fee simple title, condominium, etc.) and the legal description of the property.

The village board, in its discretion and based on a recommendation from the director of community development or the village engineer, may require that additional specific documents unique to a proposed conditional use/planned development be filed as part of the application process or may waive the requirement of the preparation and filing of one or more of the above documents.

5. Submittals For Building Permit: As a condition of approval of a building permit application (or conditional use permit), the applicant shall submit to the department of community development as part of the plan review and final approval by the department or the village board, as appropriate:

a. The final versions of the documents required under subsection P4 of this section.

b. Grading plan with executed grading and stormwater maintenance facility agreement (on the village approved form).

c. Engineering plans.

d. Soil borings and test results and environmental inspection reports to assess site preparation and construction management plan and protocols.

e. All applicable federal, state, county and local permits, licenses and approvals.

6. Improvement Standards: All improvements to real property within this district shall conform to the applicable regulations of the Western Springs municipal code, unless a waiver, variance or other development allowance is approved by ordinance by the village board.

7. Plats Of Subdivisions: Provided that no public improvements are required, any plat of subdivision or resubdivision or plat of condominium for real property in this district shall be classified as a minor subdivision, shall be processed under the minor subdivision regulations of subsection 10-10-3C of this ordinance and the four (4) or fewer lot limitation for minor subdivisions shall not apply to a commercial-residential mixed use development. The village board

may also grant exceptions from any of the applicable submittal requirements, standards or the applicable provisions of this ordinance as part of its approval of the plat. (Ord. 15-2786, 2-23-2015)

SECTION 10. Title 10 (Development Control Ordinance), Chapter 8 (Planned Developments), Section 10-8-1 (Purpose) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text marked using strikethrough):

10-8-1: Purpose

Planned development regulations allows for ~~large-scale~~ development of innovative design by permitting some relaxation of the requirements of the underlying zone district regulations and of the subdivision regulations. A planned development is a conditional use that may be granted by the Village Board should it determine that the planned development is in the best interest of the Village and complies with all the standards established in this Chapter. The Plan Commission and Village Board may require any reasonable condition or design consideration that will promote proper development or benefit to the community. The planned development should provide amenities not otherwise required in this Ordinance and establish facilities and open space greater than the maximum required in this Ordinance. It is not intended that the Board automatically grant the maximum use exceptions or density premiums in the case of each planned development. The Plan Commission shall recommend and the Board grant only such premiums or latitudes that are consistent with sound land use planning, Village growth policy, accrue benefits to the Village and which preserve the basic high quality single- family character of the Village of Western Springs.

As a condition of approval, each planned development must be compatible with the character and objectives of the zoning district or districts within which it is located, and each planned development shall be consistent with the official planning policies of the Village of Western Springs.

As specified in this Ordinance, planned developments shall be considered conditional uses in those zoning districts in which they are allowed. Every planned development shall conform to the intent and the character of the zoning district in which it is located. A planned development is not a vehicle to achieve a zoning change.

SECTION 11. Title 10 (Development Control Ordinance), Chapter 8 (Planned Developments), Section 10-8-3 (Guidelines) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text marked using strikethrough):

10-8-3: GUIDELINES:

The following guidelines will be used by the Plan Commission and Village Board to evaluate the suitability of proposed planned developments. These guidelines represent sound planning principles which the Village thinks should be incorporated into planned developments. However, it is not intended that each and every one of these guidelines be rigidly conformed to, provided that just cause for any departure from these guidelines is demonstrated.

A. The planned development should be compatible with the character of the underlying zoning district in which it is located.

B. The planned development should be consistent with the official planning policies and the Official Land Use Plan of the Village.

C. The planned development should preserve the value of the surrounding residential area.

D. Any unusual physical, topographical or historical features of the site of the planned development which are of importance to the people of the area or the community should be preserved.

~~E. The minimum area of a planned development should be five (5) acres.~~

E. ~~**F.**~~ Yards along the periphery of a planned development should be compatible with the yards of the adjacent properties.

SECTION 12. Title 10 (Development Control Ordinance), Appendix B (Gross Floor Area Supporting Documents) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

APPENDIX B: GROSS FLOOR AREA SUPPORTING DOCUMENTS

A. Computation Of Gross Floor Area: The gross floor area provisions of this ordinance were formalized to encourage harmony within the village's housing stock in terms of the size and bulk of buildings as perceived from adjoining properties.

Floor Area, Gross (For Determining Allowable Area In One- And Two-Family Residential Districts): Except as hereinafter provided, the sum of the gross horizontal areas of all floors of all stories and partial stories of a building, or such area devoted to a specific use, measured from the exterior face of exterior walls or from the center line of walls separating two (2) buildings or uses.

B. Calculation Requirements: The following shall be included in gross floor area calculations:

1. All gross square footage of each above grade floor of the principal structure.

2. All gross square footage of attached or detached garages.

3. That portion of unfinished or finished garage or attics seven feet (7') or more in height. For purposes of this calculation garage ceiling heights are presumed to be eight feet six inches (8'6") high.

4. Other accessory structures including sheds and gazebos.

5. Basements if the bottom of the first floor joist is more than three feet six inches (3'6") above the existing grade adjoining the foundation areas.

6. Those portions of house attics (finished or unfinished) that are seven feet (7') in height or more, even if the space is interrupted with crossties or has a truss design. Attic space shall be counted from a point nine feet (9') above the second floor line.

~~7. Open wood decks if the floor level exceeds three feet six inches (3'6") above grade.~~

7. ~~8~~. Balconies, chimneys, bay windows, etc.

8. ~~9~~. Portions of a second floor that cantilever over open-walled first floor yards shall count as two (2) stories.

9. ~~10.~~ Any roof overhang, not including gutters, that projects three feet (3') or more into one or more of the yards.

10. ~~11.~~ All exterior area that is surrounded on eighty five percent (85%) or more of its perimeter by the wall of any structure.

11. ~~12~~. Elevator shafts and stairwell at each floor.

12. ~~13.~~ Floor spaces and shafts, not including roof space, used for mechanical, electrical, and plumbing equipment.

13. ~~14.~~ Penthouses; interior balconies and mezzanines.

14. ~~15.~~ Atria and roofed porches.

15. ~~16.~~ Any first floor space that has a floor to ceiling height of more than fourteen feet (14'), each fourteen feet (14') in height, and any fraction thereof in excess of fourteen feet (14') in height or a multiple thereof, shall be treated as a separate floor.

C. Exclusions: Exclude the following:

1. Those parts of attics or other floor areas less than seven feet (7') in height.

2. Basements if the bottom of the floor joist above is less than three feet six inches (3'6") above the existing grade.

3. Open wood decks, sun decks, or other decks ~~if the floor level is less than three feet six inches (3'6") above grade.~~

4. An open courtyard facing a public street.

~~5. Sun or other decks with rails no higher than three feet six inches (3'6") on a first, second or third floor~~.

SECTION 13. Codifier to Make All Necessary Internal Amendments. To the extent necessary, all tables of contents, indexes, headings and internal references or cross-references to sections contained in

the Western Springs Municipal Code shall be amended by the Village's codifier so as to be consistent with the amendments set forth in this Ordinance.

SECTION 14. Repeal of Conflicting Legislation; Severability; Validity of Non-Conflicting Legislation. All ordinances or parts of ordinances in conflict with this Ordinance are, to the extent of such conflict, repealed. Each section, paragraph, clause and provision of this Ordinance is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any part thereof, other than that part affected by such decision. Except for the Code Amendments set forth above in this Ordinance, all chapters and sections of the Municipal Code of the Village of Western Springs shall remain in full force and effect.

SECTION 15. Effective Date. This Ordinance shall become effective after its passage, approval and publication as provided by State law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that the attached document is a true and correct copy of the Ordinance now on file in my office, entitled:

ORDINANCE NO. 26-_____

AN ORDINANCE AMENDING TITLE 10 (DEVELOPMENT CONTROL ORDINANCE), CHAPTER 2 (DEFINITIONS AND RULES OF WORD USAGE), CHAPTER 3 (ADMINISTRATIVE BODIES AND PROCEDURES), CHAPTER 4 (DEVELOPMENT STANDARDS OF GENERAL APPLICABILITY), CHAPTER 5 (ZONING DISTRICTS), CHAPTER 7 (BUSINESS DISTRICT REGULATIONS), CHAPTER 8 (PLANNED DEVELOPMENTS), AND APPENDIX B (GROSS FLOOR AREA SUPPORTING DOCUMENTS) OF THE WESTERN SPRINGS MUNICIPAL CODE.

which was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 26th day of January, 2026, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 26th day of January, 2026.

I further certify that the vote on the question of the passage of the said Ordinance by the Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Ordinance, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this 26th day of January, 2026.

ABSTAIN:
DATE:
OTHER: Published in Pamphlet Form.

AN ORDINANCE AMENDING TITLE 10 (DEVELOPMENT CONTROL ORDINANCE), CHAPTER 2 (DEFINITIONS AND RULES OF WORD USAGE) AND CHAPTER 7 (BUSINESS DISTRICT REGULATIONS) RELATED TO MEDICAL CANNABIS OF THE WESTERN SPRINGS MUNICIPAL CODE.

WHEREAS, the Village of Western Springs (the "Village") is a non-home rule municipality, having all of the powers and authority granted to such municipalities pursuant to Article VII, Section 7 of the Illinois Constitution of 1970 and applicable provisions of the Illinois Municipal Code, including the zoning authority granted under Division 13 of the Illinois Municipal Code (65 ILCS 5/11-13); and

WHEREAS, the Community Development Department of the Village has proposed certain amendments to the Village's Development Control Ordinance ("DCO" or "Zoning Code"), which is part of the Village's Municipal Code, relative to, but not limited to, creating definitions for medical cannabis uses, allowing medical cannabis as a conditional use in certain business districts, creating performance standards and exterior appearance standards for medical cannabis uses, and related amendments (the "Code Amendments"); and

WHEREAS, on October 28, 2025, the Plan Commission ("Commission") conducted a public hearing relative to the Code Amendments pursuant to notice thereof given in the manner required by law, and, after considering all of the testimony and evidence presented at the public hearing, including input from Village staff and members of the public, the Plan Commission approved Report and Recommendation No. 2025-04 dated October 28, 2025 (the "Plan Commission Report and Recommendation"), which recommended approval with modifications of the Code Amendments; and

WHEREAS, at an open, public meeting held on November 18, 2025, the Planning and Zoning Committee ("Committee") considered the Code Amendments set forth below and voted to favorably recommend the Code Amendments to the President and Board of Trustees of the Village of Western Springs for final approval; and

WHEREAS, at open, public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village considered the Code Amendments set forth below, reviewed the recommendations of Village staff and of the Commission and Committee, further received input from Village staff and provided the public with an opportunity to present input relative to the Code Amendments, and at its January 26, 2026 meeting, the President and Board of Trustees accepted the findings and recommendations of the Planning and Zoning Committee and the Plan Commission relative to the Code Amendment incorporated said findings and recommendations into this Ordinance by reference; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs have duly considered the findings and recommendations of the Plan Commission Report and Recommendation, and all of the materials, facts and circumstances affecting the Code Amendments; and

WHEREAS, pursuant to the authority granted under Division 13 of the Illinois Municipal Code (65 ILCS 5/11-13), the President and Board of Trustees of the Village of Western Springs approve the Code Amendments to the Municipal Code set forth below, and find the adoption of the Code Amendments to be in the best interests of the Village, its residents, property owners, business owners and the public.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Ordinance.

SECTION 2. Title 10 (Development Control Ordinance), Chapter 2 (Definitions and Rules of Word Usage), Section 10-2-2 (Definitions) of the Western Springs Municipal Code shall be amended in its entirety as follows (new text is marked with underlining; deletions to existing text are marked using strikethrough):

10-2-2: Definitions:

ABANDONMENT: The complete or substantially complete discontinuance of a use, building or structure.

ACCESSORY BUILDING OR STRUCTURE: A subordinate building or structure located on the same lot with the principal building, occupied by or devoted to an accessory use, but not to be used for habitation. Where an accessory building is attached to the principal building in a substantial manner, as by a wall or roof, such accessory building shall be considered part of the principal building.

ACCESSORY USE: See Use, Accessory.

ACRE: A measure of land area equal to forty three thousand five hundred sixty (43,560) square feet.

ADULT BOOK STORE: An establishment having as a substantial or significant proportion of its stock in trade books, magazines and other periodicals that are distinguished or characterized by their emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas.

ADULT CABARET: A nightclub, bar, theater, restaurant or similar establishment which frequently features live performances by topless and/or bottomless dancers, go-go dancers, exotic dancers, strippers, or similar entertainers, where such performances are distinguished or characterized by an emphasis on specified sexual activities or by exposure of specified anatomical areas and/or which regularly feature films, motion pictures, video cassettes, slides, or other photographic reproductions which are distinguished or characterized by an emphasis upon the depiction or description of specified sexual activities or specified anatomical areas for observation by patrons.

ADULT THEATER: An establishment which presents the viewing of motion pictures, films, theatrical productions, video cassettes, slides, and other forms of visual productions, for any form of consideration, in which a preponderance of the total presentation time is devoted to showing materials which are distinguished or characterized by an emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas for observation by patrons therein. Adult theater facilities may include but is not limited to open lots for viewing from a motor vehicle or outdoor eating area; an

enclosed building with private viewing areas for five (5) or fewer people, or; an enclosed building with viewing areas for more than five (5) people.

ADULT USE: A use which involves either wholly or partially an activity distinguished or characterized by its emphasis on matters depicting, describing, or relating to specified sexual activities or specified anatomical areas, including but not limited to, the operation of adult bookstores, adult cabarets, and adult video stores.

ADULT-USE CANNABIS BUSINESS ESTABLISHMENT: An adult-use cannabis craft grower, cultivation center, dispensing organization, infuser organization, processing organization, or transporting organization, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS CRAFT GROWER: A facility operated by an organization or business that is licensed by the Illinois Department of Agriculture to cultivate, dry, cure and package cannabis and perform other necessary activities to make cannabis available for sale at a dispensing organization or use at a processing organization, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS CULTIVATION CENTER: A facility operated by an organization or business that is licensed by the Illinois Department of Agriculture to cultivate, process, transport and perform necessary activities to provide cannabis and cannabis-infused products to licensed cannabis business establishments, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS DISPENSING ORGANIZATION: A facility operated by an organization or business that is licensed by the Illinois Department of Financial and Professional Regulation to acquire cannabis from licensed cannabis business establishments for the purpose of selling or dispensing cannabis, cannabis infused products, cannabis seeds, paraphernalia or related supplies to purchasers or to qualified registered medical cannabis patients and caregivers, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS INFUSER ORGANIZATION OR INFUSER: A facility operated by an organization or business that is licensed by the Illinois Department of Agriculture to directly incorporate cannabis or cannabis concentrate into a product formulation to produce a cannabis-infused product, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS PROCESSING ORGANIZATION OR PROCESSOR: A facility operated by an organization or business that is licensed by the Illinois Department of Agriculture to either extract constituent chemicals or compounds to produce cannabis concentrate or incorporate cannabis or cannabis concentrate into a product formulation to produce a cannabis product, per the Cannabis Regulation and Tax Act.

ADULT-USE CANNABIS TRANSPORTING ORGANIZATION OR TRANSPORTER: An organization or business that is licensed by the Illinois Department of Agriculture to transport cannabis on behalf of a cannabis business establishment or a community college licensed under the Community College Cannabis Vocational Training Pilot Program, per the Cannabis Regulation and Tax Act.

ADULT VIDEO STORE: An establishment having as a substantial or significant proportion of its stock in trade video cassettes and similar materials which are distinguished or characterized by their emphasis on matter depicting, describing, or relating to specified sexual activities or specified anatomical areas.

AGRICULTURE: The use of land for agricultural purposes, including farming, pasturage, agriculture, horticulture, floriculture, viticulture, and the necessary accessory uses for parking, treating or storing the produce; provided, however, that the operation of any such accessory uses shall be secondary to that of the normal agricultural activities.

AIRCRAFT: Any contrivance now known or hereafter invented for use in or designed for navigation of or flight in air.

AIRPORT: Any area of land or water which is used or intended for use for the landing and taking off of aircraft, and any appurtenant areas which are used or intended for use for airport buildings or other airport facilities or rights of way, including all necessary taxiways, aircraft storage and tie down areas, hangars, and other necessary buildings and open spaces.

ALLEY: A public or private right of way primarily designed to serve as a secondary access to the side or rear of those properties whose principal frontage is on a street.

ALLOWABLE OBSTRUCTION: Any accessory building or structure, including appurtenances on principal buildings, which is located within a required yard and is permitted under chapter 4 of this ordinance.

ALTERATION: Any change in size, shape, or character of a building or structure.

AMATEUR RADIO: A type of wireless communication, capable of transmitting as well as receiving electromagnetic radiation, and whose operator is licensed by the federal communications commission, and regulated by part 97 of the FCC rules and regulations.

AMENDMENT: Any addition to, deletion from, or change in this ordinance, including text and/or map.

AMUSEMENT DEVICES: Any machine or device which, upon the insertion of a coin, slug, token, plate or disc, may be operated by the public generally by manipulating special equipment whereby a score is established, the object of which is to secure a special number or numbers or a total score, whether a prize is offered or not.

AMUSEMENT ESTABLISHMENT: Any use or establishment with more than eight (8) amusement devices.

ANIMAL HOSPITAL: A business designed or used for the care, observation, or treatment of domestic animals. “Animal Hospital” does not include kenneling or pet boarding of animals.

ANTENNA, DISH: See definition of Satellite Dish Antenna.

ANTENNA STRUCTURE: A system of wires, poles, rods, or similar devices, external to or attached to the exterior of a building, together with any supporting structure, for sending or receiving electromagnetic radiation.

ANTENNA TOWER: Any structure designed for the mounting of an antenna.

APARTMENT: See definition of Dwelling, Multiple-Family.

APPEAL: A request to review a decision or interpretation of the department of code enforcement or other authorized official relative to the administration of this ordinance.

ARBOR: See definition of Trellis.

ART GALLERY: A commercial establishment engaged in the sale of paintings, sculptures, video art or other works.

ASSISTED LIVING UNITS: Any premises within a continuing care retirement community (CCRC) in which food, shelter and personal assistance or supervision are provided for a period exceeding twenty four (24) consecutive hours for one or more adults who are not relatives of the operator and who require assistance or supervision in matters such as dressing, bathing, diet or medication prescribed for self- administration, but do not require hospitalization or care in a skilled nursing facility. An assisted living unit shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois.

ATTIC: The space between the ceiling beams of a top habitable story and the roof rafters.

AUTOMOBILE REPAIR: A business that performs general repair, reconditioning, and painting of motor vehicles. Services offered may include the changing of motor oil, installation of tires, batteries and minor accessories, minor automobile repairs, and greasing or washing of individual automobiles.

AUTOMOBILE SERVICE STATION: An establishment used for dispensing or sale of automobile fuels. It is common for the sale of limited convenience goods and automotive accessories incidental to the sale of fuels to also exist on the premises. Accessory Auto Repair may be included as part of this use.

AWNING: A rooflike cover, temporary in nature, which projects from the wall of a building.

BAKERY/COFFEE SHOP: A retail establishment that sells baked goods prepared on- or off-site and/or a store which sells and/or brews specialty coffee, tea, frozen, or related beverages.

BALCONY: An architectural appurtenance providing usable floor area located above the first floor that is either entirely unenclosed or covered only by a roof.

BANKS AND FINANCIAL INSTITUTIONS: A business providing financial services, including but not limited to, banks, credit unions, savings and loan institutions, wealth management, and mortgage companies.

BASEMENT: That portion of a building below the first or ground floor level, and having less than five feet (5') of clearance from the ceiling to the grade from which building height is measured. A basement is not considered a story for the purposes of determining building height.

BLOCK: A tract of land bounded by streets, or by a combination of streets and public parks, cemeteries, railroad, rights of way, shorelines of waterways, municipal boundary lines, township lines or county lines.

BLOCK FACE: That property on a block having the same frontage onto a public street.

BOAT: A watercraft of any description used or capable of being used as a means of transportation on water except a seaplane on the water and inner tubes, air mattress, or similar device.

BREWERY: See Microbrewery, Microdistillery, or Micro-winery.

BREWPUBS: An establishment that includes a microbrewery, microdistillery, or micro-winery in conjunction with a restaurant and a bar.

BUILDABLE AREA: The area of the lot remaining after the minimum open space and/or yard requirements of this ordinance have been complied with.

BUILDING: Any structure built, used, designed, or intended for the support, shelter, protection, or enclosure of persons, animals, or property of any kind, and which is permanently affixed to the land. When a building is divided into separate parts by unpierced fire or party walls extending continuously from the ground through all stories to and above the roof, each part shall be deemed a separate building.

BUILDING COVERAGE: The lot area covered by the principal building(s) and any roofed over accessory buildings or structures, measured from the exterior faces of exterior walls, but excluding decks, terraces and other accessory structures which are open to the sky.

BUILDING, DETACHED: A building surrounded by open area on the same lot.

BUILDING HEIGHT: The vertical distance as measured from the sidewalk level, or its equivalent established grade, opposite the middle front of the building to the highest point of the coping of a flat roof, or to the point of intersection of the two (2) roof planes of a mansard roof, or to the average height of the highest gable of a pitch or hip roof. When a penthouse or any similar structure is located on the roof of a building, the top of the building height shall be measured to the highest point of said structure. Notwithstanding the foregoing sentences, the following shall not be considered in determining the height of a building: mechanical equipment and any wall or similar structure designed exclusively for the purpose of screening such mechanical equipment from view; chimneys; railings; and decorative structures such as nonhabitable architectural building elements, turrets, parapets, widow's walks or cupolas, provided that such structures and equipment do not have an exterior height in excess of four feet (4').

In the case of detached accessory buildings or structures, building height is the vertical distance from the top of floor, slab or existing grade to the highest point of the coping of a flat roof, or the point of intersection of the two (2) roof planes of a mansard roof, or to the average height of the highest gable of a pitch or hip roof.

BUILDING, PRINCIPAL: A nonaccessory building in which is conducted the principal use of the lot on which it is located.

BUILDING SETBACK LINE: A building line establishing the minimum allowable distance between a street right of way and any structure.

BUILDING, TEMPORARY: Any building not designed to be permanently located, placed, or affixed to the place where it is located.

BULK: The term used to indicate the size and setbacks of the buildings or structures and the location of same with respect to one another, and includes:

A. Height and area of buildings.

B. Location of exterior walls in relation to lot lines, streets, or other buildings.

C. Gross floor area of buildings in relation to lot areas (floor area ratio).

D. All open spaces allocated to buildings.

E. Amount of lot area required for each dwelling unit.

BUS: A motor vehicle, other than a commuter van, designed for carrying more than ten (10) persons.

BUSINESS: An occupation, employment, or enterprise which occupies time, attention, labor and materials, wherein merchandise is exhibited or sold, or where services are offered.

CANNABIS REGULATION AND TAX ACT: The Cannabis Regulation and Tax Act, (410 ILCS 705/1 et seq.), as amended from time-to-time, and regulations promulgated thereunder.

CANOPY: A rooflike structure projecting from a wall and supported in whole or in part by vertical supports from the ground, and erected primarily to provide shelter from the weather.

CAR WASH: An establishment containing facilities for washing one or more automobiles at any one time, using production line methods such as a chain conveyor, blower, steam cleaning device, or other mechanical devices; or providing space, water, equipment, or soap for the complete or partial cleaning of such automobiles, whether by operator or by customer.

CARPORT: An open sided (on at least 2 sides), roofed automobile shelter, usually formed by extension of the roof from the side of a building.

CEILING: The overhead inside lining of a room.

CENTERLINE: The midpoint in the width of a public right of way as established by recorded plats of survey.

CERTIFICATE OF OCCUPANCY: A certificate certifying that the building or structure, as illustrated on approved plans, conforms to the provisions of this ordinance and, if constructed and used in conformance with such plans, may be occupied upon completion of construction.

CLINIC, MEDICAL OR DENTAL: A business organization of specializing physicians or dentists or both, who operate a walk-in medical facility that provides unscheduled, ambulatory care for minor illnesses and injuries, outside of a hospital.

CLUB OR LODGE, PRIVATE (NONPROFIT): A membership association of dues paying persons, which owns, hires, or leases a building, or portion thereof, the use of such premises being restricted to members and their guests. It is common to serve food, meals, and beverages on such premises.

COMMERCIAL LEARNING CENTER: A school that provides extracurricular tutoring and training at a small-scale facility. “Commercial Learning Centers” may include such uses as driving schools or tutoring centers.

COMMERCIAL/RESIDENTIAL MIXED USE DEVELOPMENT: A building or interconnected group of buildings housing both dwelling units and commercial office, retail or service uses, for which exceptions from the regulations of the applicable zoning district ordinance may be granted by the village board upon plan commission review and recommendation.

COMMON OPEN SPACE: Open space accessible to either the general public or to multiple owners/tenants. Such space is generally maintained by agreement of persons utilizing the space.

COMPASSIONATE USE OF MEDICAL CANNABIS PROGRAM ACT: The Compassionate Use of Medical Cannabis Program Act (410 ILCS 130/1 et seq.), as amended from time-to-time, and regulations promulgated thereunder.

CONDITIONAL USE: See definition of Use, Conditional.

CONSOLIDATION: The act of combining more than one lot of record, in whole or in part, into a single lot of record or into multiple lots of record, but fewer in number than the underlying existing lots of record that are being consolidated.

CONTINUING CARE RETIREMENT COMMUNITY (CCRC): A planned residential development intended for individuals sixty two (62) years of age or older or couples at least one member of which is sixty two (62) years of age or older. The CCRC shall obtain and maintain a permit to operate as a "life care CCRC" as defined by the state of Illinois department of public health. The CCRC shall be distinguished from other forms of residential development by the fact that it shall include a licensed nursing home facility as an integral part of the development and the CCRC shall obtain and maintain a certificate of need approval for the nursing home facility from the state of Illinois. The licensed nursing home facility shall be developed and created in accordance with the applicable provisions of the Illinois administrative code as such provisions are administered and enforced by the relevant agencies and shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois. The CCRC shall also provide facilities for varying degrees of assisted living for residents and other such accessory uses that may be appropriate for a CCRC and each of these other facilities, to the extent required by law, shall be licensed, operated and maintained in accordance with the laws and regulations of the state of Illinois. The form of business structure of the development, i.e., rental, endowment, condominium, etc., is irrelevant to a determination that it is a CCRC. However, the owner or operator of a CCRC (and any successor owners or operators) as well as the owner (and any successor owners, lessees or occupants) of the land on which the CCRC is built and operated shall remain subject to real estate taxation and shall not petition or seek real estate tax exempt status for the land.

CONTRACTORS' OFFICE: A room or group of rooms used for construction contractors' business affairs that does not use any exterior storage area.

CONVALESCENT, NURSING OR REST HOME: A business for the care of the aged or infirm, or a place of rest for those suffering from bodily disorders. Such home does not contain equipment for surgical care or for the treatment of disease or injury.

CONVENIENCE STORE: An establishment where the direct retail sale of food items such as meats, cereals, grains, produce, baked goods, dairy products, and prepared food products, beverages, cleaning supplies, pet food and supplies, pharmaceuticals, over-the-counter medicines, personal products, household

goods, books and magazines, plants, and other sundry and similar items are available to be purchased by the consumer.

CUL-DE-SAC: A short street ending in a turnaround design and intended as a permanent terminus.

CULINARY SCHOOL: Any public place kept, used, maintained, advertised, and held out to the public as a place where education and hands on instruction regarding the preparation and cooking of meals and desserts takes place as well as the occasional service of complete meals prepared as part of such culinary program on the licensed premises, with an adequate and sanitary kitchen and dining room equipment and with adequate staff to instruct the patrons in the preparation and service of meals and desserts.

CURB LEVEL: The level of the established curb in front of a building measured at the center of such front. (Where no curb elevation has been established, the pavement elevation at the street centerline similarly measured, or the mean elevation of the finished lot grade immediately adjacent to a building shall be considered the curb "level".)

DAY: As used in this ordinance, shall mean one calendar day. If a projected day falls on a weekend or holiday, the next following working day or weekday shall fulfill requirements.

DAYCARE CENTER: A use in which are received three (3) or more children, not of common parentage, apart from their parent or guardian, for part or all of the hours between six o'clock (6:00) A.M. and nine o'clock (9:00) P.M. The term "daycare center" includes, but is not limited to, the following: nursery schools, childcare centers, day nurseries, kindergartens and play groups, but does not include kindergartens or nursery schools operated by public or private elementary or secondary school systems.

DAYCARE, HOME: A family home which receives more than three (3) and up to a maximum of eight (8) children, for part or all of the hours between six o'clock (6:00) A.M. and nine o'clock (9:00) P.M., where tuition, fees, or other forms of compensation for the care of children is charged. The maximum of eight (8) children includes the family's natural or adopted children and all other persons under the age of fourteen (14). The term does not include facilities which receive only children from a single household. Daycare homes should meet all applicable village and state requirements.

DECK: An accessory structure which is elevated from ground level and is open to the sky.

DEPARTMENT OF CODE ENFORCEMENT: The enforcing department of the provisions of this ordinance.

DEVELOPER: Any person seeking to build upon or develop land in the village of Western Springs.

DIGITAL SATELLITE STATION: A small, satellite dish (not more than 24 inches in diameter) that has been designed for the purpose of receiving electromagnetic radiation.

DISTRICT: A portion of the corporate area of the village, within which certain uniform regulations and requirements, or various combinations thereof, apply under the provisions of this ordinance.

DORMITORY: A building or part of a building containing a room or rooms forming one or more habitable units which are used or intended to be used by residents primarily for living and sleeping.

DRIVE-THROUGH: An accessory use to a restaurant, bakery/coffee shop, bank/financial services, or other retail use.

DWELLING: A building, or portion thereof designed or used exclusively for residential occupancy, including single-family dwellings, two-family dwellings, and multiple-family dwellings, but not including hotels or motels.

DWELLING, MULTIPLE-FAMILY: A building, or portion thereof, containing three (3) or more dwelling units.

DWELLING, SINGLE-FAMILY ATTACHED: One which is joined to another single-family dwelling at one or both sides by party walls. A dwelling that is joined to another single-family dwelling at one or more sides by party walls.

DWELLING, SINGLE-FAMILY DETACHED: One which is entirely surrounded by open area on the same lot.

DWELLING, TWO-FAMILY: A building containing two (2) dwelling units, attached either vertically or horizontally.

DWELLING UNIT: Any room or group of rooms located within a dwelling and forming a single habitable unit with facilities that are used, or intended to be used for living, sleeping, cooking, and eating.

DWELLING UNIT, ABOVE GROUND FLOOR: A dwelling unit located above the ground floor of a building.

EARTH SATELLITE STATION: An apparatus or device (greater than 24 inches in diameter) that has been designed for the purpose of transmitting and/or receiving electromagnetic radiation, but does not include conventional television, radio and amateur radio antenna.

EASEMENT: Land or an interest in land that has been designated by lawful agreement between the owner or owners of the land and another person or persons, for a specified use only by such person or persons.

EFFICIENCY UNIT: A dwelling unit consisting of one principal room exclusive of bathroom, kitchen, hallway, closets, or dining alcove directly off the principal room, provided such dining alcove does not exceed one hundred twenty five (125) square feet in area.

ESTABLISHMENT, BUSINESS: A place of business carrying on operations, the ownership and management of which are separate and distinct from those of any other place of business located on the same zoning lot.

EVENT SPACE: A business consisting of a room(s) or hall(s) available for rent for banquets, exhibitions, and/or meetings that may include the provision of food, drink, and/or entertainment.

EXEMPTION: The exempting of a person from compliance with a particular village policy, practice, regulation, or a particular regulation set forth in the development control ordinance or the village code, based on specific criteria set forth in the specific policy, practice, regulation, ordinance or code provision providing for the exemption.

EXTENDED MEDICAL CARE FACILITIES: Refers to those medical facilities designed to accommodate inpatients in need of lengthy recuperative periods requiring nursing attention and periodic medication.

FAMILY: An individual or two (2) or more persons related by blood, marriage, or legal adoption living together as a single housekeeping unit within a dwelling unit, including foster children, domestic servants, and not more than two (2) guests or roomers living in the dwelling on an extended basis. A family may also consist of not more than five (5) unrelated persons.

FENCE: A structure that is a barrier and is used as a boundary or means of protection or confinement, which is made of manufactured material, such as, but not limited to: wire mesh, chainlink, wood or stone material.

FINAL PLAT: A map of subdivision with accompanying material, intended for final approval and recording, on the basis of which land can be transferred, leased, or encumbered.

FIREARMS AND FIREARMS AMMUNITION: As such terms are defined in the Illinois firearm owners identification card act, 430 Illinois Compiled Statutes 65/1.1, as amended from time to time.

FLOOR AREA (For Determining Off Street Parking And Loading Requirements): The sum of the gross horizontal areas of the several floors of the building, as measured from the outside of the exterior walls, devoted to the principal use, including accessory storage areas located within selling or working space such as counters, racks, or closets, and any floor area devoted to retailing activities, to the production or processing of goods or to business or professional offices.

However, "floor area" for the purposes of measurement for off street parking spaces shall not include:

A. Floor area devoted primarily to storage purposes (except as otherwise noted herein);

B. Floor area devoted to off street parking or loading facilities, including aisles, ramps, and maneuvering space; or

C. Mechanical or storage floor area other than area devoted to retailing activities, to the production or processing of goods, or to business or professional offices.

FLOOR AREA, GROSS (For Determining Allowable Area In One- And Two-Family Residential Districts): Except as hereinafter provided, the sum of the gross horizontal areas of all floors of all stories and partial stories of a building, or such area devoted to a specific use, measured from the exterior face of exterior walls or from the centerline of walls separating two (2) buildings or uses. The application of the gross floor area regulations shall be in conformance with appendix B that is an integral part of this ordinance.

FLOOR AREA, INTERIOR (For Determining Maximum Area Of A Home Occupation): The sum of the gross horizontal area of the several floors of the dwelling as measured from the inside of the exterior walls. However, interior floor area, for the purpose of regulating home occupations, shall include only the habitable portions of the dwelling and shall exclude:

A. Attached garages;

B. Unfinished basements; and

C. Unfinished attics.

FOOD STORE/GROCERY: An establishment that retails a general line of food, such as canned and frozen foods, fresh fruits and vegetables, and fresh and prepared meats, fish, and poultry. Included in this class are meat and seafood markets, delicatessen-type establishments, and establishments retailing baked goods (not for immediate consumption and/or made off-premises).

FRONTAGE, BLOCK: The length of all the property fronting on one side of a street between the two (2) nearest intersecting streets, measured along the line of the street, or if dead ended, then all of the property abutting on one side between an intersecting street and the dead end of the street.

FRONTAGE, ZONING LOT: The length of all the property of such zoning lot fronting on a street, as measured between side lot lines.

FUNERAL HOME: A business that prepares the dead for burial or internment and conducts funerals (i.e. providing facilities including chapels for wakes, arranging transportation for the dead, selling caskets and related merchandise).

GARAGE, PRIVATE: A detached accessory building or portion of a main building housing the automobiles of the occupants of the premises.

GARAGE, PUBLIC: A building or portion thereof, other than a private garage, designed or used for equipping, servicing, repairing, hiring, selling, storing, or parking motor driven vehicles. The term repairing shall not include an automotive body repair shop or the rebuilding, dismantling, or storage of wrecked or junked vehicles, unless expressly authorized.

GARDEN CENTER: A retail establishment whose principal activity is the selling of plants, gardening equipment and supplies, these uses typically have seasonal outside storage, growing or display.

GAS/FUEL STATIONS: *See Automotive Service Station.*

GOVERNMENT BUILDINGS AND FACILITIES: A use owned and operated by a municipal, state, federal, or other taxing body institution in which governmental services are provided or conducted.

GRADE: The level of the finished surface of the ground adjacent to the exterior walls of the building or structure.

GROSS FLOOR AREA: Refers to all the floor area contained within a building or buildings, without exception.

GROUND FLOOR: That level of a building which is the first story and is situated above the basement or, if no basement exists, on top of foundation walls.

HABITABLE SPACE: Any area or room designed and/or used for living or sleeping. For example, unfinished attics, bathrooms, toilet compartments, closets, halls, storage rooms, laundry and utility rooms, basement recreation rooms, foyers, areas or rooms used for cooking or eating, and similar areas are not considered habitable areas or rooms.

HEDGE: A row of shrubs planted to create a visual screen.

HOME OCCUPATION: An accessory use conducted completely within a dwelling unit, carried on by any member of the immediate family residing on the premises, clearly incidental and secondary to the use of the dwelling for residential purposes.

HOSPITAL: A medical institution devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, and care of individuals suffering from illness, disease, injury, deformity or other abnormal physical condition.

HOTEL OR MOTEL: An establishment that is open to transient guests, which provides customary hotel services such as housekeeping, front desk services, and common amenities. Restaurants and meeting rooms are common accessory uses.

INCOMPATIBLE USE: A use or service which is unsuitable for direct association with certain other uses because it is contradictory, incongruous, or discordant.

INDOOR ATHLETIC FACILITIES: A business or facility used for and providing indoor recreation facilities, gym and fitness facilities, and sport courts, swimming pools, or similar uses that are enclosed in buildings.

INDOOR ENTERTAINMENT FACILITIES: A business with predominantly leisure or spectator uses conducted within an enclosed building including, but not limited to, movie theaters, bowling alleys, arcades, and concert venues. This does not include any adult uses as defined in Section 10-2-2 in the Village Code.

JUNK (OR SALVAGE) YARD: An open area where waste or scrap materials are bought, sold, exchanged, stored, baled, packed, disassembled, or handled, including, but not limited to, scrap iron and other metals, paper, rags, rubber tires, and bottles. A "junk or salvage yard" includes an auto wrecking yard, but does not include uses established entirely within enclosed buildings.

KENNEL: Any business in which more than three (3) dogs or other domestic animals over three (3) months of age are cared for or boarded for compensation.

LABORATORY: A place devoted to experimental study such as testing and analyzing. Manufacturing of produce or products is not to be permitted within this definition.

LANDSCAPE AREA: That portion of a lot devoted exclusively to landscaping, except that streets, drives and sidewalks may be located within such area to provide reasonable access.

LANDSCAPING: The aesthetic improvement of property through the installation of plant materials, berming, walls and fences, and other decorative elements.

LAUNDRY FACILITIES: An establishment used for dry cleaning drop off or retrieval, clothing repair or alterations, or services to be performed for households, but not firms. Excludes automotive and equipment cleaning or dry cleaning processing plant. Typical uses include laundry drop off station.

LIGHT ASSEMBLY: Assembly of parts or products from previously prepared materials. Typical uses include: catering, printing or publishing and related support activities, computer and electronic products, or other establishments that have no negative impacts on surrounding properties.

LINE OF SIGHT: A clear line of vision at an intersection.

LIQUOR STORE: A retail establishment where the direct sale of packaged wine, beer, spirits, and non-alcoholic beverages is available to be purchased by the customer for off-site consumption.

LOT: A parcel of land located within a single block and may be either a "lot of record" or a "zoning lot".

LOT AREA, GROSS: The area of a horizontal plane bounded by the front, side, and rear lot lines, but not including any area occupied by the waters of a duly recorded lake or river.

LOT, ATTACHED SINGLE-FAMILY EXTERIOR: A lot occupied by an attached single-family dwelling which has a common side wall along only one side lot line.

LOT, ATTACHED SINGLE-FAMILY INTERIOR: A lot occupied by an attached single-family dwelling which has common side walls along both side lot lines.

LOT, CORNER: A lot situated at the intersection of two (2) streets.

LOT COVERAGE: The maximum percentage of total lot coverage that is improved with a principal residential structure and any other impervious surfaces, including, but not limited to, accessory structures, detached garages, driveways, outdoor residential recreational facilities (including all swimming pools or similar structures), private sidewalks, terraces, and patios.

LOT DEPTH: The mean horizontal distance between the front lot line and the rear lot line of a lot, measured within the lot boundaries.

LOT, INTERIOR: A lot other than a corner or reversed corner lot.

LOT LINE, CORNER SIDE: Any lot line between the front and rear lot lines which abuts a public street.

LOT LINE, FRONT: That boundary of a lot which is along an existing or dedicated public street or, where no public street exists, is along a public way. On corner lots, the front lot line shall be the lot line along a street which has the shortest dimension. In the case of landlocked land, the front lot line shall be that lot line that faces the access to the lot.

LOT LINE, INTERIOR SIDE: Any lot line between the front and rear lot lines which does not abut a public street.

LOT LINE, REAR: That boundary of a lot which is most distant from, and is, or is most nearly, parallel to the front lot line.

LOT OF RECORD: A lot which is part of a subdivision, the plat of which has been recorded in the office of the recorder of deeds of Cook County; or a parcel of land, the deed to which was recorded in the office of said recorder of deeds prior to the adoption of this ordinance.

LOT, REVERSED CORNER: A corner lot, the corner side lot line of which is substantially a continuation of the front lot line of the first lot to its rear.

LOT, THROUGH: A lot having a pair of opposite lot lines along two (2) more or less parallel public streets, and which is not a corner lot. On a "through lot" both street lines shall be deemed front lot lines.

LOT WIDTH: The horizontal distance between the side lot lines of a lot, measured at the narrowest width within the first thirty feet (30') of lot depth immediately in back of the required front yard. In no instance shall the required front yard exceed the yard requirements of the zoning district in which such lot is located. In addition, the front lot line shall be at least seventy five percent (75%) of the lot width, except that lots on cul-de-sacs shall be exempt from this requirement.

LOT, ZONING: A single tract of land located within a single block which (at the time of filing for a building permit) is designated by its owner or developer as a tract to be used, developed, or built upon as a unit, under single ownership or control. Therefore, a "zoning lot or lots" may or may not coincide with a lot of record.

MARQUEE: A roof like structure of a permanent nature which projects from the wall of a building.

MEDICAL CANNABIS CULTIVATION CENTER: A facility operated by an organization or business that is registered by the applicable State of Illinois agency designated to oversee said facility to perform necessary activities to provide only registered medical cannabis dispensing organizations with usable medical cannabis in accordance with the laws of the State of Illinois.

MEDICAL CANNABIS DISPENSING ORGANIZATION: A facility operated by an organization or business that is registered by the applicable State of Illinois agency designated to oversee said facility to acquire medical cannabis from a registered cultivation center for the purpose of dispensing cannabis, paraphernalia, or related supplies and educational materials to registered qualifying patients, individuals with a provisional registration for qualifying patient cardholder status, or an Opioid Alternative Pilot Program participant in accordance with the laws of the State of Illinois.

MEDICAL CANNABIS ORGANIZATION: This term refers to Medical Cannabis Cultivation Centers and Medical Cannabis Dispensing Organizations as they are defined in the Compassionate Use of Medical Cannabis Program Act.

MEZZANINE: An intermediate story between the floor and ceiling of a main story and extending over only part of the main floor.

MICROBREWERY, MICRODISTILLERY, AND MICRO-WINERY: An alcoholic beverage production establishment that does not exceed 50,000 gallons a year with a retail space and publicly accessible tap room.

MINIWAREHOUSE: A structure or group of structures not exceeding one story or seventeen feet (17') in height in a controlled access, fenced compound containing individual storage units with access to each unit for the storage and warehousing of personal property as opposed to commercial property. Miniwarehouses do not include wholesaling, retailing, servicing or repair of household or commercial goods in conjunction with storage.

MOBILE FOOD VEHICLE: A commercially manufactured, motorized mobile food unit in which ready-to-eat food is cooked, wrapped, packaged, processed, or portioned for service, sale or distribution.

MOBILE FOOD VEHICLE (NONMOTORIZED): A commercially manufactured mobile food unit which may be affixed onto a vehicle, such as a trailer, in which ready-to-eat food is cooked, wrapped, packaged, processed, or portioned for service, sale or distribution.

MOBILE FOOD VEHICLE VENDOR: The owner of mobile food vehicle or the owner's agent; hereinafter referred to as "vendor".

MOTEL: See definition of Hotel Or Motel.

MOTOR VEHICLE, NONPASSENGER: Any bus, trailer, truck or recreational vehicle as defined in the Illinois motor vehicle code.

MOTOR VEHICLE, PASSENGER: Any vehicle designed, built and used primarily for the transport of between one and eleven (11) persons.

MUSEUMS OR CULTURAL FACILITIES: A business, use, or structure designed, intended, or used primarily for dance, dramatic, music or other performances, or a library, museum or gallery operated primarily for the display, rather than the sale, of works of art. A "cultural facility" does not include a performance entertainment venue.

NONCONFORMING BUILDING OR STRUCTURE: Any building or structure, lawful at the time of enactment of this ordinance, which does not comply with all of the regulations of this ordinance or of any amendment hereto governing bulk for the zoning district in which such building or structure is located.

NONCONFORMING USE: The use of any land, buildings, or structures for a use which is either not permitted in the applicable district regulations, or is not a lawfully established conditional use.

NOXIOUS MATTER: Matter which is capable of causing injury or illness to living organisms, or is capable of causing detrimental effects to the health or the psychological, social, or economic well being of humans.

NURSING HOME: See definition of Convalescent, Nursing Or Rest Home.

OBSTRUCTION: An accessory structure or building located within a required yard, or an appendage to a principal building which projects into a required yard.

OCCUPANCY CERTIFICATE: See definition of Certificate Of Occupancy.

ODOROUS MATTER: Any matter or material that yields an odor which is offensive in any way.

OFFICE, MEDICAL AND DENTAL: A business where appointment-based medical services activities are conducted, which may include medical laboratories, psychological counseling, physical therapy, or other medical services to patients. This use may include retail sales of related items such as eyeglasses or medical devices.

OFFICE, PROFESSIONAL AND BUSINESS: A business where professional activities are conducted and/or business or professional services are made available to the public, including but not limited to, accounting, architecture, legal services, professional consulting, real estate services.

OFFICIAL PLAN: The official land use plan, or any geographical or functional part thereof, as adopted by the village of Western Springs, indicating the general locations recommended for streets, parks, public buildings, and other community development aspects.

OPEN AREA: That area of a lot, parcel, or tract that is not covered by a building or structure.

OPEN SALES LOT: A principal or accessory use involving the selling of merchandise not contained within an enclosed building.

OPEN SPACE: That portion of a lot or tract not covered with impervious surfaces (buildings and paving).

OVERHANG: That portion of a building which horizontally extends beyond the building walls of the first story of such building.

OWNER: Any person having legal or equitable title to the land sought to be subdivided.

PARKING FACILITY, PRIVATE: An accessory use reserved or used for parking or storage of motor vehicles for a permitted commercial or residential development.

PARKING FACILITY, PUBLIC: A use or area reserved or used for parking or storage of motor vehicles that is publicly available to customers, commuters, or other visitors to an area.

PARKING SPACE: An enclosed or unenclosed surfaced area permanently reserved for the temporary storage of one automobile and appropriately connected with a street or alley by a surfaced driveway affording adequate ingress and egress.

PARTY WALL: A wall which is common to but divides contiguous buildings.

PERSON: Includes any corporation, partnership, groups of persons, associations, or agent, so that where the word "person" is used it is clear that any entity who would be subject to this ordinance would be defined as a person.

PERSONAL SERVICES: A business where services are offered directly to customers, including, but not limited to, beauty services, hair cutting and styling, spa services, dry cleaning, and tailoring.

PET BOARDING: See *Kennel.*

PET CARE SERVICES: A business that provides services to animals (except veterinary) such as clipping, bathing and training. Boarding of animals is not a part of this use.

PET STORES: A retail establishment primarily involved in the sale of domestic animals and pet-related supplies.

PHILANTHROPIC INSTITUTION: An organization and/or facilities devoted to the betterment and/or improvement of community life, including, but not limited to, such institutions as the YMCA, YWCA, boys clubs, and educational or charitable foundations.

PLANNED DEVELOPMENT: A tract of land that is developed as a unit under single ownership or control pursuant to the requirements of the Planned Development specifications of Chapter 8.

PLAT OF CONSOLIDATION: A plat that combines more than one lot of record, in whole or in part, into a single lot of record or into multiple lots of record, but fewer in number than the underlying existing lots of record that are part of the consolidation.

PLAT OFFICER: The chairman of the plan commission of the village of Western Springs, or the director of community development, but only for administratively approved plats of consolidation or subdivisions or resubdivisions.

PRELIMINARY PLAT: A preliminary map of subdivision with accompanying material, upon which the design for the subdivision is presented, submitted for approval by the village but not for recording.

PROPERTY LINES: The lines bounding a "zoning lot", as defined herein.

PUBLIC WAY: Any sidewalk, street, alley, highway, or other public thoroughfare.

RECREATIONAL DEVICE: A structure or outdoor facility not attached to the principal structure on a lot and intended principally for recreational use such as, but not limited to, a playhouse, a swing set, a trampoline, a sandbox, or a freestanding basketball standard.

RECREATIONAL FACILITY, RESIDENTIAL: An outdoor area, court, pool, or facility composed of impervious surface material (e.g., asphalt, concrete, rubber or synthetic material) or nonimpervious surface material (e.g., sand) or any combination thereof, other than a recreational device, intended for active recreational or athletic use such as game courts, swimming pools, or ball fields established as an accessory use to a single-family residential dwelling.

RECREATIONAL VEHICLE: A camping trailer, motor home, mini- motor home, travel trailer, truck camper or van camper used primarily for recreational purposes and not used commercially nor owned by a commercial business.

RELIGIOUS INSTITUTION: A use, together with its accessory buildings and uses, where people regularly assemble for religious purposes and related social events and which, together with its accessory buildings and uses, is maintained and controlled by a religious body organized to sustain religious ceremonies and purposes.

RESEARCH AND DEVELOPMENT (R&D): A business which focuses on non-manufacturing research and/or development of products, including but not limited to, computer software, information systems, medicine, communication systems, transportation, geographic information systems, multimedia and video technology.

RESIDENTIAL: Refers to the use of land or buildings for dwelling purposes.

REST HOME: See definition of Convalescent, Nursing Or Rest Home.

RESTAURANT: An establishment within which food is offered for sale and consumption within the building on the premises or as a carry-out option for consumption elsewhere.

RESUBDIVISION: The relocation of property boundaries or the reallocation of property in a final plat that creates new lots of record or modifies the boundary lines of existing lots of record. A resubdivision may also be referred to as a subdivision. The dissolution of property lines not accompanied by the relocation of new property lines shall not constitute a resubdivision, but shall be considered a consolidation.

RETAIL STORE: An establishment for the display and sale of merchandise directly to the ultimate consumer. This use may include stocks of goods, wares or merchandise incidental to the primary business.

RIGHT OF WAY: A dedicated parcel of land to provide vehicular access to private and public property.

ROADWAY: The portion of the street right of way available for vehicular movement. Roadway width shall be measured from back of curb to back of curb.

ROOF: That portion of a building or structure which encloses such building or structure from the sky.

ROOF, MANSARD: A roof with two (2) slopes, the lower slope being steeper than the upper slope.

SATELLITE DISH ANTENNA: Any accessory structure used to receive radio or television signals from a transmitter or transmitter relay in planetary orbit.

SCREENING: A structure erected or vegetation planted for the purpose of concealing from view the area behind it.

SELF-STORAGE FACILITY: A building consisting of individual, small self-contained units that are leased or owned for the storage of business and household goods or contractors' supplies. Such supplies may not include hazardous materials as determined by the fire department.

SERVICE USE: A class of commercial uses that do not generate sales tax but trade directly with the consuming public.

SHOPPING CENTER: A group of commercial establishments, planned, developed, and managed as a unit related in location, size and type of shops to the trade area that the unit serves.

SHRUBS: Refers to a planting or growth of multistemmed woody plants.

SINGLE-FAMILY ATTACHED DWELLING: A dwelling type consisting of three (3) or more dwelling units in a single structure, in a side by side arrangement sharing common side walls such that each dwelling unit provides an individual exterior at grade entrance.

SKETCH PLAN: A general map or drawing on which the design for the subdivision of the land is presented for discussion purposes prior to the preparation of the preliminary plat.

SPECIALTY SHOP: A retail shop that sells a narrow range of goods and products and serves a specific clientele or provides a specific product not readily found in other retail establishments.

SPECIFIED ANATOMICAL AREAS:

A. Less than completely or opaquely covered: 1) human genitals, 2) pubic region, 3) buttock, and 4) female breast below a point immediately above the top of the areola;
B. Human male genitals in a discernible turgid state, even if completely or opaquely covered.

SPECIFIED SEXUAL ACTIVITIES:
A. Human genitals in a state of sexual stimulation or arousal;
B. Acts of human masturbation, sexual intercourse, fellatio or sodomy;
C. Fondling, kissing, or other erotic touching of specified anatomical areas.

STORY: That part of a building between the surface of any floor and the surface of the floor next above, and if there is no floor above, then the ceiling above. A basement is a story if its ceiling is five feet (5') or more above the level from which the height of the building is measured.

STORY, HALF: That portion of a building under a gable, hip, or mansard roof, the wall plates of which on at least two (2) opposite exterior walls are not more than four and one-half feet (41/2') above the finished ceiling of the story immediately below.

STREET, COMMUNITY ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET, CUL-DE-SAC: See subsection 10-10-7B of this ordinance.

STREET HALF: That portion of the street on either side of a tract boundary when a proposed street has its centerline, or within its right of way, the boundaries of one or more tracts.

STREET, LOCAL: See subsection 10-10-7B of this ordinance.

STREET, NEIGHBORHOOD ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET, PRIVATE: A paved area located on private property for the purpose of providing vehicular access to that property.

STREET, PUBLIC: A paved area within a dedicated right of way established to provide vehicular access abutting properties.

STREET, REGIONAL ARTERIAL: See subsection 10-10-7B of this ordinance.

STREET WIDTH: The shortest distance between the lines delineating the right of way of a street.

STRUCTURAL ALTERATION: Any change, other than incidental repairs, which would prolong the life of the supporting members of a building, such as the addition, removal, or alteration of bearing walls, columns, beams, girders, or foundations.

STRUCTURE: Anything which is constructed or erected which requires permanent location on the ground or attachment to something having permanent location on the ground.

SUBDIVIDER: Any owner or other person proceeding under the subdivision ordinance to subdivide or develop land.

SUBDIVISION: The division of land into two (2) or more lots of record, the creation of any easement or right of way, the establishment of a planned development, or any change in the boundary lines of a lot.

SUBDIVISION, ADMINISTRATIVE MINOR: A subdivision or resubdivision of residentially zoned lot(s) that results in the creation of not more than two (2) lots that meet or exceed the minimum lot area and size requirements for the applicable zoning district classification and shall otherwise be in full compliance with applicable provisions of this ordinance. The newly created lots shall front on an existing improved street, and not involve the construction of any new street, road or public utilities (other than service lines) or public or private drainage infrastructure improvements (excluding any on site drainage features or structures that are site specific) and shall not adversely affect the development of or create any nonconformity for the remainder of the parcel, or create a conflict with any provision of the ordinances of the village of Western Springs.

SUBDIVISION, MAJOR: Any subdivision or resubdivision not classified as a minor subdivision or not specifically exempted under the terms of this ordinance.

SUBDIVISION, MINOR: Any subdivision or resubdivision that results in the creation of not more than four (4) lots, and fronting on an existing improved street, and not involving the construction of any new street, road or public utility, and not adversely affecting the development of the remainder of the parcel or adjoining property, and not in conflict with any provision or portion of the land development ordinance of the village of Western Springs.

SURFACE AREA, ANTENNA: An area determined by adding together the actual surface area of each solid element or part of an antenna or its support structure, where "solid" is defined to include all air spaces that are fully bounded by solid elements.

SURVEYOR: A land surveyor, registered as such by the state of Illinois.

SWIMMING POOL: A permanent or semipermanent structure used for recreational swimming or bathing that is located either below ground level, above ground level or a combination thereof.

TAVERN: An establishment where liquor is sold to be consumed on the premises. This use may include limited food service, but does not include restaurants (where the principal business is the serving of food).

TEMPORARY OCCUPANCY: Occupancy of a dwelling, structure or lot, by a person or persons to perform a particular use for a limited period of time, such as selling real estate, overseeing building construction, or selling Christmas trees.

TEMPORARY RETAIL USES: Retail stores operating under short term leases for seasonal sales, testing retail potentials, or meeting other commercial opportunities, with no more than 120 days per customer-facing commercial operation.

TEMPORARY USE: See definition of Use, Temporary.

TERRACE: An accessory structure adjoining a building consisting of a relatively level, paved area which is open to the sky.

TOWNHOME: See *Dwelling Units, Single-family Attached.*

TOXIC MATERIAL: Any substance (liquid, solid or gaseous) which by reason of an inherent deleterious property when emitted in any amount, is injurious to plants, animals, or human beings.

TRAILER: A movable or portable unit to be towed on its own chassis and which is used for recreational or temporary office purposes, and is not designed for permanent or long term residence.

TRANSITIONAL YARD: See definition of Yard, Transitional.

TRELLIS: A vertical or diagonal lattice structure that is either freestanding or attached to a building for the purpose of growing vines.

TRUCK: A motor vehicle including a road tractor or a truck- tractor designed, used, or maintained primarily for the transportation of property, including "pickup trucks" and "cargo vans" in which at least one-third (1/3) of the total vehicle length is designed, used, or maintained for the transportation of property rather than human passengers.

TWO-FAMILY DWELLING: A dwelling type consisting of two (2) dwelling units in a single structure, arranged either as side by side units sharing a common wall or stacked units, with individual exterior entrances or individual unit access from a shared foyer.

UNDEVELOPED LAND: Land in and surrounding the village that has not been subdivided and/or improved under the requirements of the development control ordinance.

USE: Use of property is the purpose or activity for which the land or building thereon is designed, arranged, or intended, or for which it is occupied or maintained.

USE, ACCESSORY: An activity conducted within a building or structure, or on the open area of the lot which is:

A. Conducted or located on the same zoning lot as the principal building or use served, except as may be specifically provided elsewhere in this ordinance;
B. Clearly incidental to, subordinate in purpose to, and serves the principal use; and
C. Either in the same ownership as the principal use or is clearly operated and maintained solely for the comfort, convenience, necessity, or benefit of the occupants, employees, customers, or visitors of or to the principal use.

USE, CONDITIONAL: A use, either public or private, which, because of its unique characteristics, cannot be properly classified as a permitted use in a particular district or districts. After due consideration, in each case, of the impact of such use upon neighboring land and of the public need for the particular use at the particular location, such "conditional use" may or may not be granted, subject to the terms of this ordinance.

USE, EXISTING: Any use of a parcel of land or a building which exists on the effective date hereof.

USE, NONCONFORMING: Any use of land, building, or structure, lawful at the time of the enactment of this ordinance, which does not comply with all of the regulations of this ordinance or of any amendment hereto governing use of the zoning district in which such use is located.

USE, PERMITTED: A use which may be lawfully established in a particular district or districts provided it conforms with all requirements, regulations, and standards of such district.

USE, PRINCIPAL: The main use of land or buildings as distinguished from a subordinate or accessory use. A "principal use" may be "permitted" or "conditional".

USE, TEMPORARY: Any use which is established only for a fixed period of time, with the intent to discontinue such use upon the expiration of such time, and which does not involve the construction or alteration of any permanent structure.

VARIATION: A relaxation of the provisions of this ordinance where such variation will not be contrary to the public interest and where a literal enforcement of this ordinance would result in unnecessary and undue hardship or encroach upon the property rights of others.

VARIETY STORE: A retail shop that sells a range of goods and products not generally falling into one category.

VEHICLE: Any device in, upon or by which any person or property is or may be transported or drawn upon a highway or waterway, except devices moved by human power.

VEHICLE SALES: An establishment that sells or leases new or used automobiles, trucks, vans, trailers, recreational vehicles, boats, motorcycles, or other similar motorized transportation vehicles. A vehicle dealership may include inventory of the vehicles for sale or lease and on-site facilities for the repair and service of vehicles.

VETERINARY OFFICES: See *Animal Hospital.*

VIEW OBSTRUCTION: An obstruction of a line of sight (see definition of Line Of Sight).

VILLAGE: The village of Western Springs.

VILLAGE ATTORNEY: The attorney or legal firm retained by the village to represent its interests.

VILLAGE ENGINEER: A professional engineer, registered in the state of Illinois, who has been duly appointed as such by the village board.

WALKWAY/BIKEWAY: A way, however designated, across or within a block for use by pedestrian and bicycle traffic, which shall include, but not be limited to, sidewalks and crosswalks.

WALL: A vertical structure of a linear nature which serves to support, retain, or screen.

WATCHMAN'S QUARTERS: Working facilities for an owner/operator or employee to provide twenty four (24) hour security in any zoning district where such accommodations are a permitted use. Watchman's quarters shall not serve as a primary residence for a watchman.

YARD: An area on the same zoning lot with a building or structure, unoccupied and unobstructed from its lowest level to the sky, except as otherwise permitted in this ordinance. A yard is the distance between a building and a lot line.

YARD, CORNER SIDE: A side yard which adjoins a public street, extending from the front face of the building to the rear face of the building.

YARD, FRONT: A yard extending from the front building face to the front lot line along the full width of the lot between the side lot lines.

YARD, INTERIOR SIDE: A side yard which is located immediately adjacent to another zoning lot or to an alley separating such side yard from another zoning lot, extending from the side face of the building to the interior side lot line between the front and rear yards.

YARD, REAR: A yard extending from the building face to the rear lot line along the full width of the lot between the side lot lines, except that for corner lots the rear lot shall terminate at the corner side yard.

YARD, REQUIRED: The front, rear, interior side or corner side yard required by the applicable provisions of this ordinance.

YARD, TRANSITIONAL: A required yard on a lot in circumstances where the lot abuts a more restrictive zoning district and the proposed use of the lot could create potential impacts on adjacent property. No principal buildings are permitted in transitional yards.

SECTION 3. Title 10 (Development Control Ordinance), Chapter 7 (Business District Regulations) of the Western Springs Municipal Code shall be amended to read, in its entirety, as follows (new text is marked with underlining; deletions to existing text marked using strikethrough):

CHAPTER 7: BUSINESS DISTRICT REGULATIONS

SECTION
10-7-1: Permitted And Conditional Uses
10-7-2: Standards for Medical Cannabis
10-7-3: ~~10-7-2:~~ C1 - Village Center Commercial District
10-7-4:~~10-7-3:~~ C2 - Community Shopping District
10-7-5:~~10-7-4:~~ O - Limited Office District
10-7-6:~~10-7-5:~~ ORI - Office Research And Limited Industrial District
10-7-7:~~10-7-6:~~ DT - Downtown Transitional District
10-7-8:~~10-7-7:~~ Personal Wireless Service Facility On Village Owned Property
10-7-9:~~10-7-8:~~ MXD - Mixed Use Commercial-Residential District

10-7-1: PERMITTED AND CONDITIONAL USES

A. Business District Use Table: Table 7-1 below establishes the uses allowed in each business district.

1. Permitted Use ("P"): A "P" indicates that a use is a permitted use allowed by-right within the designated zoning district provided all applicable standards are met.

2. Conditional Use ("C"): A "C" indicates the use requires the approval of a conditional use permit in order to be allowed within the designated zoning district.

3. No designation: The absence of a letter (a blank space) or the absence of the use from the table indicates that the use is not allowed within the designated zoning district.

TABLE 7-1: BUSINESS DISTRICT USE TABLE

Use	C-1	C-2	O	ORI	DT	MXD

Storage, within enclosed buildings including self-storage facilities						
Taverns / pubs	P					
Theaters				C		
Two-family dwellings					P	
Vehicle sales, indoor sales only (new and used, including automobiles, motorcycles, and recreational vehicles)						
Veterinary offices	C	C				
Village government offices and buildings and telecommunication towers, antennas, and personal wireless services facilities, but prohibiting telecommunication towers	C	C				

greater than forty five feet (45') in height, except for monopoles owned by a state, federal or local government body that are used primarily for governmental or public safety communications, provided that the monopole has a maximum height of one hundred feet (100') and conforms to the regulations set forth in chapter 4, part V of this ordinance						

*If this use is located within the Downtown Pedestrian Overlay District (for those properties located along Burlington Avenue from Grand Avenue to Johnson Avenue, and along Hillgrove Avenue from Lawn Avenue to Johnson Avenue), then the use is subject to the following conditions: if the use is proposed on the first/ground floor, the full width of the storefront must be devoted exclusively to retail sales to a depth within the store of not less than an average of 15 feet as measured from the storefront windows.

10-7-2 Standards for Medical Cannabis: Any medical cannabis dispensing organization locating within the C-1, C-2, or O Districts shall abide by all zoning regulations and restrictions of the underlying zoning district and the following requirements:

1. Location Restrictions:

    a. Medical cannabis dispensing organizations shall not be located within five hundred (500) feet of the property line of any pre-existing Medical Cannabis Dispensary located within or outside the Village.

    b. Single Use Properties: A dispensary may not be located within one thousand (1,000) feet from the property line of a pre-existing public or private preschool or elementary or secondary school, and five hundred (500) feet from a pre-existing religious institution, daycare center, daycare home, group day care home, part day childcare facility.

    c. Multi-tenant or Multi-use Properties: A dispensary may not be located within one thousand (1,000) feet from the property line of a pre-existing public or private preschool or elementary or secondary school, and five hundred (500) feet from a pre-existing religious institution, daycare center, daycare home, group day care home, part day childcare facility.

    d. The distances in this subsection will be determined by a radius from all lot lines from the pre-existing public or private preschool or elementary or secondary school, religious institution, daycare center, daycare home, group day care home, part day childcare facility to the lot lines of the proposed dispensary location.

2. Exterior Appearance: The exterior appearance of the building of a dispensary shall be compatible with commercial structures already constructed or under construction within the immediate neighborhood, to ensure against blight, deterioration, or substantial diminishment or impairment of property values in the vicinity.

3. Performance Standards: All medical cannabis dispensing organizations shall provide evidence of conformity to the performance standards for noise, vibration, smoke, dust, odor, heat, glare, fire hazard and other objectionable influences established by the State of Illinois and administered by the Illinois Environmental Protection Agency, the United States of America and administered by

the federal environmental agency, and any ordinance of Cook County or the Village of Western Springs.

4. Exterior Lighting for Dispensaries: Dispensaries shall install lighting to illuminate the exterior of the building and all entrances and exits to the facility. Exterior lighting shall be one (1) footcandle, and shall remain on until at least one (1) hour after the closing of the dispensary. In addition, all exterior lighting shall be inwardly directed so that no direct lighting is cast off-premises.

5. Dispensary Entrance: A dispensary may have more than one (1) means of egress from the interior so as to meet building codes and public safety concerns; however, it shall have a single secure public entrance and shall implement appropriate security measures to deter and prevent the theft of medical cannabis and unauthorized entrance into areas containing cannabis. The dispensary entrance shall be located and maintained clear of any barriers, landscaping and similar obstructions that may block the view so that the entrance and pedestrian access is clearly visible from the public street, sidewalk and parking area.

6. Cannabis Paraphernalia and Product Display at Dispensaries: No retail sales of cannabis paraphernalia are permitted except as permitted by law to qualifying patients and/or designated caregivers. No medical cannabis or paraphernalia shall be displayed or kept in a dispensary so as to be visible from outside the premises.

7. On-site Use Prohibited: No cannabis shall be smoked, eaten or otherwise consumed or ingested within the medical cannabis dispensing organization.

8. Other Standards:

    a. All medical cannabis dispensing organizations shall abide by all other applicable state and village regulations and requirements.

    b. Medical cannabis dispensing organizations may not conduct any sales or distribution of cannabis other than as authorized by the Compassionate Use of Medical Cannabis Program Act (410 ILCS 130/1 et seq.).

    c. All medical cannabis dispensing organizations shall obtain and maintain at all times valid licensing, certification, and/or accreditation by appropriate local, state and national bodies charged with the regulation of medical cannabis organizations and shall adhere to all governing local, state and national codes and regulations.

SECTION 4. Codifier to Make All Necessary Internal Amendments. To the extent necessary, all tables of contents, indexes, headings and internal references or cross-references to sections contained in the Western Springs Municipal Code shall be amended by the Village's codifier so as to be consistent with the amendments set forth in this Ordinance.

SECTION 5. Repeal of Conflicting Legislation; Severability; Validity of Non-Conflicting Legislation. All ordinances or parts of ordinances in conflict with this Ordinance are, to the extent of such conflict, repealed. Each section, paragraph, clause and provision of this Ordinance is separable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Ordinance, nor any part thereof, other than that part affected by such decision. Except for the Code Amendments set forth above in this Ordinance, all chapters and sections of the Municipal Code of the Village of Western Springs shall remain in full force and effect.

SECTION 6. Effective Date. This Ordinance shall become effective after its passage, approval and publication as provided by State law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

COUNTY OF C O O K)

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that the attached document is a true and correct copy of the Ordinance now on file in my office, entitled:

ORDINANCE NO. 26-_____

AN ORDINANCE AMENDING TITLE 10 (DEVELOPMENT CONTROL ORDINANCE), CHAPTER 2 (DEFINITIONS AND RULES OF WORD USAGE) AND CHAPTER 7 (BUSINESS DISTRICT REGULATIONS) RELATED TO MEDICAL CANNABIS OF THE WESTERN SPRINGS MUNICIPAL CODE

which was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 26th day of January, 2026, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 26th day of January, 2026.

I further certify that the vote on the question of the passage of the said Ordinance by the Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Ordinance, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this 26th day of January, 2026.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 9.A.

To: Board of Trustees
From: Ronald Derengowski, Water Plant Superintendent
CC: Matthew Supert, Director of Municipal Services, Ellen Baer, Village Manager
RE: [Previously discussed] Vendor Contract with Wigen Water Technologies for the Supply and Installation of the Replacement of Reverse Osmosis Membranes (Omnibus Item)

Recommendation

The Public Works and Water Committee reviewed this item at their meeting on January 8, 2026 and recommended the approval of a vendor contract with Wigen Water Technologies for the supply and installation of the replacement of Reverse Osmosis (RO) Membranes for an amount not to exceed $266,795.50.

Summary

Over the past three years, the rejection and recovery of the membranes on the reverse osmosis skids that treat Wells #3 and #4 have significantly decreased. An assessment of the Water Plant equipment by Carollo has also demonstrated a need to replace the membranes to enhance the efficiency and reliability of the treatment process.

On November 13, 2025, the Village published a Request for Proposals (RFP) for the supply and labor for the removal of the existing failing membranes and installation of new membranes. As part of the proposal, the Village requested a letter of interest, certification that the respondent is qualified to perform the work, relevant experience, information about the organization/company, and pricing for the labor, travel, and items. As this was not a formal bid, the awarding was not based on the pricing alone.

On December 4, 2025, the Village received a total of (5) proposals. While all respondents met the initial submission criteria, Custom Filtration Solutions LLC advised they would not be able to take on the required engineering liability due to the size of their organization and subcontractor. Of the four remaining, Wigen Water Technologies confirmed they have the material readily available to begin mobilizing upon awarding of the project, and can complete the project, including testing of the membranes, within 14 working days. Wigen Water Technologies performed the initial replacement of the reverse osmosis membrane cartridges back in 2018.

While Process Solutions, Inc. came in at the lowest price, the savings came primarily through the line item for labor costs. Upon discussion with a representative from the company, the

costs did not reflect the payment of prevailing wage rates. This is required for all public works projects in Illinois. In addition, the replacement of the membranes would not occur until late March or early April. If we were to wait until springtime to do this work, we would incur additional cost for the chemicals needed to perform multiple clean-in-place maintenance of the existing membranes before Process Solutions, Inc. could execute the work.

Staff recommends Wigen Water Technologies. The Village has budgeted $260,000 for the project. Municipal Services does not anticipate a budget amendment at this point in time as there will be savings in the pre-membrane cartridges line item in this same fund.

Financial Impact

Account 4302510 55352
Fund Water Fund
2026 Budget $260,000.00
Project Cost $266,795.50.

Recommended Motion

I move to approve a waiver of the competitive bid process in favor of the solicitation of competitive proposals and a vendor contract with Wigen Water Technologies for the supply and installation of the replacement of Reverse Osmosis (RO) Membranes for an amount not to exceed $266,795.50.

Request for Proposals (RFP)

Reverse Osmosis Membrane Replacement

RFP Issued: **Thursday, November 13, 2025**

Response Due: **10:00 A.M on Thursday, December 4, 2025**

The Village of Western Springs, Illinois ("Requestor") is issuing a Request for Proposals ("RFP") for qualified firms to submit responsive proposals to furnish and replace membranes on reverse osmosis water treatment equipment.

In order to have your firm's Proposal considered, it must be submitted in a sealed envelope containing:

- A copy of the Organization's Proposals, Letter of Interest, and the Contractor's Qualifications

The sealed envelope shall be plainly marked:

Reverse Osmosis Membrane Replacement
Attn: Diana Puga
Village of Western Springs
740 Hillgrove Avenue,
Western Springs, Illinois 60558
Submitted by: *Wigen Water Technologies*

The Proposal must be received at the Office of the Village Clerk, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois 60558, **no later than 10:00 A.M., December 4, 2025 ("Submittal Deadline").** The Proposal may be submitted by mail, delivery service, or in person. Faxed or emailed Proposals will not be accepted. In-person deliveries will only be accepted at Village Hall during the Village's current hours of operation. Any Proposal received after the Submittal Deadline closing time and date will not be considered.

SCHEDULE OF PRICES – RO Skids

THE UNDERSIGNED SUBMITS HEREWITH THIS SCHEDULE OF PRICES COVERING THE WORK TO BE PERFORMED UNDER THIS AGREEMENT

The Respondent, in submitting this proposal, hereby agrees to comply with all provisions and requirements of the specifications and agreement documents attached hereto. This proposal shall remain in force and effect for a twelve (12) month period from start date.

Well #3 RO Skid

Description	Quantity	Rate	Extended Price
Toray TMH20A-400C 8" x 40" or LG BW-MOST (Active Membrane Area 400 ft² (37 m²))	168	$560.00/ea.	$94,080.00
Estimated Service Labor*	144	$240.00/hr.	$ 34,560.00

Well #4 RO Skid

Description	Quantity	Rate	Extended Price
Toray TMH20A-400C 8" x 40" or LG BW-MOST (Active Membrane Area 400 ft² (37 m²))	150	$ 560.00/ea.	$84,000.00
Estimated Service Labor*	136	$ 240.00/hr.	$32,640.00
Estimated Travel Expenses (Both Skids)**	1	$ 14,860.00	$ 14,860.00

Total (RO Skid 3 & 4) $260,140.00

ALTERNATE BID ITEMS

Description	Quantity	Rate	Extended Price
Spare Head Seals	10	$ 59.35 ea.	$ 593.50
Spare Adapter Seals	10	$ 10.80 ea.	$ 108.00
Spare Permeate Port Seals	10	$ 10.80 ea.	$ 108.00
Spare Membrane Adapters	10	$ 99.60	$ 996.00

Total $ 1,805.50

*For Service Labor, please include in the proposal number of technicians, site hours, and travel hours

**For Estimated Travel Expenses – please include air fare, ground transportation, lodging, per diems for all technicians

(c) Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the VILLAGE and the Village Affiliates.

(d) The ENGINEER'S insurance shall contain a severability of interests clause or language stating that ENGINEER'S insurance shall apply separately to each insured against whom a claim is made or suit is brought, except with respect to the limits of the insurer's liability.

(2) All Coverages –
Each insurance policy required by this clause shall be endorsed to state that the coverage shall not be voided or canceled or reduced in coverage or in limits by the insurer, except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the VILLAGE.

(3) Reporting. In the event of a claim, demand, lawsuit or other action filed against the ENGINEER and/or its owners, officers, employees, agents and subcontractors arising out of the Services or the Project or relating to any matter covered by the Agreement, the ENGINEER shall immediately notify, in writing, the VILLAGE'S and the ENGINEER'S insurer(s) so that they can notify their insurers of such claim, demand, lawsuit or other action. Any failure to comply with reporting provisions of any policy by a party shall not affect coverage and the indemnification and defense obligations under the Agreement.

e. Acceptability of Insurers –
The insurance carrier used by the ENGINEER shall have a minimum insurance rating of A according to the AM Best Insurance Rating Schedule and licensed to do business in the State of Illinois.

f. Verification of Coverage --
The ENGINEER shall furnish the VILLAGE with certificates of insurance and polices and with copies of endorsements affecting coverage with premiums paid in full. The certificates and endorsement for the insurance policy are to be signed by a person authorized by that insurer to issue certificates of insurance. The certificates and endorsements may be on forms provided by the insurance carrier and are to be received and approved by the VILLAGE before any work commences. The VILLAGE reserves the right to request full certified copies of the insurance policies.

2. To the fullest extent permitted by law, the ENGINEER shall indemnify and hold harmless the VILLAGE and the Village Affiliates against all injuries, deaths, loss, damages, claims, suits, liabilities, judgments, cost and expenses, which may accrue against the VILLAGE and the Village Affiliates, caused by the negligent or willful performance of the Services by the ENGINEER, its owners, officers, employees, agents and/or subcontractors, except that arising out of the negligence or willful act of the VILLAGE and the Village Affiliates. Notwithstanding any of the foregoing, nothing contained in this paragraph shall require the ENGINEER to indemnify the VILLAGE and the Village Affiliates for their own negligent acts or omissions.

3. Any insurance policies required by the Agreement, or otherwise provided by the ENGINEER, shall in no way limit the responsibility to indemnify, keep and save harmless and defend the VILLAGE and the Village Affiliates as herein provided.

4. The ENGINEER will comply with all applicable federal and Illinois statutes, and local ordinances of the VILLAGE, and shall operate within and uphold the ordinances, rules and regulations of the VILLAGE while performing the Services herein described.

5. The VILLAGE reserves the right by written change order or amendment to make changes in requirements, amount of work, or engineering time schedule adjustments regarding the performance of the Services; and the ENGINEER and the VILLAGE shall negotiate appropriate adjustments acceptable to both parties to accommodate such changes.

6. The VILLAGE may, at any time, by written order to the ENGINEER (Suspension of Services Order), require the ENGINEER to stop all, or any part, of the Services required by the Agreement. Upon receipt of such an order, the ENGINEER shall immediately comply with its terms and take all reasonable steps to minimize the costs associated with the Services affected by such order. The VILLAGE, however, shall pay all costs incurred by the suspension, including all costs necessary to maintain continuity and for the resumptions of the Services upon expiration of the Suspension of Services Order.

14. All books, papers, notes, records, lists, data, files, forms, reports, accounts, documents, manuals, handbooks, instructions, computer programs, computer software, computer disks and diskettes, magnetic media, electronic files, printouts, backups, and computer databases created or modified by the ENGINEER relating in any manner to the work performed by the ENGINEER or by anyone else and used by the ENGINEER in the performance of these services under the Agreement (the "Services") shall be a "work made for hire" as defined by the laws of the United States regarding copyrights.

15. The ENGINEER assigns to the VILLAGE and its successors and assigns all of its right, title, interest and ownership in the Services, including but not limited to copyrights, trademarks, patents, and trade secret rights and the rights to secure any renewals, reissues, and extensions thereof. The ENGINEER grants permission to the VILLAGE to register the copyright and other rights in the Services in the VILLAGE's name. The ENGINEER shall give the VILLAGE or any person designated by the VILLAGE all assistance reasonably necessary to perfect its rights under the Agreement and to sign such applications, documents, assignment forms and other papers as the VILLAGE requests from time to time to further confirm this assignment. The ENGINEER further grants to the VILLAGE full, complete and exclusive ownership of the completed Services, with the condition that the VILLAGE shall not have the right to use such plans or specifications on any other project or for extensions of this Project without the express written consent of the ENGINEER, which consent shall not be unreasonably withheld. Notwithstanding the foregoing, the Engineer shall maintain all rights to reuse standard details and other design features on other projects. The VILLAGE agrees the ownership rights it acquires in such plans and specifications will not be transferred to any other person or party. The ENGINEER shall not use the Services for the benefit of anyone other than the VILLAGE, without the VILLAGE's prior written permission. Upon completion of the Services or other termination of the Agreement, the ENGINEER shall deliver to the VILLAGE all copies of any and all materials relating or pertaining to the Agreement.

16. Subject to the terms of Number 15 above, the drawings, specifications, reports, and any other Project documents prepared by the ENGINEER in connection with any or all of the Services furnished hereunder shall be delivered to the VILLAGE for the use of the VILLAGE. The ENGINEER shall have the right to retain originals of all Project documents and drawings for its files. Furthermore, it is understood and agreed that the Project documents such as, but not limited to, reports, calculations, drawings and specifications prepared for the Project, whether in hard copy or machine readable form, are instruments of professional service intended for one-time use in the construction of this Project. The VILLAGE may retain copies, including copies stored on magnetic tape or disk, for information and reference in connection with the occupancy and use of the Project. Any reuse of Project documents, without the express written consent of the ENGINEER, shall be at VILLAGE's sole risk, and the VILLAGE shall indemnify and hold harmless the ENGINEER from all claims, damages, losses and expenses, including attorney's fees, arising out of or resulting therefrom. When and if record drawings are to be provided by the ENGINEER, the information used in the preparation of record drawings is provided by others and the ENGINEER is not responsible for accuracy, completeness nor sufficiency of such information. The level of detail illustrated by record drawings will generally be the same as the level of detail illustrated by the design drawing used for Project construction. If additional detail is requested by the VILLAGE to be included on the record drawings, then the ENGINEER will be due additional compensation for additional services. The ENGINEER shall have the right to include representations of the design of the Project, including photographs of the exterior and interior, among the ENGINEER's promotional and professional materials. The ENGINEER's materials shall not include the VILLAGE's confidential and proprietary information.

17. The ENGINEER will not at any time, either directly or indirectly, disclose, use or communicate or attempt to disclose, use or communicate to any person, firm or corporation any confidential information or any other information concerning the business, services, finances or operations of the VILLAGE, except as expressly authorized by the VILLAGE. The ENGINEER shall treat such information at all times as confidential. The ENGINEER acknowledges that each of the following can contain confidential information of the VILLAGE and that the disclosure of any of the following by the ENGINEER without the VILLAGE's express authorization would be harmful and damaging to the VILLAGE's interests:
    a. Compilations of resident names and addresses, resident lists, resident payment histories, resident information reports, any other resident information, computer programs, computer software, printouts, backups, computer disks and diskettes, and computer databases which are not otherwise known to the public.
    b. All information relating to the Engineering Services being performed by the ENGINEER under the Agreement, regardless of its type or form and which are not otherwise known to the public.
    c. Ideas, concepts, designs and plans which are specifically involved with the Engineering Services being performed by the ENGINEER under the Agreement which are created, designed, enhanced by the ENGINEER and which are not otherwise known to the public.

c. Either party may change its mailing address by giving written notice to the other party as provided above. Whenever the Agreement requires one party to give the other notice, such notice shall be given only in the form and to the addresses described in this paragraph.

24. The Agreement represents the entire and integrated contract between the parties and supersedes all prior negotiations, representations or understandings, whether written or oral. The Agreement may only be amended by written instrument executed by authorized signatories of the VILLAGE and the ENGINEER.

25. The terms of the Agreement shall be binding upon and inure to the benefit of the parties and their respective successors.

26. The waiver of one party of any breach of the Agreement or the failure of one party to enforce at any time, or for any period of time, any of the provisions hereof, shall be limited to the particular instance, shall not operate or be deemed to waive any future breaches of the Agreement and shall not be construed to be a waiver of any provision, except for the particular instance.

27. If any term, covenant or condition of the Agreement or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, the remainder of the Agreement shall not be affected thereby, and each term, covenant or condition of the Agreement shall be valid and shall be enforced to the fullest extent permitted by law.

28. The Agreement shall be construed under and governed by the laws of the State of Illinois, and all actions brought to enforce the dispute resolution provisions of the Agreement shall be so brought in the Circuit Court of Cook County, State of Illinois.

B. CERTIFICATION OF ENGINEER

1. The ENGINEER certifies that the ENGINEER, its shareholders holding more than five percent (5%) of the outstanding shares of the ENGINEER, its officers and directors are:
   a. Not delinquent in the payment of taxes to the Illinois Department of Revenue in accordance with 65 ILCS 5/11-42.1-1.
   b. Not barred from contracting as a result of a violation of either Section 33E-3 (bid rigging) or Section 33E-4 (bid rotating) of the Criminal Code of 1961 (720 ILCS 5/33E-3 and 5/33E-4).
   c. Not in default, as defined in 5 ILCS 385/2, on an educational loan, as defined in 5 ILCS 385/1.
   d. In compliance with the Veterans Preference Act (330 ILCS 55/0.01 *et seq.*).
   e. In compliance with equal employment opportunities and, during the performance of the Agreement, the ENGINEER shall:
      (1) Not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
      (2) If it hires additional employees in order to perform the Agreement or any portion hereof, it will determine the availability (in accordance with the Illinois Department of Human Right's Rules and Regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.
      (3) In all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.
      (4) Send to each labor organization or representative of workers, with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the ENGINEER's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations. If any such labor organization or representative fails or refuses to cooperate with the ENGINEER in its efforts to comply with such Act and Rules and Regulations, the ENGINEER will promptly so notify the Illinois

discrimination in any manner, in connection with the contracting for or the performance of any work or service of any kind, by, for, on behalf of, or for the benefit of the VILLAGE. The ENGINEER, subcontractor, nor any person on his or her behalf shall not, in any manner, discriminate against or intimidate any employee hired for the performance of work for the benefit of the VILLAGE on account of race, color, creed, sex, religion, physical or mental handicap unrelated to ability, or national origin.

k. Patriot Act Compliance. Neither the ENGINEER nor any of its principals, shareholders, members, partners or affiliates, as applicable, is a person or entity named as a Specially Designated National and Blocked Person (as defined in Presidential Executive Order 13224) and that it is not acting, directly or indirectly, for or on behalf of a Specially Designated National and Blocked Person and that the ENGINEER and its principals, shareholders, members, partners or affiliates, as applicable, are not, directly or indirectly, engaged in, and are not facilitating, the transactions contemplated by the Agreement on behalf of any person or entity named as a Specially Designated National and Blocked Person. The ENGINEER agrees to defend, indemnify and hold harmless the VILLAGE and the VILLAGE Affiliates from and against any and all claims, damages, losses, risks, liabilities and expenses (including reasonable attorneys' fees and costs) arising from or related to any breach of the representations and warranties in this subsection.

l. Compliance with Laws. The ENGINEER, and its owners, officers, agents, employees, subconsultants and subcontractors, shall comply with any and all applicable laws, regulations and rules promulgated by any Federal, State, County, local, or other governmental authority or regulatory body pertaining to all aspects of the Services now in effect, or which may become in effect during the performance of the Services. The scope of the laws, regulations and rules referred to in this paragraph includes, but is in no way limited to, the Occupational Safety and Health Act standards, the Illinois Human Rights Act, the Illinois Equal Pay Act of 2003, along with the standards and regulations promulgated pursuant thereto (including but not limited to those safety requirements involving work on elevated platforms), all forms of traffic regulations, public utility, Interstate and Intrastate Commerce Commission regulations, Workers' Compensation Laws, the Substance Abuse Prevention on Public Works Projects Act, Prevailing Wage Laws, the Smoke Free Illinois Act, the USA Security Act, the Federal Social Security Act (and any of its titles), and any other law, rule or regulation of the Illinois Department of Labor, Illinois Department of Transportation, Illinois Environmental Protection Act, Illinois Department of Human Rights, Human Rights Commission, EEOC, Metropolitan Water Reclamation District of Greater Chicago and the Village of Western Springs. In the event that the ENGINEER, or its owners, officers, agents, employees, subconsultants and subcontractors, in performing the Services are found to have not complied with any of the applicable laws and regulations as required by the Agreement, then the ENGINEER shall indemnify and hold the VILLAGE harmless, and pay all amounts determined to be due from the VILLAGE for such non-compliance by the ENGINEER, including, but not limited to, fines, costs, attorneys' fees and penalties.

m. Employment of Illinois Workers on Public Works Act Compliance. To the extent required by law, the ENGINEER agrees to comply with the provisions of the Employment of Illinois Workers on Public Works Act (30 ILCS 570/0.01 *et seq.*).

n. No Collusion. The ENGINEER represents that the only persons, firms or corporations interested in the Agreement as principals are those disclosed to the VILLAGE prior to the execution of the Agreement, and that the Agreement is made without collusion with any other person, firm or corporation. If at any time it shall be found that the ENGINEER has, in procuring the Agreement, colluded with any other person, firm or corporation, then the ENGINEER shall be liable to the VILLAGE for any loss or damage that the VILLAGE may suffer, and the Agreement shall, at VILLAGE'S option, be null and void.

o. Conflict of Interest. The ENGINEER represents and certifies that, to the best of its knowledge: (1) no VILLAGE employee or agent is interested in the business of the ENGINEER or the Agreement; (2) as of the date of the Agreement, neither the ENGINEER nor any person employed or associated with the ENGINEER has any interest that would conflict in any manner or degree with the performance of the obligations under the Agreement; and (3) neither the ENGINEER nor any person employed by or associated with the ENGINEER shall at any time during the term of the Agreement obtain or acquire any interest that would conflict in any manner or degree with the performance of the obligations under the Agreement.

p. Compliance with Laws, Grant Regulations. All Services must be provided, performed and completed in accordance with all required governmental permits, licenses, or other approvals and authorizations, and with applicable statutes, ordinances, rules and regulations. The ENGINEER also must comply with applicable conditions of any federal, state or local grant received by the VILLAGE with respect to the Agreement. The ENGINEER will be solely

and any other expenses) to defend the denial of the request. The defense shall include, but not be limited to, challenged or appealed denials of FOIA requests to either the Illinois Attorney General or a court of competent jurisdiction. The ENGINEER agrees to defend, indemnify and hold harmless the VILLAGE and Village Affiliates and agrees to pay all costs incurred by the VILLAGE connected therewith (such as reasonable attorney and witness fees, filing fees, penalties, fines, and any other expenses) to defend any denial of a FOIA request pursuant to the ENGINEER's request to utilize a lawful exemption.

3. Means, Methods and Safety. The ENGINEER will neither have control over or charge of, nor be responsible for, the construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the construction of the Project, unless one or more of those tasks or activities are specifically agreed to by the VILLAGE and the ENGINEER in the Agreement or an addendum to the Agreement.

1.0 INTRODUCTION – LETTER OF INTEREST

Wigen Water Technologies (Wigen) is issuing this Letter of Interest and is pleased to provide this proposal to replace the membranes in Well #3 and Well #4 Reverse Osmosis Skids for the Village of Western Springs, IL. Wigen has reviewed the Request for Proposal and understands the scope of work and terms.

Exceptions/exclusions and Terms and Conditions are provided at the end of this document.

If you have any questions about this proposal, please do not hesitate to contact me.

Sincerely,

Mark Roufs
Aftermarket Sales Manager

3.0 SCOPE OF SUPPLY

3.1 REVERSE OSMOSIS MEMBRANE REPLACEMENT - Well #3 RO Skid

Membrane Elements	
Membrane Quantity	168 Elements
Manufacturer/Model	Toray TMH20A-400C
Type	Polyamide, Thin Film Composite
Manufacturer's Element Warranty	One (1) Year Limited Warranty
Membrane Pressure Vessels	
Vessel Quantity	24; 16:8 Array
Manufacturer/Model	Protec Model PRO-8-300 -7, 7-Long; 8"
Vessel Construction	FRP, 300 psi
Scope of Work	
Remove existing RO elements from Well #3 RO Skid	
Dispose of existing membranes on site. Disposal means (i.e. Dumpster) provided by others	
Install replacement membranes and restart RO skid	

4.0 PRICING

Pricing for the equipment and services as described in this proposal is provided below.

Prices are in US dollars.

4.1 REVERSE OSMOSIS MEMBRANE REPLACEMENT - Well #3 RO Skid

ITEM #	DESCRIPTION	QTY.	RATE	TOTAL
1	Toray TMH20A-400C Ultra Low-Pressure Brackish Water RO Membrane Element, 8" x 40"	168	$560.00 ea.	$94,080.00
2	Service Labor - labor to remove and install RO membranes Includes: Wigen Field Service Team (4 technicians) - (20) site hours and (16) travel hours each	144	$240.00/hr.	$34,560.00
3	Estimated Travel Expenses Includes: air fare, ground transportation, lodging, per diem	1	$7,430.00	$7,430.00
		SUBTOTAL		$136,070.00
		Sales Tax		TBD
NOTES: • Excludes freight/shipping & handling • Delivery - provided at placement of order • Payment terms – Net 30		**TOTAL**		$136,070.00

5.0 CLARIFICATIONS & EXCLUSIONS

- Pricing excludes any applicable taxes or tariffs.
- Pricing excludes shipping & handling.
- Pricing excludes performance bond, if required.
- Offloading & staging of materials by others.
- Disposal means by others (i.e. Dumpsters)
- After-hours labor excluded.
- Pricing valid for 30 days from bid date.
- Additional parts or services are excluded.
- Unforeseen conditions excluded.

6.0 TERMS AND CONDITIONS

General Terms and Conditions

9S-10-P-WIGEN WATER TECHNOLOGIES: SERVICE TERMS AND CONDITIONS

1.0 TERMS. Subject to the terms and conditions ("Agreement") herein, Wigen Water Technologies ("Wigen") has agreed to sell to the buyer identified in Wigen's quote (hereafter, "Buyer") (individually, each a "Party" and collectively the "Parties"), and Buyer has agreed to buy from Wigen those certain services ("Services") and products ("Products"), if any, set forth in Wigen's quote and/or proposal or such other similar document (collectively, the "Quote"), which Quote is expressly incorporated herein. The number of hours for Service shall be those set forth in the Quote.

2.0 PURCHASE PRICE/TERMS OF PAYMENT. The price for the Products and Services ("Purchase Price") is stated in the Quote, absent typographic or other errors, which are subject to correction. Applicable sales tax, shipping costs, and handling fees will be added to final invoice. In the event USimposed tariffs or import taxes or import fees are applied to Products desired for or needed for fulfillment of the Quote, Buyer agrees to pay Wigen such additional costs, if any, on a documented, pass-through basis. Both Parties may propose changes to the scope of supply; no proposed changes will be acceptable until agreed to by both Parties in writing, which both Parties agree in good faith to negotiate. Unless otherwise provided, payment is due in US dollars within 30 days from invoice date. Payment shall be made by ACH or bank wire or as otherwise agreed. Where applicable, when Products are placed at the disposal of the Buyer or the end-user of the Products ("Owner") ready for unloading, delivery shall be deemed to have occurred, and invoices "due upon delivery" of Products shall be due 30 days thereafter. Any undisputed amounts not paid when due will be subject to interest computed at a rate equal to 1.5% per month or the highest rate permissible under law. Undisputed invoices shall be paid regardless of disputes relating to other invoices.

11.0 LIMITATION OF REMEDIES. Neither buyer nor Wigen shall be liable to the other for indirect, incidental, consequential or special damages of any kind, including without limitation, foreseeable business losses, loss of profits, and/ or economic loss. the parties agree that these limitations are agreed allocations of risk and shall survive a determination of any court that any remedy herein fails of its essential purpose.

12.0 LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCE SHALL WIGEN'S LIABILITY EXCEED THE PURCHASE PRICE PAID BY BUYER.

13.0 DEFAULT. In the event of a material default by Buyer, Wigen may, in addition to other available remedies, (a) suspend in transit any shipment; (b) decline further shipments; (c) postpone further performance until such default is corrected; (d) cancel this Agreement/Quote; and (e) declare all amounts owed by Buyer payable immediately.

14.0 INDEMNITY. Buyer shall defend, hold harmless, and indemnify Wigen from and against any and all claims, along with all damages and expenses (including reasonable attorneys' fees) related to or in connection with (i) any defect or failure of the Products (including any software code related thereto) not due to the fault of Wigen; (ii) any alleged or actual breach of this Agreement by Buyer and/or Buyer's agents, and/or (ii) any negligent or intentional acts or omissions of Buyer and/or Buyer's agents.

15.0 ASSIGNMENT. Buyer may not assign this Agreement or the Quote without first obtaining Wigen's written consent.

16.0 CONFIDENTIALITY. Buyers agree to hold in confidence all confidential information disclosed to it by Wigen and to use such information solely for the purpose of performing its obligations hereunder. Such information includes but is not limited to financial data, technical data (including schematics and designs), computer code, software (including PLC, HMI, and VFD code), technical documentation, and other data Buyer has reason to know or reasonably should know is confidential ("Information"). Buyer may disclose Information to Buyer's agents with a bona fide need to know under this Agreement, provided prior to such disclosure, Buyer informs Buyer's agents of these requirements and obtains from Buyer's agents agreement(s) in writing to be bound by confidentiality terms at least as restrictive as those applicable to Buyer.

17.0 COMPLIANCE. Buyer shall, at its expense, comply with all applicable laws and regulations applicable to Buyer and obtain/maintain all governmental approvals applicable to Buyer, if any.

18.0 GOVERNING LAW AND JURISDICTION. The laws of Minnesota shall govern this Agreement; any proceeding related to this Agreement shall be in Minnesota state or federal courts.

19.0 SURVIVAL. The following sections will survive this Agreement: Intellectual Property Ownership, Limited Warranty, Limitation of Remedies, Limitation of Liabilities, Indemnity, Confidentiality, Governing Law and Jurisdiction, and Survival.

3. LIMITATION OF WARRANTIES. THE WARRANTIES SET FORTH HEREIN SHALL NOT APPLY TO ANY PRODUCTS WHICH HAVE BEEN ALTERED, MODIFIED, INSTALLED, USED, OR MAINTAINED IN A MANNER OTHER THAN AS ORIGINALLY INTENDED OR USED IN A MANNER CONTRARY TO WIGEN'S INSTRUCTIONS AND/OR INSTRUCTION MANUALS OR TO PRODUCTS WHICH SUSTAIN DAMAGE BY REASON OF ACCIDENT, MISUSE, ABUSE, ABNORMAL OPERATING CONDITIONS, OR TO UNAUTHORIZED ALTERATION, SERVICE, OR REPAIR.

4. DISCLAIMER OF WARRANTIES. EXCEPT AS EXPRESSLY PROVIDED HEREIN, WIGEN HEREBY DISCLAIMS, AND BUYER HEREBY EXPRESSLY WAIVES ANY AND ALL WARRANTIES, EXPRESS AND IMPLIED, WITH RESPECT TO THE PRODUCTS AND SERVICES SOLD HEREUNDER, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF TITLE, FITNESS FOR A PARTICULAR PURPOSE, AND MERCHANTABILITY.

VENDOR CONTRACT FOR
GOODS, SUPPLIES AND SERVICES
(Contractor: Wigen Water Technologies of Chaska, Minnesota)

This Vendor Contract for Goods, Supplies and Services (the "Contract") is entered into between the Village of Western Springs, an Illinois municipal corporation (the "Village"), and Wigen Water Technologies of Chaska, Minnesota (the "Vendor"), and is dated as of _____.The Village and the Vendor are at times referred to below individually as a "Party" and collectively as the "Parties".

IN CONSIDERATION of the mutual promises, performance of certain obligations and payment of financial consideration by the Parties, as set forth below and in the attachments to this Contract, the Vendor agrees to provide the goods and supplies and/or perform the services, collectively defined as "Work" below, and the Village agrees to pay for the Work as set forth in this Contract.

1. **Contract.** This Contract shall incorporate and include the following exhibits:

    a. Vendor's Invoice, Purchase Order or Agreement, or similarly titled document, (the "Invoice/Purchase Order/Agreement"), which describes the certain goods, supplies and services to be performed, provided, delivered, supplied and/or installed by the Vendor (the "Work") for the benefit of the Village, which is dated November 24, 2025 (Invoice or Purchase Order or Agreement), and a true and correct copy of said Invoice/Purchase Order/Agreement is attached hereto as **Exhibit "A**"; and
    b. Rider to Contract (General Provisions), which is attached hereto as **Exhibit "B"** and which contains certain "General Provisions" that constitute additional terms and conditions applicable to this Contract and to the Parties.

2. **Incorporation of Exhibits; Priority of Documents.** The Exhibits attached to this Contract are incorporated herein and made a part of this Contract. Where there is a conflict or inconsistency between the language in this Contract and any Exhibit, the language of this Contract shall supersede and control, but only to the extent that the language in this Contract is more restrictive in that it provides the Village with greater protections and/or benefits. Where there is a conflict or inconsistency between the language in **Exhibit "A"** (Invoice/Purchase Order/Agreement/Agreement) and **Exhibit "B"** (Rider to Contract - General Conditions), the language of **Exhibit "B"** (Rider to Contract - General Conditions) shall supersede and control, but only to the extent that the language therein is more restrictive in that it provides the Village with greater protections and/or benefits.

3. **Provision of the Goods, Supplies, Equipment and/or Services.** The Vendor agrees to perform, provide, deliver, supply and/or install all of the goods, supplies and/or services as set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"**.

4. **Payment to Vendor.** Provided that the Vendor performs in accordance with the terms and provisions of this Contract, the Village agrees to pay the Vendor for the goods, supplies and/or services at the stated prices and pursuant to the payment schedule (if any) set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"** or as set forth below in this Section 4; however, the financial payments and any penalties associated with late payments due under this Contract shall be paid by the Village only in accordance with the Local Government Prompt Payment Act (50 ILCS 505/).

    a. The following **Alternate Payment Schedule** has been agreed to by the Parties: ***NOT APPLICABLE.***

i. _____ % payment of the Total Contract Price payable to the Vendor at the time of execution of this Contract or the date of the Notice to Proceed;
ii. _____ % payment of the Total Contract Price payable to the Vendor upon written proof from the Vendor and Village verification of completion of 50% of the Work;
iii. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 75% of the Work; and
iv. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 90% of the Work; and
v. 10% of the Total Contract Price held by the Village as retention and payable to the Vendor upon written proof from the Vendor and Village verification of completion 100% completion of the Work. Depending on the type of Work, partial and final lien waivers may be required by the Village in order to release payments.

5. **Notice to Proceed With the Work.** The Vendor shall commence the Work under this Contract only upon issuance of written Notice to Proceed from the Village delivered to the Vendor and shall complete the Work *by April 30, 2026, unless due to delays as set forth herein. In order to complete the work by April 30, 2026, Vendor agrees to order the required membranes within 2 business days of receipt of a fully executed purchase order/Contract; in the event the membrane manufacturer cannot deliver the membranes in time for Vendor to complete the Work by April 30, 2026, the Parties agree to work together to complete the Work as soon as reasonably possible after the membranes are delivered* the "Completion Date").

a. The Vendor shall diligently and continuously work on the Work until the completion of the Work or upon the termination of this Contract, but in no event later than the Completion Date. The Parties may mutually agree in writing to modify the Completion Date. Delays caused by the Village shall extend the Completion Date in equal proportion to the delay caused by the Village. In the event that the Vendor performs any Work and incurs any expenses in furtherance of the Work prior to receiving a written notice to proceed from the Village in regard to the Work or any phase of the Work, the Work performed and the expenses incurred are at the Vendor's sole risk, and such Work and expenses are not authorized for payment or reimbursement, unless and until a written notice to proceed is issued by the Village. The actual, documented Work performed prior to the issuance of the the Village notice to proceed shall be paid by the Village as part of the "not to exceed" Fee provided by this Contract.

b. Suspension of Work. The Village, at any time and for any reason, may suspend work on any or all Work by issuing a written work suspension notice to the Vendor. The Vendor must stop the performance of all Work within the scope of the suspension notice until the Village directs the Vendor in writing to resume performance of the Work.

c. Phasing of Scope of Work. The Vendor shall not commence performance of the Work on the initial phase or any subsequent phase of the Scope of Work, unless it first receives a written Notice to Proceed from the Village Representative. In the event that the Village decides not to proceed with the Work or any subsequent phase of the Work for any reason, this Contract shall terminate upon written notice to the Vendor issued by the Village advising of the termination of this Contract. In such case, the Village shall be liable to the Vendor only for payment of all actual, completed, documented Work, based on a prorated value of the contract price or the actual amount of quantities of deliverables or completed work if the contract pricing is based on unit pricing, through the date of termination. The Vendor agrees

to waive any and all claims and causes of action for any other damages or losses of any kind that could be brought relative to the termination of this Contract by the Village based on the Village's decision not to proceed with the Work or any phase of the Scope of Work. The Vendor understands and agrees that funds for payment of each Phase of the Work and the Work related thereto are subject to the availability of an annual or periodic appropriations for this purpose by the appropriate federal or State agencies as part of the _____**N/A**_Program [INSERT FUNDING SOURCE(S)] or the Village. In the event of non-receipt of funds marked for appropriation for this Work from the appropriate State agencies or nonappropriation of funds by the Village for the work and Work to be provided under this Contract, the Village will either not authorize the Vendor to commence the next Phase of the Work or, if a Phase has been commenced, this Contract shall be terminated, without termination charge or responsibility for or obligation to the Vendor or for damages or other liability beyond the payment of all actual, completed work and Work that conform to the approved plans through the date of termination. If at any time funds are not appropriated for the continuance of this Contract, cancellation shall be accepted by the Vendor on thirty (30) days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated under this Contract beyond the date of termination. For the purposes of this Contract, the phases for the Work are set forth in **Exhibit "A",** _____ [INSERT PROJECT PHASING DOCUMENT].

d. Reporting; Delivery Date of Final Report. The Vendor shall regularly, and no less than bi-weekly, provide both written and verbal reports to thE Village Manager to the Village and to any other Village staff or officials upon request regarding the progress of the Work. The Village Manager can require more frequent reporting by the Vendor at any time. Upon final completion of the Work, the Vendor shall deliver a final written report addressed to the Village and with copies delivered to the Village Manager that confirms the completion of the Work (the "Final Report"). The Final Report shall be completed and delivered to the Village on or before the Completion Date.

e. Electronic Reporting. In addition to providing the Village with paper copies of all reports, data or results and the Final Report, the Vendor (and the Primary Representative) shall, to the extent possible, submit documentation regarding the Work to the Village electronically. The Parties agree to work together to develop a procedure for electronic communication of data that is effective and efficient for all Parties.

f. Final Acceptance. The Work, or, if the Work are to be performed in separate phases, each phase of the Work, shall be considered complete on the date of final written acceptance by the Village Manager of the Work or each phase of the Work, as the case may be, which acceptance shall not be unreasonably withheld or delayed.

6. **Independent Contractor Status; Reporting.** The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. **To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.**

7. **Effective Date.** After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

Rider to
Vendor Contract for Goods, Supplies and Services
(General Provisions)

1. **Authority.** The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

2. **Taxes, Benefits and Royalties.** Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

3. **Compliance With Laws.** The Vendor represents and warrants that it will comply will all applicable Federal, State and local laws concerning prevailing wage rates and all Federal, State and local laws concerning equal employment opportunities and its performance of this Contract.

4. **Bonds; Prevailing Wage Act.** If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate upon completion of the Work, but shall be reduced to ten percent (10%) of the Contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of completion of installation by Vendor. All performance and material bonds provided by Contractor under the terms of this Contract shall include such provisions as will guarantee the faithful performance of the contractor's obligations under this Section and under all applicable Federal, State and local laws concerning prevailing wage rates, including the Illinois Prevailing Wage Act, 820 ILCS 130/. The Contractor and its subcontractors shall comply with the reporting requirements of the Prevailing Wage Act throughout the duration of this Contract.

5. **Payment and Liens.** Vendor will invoice in full upon completion of the Work. For clarity, retention does not apply. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village until releases and waivers of lien have been supplied as the Village designates.

6. **Successors/Assigns.** This Contract shall enure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the Parties hereto. This Contract and the obligations it imposes upon the Vendor are not transferable by Vendor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

7. **Severability.** In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

8. **Entire Agreement.** This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

9. **Litigation, Venue and Governing Law.** The Parties agree that, for the purpose of any litigation relative to this Contract and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois or the United States District Court located in Chicago, Illinois, and the Parties consent to the jurisdiction of said Courts for any such action or proceeding. This Contract, and all questions of interpretation, construction and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois.

10. **Applicable Laws and Regulations.** The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:
    a. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in this Contract to be entered into; that this Contract is made without connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.
    b. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is delinquent in the payment of any money owed to the Village.

c. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
d. The Vendor complies with the Illinois Drug Free Work Place Act.
e. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.
f. The Vendor complies with the Americans with Disabilities Act.
g. The Vendor states that any Work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all applicable Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
h. The Vendor also agrees to require any subcontractor doing Work under this Contract to agree to adhere to the requirements of this Section 10.

11. **Waiver.** The waiver of one Party of any breach of this Contract or the failure of one Party to enforce any provision hereof shall be limited to the particular instance and shall not operate to bar or be deemed a waiver of enforcing against other or future breaches.

12. **Time.** Time is of the essence with the performance of the Work covered by this Contract; however, the Vendor shall perform the Work in accordance with the terms and provisions set forth in the attached **Exhibit "A"**.

13. **Guaranties, Warranties and Representations.** The Vendor warrants and represents as follows:
    a. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.
    b. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.
    c. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.
    d. It is authorized to sell and install the goods, supplies, equipment and/or services.
    e. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.
    f. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.
    g. In addition to any other third party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.

14. **Insurance.**
    a. **Insurance – Village**. The Village will not provide any form of insurance coverage, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability insurance, errors and omissions insurance, or professional liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract.

b. **Insurance – Vendor**. The Vendor, at its own cost, shall provide all of its own insurance coverages as applicable to the Work being performed, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability and property insurance, errors and omissions insurance or professional liability insurance, employment practices liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract. The insurance coverages shall be written on the comprehensive form and as an "occurrence" policy. The minimum dollar amount of annual coverage for the general liability and property insurance, errors and omissions insurance or professional liability insurance and employment practices liability insurance shall be mutually agreed to by the Village Manager and the Vendor in writing, but in no case shall such dollar amount of coverages be less than:

   i. Comprehensive General Liability – $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate
   ii. Umbrella Coverage – $1,000,000.00
   iii. Property Damage – $500,000.00 per occurrence
   iv. Automobile Coverage - $1,000,000.00 per occurrence
   v. Errors and omissions insurance or professional liability: TBD by Village Manager
   vi. Workers' Compensation – Statutory

   [adjustments to be made to the insurance coverage amounts based on type of use, in the Village Manager's discretion]

The Vendor shall furnish certificates of insurance, with premiums paid in full, prior to the Effective Date of this Contract, copies of which are incorporated herein and attached hereto as **Exhibit "C"** and made a part hereof. A copy of certificate(s) of insurance, insurance policies and endorsements shall contain the insurer(s) written confirmation that the nature, scope, duration and amount of insurance coverage meets the requirements of this Contract and shall remain in effect for all aspects of the Work for both ongoing and completed operations. The Vendor agrees to have the Village of Western Springs and its officers, appointed and elected officials, President and Board of Trustees, employees, volunteers, attorneys, engineers and agents (the "Village Affiliates") expressly named as additional insureds on its insurance policies, in its endorsements and on its certificates related to the operation of the Special Event for the purposes stated herein. The Village shall have the right to approve the coverage and the carrier, which approval shall not be unreasonably withheld.: "Should any of the above-described policies be canceled before the expiration date thereof, the Vendor shall serve thirty (30) calendar days prior written notice to the Village."

The Vendor's policy or policies of insurance shall specifically recognize and cover the indemnification obligations under this Contract. Said insurance shall provide that the insurance provided by the Vendor shall be primary to the Village's own insurance and that any provision of any contract of insurance or other risk protection benefit or self-insurance policy purchased or in effect or enacted by the Village and any other insurance or benefit of the Village shall be in excess of the Vendor's insurance. In the event of the cancellation of any insurance policy required herein, or upon the Vendor's failure to procure said insurance, the Village shall have the right to immediately terminate this Contract. The Vendor and its insurer(s) agree to waive any right of recovery of any kind, including the waiver of subrogation rights, they may have against the Village or its Affiliates because of any financial payments made to any person as a result of the indemnification / hold harmless / defense provision and the additional insured requirement under this Contract. The insurance policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or

indirectly, and whether or not the person or entity had an insurable interest in the property damaged. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 14 shall survive the termination of this Contract.

15. **Indemnification.** To the fullest extent permitted by Illinois law, the Vendor shall indemnify, defend and hold harmless the Village and each of its officers and officials, agents, attorneys, employees, engineers, volunteers and representatives (collectively, the "Village Affiliates") from all claims, demands, lawsuits, actions, costs (including litigation expenses and Village attorney fees and any award of prevailing party attorney fees assessed against the Village or the Village Affiliates) of any kind, caused by, resulting from, arising out of or occurring in connection with the Vendor's performance of the Work under this Contract, but only to the extent caused by the negligent act, misconduct or omission of the Vendor or anyone or entity directly or indirectly employed by the Vendor for whose acts Vendor may be liable.

    Waiver and Assumption of Liability. The Vendor assumes all liability for personal injuries or illness of any kind or death that might occur to itself while acting under this Contract. The Vendor assumes all liability and responsibility for its personal property while performing any Work under this Contract. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 15 shall survive the termination of this Contract.

    No Personal Liability. No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

16. **Default and Termination.** This Contract is subject to termination by the Village or the Vendor upon forty-eight (48) hours prior written notice should the other Party fail to perform its obligations hereunder. The written notice of default shall specify the nature and type of default and shall be delivered to the alleged defaulting Party at the address listed below. The Party in default shall have twenty-four (24) hours within which to cure the default. In the event of any termination by the Village, the Vendor will be paid for all actual services rendered, which are accepted by the Village as being in conformance with this Contract, through the date of termination. In the event of termination of this Contract by the Village for nonperformance by the Vendor, the Village shall not be obligated to pay for any of the equipment or professional services or other related costs and expenses of the Vendor that relate to that portion of this Contract that the Vendor fails, refuses or is unable to perform or complete. In the event of default or termination for nonperformance, the Village reserves all of its legal rights and remedies to seek damages of any kind from the Vendor.

17. **Notice.** All notices required to be delivered hereunder shall be in writing and shall be deemed sufficient if: (a) personally delivered, (b) sent by facsimile, (c) sent by a nationally recognized overnight courier, or (d) sent by certified mail, return receipt requested, postage prepaid and addressed to the Parties to this Contract at the addresses set forth below or at such other addresses as may be designated by the Parties in writing. Notices personally delivered and sent by overnight courier shall be deemed delivered on the date of receipt. Notices mailed by certified mail shall be deemed received on the date of receipt or refusal to accept delivery as evidenced by the return receipt. Notices served by facsimile machine shall also require that copies of the notice and proof of transmission be sent by regular mail on the date of transmission, and notice shall be deemed received on the actual date of receipt of the facsimile.

Western Springs, Illinois 60558

If to Vendor:

President/Authorized Corporate Officer
Wigen Water Technologies
4201 Norex Dr., Ste. 100
Chaska, MN 55318

18. **Independent Contractor.** The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (A) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (B) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

19. **Inspections By Village.** During the term of this Contract, the Village, or its designee, shall have the right at any time and from time to time to enter upon the Project site for the purpose of conducting such inspections in order to confirm that the Work is being performed in accordance with the terms of the Contract. In the event that the Village, or its designee, discovers a noncompliance matter or a defect or deficiency in the construction of the, the Project, the Village, or its designee, shall notify the Contractor thereof in writing within five (5) calendar days. Any such inspection by the Village, or its designee, shall not be construed as a representation by the Village, or its designee, that there has been compliance with the Contract Documents, this Contract or that the Project will be or are free of faulty materials or workmanship, or as a waiver of any right that the Village, or its designee, or any other party may have against the Construction, its agents or any subcontractors or any other party for failure to comply with the Contract Documents or the provisions of this Contract.

20. **FOIA Compliance.** Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor's possession and to provide the requested public records to the Village within two (2) business days of the request being made by the Village. The Contractor agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Contract. The Contractor acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10).

21. **Open Book Project; Audit.** The Project will be an "open book" project, and the Village and the general contractor (or contractors, if more than one) will ensure access by the Village Superintendent, or their designee, upon request for the purpose of reviewing and auditing the Contractor's or its subcontractors' respective books and records relating to the Project.

DRAFT 1.26.2026
RESOLUTION NO. 26-XXXX

VOTE: _____
AYES:_____
NAYS:_____
ABSENT: _____
ABSTAIN:_____
DATE: January 26, 2026
OTHER: 2/3 Vote Requirement.

A RESOLUTION APPROVING THE WAIVER OF THE COMPETITIVE BID PROCESS IN FAVOR OF THE SOLICITATION OF COMPETIVE PROPOSALS AND ACCEPTING AND AUTHORIZING THE EXECUTION OF AN AGREEMENT TO BE ENTERED INTO BETWEEN THE VILLAGE OF WESTERN SPRINGS AND WIGEN WATER TECHNOLOGIES OF CHASKA, MINNESOTA FOR THE REPLACEMENT OF REVERSE OSMOSIS MEMBRANES AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS TO PAY FOR THE SERVICES IN AN AMOUNT NOT TO EXCEED $266,795.50.

WHEREAS, the President and Board of Trustees of the Village of Western Springs ("Village Board") desires to hire a qualified firm to replace reverse osmosis membranes for Wells #3 and #4 by using Village capital funds to pay for the completion of the work (the "Services"); and

WHEREAS, the Village received proposals until December 4, 2025 at 10:00 AM Central Time and subsequently reviewed all proposals; and

WHEREAS, Wigen Water Technologies submitted a completed proposal, confirmed they have the material readily available, can complete the project and subsequent testing within 14 working days, and performed the initial replacement of the reverse osmosis membrane cartridges in 2018; and

WHEREAS, Wigen Water Technologies of Chaska, Minnesota (the "Contractor"), desires to perform the Services for $266,795.50 using available Water Funds; and

WHEREAS, at an open public meeting held on January 8, 2026, the Village's Public Works and Water Committee ("Committee") reviewed and discussed the terms of the Services, the Contract, and received input from the Village staff, and provided an opportunity for input from the public, and then the Committee favorably recommended that the Village Board approve the Contract; and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Services, the Contract, and received input from the Village staff, and provided an opportunity for input from the public. At its January 26 meeting, the Village Board accepted the recommendation to waive the bidding process in order to award the contract for the performance of the Services to the Contractor and authorize and approve such Contract (the "Contract") with the Contractor for the completion of the Services (a copy of the Bid Documents, including the Contract is attached hereto as **Group Exhibit "A"** and incorporated herein); and

WHEREAS, pursuant to Section 1-13-6 (Purchases and Purchasing Agent) of the Village of Western Springs Municipal Code ("Village Code"), all purchase orders or contracts for supplies, materials, equipment or contractual services involving the expenditure of more than $25,000.00 shall be let to the lowest responsible bidder after advertisement for bids, unless competitive bidding is waived by a vote of two-thirds (2/3rds) of all of the Trustees elected; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized, under the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the State of Illinois Constitution of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-7), to approve and enter into the attached Contract, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, businesses and the public to approve and enter into the attached Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

Section 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

Section 2: Approval of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of a contract (the "Contract"), substantially in the form attached hereto as **Group Exhibit "A",** and made a part hereof, which may contain certain non-substantive and non-financial changes that are approved by the Village Attorney, for the purpose of accepting the proposal submitted by Wigen Water Technologies, to hire the Contractor to complete the Project. In addition, the Village Board authorizes and directs the Village President and Clerk, or their designees, to execute the final version of the Contract, and such other related documents as may be necessary to fulfill the Village's obligations under the Contract.

Section 3: Approval of Related Expenses. The President and Board of Trustees of the Village of Western Springs also authorize and direct the Village President, the Village Clerk, the Village Manager and the Village Attorney, or their designees, to execute and deliver all other instruments and documents and pay all Village Board-authorized costs that are necessary to fulfill the Village's obligations under the Contract.

Section 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Contract by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of a certified copy of this Resolution and executed versions of the attached Contract to the Clerk's office and to the Contractor.

Section 5. Effective Date. This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 9.B.

To: Board of Trustees
From: Ronald Derengowski, Water Plant Superintendent
CC: Matthew Supert, Director of Municipal Services, Ellen Baer, Village Manager
RE: [Previously discussed] Vendor Contract with Hawkins, Inc. for the 2026 Water Treatment Chemical Supply and Delivery (Omnibus Item)

Recommendation

The Public Works and Water Committee reviewed this item at their meeting on January 8, 2026, and the Village Board reviewed this item at their meeting on January 12th, 2026, and recommended the waiver of the competitive bid process in favor of the solicitation of proposals and a vendor contract with Hawkins, Inc.

Summary

On November 13, 2025 the Village published a Request for Proposals (RFP) for the supply and delivery of chemicals for water treatment. As part of the proposal, the Village requested a letter of interest, relevant experience, information about the organization/company, and pricing for the chemical list or their equivalent.

On December 11, the Village received a total of 5 proposals. Alexander Chemical Corporation, Univar Solutions, and H2O Innovations did not submit pricing for all chemicals required by the Water Treatment Plant for chemical treatments. After reviewing the proposals, the Village determined that Hawkins, Inc., was the only firm to meet all the criteria. Hawkins, Inc., has been the Village's chemical supplier and has consistently provided exceptional service and delivery to the Village. They are a highly reputable vendor.

Univar Solutions had lower prices on two chemicals. The cost savings for these three chemicals under Hawkins' pricing would save the Village approximately $299. These savings are nominal and would not be enough of a cost savings for staff to recommend a separate vendor for purchase of only three chemicals.

Austin Logistics, LLC submitted pricing for all chemicals, but they did not provide any information about their organization/company which was required as part of our RFP.

H2O Innovation provided three alternate chemicals that were priced significantly lower than those specified by the Village. These chemicals would require testing to see their effectiveness before the Village staff could make a recommendation to move to the alternate.

Approximately ten years ago, the water plant staff moved away from one of these alternates to the specified chemical due to its effectiveness.

Alexander Chemical's pricing on two of the main treatment chemicals used is significantly lower. However, they are priced for bulk delivery, which the Village water plant cannot accommodate.

The Village budgets annually for the supply and delivery of chemicals needed to treat water for distribution. The requested total quantity in the bid of the chemicals is the average annual use. Actual annual quantities will vary based on the demand of water and the condition of the water treatment equipment.

Financial Impact

Account 4302510 55600
Fund Water Fund
2026 Budget $325,000
Project Cost As required

Recommended Motion

I move to approve a waiver of the competitive bid process in favor of the solicitation of proposals and a vendor contract with Hawkins, Inc. for an amount up to $325,000.00 for the supply and delivery of chemicals for the treatment of potable water.

DATE: January 26, 2026
OTHER: 2/3 Vote Required.

A RESOLUTION WAIVING THE COMPETITIVE BID PROCESS IN FAVOR OF THE SOLICITATION OF COMPETITIVE PROPOSALS AND AUTHORIZING THE EXECUTION OF AN AGREEMENT TO BE ENTERED INTO BETWEEN THE VILLAGE OF WESTERN SPRINGS AND HAWKINS, INC. WATER TREATMENT GROUP OF UNIVERSITY PARK, ILLINOIS FOR THE SUPPLY AND DELIVERY OF CHEMICALS FOR THE TREATMENT OF POTABLE WATER, AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS IN AN AMOUNT NOT TO EXCEED $325,000.

WHEREAS, the President and Board of Trustees of the Village of Western Springs ("Village Board") desires to hire a qualified firm to supply and deliver chemicals for water treatment (the "Services"); and

WHEREAS, the Village issued a Request for Proposals and received proposals until December 11, 2025 at 10:00 AM Central Time, and subsequently reviewed all submitted materials; and

WHEREAS, Hawkins Inc, Water Treatment Group of University Park, Illinois (the "Vendor") was determined to best meet all the RFP criteria, has had experience as the Village's chemical supplier and has consistently provided exceptional service and delivery, and can perform the Services for an amount not to exceed $325,000 using those available Water Funds; and

WHEREAS, at an open public meeting held on January 8, 2026, the Village's Public Works and Water Committee ("Committee") reviewed and discussed the terms of the Services and the recommended proposal from the vendor, and received input and a recommendation from the Village staff to consider waiving the local competitive bidding process and entering into the Contract with the Vendor, and provided an opportunity for input from the public. At its January 8, 2026 meeting the Committee favorably recommended that the Village Board approve the Contract, which is attached hereto as with the proposal documents as **Group Exhibit "A"** and made a part hereof (the "Contract"); and

WHEREAS, at open public meetings held on and January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Services, the Contract, and received input from the Village staff, and provided an opportunity for input from the public. At its January 26 meeting, the Village Board accepted the recommendation to waive the bidding process in order to award the contract for the performance of the Services to the Vendor and authorize and approve such Contract with the Vendor for the completion of the Services; and

WHEREAS, pursuant to Section 1-13-6 (Purchases and Purchasing Agent) of the Village of Western Springs Municipal Code ("Village Code"), all purchase orders or contracts for supplies, materials, equipment or contractual services involving the expenditure of more than $25,000.00 shall be let to the lowest responsible bidder after advertisement for bids, unless competitive bidding is waived by a vote of two-thirds (2/3rds) of all of the Trustees elected; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized, under the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7

(Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the State of Illinois Constitution of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-7), to approve and enter into the attached Contract, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, businesses and the public to approve and enter into the attached Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

Section 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

Section 2: Approval of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of a contract (the "Contract"), substantially in the form attached hereto as **Group Exhibit "A",** and made a part hereof, which may contain certain non-substantive and non-financial changes that are approved by the Village Attorney, for the purpose of accepting the proposal submitted by Hawkins, Inc. Water Treatment Group, to hire the Vendor to complete the Services. In addition, the Village Board authorizes and directs the Village President and Clerk, or their designees, to execute the final version of the Contract, and such other related documents as may be necessary to fulfill the Village's obligations under the Contract.

Section 3: Approval of Financial Obligations and Other Necessary Actions. The President and Board of Trustees of the Village of Western Springs also authorize and direct the Village President, the Village Clerk, the Village Manager and the Village Attorney, or their designees, to execute and deliver all other instruments and documents and pay all Village Board-authorized costs that are necessary to fulfill the Village's obligations under the Contract, and also authorize and direct the Village Manager and the Village Attorney, or their designees, to take all necessary actions to comply with the Village of Western Springs' obligations under the Contract.

Section 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Contract by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of a certified copy of this Resolution and executed versions of the attached Contract to the Clerk's office and to the Vendor.

Section 5. Effective Date. This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

The Village of Western Springs

Request for Proposals (RFP)

Water Treatment Chemicals Supply & Delivery

RFP Issued: **Thursday, November 13, 2025**

Response Due: **10:00 A.M on Thursday, December 11, 2025**

The Village of Western Springs, Illinois ("Requestor") is issuing a Request for Proposals ("RFP") for qualified firms to submit responsive proposals to supply and deliver chemicals for water treatment.

In order to have your firm's Proposal considered, it must be submitted in a sealed envelope containing:

- A copy of the organization's Proposals and letter of interest

The sealed envelope shall be plainly marked:

Water Treatment Chemicals Supply & Delivery
Attn: Diana Puga
Village of Western Springs
740 Hillgrove Avenue,
Western Springs, Illinois 60558
Submitted by: *VENDOR NAME*

The Proposal must be received at the Office of the Village Clerk, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois 60558, **no later than 10:00 A.M., December 11, 2025 ("Submittal Deadline").** The Proposal may be submitted by mail, delivery service, or in person. Faxed or emailed Proposals will not be accepted. In-person deliveries will only be accepted at Village Hall during the Village's current hours of operation. Any Proposal received after the Submittal Deadline closing time and date will not be considered.

I. PROJECT OVERVIEW

The Village is seeking a qualified, vendor to supply and deliver chemicals for water treatment on a weekly basis. The Villages Water Treatment Plant is located at 614 Hillgrove Avenue, Western Springs, IL 60558.

II. SCOPE OF SERVICES

The services to be provided will include:

- Supplying the Village with all chemicals for water treatment
- Delivery of all chemicals to the Village's Water Treatment Plant on a weekly basis

III. SUBMITTAL REQUIREMENTS

The deadline for submitting proposals is 10:00 A.M. on December 11, 2025. One (1) paper copy of the proposal should be submitted to the individual identified on the cover page of this RFP document.

a. Letter of Interest including a brief statement of the Respondent's understanding of the scope of the work to be performed and the terms upon which work may be assigned to the Respondent;
b. Relevant Experience
    i. Please include the municipality name, contact, telephone number, e-mail address, and contract(s) year.
c. Organization Information
d. Schedule of Prices

IV. SELECTION PROCESS

All Responses will first be evaluated to determine if they are complete and meet the requirements specified in this RFP.

Village reserves the right to consider any proposal and to reject any and all proposals if doing so best serves the public interest.

V. CONTACT INFORMATION

All questions concerning this Request for Proposals shall be directed to Diana Puga at dpuga@wsprings.com.

VI. ANTICIPATED SCHEDULE

The Village expects to adhere to the following time schedule, but may extend the time schedule for any reason, with or without advance public notice.

Issue RFP	November 13, 2025
RFP Questions Due	12:00 PM on December 1, 2025
RFP Due Date	10:00 AM on December 11, 2025
Village Board Selection of Qualified, Responsive Respondent(s)	January 2026
Begin Agreement	January 2026

VII. ADDITIONAL TERMS AND CONDITIONS

a. Reserved Rights

The Village of Western Springs reserves the right to seek clarification of information submitted by any Respondent(s) in response to this RFP and/or to request additional information from the Respondents during the evaluation process.

The Village of Western Springs reserves the right, at any time and for any reason, to cancel this consultant procurement process, to reject any or all Responses, to accept an alternative proposal or to waive any technical compliance issues with the responses.

b. Incurred Costs

The Village of Western Springs will not be liable in any way for any costs incurred by consultants in replying to this Request for Proposals or any part of the procurement process.

c. Compliance

This RFP process shall be conducted in accordance with the applicable provisions of the Local Government Professional Services Selection Act (50 ILCS 510.01 *et seq.)* and with the Illinois Procurement Code (30 ILCS 500/1 *et seq.*).

VIII. AGREEMENT PROVISIONS

Responsibility of the Vendor

The selected vendor shall supply and deliver chemicals on a weekly basis for water treatment to the Water Treatment Plant.

Chemicals

The Village is seeking the following chemicals or approved alternates:

Chemicals	Current Volume	Expected Annual Quantity
Sodium Hypochlorite	Delivered From Tote	16,500 GAL
Sodium Hydroxide 30%	Delivered From Tote	11,000 GAL
AWC 102 Ultra	Delivered From Tote	8,000 GAL
LPC - AM	Delivered From Tote	1,000 GAL
AWC 234	55 GAL drums	3 Drums
AWC 236	55 GAL Drums	2 Drums
Oxalic Acid	55 LBs per Bag	10 Bags

Estimates

The Village reserves the right to increase or decrease the volume of chemicals and does not guarantee specific volumes to be provided under the terms and conditions of this RFP.

Payment

Invoices for the work completed shall be submitted to the Village's Accounts Payable. The Local Government Prompt Payment Act (50 ILCS 505/) shall apply to all work performed on behalf of the Agency.

Compliance with Laws and OSHA Standards

The Contractor shall read and abide by all applicable laws, standards, and regulations that apply to the completion of the work, including, but not limited to, IDPH, EPA/IEPA, OSHA, IDOT, COOK COUNTY, MWRD, and IDOL.

Safety

The Contractor shall abide by all safety standards and regulations provided by OSHA.

Guarantee

Neither the final certificate nor payment nor any provision in the Contract Document shall relieve the Contractors responsibility for faulty materials or workmanship. Guarantee: The Contractor shall be responsible for all work under this agreement and shall leave all systems in perfect operating condition. The Contractor shall regulate, replace, and/or repair at his own expense any defective workmanship, material, and/or equipment which may become apparent within one year after date of final acceptance of the work.

Terms

Upon written agreement of both parties at least **THIRTY (30)** days prior to the anniversary date of the agreement, this agreement may be renewed by the Village of Western Springs for a period of **FOUR (4)** successive one-year period(s) under the same prices, terms, and conditions as in the original agreement.

SCHEDULE OF PRICES – CHEMICALS

THE UNDERSIGNED SUBMITS HEREWITH THIS SCHEDULE OF PRICES COVERING THE WORK TO BE PERFORMED UNDER THIS AGREEMENT

The Respondent, in submitting this proposal, hereby agrees to comply with all provisions and requirements of the specifications and agreement documents attached hereto. This proposal shall remain in force and effect for a twelve (12) month period from start date.

Water Treatment Chemicals, Equipment & Local Service for Safe, Clean Water

Diana Puga
Village of Western Springs
740 Hillgrove Avenue
Western Springs, Illinois 60558
Submitted by: Hawkins Inc

Subject: Request for Proposals (RFP) Water Treatment Chemicals Supply & Delivery

Thank you for the opportunity to submit our response to the RFP for Water Treatment. We are pleased to express our interest and confirm our ability to meet the requirements for supplying water treatment chemicals as specified in the solicitation.

Understanding of Scope

We understand that the services to be provided include:

- Supplying the Village with chemicals required for water treatment.
- Delivering chemicals to the Village's Water Treatment Plant on a weekly basis.

Our team is fully prepared to meet these requirements by ensuring timely deliveries, maintaining consistent product quality, and complying with all applicable safety and regulatory standards.

Terms of Assignment

We acknowledge that work will be assigned under the terms outlined in the solicitation. Hawkins Inc is committed to providing reliable service, competitive pricing, and responsive support throughout the contract period.

Thank you for considering our interest. We look forward to the opportunity to serve the Village and contribute to the success of its water treatment operations. Please feel free to reach out for any additional information.

About Us

Hawkins is a key supplier and distributor for water treatment chemicals and equipment. Founded in 1938, Hawkins has become a widely known and respected chemical distributor. Hawkins serves thousands of businesses and municipalities throughout the Central United States. We employ approximately 1000 people, professional and operational staff, including experienced chemists and engineers, trained technicians and drivers, and customer support specialists. We offer a wide product line of water

Hawkins, Inc.

800-328-5460 • www.hawkinsinc.com

treatment chemicals and equipment to customers in 27+ states across much of the U.S.A. We utilize a local route/technician approach in supplying water treatment chemicals and equipment to our customers.

Every site is different, and we provide custom water treatment programs with the proper chemistry tailored to your facility. Our local drivers/technicians are professionally trained to help you optimize your current system.

We provide water treatment chemicals and products for:

- Municipal water treatment
- Municipal wastewater treatment
- Industrial wastewater treatment
- Industrial process water treatment
- Agricultural water treatment

Hawkins local service includes:

- Mini bulk, water treatment chemical delivery
- Local technical support
- Equipment installations
- Laboratory testing
- Individualized water treatment chemical treatment programs

Our Mission:

To supply quality products and innovative solutions with exceptional service.

Our Customer Promise:

We will respond quickly to changing customer needs with a focus on safety, technical expertise, and responsible care of the environment and of our community.

Our Core Values

Teamwork: We value passionate, inquisitive employees who have fun and value winning as a team.

Responsibility: We will not compromise on safety, quality, our obligations to our communities or protection of the environment.

Relationships: We cultivate trusted relationships with suppliers, customers and employees, focusing on the long-term.

Action-Oriented: We will be nimble and value action over words.

Customer Focus: We are dedicated to the highest level of customer service.

Hawkins, Inc.

VENDOR CONTRACT FOR
GOODS, SUPPLIES AND SERVICES
(Contractor: Hawkins Inc of University Park, Illinois)

This Vendor Contract for Goods, Supplies and Services (the "Contract") is entered into between the Village of Western Springs, an Illinois municipal corporation (the "Village"), and Hawkins Inc of University Park, Illinois (the "Vendor"), and is dated as of December 11, 2025. The Village and the Vendor are at times referred to below individually as a "Party" and collectively as the "Parties".

IN CONSIDERATION of the mutual promises, performance of certain obligations and payment of financial consideration by the Parties, as set forth below and in the attachments to this Contract, the Vendor agrees to provide the goods and supplies and/or perform the services, collectively defined as "Work" below, and the Village agrees to pay for the Work as set forth in this Contract.

1. **Contract.** This Contract shall incorporate and include the following exhibits:

    a. Vendor's Invoice, Purchase Order or Agreement, or similarly titled document, (the "Invoice/Purchase Order/Agreement"), which describes the certain goods, supplies and services to be performed, provided, delivered, supplied and/or installed by the Vendor (the "Work") for the benefit of the Village, which is dated December 11, 2025 (Invoice or Purchase Order No. 25-152 or Agreement), and a true and correct copy of said Invoice/Purchase Order/Agreement is attached hereto as **Exhibit "A"**; and

    b. Rider to Contract (General Provisions), which is attached hereto as **Exhibit "B"** and which contains certain "General Provisions" that constitute additional terms and conditions applicable to this Contract and to the Parties.

2. **Incorporation of Exhibits; Priority of Documents.** The Exhibits attached to this Contract are incorporated herein and made a part of this Contract. Where there is a conflict or inconsistency between the language in this Contract and any Exhibit, the language of this Contract shall supersede and control, but only to the extent that the language in this Contract is more restrictive in that it provides the Village with greater protections and/or benefits. Where there is a conflict or inconsistency between the language in **Exhibit "A"** (Invoice/Purchase Order/Agreement/Agreement) and **Exhibit "B"** (Rider to Contract - General Conditions), the language of **Exhibit "B"** (Rider to Contract - General Conditions) shall supersede and control, but only to the extent that the language therein is more restrictive in that it provides the Village with greater protections and/or benefits.

3. **Provision of the Goods, Supplies, Equipment and/or Services.** The Vendor agrees to perform, provide, deliver, supply and/or install all of the goods, supplies and/or services as set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"**.

4. **Payment to Vendor.** Provided that the Vendor performs in accordance with the terms and provisions of this Contract, the Village agrees to pay the Vendor for the goods, supplies and/or services at the stated prices and pursuant to the payment schedule (if any) set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"** or as set forth below in this Section 4; however, the financial payments and any penalties associated with late payments due under this Contract shall be paid by the Village only in accordance with the Local Government Prompt Payment Act (50 ILCS 505/).

    a. The following **Alternate Payment Schedule** has been agreed to by the Parties: ***NOT APPLICABLE.***

i. _____ % payment of the Total Contract Price payable to the Vendor at the time of execution of this Contract or the date of the Notice to Proceed;

ii. _____ % payment of the Total Contract Price payable to the Vendor upon written proof from the Vendor and Village verification of completion of 50% of the Work;

iii. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 75% of the Work; and

iv. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 90% of the Work; and

v. 10% of the Total Contract Price held by the Village as retention and payable to the Vendor upon written proof from the Vendor and Village verification of completion 100% completion of the Work. Depending on the type of Work, partial and final lien waivers may be required by the Village in order to release payments.

5. **Notice to Proceed With the Work.** The Vendor shall commence the Work under this Contract only upon issuance of written Notice to Proceed from the Village delivered to the Vendor and shall complete the Work within n/a **(___) calendar days** from the date of the Notice to Proceed or as otherwise stated in the Vendor's Invoice/Purchase Order (the "Completion Date").

a. The Vendor shall diligently and continuously work on the Work until the completion of the Work or upon the termination of this Contract, but in no event later than the Completion Date. The Parties may mutually agree in writing to modify the Completion Date. Delays caused by the Village shall extend the Completion Date in equal proportion to the delay caused by the Village. In the event that the Vendor performs any Work and incurs any expenses in furtherance of the Work prior to receiving a written notice to proceed from the Village in regard to the Work or any phase of the Work, the Work performed and the expenses incurred are at the Vendor's sole risk, and such Work and expenses are not authorized for payment or reimbursement, unless and until a written notice to proceed is issued by the Village. The actual, documented Work performed prior to the issuance of the the Village notice to proceed shall be paid by the Village as part of the "not to exceed" Fee provided by this Contract.

b. Suspension of Work. The Village, at any time and for any reason, may suspend work on any or all Work by issuing a written work suspension notice to the Vendor. The Vendor must stop the performance of all Work within the scope of the suspension notice until the Village directs the Vendor in writing to resume performance of the Work.

c. Phasing of Scope of Work. The Vendor shall not commence performance of the Work on the initial phase or any subsequent phase of the Scope of Work, unless it first receives a written Notice to Proceed from the Village Representative. In the event that the Village decides not to proceed with the Work or any subsequent phase of the Work for any reason, this Contract shall terminate upon written notice to the Vendor issued by the Village advising of the termination of this Contract. In such case, the Village shall be liable to the Vendor only for payment of all actual, completed, documented Work, based on a prorated value of the contract price or the actual amount of quantities of deliverables or completed work if the contract pricing is based on unit pricing, through the date of termination. The Vendor agrees to waive any and all claims and causes of action for any other damages or losses of any kind that could be brought relative to the termination of this Contract by the Village based on the Village's decision not to proceed with the Work or any phase of the Scope of Work. The Vendor understands and agrees that funds for payment of

each Phase of the Work and the Work related thereto are subject to the availability of an annual or periodic appropriations for this purpose by the appropriate federal or State agencies as part of the N/A Program [INSERT FUNDING SOURCE(S)] or the Village. In the event of non-receipt of funds marked for appropriation for this Work from the appropriate State agencies or nonappropriation of funds by the Village for the work and Work to be provided under this Contract, the Village will either not authorize the Vendor to commence the next Phase of the Work or, if a Phase has been commenced, this Contract shall be terminated, without termination charge or responsibility for or obligation to the Vendor or for damages or other liability beyond the payment of all actual, completed work and Work that conform to the approved plans through the date of termination. If at any time funds are not appropriated for the continuance of this Contract, cancellation shall be accepted by the Vendor on thirty (30) days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated under this Contract beyond the date of termination. For the purposes of this Contract, the phases for the Work are set forth in **Exhibit "A"**, _____ [INSERT PROJECT PHASING DOCUMENT].

d. Reporting; Delivery Date of Final Report. The Vendor shall regularly, and no less than bi-weekly, provide both written and verbal reports to thE Village Manager to the Village and to any other Village staff or officials upon request regarding the progress of the Work. The Village Manager can require more frequent reporting by the Vendor at any time. Upon final completion of the Work, the Vendor shall deliver a final written report addressed to the Village and with copies delivered to the Village Manager that confirms the completion of the Work (the "Final Report"). The Final Report shall be completed and delivered to the Village on or before the Completion Date.

e. Electronic Reporting. In addition to providing the Village with paper copies of all reports, data or results and the Final Report, the Vendor (and the Primary Representative) shall, to the extent possible, submit documentation regarding the Work to the Village electronically. The Parties agree to work together to develop a procedure for electronic communication of data that is effective and efficient for all Parties.

f. Final Acceptance. The Work, or, if the Work are to be performed in separate phases, each phase of the Work, shall be considered complete on the date of final written acceptance by the Village Manager of the Work or each phase of the Work, as the case may be, which acceptance shall not be unreasonably withheld or delayed.

6. **Independent Contractor Status; Reporting.** The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. **To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.**

7. **Effective Date.** After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

(General Provisions)

1. **Authority.** The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

2. **Taxes, Benefits and Royalties.** Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

3. **Compliance With Laws.** The Vendor represents and warrants that it will comply will all applicable Federal, State and local laws concerning prevailing wage rates and all Federal, State and local laws concerning equal employment opportunities and its performance of this Contract.

4. **Bonds; Prevailing Wage Act.** If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate upon completion of the Work, but shall be reduced to ten percent (10%) of the Contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of issuance of the final payment by the Village. All performance and material bonds provided by Contractor under the terms of this Contract shall include such provisions as will guarantee the faithful performance of the contractor's obligations under this Section and under all applicable Federal, State and local laws concerning prevailing wage rates, including the Illinois Prevailing Wage Act, 820 ILCS 130/. The Contractor and its subcontractors shall comply with the reporting requirements of the Prevailing Wage Act and the Davis Bacon Wage Act throughout the duration of this Contract.

5. **Payment and Liens.** If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the Work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total Contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

6. **Successors/Assigns.** This Contract shall enure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the Parties hereto. This Contract and the obligations it imposes upon the Vendor are not transferable by Vendor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

7. **Severability.** In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

8. **Entire Agreement.** This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

9. **Litigation, Venue and Governing Law.** The Parties agree that, for the purpose of any litigation relative to this Contract and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois or the United States District Court located in Chicago, Illinois, and the Parties consent to the jurisdiction of said Courts for any such action or proceeding. This Contract, and all questions of interpretation, construction and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois.

10. **Applicable Laws and Regulations.** The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:
    a. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in this Contract to be entered into; that this Contract is made without

connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.

b. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is delinquent in the payment of any money owed to the Village.
c. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
d. The Vendor complies with the Illinois Drug Free Work Place Act.
e. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.
f. The Vendor complies with the Americans with Disabilities Act.
g. The Vendor states that any Work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all applicable Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
h. The Vendor also agrees to require any subcontractor doing Work under this Contract to agree to adhere to the requirements of this Section 10.

11. **Waiver.** The waiver of one Party of any breach of this Contract or the failure of one Party to enforce any provision hereof shall be limited to the particular instance and shall not operate to bar or be deemed a waiver of enforcing against other or future breaches.

12. **Time.** Time is of the essence with the performance of the Work covered by this Contract; however, the Vendor shall perform the Work in accordance with the terms and provisions set forth in the attached **Exhibit "A"**.

13. **Guaranties, Warranties and Representations.** The Vendor warrants and represents as follows:
    a. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.
    b. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.
    c. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.
    d. It is authorized to sell and install the goods, supplies, equipment and/or services.
    e. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.
    f. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.
    g. In addition to any other third party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.
    h. The Vendor shall maintain a current, valid Village business license, and the Vendor shall post with the Village and keep on file and in force for the duration of this Contract a contractor's license bond in the amount required by the Village Code.

14. **Insurance.**

a. **Insurance – Village**. The Village will not provide any form of insurance coverage, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability insurance, errors and omissions insurance, or professional liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract.

b. **Insurance – Vendor**. The Vendor, at its own cost, shall provide all of its own insurance coverages as applicable to the Work being performed, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability and property insurance, errors and omissions insurance or professional liability insurance, employment practices liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract. The insurance coverages shall be written on the comprehensive form and as an "occurrence" policy. The minimum dollar amount of annual coverage for the general liability and property insurance, errors and omissions insurance or professional liability insurance and employment practices liability insurance shall be mutually agreed to by the Village Manager and the Vendor in writing, but in no case shall such dollar amount of coverages be less than:

i. Comprehensive General Liability – $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate
ii. Umbrella Coverage – $1,000,000.00
iii. Property Damage – $500,000.00 per occurrence
iv. Automobile Coverage - $1,000,000.00 per occurrence
v. Errors and omissions insurance or professional liability: TBD by Village Manager
vi. Workers' Compensation – Statutory

[adjustments to be made to the insurance coverage amounts based on type of use, in the Village Manager's discretion]

The Vendor shall furnish certificates of insurance, with premiums paid in full, prior to the Effective Date of this Contract, copies of which are incorporated herein and attached hereto as **Exhibit "C"** and made a part hereof. A copy of certificate(s) of insurance, insurance policies and endorsements shall contain the insurer(s) written confirmation that the nature, scope, duration and amount of insurance coverage meets the requirements of this Contract and shall remain in effect for all aspects of the Work for both ongoing and completed operations. The Vendor agrees to have the Village of Western Springs and its officers, appointed and elected officials, President and Board of Trustees, employees, volunteers, attorneys, engineers and agents (the "Village Affiliates") expressly named as additional insureds on its insurance policies, in its endorsements and on its certificates related to the operation of the Special Event for the purposes stated herein. The Village shall have the right to approve the coverage and the carrier, which approval shall not be unreasonably withheld. All Certificate(s) of Insurance, insurance policies and endorsements shall contain the following endorsement: "Should any of the above-described policies be canceled before the expiration date thereof, the issuing company shall serve thirty (30) calendar days prior written notice to the Village."

The Vendor's policy or policies of insurance shall specifically recognize and cover the indemnification obligations under this Contract. Said insurance shall provide that the insurance provided by the Vendor shall be primary to the Village's own insurance and that any provision of any contract of insurance or other risk protection benefit or self-insurance policy purchased or in effect or enacted by the Village and any other insurance or benefit of the Village shall be in excess of the Vendor's insurance. In the event of the cancellation of any insurance policy required herein, or upon the Vendor's failure to procure said insurance, the Village shall have

the right to immediately terminate this Contract. The Vendor and its insurer(s) agree to waive any right of recovery of any kind, including the waiver of subrogation rights, they may have against the Village or its Affiliates because of any financial payments made to any person as a result of the indemnification / hold harmless / defense provision and the additional insured requirement under this Contract. The insurance policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest in the property damaged. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 14 shall survive the termination of this Contract.

15. **Indemnification.** To the fullest extent permitted by Illinois law, the Vendor shall indemnify, defend and hold harmless the Village and each of its officers and officials, agents, attorneys, employees, engineers, volunteers and representatives (collectively, the "Village Affiliates") from all claims, demands, lawsuits, actions, costs (including litigation expenses and Village attorney fees and any award of prevailing party attorney fees assessed against the Village or the Village Affiliates) of any kind, caused by, resulting from, arising out of or occurring in connection with the Vendor's performance of the Work under this Contract, but only to the extent caused by the negligent act, misconduct or omission of the Vendor or anyone or entity directly or indirectly employed by the Vendor for whose acts Vendor may be liable.

    Waiver and Assumption of Liability. The Vendor assumes all liability for personal injuries or illness of any kind or death that might occur to itself while acting under this Contract. The Vendor assumes all liability and responsibility for its personal property while performing any Work under this Contract. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 15 shall survive the termination of this Contract.

    No Personal Liability. No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

16. **Default and Termination.** This Contract is subject to termination by the Village or the Vendor upon forty-eight (48) hours prior written notice should the other Party fail to perform its obligations hereunder. The written notice of default shall specify the nature and type of default and shall be delivered to the alleged defaulting Party at the address listed below. The Party in default shall have twenty-four (24) hours within which to cure the default. In the event of any termination by the Village, the Vendor will be paid for all actual services rendered, which are accepted by the Village as being in conformance with this Contract, through the date of termination. In the event of termination of this Contract by the Village for nonperformance by the Vendor, the Village shall not be obligated to pay for any of the equipment or professional services or other related costs and expenses of the Vendor that relate to that portion of this Contract that the Vendor fails, refuses or is unable to perform or complete. In the event of default or termination for nonperformance, the Village reserves all of its legal rights and remedies to seek damages of any kind from the Vendor, and no provision limiting liability or damages found elsewhere in this Contract or in **Exhibit "A"** shall be valid or enforceable.

17. **Notice.** All notices required to be delivered hereunder shall be in writing and shall be deemed sufficient if: (a) personally delivered, (b) sent by facsimile, (c) sent by a nationally recognized overnight courier, or (d) sent by certified mail, return receipt requested, postage prepaid and

addressed to the Parties to this Contract at the addresses set forth below or at such other addresses as may be designated by the Parties in writing. Notices personally delivered and sent by overnight courier shall be deemed delivered on the date of receipt. Notices mailed by certified mail shall be deemed received on the date of receipt or refusal to accept delivery as evidenced by the return receipt. Notices served by facsimile machine shall also require that copies of the notice and proof of transmission be sent by regular mail on the date of transmission, and notice shall be deemed received on the actual date of receipt of the facsimile.

Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558	Douglas Lange, Vice President, WTG Hawkins Inc. 2381 Rosegate, Roseville, MN 55113

18. **Independent Contractor.** The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (A) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (B) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

19. **Inspections By Village.** During the term of this Contract, the Village, or its designee, shall have the right at any time and from time to time to enter upon the Project site for the purpose of conducting such inspections in order to confirm that the Work is being performed in accordance with the terms of the Contract. In the event that the Village, or its designee, discovers a noncompliance matter or a defect or deficiency in the construction of the, the Project, the Village, or its designee, shall notify the Contractor thereof in writing within five (5) calendar

days. Any such inspection by the Village, or its designee, shall not be construed as a representation by the Village, or its designee, that there has been compliance with the Contract Documents, this Contract or that the Project will be or are free of faulty materials or workmanship, or as a waiver of any right that the Village, or its designee, or any other party may have against the Construction, its agents or any subcontractors or any other party for failure to comply with the Contract Documents or the provisions of this Contract.

20. **FOIA Compliance.** Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor's possession and to provide the requested public records to the Village within two (2) business days of the request being made by the Village. The Contractor agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Contract. The Contractor acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10).

21. **Open Book Project; Audit.** The Project will be an "open book" project, and the Village and the general contractor (or contractors, if more than one) will ensure access by the Village Superintendent, or their designee, upon request for the purpose of reviewing and auditing the Contractor's or its subcontractors' respective books and records relating to the Project.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 9.C.

To: Board of Trustees
From: Diana Puga, Municipal Services Coordinator
CC: Matthew Supert, Director of Municipal Services, Ellen Baer, Village Manager
RE: [Previously discussed] Vendor Contract with National Power Rodding Corporation for the 2026 Catch Basin & Inlet Cleaning (Omnibus Item)

Recommendation

The Public Works and Water Committee reviewed this item at their meeting on January 8, 2026, and recommended the approval of a contract with the lowest cost, responsible bidder, National Power Rodding Corp. for catch basin and inlet cleaning services in 2026 for an amount not to exceed $200,000.00.

Summary

On December 4, the Village issued a Request for Bids (RFB) for Catch Basin and Inlet Cleaning services. On December 22, the Village received a total of five (5) bids. A summary of the submittals is as follows:

Name	Unit Pricing - Catch Basin	Unit Pricing - Inlet
National Power Rodding, Corp	$185.00	$75.00
Hoerr Construction Inc.	$182.00	$182.00
Utility Hydrovac Services, Inc.	$425.00	$175.00
McVac Hydro Excavating, Inc	$430.00	$250.00
Taza Construction	$3,200.00	$1,100.00

Based on the results, National Power Rodding Corp. (NPR) submitted the lowest unit price. The Village has previous experience working with NPR on sewer televising projects and staff is confident they will perform the work to the Village's specifications.

The Village currently cleans catch basins and inlets on an as-needed or as-reported basis. By establishing an annual program, the Village will be able to rotate throughout the town from each contract year, ensuring all areas are thoroughly cleaned. The Village budgeted $200,000 for an annual cleaning program that will begin in 2026.

DRAFT 1.26.2026
RESOLUTION NO. 26-XXXX

VOTE: _____
AYES:_____
NAYS:_____
ABSENT: _____
ABSTAIN:_____
DATE: January 26, 2026
OTHER: None.

A RESOLUTION ACCEPTING THE LOWEST COST, QUALIFIED, RESPONSIVE BID, AUTHORIZING THE EXECUTION OF AN AGREEMENT TO BE ENTERED INTO BETWEEN THE VILLAGE OF WESTERN SPRINGS AND NATIONAL POWER RODDING CORP. OF CHICAGO, ILLINOIS FOR THE 2026 CATCH BASIN AND INLET CLEANING SERVICES, AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS TO PAY FOR THE PROJECT IN AN AMOUNT NOT TO EXCEED $200,000.

WHEREAS, the President and Board of Trustees of the Village of Western Springs ("Village Board") desires to hire a firm to clean and clear catch basins and inlets throughout the Village by using Village Sewer funds to pay for the completion of the work (the "Project"); and

WHEREAS, the Village received bids until December 22, 2025 at 10:00 AM Central Time and subsequently reviewed all bids; and

WHEREAS, based on competitive bidding of the project, National Power Rodding Corp. Of Chicago, Illinois (the "Contractor"), submitted the lowest cost, qualified, responsive bid of $185.00 unit price per catch basin and $75.00 unit price per inlet to complete the Project, with a total not-to-exceed cost of $200,000; and

WHEREAS, at an open public meeting held on January 8, 2026, the Village's Public Works and Water Committee ("Committee") reviewed and discussed the Project and received input from the Village staff, and provided an opportunity for input from the public, and then the Committee favorably recommended that the Village Board approve the and authorize the entry of an agreement (the "Contract") with the Contractor for the completion of the Project (a copy of the Bid Documents, including the Contract is attached hereto as **Group Exhibit "A"** and incorporated herein); and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Project, the Contract, and the Committee's recommendation, received input from the Village staff, and provided an opportunity for input from the public. At its January 26, 2026 Regular meeting, the Village Board accepted the Committee's recommendation to award the Project to the Contractor and authorize and approve the Contract; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized, under the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the State of Illinois Constitution of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-7), to approve and enter into the attached Contract, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, businesses and the public to approve and enter into the attached Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

Section 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

Section 2: Approval of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of a contract (the "Contract"), substantially in the form attached hereto as **Group Exhibit "A",** and made a part hereof, which may contain certain non-substantive and non-financial changes that are approved by the Village Attorney, for the purpose of accepting the lowest cost, qualified, responsive bid submitted by National Power Rodding Corp., to hire the Contractor to complete the Project. In addition, the Village Board authorizes and directs the Village President and Clerk, or their designees, to execute the final version of the Contract, and such other related documents as may be necessary to fulfill the Village's obligations under the Contract.

Section 3: Approval of Related Expenses. The President and Board of Trustees of the Village of Western Springs also authorize and direct the Village President, the Village Clerk, the Village Manager and the Village Attorney, or their designees, to execute and deliver all other instruments and documents and pay all Village Board-authorized costs that are necessary to fulfill the Village's obligations under the Contract.

Section 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Contract by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of a certified copy of this Resolution and executed versions of the attached Contract to the Clerk's office and to the Contractor.

Section 5. Effective Date. This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

Legal Notice

The Village of Western Springs, Cook County, Illinois, does hereby invite sealed bids for the following: **2026 Catch Basin & Inlet Cleaning**

Bids will be received until **10:00 AM**. Prevailing Local Time on **December 22, 2025,** by mail or delivered by hand to the drop box located outside the front entrance of Village Hall, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois, 60558-0528 immediately after which time and at such place all bids will be publicly opened.

Those desiring to bid may obtain copies of the contract, specifications and other bidding documents online at wsprings.com/bids.

As evidence of good faith, each bid shall be accompanied by a bid bond, bank draft or certified check and made payable to the Village of Western Springs, Illinois, in the amount of five hundred dollars ($500) or 10% of the bid price, whichever is greater, which shall be submitted to secure the Village against loss occasioned by failure of the bidder to abide by and comply with the terms of their bid.

The successful bidder shall be required to furnish payment and performance bonds in the full amount of the bid or proposal, at the time a contract is awarded, to the Village of Western Springs by a surety company authorized to do business in the State of Illinois and approved by the Village. Failure to produce acceptable bonds will constitute default and the bid bond will be forfeited. No bid shall be withdrawn after the opening of bids without the consent of the Village for a period of sixty (60) days after the scheduled time of closing bids.

Bidders will be required to comply with all laws including those related to employment of labor and the payment of local prevailing wage rates. Each bidder shall satisfy the Village as to their ability, financial and otherwise, to perform the work specified.

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

VILLAGE OF WESTERN SPRINGS
By Edward Tymick, Village Clerk

Published in the Doings Newspaper on December 4, 2025

Jill Izzo, Deputy Village Clerk

Instruction to Bidders

VILLAGE OF WESTERN SPRINGS
DATE: December 4, 2025

Bids to be entitled to consideration must be made in accordance with the following instructions:

Bids shall be submitted in an opaque, sealed envelope plainly marked with the words:

2026 Catch Basin & Inlet Cleaning RFB
VILLAGE OF WESTERN SPRINGS

and shall be delivered by hand to a drop box or mailed in time for delivery to the Office of Village Clerk, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois by **10:00 A.M.** Prevailing Local Time on **December 22, 2025**, after which time and at such place all bids will be publicly opened and read aloud.

Bids received after the time for opening will not be considered.

Bids must be signed by an authorized official of the contractor's organization, and the name of the official and their title typed below the signature. If the bidder is a corporation, the corporate seal must be affixed.

Bid security in the form of a bid bond, bank draft or certified check made payable to the Village of Western Springs, in the amount of FIVE HUNDRED DOLLARS ($500), shall be submitted with each bid. The proceeds of any bid security shall become the property of the Village if, for any reason, a bidder, within FORTY-FIVE (45) days after the opening of bids withdraws their bid without the consent of the Village, or if on notice of award refuses or is unable to execute the approved contract and obtain the required performance and payment bonds. Bid deposits may be held for a period not exceeding FOURTY FIVE (45) days. (NOTE: For those projects which will not require the performance bonds, consideration should be given to holding the bid security until delivery is made.)

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

The successful bidder will be required to furnish and pay for satisfactory Performance and Labor and Material Payment Bonds in the amount of one hundred percent (100%) of the contact sum. Execution of the Contract by the Village is contingent upon receipt of acceptable Performance and Payment Bonds and Insurance Certificates.

The Village reserves the right to require of any bidder, such information necessary to satisfy the Village of the bidder's qualifications and to withhold formal signing of the contract until such information is received.

The successful bidder will be required to execute a contract in the form prescribed by the Village and must certify that the bidder is eligible to enter into public contracts under the Illinois Criminal Code, has a written sexual harassment policy and complies with Illinois Department of Revenue policies regarding taxes by executing the Certification attached hereto as **"Exhibit A"** and made a part hereof.

Bidders will be required to comply with all applicable laws including those relating to the employment of labor and the Illinois Prevailing Wage Act and payment of the applicable prevailing wage.

This contract will be awarded without discrimination in compliance with all applicable local state and federal laws.

Responsibility of the bidders will be determined by factors in addition to financial responsibility, such as past records of its or other entities' transactions with the Village of Western Springs, experience, ability to work cooperatively with the Village and its Administration, adequacy of equipment, ability to complete performance within necessary time limits, and other pertinent considerations, such as, but not limited to, reliability, reputation, competency, skill, efficiency, facilities and resources.

Proposal

TO: Village of Western Springs
740 Hillgrove Avenue
Western Springs, IL 60558

RE: 2026 Catch Basin & Inlet Cleaning RFB

1. The specifications and directions for the proposed service are those prepared by the Village of Western Springs and designated as Special Provisions and which cover the work described in said document and the "Agreement."

2. In submitting this proposal, the undersigned declares that the only persons or parties interested in the proposal as principals are those named herein; and that the proposal is made without collusion with any other person, firm, or corporation.

3. The undersigned further understands and agrees that if this proposal is accepted, the undersigned is to furnish and provide all necessary equipment, machinery, tools, apparatus and other means of maintenance, and to do all of the work and perform all the services, and to furnish all of the materials specified in the bid documents in the manner and at the time therein prescribed, and in accordance with the requirements therein set forth.

4. The undersigned further agrees to execute an Agreement for this work and present the same to the Village within seven (7) days after the date of notice of the award of the Agreement to the Contractor.

5. The undersigned further agrees that they and their surety will execute and present within seven (7) days after the date of notice of the award of Agreement the performance and labor and materials payment bonds in a form satisfactory to the Village of Western Springs, in the amount of one hundred percent (100%) of the contract sum guaranteeing the faithful performance of the work in accordance with the terms of the bid documents.

6. The undersigned further agrees to be available to begin work on or after February 16, and must be completed within 90 days of work commencing, as provided for in the Agreement, unless otherwise agreed to by the Village, and to prosecute the work in such manner and with sufficient materials, equipment, and labor as will insure the providing of specified service within the time limit specified herein, it being understood and agreed that the providing of the specified service within the time limit and according to the maintenance schedule is an essential part of the Agreement.

7. This proposal is accompanied by a bid bond, bank draft or certified check complying with the requirements of the specifications and directions, made payable to the "Village of Western Springs, Illinois". The amount of the bid security

is Five Hundred ($500.00) Dollars. If this proposal is accepted and the undersigned shall fail to execute an Agreement and said security as required herein, it is hereby agreed that the amount of the bid bonds shall become the property of the Village, and shall be considered as payment of damages due to delay and other causes suffered by the Village because of failure to execute said Agreement or provide the required performance and payment bonds; otherwise said bid security shall be returned to the undersigned pursuant to the bid documents.

ATTACH BID SECURITY HERE

8. The undersigned submits herewith a schedule of prices covering the work to be performed under this Agreement; the undersigned must show in the schedule the prices for which the undersigned proposed to perform.

9. The undersigned further declares to have carefully examined this proposal, the specifications and directions, the Agreement, the legal notice, and special provisions (if any), and to have inspected in detail the site of the proposed work and is familiar with all of the local conditions affecting the Agreement and the detailed requirements of service and understands that in making this proposal waives all right to plead any misunderstanding regarding the same.

Contractor's Certification Regarding Non-Payment of Compensation

William T. Kreidler hereby certifies that neither it nor any of its affiliated companies, nor any of its agents, employees or representatives offered or paid any type of compensation or commission to any third party, including any official of the Village of Western Springs, Illinois, to influence the Village of Western Springs.

National Power Rodding Corp.

William T. Kreidler Contractor
President

DATED: December 22, 2025

ATTEST:

Reid W. Ruprecht, Vice President

The Contractor shall be responsible for complying with all applicable laws, ordinances, rules, regulations, and orders of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury, or loss. The Contractor shall be responsible for erecting and maintaining as required by the conditions and progress of the work, all necessary safeguards for its safety and protection. The Contractor shall notify owners of adjacent utilities when performance of the work may affect them. All damage, injury or loss to any property referred to in paragraph (a) or (b) caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by the Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as all the work is completed and accepted by the Village.

Right to Audit

The Contractor shall maintain such financial records and other records as may be prescribed by the Village of Western Springs or by applicable federal and state laws, rules, and regulations. The Contractor shall retain these records for a period of five years after final payment, or until they are audited by the Village, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Village, its designees, or other authorized bodies.

Severability

In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

Smoking Policies

All Contractors, their subcontractors, employees and agents are required to abide by the smoking policies in effect in all municipal buildings owned, leased, or operated by the Village. Failure to abide by these regulations is a violation of this contract; and in addition may subject the violator to civil penalties as prescribed in State law.

Successors/Assigns

This Contract shall inure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the parties hereto. This Contract and the obligations it impose upon the Contractor are not transferable by Contractor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

Taxes, Benefits and Royalties

The Village of Western Springs is a public body and is exempt from all sales, excise and use taxes and the Village shall supply its sales tax number to the Contractor for its use where appropriate. Each payment by the Village to the Vendor includes all applicable

Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

Termination

If the contract is terminated by a default of the Contractor the Village shall pay the Contractor any amount due for actual, completed and accepted work, and the Village shall not be obligated to pay the Contractor any more money.

Unnecessarily Elaborate and Unresponsive Submittals

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to the solicitation are not desired and may be construed as an indication of the bidder's lack of responsiveness. Further, if the format of the bidder's submittal is prescribed in the bid documents and the bidder fails to follow that format, this may be construed as an indication of the bidder's lack of responsiveness.

Waivers of Lien

The Village requires for each application for payment a properly completed Contractor's Affidavit setting out, under oath, the name, address and amount due or to become due, of each subcontractor, vendor or party included in that payment. For every party listed, the Contractor shall also provide a full or partial waiver of lien, as appropriate, before a payment will be made to the Contractor. The Contractor's partial or final waiver of lien must be included. Payment Certificates shall not be issued without such mechanics' lien waivers and Contractor's sworn statements unless they are conditioned upon receipt of such waivers and statements.

If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

The Contractor will indemnify and save the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers harmless from all claims growing out of the lawful demands of subcontractors, laborers, workers, mechanics, material men, and furnishers of machinery and parts thereof, equipment, tools, and all supplies, incurred in the furtherance of the performance of the work. The Contractor shall, at the Village's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so the Village may, after having notified the Contractor, withhold from the Contractor's unpaid compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed in accordance with the terms of the contract documents.

The Village shall have the right to enter the premises for the purposes of doing work not covered by the contract. This provision shall not be construed as relieving the Contractor of the sole responsibility for the care and protection of the work, or the restoration of any damage work except such as may be caused by agents or employees of the Village.

Contractor's Drug-Free Workplace Certification

Pursuant to Illinois Compiled Statutes, Chapter 30, Act 580 et. seq. ("Drug-Free Workplace"), the undersigned Contractor hereby certifies to the contracting agency that it will provide a drug-free workplace by:

(A) Publishing a statement:

(1) Notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, including cannabis, is prohibited in the grantee's of Contractor's workplace.

(2) Specifying the actions that will be taken against employees for violations of such prohibition.

(3) Notifying the employee that, as a condition of employment on such contract or grant, the employee will:

(a) Abide by the terms of the statement; and

(b) Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction.

(B) Establishing a drug free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's or Contractor's policy of maintaining a drug-free workplace

(3) Any available drug counseling, rehabilitation, and employee assistance program; and

(4) The penalties that may be imposed upon employees for drug violations.

(C) Making it a requirement to give a copy of the statement required by subsection (a) to each employee engaged in the performance of the contract or grant and to post the statement in a prominent place in the workplace.

(D) Notifying the contracting agency within ten (10) days after receiving notice under part (b) of paragraph (3) of subsection (a) from an employee or otherwise receiving actual notice of such conviction.

(E) Imposing a sanction on, or requiring the satisfactory participation in a drug assistance or rehabilitation program by any employee who is so convicted, as required by Illinois Compiled Statutes, Chapter 127, Act 580, Paragraph 5.

(F) Assisting employees in selecting a course of action in the event drug counseling treatment and rehabilitation is required and indicating that a trained referral team is in place.

(G) Making a good faith effort to continue to maintain a drug-free workplace through implementation of this Section.

Failure to abide by this certification shall subject the Contractor to the penalties provided in Illinois Compiled Statutes, Chapter 30, Act 580, Paragraph 6.

Contractor's Certification Regarding Non-Payment of Compensation

William T. Kreidler hereby certifies that neither it nor any of its affiliated companies, nor any of its agents, employees or representatives offered or paid any type of compensation or commission to any third party, including any official of the Village of Western Springs, Illinois, to influence the Village of Western Springs.

National Power Rodding Corp.

Contractor

William T. Kreidler, President

DATED: December 30, 2025

ATTEST:

Reid W. Ruprecht, Vice President

EXCEPTIONS TO THIS BID (THIS PAGE MUST ACCOMPANY BID)

Exhibit A

Agreement

This Agreement (the “Agreement”) made this the ___day of **December** in the year **2025** by and between the Village of Western Springs, Illinois, 740 Hillgrove Avenue, Western Springs, Illinois, 60558 (the "Village") and National Power Rodding (the "Contractor"). The Village and the Contractor are at times referred herein, individually, as the “Party” and, collectively, as the “Parties".

The Village and Contractor agree as set forth below:

1. For the financial consideration hereinafter set forth, the Contractor agrees to furnish and provide and install all commercially necessary labor, materials, equipment and services and to do all other activities commercially required (the “Work”) to complete the 2026 Catch Basin & Inlet Cleaning RFB as set forth in the contract requirements, a copy of which is attached here to as exhibit 1 dated December 4, 2025 and as agreed to in the Contractor’s Proposal dated December 22, 2025.

2. The Contractor agrees to commence the Work on or after **February 16,** and will officially, diligently, and expeditiously conduct the Work in a commercially reasonable manner.

3. The Village shall pay the Contractor for the performance of the Work to complete 2026 Catch Basin & Inlet Cleaning RFB a total dollar amount not to exceed TBD THOUSAND AND NO/100 DOLLARS ($ TBD) in accordance with the Contractor’s Proposal dated **December 22, 2025,** subject to further additions and deductions as may be agreed upon in accordance with the terms of the contract documents. Payment shall be made monthly however, the financial payments and any penalties associated with late payments due under the Contract shall be paid by the Village only in accordance with the provisions of the Local Government Prompt Payment Act (50 ILCS 505/).

4. The Contractor represents and warrants that it will comply with the applicable state and federal laws concerning prevailing wage rates and all applicable state and federal laws and requirements concerning equal opportunities.

5. This Agreement shall consist of, incorporate and include each of the following contract documents, whether attached hereto or incorporated by reference herein:

    A. Legal Notice (Advertisement for Bid) published on **December 4, 2025.**

B. Instructions to Bidders dated **December 4, 2025.**

C. Contractor's Proposal dated **December 22, 2025.**

D. Contractor's bid bond submitted by Surety Certificate in the amount of $ 500 dated **December 22, 2025.**

E. General Specifications and all additional provisions **December 22, 2025.**

F. Contractor's Drug Free Workplace Certification dated **December 22, 2025.**

G. Contractor's Certification Regarding Non-Payment of Compensation dated **December 22, 2025.**

H. Exhibit B - Contractor certifications including Certification of Eligibility to Enter into Public Contracts.

I. Exhibit C – Change Order Form

J. Required Performance and Payment Bonds provided by the Contractor.

K. Required Insurance Certificates provided by the Contractor.

L. Rider to Contract- General Conditions

6. Notice to Proceed With the Work. The Vendor shall commence work under this Contract upon issuance of written Notice to Proceed and the duration of the contract shall be one year or as otherwise stated with a completion date.

7. Independent Contractor Status; Reporting. The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.

8. Effective Date. After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

All of the contract documents are a part of this Agreement as if attached hereto or repeated herein.

IN WITNESS WHEREOF, the signatories below, pursuant to properly issued authority, have signed this Contract, which shall become effective on the date that the Village President or Village Manager signs this Contract.

Exhibit B

CERTIFICATION OF ELIGIBILITY TO ENTER INTO PUBLIC CONTRACTS BY THE CONTRACTOR

I, William T. Kreidler, having being first

duly sworn, depose and state that I am the

President
(insert "sole owner "partner", "president"," other" proper title)

and the authorized agent of National Power Rodding Corp., which has submitted a proposal to, and is entering into a contract with, the Village of Western Springs for the performance of work in relation to the 2026 Catch Basin & Inlet Cleaning Project in the Village of Western Springs, and certifies on behalf of said company as follows:

1. The company is not barred from contracting with the Village as a result of a violation of either Section 33E-3, or 33E-4 of the Illinois Criminal Code, or of any similar offense of "bid-rigging" or "bid-rotating" of any state or of the United States.

2. The company shall comply with all applicable provisions of the Illinois Human Rights Act and has a written sexual harassment policy in full compliance with that Act.

3. The company is not delinquent in the payment of any tax administered by the Illinois Department of Revenue or,

   a. is contesting such liability or the amount of tax in accordance with procedures established by the appropriate revenue act, or

   b. has entered into an agreement with the Department of Revenue for payment of all taxes due and is in compliance with that agreement.

   c. Not in default, as defined in 5 ILCS 385/2, on an educational loan, as defined in 5 ILCS 385/1.

4. In compliance with the Veterans Preference Act (330 ILCS 55/).

5. In compliance with equal employment opportunities and, during the performance of the Agreement, the Contractor shall:

   a. Not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
   b. If it hires additional employees in order to perform the Agreement or any portion hereof, it will determine the availability (in accordance with the Illinois Department

of Human Right's Rules and Regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

c. In all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.

d. Send to each labor organization or representative of workers, with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations. If any such labor organization or representative fails or refuses to cooperate with the Contractor in its efforts to comply with such Act and Rules and Regulations, the Contractor will promptly so notify the Illinois Department of Human Rights and the VILLAGE and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

e. Submit reports as required by the Illinois Department of Human Rights, Rules and Regulations, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and the Department's Rules and Regulations.

f. Permit access to all relevant books, records, accounts, and work sites by personnel of the contracting agency and the Illinois Department of Human Rights for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and the Department's Rules and Regulations.

g. Not maintain or provide for its employees any segregated facilities at any of its establishments, and not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. As used in this section, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color or national origin because of habit, local custom or otherwise.

6. In compliance with 775 ILCS 5/2-105(A)(4) by having in place and enforcing a written sexual harassment policy.

7. In agreement that, in the event of non-compliance with the provisions of this certification relating to equal employment opportunity, the Illinois Human Rights Act or the Illinois Department of Human Rights, Rules and Regulations, the Contractor may be declared ineligible for future contracts with the VILLAGE, and the Agreement may be canceled or voided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

8. In compliance with the requirements of 30 ILCS 580/ (Drug Free Workplace Act).

9. The Contractor and its officers, employees and agents agree not to commit unlawful discrimination and agree to comply with all applicable provisions of the Illinois Human Rights Act, Title VII of the Civil Rights Act of 1964, as amended, the Americans with Disabilities Act, the Age Discrimination in Employment Act, Section 504 of the Federal Rehabilitation Act, and all applicable rules and regulations. The Contractor certifies that it is an "Equal Opportunity Employer" as defined by federal and State laws and regulations, and agrees to comply with the Illinois Department of Human Rights ("IDHR") Equal Opportunity Employment clause as required by the IDHR's Regulations (44 III. Adm. Code, Part 750, Appendix A). As required by Illinois law and IDHR Regulation, the Equal Opportunity Employment clause is incorporated by reference in its entirety as though fully set forth herein. The Contractor certifies that it agrees to comply with the Prohibition of Segregated Facilities clause, which is incorporated by reference in its entirety as though fully set forth herein. See, Illinois Human Rights Act (775 ILCS 5/2-105). See also, Illinois Department of Human Rights Rules and Regulations, Title 44, Part 750. Administrative Code, Title 44: Government Contracts, Procurement and Property Management, Subtitle B: Supplemental Procurement Rules, Chapter X: Department of Human Rights, Part 750: Procedures Applicable to All Agencies, Section 750.160: Segregated Facilities (44 III. Adm. Code 750.160)

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 9.D.

To: Board of Trustees
From: Ronald Derengowski, Water Plant Superintendent
CC: Ellen Baer, Village Manager, Matthew Supert, Director of Municipal Services
RE: [Previously discussed] Bid Waiver and Vendor Contract with Custom Filtration Solutions, LLC. (Omnibus Item)

Recommendation

The Public Works and Water Committee reviewed this item at their meeting on January 8, 2026, and the Village Board reviewed this item at their meeting on January 12th, 2026, and recommended the approval of a vendor contract with Custom Filtration Solutions, LLC for the purchase of one thousand, four hundred and forty (1440) 1 Micron 40" Cartridge Filters at a price of $25.71 per filter, with additional freight and delivery charges not to exceed a total of $40,0000.00.

Summary

In 2025, the Water Treatment Plant tested several different pre-treatment cartridge membranes for the reverse osmosis process. With the results, the Water Treatment Plant switched and purchased 1,080 membranes from Custom Filtration Solutions, LLC. In comparing the membranes with the previous manufacturer, the membranes held to a longer service life. Using pre-treatment membranes with a longer service life enhances reverse osmosis efficiency, reduces membrane fouling, and lowers operational costs. Custon Fitration Solutions, LLC. is the sole source manufacturer and distributor of the membrane cartridges.

Financial Impact

Account 4302510 55352
Fund Membrane Cartridges
2026 Budget $55,000.00
Project Cost $38,732.40

Recommended Motion

I move to approve a waiver of the bid and vendor contract with Custom Filtration Solutions, LLC. for the purchase of one thousand, four hundred and forty (1440) 1 Micron 40" Cartridge Filters at a price of $25.71 per filter, with additional freight and delivery charges not to exceed a total of $40,0000.00.

1. Resolution No. 26-__ Re_ Waiver of Competitive Bidding and Approval of Vendor (2078111.1)
2. Exhibit 1-- Vendor Contract between the Village of Western Springs and Custom Filtration Solutions, LLC of Wheaton, Illinois for Cartridge Membranes

RESOLUTION NO. 26-_____
VOTE: Passed on an omnibus vote.
AYES: _____
NAYS: _____
ABSENT: _____
ABSTAIN: _____
DATE: January 26, 2026.
OTHER: 2/3rds Majority Vote of Trustees Required.

A RESOLUTION APPROVING THE WAIVER OF THE COMPETITIVE BIDDING PROCESS IN LIEU OF PURCHASE FROM A SOLE SOURCE PROVIDER AND AUTHORIZING THE APPROVAL AND EXECUTION OF A VENDOR CONTRACT TO BE ENTERED INTO WITH CUSTOM FILTRATION SOLUTIONS, LLC OF WHEATON, ILLINOIS FOR THE SUPPLY AND DELIVERY OF PRE-TREATMENT CARTRIDGE MEMBRANES AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS IN AN AMOUNT OF $40,000.

WHEREAS, the President and Board of Trustees of the Village of Western Springs (the "Village") desire to enter into a Vendor Contract for Goods, Supplies and Services (the "Contract") with Custom Filtration Solutions, LLC of Wheaton, Illinois (the "Vendor"), for the purpose of supplying and delivering certain goods, supplies and services by the Vendor (the "Work") for the benefit of the Village consisting of pre-treatment cartridge membranes for water treatment as set forth in the Contract, which is attached hereto as **Exhibit "1"** and made a part hereof; and

WHEREAS, the Work will be performed subject to the terms and conditions set forth in the Contract. The Village's approval of the Contract is for a one-year period ending on December 31, 2026 and costs as set forth in the Vendor's Proposal dated December 26, 2025, attached as Exhibit "A" to the Contract and made a part hereof; and

WHEREAS, the Vendor desires to enter into the Contract and agrees to perform the Work set forth in the attached Contract in exchange for payment of $40,000; and

WHEREAS, the pre-treatment cartridges enhance the reverse osmosis efficiency, reduces membrane fouling, and lowers operational costs; and

WHEREAS, the Village previously purchased and tested different membranes and determined that the Vendor's membranes had a longer effective service life and that the Vendor is the sole manufacturer and distributor of these membrane cartridges; and

WHEREAS, at an open, public meeting held on January 8, 2026, the Public Works and Water Committee (the "Committee") reviewed and discussed the terms of the Contract and received input from the Village staff, and provided an opportunity for public input on the matter, and then the Committee favorably recommended that the Village Board approve the Contract; and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village of Western Springs reviewed and discussed the Contract, the Committee's recommendation, and received input from the Village staff and provided an opportunity for public input. At its January 26, 2026 meeting, the President and Board of Trustees accepted the Committee's recommendation to approve and enter into the Contract; and

WHEREAS, pursuant to the applicable provisions of the Illinois Municipal Code (65 ILCS 5/) and the TIF Act, and the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10(a) (Intergovernmental

Cooperation) of the Constitution of the State of Illinois of 1970 and the Intergovernmental Cooperation Act (5 ILCS 220), the President and Board of Trustees of the Village of Western Springs are authorized to approve the waiver of the local competitive bidding process and enter into the Contract, and further find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to enter into the Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: Approval of Bid Waiver and Approval and Execution of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve the waiver of the competitive bidding process and approve and authorize the execution of the Contract, substantially in the form attached hereto as **Exhibit "1"** and made a part hereof, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and authorize and direct the Village President and Village Clerk of the Village of Western Springs, or their designees, to execute the final version of the Contract and such other documents as are necessary to fulfill the Village's obligations under the Contract.

Section 3: Approval of Financial Obligations and Other Necessary Actions. The President and Board of Trustees of the Village of Western Springs appropriate and authorize the expenditure of funds from the Village Water Fund and/or such other available Village funds to pay the Village's financial obligations under the Agreement, and also authorize and direct the Village Manager and the Village Attorney, or their designees, to take all necessary actions to comply with the Village's obligations under the Agreement.

SECTION 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Contract by the Village President and the Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of a certified copy of this Resolution and a fully executed copy of the Contract to the Vendor for record retention purposes.

SECTION 5: Effective Date. This Resolution shall be in full force and effect from and after its adoption and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois on a roll call vote at a Regular Meeting thereof held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk on the same day.

VENDOR CONTRACT FOR
GOODS, SUPPLIES AND SERVICES
(Contractor: Custom Filtration Solutions, LLC. of Wheaton, Illinois)

This Vendor Contract for Goods, Supplies and Services (the "Contract") is entered into between the Village of Western Springs, an Illinois municipal corporation (the "Village"), and Custom Filtration Solutions, LLC of Wheaton, Illinois (the "Vendor"), and is dated as of _____, 202_. The Village and the Vendor are at times referred to below individually as a "Party" and collectively as the "Parties".

IN CONSIDERATION of the mutual promises, performance of certain obligations and payment of financial consideration by the Parties, as set forth below and in the attachments to this Contract, the Vendor agrees to provide the goods and supplies and/or perform the services, collectively defined as "Work" below, and the Village agrees to pay for the Work as set forth in this Contract.

1. **Contract.** This Contract shall incorporate and include the following exhibits:

    a. Vendor's Invoice, Purchase Order or Agreement, or similarly titled document, (the "Invoice/Purchase Order/Agreement"), which describes the certain goods, supplies and services to be performed, provided, delivered, supplied and/or installed by the Vendor (the "Work") for the benefit of the Village, which is dated December 26, 2025 (Invoice or Purchase Order No. or Agreement), and a true and correct copy of said Invoice/Purchase Order/Agreement is attached hereto as **Exhibit "A**"; and
    b. Rider to Contract (General Provisions), which is attached hereto as **Exhibit "B"** and which contains certain "General Provisions" that constitute additional terms and conditions applicable to this Contract and to the Parties.

2. **Incorporation of Exhibits; Priority of Documents.** The Exhibits attached to this Contract are incorporated herein and made a part of this Contract. Where there is a conflict or inconsistency between the language in this Contract and any Exhibit, the language of this Contract shall supersede and control, but only to the extent that the language in this Contract is more restrictive in that it provides the Village with greater protections and/or benefits. Where there is a conflict or inconsistency between the language in **Exhibit "A"** (Invoice/Purchase Order/Agreement/Agreement) and **Exhibit "B"** (Rider to Contract - General Conditions), the language of **Exhibit "B"** (Rider to Contract - General Conditions) shall supersede and control, but only to the extent that the language therein is more restrictive in that it provides the Village with greater protections and/or benefits.

3. **Provision of the Goods, Supplies, Equipment and/or Services.** The Vendor agrees to perform, provide, deliver, supply and/or install all of the goods, supplies and/or services as set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"**.

4. **Payment to Vendor.** Provided that the Vendor performs in accordance with the terms and provisions of this Contract, the Village agrees to pay the Vendor for the goods, supplies and/or services at the stated prices and pursuant to the payment schedule (if any) set forth in the Vendor's Invoice/Purchase Order/Agreement attached hereto as **Exhibit "A"** or as set forth below in this Section 4; however, the financial payments and any penalties associated with late payments due under this Contract shall be paid by the Village only in accordance with the Local Government Prompt Payment Act (50 ILCS 505/).

    a. The following **Alternate Payment Schedule** has been agreed to by the Parties: ***NOT APPLICABLE.***

i. _____ % payment of the Total Contract Price payable to the Vendor at the time of execution of this Contract or the date of the Notice to Proceed;
ii. _____ % payment of the Total Contract Price payable to the Vendor upon written proof from the Vendor and Village verification of completion of 50% of the Work;
iii. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 75% of the Work; and
iv. _____% payment of the Total Contract Price upon written proof from the Vendor and Village verification of completion of 90% of the Work; and
v. 10% of the Total Contract Price held by the Village as retention and payable to the Vendor upon written proof from the Vendor and Village verification of completion 100% completion of the Work. Depending on the type of Work, partial and final lien waivers may be required by the Village in order to release payments.

5. **Notice to Proceed With the Work.** The Vendor shall commence the Work under this Contract only upon issuance of written Notice to Proceed from the Village delivered to the Vendor and shall complete the Work within **12 Months (365) calendar days** from the date of the Notice to Proceed or as otherwise stated in the Vendor's Invoice/Purchase Order (the "Completion Date").
   a. The Vendor shall diligently and continuously work on the Work until the completion of the Work or upon the termination of this Contract, but in no event later than the Completion Date. The Parties may mutually agree in writing to modify the Completion Date. Delays caused by the Village shall extend the Completion Date in equal proportion to the delay caused by the Village. In the event that the Vendor performs any Work and incurs any expenses in furtherance of the Work prior to receiving a written notice to proceed from the Village in regard to the Work or any phase of the Work, the Work performed and the expenses incurred are at the Vendor's sole risk, and such Work and expenses are not authorized for payment or reimbursement, unless and until a written notice to proceed is issued by the Village. The actual, documented Work performed prior to the issuance of the the Village notice to proceed shall be paid by the Village as part of the "not to exceed" Fee provided by this Contract.
   b. Suspension of Work. The Village, at any time and for any reason, may suspend work on any or all Work by issuing a written work suspension notice to the Vendor. The Vendor must stop the performance of all Work within the scope of the suspension notice until the Village directs the Vendor in writing to resume performance of the Work.
   c. Phasing of Scope of Work. The Vendor shall not commence performance of the Work on the initial phase or any subsequent phase of the Scope of Work, unless it first receives a written Notice to Proceed from the Village Representative. In the event that the Village decides not to proceed with the Work or any subsequent phase of the Work for any reason, this Contract shall terminate upon written notice to the Vendor issued by the Village advising of the termination of this Contract. In such case, the Village shall be liable to the Vendor only for payment of all actual, completed, documented Work, based on a prorated value of the contract price or the actual amount of quantities of deliverables or completed work if the contract pricing is based on unit pricing, through the date of termination. The Vendor agrees to waive any and all claims and causes of action for any other damages or losses of any kind that could be brought relative to the termination of this Contract by the Village based on the Village's decision not to proceed with the Work or any phase of the Scope of Work. The Vendor understands and agrees that funds for payment of

each Phase of the Work and the Work related thereto are subject to the availability of an annual or periodic appropriations for this purpose by the appropriate federal or State agencies or the Village. In the event of non-receipt of funds marked for appropriation for this Work from the appropriate State agencies or nonappropriation of funds by the Village for the work and Work to be provided under this Contract, the Village will either not authorize the Vendor to commence the next Phase of the Work or, if a Phase has been commenced, this Contract shall be terminated, without termination charge or responsibility for or obligation to the Vendor or for damages or other liability beyond the payment of all actual, completed work and Work that conform to the approved plans through the date of termination. If at any time funds are not appropriated for the continuance of this Contract, cancellation shall be accepted by the Vendor on thirty (30) days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated under this Contract beyond the date of termination. For the purposes of this Contract, the phases for the Work are set forth in **Exhibit "A".**

d. Reporting; Delivery Date of Final Report. The Vendor shall regularly, and no less than bi-weekly, provide both written and verbal reports to the Village Manager to the Village and to any other Village staff or officials upon request regarding the progress of the Work. The Village Manager can require more frequent reporting by the Vendor at any time. Upon final completion of the Work, the Vendor shall deliver a final written report addressed to the Village and with copies delivered to the Village Manager that confirms the completion of the Work (the "Final Report"). The Final Report shall be completed and delivered to the Village on or before the Completion Date.

e. Electronic Reporting. In addition to providing the Village with paper copies of all reports, data or results and the Final Report, the Vendor (and the Primary Representative) shall, to the extent possible, submit documentation regarding the Work to the Village electronically. The Parties agree to work together to develop a procedure for electronic communication of data that is effective and efficient for all Parties.

f. Final Acceptance. The Work, or, if the Work are to be performed in separate phases, each phase of the Work, shall be considered complete on the date of final written acceptance by the Village Manager of the Work or each phase of the Work, as the case may be, which acceptance shall not be unreasonably withheld or delayed.

6. **Independent Contractor Status; Reporting.** The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. **To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.**

7. **Effective Date.** After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

SIGNATURE PAGE TO FOLLOW

IN WITNESS WHEREOF, the signatories below, pursuant to properly issued authority, have signed this Contract, which shall become effective on the date that the Village President or Village Manager signs this Contract.

Subject: Stocking Agreement – The Village of Western Springs

To Whom It May Concern,

This letter outlines the stocking agreement between **Custom Filtration Solutions LLC** and **The Village of Western Springs**, effective immediately and valid through **December 31, 2026**.

Under this agreement:

1. **Custom Filtration Solutions (CFS)** will produce and hold inventory of the following product specifically for The Village of Western Springs:
    - **Part Number:** CFS-CT-WSP-4001
    - **Description:** 1 Micron 40" Cartridge Filter
    - **Price:** $25.71 each
    - **Estimated Usage:** 1,440 filters to be taken between the date of this agreement and December 31, 2026
    - **Packaging:** 15 filters per box (bulk packed)
2. Filters will be held in inventory at CFS's facility and made available for release in **full pallet quantities of 360 filters**, packaged in boxes of 15.
3. CFS will maintain a **minimum stocking level of one pallet (360 filters)** at all times throughout the agreement period. Once a pallet is released, CFS will replenish inventory to maintain readiness for the next release.
4. The full quantity of **1,440 filters** must be drawn down by **December 31, 2026**. Any remaining filters in inventory at that time may be invoiced and shipped unless other arrangements have been agreed upon in writing.
5. There are no fixed intervals required for release. Filters may be ordered as needed, with standard lead times honored to ensure timely delivery.

Brand & Supply Statement:
The filters listed in this proposal are produced under the **Custom Filtration Solutions (CFS)** brand name and are available exclusively through CFS. These filters are not offered through other distributors, vendors, or national purchasing groups.

This proposal and stocking agreement reflect our commitment to holding dedicated inventory to support your operations and ensuring timely, consistent supply throughout the agreement period.

We appreciate the opportunity to serve as your filtration partner and look forward to supporting the ongoing needs of **The Village of Western Springs**.

Sincerely,
Chris Glowacki
President

Exhibit "B"

Rider to
Vendor Contract for Goods, Supplies and Services
(General Provisions)

1. **Authority.** The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

2. **Taxes, Benefits and Royalties.** Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs, royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

3. **Compliance With Laws.** The Vendor represents and warrants that it will comply will all applicable Federal, State and local laws concerning prevailing wage rates and all Federal, State and local laws concerning equal employment opportunities and its performance of this Contract.

4. **Bonds; Prevailing Wage Act.** If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate upon completion of the Work, but shall be reduced to ten percent (10%) of the Contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of issuance of the final payment by the Village. All performance and material bonds provided by Contractor under the terms of this Contract shall include such provisions as will guarantee the faithful performance of the contractor's obligations under this Section and under all applicable Federal, State and local laws concerning prevailing wage rates, including the Illinois Prevailing Wage Act, 820 ILCS 130/. The Contractor and its subcontractors shall comply with the reporting requirements of the Prevailing Wage Act and the Davis Bacon Wage Act throughout the duration of this Contract.

5. **Payment and Liens.** If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the Work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total Contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

6. **Successors/Assigns.** This Contract shall enure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the Parties hereto. This Contract and the obligations it imposes upon the Vendor are not transferable by Vendor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

7. **Severability.** In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

8. **Entire Agreement.** This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

9. **Litigation, Venue and Governing Law.** The Parties agree that, for the purpose of any litigation relative to this Contract and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois or the United States District Court located in Chicago, Illinois, and the Parties consent to the jurisdiction of said Courts for any such action or proceeding. This Contract, and all questions of interpretation, construction and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois.

10. **Applicable Laws and Regulations.** The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:
    a. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in this Contract to be entered into; that this Contract is made without

connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.

b. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is delinquent in the payment of any money owed to the Village.
c. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
d. The Vendor complies with the Illinois Drug Free Work Place Act.
e. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.
f. The Vendor complies with the Americans with Disabilities Act.
g. The Vendor states that any Work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all applicable Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
h. The Vendor also agrees to require any subcontractor doing Work under this Contract to agree to adhere to the requirements of this Section 10.

11. **Waiver.** The waiver of one Party of any breach of this Contract or the failure of one Party to enforce any provision hereof shall be limited to the particular instance and shall not operate to bar or be deemed a waiver of enforcing against other or future breaches.

12. **Time.** Time is of the essence with the performance of the Work covered by this Contract; however, the Vendor shall perform the Work in accordance with the terms and provisions set forth in the attached **Exhibit "A"**.

13. **Guaranties, Warranties and Representations.** The Vendor warrants and represents as follows:
    a. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.
    b. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.
    c. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.
    d. It is authorized to sell and install the goods, supplies, equipment and/or services.
    e. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.
    f. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.
    g. In addition to any other third party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.
    h. The Vendor shall maintain a current, valid Village business license, and the Vendor shall post with the Village and keep on file and in force for the duration of this Contract a contractor's license bond in the amount required by the Village Code.

14. **Insurance.**
    a. **Insurance – Village**. The Village will not provide any form of insurance coverage, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability insurance, errors and omissions insurance, or professional liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract.
    b. **Insurance – Vendor**. The Vendor, at its own cost, shall provide all of its own insurance coverages as applicable to the Work being performed, including but not limited to health insurance, worker's compensation insurance, auto insurance, general liability and property insurance, errors and omissions insurance or professional liability insurance, employment practices liability insurance or other employee benefits for or on behalf of the Vendor relative to its performance of the Work under this Contract. The insurance coverages shall be written on the comprehensive form and as an "occurrence" policy. The minimum dollar amount of annual coverage for the general liability and property insurance, errors and omissions insurance or professional liability insurance and employment practices liability insurance shall be mutually agreed to by the Village Manager and the Vendor in writing, but in no case shall such dollar amount of coverages be less than:
        i. Comprehensive General Liability – $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate
        ii. Umbrella Coverage – $1,000,000.00
        iii. Property Damage – $500,000.00 per occurrence
        iv. Automobile Coverage - $1,000,000.00 per occurrence
        v. Errors and omissions insurance or professional liability: TBD by Village Manager
        vi. Workers' Compensation – Statutory

        [adjustments to be made to the insurance coverage amounts based on type of use, in the Village Manager's discretion]

The Vendor shall furnish certificates of insurance, with premiums paid in full, prior to the Effective Date of this Contract, copies of which are incorporated herein and attached hereto as **Exhibit "C"** and made a part hereof. A copy of certificate(s) of insurance, insurance policies and endorsements shall contain the insurer(s) written confirmation that the nature, scope, duration and amount of insurance coverage meets the requirements of this Contract and shall remain in effect for all aspects of the Work for both ongoing and completed operations. The Vendor agrees to have the Village of Western Springs and its officers, appointed and elected officials, President and Board of Trustees, employees, volunteers, attorneys, engineers and agents (the "Village Affiliates") expressly named as additional insureds on its insurance policies, in its endorsements and on its certificates related to the operation of the Special Event for the purposes stated herein. The Village shall have the right to approve the coverage and the carrier, which approval shall not be unreasonably withheld. All Certificate(s) of Insurance, insurance policies and endorsements shall contain the following endorsement: "Should any of the above-described policies be canceled before the expiration date thereof, the issuing company shall serve thirty (30) calendar days prior written notice to the Village."

The Vendor's policy or policies of insurance shall specifically recognize and cover the indemnification obligations under this Contract. Said insurance shall provide that the insurance provided by the Vendor shall be primary to the Village's own insurance and that any provision of any contract of insurance or other risk protection benefit or self-insurance policy purchased or in effect or enacted by the Village and any other insurance or benefit of the Village shall be in excess of the Vendor's insurance. In the event of the cancellation of any insurance policy required herein, or upon the Vendor's failure to procure said insurance, the Village shall have

the right to immediately terminate this Contract. The Vendor and its insurer(s) agree to waive any right of recovery of any kind, including the waiver of subrogation rights, they may have against the Village or its Affiliates because of any financial payments made to any person as a result of the indemnification / hold harmless / defense provision and the additional insured requirement under this Contract. The insurance policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest in the property damaged. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 14 shall survive the termination of this Contract.

15. **Indemnification.** To the fullest extent permitted by Illinois law, the Vendor shall indemnify, defend and hold harmless the Village and each of its officers and officials, agents, attorneys, employees, engineers, volunteers and representatives (collectively, the "Village Affiliates") from all claims, demands, lawsuits, actions, costs (including litigation expenses and Village attorney fees and any award of prevailing party attorney fees assessed against the Village or the Village Affiliates) of any kind, caused by, resulting from, arising out of or occurring in connection with the Vendor's performance of the Work under this Contract, but only to the extent caused by the negligent act, misconduct or omission of the Vendor or anyone or entity directly or indirectly employed by the Vendor for whose acts Vendor may be liable.

    Waiver and Assumption of Liability. The Vendor assumes all liability for personal injuries or illness of any kind or death that might occur to itself while acting under this Contract. The Vendor assumes all liability and responsibility for its personal property while performing any Work under this Contract. Notwithstanding any provision in this Contract to the contrary, the Vendor's obligations in this Section 15 shall survive the termination of this Contract.

    No Personal Liability. No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

16. **Default and Termination.** This Contract is subject to termination by the Village or the Vendor upon forty-eight (48) hours prior written notice should the other Party fail to perform its obligations hereunder. The written notice of default shall specify the nature and type of default and shall be delivered to the alleged defaulting Party at the address listed below. The Party in default shall have twenty-four (24) hours within which to cure the default. In the event of any termination by the Village, the Vendor will be paid for all actual services rendered, which are accepted by the Village as being in conformance with this Contract, through the date of termination. In the event of termination of this Contract by the Village for nonperformance by the Vendor, the Village shall not be obligated to pay for any of the equipment or professional services or other related costs and expenses of the Vendor that relate to that portion of this Contract that the Vendor fails, refuses or is unable to perform or complete. In the event of default or termination for nonperformance, the Village reserves all of its legal rights and remedies to seek damages of any kind from the Vendor, and no provision limiting liability or damages found elsewhere in this Contract or in **Exhibit "A"** shall be valid or enforceable.

17. **Notice.** All notices required to be delivered hereunder shall be in writing and shall be deemed sufficient if: (a) personally delivered, (b) sent by facsimile, (c) sent by a nationally recognized overnight courier, or (d) sent by certified mail, return receipt requested, postage prepaid and

addressed to the Parties to this Contract at the addresses set forth below or at such other addresses as may be designated by the Parties in writing. Notices personally delivered and sent by overnight courier shall be deemed delivered on the date of receipt. Notices mailed by certified mail shall be deemed received on the date of receipt or refusal to accept delivery as evidenced by the return receipt. Notices served by facsimile machine shall also require that copies of the notice and proof of transmission be sent by regular mail on the date of transmission, and notice shall be deemed received on the actual date of receipt of the facsimile.

If to Village:	If to Vendor:
Village Manager Village of Western Springs 740 Hillgrove Avenue Western Springs, Illinois 60558	President/Authorized Corporate Officer Custom Filtration Solutions, LLC PO Box 235 Wheaton, IL 60187

18. **Independent Contractor.** The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (A) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (B) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

19. **Inspections By Village.** During the term of this Contract, the Village, or its designee, shall have the right at any time and from time to time to enter upon the Project site for the purpose of conducting such inspections in order to confirm that the Work is being performed in accordance with the terms of the Contract. In the event that the Village, or its designee, discovers a noncompliance matter or a defect or deficiency in the construction of the, the Project, the Village, or its designee, shall notify the Contractor thereof in writing within five (5) calendar

days. Any such inspection by the Village, or its designee, shall not be construed as a representation by the Village, or its designee, that there has been compliance with the Contract Documents, this Contract or that the Project will be or are free of faulty materials or workmanship, or as a waiver of any right that the Village, or its designee, or any other party may have against the Construction, its agents or any subcontractors or any other party for failure to comply with the Contract Documents or the provisions of this Contract.

20. **FOIA Compliance.** Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor's possession and to provide the requested public records to the Village within two (2) business days of the request being made by the Village. The Contractor agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Contract. The Contractor acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10).

21. **Open Book Project; Audit.** The Project will be an "open book" project, and the Village and the general contractor (or contractors, if more than one) will ensure access by the Village Superintendent, or their designee, upon request for the purpose of reviewing and auditing the Contractor's or its subcontractors' respective books and records relating to the Project.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 10.A.

To: Board of Trustees
From: Casey Biernacki, Deputy Village Manager
CC: Ellen Baer, Village Manager, Nancy Flores, Interim Director of Recreation, John Mastandona, Director of Finance
RE: [Previously discussed] Amendment to the Southeast Association for Special Parks and Recreation Joint Agreement (Omnibus Item)

Recommendation

The Properties and Recreation Committee reviewed this item at their meeting on January 7, 2026 and recommended the approval of a change to the annual contribution calculation for the Southeast Association for Special Parks and Recreation (SEASPAR) Joint Agreement.

Summary

The Village is a member of the Southeast Association for Special Parks and Recreation (SEASPAR) which provides essential special services to members in need in recreation programs. SEASPAR maintains a Joint Agreement with the Village of Western Springs and the other fourteen (14) communities that make up the organization. Attached is a memo from Matthew Corso, Executive Director of SEASPAR, and a draft Resolution. These documents outline a proposed change to the agreement pertaining to the contribution calculation for each community and how it is calculated.

Currently, SEASPAR utilizes the most recent Equalized Assessed Valuation (EAV) of each community to set the annual special recreation levy amounts. The Cook County EAV reports are almost always delayed, meaning that the levy amounts are not always communicated to communities with fiscal year budgets in a timely manner. To address this, it is proposed that SEASPAR use the preceding year's EAV report instead. For example, when preparing the FY2027 budget and levy, SEASPAR would use the 2024 EAV report rather than wait for the 2025 report. Additionally, the proposed change extends the payment date for SEASPAR to December, instead of November.

This action requires that two-thirds of the fifteen (15) SEASPAR members pass an ordinance approving the change.

Financial Impact

There is no financial impact to the FY2026 budget as the special recreation levy was established using the recent Cook County data. The special recreation levy for 2025 was .017%, or

$171,582.

Recommended Motion

I move to approve an amendment to the joint agreement with the Southeast Association for Special Parks and Recreation (SEASPAR).

AGENDA ITEM 10.B

To: **SEASPAR Board of Directors**
From: **Matthew Corso, Executive Director**
Subject: **Resolution #2025-02 Amending the Joint Agreement of SEASPAR**
Date: **November 11, 2025**

There are two proposed changes to the SEASPAR Joint Agreement included in one resolution. This resolution has been reviewed by counsel Adam Simon of Ancel Glink.

Per the Joint Agreement, the amendment process involves two steps:

1. The SEASPAR Board must approve the resolution by a two-thirds vote of its members.
2. At least two-thirds of all member entities must then pass a similar resolution at their own Board meetings to ratify the amendment.

The resolution for SEASPAR Board approval is enclosed in this packet. Once approved, I will provide each Board member with a draft resolution to adapt to your agency's standards and present for ratification. I can also supply a brief explanation of the changes for your Board materials if desired.

This amendment stems from our Board discussion during the recent budget approval process. Currently, SEASPAR uses the most *recent* Equalized Assessed Valuation (EAV) report to set the levy. However, the Cook County EAV report is almost always delayed, meaning that when the levy rate is approved, the final dollar amount for Cook County communities is still unknown. This forces SEASPAR to make assumptions about member contributions and creates challenges for both SEASPAR and those communities in developing accurate budgets.

To address this, it is proposed that SEASPAR use the *preceding* year's EAV report instead. For example, when preparing the FY2027 budget and levy, SEASPAR would use the 2024 EAV report rather than waiting for the 2025 report. Using the prior year's report will allow us to begin the budget process with confirmed figures in place.

The second proposed change, recommended by Adam Simon, adjusts the due date for the second installment of member contributions by one month to December. He suggested this knowing disbursements for Cook County communities are typically delayed.

Staff Recommendation:
Approve Resolution #2025-02, amending the SEASPAR Joint Agreement to:

1. Use the preceding calendar year's Equalized Assessed Valuation when calculating member contributions, and
2. Extend the second installment payment due date to December.

DRAFT 1.22.2026
RESOLUTION NO. 26-????
VOTE:
AYE:
NAY:
ABSENT:
ABSTAIN:
DATE: January 26, 2026.
OTHER: None.

A RESOLUTION APPROVING AND AUTHORIZING THE EXECUTION OF AMENDMENTS TO THE JOINT AGREEMENT FOR THE SOUTHEAST ASSOCIATION FOR SPECIAL PARKS AND RECREATION ("SEASPAR")

WHEREAS, the President and Board of Trustees of the Village of Western Springs (the "Village Board" or "Village"), have previously authorized the participation of the Village in the South East Association ("Seaspar"), which is an intergovernmental special recreation association organized under the Illinois Municipal Code and the Illinois Park District Code; and

WHEREAS, the Village of Western Springs is a member of SEASPAR; and

WHEREAS, SEASPAR has adopted a Joint Agreement which defines the terms and conditions of membership and the by-laws for the operation of the agency; and

WHEREAS, the Joint Agreement was last amended in June 2023 and remains in full force and effect as of the date of this Resolution; and

WHEREAS, the SEASPAR Board of Directors desire to amend the Joint Agreement to change the data used to calculate Assessments because of recurring failures and delays by Cook County in reporting the aggregate equalized assessed values of local park districts and municipalities; and

WHEREAS, at an open public meeting held on January 7, 2026, the Village's Properties and Recreation Committee ("Committee") reviewed and discussed the amendments to the Joint Agreement and received input from the Village staff and provided an opportunity for public input, and then the Committee recommended that the Village Board approve and enter into the amendments to the Joint Agreement; and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the amendments to the Joint Agreement, and the Committee's recommendation, and received input from the Village staff and provided an opportunity for public input. At its January 26, 2026 meeting, the President and Board of Trustees accepted the Committee's recommendation to approve and enter into the amendments to the Joint Agreement; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized, under the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-7(e) and 65 ILCS 5/11-5.3-1), Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Constitution of the State of Illinois of 1970 and the Intergovernmental Cooperation Act (5 ILCS 220/), to approve and enter into the amendments to the Joint

Agreement, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, local businesses and the public to approve and enter into the Joint Agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2. Approval and Execution of Agreement and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of the attached, amended version of the SEASPAR Joint Agreement. In addition, the President and Board of Trustees authorize and direct the President and Clerk, or their designees, to execute the final version of the Joint Agreement, which may contain certain non-substantive and non-financial modifications that are approved by the Village Attorney, and further authorize and direct the President and Clerk, or their designees, to execute such other documents as are necessary to fulfill the Village's obligations under the Joint Agreement.

SECTION 3. Approval of Financial Obligations and Other Documents. The President and Board of Trustees further approve and authorize the expenditure of Village funds and/or other available funds to pay for the Village's financial obligations under the Joint Agreement and also authorize and direct the Village Manager, and the Village Attorney, or their designees, to take all necessary actions to comply with the Village's obligations under the Joint Agreement.

SECTION 4. Delivery of Certified Copy of Resolution, Executed Agreement and Other Signed Documents. The President and Board of Trustees of the Village direct the Village Clerk's Office to forward a certified copy of this Resolution and a fully executed copy of the Amendments to the Joint Agreement to SEASPAR for record retention purposes.

SECTION 5. Effective Date. This Resolution shall be in full force and effect from and after its adoption and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President on the same day, and attested by the Village Clerk on the same day

AGENDA ITEM 10.B.

To: Board of Trustees
From: Diana Puga, Municipal Services Coordinator
CC: Matthew Supert, Director of Municipal Services, Ellen Baer, Village Manager
RE: [Previously discussed] Surplus Declaration - Q1 2026 (Omnibus Item)

Recommendation

The Properties and Recreation Committee reviewed this item at their meeting on January 7, 2026 and the Village Board reviewed this item at their meeting on January 12th, 2026, and recommended the approval of a declaration of surplus property.

Summary

Staff have identified several items that are recommended for surplus. The items being recommended for surplus are:

- One (1) five drawer file cabinet
- One (1) two drawer file cabinet and storage

These items will be sold via auction through Public Surplus.

Financial Impact

Financial Impact TBD pending sales from auction.

Recommended Motion

I move to approve a declaration of two file cabinets as surplus property.

WHEREAS, pursuant to Section 11-76-4 of the Illinois Municipal Code (65 ILCS 5/11-76-4) the Corporate Authorities of the Village of Western Springs may dispose of personal property owned by the Village when, in the opinion of the majority of the Corporate Authorities, such property is no longer necessary, useful to or in the best interests of the Village; and

WHEREAS, the Corporate Authorities of the Village of Western Springs, Cook County, Illinois deem it no longer necessary, useful to or in the best interests of the Village to retain the surplus personal property described in Exhibit "A" attached hereto and made part hereof, and desire that the Village Manager dispose of such property in any lawful manner.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2: Finding and Declaration of Surplus Property Status. The Corporate Authorities of the Village of Western Springs find and declare that all itemized property of the Village set forth in Exhibit "A" which is attached hereto and made part hereof, is surplus personal property because it is no longer necessary, useful to or in the best interests of the Village to retain such property.

SECTION 3: Authorization of Disposal and Execution of Necessary Documents. The Village Manager, or their designee, is authorized to dispose of the personal surplus property of the Village set forth in Exhibit "A" in any lawful manner in accordance with the terms and provisions set forth above this Ordinance. The Village Manager, or their designee, is further authorized to execute all necessary documents to transfer the titles to the surplus property and to effectuate its transfer, and to require the execution of a waiver of claims and indemnification from the purchaser, grantee or donee, as appropriate and recommended by the Village Attorney.

SECTION 4: Effective Date. This Ordinance shall be in full force and effect from and after its adoption, approval and publication in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 10.C.

To: Board of Trustees
From: Diana Puga, Municipal Services Coordinator
CC: Matthew Supert, Director of Municipal Services, Ellen Baer, Village Manager
RE: [Previously discussed] Vendor Contract with Advanced Tree Care, Inc. for the 2026 Tree Inventory Updates (Omnibus Item)

Recommendation

The Properties and Recreation Committee reviewed this item at their meeting on January 7, 2026 and the Village Board reviewed this item at their meeting on January 12th, 2026, and recommends to approve a contract with the lowest cost, responsible bidder, Advanced Tree Care for Tree Inventory Updates in 2026 for an amount not to exceed $29,000.00.

Summary

On December 4, the Village issued a Request for Bids (RFB) for services related to Tree Inventory Updates. On December 22, the Village received a total of two (2) bids. A summary of the submittals is as follows:

Name	Unit Pricing per Tree
Advanced Tree Care, Inc.	$4.00
Great Lakes Urban Forestry, Inc.	$5.25

Per the Urban Forestry Management Plan (UFMP), the Village has committed to performing a comprehensive update to the existing tree inventory every five (5) years. The Village established the first tree inventory and UFMP in 2019. This will be the Village's first update since the establishment of the tree inventory. The Village anticipates between 8,100 and 8,200 trees to be included as part of the updates and has budgeted $29,000 for this project.

Staff performed a reference check of the lowest bidder, Advanced Tree Care, and received positive feedback; all references stated they would be willing to rehire the contractor for future projects. Based on the feedback received, staff is confident in Advanced Tree Care's qualifications to complete this project.

Financial Impact

2. Advanced Tree Care Bid

DRAFT 1.26.2026
RESOLUTION NO. 26-XXXX

VOTE: _____
AYES:_____
NAYS:_____
ABSENT: _____
ABSTAIN:_____
DATE: January 26, 2026
OTHER: None.

A RESOLUTION ACCEPTING THE LOWEST COST, QUALIFIED, RESPONSIVE BID AND AUTHORIZING THE EXECUTION OF AN AGREEMENT TO BE ENTERED INTO BETWEEN THE VILLAGE OF WESTERN SPRINGS AND ADVANCED TREE CARE OF LINCOLNSHIRE, ILLINOIS FOR THE 2026 TREE INVENTORY UPDATES AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS TO PAY FOR THE PROJECT IN AN AMOUNT NOT TO EXCEED $29,000.

WHEREAS, the President and Board of Trustees of the Village of Western Springs ("Village Board") desires to hire a firm to perform a comprehensive update to the Village's tree inventory as set forth in the Village's Urban Forestry Management Plan ("UFMP") by using Village General funds to pay for the completion of the work (the "Project"); and

WHEREAS, the Village received bids until December 22, 2025 at 10:00 AM Central Time and subsequently reviewed all bids; and

WHEREAS, based on competitive bidding of the project, Advanced Tree Care of Lincolnshire, Illinois (the "Contractor"), submitted the lowest cost, qualified, responsive bid of $4.00 unit price per tree to complete the Project, with a total not-to-exceed amount of $29,000; and

WHEREAS, at an open public meeting held on January 7, 2026, the Village's Properties and Recreation Committee ("Committee") reviewed and discussed the Project and received input from the Village staff, and provided an opportunity for input from the public, and then the Committee favorably recommended that the Village Board approve the and authorize the entry of an agreement (the "Contract") with the Contractor for the completion of the Project (a copy of the Bid Documents, including the Contract is attached hereto as **Group Exhibit "A"** and incorporated herein); and

WHEREAS, at open public meetings held on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Project, the Contract, and the Committee's recommendation, received input from the Village staff, and provided an opportunity for input from the public. At its January 26, 2026 Regular meeting, the Village Board accepted the Committee's recommendation to award the Project to the Contractor and authorize and approve the Contract; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs are authorized, under the intergovernmental cooperation powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the State of Illinois Constitution of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/), and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/8-1-7), to approve and enter into the attached Contract, and find that it is protective of the health, welfare and safety of and in the best interests of the Village, its residents, property owners, businesses and the public to approve and enter into the attached Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

Section 1: Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

Section 2: Approval of Contract and Other Related Documents. The President and Board of Trustees of the Village of Western Springs approve and authorize the execution of a contract (the "Contract"), substantially in the form attached hereto as **Group Exhibit "A",** and made a part hereof, which may contain certain non-substantive and non-financial changes that are approved by the Village Attorney, for the purpose of accepting the lowest cost, qualified, responsive bid submitted by Advanced Tree Care, to hire the Contractor to complete the Project. In addition, the Village Board authorizes and directs the Village President and Clerk, or their designees, to execute the final version of the Contract, and such other related documents as may be necessary to fulfill the Village's obligations under the Contract.

Section 3: Approval of Related Expenses. The President and Board of Trustees of the Village of Western Springs also authorize and direct the Village President, the Village Clerk, the Village Manager and the Village Attorney, or their designees, to execute and deliver all other instruments and documents and pay all Village Board-authorized costs that are necessary to fulfill the Village's obligations under the Contract.

Section 4: Delivery of Signed Documents. After approval and execution of this Resolution and the Contract by the Village President and Village Clerk, or their designees, the Village Clerk's Office shall arrange for the delivery of a certified copy of this Resolution and executed versions of the attached Contract to the Clerk's office and to the Contractor.

Section 5. Effective Date. This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as Village President, and attested by the Village Clerk, on the same day.

CLERK'S CERTIFICATE

I, Edward Tymick, the Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that the attached document is a true and correct copy of the Resolution now on file in my office, entitled:

RESOLUTION NO. 26-_____

A RESOLUTION ACCEPTING THE LOWEST COST, QUALIFIED, RESPONSIVE BID AND AUTHORIZING THE EXECUTION OF AN AGREEMENT TO BE ENTERED INTO BETWEEN THE VILLAGE OF WESTERN SPRINGS AND ADVANCED TREE CARE OF LINCOLNSHIRE, ILLINOIS FOR THE 2026 TREE INVENTORY UPDATES AND AUTHORIZING THE EXPENDITURE OF VILLAGE FUNDS TO PAY FOR THE PROJECT IN AN AMOUNT NOT TO EXCEED $29,000.

which was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 26th day of January, 2026, at which meeting a quorum was present, and approved by the Village President of the Village of Western Springs on the 26th day of January, 2026.

I further certify that the vote on the question of the passage of the said Resolution by the Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Resolution, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this __ day of January, 2026.

Legal Notice

The Village of Western Springs, Cook County, Illinois, does hereby invite sealed bids for the following: **2026 Village Tree Inventory RFB**

Bids will be received until **10:00 AM.** Prevailing Local Time on **December 22, 2025,** by mail or delivered by hand to the drop box located outside the front entrance of Village Hall, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois, 60558-0528 immediately after which time and at such place all bids will be publicly opened.

Those desiring to bid may obtain copies of the contract, specifications and other bidding documents online at wsprings.com/bids.

As evidence of good faith, each bid shall be accompanied by a bid bond, bank draft or certified check and made payable to the Village of Western Springs, Illinois, in the amount of five hundred dollars ($500) or 10% of the bid price, whichever is greater, which shall be submitted to secure the Village against loss occasioned by failure of the bidder to abide by and comply with the terms of their bid.

The successful bidder shall be required to furnish payment and performance bonds in the full amount of the bid or proposal, at the time a contract is awarded, to the Village of Western Springs by a surety company authorized to do business in the State of Illinois and approved by the Village. Failure to produce acceptable bonds will constitute default and the bid bond will be forfeited. No bid shall be withdrawn after the opening of bids without the consent of the Village for a period of sixty (60) days after the scheduled time of closing bids.

Bidders will be required to comply with all laws including those related to employment of labor and the payment of local prevailing wage rates. Each bidder shall satisfy the Village as to their ability, financial and otherwise, to perform the work specified.

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

VILLAGE OF WESTERN SPRINGS
By Edward Tymick, Village Clerk

Published in the Doings Newspaper on December 6, 2025

Instruction to Bidders

VILLAGE OF WESTERN SPRINGS
DATE: December 6, 2025

Bids to be entitled to consideration must be made in accordance with the following instructions:

Bids shall be submitted in an opaque, sealed envelope plainly marked with the words:

2025 Village Tree Inventory RFB
VILLAGE OF WESTERN SPRINGS

and shall be delivered by hand to a drop box or mailed in time for delivery to the Office of Village Clerk, Village of Western Springs, 740 Hillgrove Avenue, Western Springs, Illinois by **10:00 A.M.** Prevailing Local Time on **December 22, 2025**, after which time and at such place all bids will be publicly opened and read aloud.

Bids received after the time for opening will not be considered.

Bids must be signed by an authorized official of the contractor's organization, and the name of the official and their title typed below the signature. If the bidder is a corporation, the corporate seal must be affixed.

Bid security in the form of a bid bond, bank draft or certified check made payable to the Village of Western Springs, in the amount of FIVE HUNDRED DOLLARS ($500), shall be submitted with each bid. The proceeds of any bid security shall become the property of the Village if, for any reason, a bidder, within FORTY-FIVE (45) days after the opening of bids withdraws their bid without the consent of the Village, or if on notice of award refuses or is unable to execute the approved contract and obtain the required performance and payment bonds. Bid deposits may be held for a period not exceeding FOURTY FIVE (45) days. (NOTE: For those projects which will not require the performance bonds, consideration should be given to holding the bid security until delivery is made.)

The Village Board reserves the right to reject any applicable bids for any reason, if it decides that such rejection is in the Village's interest, to reject any nonconforming bids, to waive any informalities in bidding, and to make award on that bid, which, in its opinion, is most advantageous to the Village. The contract will be awarded to the lowest responsible bidder.

The successful bidder will be required to furnish and pay for satisfactory Performance and Labor and Material Payment Bonds in the amount of one hundred percent (100%) of the contact sum. Execution of the Contract by the Village is contingent upon receipt of acceptable Performance and Payment Bonds and Insurance Certificates.

The Village reserves the right to require of any bidder, such information necessary to satisfy the Village of the bidder's qualifications and to withhold formal signing of the contract until such information is received.

The successful bidder will be required to execute a contract in the form prescribed by the Village and must certify that the bidder is eligible to enter into public contracts under the Illinois Criminal Code, has a written sexual harassment policy and complies with Illinois Department of Revenue policies regarding taxes by executing the Certification attached hereto as **"Exhibit A"** and made a part hereof.

Bidders will be required to comply with all applicable laws including those relating to the employment of labor and the Illinois Prevailing Wage Act and payment of the applicable prevailing wage.

This contract will be awarded without discrimination in compliance with all applicable local state and federal laws.

Responsibility of the bidders will be determined by factors in addition to financial responsibility, such as past records of its or other entities' transactions with the Village of Western Springs, experience, ability to work cooperatively with the Village and its Administration, adequacy of equipment, ability to complete performance within necessary time limits, and other pertinent considerations, such as, but not limited to, reliability, reputation, competency, skill, efficiency, facilities and resources.

Proposal

TO: Village of Western Springs
740 Hillgrove Avenue
Western Springs, IL 60558

RE: 2026 Village Tree Inventory RFB

1. The specifications and directions for the proposed service are those prepared by the Village of Western Springs and designated as Special Provisions, and which cover the work described in said document and the "Agreement."

2. In submitting this proposal, the undersigned declares that the only persons or parties interested in the proposal as principals are those named herein; and that the proposal is made without collusion with any other person, firm, or corporation.

3. The undersigned further understands and agrees that if this proposal is accepted, the undersigned is to furnish and provide all necessary equipment, machinery, tools, apparatus and other means of maintenance, and to do all of the work and perform all the services, and to furnish all of the materials specified in the bid documents in the manner and at the time therein prescribed, and in accordance with the requirements therein set forth.

4. The undersigned further agrees to execute an Agreement for this work and present the same to the Village within seven (7) days after the date of notice of the award of the Agreement to the Contractor.

5. The undersigned further agrees that they and their surety will execute and present within seven (7) days after the date of notice of the award of Agreement the performance and labor and materials payment bonds in a form satisfactory to the Village of Western Springs, in the amount of one hundred percent (100%) of the contract sum guaranteeing the faithful performance of the work in accordance with the terms of the bid documents.

6. The undersigned further agrees to be available to begin work and complete work, respectively, between **May 1** and **September 30** and must be completed within 90 days of work commencements, as provided for in the Agreement, unless otherwise agreed to by the Village, and to prosecute the work in such manner and with sufficient materials, equipment, and labor as will insure the providing of specified service within the time limit specified herein, it being understood and agreed that the providing of the specified service within the time limit and according to the maintenance schedule is an essential part of the Agreement.

7. This proposal is accompanied by a bid bond, bank draft or certified check complying with the requirements of the specifications and directions, made payable to the "Village of Western Springs, Illinois". The amount of the bid security

is Five Hundred ($500.00) Dollars. If this proposal is accepted and the undersigned shall fail to execute an Agreement and said security as required herein, it is hereby agreed that the amount of the bid bonds shall become the property of the Village, and shall be considered as payment of damages due to delay and other causes suffered by the Village because of failure to execute said Agreement or provide the required performance and payment bonds; otherwise said bid security shall be returned to the undersigned pursuant to the bid documents.

ATTACH BID SECURITY HERE

8. The undersigned submits herewith a schedule of prices covering the work to be performed under this Agreement; the undersigned must show in the schedule the prices for which the undersigned proposed to perform.

9. The undersigned further declares to have carefully examined this proposal, the specifications and directions, the Agreement, the legal notice, and special provisions (if any), and to have inspected in detail the site of the proposed work and is familiar with all of the local conditions affecting the Agreement and the detailed requirements of service and understands that in making this proposal waives all right to plead any misunderstanding regarding the same.

Special Provisions

The undersigned ("Contractor") agrees to furnish to the Village of Western Springs, an Illinois municipal corporation, hereinafter referred to as the "Village", ***Village Tree Inventory Updates*** conforming to the terms and conditions set forth herein.

Scope of Work

The Village of Western Springs is seeking to hire a firm to perform a comprehensive update to the Village's existing tree inventory Village owned trees. All trees are located within the Village owned right-of-way and property.

The work to be performed under this contract shall consist of furnishing all labor, machinery, tools, materials, and equipment necessary to complete the Village Tree Inventory Program within the specified time frame and in a professional manner within the Village of Western Springs.

Database

The Village currently manages all their geographic data through a single portal, managed by a Geographic Information System (GIS) consultant. Data shall be collected via handheld GPS and analyzed in a GIS environment. Tree data collected for this project shall not be maintained or managed in a separate Tree Inventory software package. The GIS data itself shall be incorporated into the Village's existing GIS in order to streamline and enhance long term urban forestry management strategies.

Deliverables

Final deliverables shall be submitted in an ESRI File Shapefile format for integration with the Village's existing GIS system, and include digital maps of the designated tree population, a statistical analysis of the overall tree population, and an updated geodatabase of the tree population.

Schedule of Bid Pricing

Bids should include all costs associated with the specifications and deliverables of the project.

The Village of Western Springs shall in no way be responsible for any extra equipment rental, or charges for such equipment rented by contractor, that might be required to complete this contract. Any such charges should be considered incidental to the contract.

Visitation Of The Site

The Village will provide an ESRI file geodatabase of the existing tree inventory to the Successful Bidder upon the award of a successful bid. The Contractor is encouraged to visit the site of the proposed work to ascertain for themselves the actual conditions and to make determinations regarding materials, equipment, and other factors which may be needed for the submission of a proposal for the work and for which the proposal is based. It is further understood that the Contractor in submitting a proposal, acknowledges that they have satisfied for him/herself, before submitting the proposal, of the true condition of

the designated sites and that he/she has ascertained the full scope of the work involved, including border trees.

Equipment And Supervision
The Contractor shall be responsible for ensuring sufficient manpower, equipment, and/or tools to complete the work within the time specifications set forth in the Contract.

All trucks used by the Contractor must be plainly marked with the company's name. Each crew must be directly supervised by a competent Contractor's representative and authorized by the Contractor to act on all directives within the Contract or at the Village's request.

The Village of Western Springs shall in no way be responsible for any additional costs associated with the completion of this project.

Data Collection Fields / Parameters

Base Inventory Data Collection
Data in the field shall be collected using a sub-meter accuracy handheld GPS unit that shall be used to locate the position of the trees and record the tree's base inventory information.

Data shall be collected, stored, and analyzed in an ESRI File Geodatabase format. The Village will provide current geodatabase files for updating. The collected data shall be reviewed for quality control prior to integration into the GIS database. The base inventory of inventoried trees shall consist of the fields linked to each geospatial data point (tree) found in Appendix A.

The Village may elect to add more fields at their discretion.

Method Of Measurement
Trees to be inventoried shall be measured per inch of diameter. The diameter shall be measured at a point four and a half feet (4 ½) above the highest ground level at the tree and shall be determined by using a D.B.H. tape or by dividing the measured circumference at this point by 3.14. Any tree that forks below 4.5 feet shall be measured as two separate trees at 4.5 feet and added together as one tree. Trees that fork at 4.5 feet shall be measured just below the fork.

GPS Location
The GPS data collectors shall have between 20 and 50 channels available, as well as a GNSS Antenna that makes use of the SBAS (Satellite Based Augmentation System) and/or WAAS (Wide Area Augmentation System). These receivers utilize Real Time Differential GPS and shall not require post processing for sub-meter accuracy.

Address
The address shall be taken as the numerical address at which a tree is located, based on the listed street address of the GIS parcel data available. If no numerical address is listed for the property the tree is located at, a designation can be made (such as '99999') based on the standard already being utilized by the Village GIS professional(s). Please refer to the Appendix A.

Street Address
The street name shall conform to the names listed on Village street signage as occasionally the GIS cadastral data has misspellings, incorrect street suffixes or other slight errors. The street name shall also be for the address at which the parcel is listed, regardless of how the house is oriented (if on a corner lot). As a courtesy to the Village, the inventory provider shall attempt to notify Village GIS professionals when such mismatches are identified.

Species
All tree species shall be listed using common names and are to be identified to the species level. Specific cultivars, hybrids, or varieties shall be identified where appropriate. The deliverable database shall have an open field for entering known cultivars by Species - Hybrid.

Size
DBH (Diameter at Breast Height) is a standard forestry measure of diameter, defined as the diameter of the tree, measured at 4.5 feet above the ground surface on the uphill side of the tree. Measurements shall be made using a forester's DBH tape.

Condition
Condition ratings shall be based upon the condition of each tree rated in accordance with the following categories adapted from the International Society of Arboriculture's rating system:

1) Excellent 100%
2) Good 80%
3) Fair 60%
4) Poor 40%
5) Critical/Dead 20%

Standard Defects

Roots
Roots shall be evaluated as part of the Hazards and Defects Package

Wounds
Wounds shall be evaluated as part of the Hazards and Defects Package and shall include, but not be limited to: splits, cavities, callus tissue, holes, or any other mechanical defect which appears to have been caused by chronic or acute force.

Rot
Rot shall be evaluated as part of the Hazards and Defects Package, and include, but is not be limited to mushrooms, dry rot, brown rot, decay columns, bleeding, basal rot, cankers, etc.

Deadwood
Deadwood shall be evaluated as part of the Hazards and Defects Package.

Trees which are observed in the field as being imminently hazardous shall be reported immediately to Village officials.

Comments/Observations
Comments shall be included when necessary as a courtesy to denote any conditions worthy of note, such as included bark, interference with utilities or streetlamps, need for sidewalk or street clearance, limited growth space, poor form, cavity/decay, pest/disease issues, improper mulch or any other information that may be valuable. These comments are standardized as much as possible, though certain situations exist where nonstandard comments were utilized.

Wires
The presence of overhead wires shall be collected in the field at every tree location, and entered into the data as Yes/No.

Safety
The Contractor shall provide adequate barricades, flagmen, signs and/or warning devices during the performance of the contract and when working on arterial streets to protect motorists and pedestrians all in conformance with Village standards and consistent with Part VI, Traffic Controls for Street and Highway Construction and Maintenance Operations of the State Illinois Department of Transportation Manual on Uniform Traffic Control Devices, adopted 1994. The Village of Western Springs, Municipal Services Department shall be notified prior to the closing of streets when street closure is required. All equipment to be used and all work to be performed must be in full compliance with ANSI Z-133.1 (1994) American National Standard for Tree Care Operations.

Equipment Restrictions
If motorized equipment needs to be driven on parkways, rights-of-way, driveways or public walks while performing work under provisions of the contract provisions shall be made by the Contractor to prevent damage to turf, groundcover, concrete or asphalt. Property owners must be notified in advance if equipment shall be driven on the aprons or driveways. Procurement of and payment for rental or purchase of any additional equipment deemed necessary by the Contractor for execution of the contract shall be the sole responsibility of the contractor.

Parking And Storage

No off-street parking of equipment shall be provided for by the Village of Western Springs on any of the Village's public properties, except as designated by the Director of Municipal Services or their designee in writing.

Qualifications

A) Minimum Qualifications: The Contractor must have prior municipal experience in tree inventory data collection, GIS and analysis and must have worked for at least 5 municipalities in the last five years. These municipalities should be included as references on the attached sheet. The low bidder shall be required to submit evidence of experience and required certifications prior to contract approval. If the low bidder does not meet the required qualifications, the bid shall be rejected, and the next low bidder selected.

B) All data collection must be accomplished by Illinois ISA Certified Arborists (IL Certification number) with local knowledge of Illinois tree species and 5 years' experience. The contractor shall have at least one *Tree Risk Assessment Qualified*, *Certified Arborist* as designated by the International Society of Arboriculture on each assessment team which have been employed for at least one year with the Bidding Company.

C) No subcontractors will be allowed to work on this project. A list of degrees, certifications or other documentation must be submitted by the Contractor and by the Contractor's on-site representative that would qualify the Contractor and the Contractor's on-site representative as competent data collection experts. (Example: Certified Arborist by the ISA, 1999, Certificate Number 000).

References

The Contractor shall be required to submit 5 references of work performed within the past five (5) years, including municipal references. This information must be submitted with the proposal. The Village reserves the right to request additional references.

Terms

The term of this contract shall be a one-time contract, ending upon manager sign-off, unless the contract is terminated pursuant to the terms herein.

Standards

All material and workmanship shall be in accordance with current professional practices and standards. All inventory work shall be done in a safe and efficient manner.

The following specifications and manuals supplement the Contract Documents and are hereby incorporated by reference:

A. Illinois Department of Transportation "Standard Specifications for Road and Bridge Construction," adopted January 1, 2007, (hereinafter referred to as the Standard Specifications.)

B. Illinois Department of Transportation "Supplemental Specifications and Recurring Special Provisions," latest edition as indicated on the Check Sheet.
C. "Manual on Uniform Traffic Control Devices for Streets and Highways" latest edition in effect on the date of invitation for bids (hereinafter referred to as the Traffic Control Standard Specification.)
D. "Illinois Department of Transportation Standard Specification for Traffic Control Items" latest edition in effect on the date of invitation for bids (hereinafter referred to as the Traffic Specifications.)

The above standards shall apply to the work covered by this Contract as if fully written herein, except those items which by their nature have no application. In case of conflict with any part or parts of the above listed specifications, the specification contained herewith shall take precedence and shall govern.

GENERAL SPECIFICATIONS

Acceptability of Work

The Village of Western Springs will be sole and final judge of the acceptability of the work to be performed and the services to be rendered under the terms of the Agreement.

Applicable Laws and Regulations

The Vendor agrees to comply with the following laws and to assist the Village in complying with the following laws: the Americans with Disabilities Act (42 U.S.C. 12101 et seq.) and all rules and regulations issued pursuant to the Act. All applicable provisions of Federal, State and local laws, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Vendor agrees to comply with all applicable Federal laws and State laws and regulations including, but not limited to, the Illinois Prevailing Wage Act and such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Vendor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and Federal and State statutes, and the Vendor further agrees to make all required withholdings and deposits therefor. Such requirements shall be included by the Vendor in all its contracts and agreements with any of its subcontractors. The Parties agree that the most recent of such State and Federal requirements will govern the administration of this Contract at any particular time. Likewise, new State and Federal laws, regulations, policies and administrative practices may be established after the date that this Contract has been executed and may apply to this Contract. The Vendor agrees to maintain full compliance with changing government requirements that govern or apply to its operation. Any complaint of such discrimination received by the Vendor shall be immediately forwarded to the Village. Further, the Vendor certifies that:

A. The Vendor is the only person/entity interested in the above Contract as the sole principal named herein and that no other person/entity than herein mentioned has any interest in the Contract to be entered into; that this Contract is made without connection with any other person, company or parties submitting qualification information; and that it is in all respects fair and in good faith without collusion or fraud.
B. The Vendor is not delinquent in the payment of any tax administered by the Illinois Department of Revenue nor is delinquent in the payment of any money owed to the Village.
C. The Vendor is not barred from contracting with any unit of the State of Illinois or local government, such as the Village, as a result of violating Section 33E-3 or 33E-4 of the Illinois Criminal Code.
D. The Vendor complies with the Illinois Drug Free Work Place Act.
E. The Vendor complies with the Equal Employment Opportunity Clause of the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights.

F. The Vendor complies with the Americans with Disabilities Act.
G. The Vendor states that any work to be performed by it or its contractors on Village-owned property shall be in a good and workmanlike manner and in accordance with all applicable Federal, State and county laws and regulations and the Village codes, ordinances and regulations, including but not limited to all local zoning ordinances and regulations, and other applicable codes.
H. The Vendor also agrees to require any subcontractor doing work under this Contract to agree to adhere to the requirements of this Contract.

Assignment
The Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of any award or any or all of its rights, title, or interest therein, without the prior written consent of the Village of Western Springs.

Authority
The Village, as a non-home rule Illinois Municipal Corporation, has the authority to enter into this Contract pursuant to the statutory authority and contracting powers set forth at Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the 1970 Illinois Constitution and the Illinois Intergovernmental Cooperation Act (5 ILCS 220/) and the Illinois Municipal Code (65 ILCS 5/).

Bidder Investigations
Before submitting a bid, each bidder shall make all investigations and examinations necessary to ascertain all site conditions and requirements affecting the full performance of the contract and to verify any representations made by the Village of Western Springs upon which the bidder will rely. If the bidder receives an award as a result of its bid submission, failure to have made such investigations and examinations will in no way relieve the bidder from its obligation to comply in every detail with all provisions and requirements of the contract documents, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the Contractor for additional compensation.

Bonds
If required, Bonds required to guarantee performance and payment for labor and material for the Work shall be in a form acceptable to the Village and shall provide that they shall not terminate on completion of the Work, but shall be reduced to ten percent (10%) of the contract sum upon the date of final payment by the Village for a period of one (1) year to cover a warranty and maintenance period which Vendor agrees shall apply to all material and workmanship for one (1) year from the date of issuance of the final payment by the Village.

Change in Scope of Work
The Village of Western Springs may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the work or of the Contractor's services has

been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract approved by the Village Board and the Contractor.

If the Contractor believes that any particular work is not within the scope of contract, is a material change, or will otherwise require more compensation to the Contractor, the Contractor must immediately notify the Village Manager in writing of this belief. If the Village Manager believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

Where change orders, or a series of change orders, authorize or necessitate an increase or decrease in either the cost of the work totaling $10,000 or more, or the time of completion of the work by thirty (30) days or more, a written determination must be approved by the Village Board and signed by the Village President or their designee stating that the circumstances necessitating the changes in performance were not reasonably foreseeable at the time the Contract was signed or, the change is germane to the Contract or the change order is in the best interests of the Village.

Collusion among Bidders

Each bidder, by submitting a bid, certifies that it is not a party to any collusive action or any action that may be in violation of the Sherman Antitrust Act. Any or all bids shall be rejected if there is any reason for believing that collusion exists among the bidders. The Village of Western Springs may or may not, at its discretion, accept future bids for the same work from participants in such collusion.

More than one bid from an individual, firm, partnership, corporation, or association under the same or different names may be rejected. Reasonable grounds for believing that a bidder has interest in more than one bid for the work being bid may result in rejection of all bids in which the bidder is believed to have interest.

Nothing in this clause shall preclude a firm acting as a subcontractor to be included as a subcontractor for two or more primary Contractors submitting a bid for the work.

Compliance with Freedom Of Information Act Requests

Section 7(2) of the Illinois Freedom of Information Act (FOIA) (5 ILCS 120/7(2)) requires certain records that qualify as "public records," which have been prepared by and are in the possession of a party who has contracted with the Village, be turned over to the Village so that a FOIA requestor can inspect and photocopy the non-exempt portions of the public records pursuant to a FOIA request. The Village has a very short period of time from receipt of a FOIA request to comply with the request, and it requires sufficient time to review the records to decide what information is or is not exempt from disclosure. The Contractor/Consultant acknowledges the requirements of FOIA and agrees to comply with all requests made by the Village for public records (as that term is defined by Section 2(c) of FOIA) in the Contractor/Consultant's possession and to provide the requested

public records to the Village within two (2) business days of the request being made by the Village.

The Contractor/Consultant agrees to indemnify and hold harmless the Village from all claims, costs, penalties, losses and injuries (including but not limited to, attorney's fees, other professional fees, court costs and/or arbitration or other dispute resolution costs) arising out of or relating to its failure to provide the public records to the Village under this Agreement.

The Contractor/Consultant acknowledges that certified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act (See 5 ILCS 140/2.10)."

Compliance with Laws; Employment Discrimination

In the performance of its obligations pursuant to this Agreement, the Contractor shall comply with all applicable provisions of federal, state and local law, including those regulations in regard to all applicable equal employment opportunity requirements, including without limitation, Article 2 of the Illinois Human Rights Act (775 ILCS 5/2-101 et seq.). In addition, the Contractor agrees to comply with all applicable federal laws, state laws and regulations including, but not limited to, such laws and regulations relating to minimum wages to be paid to employees, limitations upon the employment of minors, minimum fair wage standards for minors, payment of wages due employees, and health and safety of employees. The Contractor also agrees to require any contractor doing work or performing professional or consulting services in connection with its program or this Agreement to agree to adhere to the requirements of this Section. The Contractor agrees to pay its employees, if any, all rightful salaries, medical benefits, pensions and social security benefits pursuant to applicable labor agreements and federal and state statutes, including the Illinois Prevailing Wage Act, and the Contractor further agrees to make all required withholdings and deposits therefore. Such requirements shall be included by the Contractor in all its contracts and agreements with contractors and subcontractors for this program. The parties agree that the most recent of such state and federal requirements will govern the administration of this Agreement at any particular time. Likewise, new state and federal laws, regulations, policies and administrative practices may be established after the date of the Agreement has been executed and may apply to this Agreement. The Contractor agrees to maintain full compliance with changing government requirements that govern or apply to its operation." In addition, the Contractor agrees to comply with the Americans with Disability Act (42 U.S.C. 12101 et seq.), and all rules and regulations issued pursuant to the Act, there shall be no discrimination on the basis of disabilities (as defined in the Act) in the operation of the services and programs provided by the Contractor hereunder. Any complaint of such discrimination received by the Contractor shall be immediately forwarded to the Village Manager.

The Contractor shall comply with all applicable provisions of the Illinois Human Rights Act including the requirement that the Contractor have on file a written sexual harassment policy.

Contractor Personnel

The Village Manager shall, throughout the life of the contract, have the right of reasonable rejection and approval of employees or subcontractors assigned to the work by the Contractor. If the Village of Western Springs reasonably rejects employees or subcontractors, the Contractor must provide replacement staff or subcontractors satisfactory to the Village in a timely manner and at no additional cost to the Village. The day-to-day supervision and control of the Contractor's employees and subcontractors is the responsibility solely of the Contractor.

Debarment

By submitting a bid, the bidder certifies that it is not currently debarred from submitting bids for contract issued by any political subdivision or agency of the State of Illinois and that it is not an agent of a person or entity that is currently debarred from submitting bids for contract issued by any political subdivision or agency of the State of Illinois.

Default Clause

A default shall occur under this contract if the Contractor or Village shall not comply with the terms of this contract. The following list is presented as an example only and does not include a listing of all events of default. Omission of an event does not indicate an intent to excuse such an event as an event of default. Examples are, if the Contractor fails to begin work on the date set forth in the contract (unless the Contractor and Village shall agree in writing to a delay in the start of performance), if the Contractor fails to diligently and consistently perform the work once the contract has started (including but limited to, failing to provide enough properly skilled workers; to supply proper material; to make proper payments to subcontractors, or for materials or labor), or otherwise is guilty of a substantial violation of the contract or specifications, then the Village may declare that a default exists under the contract. The Village shall specify the nature of the default in a written notice mailed to the Contractor or delivered to its employee or agent. Upon receipt of said notice, the Contractor shall be liable and shall pay the Village the amount shown in the following schedule of deductions, not as a penalty but as liquidated damages, for each day until the default is corrected. The liquidated damages for default are approximate, due to the impracticality of calculating and proving actual delay costs. This schedule of deductions establishes the cost of delay to account for administration, engineering, inspection, and supervision during periods of extended and delayed performance. The costs of delay represented by this schedule are understood to be a fair and reasonable estimate of the costs that will be borne by the Village during extended and delayed performance by the Contractor of the work, remaining incidental work, correction of work improperly completed, or repair of work damaged as a result of the Contractor. The liquidated damage amount specified will accrue and be assessed until final completion of the total physical work off the contract even though the work may be substantially complete. The Village will deduct these liquidated damages from any monies due or to become due to the Contractor from the Village.

Schedule of Deductions for Each Day of Default Original Contract Amount from more than	to and including	calendar day
$0	$25,000	$300
$25,000	$100,000	$375
$100,000	$500,000	$550
$500,000	$1,000,000	$725
$1,000,000	$2,000,000	$900
$2,000,000	$3,000,000	$1,100
$3,000,000	$5,000,000	$1,300
$5,000,000	$7,500,000	$1,450
$7,500,000	And over	$1,650

If such default is not corrected within seven (7) days after receipt of the notice, the Village may terminate the Contractor's rights under the contract and complete the work by whatever method the Village deems is appropriate. Upon the termination of the contract, the Contractor agrees to promptly and completely remove all equipment and materials from the job site with no damage to the improvements in place and to return all keys to Village buildings, and all employee security passes. In the case of a default, the Contractor shall not be entitled to receive any further payments until the work under the contract has been completed.

Delay

Contractor shall perform the work of this contract expeditiously in cooperation with the Village, its agents, employees and other Contractors and subcontractors. Contractor shall make no claim against Village, and no claim shall be allowed for any damages which may arise out of any delay caused by Village, its agents, employees or other Contractors or subcontractors. Contractor's sole remedy for delay from the Village shall be an extension in the Contract Time.

Entire Agreement

This Contract and its Exhibits contain the entire agreement between the Parties hereto and supersedes any and all prior agreements and understandings, whether written or oral, and whether formal or informal. In addition, this Contract embodies and merges the entire understanding between and among the Parties hereto, and any and all prior correspondence, conversations or memoranda relating to the subject matter stated herein are being merged herein and replaced hereby. This Contract may be modified or amended only by the mutual consent of the Parties and any such modification or amendment must be in writing, signed by the Parties and duly executed, otherwise it is void.

Exceptions

Bidders taking exception to any part or section shall indicate such exceptions on the bid form. Failure to indicate any exception will be interpreted as the bidder's intent to comply fully with the requirements as written. Conditional or qualified bids, unless specifically allowed, shall be subject to rejection in whole or in part.

Expenses Incurred in Preparing Bid

The Village accepts no responsibility for any expense incurred by the bidder in the preparation and presentation of a bid. Such expenses shall be borne exclusively by the bidder.

Failure to Deliver

In the event of failure of the Contractor to deliver services in accordance with the contract terms and conditions, the Village, after due oral or written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other legal remedies that the Village may have.

Guaranty, Warranties and Representations

A. The prices for the goods, supplies, equipment and/or services are based on the Vendor's standard pricing schedule, are commercially reasonable and competitive prices for the industry, are not artificially inflated, and do not contain any premium or hidden charges, commitments or other undisclosed obligations.
B. All Work shall be performed in a good workmanship manner consistent with industry standards and in accordance with the manufacturers' specifications and instructions.
C. It will exercise the due care and diligence generally associated with the delivery and installation of the goods, supplies, equipment and/or services being provided under this Contract. Due care and diligence shall be applied to all phases of the Vendor's Work.
D. It is authorized to sell and install the goods, supplies, equipment and/or services.
E. The goods, supplies, equipment and/or services are of a good quality, fit for their intended use and purpose, and all express or implied warranties of any kind, including the warranty of merchantability, are in full force and effect and have not been waived.
F. It shall transfer all third party product warranties and guaranties relative to the goods, supplies, equipment and/or services.
G. In addition to any other third party warranty or guaranty, the Vendor shall provide a minimum one (1) year guaranty relative to any equipment and its components. In the event the Vendor's Invoice/Purchase Order provides for a longer guaranty, the longer guaranty shall control.
H. The Vendor shall maintain a current, valid Village business license, and the Vendor shall post with the Village and keep on file and in force for the duration of this Contract a contractor's license bond in the amount required by the Village Code.
I. A written statement containing guaranty for a minimum of one (1) year after final payment or longer for all material and workmanship must be furnished with the bid.

Indemnity/Hold Harmless Provision

To the fullest extent permitted by law, the Contractor hereby agrees to defend, indemnify and hold harmless the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers, against all injuries, deaths, loss, damages, claims, patent claims, suits, actions, liabilities of any kind, including, as allowed by law, liabilities incurred due to joint negligence of the Village and the Contractor, judgments, cost and expenses, which may in anyway accrue against the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers, arising in whole or in part or as a consequence of the performance the contract or any part of the work by the Contractor, its employees, agents, or subcontractors, or which may in anyway result therefore, except that arising out of the sole legal cause of the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers. The Contractor shall, at its own expense, appear, defend and pay all charges of attorneys and all costs and other expenses arising therefore or incurred in connections therewith, and, if any judgment shall be rendered against the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers, in any such action, the Contractor shall, at its own expense, satisfy and discharge the same.

Contractor expressly understands and agrees that any performance bond or insurance policies required by this contract, or otherwise provided by the Contractor, shall in no way limit the responsibility to indemnify, keep and save harmless and defend the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as herein provided.

Independent Contractor

The Vendor is retained by the Village only for the purposes and to the extent set forth in this Contract, and the Vendor's relationship to the Village shall, during the term of this Contract and period of its Work hereunder, be that of an independent contractor based on the following: (a) this Contract is a non-exclusive, independent contractor arrangement; (b) the Vendor, in its discretion, is free to set its schedule regarding the performance of the Work, provided such scheduling and performance of the Work results in the timely and efficient delivery of the Work without interruption of the Village's and its employees' ability to perform their functions and duties; (c) the Vendor will utilize a high level of skill necessary to perform the Work; (d) the Vendor shall not be considered as having Village employee status, nor shall the Village make any deductions or withhold any sums for the payment of any and all applicable Federal, State, local and other taxes, income taxes or FICA taxes; (e) the Vendor shall not be entitled to receive or participate in any employee plans, benefit programs, retirement plans or related employee benefit arrangements or distributions by the Village pertaining to or in connection with any pension or retirement plans, or any other benefits for the regular employees of the Village; (f) the Vendor shall file all necessary tax returns (Federal, State, county and local) and to make such required deductions and pay all income tax, social security, and any and all other taxes due as an independent contractor in its profession; (g) the Vendor is ineligible to file a claim for unemployment compensation benefits or for workers compensation

benefits against the Village and agrees not to file any such claims in the event this Contract is terminated or if it or any of its employees are injured performing any Work; (h) the Vendor agrees to assume all risk of death, illness and injury relative to performing any Work under this Contract; (i) the Vendor shall provide all of its own equipment required for the performance of the Work under this Contract; (j) the Vendor shall retain the right to perform services for others during the term of this Contract so long as the Work: (i) is not inconsistent or incompatible with the Vendor's obligations under this Contract; or (ii) does not violate any provisions of this Contract; (k) the Vendor and its employees shall maintain all applicable certifications, licensure and training as required for its area of expertise and promptly provide copies of such documents upon request by the Village; (l) this Contract shall not render the Vendor, or any its employees, an employee, partner, agent of, or joint venturer with the Village for any purpose; and (m) The Vendor shall comply with the Village's Non-Harassment / Discrimination Policy, a copy of which is incorporated herein by reference.

Insurance Requirements

Contractor shall procure and maintain, for the duration of the contract, insurance written on an "occurrence" basis, against claims for injuries to persons or damages to property, which may arise from or in connection with the performance of the work hereunder by the Contractor, their agents, representatives, employees or subcontractors.

I. MINIMUM SCOPE OF INSURANCE
   Coverage shall be at least as broad as:
   A. Insurance Services Office Commercial General Liability occurrence form CG 0001 with the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers named as additional insureds, including ISO Additional Insured Endorsement CO 2026, CG 2010; and
   B. Owners and Contractors Protective Liability (OCP) policy with the Village as insured; and
   C. Insurance Service Office Business Auto Liability coverage form number CA 0001 (Ed. 10/90 or newer), Symbol 01 "Any Auto."
   D. Workers' Compensation as required by the Labor Code of the State of Illinois and Employers' Liability insurance.

II. MINIMUM LIMITS OF INSURANCE
   Contractor shall maintain limits no less than:
   A. Commercial General Liability: $1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage. The general aggregate shall be twice the required occurrence limit. Minimum General Aggregate shall be no less than $2,000,000 or a contract specific aggregate of $1,000,000.
   B. Business Automobile Liability: $1,000,000 combined single limit per accident for bodily injury and property damage.

C. Workers' Compensation and Employers' Liability: Workers Compensation coverage with statutory limits and Employers' Liability limits of $1,000,000 per accident.
D. Excess Liability/Umbrella Coverage: $2,000,000 per occurrence and in the aggregate.

III. DEDUCTIBLES AND SELF-INSURED RETENTIONS

Any deductibles or self-insured retentions must be declared to and approved by the Village. At the option of the Village, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions relative to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers; or the Contractor shall procure a bond guaranteeing payment of losses and related investigation, claim administration and defense expenses.

IV. OTHER INSURANCE PROVISIONS

The policies are to contain, or be endorsed to contain, the following provisions:

A. General Liability and Automobile Liability Coverages
   i. The Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers are to be covered as specifically listed additional insureds as respects: liability arising out of the Contractor's work, including activities performed by or on behalf of the Contractor; products and completed operations of the Contractor; premises owned, leased or used by the Contractor; or automobiles owned, leased, hired or borrowed by the Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers.
   ii. The Contractor's insurance coverage shall be primary as respects the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers. Any insurance or self- insurance maintained by the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers shall be excess of Contractor's insurance and shall not contribute with it.
   iii. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers.
   iv. The Contractor's insurance shall contain a Severability of Interests/Cross Liability clause or language stating that Contractor's insurance shall apply separately to each insured against whom the claim is made or suit is brought, except with respect to the limits of the insurer's liability.

v. If any commercial general liability insurance is being provided under an excess or umbrella liability policy that does not "follow form," then the Contractor shall be required to name the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as additional insureds. A copy of the actual additional insured endorsement shall be provided to the Village.

B. Workers' Compensation and Employers Liability Coverage
The insurer shall agree to waive all rights of subrogation against the Village, its officers, officials, trustees, agents, employees and volunteers for losses arising from work performed by Contractor for the municipality.

C. All Coverages
Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the Village Manager at the Village's principle office address.

V. ACCEPTABILITY OF INSURERS
Insurance is to be placed with insurers with a Best's rating of no less than A-, VII and licensed to do business in the State of Illinois.

VI. VERIFICATION OF COVERAGE
Contractor shall furnish the Village with certificates of insurance naming the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers as additional insureds, and with original endorsements affecting coverage required by this clause. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The Contractor's Public Liability Insurance shall be written on the Comprehensive form and shall include Contractual Liability, Products and Completed Operations, and Automobile Liability, all to the limits state above. Comprehensive Liability Insurance shall specifically include coverage for Independent Contractors and for both Hired and Non-Owned Automobiles. The insurance shall apply to all activities including spray-painting operations. The Village reserves the right to request full certified copies of the insurance policies and endorsements.

VII. SUBCONTRACTORS
Contractor shall include all subcontractors as insured under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

VIII. ASSUMPTION OF LIABILITY

The Contractor assumes liability for all injury to or death of any person or persons including employees of the Contractor, any sub-contractor, any supplier or any other person and assumes liability for all damage to property sustained by any person or persons occasioned by or in any way arising out of any work performed pursuant to this contract.

IX. NO PERSONAL LIABILITY

No appointed official, agents, attorneys, employees, volunteers and representatives of the Village or any of its local government members shall be personally liable, in law or in contract, to the Vendor as the result of the execution of this Contract. Notwithstanding any provision in this Contract to the contrary, the operation of this Section 15 shall survive the termination of this Contract.

Law and Venue

This Agreement provides for services to be performed within the State of Illinois. Accordingly, this Agreement, and all questions of interpretation, maintenance and enforcement hereof, and all controversies hereunder, shall be governed by the applicable statutory and common law of the State of Illinois. The parties agree that for the purpose of any litigation relative to this Agreement and its enforcement, venue shall be in the Circuit Court of Cook County, Illinois and the parties consent to the in personam jurisdiction of said Court for any such action or proceeding.

Non-appropriation

All funds for payment by the Village under this contract are subject to the availability of an annual appropriation for this purpose by the Village. In the event of non-appropriation of funds by the Village for the services provided under the contract, the Springs will terminate the contract, without termination charge or responsibility for or obligation to the Contractor or for damages or other liability, on the last day of the then-current fiscal year for the services covered by this contract is spent, whichever event occurs first. If at any time funds are not appropriated for the continuance of this contract, cancellation shall be accepted by the Contractor on thirty days' prior written notice, but failure to give such notice shall be of no effect and the Village shall not be obligated under this contract beyond the date of termination.

Oral Statements

No oral statement of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. All modifications to the contract must be made in writing by the Village of Western Springs in the form of addenda which shall be mailed to all those that have picked up bid specifications and be made available to the public.

Permits, Licenses

The Contractor shall procure and pay for all permits and licenses necessary for the performance of the work, and/or required federal, state, county, and Village regulations and laws.

Protection and Restoration of Property

The Contractor shall take all necessary precautions for the protection of corporate or private property. The Contractor is responsible for the damage or destruction of real or personal property resulting from neglect, misconduct or omission in their manner or method of execution or non-execution of the work, or caused by defective work or the use of unsatisfactory materials, and such responsibility shall not be released until the work shall have been completed, accepted, and the requirements of the specifications complied with as determined by the Village.

Whenever public or private property is so damaged or destroyed, the Contractor shall, at its own expense, restore such property to a condition equal to that existing before such damage or injury was done by repairing, rebuilding or replacing it as may be directed, or he shall otherwise make good such damage or destruction in an acceptable manner. If the Contractor fails to do so, the Village may, after the expiration of a period of 48 hours after giving notice in writing, proceed to repair, rebuild or otherwise restore such property as may be deemed necessary and, in addition to any other remedy, the cost thereof shall be deducted from any compensation due, or which may become due, under the contract.

References

A list of current references for jobs of similar size and scope must be submitted and included with the bid. A minimum of five (5) shall be required. Please fill out reference sheet in the Schedule of Bid Prices section of this document.

Renewal of Contract

This contract is a one-time contract and will conclude upon completion of deliverables. There are renewal options for this contract.

Responsibility for Work

The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

(a) All employees on the work and other persons who may be affected thereby;

(b) All the work and all materials or equipment to be incorporated therein, whether in storage on or off the side; and

(c) Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation, maintenance or replacement in the course of work.

The Contractor shall be responsible for complying with all applicable laws, ordinances, rules, regulations, and orders of any public body having jurisdiction for the safety of

persons or property or to protect them from damage, injury, or loss. The Contractor shall be responsible for erecting and maintaining as required by the conditions and progress of the work, all necessary safeguards for its safety and protection. The Contractor shall notify owners of adjacent utilities when performance of the work may affect them. All damage, injury or loss to any property referred to in paragraph (a) or (b) caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by the Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as all the work is completed and accepted by the Village.

Right to Audit

The Contractor shall maintain such financial records and other records as may be prescribed by the Village of Western Springs or by applicable federal and state laws, rules, and regulations. The Contractor shall retain these records for a period of five years after final payment, or until they are audited by the Village, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Village, its designees, or other authorized bodies.

Severability

In the event any term or provision of this Contract shall be held illegal, invalid, unenforceable or inoperative as a matter of law, the remaining terms and provisions of this Contract shall not be affected thereby, and each such term and provision shall be valid and shall remain in full force and effect.

Smoking Policies

All Contractors, their subcontractors, employees and agents are required to abide by the smoking policies in effect in all municipal buildings owned, leased, or operated by the Village. Failure to abide by these regulations is a violation of this contract; and in addition may subject the violator to civil penalties as prescribed in State law.

Successors/Assigns

This Contract shall inure to the benefit of and shall be binding upon the transferees, assigns, representatives, owners, insurers, agents, servants, employees, administrators and/or successors in interest of any kind whatsoever of the parties hereto. This Contract and the obligations it impose upon the Contractor are not transferable by Contractor without the written consent of the Village, which may or may not be granted in its exclusive discretion.

Taxes, Benefits and Royalties

The Village of Western Springs is a public body and is exempt from all sales, excise and use taxes and the Village shall supply its sales tax number to the Contractor for its use where appropriate. Each payment by the Village to the Vendor includes all applicable Federal, State and local taxes, fees, surcharges, license fees and tariffs of every kind and nature applicable to the Work, as well as all taxes, contributions, premiums, costs,

royalties and fees arising from the use of, or the incorporation into, the Work of patented or copyrighted equipment, materials, supplies, tools, appliances, devices, processes or inventions. All claims or rights to claim additional compensation by reason of the payment of any such tax, contribution, premium, cost, royalty or fee are hereby waived and released by the Vendor.

Termination

If the contract is terminated by a default of the Contractor the Village shall pay the Contractor any amount due for actual, completed and accepted work, and the Village shall not be obligated to pay the Contractor any more money.

Unnecessarily Elaborate and Unresponsive Submittals

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to the solicitation are not desired and may be construed as an indication of the bidder's lack of responsiveness. Further, if the format of the bidder's submittal is prescribed in the bid documents and the bidder fails to follow that format, this may be construed as an indication of the bidder's lack of responsiveness.

Waivers of Lien

The Village requires for each application for payment a properly completed Contractor's Affidavit setting out, under oath, the name, address and amount due or to become due, of each subcontractor, vendor or party included in that payment. For every party listed, the Contractor shall also provide a full or partial waiver of lien, as appropriate, before a payment will be made to the Contractor. The Contractor's partial or final waiver of lien must be included. Payment Certificates shall not be issued without such mechanics' lien waivers and Contractor's sworn statements unless they are conditioned upon receipt of such waivers and statements.

If the rate of progress is satisfactory to the Village, payment requests will be submitted by the Vendor to the Village once a month during the progress of the Work for ninety percent (90%) of the value of the work done and in place at the date of the preparation of the payment estimate. Payment will be made to the Vendor once all required waivers of lien for material suppliers and subcontractors have been submitted to the Village. The waivers of lien will be for the amount of the current payment estimate, except for the final estimate where the waivers of lien shall be for the total contract amount. Pursuant to the provisions of Section 5 of the Mechanics' Lien Act of Illinois, prior to making any payment on this Contract the Village demands that the Vendor furnish a written statement of the names of all parties furnishing labor and/or materials under this Contract and the amounts due or to become due on each. This statement must be made under oath or be verified by an affidavit. Final payment shall not be issued by the Village nor shall any retained percentage become due until releases and waivers of lien have been supplied as the Village designates.

The Contractor will indemnify and save the Village, its officers, appointed and elected officials, president and trustees, agents, employees, attorneys and volunteers harmless from all claims growing out of the lawful demands of subcontractors, laborers, workers,

mechanics, material men, and furnishers of machinery and parts thereof, equipment, tools, and all supplies, incurred in the furtherance of the performance of the work. The Contractor shall, at the Village's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so the Village may, after having notified the Contractor, withhold from the Contractor's unpaid compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed in accordance with the terms of the contract documents.

The Village shall have the right to enter the premises for the purposes of doing work not covered by the contract. This provision shall not be construed as relieving the Contractor of the sole responsibility for the care and protection of the work, or the restoration of any damage work except such as may be caused by agents or employees of the Village.

Contractor's Drug-Free Workplace Certification

Pursuant to Illinois Compiled Statutes, Chapter 30, Act 580 et. seq. ("Drug-Free Workplace"), the undersigned Contractor hereby certifies to the contracting agency that it will provide a drug-free workplace by:

(A) Publishing a statement:

(1) Notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, including cannabis, is prohibited in the grantee's of Contractor's workplace.

(2) Specifying the actions that will be taken against employees for violations of such prohibition.

(3) Notifying the employee that, as a condition of employment on such contract or grant, the employee will:

(a) Abide by the terms of the statement; and

(b) Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction.

(B) Establishing a drug free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's or Contractor's policy of maintaining a drug-free workplace

(3) Any available drug counseling, rehabilitation, and employee assistance program; and

(4) The penalties that may be imposed upon employees for drug violations.

(C) Making it a requirement to give a copy of the statement required by subsection (a) to each employee engaged in the performance of the contract or grant and to post the statement in a prominent place in the workplace.

(D) Notifying the contracting agency within ten (10) days after receiving notice under part (b) of paragraph (3) of subsection (a) from an employee or otherwise receiving actual notice of such conviction.

(E) Imposing a sanction on, or requiring the satisfactory participation in a drug assistance or rehabilitation program by any employee who is so convicted, as required by Illinois Compiled Statutes, Chapter 127, Act 580, Paragraph 5.

(F) Assisting employees in selecting a course of action in the event drug counseling treatment and rehabilitation is required and indicating that a trained referral team is in place.

(G) Making a good faith effort to continue to maintain a drug-free workplace through implementation of this Section.

Failure to abide by this certification shall subject the Contractor to the penalties provided in Illinois Compiled Statutes, Chapter 30, Act 580, Paragraph 6.

Contractor's Certification Regarding Non-Payment of Compensation

Mike Bramucci hereby certifies that neither it nor any of its affiliated companies, nor any of its agents, employees or representatives offered or paid any type of compensation or commission to any third party, including any official of the Village of Western Springs, Illinois, to influence the Village of Western Springs.

Contractor

DATED: 12/17/25

ATTEST:

EXCEPTIONS TO THIS BID (THIS PAGE MUST ACCOMPANY BID)

Exhibit A

Agreement

This Agreement (the "Agreement") made this the 22 day of **December** in the year **2025** by and between the Village of Western Springs, Illinois, 740 Hillgrove Avenue, Western Springs, Illinois, 60558 (the "Village") and Advanced Tree Care, Inc. (the "Contractor"). The Village and the Contractor are at times referred herein, individually, as the "Party" and, collectively, as the "Parties".

The Village and Contractor agree as set forth below:

1. For the financial consideration hereinafter set forth, the Contractor agrees to furnish and provide and install all commercially necessary labor, materials, equipment and services and to do all other activities commercially required (the "Work") to complete the 2026 Village Tree Inventory as set forth in the contract requirements, a copy of which is attached here to as exhibit 1 dated December 4, 2025 and as agreed to in the Contractor's Proposal dated December 22, 2025.

2. The Contractor agrees to commence the Work on or after **May 1,** and will officially, diligently, and expeditiously conduct the Work in a commercially reasonable manner so as to assure completion by **October 31.**

3. The Village shall pay the Contractor for the performance of the Work to complete 2026 Village Tree Inventory RFB a total dollar amount not to exceed Thirty-two and 800/100 THOUSAND AND NO/100 DOLLARS ($32,800) in accordance with the Contractor's Proposal dated **December 22, 2025,** subject to further additions and deductions as may be agreed upon in accordance with the terms of the contract documents. Payment shall be made monthly however, the financial payments and any penalties associated with late payments due under the Contract shall be paid by the Village only in accordance with the provisions of the Local Government Prompt Payment Act (50 ILCS 505/).

4. The Contractor represents and warrants that it will comply with the applicable state and federal laws concerning prevailing wage rates and all applicable state and federal laws and requirements concerning equal opportunities.

5. This Agreement shall consist of, incorporate and include each of the following contract documents, whether attached hereto or incorporated by reference herein:

    A. Legal Notice (Advertisement for Bid) published on **December 4, 2025.**

B. Instructions to Bidders dated **December 4, 2025.**

C. Contractor's Proposal dated **December 22, 2025.**

D. Contractor's bid bond submitted by 12/22/26 in the amount of $10% of Bid amount dated **December 22, 2025.**

E. General Specifications and all additional provisions **December 22, 2025.**

F. Contractor's Drug Free Workplace Certification dated **December 22, 2025.**

G. Contractor's Certification Regarding Non-Payment of Compensation dated **December 22, 2025.**

H. Exhibit B - Contractor certifications including Certification of Eligibility to Enter into Public Contracts.

I. Exhibit C – Change Order Form

J. Required Performance and Payment Bonds provided by the Contractor.

K. Required Insurance Certificates provided by the Contractor.

L. Rider to Contract- General Conditions

6. Notice to Proceed With the Work. The Vendor shall commence work under this Contract upon issuance of written Notice to Proceed and the duration of the contract shall be one year or as otherwise stated with a completion date.

7. Independent Contractor Status; Reporting. The Vendor is an IRS Form 1099 independent contractor and not an employee of the Village. To comply with the employer reporting requirements of Public Act 103-0343 (amendments to the Illinois Unemployment Insurance Act regarding the Directory of New Hires, 820 ILCS 405/1801.1), upon execution of this Contract, the Village shall submit the Vendor's name and required information to the Illinois Department of Employment Security.

8. Effective Date. After this Contract has been signed by the Vendor, this Contract shall be deemed dated and become effective on the date that the Village President or the Village Manager signs this Contract.

All of the contract documents are a part of this Agreement as if attached hereto or repeated herein.

IN WITNESS WHEREOF, the signatories below, pursuant to properly issued authority, have signed this Contract, which shall become effective on the date that the Village President or Village Manager signs this Contract.

Exhibit B

CERTIFICATION OF ELIGIBILITY TO ENTER INTO PUBLIC CONTRACTS BY THE CONTRACTOR

I, Mike Bramucci, having being first

duly sworn, depose and state that I am the

President

(insert "sole owner "partner", "president"," other" proper title)

and the authorized agent of Advanced Tree Care, INC, which has submitted a proposal to, and is entering into a contract with, the Village of Western Springs for the performance of work in relation to the 2026 Village Tree Inventory RFB Project in the Village of Western Springs, and certifies on behalf of said company as follows:

1. The company is not barred from contracting with the Village as a result of a violation of either Section 33E-3, or 33E-4 of the Illinois Criminal Code, or of any similar offense of "bid-rigging" or "bid-rotating" of any state or of the United States.

2. The company shall comply with all applicable provisions of the Illinois Human Rights Act and has a written sexual harassment policy in full compliance with that Act.

3. The company is not delinquent in the payment of any tax administered by the Illinois Department of Revenue or,

   a. is contesting such liability or the amount of tax in accordance with procedures established by the appropriate revenue act, or

   b. has entered into an agreement with the Department of Revenue for payment of all taxes due and is in compliance with that agreement.

   c. Not in default, as defined in 5 ILCS 385/2, on an educational loan, as defined in 5 ILCS 385/1.

4. In compliance with the Veterans Preference Act (330 ILCS 55/).

5. In compliance with equal employment opportunities and, during the performance of the Agreement, the Contractor shall:

   a. Not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
   b. If it hires additional employees in order to perform the Agreement or any portion hereof, it will determine the availability (in accordance with the Illinois Department

of Human Right's Rules and Regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

c. In all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.

d. Send to each labor organization or representative of workers, with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations. If any such labor organization or representative fails or refuses to cooperate with the Contractor in its efforts to comply with such Act and Rules and Regulations, the Contractor will promptly so notify the Illinois Department of Human Rights and the VILLAGE and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

e. Submit reports as required by the Illinois Department of Human Rights, Rules and Regulations, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and the Department's Rules and Regulations.

f. Permit access to all relevant books, records, accounts, and work sites by personnel of the contracting agency and the Illinois Department of Human Rights for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and the Department's Rules and Regulations.

g. Not maintain or provide for its employees any segregated facilities at any of its establishments, and not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. As used in this section, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color or national origin because of habit, local custom or otherwise.

6. In compliance with 775 ILCS 5/2-105(A)(4) by having in place and enforcing a written sexual harassment policy.

7. In agreement that, in the event of non-compliance with the provisions of this certification relating to equal employment opportunity, the Illinois Human Rights Act or the Illinois Department of Human Rights, Rules and Regulations, the Contractor may be declared ineligible for future contracts with the VILLAGE, and the Agreement may be canceled or voided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

8. In compliance with the requirements of 30 ILCS 580/ (Drug Free Workplace Act).

9. The Contractor and its officers, employees and agents agree not to commit unlawful discrimination and agree to comply with all applicable provisions of the Illinois Human Rights Act, Title VII of the Civil Rights Act of 1964, as amended, the Americans with Disabilities Act, the Age Discrimination in Employment Act, Section 504 of the Federal Rehabilitation Act, and all applicable rules and regulations. The Contractor certifies that it is an "Equal Opportunity Employer" as defined by federal and State laws and regulations, and agrees to comply with the Illinois Department of Human Rights ("IDHR") Equal Opportunity Employment clause as required by the IDHR's Regulations (44 III. Adm. Code, Part 750, Appendix A). As required by Illinois law and IDHR Regulation, the Equal Opportunity Employment clause is incorporated by reference in its entirety as though fully set forth herein. The Contractor certifies that it agrees to comply with the Prohibition of Segregated Facilities clause, which is incorporated by reference in its entirety as though fully set forth herein. See, Illinois Human Rights Act (775 ILCS 5/2-105). See also, Illinois Department of Human Rights Rules and Regulations, Title 44, Part 750. Administrative Code, Title 44: Government Contracts, Procurement and Property Management, Subtitle B: Supplemental Procurement Rules, Chapter X: Department of Human Rights, Part 750: Procedures Applicable to All Agencies, Section 750.160: Segregated Facilities (44 III. Adm. Code 750.160)

2026 TREE INVENTORY UPDATE RFB

Addendum 1 – December 16, 2025

1. The bid documents specify that all data collection must be completed by "Illinois ISA Certified Arborists." Can you confirm if ISA Certified Arborists (CA) are acceptable?
   Yes, the Village will accept ISA Certified Arborists from any state.

2. Would you please clarify whether a performance bond is required for this project?
   A performance bond in the full amount of the bid proposal is required.

3. Due to the relatively short time that would be required to complete this project, would the Village be willing to waive the performance bond requirement if a company does not collect any payment until the project is completed and delivered in full?
   The Village will not waive any bond requirements.

4. The RFB states that bidders will be required to comply with all applicable laws including those relating to the employment of labor and the Illinois Prevailing Wage Act and payment of the applicable prevailing wage, however there is no prevailing wage category for arborist consulting services. Would you please verify whether prevailing wage will be required for this project?
   Bidders are responsible for confirming if they are required to pay prevailing wage, the Village does not handle any documentation related to prevailing wage. The Village requires any applicable projects that may fall under prevailing wage to be paid at prevailing wage rates.

5. Does the 8,200 tree estimate listed on page 10 include open planting spaces? If not, will the collection of open planting spaces be required for this project?
   The collection of open planting spaces is not required.

6. The data collection parameters on pages 14-16 do not appear to correlate with the Geospatial Data Point Fields in Appendix A (page 46). Would you please clarify, with specificity, what data fields will be required to be collected for this project?
   The required data fields for collection are found on page 46.

7. Would the Village be open to accepting a proposal that would allow custom data collection parameters that would better suit the needs of the Village?
   Bidders are welcome to provide alternate proposals if they wish; however, the Village does not guarantee any alternates will be approved.

8. Would the Village be open to accepting a proposal for new data collection for this project rather than updating existing data?
   The Village would be willing to entertain new data collection; however, all trees must maintain their Asset Names.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 11.A.

To: Board of Trustees
From: Daisy Chavez, Assistant to the Village Manager
CC: Casey Biernacki, Deputy Village Manager, Ellen Baer, Village Manager
RE: [Previously discussed] Greenest Region Compact Resolution (Omnibus Item)

Recommendation

The Public Health and Safety Committee reviewed this item at their meeting on January 7, 2026 and recommended to the Village Board the approval of the Greenest Region Compact for the Village of Western Springs.

Summary

The Metropolitan Mayors Caucus Greenest Region Compact (GRC), promotes sustainability in communities around the Chicago region with an emphasis on building strong and vibrant communities. The GRC is composed of 49 high-level goals that have been reached by consensus. These goals address the following ten (10) categories: climate, economic development, energy, land, leadership, mobility, municipal operations, sustainable communities, water, waste and recycling. The GRC guides municipalities towards sustainable goals and actions and encourages communities to work together to create a sustainable region. It aligns community priorities, builds on existing best practices, and capitalizes on the collective expertise of community leaders in the metropolitan region. To date, 165 communities have adopted the GRC to improve sustainability plans. Municipalities adopt the GRC by resolution, agreeing to work to achieve sustainability goals.

Municipalities are not required to achieve every goal in the GRC. Instead, the goals provide a framework and direction in common areas of municipal sustainability accomplishments. The GRC framework was created for municipalities to use as a checklist to record progress and achievements. In preparing for this meeting, a working group, comprised of Village of Western Springs staff from all departments, completed a customized Western Springs framework with completed, in-progress, and future sustainable initiatives. Future initiatives will be noted and discussed with appropriate Board Committees or, for larger initiatives, at future Strategic Planning sessions. At this time, there is no reporting requirement or specific project timeline with the Metropolitan Mayors Caucus. Projects are prioritized and monitored by municipalities to suit their own objectives and there is no cost to adopt the GRC.

Financial Impact

None.

Recommended Motion

I move to approve a resolution to adopt the Greenest Region Compact for the Village of Western Springs.

Strategic Plan Alignment

- Public Safety and Community Engagement
- Financial Sustainability

1. GRC Collaborating for Sustainable Communities
2. Resolution Approval and Endorsement of the Greenest Region Compact

GRC2 Greenest Region Compact

COLLABORATING FOR SUSTAINABLE COMMUNITIES

The member municipalities of the Metropolitan Mayors Caucus seek a vibrant, sustainable future for their communities and the greater Chicago region. The consensus goals of the Greenest Region Compact aim for enhanced quality of life for residents; protection and stewardship of the environment and sustainable economic vitality.

To become the most sustainable and successful region in the United States, they, therefore, support the following consensus goals of the Greenest Region Compact and agree to work to achieve them, both in their own communities and in collaboration throughout the region:

Climate

- Reduce greenhouse gas emissions
- Maintain clean and healthful air
- Develop resiliency to climate change impacts
- Engage the community in climate change mitigation and adaptation

Economic Development

- Promote innovation and a competitive workforce
- Cultivate local and sustainable development, jobs, and businesses

Energy

- Use energy for buildings and facilities efficiently
- Advance renewable energy
- Reduce energy consumption
- Enact policies that support clean energy
- Engage the community in clean energy practices

Land

- Encourage strategic development that upholds sustainability principles
- Conserve, restore and enhance natural features and ecosystems
- Support networks of accessible, well-used, and enjoyable parks
- Sustain a robust urban forest canopy
- Sustain beautiful landscapes that provide ecosystem services
- Achieve greater livability through sustainable land use and housing policies
- Cultivate a conservation ethic in the community

Leadership

- Enlist support for GRC2 goals through regional, state and national leadership
- Advocate for policies that align with and advance the GRC2
- Work collaboratively towards a sustainable region

Mobility

- Support safe and effective active transportation
- Maintain a diverse, safe, and efficient transportation network
- Support efficient transportation that uses resources wisely
- Integrate sustainability into transportation policies, programs, and regulations
- Promote public and sustainable transportation choices

Municipal Operations

- Lead by demonstrating sustainable values and practices
- Integrate sustainability into all municipal operations
- Operate a safe, clean and efficient fleet
- Collect and manage data to advance sustainability

Sustainable Communities

- Promote cultural vibrancy in the community
- Foster a culture of health, safety, and wellness
- Increase access to sustainably grown local food
- Sustain community principles that are welcoming, inclusive and equitable
- Promote a sustainable identity for the community
- Ensure local policies and codes support sustainability
- Cultivate community values based on principles of sustainability

Waste & Recycling

- Support sustainable material management
- Recycle materials across all sectors
- Divert waste from landfills
- Enact policies that cause sustainable material management
- Engage the community in waste reduction and recycling

Water

- Use and distribute water efficiently
- Protect and improve and water quality
- Manage water system assets sustainably
- Optimize the use of natural and built systems to manage stormwater
- Practice stewardship of water resources
- Enact policies to protect water resources
- Engage the community in water stewardship

Draft 1.22.26
RESOLUTION NO. 2026-XXXX

A RESOLUTION APPROVING AND ENDORSING THE METROPOLITAN MAYORS CAUCUS' GREENEST REGION COMPACT

VOTE: _____
AYES: _____
NAYS: _____
ABSENT: _____
ABSTAIN:_____
DATE: January 26, 2026
OTHER: _____

WHEREAS, the Metropolitan Mayors Caucus provides a forum for the chief elected officials of the Chicago region to develop consensus and act on common public policy issues and multi-jurisdictional challenges; and

WHEREAS, the Metropolitan Mayors Caucus' participating Mayors and their communities have a history of environmental stewardship, from energy efficiency, water conservation, urban forestry, and participation in Clean Air Counts; and

WHEREAS, it is important for Mayors and local governments throughout the United States to take leadership roles to advance sustainability both in their own communities and in concert with regional, national and global initiatives; and

WHEREAS, the Metropolitan Mayors Caucus created the Greenest Region Compact to address environmental sustainability issues of global importance at the local level; and

WHEREAS, the Greenest Region Compact, an update to the original pledge and sometimes referred to as the Greenest Region Compact 2, is built on important environmental initiatives already underway in communities, in partnership with many non-profit, state, regional and national organizations; and

WHEREAS, the Greenest Region Compact synthesizes sustainability goals already adopted by leading communities in the region; and these consensus goals align with common regional, state, national and global objectives; and

WHEREAS, the Greenest Region Compact offers a companion Framework to guide communities of all sizes and strengths to assess their current efforts; develop a sustainability plan suited to local priorities; and will offer resources to help them succeed; and

WHEREAS, the consensus goals of the Greenest Region Compact will guide coordinated efforts toward enhanced quality of life for residents; protection and stewardship of the environment and sustainable economic vitality.

WHEREAS, at an open public meeting held on January 7, 2026, the Village's Public Health and Safety Committee ("Committee") reviewed and discussed the Greenest Region Compact and received input from Village staff and provided an opportunity for input to the public. At its January 7, 2026 meeting, the Committee voted unanimously to recommend that the Village Board approve the

Compact; and

WHEREAS, on January 12, 2026 and January 26, 2026, the President and Board of Trustees of the Village reviewed and discussed the Greenest Region Compact and the Committee's recommendation, received input from the Village staff, and provided an opportunity for input from the public. At its January 26, 2026 Regular meeting, the Village Board accepted the Committee's recommendation to approve and endorse the Compact; and

WHEREAS, the President and Board of Trustees of the Village of Western Springs have the authority to approve and adopt the Plan pursuant to Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) of the 1970 Illinois Constitution and the applicable provisions of the Illinois Municipal Code (65 ILCS 5/), have reviewed the Greenest Region Compact and find that the approval and adoption of the Compact is in the best interests of the Village of Western Springs, its residents, property owners, businesses and the public.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Incorporation. Each Whereas paragraph above is incorporated by reference into this Section 1 and made a part hereof as material and operative provisions of this Resolution.

SECTION 2. Approval and Endorsement of the Compact. The President and Board of Trustees of the Village of Western Springs approve and endorse the Greenest Region Compact proposed by the Metropolitan Mayors Caucus and agrees to work to achieve them, both in their own communities and in collaboration throughout the region.

SECTION 3. Effective Date. This Resolution shall be in full force and effect from and after its approval and adoption in the manner provided by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as President, and attested by the Village Clerk, on the same day.

_____
Heidi Rudolph, Village President

ATTEST:

_____
Edward Tymick, Village Clerk

STATE OF ILLINOIS)
) SS
COUNTY OF C O O K)

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that attached hereto is a true and correct copy of the Resolution now on file in my office, entitled:

RESOLUTION NO. 26-_____

A RESOLUTION APPROVING AND ENDORSING THE METROPOLITAN MAYORS CAUCUS' GREENEST REGION COMPACT

which was passed by a roll call vote of the Village President and Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 26th day of January, 2026, at which meeting a quorum was present, and approved by the President of the Village of Western Springs on the 26th day of January, 2026.

I further certify that the vote on the question of the passage of the said Resolution by the Village President and Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Village President and Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Resolution, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs this ____ day of January 2026.

_____
Edward Tymick, Village Clerk

[Seal]

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 11.B.

To: Board of Trustees
From: Casey Biernacki, Deputy Village Manager
CC: Ellen Baer, Village Manager, Jeff Koza, Director of Engineering Services, Matthew Supert, Director of Municipal Services
RE: Presentation of the Safe Routes to School Village-Wide Travel Plan

Recommendation

Presentation only.

Summary

In 2024, the Village was awarded a Safe Routes to School grant, totaling $75,000, to develop a Village-wide school travel plan. Epstein was chosen as the Village's consultant after a Request for Qualifications (RFQ) process. The grant was awarded by the Illinois Department of Transportation (IDOT) and no Village match was required. The plan is substantially complete and Epstein will be at the January 26, 2026 Board Meeting to present the results.

The plan provides solutions to improve walking and biking opportunities and awareness for students. This includes short-term and long-term improvements and policy recommendations for staff and the Village Board to consider. The study will include D101 (Forest Hills, Field Park, McClure, and Laidlaw), D106 (La Grange Highlands), LTHS (North and South), and St. John of the Cross. Improvements are expected to include sidewalk installation/reconfigurations, intersection safety improvements, bike safety considerations, right-of-way and drop-off improvements, and more.

Project Highlights

Epstein will provide a thorough overview of the plan, public input process, infrastructure/policy recommendations, and more at the Board Meeting. Highlights to note are:

- Two (2) Public Surveys
    - Survey #1 had 448 responses focused on safety, new sidewalks, and enforcement.
    - Survey #2 had 279 responses focused on new infrastructure elements.
- 70+ community members engages at Touch-a-Truck and Gathering on the Green
- Six (6) walk audits during school drop-off and pick-up hours.
- Established Steering Committee with D101 and D106 representation, community members, and staff.

- 50+ infrastructure recommendations
    - FY2026 budget includes design engineering funds for sidewalk infill projects in Old Town North and Forest Hills
- Three (3) recommended policy considerations

Financial Impact

None.

Recommended Motion

None.

Strategic Plan Alignment

- Infrastructure Improvements
- Community Planning and Economic Development
- Public Safety and Community Engagement

SOURCE: EPSTEIN

PURPOSE

The Western Springs Safe Travel to School Plan aims to improve safety for students walking and biking to school and encourage more walking and biking where safety is not a barrier.

This plan was funded through Illinois' Safe Routes to School (SRTS) program. SRTS uses a multidisciplinary approach to improve conditions for the walk or bike to school. Per the Illinois Department of Transportation (IDOT), the program has three (3) main goals:

1. Enable and encourage children, including those with disabilities, to walk and bicycle to school;

2. Make bicycling and walking to school a safer and more appealing transportation alternative, thereby encouraging a healthy and active lifestyle from an early age; and

3. Facilitate the planning, development, and implementation of projects and activities that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity (within two (2) miles) of primary, middle, and high schools (grades K-12).

Focusing on the schools and districts that serve Western Springs will create a safer bicycle and pedestrian network for students and community members alike. A network that is safer and more accessible for students is a network that is safer and more accessible for all people.

For more information, please visit the Illinois Safe Routes to School program website.

Methodology

To comprehensively address obstacles and create solutions, SRTS utilizes six (6) basic program components, known as the "Es", as shown in **Figure 1**. Recommendations will be organized by each component to ensure a multi-faceted analysis of and approach to safer streets. However, many recommendations overlap with multiple program components.

SOURCE: EPSTEIN

STRATEGY

The Safe Travel to School Plan's public engagement strategy prioritized listening to residents and learning about their experiences and leveraging community partners. Offering different engagement opportunities, both in-person and online, allowed for flexible participation and for more people to share their experiences and contribute to the plan. The community's input helped develop and fine-tune recommendations to ensure students can get to and from school safely by meeting their biking, walking, and rolling needs.

This plan had two (2) phases of public engagement: one (1) during the Spring 2025 semester (March to June) and the other during the Fall 2025 semester (July to October). During these phases, public engagement activities included two (2) surveys, an interactive online map, six (6) walk audits, two (2) pop-ups at community events, and a Bike and Walk to School Day.

By implementing this multifaceted approach, the project team collected a diverse range of ideas, concerns, and experiences regarding Western Springs' existing bicycle and pedestrian network and what it could become.

IMAGE 6: WALK AUDIT

ENCOURAGEMENT IN ACTION

LOCAL GIVEAWAYS

The Village of Western Springs hosted Bike and Walk to School Day on September 25, 2025, with students from McClure Junior High. Starting from Spring Rock Park, **over 30 students** biked and walked to school together. To encourage participation, the Village partnered with BB's Donuts, a local business and favorite of McClure students, to provide discount coupons to bikers and walkers, as well as treat bags that included a QR code to the survey, bike light, reflective tape, and bike-themed pencils.

Field Park Elementary School

Walk (and bike) this way, Western Springs!

The recommendations in this plan are largely informed by community input. A network that is safe for students to walk and bike to school is a network that is safe for all.

86

Locations pinned on the digital interactive map. Most responses noted feelings of unsafety when walking, biking, or rolling and the need for safety improvements. Most pins were placed on 47th Street, Prospect Avenue, Central Avenue, and Wolf Road.

Highlands Elementary/Middle School

99	**Safety**
64	**Sidewalks**
31	**Infrastructure**
30	**Enforcement**

Safety was the most mentioned concern in the open response questions from Survey #1.

70+

Community members engaged through pop-up events at Touch-a-Truck and Gathering on the Green.

6

Walk audits were conducted during school drop-off and pick-up hours.

Forest Hills Elementary School

448

completed responses gathered from Survey #1.

"We would love to walk and bike/ scooter with my children to school and eventually let them go independently, but with the lack of sidewalks... and the unsafe speed of cars... it's completely unsafe."
Survey Respondent

Public Engagement Timeline (2025)

- **March** Steering committee meeting #1
- **April** Survey #1 launches & walk audit
- **May** Walk audits
- **June** Touch-a-Truck & Gathering on the Green pop-ups
- **July** Survey #2 launches
- **August** Steering committee meeting #2
- **September** Walk audit & Bike and Walk to School Day
- **November** Walk audit & steering committee meeting #3

John Laidlaw Elementary School

Walk and roll, Western Springs!

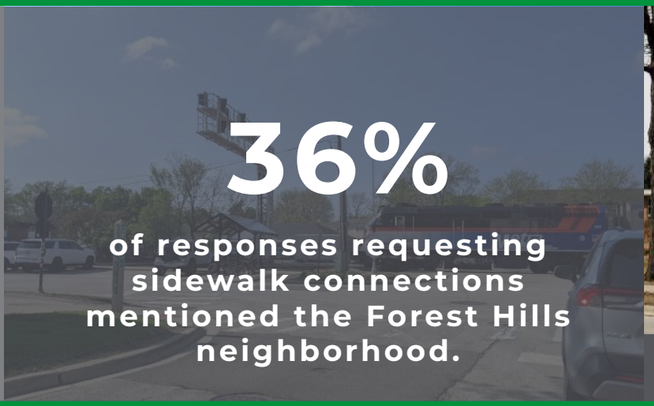

Survey respondents want to walk and roll throughout Western Springs on a complete sidewalk network supplemented by safer crossings.

41%

of responses requesting high-visibility crosswalks mentioned Wolf Road.

McClure Junior High School

36%

of responses requesting sidewalk connections mentioned the Forest Hills neighborhood.

Lyons Township High School

285 Sidewalks

249 High-Visibility Crosswalks

243 Intersection Markings

198 Crossing Signs

Top infrastructure preferences from Survey #2: "These would be a good or great fit!"

30+

Students attended Bike and Walk to School Day, along with school staff and the Village Police Department.

279

completed responses gathered from Survey #2.

Here's what survey respondents had to say:

- “Pedestrian and bike safety ranks much higher than auto convenience.”
- “A bike lane is good but may only serve experienced riders, as kids will gravitate towards riding on the sidewalks.”
- “The most important sidewalk connections are at major intersections, not within neighborhoods. Please focus efforts in areas where kids cross the tracks or high traffic streets.”

See the Appendices for all survey responses.

“Anything that makes the town more pedestrian friendly will improve the quality of life for residents.”

Survey Respondent

WALK AUDITS

To gain a better understanding of the existing conditions at the schools in the study area, the project team conducted walk audits at six (6) schools throughout the project. The walk audits engaged principals, teachers, and parents at each school.

On April 28, 2025, the project team conducted a walk audit at Forest Hills Elementary School during pick-up hours in the afternoon. Key concerns both heard and observed included:

- **Sidewalk Gaps**: Sidewalk gaps make it difficult for students to walk to school or get to their school bus stop.
- **Crossings**: Marked crossings are either in poor condition or do not exist (e.g., 47th Street and Central Avenue). Also, some intersections do not have crossing guards and could potentially benefit from their addition.
- **Informal or Temporary Traffic Rules**: Informal crossings and temporary one-ways may be unintentionally ignored by people unfamiliar with the area, as these notices are not visibly posted, which decreases safety for students walking and biking.

On May 5, 2025, the project team conducted a walk audit at Highlands Elementary School and Highlands Middle School during pick-up hours in the afternoon. Key concerns both heard and observed included:

- **Unsafe Speeds**: Drivers exceed posted speeds on major roads, creating unsafe conditions for students walking and biking.
- **Congestion**: During drop-off and pick-up, the influx of cars creates a lot of back-up and congestion on roads surrounding the school.
- **Intersection Safety**: There can be improvements to lengthen crossing time for students at intersections, as well as improvements to signal timing to reduce backups in traffic on Wolf Road.
- **Visibility Issues**: Due to overgrown landscaping, e.g. at 57th Street and Howard Avenue, drivers have difficulty seeing students at intersections.
- **Sidewalk Gaps**: Students are forced to walk in bike lanes or in the street where there are sidewalk gaps.

On May 30, 2025, the project team conducted a walk audit at Field Park Elementary School during drop-off hours in the morning. Key concerns both heard and observed included:

- **Parking**: There are issues of drivers double parking, parking too close to intersections, and parking in bus-only areas, creating disorder and limiting visibility for students walking and biking.
- **Signage**: Poor signage or a lack of signage leads to wayfinding issues for people navigating to and from the school, or in the area.
- **Driver Compliance**: Drivers who do not comply with posted speeds, crossing guards, or parking restrictions create an unsafe environment for students walking and biking.

On September 10, 2025, the project team conducted a walk audit at Laidlaw Elementary School during pick-up hours in the afternoon. Key concerns both heard and observed included:

- **Traffic**: More frequent traffic along Oak Street due to changes to access onto Ogden Avenue and construction detours. Discussions with Western Springs staff determined this traffic increase is likely temporary, but the location can continue to be monitored to determine if the trend is ongoing.

On November 6, 2025, the project team conducted a walk audit at Lyons Township High School South campus during drop-off hours in the morning. Key concerns observed included:

- **Crossings**: There is no pedestrian infrastructure for crossing from residential streets across 47th Street to Bennett Field, e.g. Howard Avenue, Clausen Avenue, and Harvey Avenue.
- **Inefficient, Stressful Routes**: Students must walk to 47th Street and Gilbert Avenue or 47th Street and Wolf Road to cross safely.
- **Unsafe Speeds**: Many drivers exceed the speed limit on 47th Street, creating unsafe conditions for students walking and biking.

Overarching themes from the walk audits included:

- **Pick-Up/Drop-Off Procedures**: Designate temporary one-ways and redesign parking lots to facilitate more efficient and effective pick-up/drop-off procedures through clearly posted signage.
- **Sidewalk Gaps**: Eliminate sidewalk gaps to ensure safe routes for students walking and getting to the bus.
- **Crossings**: Ensure safe crossings at major intersections near the schools. School staff and parents showed support for raised crosswalks, pedestrian refuge islands, rectangular rapid flashing beacons (RRFBs), and additional crossing guards.

Concerns, suggestions, and observations collected during the walk audits were strongly weighted during the development of recommendations to ensure they best reflect the needs of Western Springs' students and community members.

EQUITY IN ACTION

ALL-SCHOOL PARTICIPATION

To gain a better understanding of the existing conditions at the schools in the study area, the project team conducted walk audits at six (6) schools throughout Western Springs. Village-wide surveys were also promoted by school staff and the Village to ensure broad participation. Between the walk audits and the surveys, this Safe Routes to School Plan represents perspectives from every school within the Western Springs study area.

03

EXISTING CONDITIONS

IMAGE 8: PEDESTRIAN CROSSING
SOURCE: EPSTEIN

STUDY AREA

The study area consists of the Village of Western Springs and the schools that serve its residents. Western Springs is bounded by Ogden Avenue to the north, Willow Springs Road/Gilbert Avenue to the east, Plainfield Road to the south, and I-294 to the west. See the adjacent map for Village and district boundaries and each school's location. The following schools are included in the Village of Western Springs Safe Travel to School Plan:

Western Springs School District 101

Type: Public
Enrollment: ~ 1,400
Grades: K – 8th
Coverage: Western Springs
Student/Teacher Ratio: 16:1
Schools:

- *Field Park Elementary School* (4335 Howard Avenue Western Springs, IL 60558)
- *Forest Hills Elementary School* (5020 Central Avenue Western Springs, IL 60558)
- *John Laidlaw Elementary School* (4072 Forest Avenue Western Springs, IL 60558)
- *McClure Junior High School* (4225 Wolf Road Western Springs, IL 60558)

LaGrange Highlands District 106

Type: Public
Enrollment: ~ 1,000
Grades: Pre-K – 8th
Coverage: Countryside, Indian Head Park, La Grange, Western Springs
Student/Teacher Ratio: 16:1
Schools:

- *LaGrange Highlands Elementary School* (5850 Laurel Avenue, La Grange, IL 60525)
- *LaGrange Highlands Middle School* (1850 Plainfield Road, La Grange, IL 60525)

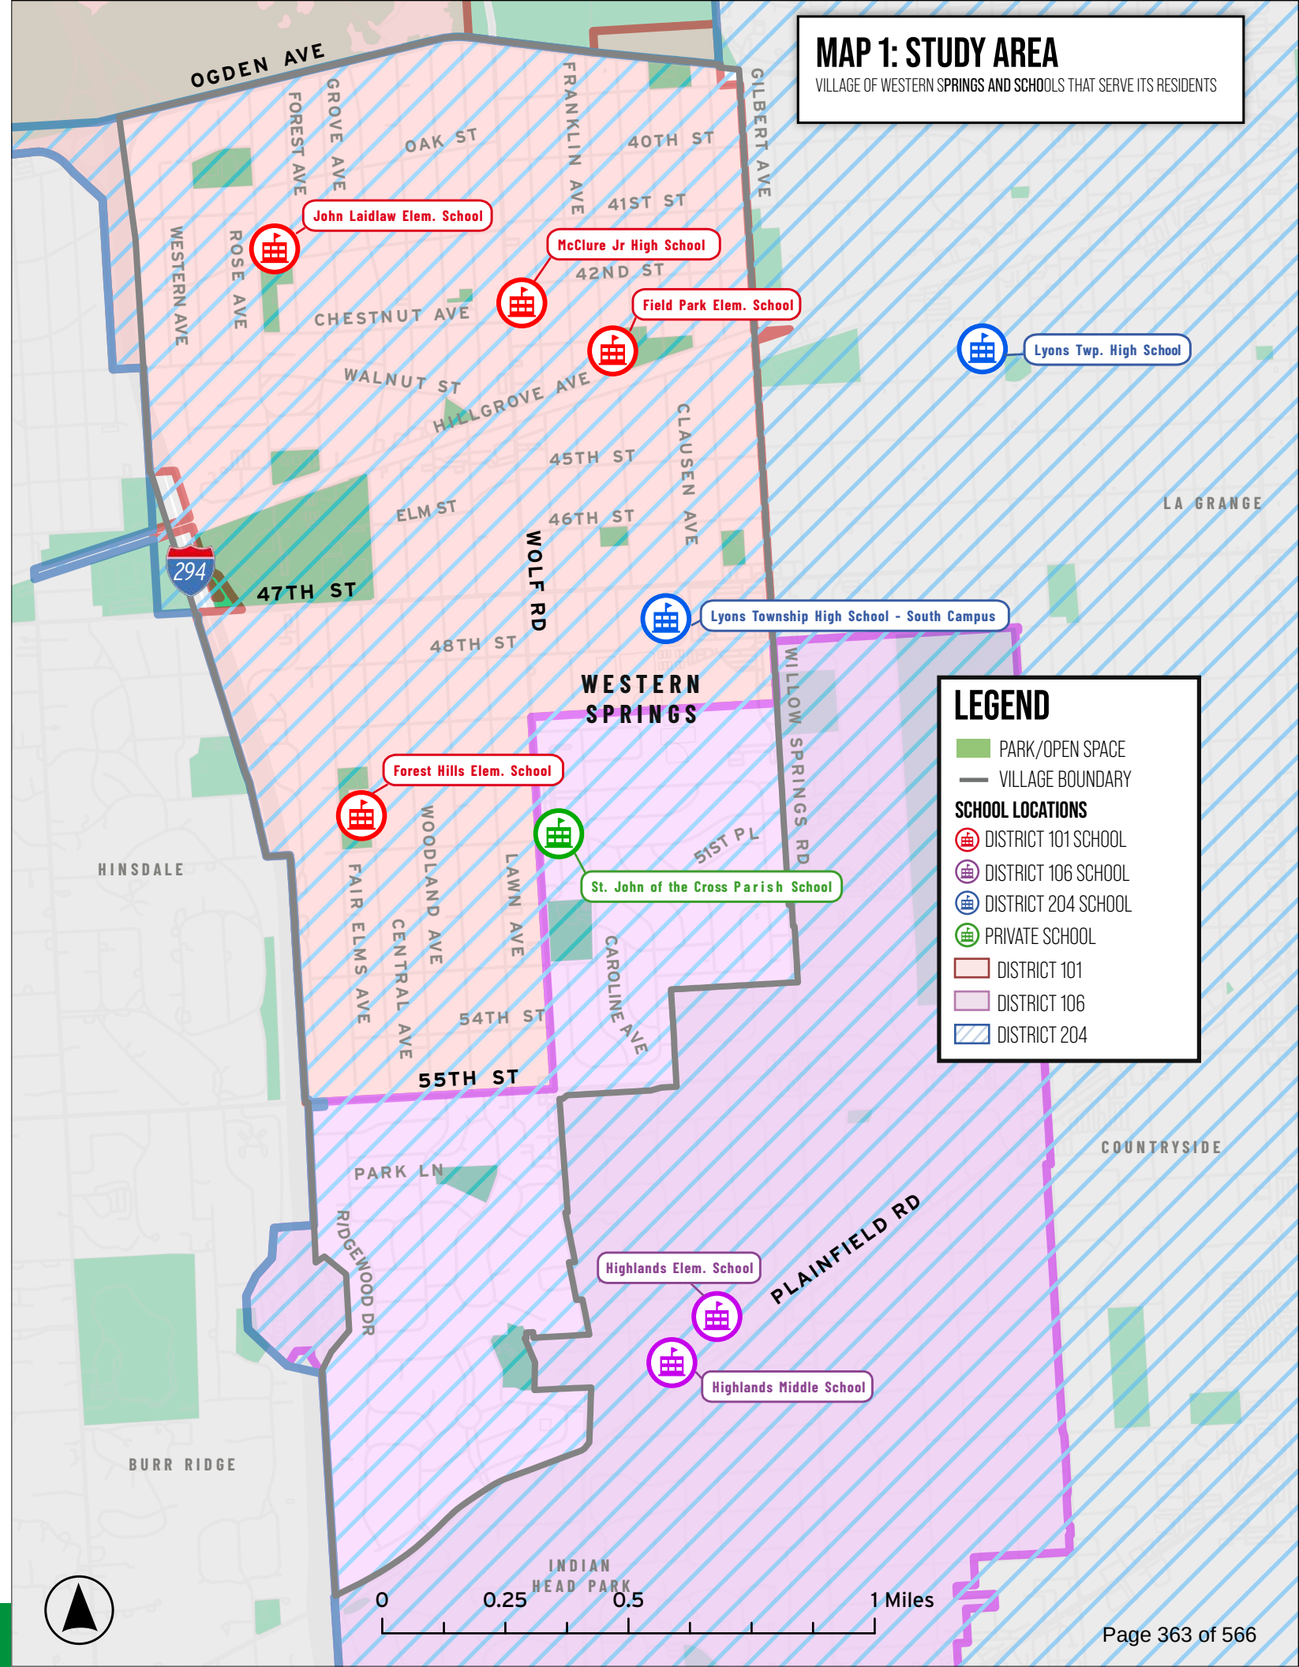

Lyons Township High School District 204

Type: Public
Enrollment: ~ 3,700
Grades: 9th - 12th
Coverage: La Grange, Western Springs, Burr Ridge, La Grange Park, Countryside, Indian Head Park, Hodgkins, and parts of Brookfield, Willow Springs, and McCook
Student/Teacher Ratio: 16:1
Schools:

- *Lyons Township High School - North Campus* (100 South Brainard Avenue, La Grange, IL 60525)
- *Lyons Township High School - South Campus* (4900 South Willow Springs Road, Western Springs, IL 60558)

St. John of the Cross

Type: Private, faith-based
Enrollment: ~ 645
Grades: Pre-K – 8th
Coverage: Western Springs, La Grange, Hinsdale, Burr Ridge, Willowbrook, Willow Springs, Chicago and the surrounding area
Student/Teacher Ratio: 16:1
Location: 708 51st Street, Western Springs, IL 60558

SCHOOL POLICIES

This section provides an analysis of policies affecting students walking and biking to school.

Western Springs School District 101

Bus Service

District 101 provides bus services for eligible students. Although the vast majority of students live within one and a half (1.5) miles of school, the district does recognize safety hazards presented by the railroad crossing and 47th Street for students at the elementary school level.

Students at each elementary school are "eligible" for bus services (i.e. this is a non-fee service) according to the following criteria:

- Field Park Elementary School/Students residing south of the railroad tracks
- Forest Hills Elementary School/Students residing north of 47th Street
- John Laidlaw Elementary School/Students residing south of the railroad tracks

The following McClure students are eligible for bus service:

- Students residing south of 47th Street
- Students residing west of Wolf Road

Additionally, fees with the McClure bus are:

- $200 per student/per year
- $250 family maximum
- Free for any students living in the 5200 block or south

The district also has a bus service which runs to local (i.e. in district boundaries) before and after school care programs. If a family is in need of this service, and lives within the eligible service area, then they are entitled to a single ride to and a single ride from school free of charge. If a family is in need of this service, and lives outside of the eligible service area, then they will be charged:

- AM unlimited ridership @ $75.00/year
- PM unlimited ridership @ $75.00/year
- AM and PM unlimited ridership @ $125.00/year

All bus service requests are managed by each school.

Curriculum

In March 2019, District 101 passed a policy titled “Traffic Injury Prevention Curriculum – Bike and Pedestrian Instruction” – directing the development and implementation of curriculum to educate students in effective methods of preventing and avoiding traffic injuries related to walking and biking.

Off-Campus Privileges

McClure Junior High School students are able to go home during their lunch period.

LaGrange Highlands District 106

Bus Service

District 106 does not provide bus transportation for students, unless they are eligible for one (1) of the supportive services noted below. Parents and guardians are responsible for procuring or providing transportation for their students to and from school.

Free transportation services for special education students are provided if included in the student’s individualized education plan (IEP). Students are transported to non-public schools in accordance with state law, and homeless students are transported in accordance with the McKinney Homeless Assistance Act.

Drop-Off/Pick-Up

Recently, it has been observed that there are issues with parking enforcement during drop-off/pick-up at the LaGrange Highlands schools along Laurel Avenue (between 58th Place and Plainfield Road). The Cook County Sheriff’s Office (CCSO) is ticketing those who are not in compliance with posted parking restrictions on the streets around the schools. CCSO has received calls from residents who are concerned about cars blocking their driveways and emergency vehicle access.

Bicycle/Scooter Protocol

District 106 asks that students and parents walk both bikes and scooters once on school property. The sidewalks around the school are crowded both before and after school, and walking bikes and scooters helps to avoid collisions.

Also, District 106 asks students to bring a lock for their bike or scooter, noting that few bikes and scooters are locked during the school day. A lock helps to ensure that bikes and scooters are secure.

Crossing Guards

District 106 employs crossing guards. At arrival, crossing guards work from 7:50 a.m. to 8:30 a.m., and at dismissal, crossing guards work from 3:10 p.m. to 3:40 p.m.

Lyons Township High School District 204

Bus Service

District 204 provides free transportation for any student who resides one and one-half (1.5) miles or more from his or her assigned school where walking to school or to a pick-up point or bus stop would constitute a serious hazard due to vehicular traffic or rail crossing, and adequate public transportation is not available. The school may provide transportation for other students residing within one and one-half (1.5) miles from their assigned school. Transportation information is communicated to families prior to the start of school.

Lyons Township High School District 204 offers just under 30 school bus routes to accommodate students between the two (2) campuses.

Personal Vehicles

There are a limited number of available parking spaces at each campus. Students must register vehicles in the Assistant Principal’s office when driving to school and parking on school property. At the South Campus, many students are not yet old enough to drive; however, a driver’s education class is offered on campus and some students do begin driving during sophomore year.

St. John of the Cross

Bus Service

Parents and guardians are responsible for procuring or providing transportation for their students to and from St. John of the Cross.

Page 366 of 566

BICYCLE INFRASTRUCTURE

This section provides an overview of existing and planned bicycle facilities in and around Western Springs.

Bicycle Facilities

There are many different types of bicycle facilities, including bike routes, bike lanes, and bike paths. Bike routes are designated roadways clearly identify by signs or road markings that guide bicyclists. Bike lanes are dedicated lanes on roadways exclusively for bicyclists, marked by road signs and pavement markings. Bike paths, or sidepaths, are paved pathways separated from motor vehicle traffic, designated for use by bicyclists, pedestrians, and other non-motorized users. These paths support two-way movement and enhance connectivity over longer distances.

Bicycle infrastructure in the Village is extremely limited, with only one (1) shared-use path located along Plainfield Road in the Timber Trails neighborhood. However, there are a number of planned bike routes within the Village, and the proposed network connects to every school except for the LaGrange Highlands Elementary and Middle Schools.

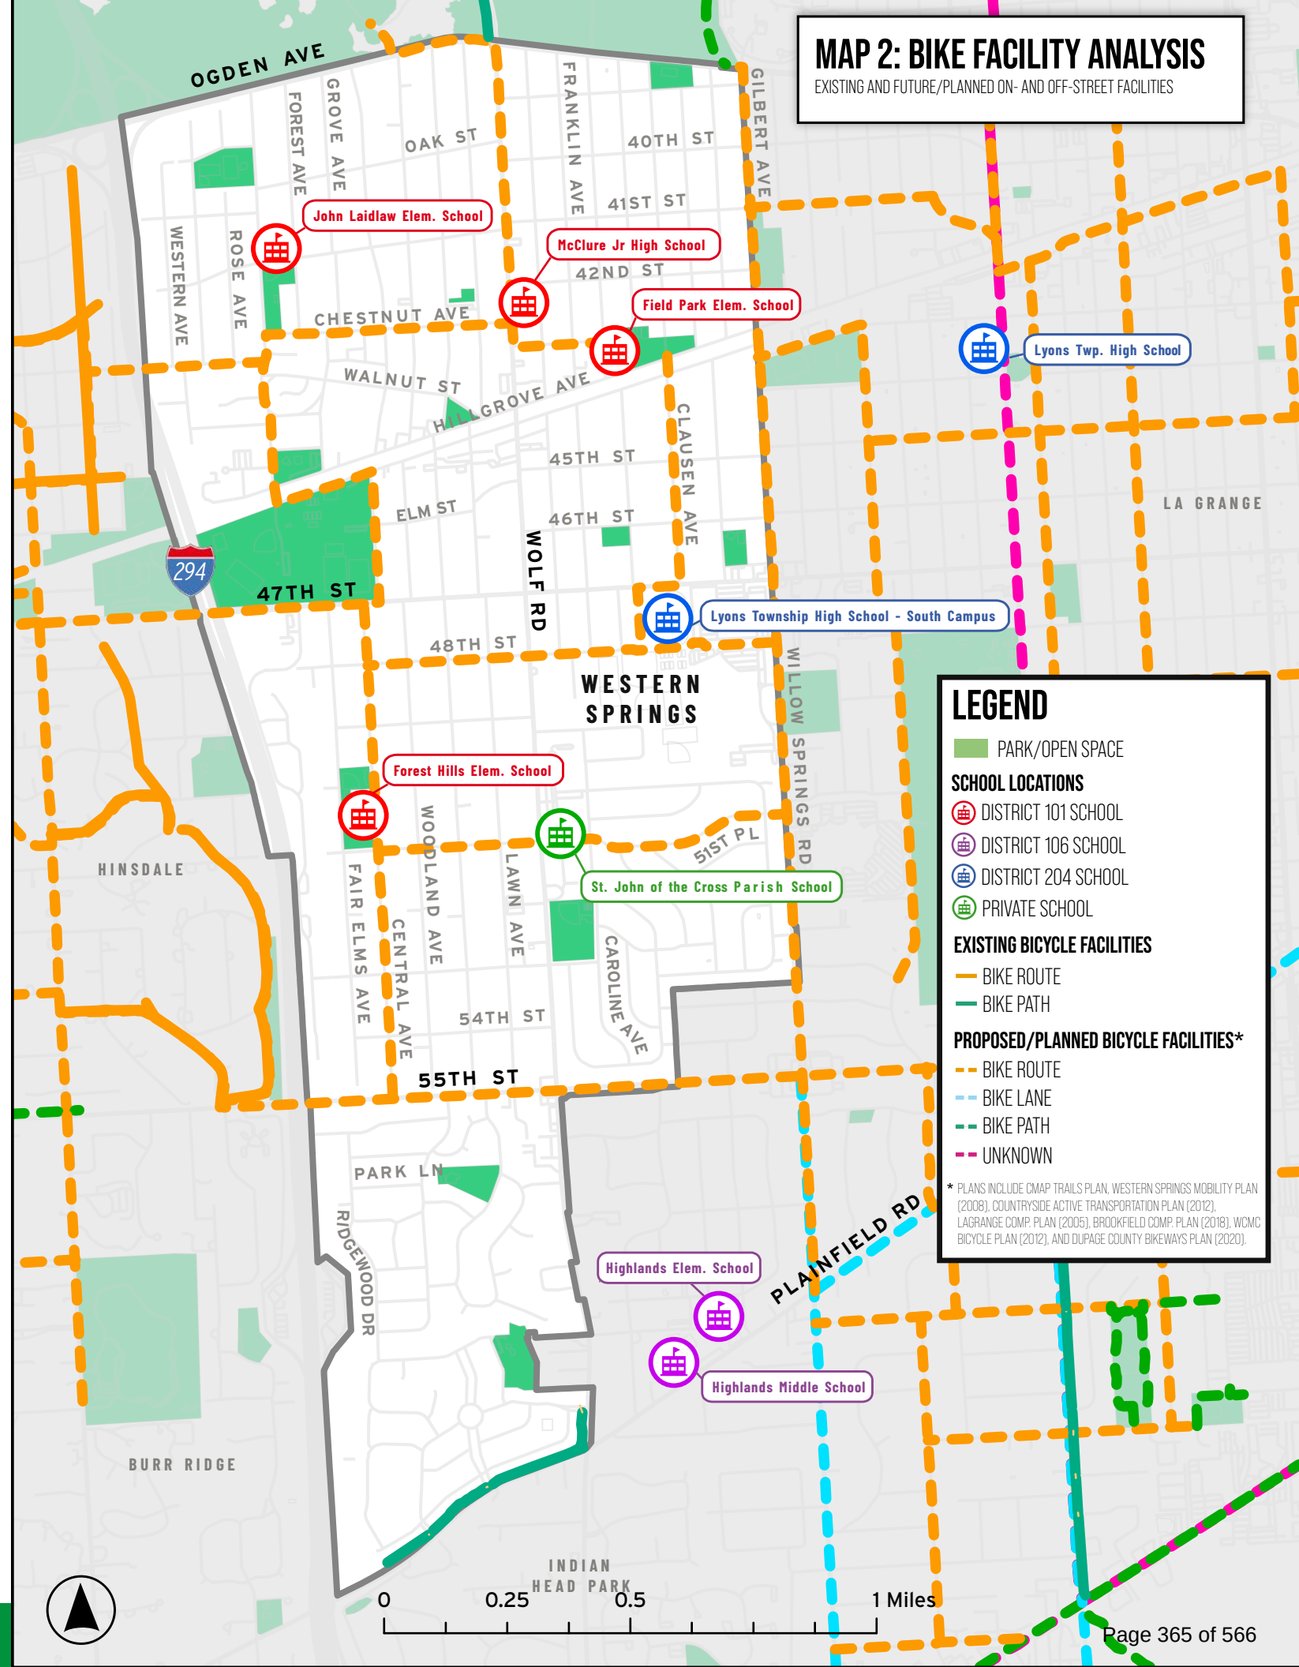

IMAGE 10: BIKE PARKING AT LAGRANGE HIGHLANDS ELEMENTARY

Source: LaGrange Highlands District 106

MAP 2: BIKE FACILITY ANALYSIS

EXISTING AND FUTURE/PLANNED ON- AND OFF-STREET FACILITIES

PEDESTRIAN INFRASTRUCTURE

This section provides an overview of existing sidewalk and sidewalk gaps in the pedestrian network in and around Western Springs.

Pedestrian Facilities

In Western Springs, pedestrian facilities are comprised of sidewalks.

Western Springs has relatively high sidewalk coverage, with 68% of roadways having sidewalks – totaling 218.3 miles of sidewalk. Within the Village, sidewalks primarily provide residents with on-foot access to homes, schools, and parks. However, in some parts of the Village, sidewalk segments are piecemeal and do not fully cover the entire block length. There are 102.3 miles of sidewalk gaps.

According to the Village of Western Springs' ADA Transition Plan, the majority of intersections in the Village are non-compliant with ADA design standards as of 2019. The majority of non-compliant crosswalks in the Village met previous ADA standards but no longer comply. While present, many crosswalks have faded and need to be repainted. The aforementioned issues with sidewalk gaps further exacerbates accessibility issues.

INVENTORY OF SIDEWALKS, TRAFFIC SIGNALS, AND CROSSING GUARDS WITHIN THE VILLAGE AND WITHIN 1/2 MILE OF SCHOOLS

NETWORK CONNECTIVITY

To build a complete and connected pedestrian and bicycle network, it is essential to identify gaps and barriers. See the adjacent map, which shows walkability and sidewalk gaps in the Village.

The National Walkability Index is a nationwide geographic dataset developed by the U.S. Environmental Protection Agency (EPA) that measures the relative walkability of neighborhoods based on factors such as land use diversity, intersection density, and population density. Most of the Village ranks neutrally in terms of walkability, while tracts near the downtown area rank the most walkable.

Gaps

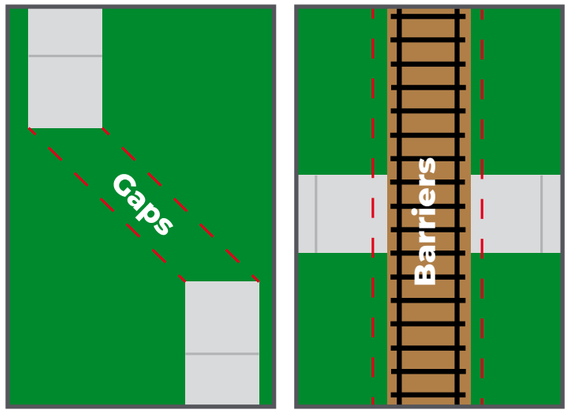

Gaps are defined as a break in the continuity of the transportation network, leaving road users with no direct route. Sidewalk coverage in Western Springs is incomplete, with **32%** of the system lacking sidewalks. Several key areas, particularly near schools, have gaps, including:

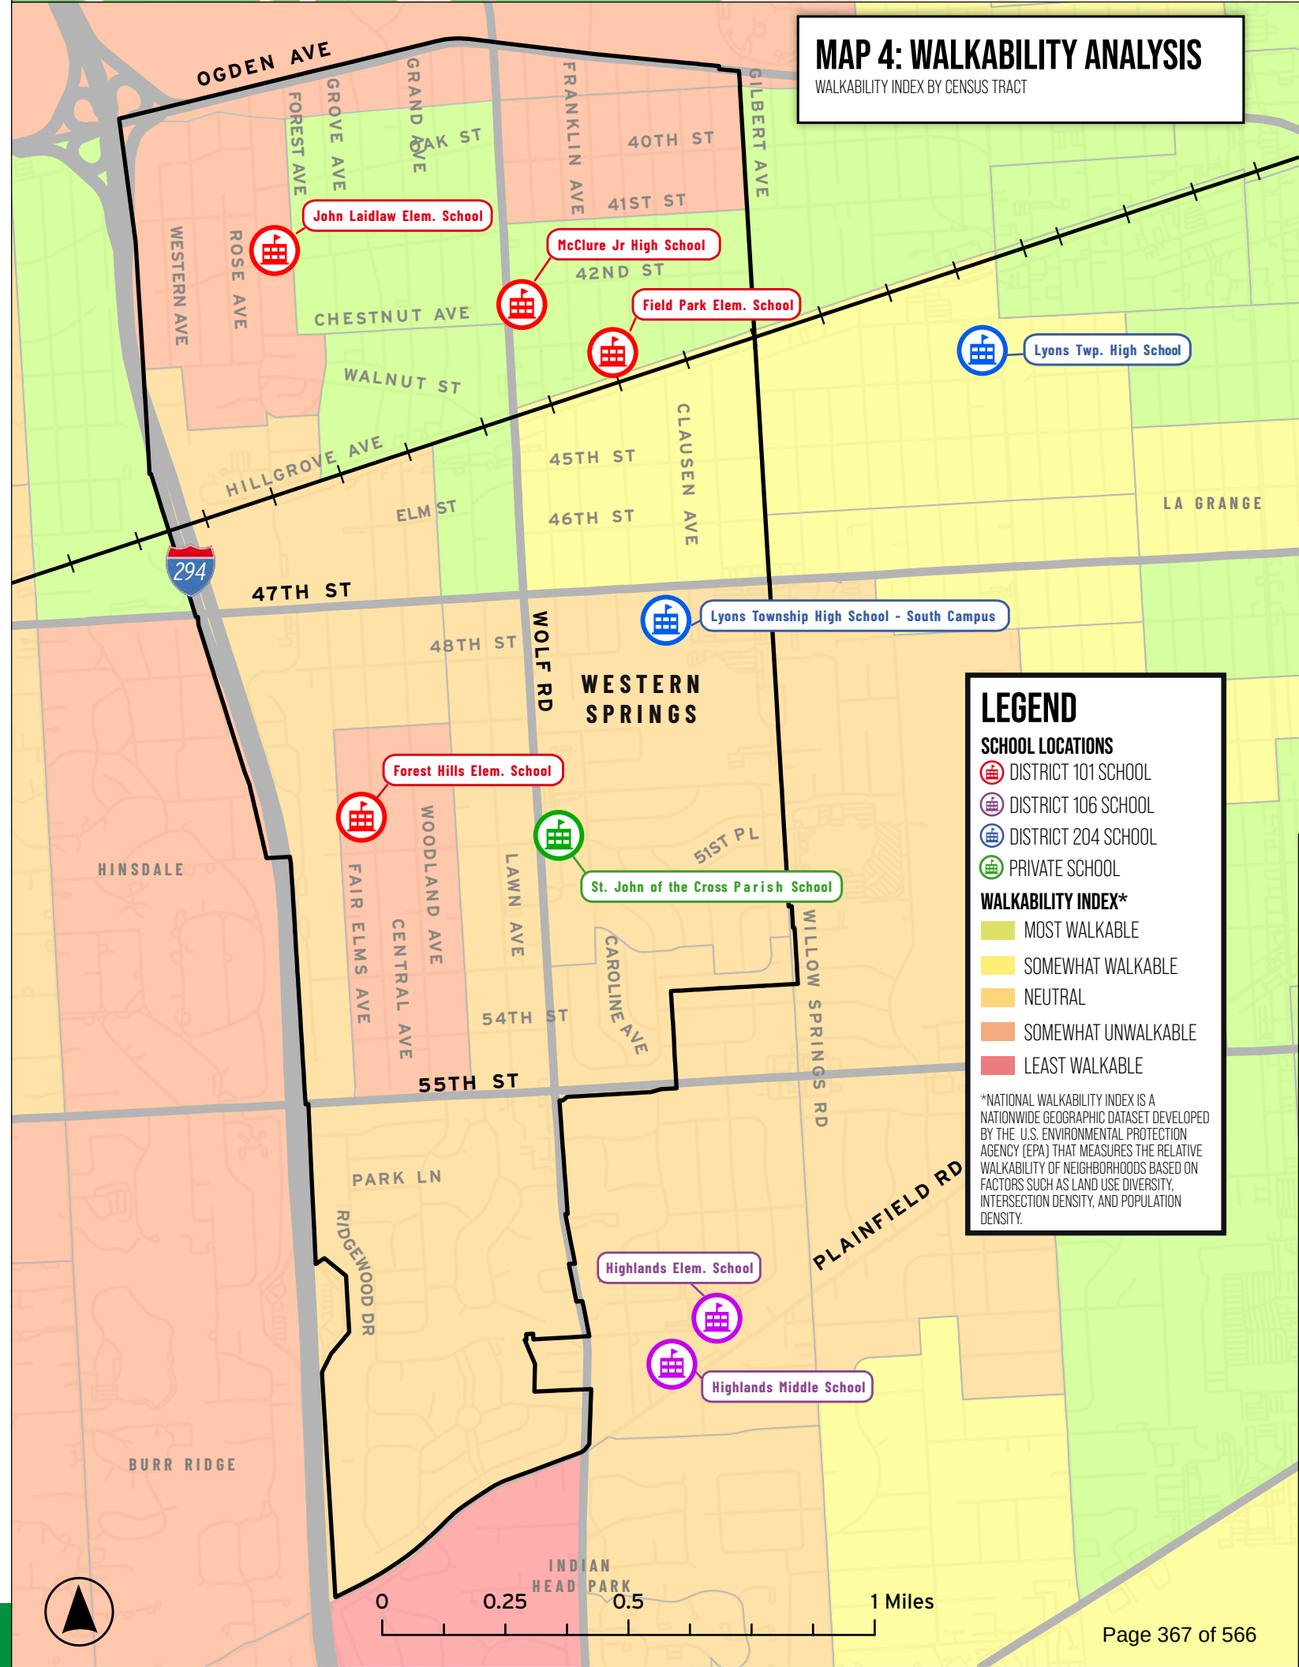

- Forest Hills neighborhood
  - Fair Elms Avenue
  - Central Avenue
  - 53rd Street
  - 54th Street
  - Woodland Avenue
  - Lawn Avenue
- Old Town (north) neighborhood
  - Western Avenue
  - Garden Avenue
  - Oak Street
  - Sereda Park
  - Laidlaw Park
- Sidewalk adjacent Lyons Township High School – South Campus
  - Howard Avenue
  - Franklin Avenue
  - Johnson Avenue
  - 48th Street

To build a connected system of sidewalks, the Village of Western Springs developed a Sidewalk Policy in 2006, which outlines a process for adding new sidewalks on a block. In addition, the Village Code requires construction of new sidewalks when a home is rebuilt, which can lead to disconnected segments of sidewalks. These processes outline steps to ensure the Village provides accessible and continuous pathways for pedestrians. However, it is also important to consider the surrounding context, and where sidewalks may or may not be desirable.

Several neighborhoods in Western Springs were not originally constructed with sidewalks. Namely, the Ridgewood subdivision was intentionally designed without sidewalks and, by choice, is exempt from sidewalk replacement to preserve that original design. Similarly, the Timber Trails subdivision does not have a traditional sidewalk system, rather, pedestrian paths that are accessible to all homes from their backyards. The path system is not yet complete on the west side of the development, but it will eventually be complete as the development continues the buildout of homes.

Figure 2: Gaps vs Barriers

Barriers

Barriers refer to physical elements such as streams, railroad tracks, highways, arterials or large buildings that break up the street network and restrict movement. Barriers reduce the overall connectivity of the transportation network and often create challenges for people walking and biking by forcing them to walk long distances around the barrier, or by limiting crossing points to high-volume roads that are uncomfortable or unsafe for people outside a car. See **Map 5** for the existing barriers present in the study area.

BNSF Railroad

With up to 130 trains a day passing through Western Springs, the BNSF railroad is a significant barrier to walking and biking, bisecting the northern portion of the Village. The Village recently constructed a pedestrian underpass at Prospect Avenue north of Spring Rock Park that provides a fully grade-separated crossing. A similar underpass crossing exists at Clausen Avenue. At-grade rail crossings exist at Grand Avenue, Lawn Avenue, Wolf Road, and Gilbert Avenue.

Inconsistent Street Grid

Some neighborhoods in Western Springs have been constructed with large block sizes or without a grid pattern, creating long distances to travel when trying to exit the neighborhood on foot or by bike. These areas include:

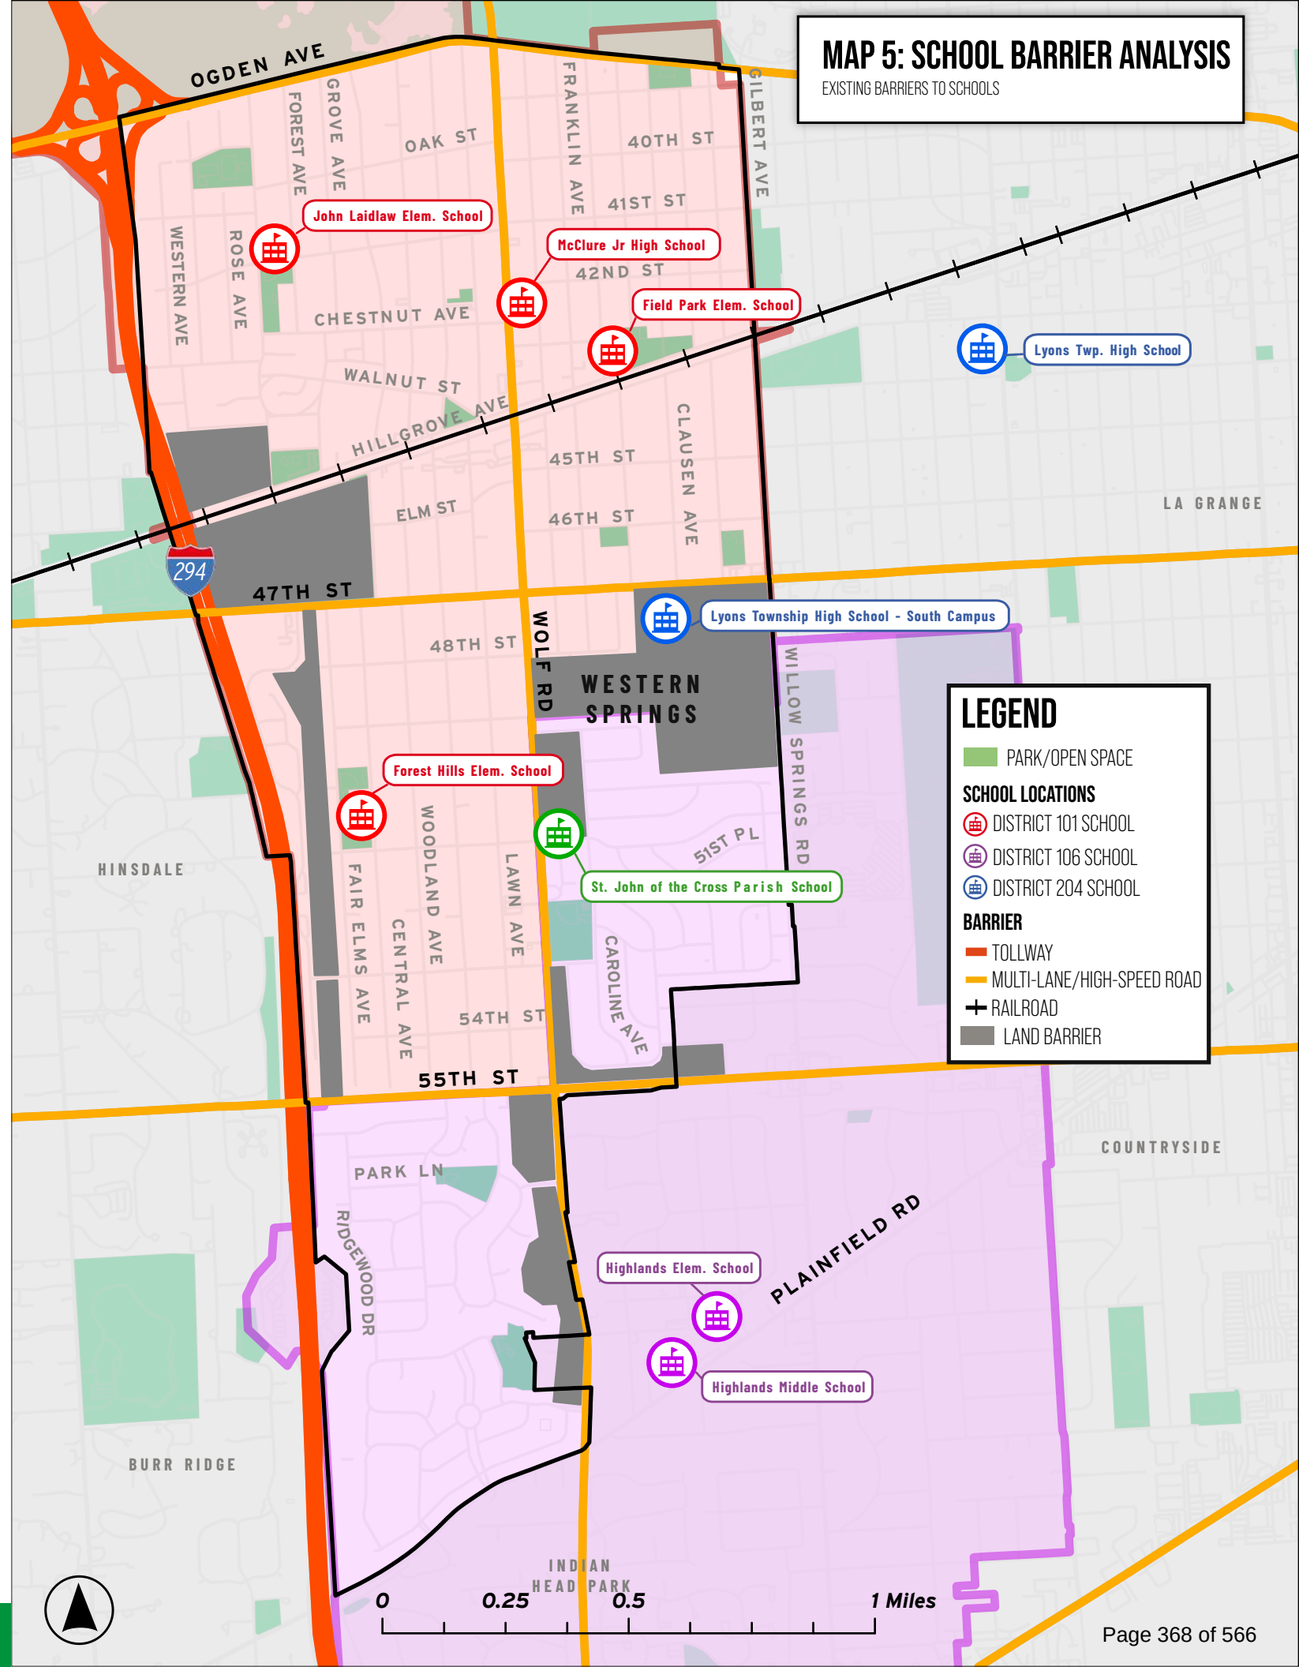

- The Forest Hills neighborhood where the distance between east-west streets is about a quarter mile. The Commonwealth neighborhood to the west of Forest Hills has no east-west connection from 47th Street to 53rd Street, primarily due to Flag Creek creating between the Commonwealth and Forest Hills neighborhoods.
- The Springdale, Ridgewood, and Timber Trails were developed using winding residential streets that funnel traffic to limited access points on busy streets, such as Wolf Road and 55th Street. This development pattern poses challenges by increasing travel distances and forcing travelers onto high-capacity collector or arterial streets.

High-Speed, Multi-Lane Roadways

High-speed, multi-lane roadways create consistent barriers for people traveling within Western Springs due to the high speed and traffic volumes along with limited marked or signalized crossings. These streets form the boundaries of Western Springs and separate residential areas from commercial centers. Identifying priority locations for improved crossings will create more permeability along these corridors. Key high-speed, multilane roadways include:

- 47th Street
- 55th Street
- Wolf Road
- Plainfield Road

CRASH ANALYSIS

Crash Analysis

In a crash report, crashes are categorized based on their severity using the KABCO scale. See **Figure 3** for a description of each category.

Crashes in Western Springs tend to cluster in highly frequented areas – including downtown Western Springs, major County and State routes, and the northern portion of the Village. These locations experience higher traffic volumes and more complex interactions between different road users, increasing the risk of crashes. From 2019 to 2023, there were **two (2) fatal crashe**s and **12 serious injury crashes** within Western Springs. These crashes did not involve pedestrians or cyclists.

Crash occurrences peak between 2:00 p.m. and 5:00 p.m., aligning with school dismissals and rush hours. The majority of these crashes take place under daylight and clear weather conditions, implying that visibility is not a primary contributing factor, but rather driver behavior and road design.

Figure 3: KABCO Scale

K (Fatal)
A crash in which a fatality occurs.

A Injury
A crash in which a serious or debilitating injury occurs.

B Injury
A crash in which a visible injury occurs.

C Injury
A crash in which no visible injury occurs but an injury is reported.

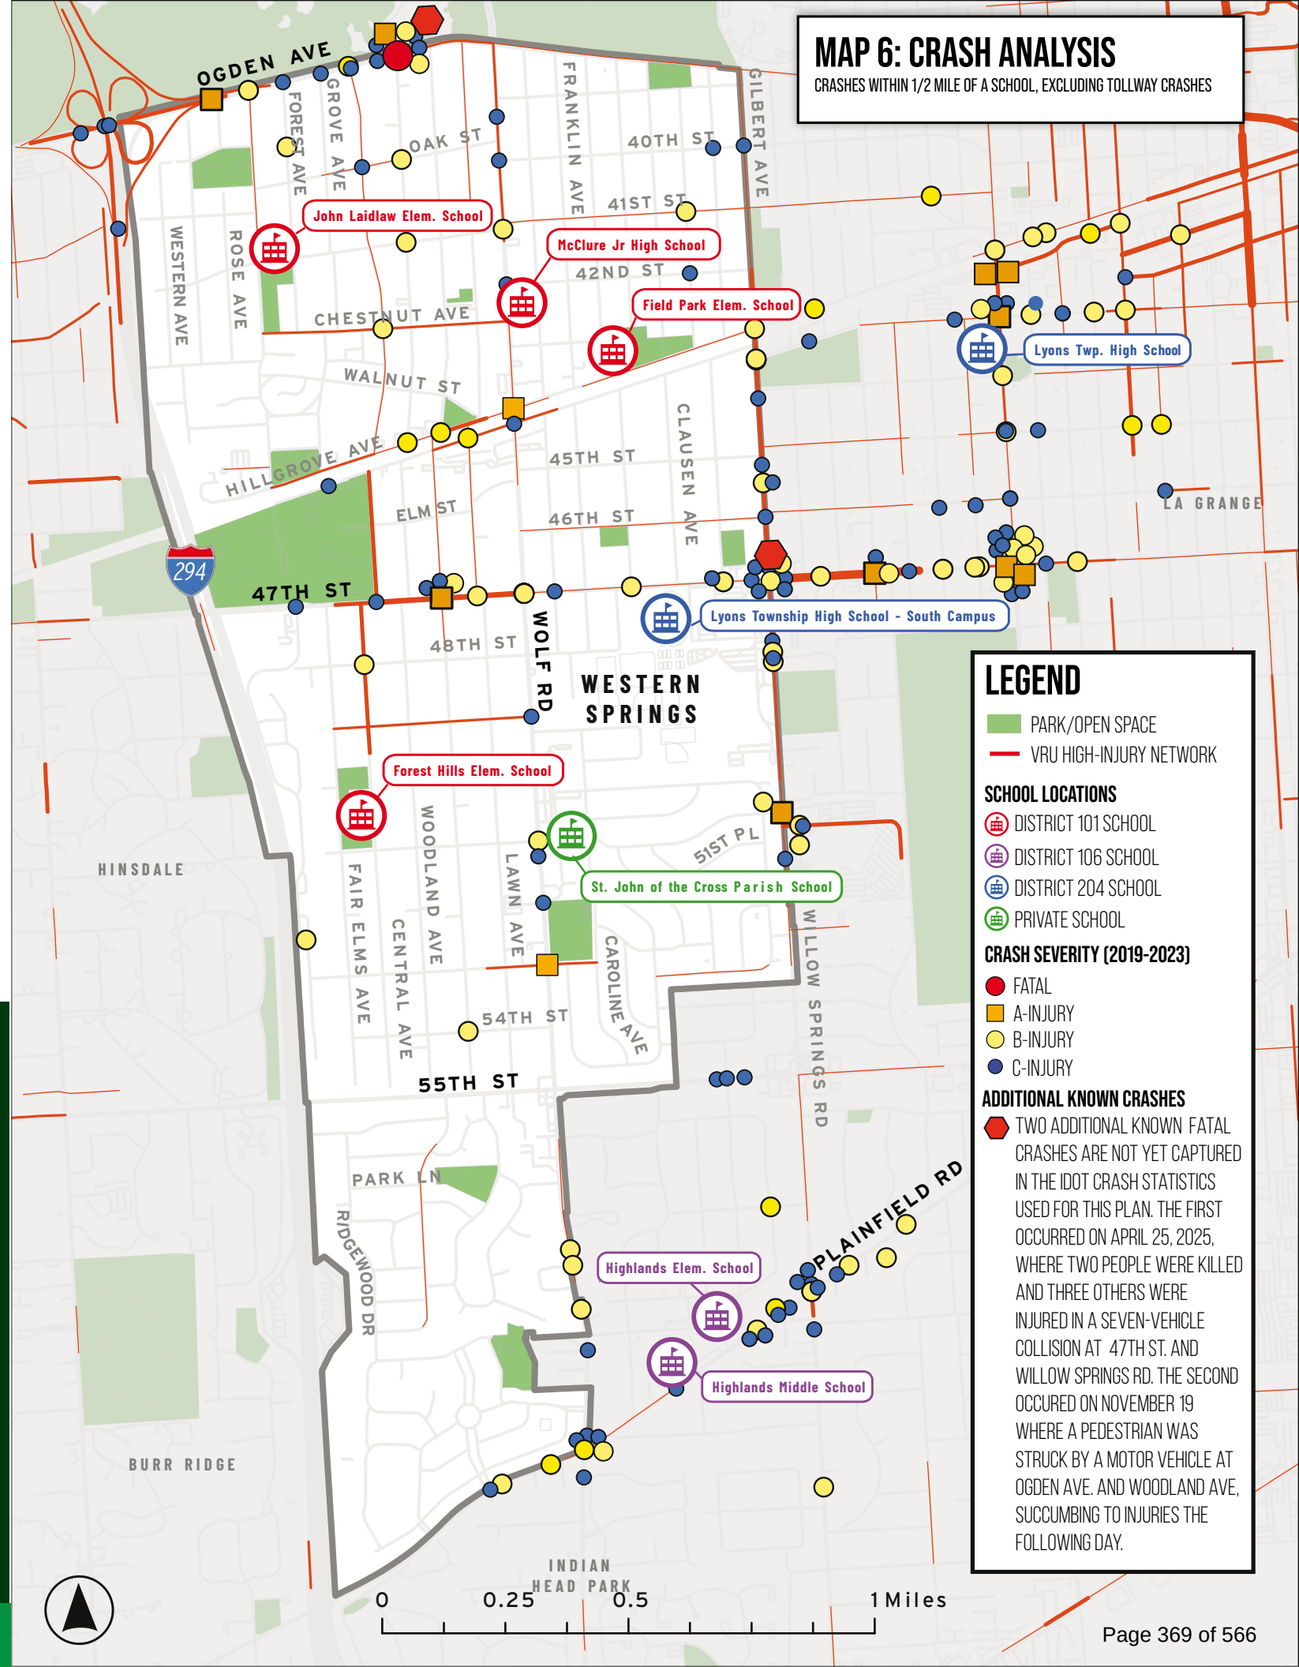

O (Property Damage Only)
A crash in which no injuries occur but property damage occurs.

EVALUATION IN ACTION

THE KABCO SCALE

Developed by the Federal Highway Administration (FHWA), the KABCO scale creates a standardized means of reporting crash-related injuries so they can be studied more effectively. Organizations such as the National Highway Traffic Safety Administration (NHTSA), the National Transportation Safety Board (NTSB), state DOTs, and emergency services use this data to understand trends and design safer roadways.

A comparison of crash severity within Western Springs and within a half-mile buffer around the schools (see **Table 3** and **Table 4**) indicates that the severity distribution is similar across both areas. This suggests that the factors contributing to crashes, such as traffic density, road design, and driver behavior, are consistent throughout these zones. It should also be noted that all 12 serious injury crashes occurred within ½ mile of a school. One (1) of the two (2) fatalities also occurred within the half-mile buffer.

Table 1: Crash Severity (Western Springs)

CRASH SEVERITY (KABCO)	2019	2020	2021	2022	2023	TOTAL	TOTAL %
Fatal	0	1	0	1	0	2	0.2%

KEY TAKEAWAY

Analysis of crash types (see Table 5 and Table 6) reveals that the most common occurring types are front to rear, turning, sideswipe same direction, parked motor vehicle, and fixed object. Regarding causation, a consistent pattern emerges across Western Springs and within the school buffer areas: failure to reduce speed to avoid a crash, failure to yield right of way, and improper lane usage.

Table 3: Crash Type (Western Springs)

TYPE OF FIRST CRASH	2019	2020	2021	2022	2023	TOTAL	TOTAL %
Front to Rear	94	37	67	77	86	361	34.4%
Turning	45	30	31	40	45	191	18.2%
Sideswipe Same Direction	21	18	32	31	31	133	12.7%

Vulnerable Road Users

Vulnerable road users (VRUs), which include pedestrians and cyclists, face an elevated crash risk, particularly within the school buffer zones. As shown in **Table 5** and **Table 6**, pedestrian and cyclist crashes increase within a half-mile radius of schools, which is likely due to the concentration of walking and biking activity around these campuses.

Pedestrian and cyclist crashes are particularly concentrated just outside the Village of Western Springs, notably along 47th Street and Brainard Avenue, near Lyons Township High School - North Campus and South Campus. These corridors serve as critical routes for students commuting to and from school, leading to higher exposure to vehicular traffic. Additional VRU crashes occurred in the neighborhoods near Laidlaw Elementary School and McClure Junior High School. Key factors contributing to these VRU crashes include failure to yield right of way, failure to reduce speed, and disregarding traffic signs/signals. This suggests traffic calming is needed to encourage safer driving behavior.

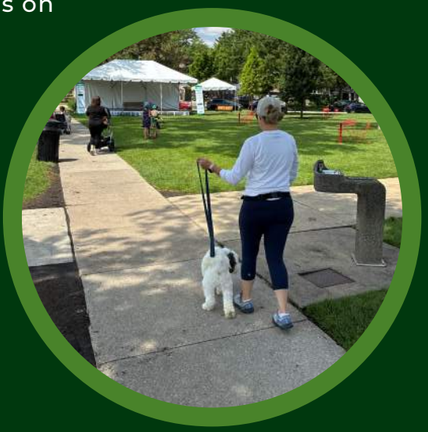

Unfortunately, many pedestrian and cyclist crashes go unreported, especially those that do not involve motor vehicles or result in serious injuries. Near-misses and minor incidents are rarely documented, making it difficult to fully understand the extent of safety challenges faced by people walking, cycling, or rolling. As a result, available crash data often underrepresents the true level of risk and may not capture problem areas that discourage active transportation.

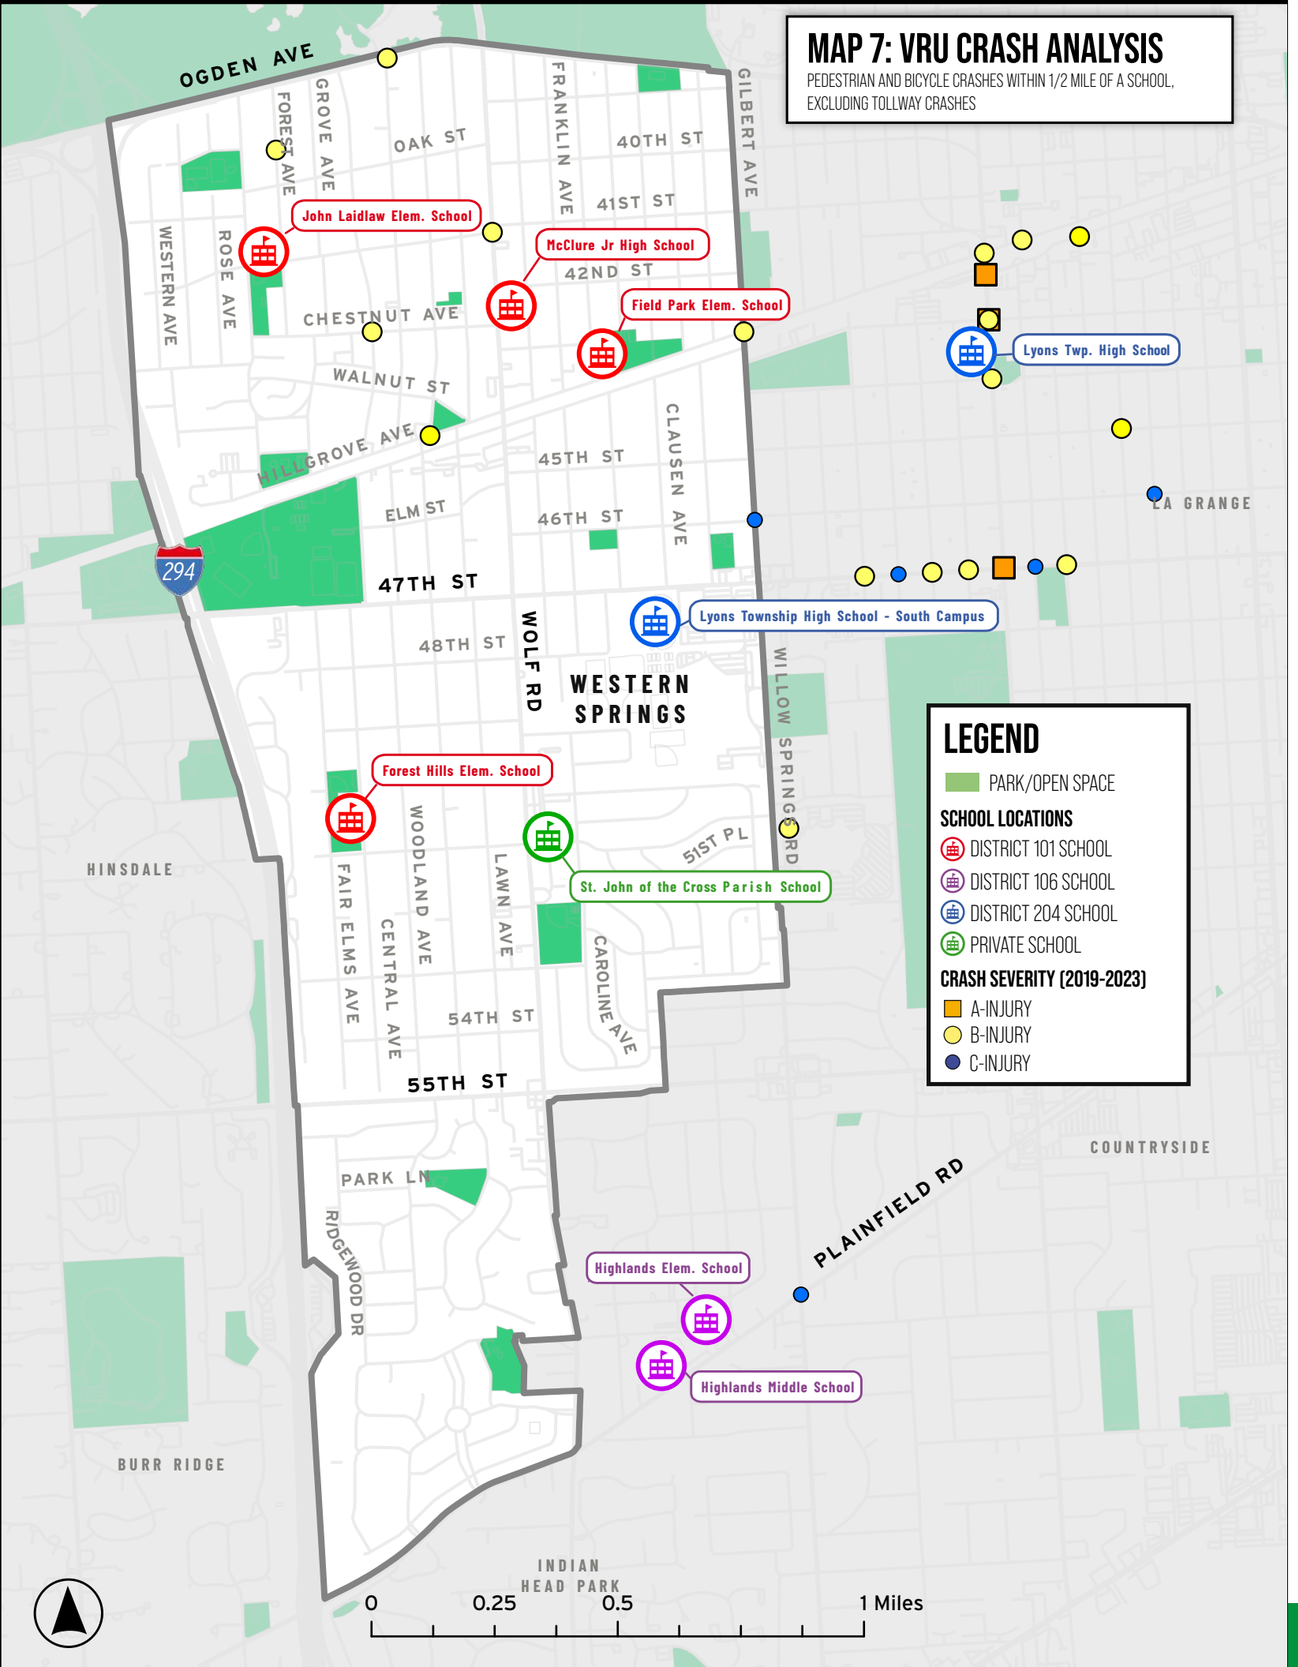

Beyond crashes, the perception of unsafe streets can determine travel behavior. When people feel that roadways are designed primarily for vehicles, they may be less likely to consider walking or biking. Speeding, reckless driving, and high-volume roadways contribute to a perception of vulnerability for pedestrians and cyclists even where sidewalks or bike facilities exist.

EDUCATION IN ACTION

VULNERABLE ROADWAY USERS

Vulnerable Road Users (VRUs) are individuals on the road who are at a higher risk of injury or death in traffic incidents because they are not protected by an outside shield, such as the body of a car. VRUs include pedestrians walking or using mobility aids, cyclists riding bicycles or scooters, motorcyclists, and road workers.

KEY FINDINGS

Based on the existing conditions, several key findings have emerged to create and ensure safe routes to school in the Village of Western Springs. This involves identifying strengths, weaknesses, opportunities, and critical gaps within the Village's pedestrian and bicycle network.

Strengths

Western Springs has a variety of strengths, such as:

- There is a strong existing sidewalk network
- The Village has incorporated pedestrian and bicycle improvements into prior plans, noting it as a priority
- Most roads are low-speed, local, residential streets, great for encouraging walking and biking
- There is a large student population
- Crossing guards are employed to help students get to school safely

Weaknesses

While Western Springs has a number of strengths, there are some obstacles that need to be addressed to create safe routes to school, including:

- Sidewalk gaps are random
- Most sidewalks and intersections are non-compliant with ADA
- Bicycle infrastructure is extremely limited
- Students would encounter several barriers on their walking or biking trip to school
- Few people walk or bike to work

Opportunities

In Western Springs, there are opportunities to:

- Expand bicycle and sidewalk facilities to create a robust network
- Reduce barriers for those walking and biking
- Increase bicycle-oriented education and events
- Engage the sizeable student population and families
- Encourage walking and biking as a daily norm
- Ensure accessibility for students of all ages and abilities

Critical Gaps & Areas Needing Improvement

Pedestrian network gaps are intermittent throughout Western Springs. Areas to focus attention and resources on include:

- Neighborhoods with irregular sidewalk gaps
- Gaps near Lyons Township High School – South Campus
- Gaps along major corridors like 55th Street

Western Springs' bicycle network is extremely limited. The most critical gaps are routes that connect to schools and along major corridors, where biking may not be conducive for younger riders, such as Wolf Road, 47th Street, and 55th Street.

The next step is to identify how these gaps translate to recommendations for improvements across Western Springs, as well as for each school within the study area, to facilitate safe travel to school. These recommendations will be based on the information and analyses collected through the existing conditions memo, community engagement efforts, and walk audits.

04
RECOMMENDATIONS

IMAGE 12: WOLF ROAD & 47TH STREET
SOURCE: EPSTEIN

NON-INFRASTRUCTURE

The following non-infrastructure recommendations outline policies and programming to be adopted by the Village of Western Springs. These recommendations, alongside infrastructure improvements, will build an environment and culture in Western Springs that supports students safely walking and biking to school.

Adopt a Vision Zero Policy

The Village of Western Springs should implement a Vision Zero policy. Vision Zero is a safety philosophy that aims to eliminate all traffic-related deaths and serious injuries by designing streets and transportation systems that account for human error and prioritize safety over speed. A Vision Zero policy would establish a commitment to eliminating traffic fatalities and serious injury by a specific date. Vision Zero prioritizes safe and equitable mobility for every resident, of all ages and abilities. A Vision Zero approach incorporates a Safe Systems framework, acknowledging that human errors will happen and infrastructure should be designed to minimize the impact of human errors. This approach designs streets to prioritize the life and well-being of people.

Beyond saving lives, Vision Zero contributes to creating a more livable community where walking, biking, and public transit are safe and convenient options. Reduced crash rates lead to economic benefits by lowering emergency response costs, healthcare costs, and property damage expenses.

Implementing a Vision Zero policy opens funding opportunities through the Safe Streets and Roads for All (SS4A) program, a federal initiative providing grants for safety action plans and infrastructure improvements. These funding mechanisms allow the Village to expand its resources for critical safety upgrades, creating a safer and more connected community.

See **Appendix D** for a Vision Zero policy template.

Adopt a Complete Streets Policy

The Village of Western Springs should implement a Complete Streets policy. Complete Streets is an approach to roadway design and policy that ensures streets are planned, designed, and operated to safely and comfortably accommodate all users, including people walking, biking, driving, and taking transit, of all ages and abilities. A Complete Streets Policy would require all future transportation projects to consider the needs of all users, their safety, and how to improve the transportation system for everyone, prioritizing the movement of pedestrians and bicyclists. The policy would prioritize the implementation of bike facilities, ADA-compliant sidewalks, and high-visibility crosswalks when designing a roadway project.

The benefits of a Complete Streets Policy extend beyond improved mobility. Complete Streets create safer streetscapes by reducing conflicts between modes of transportation, encouraging walking and biking, and lowering vehicle speeds.

By integrating Complete Streets into its projects, Western Springs can unlock additional funding opportunities and position itself to secure funding for future infrastructure improvements. For example, the STP-Local funding through the West Central Municipal Conference program prioritizes projects that incorporate multimodal elements.

Complete Streets policies have been implemented in other municipalities within the region. The City of Wheaton approved their Complete Streets Policy in 2021. The policy recognizes the importance of multi-modal transportation and that pedestrians and bicyclists are important parts of the transportation network, calling for the implementation of Complete Streets into the existing transportation network.

See **Appendix D** for a Complete Streets policy template.

Update Sidewalk Policy

The current sidewalk program requires residents to submit a petition of their neighbors to create a Special Service Area (SSA). If 50% of the project area property owners approve the SSA, 70% of the project cost is shared by the property owners with the Village contributing the remaining 30%.

Following a policy update in 2024, the Village may initiate sidewalk installation as part of another project or as a standalone project.

The Village of Western Springs could review this policy and set clear standards for when a new sidewalk will be initiated by the Village. Factors could include proximity to schools and parks, or the existence of sidewalk on adjacent properties. See **Appendix D** for a sidewalk policy example from Downers Grove's and the differences from Western Springs' sidewalk policy.

POLICY EXAMPLE: DOWNERS GROVE

The Village of Downers Grove has two (2) different sidewalk policies. The first is about sidewalk permits, when they are needed, and the fees associated with constructing a sidewalk. The second policy is about constructing or replacing sidewalks in already developed areas of the Village.

Under the first policy a permit is required for any new commercial or single-family construction and when a commercial remodeling totals to more than 25% of the gross floor area. In order for the permits to be issued, one (1) of several requirements must be met. Among the requirements included the property owner paying a fee per square foot for the sidewalk installation. If the sidewalk would connect to existing sidewalk or is already planned, the property owner may elect to install the sidewalk themselves instead of paying the fee.

The second policy requires the Director of Public Works to maintain a schedule, policy, or map for sidewalk construction in the Village. The areas selected for new sidewalk must consider several criteria, including proximity to an elementary school, proximity to parks, the ADT of adjacent roadways, and the continuity of the sidewalk with existing sidewalks.

In the case of a resident requesting new sidewalk, the Village may cover up to 50% of the construction (if the funding is available). The policy also establishes a hierarchy of locations for when determining where to replace deteriorated or hazardous sidewalks.

See **Appendix D** for Downer Grove's sidewalk policy.

INFRASTRUCTURE

Infrastructure recommendations prioritize filling key sidewalk gaps, improving safety of important intersection crossings, and creating a network of preferred neighborhood bike routes. In Western Springs, all constructed infrastructure should be compliant with ADA standards to ensure accessibility. The following definitions provide the purpose and benefits of recommended infrastructure.

Neighborhood Greenway

Neighborhood greenways are streets with low traffic volumes and low speeds that are prioritized for bicycling through pavement markings, signage, and traffic calming. This type of bike facility is best used on residential streets that connect to neighborhood destinations such as schools and parks that can be used by cyclists as an alternative to busier streets with heavier traffic.

Curb Bump-Out Corridor

Curb bump-outs are an example of traffic calming that visually narrow the roadway to encourage drivers to maintain appropriate speeds. They also provide intersection daylighting by preventing vehicles from parking too close to the intersection, in space that is already illegal to park in, ensuring proper sight lines at the intersection. For Western Springs, curb bump-outs are proposed along key walking routes to elementary schools, like 42nd Street and 51st Street.

Bike & Pedestrian Bridge

A bridge that is designed exclusively for bicyclists and pedestrians can create important connections for people walking and biking. These bridges can cross barriers such as waterways, busy roads, or train tracks. The rail underpasses at Prospect Avenue and Clausen Avenue serve a similar function.

Image 13: Neighborhood Greenway
Source: City of Portland

Image 14: Curb Bump-Out
Source: Epstein

Image 15: Bike & Pedestrian Bridge
Source: Douglas County, CO

RRFB/PHB & Marked Crosswalk

A Rectangular Rapid Flashing Beacon (RRFB) is an intersection improvement where people crossing the street can push a button to activate a flashing light that alerts drivers to their desire to cross. Similarly, a Pedestrian Hybrid Beacon (PHB) is an overhead pedestrian-activated signal that uses red light to stop vehicles when someone needs to cross. RRFBs and PHBs are appropriate at crossing locations with high traffic volumes that do not meet the threshold for a traffic signal. Combined with crosswalk markings, and where space is available, a pedestrian refuge island, they can improve the visibility and safety of people crossing the street. There is an existing example on Wolf Road at 59th Street.

Raised Crosswalk

A raised crosswalk is an example of traffic calming infrastructure that raises the road surface at a crossing point to be level with the sidewalk. This makes pedestrians more visible as they are raised up closer to eye level with a driver. They also encourage safe vehicle speeds as drivers must slow down to drive over them. An existing example was recently installed on Burlington Avenue near the Metra station in downtown Western Springs.

Pedestrian Refuge Island

A pedestrian refuge island provides a protected space for pedestrians to wait between travel lanes when crossing a street. Crossings with pedestrian refuge islands can be safer, as a person crossing can pay attention to a single direction of traffic at a time. Refuge islands can also encourage appropriate vehicle speeds, as their presence in the road helps visually narrow the roadway.

Image 16: RRFB & Marked Crosswalk

Image 17: Raised Crosswalk
Source: Western Springs

Image 18: Pedestrian Refuge Island
Source: Melissa Stanton, AARP

Sidewalk Infill

Sidewalk infill refers to providing a continuous sidewalk along a corridor that may have missing sidewalk segments currently. Based on input from school staff and parents during walk audits, and community feedback from public surveys, several sidewalk infill corridors have been identified to fill existing gaps along important walking routes for students.

05
ACTION PLAN

IMAGE 19: FOREST AVENUE AND OAK STREET
SOURCE: EPSTEIN

STAKEHOLDER ROLES

Each stakeholder identified in this plan plays an important role in the successful implementation of the Safe Travel to School Plan, as well as a shared responsibility for advocating for walking, bicycling, and driver activity throughout the Village of Western Springs and within District 101 and District 106 boundaries.

As the lead entity for this planning effort, the Village of Western Springs serves as the primary point of contact for tracking and coordinating implementation of the recommendations contained in this plan. Completion of this plan positions the Village and the local school districts to pursue funding opportunities for infrastructure and non-infrastructure improvements that enhance safety and accessibility for students walking and biking to school. The Village should continue to advocate for project advancement, seek grant opportunities, and where applicable, collaborate with partner agencies and provide letters of support for regional or county-led projects.

School Districts and Staff

School Districts 101, 106, and 204, along with St. John of the Cross, play a key role in advancing non-infrastructure recommendations. This includes coordinating with parents and guardians, organizing education and encouragement programs, promoting safe travel behaviors, and maintaining communication with residents adjacent to school campuses regarding proposed changes to traffic circulation or access. The districts may also consider supporting infrastructure improvements through participation in local funding matches when appropriate.

Residents

Residents of Western Springs, whether or not they have school-age children, are essential partners in the success of this plan. Community members can support project implementation by advocating for transportation improvements that enhance walking and bicycling safety, reduce vehicle speeds, and make neighborhoods more comfortable for all users, regardless of age or ability. The implementation of Safe Routes to School strategies benefits all residents by improving safety, quality of life, and the overall sense of community.

Village of Western Springs

Elected officials and Village staff will serve as the primary leads for infrastructure projects. Staff should coordinate closely with the school districts to prioritize and program improvements within the Village's Capital Improvement Program (CIP), and to pursue federal, state, and county transportation funding where applicable. The Village should also review and update local policies, ordinances, and design standards to better reflect the needs of people walking and bicycling near schools. Village committees and the Board of Trustees, can provide valuable input by reviewing recommendations, supporting grant applications, and serving as liaisons for community engagement.

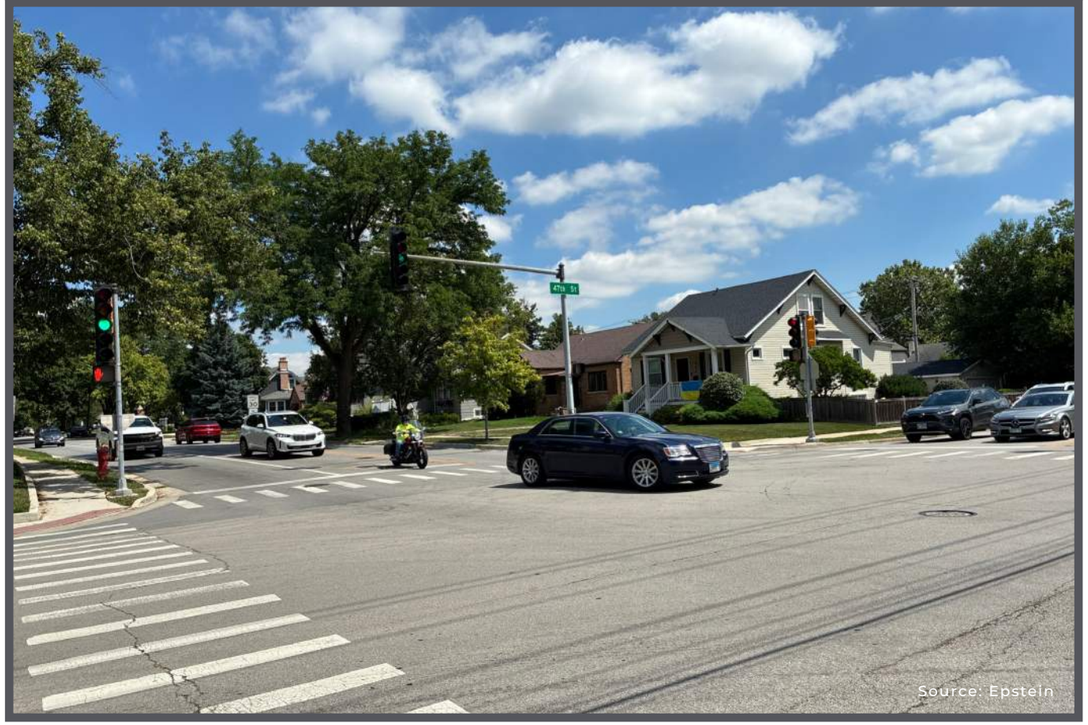

Cook County Department of Transportation and Highways

The Cook County Department of Transportation and Highways (DoTH) is responsible for the improvement and maintenance of county roadways within and adjacent to Western Springs, including Wolf Road and 55th Street. DoTH can support implementation by providing local match funding through its Invest in Cook program and by incorporating best practices for pedestrian and bicycle safety on county-controlled corridors.

Illinois Department of Transportation

IDOT administers federal transportation funding throughout Illinois and will continue to work with the Village, the school districts, and DoTH to support both infrastructure and non-infrastructure implementation. As the funding agency for this Safe Routes to School Plan, IDOT should remain an active partner in ensuring that future state-led roadway improvements within or near Western Springs incorporate the recommendations of this plan.

FUNDING OPPORTUNITIES

The Village's approach to implementing the proposed infrastructure and non-infrastructure recommendations focuses on strategically leveraging external funding sources to maximize efficiency and cost-effectiveness. By pursuing local, regional, state, and federal funding opportunities, the Village aims to deliver Safe Travel to School projects in a fiscally responsible manner. Because not all recommendations can be implemented at once, projects will be prioritized based on funding availability, eligibility criteria, and consistency with community priorities.

Incorporating these recommendations into the Village's annual Capital Improvement Program (CIP) and budgeting process will be essential to maintaining momentum and securing long-term success. Remaining proactive and informed about current and emerging funding programs will allow the Village to strategically phase projects, advance high-priority improvements, and minimize financial impacts on local resources.

Details on the potential funding programs, including applicable project types, are provided in **Table 12** to assist with aligning proposed improvements and future grant applications.

infrastructure Funding Sources

- **Congestion Mitigation and Air Quality Improvement Program (CMAQ):** Supports projects reducing congestion and improving air quality, such as trails and multimodal corridors. Award: $1–2M; 20% local match.
- **Highway Safety Improvement Program (HSIP):** Funds safety-focused projects that reduce severe crashes. Award: $2–5M; 10% local match.
- **Illinois Transportation Enhancement Program (ITEP):** Enhances transportation systems to support walking and biking. Award: Up to $2M; 50% local match for right-of-way acquisition.
- **IDNR Bicycle Path Program (BIKE PATH):** Assists local agencies in building and improving bike paths. Award: $100K–$200K; 50% local match.
- **People for Bikes Community Grant**: Improves a community's City Ratings score by building connections in a low-stress bikeway network or improving access to recreational amenities. Award: $5K-$10K; 50% local match.
- **RTA Access to Transit:** Improves first/last-mile transit access. Award: $150K–$1M; 20% local match.
- **Surface Transportation Program - Local (STP-L):** Supports large-scale transportation projects. Award: $150K–$4M; 0–20% local match based on need.
- **Transportation Alternatives Program - Local (TAP-L):** Funds projects aligning with the Regional Greenways and Trails Plan. Award: $100K–$1M; 20% local match.

infrastructure and Non-Infrastructure Funding Sources

- **AARP Livable Community Challenge:** Supports projects enhancing community livability and accessibility. Award: $500–$30K; no local match.
- **Active Transportation Infrastructure Investment Program (ATIIP)**: Constructs projects to provide safe and connected active transportation facilities in active transportation networks or active transportation spines. Award: Varies; 20% local match.

- **Better Utilizing Investments to Leverage Development (BUILD):** Funds surface transportation infrastructure projects with significant local or regional impact Award and match vary by project size.
- **Invest in Cook (IIC):** Seeks projects consistent with the five priorities of Connecting Cook County. Award: Varies; no local match.
- **Reconnecting Communities Pilot Program (RCP):** Reconnects communities impacted by past infrastructure decisions. Award: Up to $100M; match varies.
- **Safe Routes to School (SRTS):** Funds infrastructure and educational projects promoting safe walking/biking to school. Award: Varies; local match may be required.
- **SS4A:** Focuses on eliminating roadway fatalities and serious injuries. Award: $1M; 20% local match.

Non-Infrastructure Funding Sources

- **Outride Community Impact Grant:** Aims to create access to cycling and its social, emotional, and cognitive benefits for all people. Award: $5K-$15K; no local match.
- **RTA Community Planning Grant:** Supports transit-oriented development and access planning. Award: Varies; local match typically required.
- **Transit Oriented Development (TOD) Pilot Program:** Funds TOD planning efforts enhancing transit accessibility. Award: Up to $2M; 20% local match.
- **Unified Work Program (UWP):** Supports planning efforts addressing regional transportation priorities. Award: Varies; match requirements apply.

Other Funding Sources

There are several alternative strategies the Village can explore to support the implementation of proposed facilities:

- **Public-private partnerships (P3s)** can be a valuable approach, where private entities contribute funding or resources in exchange for naming rights, advertising opportunities, or shared maintenance responsibilities.
- **Developer contributions and impact fees** can also be leveraged, requiring all new developments to comply with a Complete Streets policy or integrate strategic improvements, ensuring that growth aligns with community mobility and safety goals.

The Village can also explore local financing mechanisms:

- **Tax increment financing (TIF)** districts increase property tax revenues from rising property values in designated areas, which are then reinvested in public infrastructure improvements.
- **Bond referendums** can provide additional capital, allowing residents to vote on specific infrastructure investments.
- **Corporate sponsorships and community fundraising campaigns** can engage local businesses and residents in supporting projects that enhance quality of life.
- **Philanthropic grants** from foundations focused on sustainability, health, and community development may offer funding opportunities for active transportation and public space improvements.
- **Pilot projects and temporary installations**, such as tactical urbanism demonstrations, can be funded with minimal resources, providing proof of concept that can attract larger funding commitments in the future.

NEXT STEPS

The Village of Western Springs, together with the school districts, is committed to fostering a safe, connected, and accessible community for students and residents of all ages and abilities. While the Village already benefits from a strong network of neighborhood streets and a tradition of active living, key gaps and barriers, such as sidewalk gaps, stressful crossings, and traffic safety concerns, continue to limit opportunities for students to walk or bike safely to school. This Safe Travel to School Plan provides a framework to address these challenges through infrastructure improvements and policy updates.

The next steps toward implementation include pursuing local, state, and federal grant funding opportunities, as well as exploring partnership opportunities. See **Figure 4** for a grant application timeline. The Village should also integrate priority projects into its Capital Improvement Program and coordinate with both school districts to implement non-infrastructure recommendations, including education and encouragement initiatives.

Through collaboration with the Village, school districts, community members, and partner agencies, the recommendations outlined in this plan can move from concept to construction to improve safety, promote healthy lifestyles, and strengthen the sense of community that defines Western Springs.

A. SURVEY #1 RESPONSES

Survey #1 was available from March 2025 to July 2025. The questions and results are provided below.

1. Which of the following best describes you? [568 answered; 2 skipped]

- Student [10]
- Parent of a school aged child or children [439]
- I am not a student and do not have a school aged child [119]

2. How many school aged children do you have? [444 answered; 126 skipped]

- 1 [102]
- 2 [201]
- 3 [114]
- 4 [23]
- 5+ [4]

3. What schools do you or your children attend? Please check all that apply. [434 answered; 136 skipped]

- Field Park Elementary School [50]
- Forest Hills Elementary School [71]
- John Laidlaw Elementary School [84]
- LaGrange Highlands Elementary School [76]
- McClure Junior High School [88]
- LaGrange Highlands Middle School [36]
- Lyons Township HIgh School North Campus [53]
- Lyons Township High School South Campus [83]
- St John of the Cross Parish School [54]

4. What grades are you or your children currently in? Please check all that apply. [431 answered; 139 skipped]

- Pre-K [111]
- Kindergarten [111]
- 1st Grade [61]
- 2nd Grade [64]
- 3rd Grade [76]
- 4th Grade [63]
- 5th Grade [58]
- 6th Grade [56]
- 7th Grade [49]
- 8th Grade [48]
- 9th Grade [58]
- 10th Grade [33]
- 11th Grade [35]
- 12th Grade [35]

5. How far do you live from your school(s)? Please check all that apply. [420 answered; 150 skipped]

- Less than a 1/4 mile [86]
- 1/2 mile to 1/2 mile [138]
- 1/2 mile to 1 mile [151]
- 1 mile to 2 miles [103]
- More than 2 miles [22]
- Not sure [3]

5. How long does it normally take for you or your children to travel to school? Please check all that apply. [417 answered; 153 skipped]

- Less than 5 minutes [109]
- 5-10 minutes [233]
- 11-20 minutes [158]
- More than 20 minutes [18]
- Not sure [2]

6. How do you or your children currently travel to/from school? Please check all that apply. [414 answered; 156 skipped]

- School bus [64]
- Private vehicle (driven by themselves, a parent or in a carpool)[304]
- Walk/roll [277]
- Skateboard/scooter [30]
- Bike [139]
- Other [4]

7. Do you (if a student) or any of your children have a drivers license? [80 answered; 490 skipped]

- Yes [67]
- No [13]

8. How often do you or your child drive yourself/themselves to school? [65 answered; 505 skipped]

- Every day [34]
- 2-4 times per week [14]
- Once per week [1]
- Every other week [2]
- Never [14]

9. When you or your child drives to school, do you/they typically drive alone or with others? [65 answered; 505 skipped]

- Alone [28]
- With others [26]
- I/They do not drive to school [11]

10. Why do you or your child choose to drive? Please check all that apply. [60 answered; 510 skipped]

- Save time [33]
- They drive a sibling to school [10]
- To attend before or after-school activities [25]
- They don't drive to school [11]

11. How safe is it for you or your children to walk, bike, or roll to school? [396 answered; 174 skipped]

- Very safe [29]
- Safe [155]
- Neither [62]
- Unsafe [106]
- Very unsafe [44]

12. What currently prevents you or your children from walking, biking, or rolling to school? Please check all that apply. [389 answered; 181 skipped]

- Lack of sidewalks [153]
- Lack of bike lanes or paths [89]
- Time [77]
- Lack of crossing guards [77]
- Unsafe intersections and crossings [202]
- Speed of traffic [166]
- Amount of traffic [124]
- Limited mobility or a disability [4]
- Distance from school [60]
- Weather [112]
- Before or after-school activities [44]
- Morning logistics make it easier for me to drive them [51]
- Nothing. My children currently walk, bike, or roll to school [60]
- I don't want my children to walk, bike, or roll [12]
- Other [32]

13. How much does your school encourage walking, biking, or rolling to/from school? [386 answered; 184 skipped]

- Strongly encourages [27]
- Encourages [109]
- Neither [177]
- Discourages [1]
- Strongly discourages [4]
- I don't know/unsure [68]

14. Does your school offer bicycle safety as a part of the educational curriculum? [384 answred; 186 skipped]

- Yes [15]
- No [149]
- Not sure [220]

15. What type of bicycle education does your school teach? [15 answered; 555 skipped]

- Rules of the road [9]
- How to ride a bike [5]
- Bicycle safety [14]
- Bicycle safety for drivers ed [2]

16. How do you or your children view walking, biking, or rolling to school? [381 answered; 189 skipped]

- Very fun [71]
- Fun [176]
- Neither [110]
- Boring [19]
- Very boring [5]

17. What do you think would encourage you or your children to walk, bike, or roll more to school? [372 answered; 198 skipped]

- More sidewalks [157]
- Bike lanes [102]
- Crossing guards [129]
- Safer intersections and crossings [240]
- Slower cars [166]
- Friends/family biking with them [101]
- Nothing. My children already do it [59]
- I don't want my children to walk, roll, or bike to school [5]

18. Please provide any additional comments on walking, biking, or rolling to school. [160 answered; 410 skipped]

- My McClure 6th grader walks and bikes almost every day and to practice at nearby parks. My high school student often has to be driven because he has soccer practice far away immediately after school in the spring. In the fall he can bike to school. Winter is iffy, bc the high school starts at 7:45 and with the weather he needs more sleep. If school started at 8:30 or on late start days he can walk or bike more

regularly. Another impediment is a lack of good safe crosswalks especially at Clausen where the underpass is for the railway or a bike lane or multimodal pathway on 47th street.

- The intersection at 43rd and Johnson has cars moving very fast turning off of wolf. Also, traffic from after school pick up at McClure makes this intersection dangerous at times.
- 47th street and Willow Springs Road is an awful intersection
- We're across 47th and Wolf Road and the bus option is available to us, so. Unlikely we would walk or bike to school.
- "Forest hills lack of sidewalks is disappointing.
  Also the churches on Wolf should do something discourage cars from cutting through the parking lot."
- My son will walk from Ridge Acres to LT south campus next year. I am concerned about his crossing 47th street. Going all the way to 47th and Gilbert is out of the way and that intersection has awkward/ narrow sidewalks such that stopping there and waiting with large groups of kids, on a bike, or anything bulkier than a 1-2 people causes people to stick out into traffic.
- It would be great if the resources are available to have more of a police presence during pick up/drop off. Often times, drivers are the ones creating dangerous environments for walkers because they are rushing to the school. Especially at McClure, parents drop off on wolf road if the light is red or by the library. It is extremely disruptive to traffic in the area.
- Morning crossing guards are needed as well as a stop sign at each intersection in the Forest Hills community.
- Bussing
- Wolf Road is very dangerous in the mornings and the roads in Forest Hills people are flying down...it makes it difficult to cross. Wolf Rd. only has one crossing guard all the way at the south end of the school.
- 47th and Wolf is a disaster on an intersection with how poorly people drive through it/in it/around it. While there are often crossing guards there,, sometimes my kid misses the window of opportunity with crossing guard and that insection is a complete and utter disaster in terms of people turning .
- A crossing guard or a better walkway is needed on Woodland Ave, in-between 49th and 50th.
- My kids ask to walk or bike to school. However there are often no crossing guards at 47th/Wolf which makes it not an option for us because that intersection is so unsafe. Consistency of crossing guards would be appreciated.
- We deeply value the ability to have our kids walk/ride to school. It will be a shame come high school that that won't be an option. When our youngest transitions to Laidlaw, his home school, we fully intend to walk him there until he is able to walk himself safely.
- Many children cross the street heading north on grove at maple and there is no stop sign or walkway there which is concerning. It would help to add at least a stop sign so cars have to stop for the children.
- We have witnessed drivers running stop signs multiple times. I would love to see speed bumps added. Making it safer for children to walk or ride to school will also clear up the congestion at drop off and pickup, which is another safety concern of its own.
- There's a gap of no sidewalk on Hampton between Sunset ter and Walnut so my child either has to cross the street multiple times or walk in the road. The sidewalk on the east side of the road stops just north of that making the need to cross multiple times. There is a stop sign for chestnut when it meets Hampton but many cars are flying down Hampton making that cross dangerous
- The addition of school buses to La Grange Highlands would be immensely valuable. It's not only the safety concerns getting to/from school through neighborhoods without sidewalks, but I am also concerned about the amount of traffic resulting from pick up and drop off only. Getting into, through, and out of the Highlands during morning and afternoon commute is exceedingly difficult, and it is unsafe for kids to also be walking or biking at the same time. Buses would provide another option and, while not eliminating all challenges, would significantly alleviate some pressure points.
- Cars slow down, kids walk and bike with the rules of the road, cars come to a full stop at the stop signs and not blow through the intersections, pedestrians cross at the cross walks
- We would love it if there were a greater public safety presence on the walk to school. Many times people treat stop signs and speed limit signs as a recommendation and at least once per week we witness someone completely blowing through a stop sign. Any opportunity you have to raise this issue with our local public safety officers would be appreciated
- Biking from from Springdale to La Grange Highlands can be very dangerous. Walking from the north end of Springdale is a little time consuming, especially in the morning. And the safety concerns once leaving the sidewalks of Springdale can be unnerving. For before school or after school activities, the lack of crossing guards and needing to cross 55th significantly reduce the chance of safe crossing. The cut through from Springdale to LT South is great. It reduces the number of driveways and interactions with motorized vehicles. This allows our high school student to get to school safely walking or biking.
- Sometimes drivers aren't clear on rules of the road with bikers/walkers. They might not yield when they are supposed to or might overly yield when the kids are not expecting them to.
- I wish there was a stop sign at Hampton and chestnut. People drive fast and we frequently cross here walking home from the playground.
- Encourage LT kids to take bus to help congestion. No one will do that until bus system actually works. Mr. Greg Gardner sucks at his job!
- Three of the four corners at 47th and Willow Springs Road do not have enough sidewalk space for multiple bikes. This forces students to have a tire in the street at the intersection. The landscaping on the corners needs to be changed.
- Springdale to highlands has very little infrastructure to support walking/ biking
- Construction traffic related to new homes, specifically the delivery of materials during school commute hours is a major safety issue in the village. Restrict their delivery times and walking would be encouraged more.
- The underpasses make it so easy! Would love to see more!
- Travel for us feel safe going to Field Park and McClure from where we are. What we are concerned about mostly, is for students crossing 47th street to LT. There should be a crosswalk between Wolf and Gilbert on 47th, to make this area safer.
- Fragmented Forest Hills sidewalks are a deterrent for many students to walk/bike to school. Also the locked areas around LTHS & garden market make it more difficult for students to access south campus therefore reducing the ease of walk/bike for south campus students.
- Some cars do not stop when kids hit the crosswalk lights on Hillgrove and Burlington, and cars frequently do not yield to pedestrians crossing Wolf at the tracks. Beating a train is more important than potentially hitting a person. It would be wonderful to be able to ticket those people.
- The intersection of 47th and brainard is very dangerous. There are constant accidents involving left hand turns. Usually

students involved. My son's friend was hit by a car close to this intersection.
- Safety at major intersection is a HUGE issue.
- 47th and Gilbert intersection is biggest concern. And then cutting through parking lots amidst drop off traffic.
- "Forest Hills needs 4 way stop signs, especially at all intersections along 51st. Additionally, the ""double blocks"" (51st-53rd, etc) on Grand and Lawn need speed bumps at their mid-point. These are thru streets from 47th to 55th, with a lot of traffic and cars go way too fast on the double blocks especially."
- More stop signs and sidewalks are desperately needed in Forest Hills neighborhood. Specifically, stop signs at 51st and Grand and 51st and Lawn to start.
- Western Springs is a VERY safe neighborhood to walk or bike in. Running clubs from many nearby high schools regularly run on our streets. My children have been walking on their own since 2nd grade.
- Western Springs is a VERY safe neighborhood to walk or bike in. Running teams from neighboring towns regularly train/run on our streets. My children have been walking/biking to school since 2nd grade.
- Please provide statistics regarding walking/biking in Weatern Springs. After repeated requests, the Village has never provides safety statistics regarding walking/biking in the village. It appears the "safety issue" is a red hereing to force sidewalks onto homeowners that do not want or need them.
- I notice daily that the majority of drivers are either distracted or speeding. When I think about allowing my innocent and naive children to walk or ride to school it scares the heck out of me! So many cars do not pay attention to speed limits, follow stop signs or even take the time to yield to pedestrians or bikers. I love the walkability of our town, but am definitely leery of allowing my children to venture off alone. We have done safety village, instructed them personally on safety rules etc. but, the fear remains.
- The intersection at the railroad tracks is a concern. There do not appear to be enough crossing guards or monitors for the high school students. I have often seen them running or biking across the tracks when the gates have went lowered. also, they have headphones on or are looking at phones and not paying attention.
  The other issue is non-local drivers get confused with how to manage driving through the intersection where the train tracks are at Hillgrove and Wolf and Gilbert and Hillgrove. New 16 year old drivers also panic in these intersections. We have seen many accidents and near misses. There isn't enough education on how to navigate these more complex intersections.
- All schools should have school bus option and sidewalk path for all areas
- A new development will start construction on wolf road, which will limit visibility of bikers/walkers and increase traffic/congestion. I am concerned about the safety of my kids on wolf given people will experience more delays and may speed or take greater risks to get where they are headed. Increased construction traffic in the neighborhood continues to be a primary concern of residents and parents since our neighborhood does not have sidewalks and visibility of bikers/kids is already impacted. Construction vehicles will be in permitted in the neighborhood (public roads) and frequently enter and exiting wolf rd.
- I feel our district does great with crossing guards and police presence.
- The construction on 55th St that has been going on for a year I believe at this point makes an already difficult intersection (55th and Willow Springs Rd) nearly impossible to navigate on foot or wheels
- We would love to walk and bike/scooter with my children to school and eventually let them go independently, but with the lack of sidewalks in La grange highlands and the unsafe speed of cars that fly down Edgewood Ave, it's completely unsafe. There are some sidewalks near us, on the east side of Willow springs road, however they are in terrible condition and completely cracked and uneven. There are also bushes and trees that grow over the sidewalk area.
- While traffic, sidewalks, crossing guards and overall vehicle safety are important, I don't think I would ever feel comfortable letting my child walk, bike or roll because it's 2025 and the idea of willingly allowing them to walk up to a mile alone with no protection goes against all that Dateline has taught me. Call me an overprotected millennial parent, but I will never feel comfortable allowing my young children to do that.
- Sidewalks, bike paths, and lights with cross walks would make a big difference. Especially for crossing busy streets such as 55th street or Plainfield.
- The intersection at Laurel and 55th is dangerous to cross and there are no sidewalks
- Highlands should have a bus option
- My kids would have to cross wolf road at either light just north of hillgrove. Or hillgrove and wolf. At Hillgrove and Wolf cars do not stop at stop signs at Hillgrove and Burlington. There are not enough bike racks at McClure. Some bike lanes would be helpful.
- We live on central avenue (the street the school is on) in Forest Hills. It's frankly insane that there are not sidewalks to get us there. ALL traffic flows down this street at drop off and pickup time, and kids are legit in the street walking because there is no other option. It is an accident waiting to happen- and I frankly do want a child to die in order to get change. It's ridiculous. Sidewalks down central avenue is a must- from 50-52nd street. Only 6 houses need them to safely transport 26 current students.
- We recently moved from an area of town where there was a lack of sidewalks and now up on lawn there are but the speed of cars and lack of following stop signs scares me to death. We are on Lawn between my children would have to take 48th or 49th and cars are going too fast.
- We live on Lawn and so many cars use it at a cut through for Wolf. Lawn and Maple is a pretty bad intersection and cars FLY. It's the one intersection that makes me really nervous because the lack of a stop sign.
- Burlington ave often has fast traffic. We need slow down signs, as we have kids walking or biking to school
- BURLINGTON AVE HAS FAST DRIVING CAR TRAFIC.
- We need sidewalks !!!! Especially where we are since we are a block away from the school. It is completely unsafe since it is a high traffic area in the morning , afternoons, and on the weekends when there is soccer and baseball. Many blind stops and no stop sign at the 3 way intersection of Fair Elms and 51st.
- My High School and Middle School student sometimes bike to school but I do worry about it because cars drive way too fast on the streets during these busy hours. I do want my 4th Grader to bike bit not completely comfortable yet.
- The construction at the corner of 55th and Wolf makes it unsafe for my son to cross the street. He rides his bike to LT South and we live in Ridgewood.
- I wish there were more sidewalks and more four way stops on the busiest routes.
- Not allowed to bike down the sidewalk where school drop off happens on 51st. Need to go to Plainfield Rd, and still not allowed to ride on sidewalks
- We live between Ogden and 39th, and the amount of cars speeding down 39th, blowing stop signs, and trying to avoid traffic on ogden is crazy. I'd love to ask for a daily police presence to ticket these drivers, who are not part of our community.

Page 387 of 566

This is the only part that gives me any pause about my kids walking to school- these cars zip by me, and i'm a large man walking a dog.

- I think it would be great to have a button you push on Clausen and Field Park at the crosswalk (near Clausen and Hillgrove) to get cars to slow down and yield to the kids.
- Ridgewood neighborhood needs sidewalks
- We live near 39th and Johnson. Cars are frequently speeding near our intersection to avoid wolf/ogden. Maybe a 4-way stop sign would improve the safety at that intersection. Thank you!!
- Highlands Elementary has advised parents repeatedly to try to lessen the before and after school traffic congestion. It has stated it is a "walking school". The school is 1.4 miles from my home. In order to get to school without a car, my child would need to cross 55th at Laurel or take Willow Springs road without sidewalk access more half of the trip. I sometimes bike with my kid to Highlands, and I do not feel 55th at Laurel is a safe spot to cross. Traffic is going too fast and there are not enough pedestrian warning lights. The lack of sidewalks on Willow Springs road makes that route impossible. I am not a fan of contributing to congestion in the LaGrange Highlands neighborhood, but for Springdale families, I do not see an alternative. I would happily pay a fee to bus Springdale kids to Highlands. I would pay a fee or participate in a "bike" bus, which is a group of parents and students riding to school together. I am considering moving my kid to SJC due to the ease of commute to school.
- It is shocking to me in this town how there are soooo many areas within a block or two of the elementary schools that don't have sidewalks. Directly across the street from laidlaw there isn't sidewalks. So dangerous for the kids to have to go in the street
- As a pediatric hospitalist who often cares for children
- The intersection at Wolf and Burlington/ Hillgrove is utterly insane in the mornings and afternoons, even with crossing cards present. Pedestrians going to trains in the morning that constantly illegally cross the street immediately parallel to the train tracks where there are no crosswalks makes it even more dangerous for cars and children biking/walking.
- Please PLEASE provide sidewalks throughout Forest Hills, especially on Fair Elms and Central starting at 47th street.
- Sidewalks please!!! Any path around Sereda Park is MUCH needed!!
- There are some key intersections that need to be improved for pedestrians. 47th&Gilbert as well as the under pass and cossitt&gilbert. All of these make it too easy for cars to speed and makes the priority of pedestrians in clear and dangerous
- I think it would be great to have more defined crosswalks that don't fall at an intersection. For example, it is easier for my 6th grader to cross in the crosswalk on wolf road south of the tracks then try to navigate the railroad traffic patterns. However, very few people stop at this crosswalk. Where I grew up they painted the crosswalks blue and made them much more pronounced than the typical dashed lines. This said to drivers that stopping is a priority. I would love for something to be explored for these non intersection crosswalks so there is a place to cross wolf other than the library without navigating the tracks.
- Two of the intersections our children have to cross is only a 2-way stop sign vs 4-way stop signs.
- 47th street is extremely dangerous for the pedestrians and especially the kids that are crossing to go to school or to go grab a bite from the plaza. After numerious complains through the years, nothing have been done from WS Village now IDOT. How many accidents and how many people need to die for the Village start caring for the safety of our kids and residents?

- Two things: 1. Cars drive dangerously fast on Harvey on the 39th block form traffic off Ogden., 2. It's crazy there is not a cross walk on Gilbert between Grant Park and the west side of Gilbert.
- Please put some cops on Oak and just watch the speeding tickets fly. It's always parents with kids flying down Oak to get to Laidlaw. WSPD has to know this but there is never a squad around. It's like WSPD wants to be friendly and not hand out tickets to the community. I don't have my kids walk alone because one wrong move and a mom behind the wheel of a huge suv will kill them. Also please try to keep the electric stuff off the sidewalks and from being uptown.
- My child's commute to elementary (and soon middle) is safe and appropriate. I am concerned about my student's commute to LT in a few years - specifically crossing 47th on Gilbert. My child will likely take the bus for the most part, but I want to feel confident if she chooses to bike or walk. That intersection makes me very nervous.
- We need a crossing guard at Hampton and Oak. Hampton becomes a one-way street going north during drop off and pick up and cars FLY down Oak as a result. Not only is there not a safe crosswalk, but there are no sidewalks. It is HUGELY problematic. We live on Garden and Oak (SO close to Laidlaw), yet my children do not have any safe route to walk to school independently due to not having sidewalks, safe intersections/crossings, nor crossing guards. Has D101 considered a 5th grade crossing guard program? I did this as a child and it taught responsibility and helped younger children get to school safely.
- My children walk to school because I strongly believe in it. However, I do wish there were consistent sidewalks throughout Old Town. For example, there is not a clear sidewalk path to Sereda Park or to the pool or Spring Rock. I also wish stop signs were more consistent near the school routes to help slow down traffic and for the safety of our children.
- The intersection of Oak and Central is what stops me from letting them walk. Too many cars know that there's not a stop sight and go way too fast. There's also too many car parked along all the streets making it difficult to see oncoming traffic. Also, we're too close to 294 so if someone decided to snatch them, they'd be gone fast. More crossing guards would help.
- "It very unsafe and ridiculous to allow such dangerous environment around the schools Village boards and police is very unhelpful as they are not concerned about our kids but only for their families,Must reduce speed and create speed bumps"
- I have serious concerns about some of the intesections. My son is at the south campus of LT this year, but will be biking to north campus next year. We live in Old Town South and he will need to cross Gilbert St.. There is NO crosswalk along Gilbert from 47th to the stop sign at Cossitt. The intersection at Cossitt and Gilbert is a nightmare during school arrival and departure times. It is astounding to me that there is no crosswalk with a flashing light anywhere along Gilbert, especially given how many students bike from south to north campus after school for sports.
- Highlands elementary lost many parking spots on Luriel. I respectfully understand it was a fire hazard, but without a parking solution, cars are everywhere, which has inadvertently made it more unsafe for walkers ans bikers.
- Add sidewalks to subdivision.
- There aren't any sidewalks in Ridgewood or throughout La Grange Highlands. There aren't any bike lanes down Wolf Road, and there is only one crossing guard to support students from Ridgewood getting to La Grange Highlands Schools at 59th street. There is one dangerous entrance/exit on Park Place from Ridgewood onto Wolf Road, and cars take that turn in and out of the town very quickly and without regard

Page 338 of 566

for student bikers or walkers and there is no crossing guard there to help keep students safe.
- I wish police would start giving tickets to drivers that treat Stop signs like yield signs as well as giving drivers tickets for going 5+mph over speed limit.
- stop cars from blocking sidewalk across from library- kids have to walk around and into street
- The mindset of drivers in the area is not conducive to safe travels for kids on foot or bike. Lots of speeding, ignoring signage, feeling entitled to be in the way, shortcuts, etc
- There are cars that park on Caroline and Rugeley that throw off the flow of traffic after school at St John of the Cross. Cars in the morning speed down Caroline. It's generally safely controlled by the crossing guard but it wouldn't hurt to have the village check it out and perhaps add additional signage.
- Hu
- I grew up in LaGrange in the 1980s-90s. Before we were allowed to bike to school, we had to pass a certification (we could ride, we knew hand signals, we had a lock and could use it). I've wondered why D101 doesn't do something similar. This is how I learned the rules of the road that I still use today.
- "Western Springs NEEDS to complete sidewalk on EAST side of Prospect Avenue between HILLGROVE and WALNUT as there are only 4-5 homes without Sidewalks. ALSO, parking on Prospect should be Forbidden on the Westside of street. Street is impassable during summer swim season with pool Parkers.
  Too many close calls with kids either walking, riding on Prospect street due to incomplete contiguous sidewalks between Walnut and Hill grove. Also, new train underpass is drawing more kids up and down Prospect. This situation is a ""lawsuit waiting to happen."" The Village is on notice as complaints were made to Trustee Tyrell for years!!"
- The east/west traffic at woodland walnut, and woodland chestnut can be dangerous. It can be hard for kids to see around parked cars close to the intersections. Sometimes cars can be parked on north side of walnut, just west of woodland very close to crosswalk making it very difficult for kids to see oncoming traffic. This is also true on weekends as well. hard for cars to see oncoming traffic too
- The intersection of 47th and gilbert/ willow springs is very very dangerous as evidenced by the fatal traffic crash three weeks ago
- Walking is dangerous on the street. Inconsistent sidewalks in Forest Hills
- Intersections aren't well lit, especially at the major intersections along Hillgrove. The lamps are pretty, but they do NOT give adequate light into the intersection for drivers to see if someone is in the crosswalk or not. The biggest issue is that no one stops completely at the stop signs at those major intersections.
- Would need 4 way stop signs before I would be comfortable having my kids walk to school
- Stop sign at 41st and Clausen (or 41st and Linden). Currently 41st doesn't have a stop sign from Gilbert Ave until Howard and cars fly down the street.
- "The crossing at 48th and Wolf is concerning. Even though there is signage and a clearly marked crosswalk, rarely, if ever, does anyone stop to let pedestrians cross. This includes children trying to walk/bike to school, or anyone just walking in the area at any time of day. A flashing cross walk sign that could be button activated, similar to the one on Willow Springs Rd by LT could help. There is also continued issue with peopled driving at high speeds through the Fairview Estates subdivision on Johnson, Franklin and Howard trying to avoid the light at 47th and Wolf. Kids are walking to/from the bus stop for McClure and Forest Hills on the side of the street since there are no sidewalks, as well as pedestrians walking to/from the train. I have personally seen people have to swerve at the last second because they take the turns onto these streets at high speed and hadn't seen the person walking.
  While I understand we will never be able to prevent people from driving down these streets, anything to help restrict the speed that they come down the street would be of significant benefit for pedestrian/child safety."
- Our street has become a "cut through" to avoid traffic on Wolf Rd. Traffic backs up on Wolf Rd because of the train and cars fly down our street to avoid this congestion. I drive my kids to school in the morning, they walk home in the afternoon. We need a stop sign at an intersection near our house and also dedicated bike lanes would be so helpful. Cars drive recklessly because they are frustrated with the frequency of trains and it is very dangerous. I have considered going to a Village Board meeting to address our street being a cut through and also the stop sign request.
- Western Springs lacks sidewalks on Willow springs road and La Grange Highlands lacks sidewalks everywhere. Additionally, the roads near Highlands (side roads) that are marked no entrance on school days with signs are constantly disobeyed before and after school which makes biking and walking even more dangerous.
- The parking and lack of clear cross walks and stop signs on 51st and Lawn is very dangerous. I would feel better if there was a stop sign or at the very least a yield to peds sign E/W bound on 51st and Lawn. The crosswalks also need to be repainted. There should also be no parking there from 3-4pm on school days.
- Should have school buses for the amount of taxes we pay
- For gods sake just put the sidewalks in everywhere and go around mature trees wherever possible.
- Parking on both sides of the street within a one block radius of the school presents significant bottlenecks and challenges. Allowing parking on both sides of the street will be the sole reason a child is significantly injured or killed. It's negligent, especially given the lack of adequate parking for the teachers. Therefore the teachers saturate both sides of the street making a dangerous challenge for cars during pick up and drop off. It also presents a place for children to enter traffic on a blind way to distracted drivers.
- "Patrons drive way too fast during drop off and pick up. Roadways need to have something that forces drivers to slow down.

  Make fines higher for speeding. Let police officers ticket drivers for even minor infractions."
- Can not stress enough that we need sidewalks in front of houses.
- In order to get to McClure my child has to ride their bike on a few streets that do not have sidewalks and cross the train tracks. It can be dangerous with morning and after school traffic.
- I'm surprised and disappointed by how many parents park illegally near school - for example, ignoring the "no parking here to corner" signs near an intersection. It makes it perilous for the kids crossing at that intersection. Can those rules actually be enforced?
- The instruments for band and orchestra are very heavy - would be better to consolidate the days they need to bring them or offer to leave them overnight
- Cars drive very fast in the neighborhood. Several uncontrolled interections are very unsafe. Cars do not stop completely at stopsigns and crosswalks.
- There should be at least one road with all stops at every intersection in field park. It makes it unsafe for elementary age kids to always recognize there is a stop and for which way.
- We live on the SW corner on maple and

garden and there is not a crosswalk across garden. Cars are often driving faster than they should be due to no stop sign on garden heading north/south

- The corner of Maple and Garden has no Stop sign for Garden drivers and there is no cross walk. Cars drive down Garden too fast.
- We need pedestrian crossings better labeled at Wolf and 48th streets. Many students cross here and cars do not acknowledge current signage. Many LT sports teams use this intersection in their warm ups / runs.
- People consistently blow/roll through stop signs in our village and drive too fast. I watch it everyday and it's very disheartening. I'm frankly surprised more people are not getting hurt by inattentive and aggressive drivers.
- We need a crossing guard at Hampton and Oak and Hampton and Oak and Rose. We need more sidewalks west of Hampton
- My kids bike/walk/scoot to school when time permits. We are a Laidlaw Family, but live in Old Town South, so my kids have to cross through the underpass and then travel on Prospect Ave, which lacks sidewalks and could be unsafe. In addition, we are missing a flashing light, similar to the Field Park underpass, that alerts cars to crossing pedestrians. We wish these things were provided so all the Old Town South kids have a safe path to get to their neighborhood school on bike or by foot.
- Wolf Road traffic is fast and sidewalk is close to street. Intersection of Park and Wolf is dangerous.
- Wolf road always scares me, I know there are crossing guards after school, and that's great. There are a ton of cars and the some stop signs dont say "Four way stop" or indicates that some intersections do not have a stop sign. I wish there was a speedbump on Hampton Ave, because people fly down the street after the expressway exit.
- Students along Wolf Rd, Ridgewood or Timber Trails cannot use the sidewalk along Wolf Rd when there is snow. Most residents shovel the sidewalk but the snow plow pushes the snow and ice over the sidewalks. Kids cannot safely walk along the public sidewalk or have to walk in the street along Wolf which is unsafe. Is secondary plowing or even heated walkways an option to keep the sidewalk clear of snow and ice?
- Please put in sidewalks in forest hills. We need them! The cars drive so fast!
- Sidewalks on fair elms would make walking and biking with our kids to school and to the park incredibly more safe.
- Highlands would greatly benefit from offering bus service, even for a fee, to families. The drop off & pick up situation is time consuming & causes incredible traffic backups. Busing students from Springdale, Ridgewood, and other areas would relieve traffic congestion & relieve the burden of transportation from families. Students are crossing multiple four lane roads to get to and from school which is simply not safe,
- We live on Fair Elms (48th block) and desperately need sidewalks and repaving. Many instances our kids have been in danger bc of no sidewalks.
- There is no safe path for kids in Springdale to get to school at the highlands. The answer when questioned is that no on can force highlands residents to add sidewalks. That's fine. Then the village and the county should pay for a sidewalk to extend completely along willow springs road and to the light at 55th street to cross. There is now a new sidewalk across 55th street going east to laurel and the kids could use that to get to school and there is a bike lane on some streets going into the highlands school. This is typical of how anything that has to do with highlands can't be addressed because it is unincorporated. We'll flood your houses in western springs, too bad, we're unincorporated. Your kids can't bike or walk to school to the highlands, too bad

we're unincorporated, but make sure that you pay premium western springs taxes.

- THERE NEEDS TO BE A MANDATORY ENFORCED HELMET RULE IN THIS TOWN FOR 16 and UNDER. It would take away the peer pressure and it is critically important not to feel peer pressure not wear a helmet or be bullied for wearing one. It could save lives. Our children bike and scooter everywhere. This needs to be ticket enforced to take away the relaxed attitude and make all the kids have no choice but to wear them and be safe. This would be a HUGE improvement to biking and kid safety in this town.
- As a pediatrician, I'd really love to see more kids safely biking/rolling to school. I'd like to see more kids being encouraged to wear helmets and a required biking safety course to bike to school. I live on Lawn, and people speed down our block regularly. It would be great to have a speed bump or two by Grand Avenue, especially since there are preschool kids out playing daily. It would also be nice if the respective PTOs could organize designated parent volunteers that would walk/bike with a group of kids each morning/afternoon.
- "I really think the city should improve safe access for students to bike to school. We live in the Forrest Hills neighborhood and would love it if there was safe passage from there to McClure through Spring Rock park and bike lanes to McClure. I also think traffic speeds on 47th are a significant problem - officers patrolling the street during commute hours and/ or speed cameras would help with significantly.

  If the city could take concrete steps in these areas, I think we would see a significant jump in children taking healthier transportation options to school from ForrestHills neighborhood."
- I don't have an issue with my son walking to school but crossing the train tracks and the 47th street / Willow Springs Road intersection is very concerning. There are SO many kids and the Starbucks is always busy…..it's just a bad corner. There should be additional crossing guards.
- This town needs sidewalks EVERYWHERE. Given the amount of landscaping and delivery trucks in the neighborhood it is only a matter of time until we have a major accident with a child in the street trying to get to school or somewhere in the neighborhood.
- Pls build sidewalks along Fair Elms, south of Forest Hills Elementary.
- Crossings can be dangerous with lots of distracted drivers
- The intersection of 51st and Lawn becomes a pseudo-parking lot for SJC afternoon pick up. It is disruptive since there are no side walks on on Lawn Ave, south of 51st.
- My comments mainly pertain to getting to the high school, because walking/biking to Laidlaw and McClure from Old Town north is already easy and safe. Crossing 47th at Wolf and at Gilbert/Willow Springs Road would be better with a crossing guard.
- Overall, between the train tracks and all the heavy traffic around the Wolf/ Hillgrove/Burlington intersections and then Wolf & 47th intersection…mornings and afterschool are a nightmare. Vehicles run red lights and always in a hurry to turn…I do not feel safe walking with my kids. They're not old enough to walk on their own but I see other kids walking/riding bikes and it always makes me nervous. Wolf and 47th would benefit from a "no turn on red when children are present" similar to other intersections. Not sure what can be done around Wolf/Hillgrove/Burlington but that's a scary intersection even during non school hours.
- we live in old town north and our kids have to walk to Laidlaw by crossing over Garden Ave at Maple, on the top of a hill where there are only stop signs for traffic at one direction. Our children have to cross over the direction of traffic that has no stop signs and visibility is poor due to it being a downward hill on either side. Many drivers

Page 390 of 566

rip up the hill at unsafe speeds and kids will be in the middle of the intersection since they didn't see the cars over the hill. There are also MANY areas with no sidewalks in old town north. This doesn't affect us at our location but absolutely affects other children and families. Adding sidewalks to all properties should be a priority for the Village when it comes to keeping kids safe on the way to school.

- I think there should be crossing guards at 47th street and Gilbert before and after school. Way too much traffic and too many cars in a hurry. There also should be a crossing guard at LT North. The backup of traffic due to the lack of a crossing guard is crazy before and after school.
- We need sidewalks all along Fair Elms up to the school to make it safe for the kids to get there!
- The crossing guard on 47th and wolf is often in their car in the morning. There have been occasions where they do not get out of their car to help cross, which is disappointing. When it's WS police, they're always out of their car and super friendly/ helpful. But my kids have not had the same experience with non WS police crossing guards.
- "*No one stops for pedestrians in the crosswalks on Wolf between 51st and 47th. The entire LTHS cross country team often stands at the corner waiting, and no one stops for them. It's common courtesy to keep our children safe, and stopping to let a pedestrian cross is the state law!
  *The 47th and Wolf intersection is soooo dangerous. There are many accidents there. Can we please get ""No Turn on Red"" signs there?
  *We also need a stop sign at the corner of Rugeley and Caroline in Springdale. The SJC parking lot feeds out right there, and there are crosswalks where children walk to school. I am a cross guard at SJC. A stop sign would be an additional and simple safety precaution.
  Thank you!"
- Forest Hills is an extremely walkable community that has patchwork sidewalks preventing students from making it to school safely
- Wolf Road and 47th are like mini highways through the middle of a very small town and something MUST be done.
- Living in a neighborhood across a highway/ busy street makes it very challenging to get to school without a parent present
- "We need something done at Grand and 47th. It is so dangerous! Many people crossing there and speeds are way too fast. Drivers zoom across 47th and onto Grand at dangerous rates of speed. Would love to see no through traffic!"
- Need more 4 way stop signs in Forest Hills. Need safer way to cross 47th street to get to McClure. Wolf Road is very busy for children to walk down. Would like child to take walk down side streets but very difficult to cross street. Need pedestrian walk ways with flashing lights.
- Traffic coming down the Central Ave between the 51 00 & 5200 blocks has always been a concern. Between speeding traffic (most of it from parents dropping their own children at Forest Hills), the never-ending construction trucks, and landscaping trucks, it's not safe for kids to bike/walk in the street. We've lived here for 13 years and it has constantly been an issue.
- It is unsafe for students and families to walk to school without consistent sidewalks. Young children, parents with babies/toddlers are often in the street. Western Springs residents should have access to safe, well maintained and consistent sidewalks.
- The lack of sidewalks is a HUGE problem. Living on a double block (where cars go extra fast) without sidewalks is very unsafe, for children especially. Speed bumps and sidewalks should be a priority for the safety of children and all neighbors of Forest Hills.
- I worry about her walking alone among workmen and huge trucks that might not see her. I told her she absolutely not to wear her ear buds when walking. I hope she obeys.
- Many children ride their bikes on the street, which is great, but the block of Hampton (between chestnut and maple) need to be parking only on one side. The middle is too tight for cars and bikes to pass and becomes a danger to both.
- Construction around field park elementary was becoming an issue at end of the school year. Cars at Franklin and 43 corner were one way but sometimes impatient and difficult to navigate and see around the fence
- The pass through on the 5000 crossing at Woodland is not clearly marked and there are often work vehicles blocking the cross walk. More clear signage and road marking would be beneficial.
- Crossing 55th at Laurel is the best option, but it is not a safe intersection. Also the street on both sides lacks sidewalks or bike lanes.
- In the winter months as we live further than most from the school, it's helpful if our neighbors shovel in a timely manner.
- My older children attend Nazareth Academy. Currently there is no crossing guard at Ogden. Although there is a light at Gilbert and Ogden few people are looking for bikers. Please consider working with LaGrange to offer this valuable service. Thank you!!
- "The traffic around McClure is intense when school gets out; too many distracted drivers not paying attention to anyone but their own kids.
  Also, the McClure kids are reckless on their bikes. If there were more crossing guards or stationed police officer, perhaps they wouldn't be so careless."
- We are missing sidewalks and cars quickly turn off 47th to our street sometimes at a high speed.
- Sidewalk is desperately needed on Fair Elms Ave from 47th street to the school.
  Also the intersection of 47th street and Fair Elms needs aSAFE connection to spring rock park.

19. How frequently do you use the following modes of transportation? [484 answered; 86 skipped]

In a car

- Daily [306]
- 5 days a week [59]
- 3-4 days a week [48]
- 1-2 days a week [53]
- Never [16]

Walk/roll

- Daily [176]
- 5 days a week [40]
- 3-4 days a week [85]
- 1-2 days a week [126]
- Never [48]

Bike

- Daily [21]
- 5 days a week [8]
- 3-4 days a week [56]
- 1-2 days a week [179]
- Never [214]

20. How safe do you feel walking, biking, or rolling around the community? [466 answered; 104 skipped]

- Very safe [60]
- Safe [215]
- Neither [77]
- Unsafe [79]
- Very unsafe [35]

21. What currently prevents you from walking, biking, or rolling around the community? [459 answered; 111 skipped]

- Time [80]
- Lack of crossing guards [35]
- Unsafe intersections and crossings [191]
- Speed of traffic [179]
- Amount of traffic [103]
- Limited mobility or a disability [4]
- Distance from destination [58]
- Weather [88]
- Combining multiple trips into one [41]
- Nothing! I currently walk or bike around the community [89]
- Other [21]

22. Please provide any additional comments

on walking, biking, or rolling around the community. [131 answered; 439 skipped]

- SIDEWALKS NOW!
- This town needs sidewalks and streetlights ! Also, the condition of the current sidewalks needs to be improved. There are too many cracked and uneven sidewalks.
- In the forest hills community, all traffic tends to flow in off 55th on Grand Ave. People exceed the speed limit, and lack of sidewalks in the forest hills community makes it unsafe for our children to walk, bike or roll.
- Glass and other debris in road do not provide a safe place to walk dogs. It is too easy for dogs to step on something sharp.
- There are intersections
- It would be nice if we had sidewalks especially by the pool area.
- Crossing 47th and 55th streets is difficult for bikers and pedestrians. There is no safe way to bike on these streets. Walking along 55th street is also unsafe at many points.
- There needs to be stop signs at every intersection in Forest Hills
- There are too many motorized scooters and electric bikes on the sidewalks and on the walking path in Spring Rock Park please also address this with your planning. They exceed safe speeds nearly always.
- "Wolf Rd. and 47th in particular are just so dangerous. It's like a mini highway in the middle of a very small town community. Something needs to be done.

  Also, Grand Avenue in particular, the cars that fly down it is shocking. I don't know if it's because that's a main way to get to Starbucks etc. but it is absolutely wild."
- GET RID OF ALL THESE E-BIKES THAT YOUNG CHILDREN ARE RIDING ON AND MAKING IT UNSAFE FOR OTHER DRIVERS AND NEIGHBORS. BAN FROM THE STREETS OF WESTERN SPRINGS LIKE YOU HAVE DONE AT SPRING ROCK PARK!!!!!
- The people have no protective gear on.(gloves,Helmet,long pants, anckle hig closed toe shoes.
- The intersection at Hillgrove and Wolf and Hillgrove and Lawn are both fairly dangerous to pedestrians walking.
- I find that neither myself, nor my children when they lived with me, ever had any problems safely driving, walking or biking in the neighborhood; especially given the availability of underpasses at busy traffic areas such as 47th street and the railway crossing. Also, in the past, stop signs were added at intersections with 2-way stops that were confusing; making them much safer 4-way stops. Although there has been a push from time to time to add sidewalks, the proponents never present the need for same via studies done of injuries or dangerous encounters. The addition of such sidewalks, at great expense for both installation and maintenance, without a data-based determination that there would be a substantial benefit has little merit. I have lived in the Village 30+ years and have always felt very safe walking, driving and when I used to ride my bike.
- The streets are not in the best repair and upkeep and when riding a bike I have to keep my eyes on the road directly in fron of me. If not, be prepared for some unpleasant bumps and jolts.
- I like to walk but the students are making it unsafe especially in the business districts.
- There needs to be some form of regulation for ebikes, motorized scooters, motorized skateboards, and mini motorcycles (why are mini motorcycles even allowed?!). If they are motorized they should be licensed/ insured. They do not respect pedestrians/ stop signs. I even seen them on main streets, i.e. 47th street. Auto drivers deserve the right to be protected too.
- This is a community designed for families and the lack of sidewalks is shocking and infuriating. A particularly dangerous street to cross is 47th st north or south of Wolf Rd (for example, when going to Spring Rock park from the south). Perhaps adding a crossing lane with a flashing light, such as the one near Denning Park, would be helpful there.
- Crazy to have so many paved and unpaved sidewalks in Forest Hills. Not unusual for landscape trucks and cars to be parked on both sides of Fair Elms and pedestrians and bikers literally need to walk in the middle of the road and hope there aren't car coming. Even worse during hours where parents are lined up to pick up students.
- It's not difficult to get around based on my usual paths, but there are some areas where I wouldn't walk or bike because of lack of sidewalks or bike paths
- I see many students traveling along 47th street going to/from school. I also see many adult bike riders and groups of bike riders on 47th street. Cars are going way over the speed limit, thus making it dangerous for these students and bike riders. It would be great to establish a dedicated bike lane in each direction. This would reduce car lanes to one in each direction and also slow the traffic. Thank you.
- Crossing wolf rd is a challenge. Need a better way for kids and adults on foot or bike to be able to cross at hillgrove/ burlington
- We feel very safe here
- "Concerns:
  Too many drivers doing a rolling ""California style"" stop at intersections.
  Too many landscaping trucks and construction vehicles which do not have a business license for Western Springs.
  Too many cars parked on their driveway and extending over the sidewalk to block the ability to walk through.
  Too make e-bikes acting like cars."
- The areas surrounding Wolf and Hillgrove and Wolf and Burlington are extremely dangerous and I avoid it at all costs. I take alternate routes when driving, walking or biking and advise all family members and friends to do the same. The speed of drivers crossing the tracks in both directions MUST be reduced and provide a safer area for pedestrians of all ages to travel safely. Second to that area is the Hillgrove and Lawn triangle. This is very difficult for pedestrians and bikers to navigate safely.
- There are no sidewalks where we live and cars like to cut through our neighborhood to avoid the 47th & Wolf intersection. They are always speeding. We are near a school. So, people are walking, jogging on the street with speeding cars. Howard, Franklin & Johnson are dangerous.
- Often middle school aged bikers do not pay attention when they are biking, down the road and at intersections.
- Cars do not yield to pedestrians in crosswalks. Drivers are not looking for kids.
- I try to walk or bike as often as possible.
- More sidewalks desperately needed and more 4 way stop signs in Forest Hills
- Western Springs is a VERY safe community. Part of the reason why we moved here. Our family walks our dog in the Forest Hills area (no sidewalks) multiple times a day. We have never had any safety issues.
- As an adult and a seasoned walker/bike rider, I feel very comfortable navigating the streets of Western Springs on foot or bike. This is very different for my 5 and 8 year old children who I would prefer not to have to walk or bike in the street.
- Wolf and the tracks continues to a difficult intersection and along 47th street. My kids do not need to cross either to go to school, but for getting around town I worry about them crossing those areas.
- I really wish LT south campus and Western Springs would do something to make the LT drop-off and pickup easier to navigate. There needs to be a better drop off and pickup zone for South campus. It is a nightmare in the morning and after school. Please work with the WSPD to come up with a better drop-off/pick-up zone.
- Need sidewalks and more safety precautions for Gilbert especially
- A multiple-car fatal (assuming given

the status of one of the cars) crash just occurred today on 47th and Willow Springs Road because of a speeding SUV. This is blocks away from the high school and close to dismissal time. There are many crashes on this block as well as many crashes on 47th due to speeding and visibility. Plainfield road expansion is also a concern -although I don't know much about the status of that project.

- We are in the highlands and not having sidewalks hinders all of our decision to let the kids walk or bike
- The lack of sidewalks is the biggest barrier to me
- We need sidewalks in La Grange highlands, Indian head park, and ridgewood areas.
- The amount of traffice on Wolf and cars not stopping at those stop signs are unsafe. The traffic light by the library being longer for those walking or biking would be helpful. It may be helpful if our police department starts ticketing cars on Wolf road who are speeding or not stopping at the stop signs.
- We need sidewalks!!
- The downtown area gets a little busy and it is confusing for kids who do not fully understand traffic patterns trying to cross.
- Ridgewood neighborhood needs sidewalks
- Wolf seems like a good candidate for a bike lane? Possibly an East-West street should also have bike lanes?
- "With the amount of construction and yard service trucks Central ave between 53rd and school is a very unsafe. I have been walking this route with my son for 4 years now and I have seen a lot of close calls. Cars have to squeeze between yard service trucks. Kids on bikes are having to squeeze through as well. It is only a matter of time before a child gets hit.

  A lot of kids ride their bikes up this street and then feed down 53rd. Having a sidewalk on 53rd and down central would greatly improve safety. Also, if you put a sidewalk on the house on the NE corner of 53rd and Woodland the kids could take a sidewalk all the way down.

  I live in Forest Hills and walking my do at night is dangerous. 54th doesn't get a lot of car traffic but 53rd does get a lot more traffic because it feeds off of commonwealth and then North and South on the side streets.

  I am not sure what you call the pedestrian walk ways between the streets but you may want to consider putting speed humps at the crossing. I really like those pedways.

  We often bike down central to the pool and to town. We really like how what you did with the tunnel. It would be easier if there were a few more ada complaint access points to the sidewalk. The corner of Burlington and Central is a scary corner. People really fly in and out of there.

  Have you considered putting in a bike path down the 294 sound barrier. It would be a great way for residents to bike to Spring Rock Park.

  Most of the people that live in Forest Hills would love more walk and biking friendly paths.

  The bushes at 54th and wolf really limit visability for cars pulling on to wolf. I have seen a couple people pull too far and almost hit kids using the sidewalk. It is particularly bad for kids riding north on the west side of the street since most people only look north."
- Our main concern is the intersection of Wolf Road and 48th Street. Despite the crosswalk, cars on Wolf rarely stop when pedestrians are presents. This makes it difficult to cross for families that attend Forest Hills Elementary but least east of Wolf Road. Packs of runners from the high school also use 48th Street every day and cross at this intersection, often with difficulty. Thank you!
- "numerous construction workers in our Forest Hills community, many of whom go too fast and often
  treat the ""stop"" sign corners as a suggestion"
- Cars travel too fast, do not come to a complete stop at stop signs. Children on e-bikes and e-scooters flying along the streets and sidewalks without slowing down at intersections.
- Please PLEASE install sidewalks along Fair Elms and Central from 47th to at LEAST the Forest Hills Elementary School, if not the whole neighborhood
- Sidewalks please!! On every block
- "unsafe crossings on 47th and Wolf and 47th and Gilbert
  unsafe train crossing"
- Drivers do NOT stop at stop signs. We should have "camera" signs up —even if there's no camera !! It's awful! We live near Sereda Park. We see cars go right through on zHampton. No stopping!
- I can't add anything except there aren't any cops in the streets. There is always, everyday not just speeding but really bad speeding and rare if ever someone stops at a stop sign. It's nice to have nice cops on the force but come on - protect our kids and community and slow traffic down. Start handing out tickets. Pick a street - Grove and Oak, Forest and Oak.
- Need need far better roads and streets to allow for safer outdoor activities… And this is coming from someone who moved from the city almost 5 years ago now. Honestly it's unacceptable.
- As I mentioned, the intersection of Gilbert and 47th is very dangerous.
- Live in old town north in an area without sidewalks, surrounded by blocks with sidewalks. Would be nice to have them on our block as well.
- Very safe. We don't need more sidewalks.
- We need sidewalks around Sereda Park. We also desperately need a crosswalk to get to Sereda Park. There is no safe way to get to the playground. Additionally, there are parked cars on Hampton which create blind spots for crossing (where I repeat there are no crosswalks) and Hampton is a main artery for traffic with many delivery trucks, cabs, and landscapers who tend to drive not as carefully as residents. It is VERY dangerous for children to get to Sereda Park.
- Sidewalks in Forest Hills would be great!
- People speed too much down our streets and while I feel find walking with my kids, I rarely let them go alone. One semi related issue that I'd like to share is that at school pick up on Maple and Hampton, people park between the intersection and the sign that says "do not park behind this sign" every day. At first I thought nothing of it but now I realize, when someone is parked there and I am going to turn left onto Hampton, the parked car completely obstructs the view of student walkers and the path. I can never see a kid about to cross and have had to stop quickly so many times. Also, no one can fit to turn left from Hampton onto Maple then either. Please make it clear that people are not supposed to park there. It makes it so dangerous.
- Very unsafe areas for walk or bike.High speed and not protection for kids .Village boards and police don't care at alll
- We need four way stops in Old Town! Cars are constantly speeding past pedestrians when they have the right of way
- I'm so disappointed with the 5600 Wolf development. This just made the traffic for Highlands and SJC much more dangerous. Hope it was worth it. Hinsdale denied this project, why didn't we? Will Wolf and Park ave/ 59th have more police presence during school drop off and pick up?
- Unsure why infrastructure does not include sidewalks throughout south of 47th street in WS
- Cars speed on the 4300 to 4400 block of Lawn-many 40-50 miles an hour, even bf and after school. no speed enforcement in western springs, very dangerous. stop cars

from blocking sidewalks overnite and in the morning

- We walk to church at St John of the Cross but there are patrons who habitually park in the cross walk or outside of the parking spaces on Caroline near Courtland Circle which could endanger pedestrians crossing the street.
- I live on Gilbert Ave and there have been numerous times that I was almost struck by a bicyclist or e-bike using the sidewalks.
- People need to come to complete stops at Stop signs. People need to slow down in neighborhoods. Village needs to complete/ extend sidewalks on Prospect between Walnut and Hillgrove.
- I witness SO MANY people walking in the streets rather in the sidewalks that are directly next to them. People walking dogs, jogging, pushing kids in strollers. I cannot understand why anyone would choose to walk in the street rather than sidewalks. Just a comment….not sure it matters, but it super annoying having to constantly drive around people taking long walks in the street.
- Too many cars not coming to complete stops at stop signs. The cars roll through the stop signs vs stopping. Happens frequently, especially after school hours and around schools
- Downtown could use more safety measures for people crossing over Hillgrove and intersections around Wolf and Starbucks
- There are places in town that are just fine for walking and riding bicycles. However, when we are out walking our dog we encounter places without sidewalks in a number of different places very close to our home. That is not a safe way to walk to school or to walk a dog.
- The biggest problem I see regarding safety is the drivers. They often ignore stop signs or are simply impatient and unobservant.
- Our street, 51st Street in Springdale, gets a lot of cars going too fast.
- I walk most days but only where I can walk on sidewalks which is very limiting.
- The intersections at the railroad crossing on gilbert have no defined crosswalks - students crossing dodge traffic as vehicles always come to a rolling stop - the streets perpendicular to Ogden should be all stop signs not every other street - traffic speeding into WS to get off Ogden traffic - drivers not from WS speed at 10-20 miles over speed limit regardless of signs saying 25 mph - cross walks are not well defined so even crossing streets is dangerous
- Aggressive, reckless drivers who don't follow traffic laws or signs make this neighborhood incredibly unsafe for all pedestrians and bikers.
- I walk from Ridgewood to town through Forest Hills almost daily. The lack of sidewalks makes it extremely hazardous, especially in the south part of Forest Hills. There are lots of landscaping and contractor vehicles parked on the road, the streets are not wide, and we often have to jump up on the grass when cars come.
- Speeding cars (especially on the small side streets), stop signs ignored, distracted drivers, are a MAJOR factor.
- 4 way stops and speed bumps (especially coming off Ogden streets) are very needed
- Please see the comments given previously.
- cars drive very fast and we lack dedicated highlighted cross walks at busy intersections. There are crosswalks but they need to be more pronounced with better signage and flashing lights
- There is a dangerous sudden curb for bikes on the sidewalk on Wolf Road near Courtland Circle that I've hit before when I'm headed South. A warning of some kind would be nice.
- Side walks in forest hills are needed for my children to safely bike
- I would like to to see more additions such more leds in intersections and more cameras to monitor motorists
- More crosswalks please
- People drive too fast, drive with distractions, and roll through stop signs. These problems aren't specific to western springs, and I don't know what the solution is.
- The safety issue really comes down to vehicle traffic. We need to require obedience to speed limits and stop signs. This includes young people on motorized bikes.
- As mentioned, train crossing --not giving right away to those on tracks,cars stopping on tracks!, and lack of car signalling.
- The speed of traffic on ogden between 294 and wolf is unreasonably fast and the police presence there has disappeared.
- No cross walk into sereda park. No cross walk or stop sign (traffic heading north/ south) on garden at maple. Cars are driving too fast
- There are too many landscaping trucks and construction trucks which makes navigating blocks without sidewalks very dangerous!
- Roads need to be paved, especially Hampton. More speed bumps on Hampton can help speed. More crossing guards befor and after school
- I enjoy walking around my neighborhood when it's good weather.
- Difficult to cross 55th Street
- There should defiantly be sidewalks everywhere, I don't understand why some streets so and some dont. Especially by Sereda park. People have to walk along the side of Hampton which is really busy from all the cars flying down there after they exit the expressway.
- "Two poor locations come to mind -
  1. Accessing LT/Garden Market from north on bike or foot. Many kids cross at Clausen which is very busy with morning 47th St. traffic and turners at Mariano's.
  2. Not necessarily school related, but new Spring Rock park tunnel design is not good! Dumps walkers and bikes into parking spaces on south to cut thru parked cars. Please eliminate 3 or 4 spaces to allow proper sight lines and create inviting area at park entry! Clausen tunnel is better executed."
- I work at LTHS and walk to work. The intersection of Edgewood and Elm in LaGrange is extremely dangerous. It should be a 4-way stop! I see near accidents almost daily. Also students speed down Elm, Edgewood, Peck etc after school is out and it is very dangerous for cars and walkers. We need more police and a slower speed limit after and before school hours. Maybe police handling traffic and definitely a four way stop at Edgewood and Elm.
- The biggest issues I see are at the intersection of wolf rd and the train tracks. Crossing at wolf can be challenging. Also people driving on Hillgrove east of wolf sometimes swerve into the oncoming lane to get around obstructions in their way.
- I love the sidewalks in Western Springs, but they are not everywhere. I used to walk to the Garden Market along 48th St., but now that's closed off. I am uncomfortable walking to the Market along 47th street because the sidewalk is so close to the busy street, and in winter homeowners don't shovel the snow on 47th street sidewalk.
- Please put in sidewalks everywhere
- Sidewalks on fair elms would make walking and biking with the kids incredibly more safe.
- 10-12 year old children operating electric bicycles and motorcycles going up to 20 mph, and are a concern for my wife and me. Our concern is more for the safety of the children than for ourselves. They do not obey traffic signs, and do not have the judgment to operate these vehicles safely.
- We desperately need sidewalks for safety.
- HELMETS for children … especially elementary and JUNIOR HIGH AGED
- The main intersections downtown with the train tracks are tricky to navigate as an adult, let alone a kid/teen.
- I live in Old Town North and Prospect Street lacks sidewalks in many areas, there are frequently kids forced to walk in the street coming from the pool or under the

underpass on the way to Laidlaw. Sidewalks here would be a top priority.

- Overall we feel very safe strolling around. The most frequent places we walk to are Spring Rock Park, the WSSC pool, Laidlaw, the Library, Downtown and the rec center. It is frustrating that there are not sidewalks on the Northern side of the underpass that connects Spring Rock Park to Old Town North. There are so many people who walk that route on Prospect Ave in the early mornings- and it is dangerous because it is dark in the early mornings during the winter and people walking in the street are not visible (many people wear headlights while walking, but many do not and I am very worried about a car vs pedestrian accident in that area)
- So important to make eye contact with drivers even when they have a stop sign. All of the landscape vehicles around town can make things dangerous
- there are 2 crosswalks to go across 47th. The one on Wolf is so busy. The only other option is to take central which isn't wide to accommodate more that a few bikes.. It disgusts me that the Village has money for adding lines and re-paving parking spots but won't put sidewalks on all parts of Forest Hills.
- While we do bike and walk quite a bit around town, there are certain places that are hard/feel unsafe to get to. The north side of the pool is one such place. Last night there was a swim meet so a large number of cars were parked on either side of Prospect. With no sidewalks on either side of the street, parents and small kids were walking in the middle of the street, which was already tight for a car to fit through. This is a frequent occurrence there.
- Overall I think this is an issue everywhere but heavy traffic and vehicles (young and old drivers) not properly stopping at stop signs, not letting pedestrians through at crosswalks. Everyone always seems to be in a rush. Intersections around the train tracks are by far the worst. Our neighborhood has a lot of families with kids so you would think people would be more cautious but that's not always the case. Also, want to mention the increased use of electric bikes and scooters by young children is very concerning as they don't always follow the rules of the road.
- , parents Shd watch their children. A lot are out of control. Don't care about others motorists
- We do not want or need sidewalks in the Ridgewood subdivision. There are no thru streets so car traffic is limited mostly to residents. It is safe to walk or bike in Ridgewood.
- more sidewalks along Fair Elms!
- My kids feel very safe in the community but it only takes one person to blow a light/ stop sign.
- A sidewalk at a minimum on each side of the road leading to our elementary schools in Forest Hills would make an incredible difference in providing children, safe reliable ways to school that prevent a fatal accident from occurring
- I do walk but have to cross very busy intersections to get anywhere. I would NEVER let my child cross 47th and that's a problem.
- It would be great to have sidewalks in the south of 47th street east of Wolf area.
- I have grown up here and now live here. The lack of sidewalks reflect a lack of decision making ability.
- The intersection of hillgrove and wolf is scary whether on foot, bike or car!
- There should be sidewalks on at least one side of the street to people aren't walking on the road in danger of cars. Lots of families with young children in strollers and /or walking dogs
- Sidewalks make travel safer and also promotes neighborliness as we can pause and chat on a sidewalk, not safe to stop in the street to say hello.
- "4 grandkids in town ages 5,7,9,11- No sidewalks to school for 2- FH- awful Streets w/ continual Construction traffic make it unsafe. Streets in FP, FH need repair as well. E- bikes/ scooters have added to the unsafe passage for walkers& drivers"
- Too much traffic, limited sidewalks.
- Forest Hills needs more sidewalks to keep pedestrians safe. There are too many distracted drivers and cars driving too fast in these residential areas. I try to only walk on the streets that have sidewalks to avoid getting hit by a car.
- We walk more when the weather is better.
- Bikers need to obey traffic signs. I see bikers mult times during the week not stopping or yielding. Adults are just as bad as the kids. Hillgrove & Lawn is a disaster! Grand & Burlington is also a problem area. So many near misses!
- I feel the intersection at 47 and Gilbert can be tough at school release/starts as lack of awareness when to cross properly.
- My older children attend Nazareth Academy, however they rarely ride a bike due to no crossing guards at Ogden. Could Western Springs work with LaGrange to cross at the light by Gilbert and Ogden? When my kids tried to walk/ride this crossing was always scary even with the crosswalk because cars are not looking for students.
- Lack of traffic enforcement

23. What is your age group? [455 answered; 115 skipped]

- Under 20 [4]
- 20-24 [1]
- 25-34 [13]
- 35-44 [200]
- 45-54 [154
- 55-64 [39]
- 65 and over [44]

24. How would you describe your gender identity? [453 answered; 117 skipped]

- Male [93]
- Female [344]
- Non-binary/non-conforming [2]
- Prefer not to say [10]
- Prefer to self-describe [4]

25. How many vehicles does your houshold have? [451 answered; 119 skipped]

- 0 [0]
- 1 [36]
- 2 [320]
- 3 [78]
- 4 [14]
- 5+ [3]

26. How many bicycles does your household have? [449 answered; 121 skipped]

- 1 [32]
- 2 [60]
- 3 [68]
- 4 [152]
- 5+ [137]

27. What is your connection to Western Springs? [452 answered; 118 skipped]

- I live in Western Springs [412]
- I work in Western Springs [30]
- I visit Western Springs [23]
- I go to school in Western Springs [39]
- I own a business in Western Springs [5]
- Other [8]

28. What is your household annual income? [388 answered; 182 skipped]

- Less than $10,000 [0]
- $10,000-$14,999 [0]
- $15,000-$24,999 [0]
- $25,000-$34,999 [1]
- $35,000-$49,999 [0]
- $50,000-$74,999 [7]
- $75,000-$99,999 [17]
- $100,000-$149,000 [34]
- $150,000-$199,999 [47]
- Greater than $200,000 [282]

B. SURVEY #2 RESPONSES

Survey #2 was available from July 2025 to October 2025. The questions and results are provided below.

1. Do you have school-aged chidlren? [361 answered; 27 skipped]

- Yes [294]
- No [67]

2.What schools do you or your children attend? Please check all that apply. [327 answered; 61 skipped]

- Field Park Elementary School [60]
- Forest Hills Elementary School [63]
- John Laidlaw Elementary School [53]
- LaGrange Highlands Elementary School [26]
- McClure Junior High School [79]
- LaGrange Highlands Middle School [13]
- Lyons Township HIgh School North Campus [29]
- Lyons Township High School South Campus [48]
- St John of the Cross Parish School [81]

3. The images shown in this section are potential tools the Village of Western Springs could use to improve pedestrian and bicycling routes. While additional study and approval will be needed to implement any of the recommendations and not all recommendations will be appropriate for all locations, the Village would like to understand which tools residents feel are the best fit for Western Springs.

Sidewalk Connections: A well-connected sidewalk network provides direct routes, accessibility, few dead-ends, and minimal physical barriers. [335 answered; 53 skipped]

- 1 - We don't need these. [12]
- 2 [7]
- 3 - Neutral [31]
- 4 [41]
- 5 - These are a great fit for us! [244]

4. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- Although the underpass connects Old Town South to Old Town North several of the most direct routes after the underpass don't have sidewalks.
- There's a house on Hampton between Walnut and Sunset ter with no sidewalk so our children have to cross busy Hampton twice to stay on sidewalks because it also ends north of walnut on the east side of the street
- The only think needed is regular sidewalks on all streets
- All streets in Forest hills should have a sidewalk - children live on all the streets.
- I think we need sidewalks over by Prospect. Children are frequently there in the summer to use the pool not to mention on their walks to school. I also think Hampton sidewalks are not safe...near Hampton/Walnut where it forces pedestrians to cross the street multiple times just to access the sidewalks.
- Keeping kids out of the street while walking is a positive, for sure. Broader sidewalks to support bidirectional flow is also appreciated.
- "Laurel Ave from 55th street to Plainfield.
  Willow springs road 55th to connect to sidewalk on West side of street to existing sidewalk"
- Field Park already has these

- "I live on 51st and Caroline and walk my dog around Springdale and Forest Hills.I feel the sidewalks around SJC are uneven and are cause for tripping. I tripped 5 years ago and broke my clavicle. My neighbor tripped in the same area (on 49th & Caroline) and broke her nose and a few teeth .

  Forest Hills is a walking your dog or strolling babies nightmare!!! Sidewalks are incomplete and start and stop all over the subdivision. It makes no sense and is a safety hazard for all who walk!"
- This is also true for anyone with a disability- child or adult.
- We need side walks for all the blocks in Forest Hills, not just Grand Ave.
- "Emphasize to ALL RIDERS -
  - if you ride any wheeled vehicle in the street you follow traffic rules.
  - if you ride your wheeled bike on the sidewalk, pedestrians have the right of way.
  - if you are on your bike and use one of the underpasses under the railroad tracks - stop, get off your bike and walk it through to the other side until you have a clear view of other people. (I am 78 years old and have been nearly knocked over by people of all ages riding their bikes through the underpasses). ride your wheeled bike through the underpass as the posted signs indicate. (The village should work with the railroad to ensure appropriate signage is up and readable). Crossing guards can remind ALL riders to do this!!
  - ensure that ALL the downtown sidewalk intersections on Hillgrove and Burlington beginning at Wolf Road and going west have the "Walk Your Wheels" decals on them.
  - ensure ALL riders treat private property with respect (no riding on lawns or driveways)
  - require bells on ALL moving bicycles so the rider can indicate their approach AND CALL OUT "Passing on your left" (or right if that is the case). (I've almost been hit by folks riding electric bikes)."
- We are in forest hills and there are no sidewalks until you get to the school on our route (down Fair Elms ave from the south). This is really important for our kids to be safe and out of the streets with cars/bikes on the road going to/from school.
- Along 54th place and laurel ave to cross W 55th street
- Southern end of Forest Hills has been improved now with the Grand sidewalk, but could use more.
- Sidewalk on one side of the street is satisfactory.
- Prospect Avery needs a continuous side walk for both school walkers and those going to the pool in the summer
- Down Lawn Ave please
- The area of western springs (especially near the rec center) that does not have sidewalks needs sidewalks.
- Additional sidewalk that connects the corner of Hampton and Maple to Forest and Maple on the south side through Laidlaw park would be helpful in increasing pedestrian access to the park and school.
- Would love sidewalks on Fair Elms Ave. so our kids can walk to school !
- Need sidewalks on Fair Elms avenue btw 47th and 53rd st.
- yes PLEASE! We NEED SIDEWALKS ON FAIR ELMS FROM 47TH TO FOREST HILLS SCHOOL!
- Sidewalks on all of Hampton, Reid and Prospect
- If Forest Hills residents want sidewalks added to their historically sidewalk free neighborhood they should pay their own way.
- "Bus stop at 53rd and Lawn
  Corner of 51st and Lawn. All corners because kids from so many schools need to use

this street- Forest Hills, St John of the Cross, McClure, and the high school. Important intersection."

- 51st through 55th street on Lawn has very few sidewalks and lots of children who would greatly appreciate the safety of a sidewalk
- Having continuous sidewalks once you exit the underpass near spring rock park. When you walk through the underpass from Burlington to hillgrove (going north) there are no continuous sidewalks that allow you to walk north toward Laidlaw. You have to cut through the WSSC parking lot in order to weave your way to continuous sidewalks. It would also be great having a cross walk across hillgrove near colonial barber. The sidewalk is cut out like a cross walk should exist, but lines are not painted on the road.
- South of 51st in Forest Hills needs contiguous side walks, at least on one side of the street.
- The path from the tracks to Laidlaw (near the pool) is lacking vital sidewalks for kids walking to school.
- Forrest Hills neighborhood does not have contiguous sidewalks everywhere. And the construction in the neighborhood forces kids on the streets.
- My block recently got sidewalks but many blocks in forest hills do not. Hopefully they are all in the plan to recieve. With all the construction and construction vehicles in forest hills. Having a safe passage for the kids is very important.
- We live on Central Avenue, South of the school, and we do not have a complete sidewalk on either side for kids to walk all the way to the school. So, starting with Central Avenue would be great!
- Sidewalks would be great. Managing dogs on those sidewalks during school hours -- 8:-8:45a / 3-3:45p) would be incredibly helpful. Long leashed and reactive dogs have already made the school year difficult for many kids with sensory challenges and special needs who run into yards and worse, the street, for safety from these dogs. At Forest Hills alone, the school area is tight for pick-up/drop-off and there are plenty of kids who are afraid of dogs that scream when they come near them. Not to mention, dogs combined with bikes, scooters and cars it a lot of chaos for kids that are calmly trying to start their day.
- We need sidewalks in our neighborhoods, especially Forest Hills. Someone is going to get hit by a car.
- We desperately need sidewalks on our street and connecting street. Kids cannot get to 47th (Spring Rock Park) or Forest Hills safely on Fair Elms currently due to no sidewalks.
- We need sidewalks on every block in Forest Hills. Children (and all pedestrians) need a separate space to walk away from traffic and should be encouraged to walk/run on sidewalks where available. We don't have streetlights here and walking/running in the streets during dark hours is dangerous.
- Not just getting to school but connected sidewalks are needed to get to the pool. It's so unsafe for kids walking and on bikes.
- There are no sidewalks that connect Springdale the largest and most populous area of ws to highlands. With the additional timer trials homes and the subdivision in ridgewood only more students will need to get to highlands without sidewalks.
- What is a sidewalk connection? I don’t understand what this would entail. The above drawing does not add any illumination.
- We do not have side walks on our street. Additionally, there is a major safe issue, because this residential street is used for high school drop off and often double park on the side that indicates no parking.
- Sidewalks need to be put installed in front of all homes that do not presently have

sidewalks. The expense is worth saving the lives of children. Most importantly, there needs to be an additional stoplight or bridge overpass put in at Grand Ave. Kids are constantly trying to cross and someone

- Ridgewood Neighborhood needs sidewalks, cross-walk paint and more stop signs
- Connecting sidewalk between the western underpass at hillgrove/prospect and Laidlaw elementary is absolutely essential for safety (would require completing the sidewalk on prospect between hillgrove and walnut). Also connecting the small area of missing sidewalk between prospect/reid and Reid/hampton would allow for safer travel from Laidlaw to the Rec Center for after school activities, particularly so kids can avoid crossing the busier intersections on Hampton. Finally, sidewalk needs to be connected on western side of Forest Ave between chestnut and maple to make it stroller/wheelchair accessible
- Forest hills is desperately in need of continuous sidewalks. Residents are unable to safely walk their dogs and toddlers without having to go into the street multiple times. Forest Hills also needs more 4 way stop signs due to the significant number of kids walking to and from school. Specifically, 51st and Grand and 51st and Lawn desperately need additional stop signs as it is a major throughway.
- I'm not exactly sure what this is.
- Forest Hills needs connected sidewalks throughout the neighborhood. Forest Hills school also needs moveable barriers for directing one way traffic. And the Western Springs police dept should be more present during school hours for security and helping also direct traffic
- The sidewalk on 55th and wolf needs to be completed, it is just gravel currently and it is a safety concern.
- Please add sidewalks along Fair Elms from 47th street down to Forest Hills school. It is so dangerous for my kids to go to school, let alone play or go to a neighboring friends house.
- We live South of 47th and East of Wolf. Drivers use these streets to avoid the busy 47th/Wolf intersection. They are always speeding. Our streets have almost no sidewalks. Or neighborhood borders the LTHS South campus. So, people walk on their way to school with speeding cars on their way to work. Sidewalks would fix this dangerous issue.
- Sidewalks within Ridgewood would be awesome; but in the absence of that, well-maintained sidewalks that connect Ridgewood to 55th St/Wolf Rd and a crossing guard at Wolf/55th would be so helpful
- we live on 47th and johnson. there is a bus stop on johnson and 48th, lots of kids walk on the street to and from school, and the LT girls and boys cross country teams run on our street as well. drivers use johnson as a short cut to avoid the lights on wolf and 47th. the cars race down our block, which is very dangerous for pedestrians. please, we need sidewalks on 4700 block of johnson.
- Oak Street in Old Town North from Hampton to Western (running East West) would greatly benefit from sidewalks. Streets running perpendicular have them (Western/Garden/Rose/Hampton) but Oak does not. Would be tremendously safer for walkers and bikers alike to have sidewalks.
- Prospect Avenue between Walnut and Hillgrove NEEDS A CONTINUOUS SIDEWALK on the EAST side of Prospect Avenue. With the new BNSF underpass, the WSSC Pool, and easier access to Spring Rock Park, the foot and bike traffic of residents under 12 years of age has increased SIGNIFICANTLY. These pedestrians are not old enough to be walking/riding in the street (Prospect Avenue). The Village government is on notice of this on going issue and possible, significant LIABILITY. There are less than SIX houses/properties that

Page 397 of 566

DO NOT HAVE sidewalks on the EAST SIDE OF PROSPECT AVENUE. The cost of installing sidewalks to connect HILLGROVE TO WALNUT is diminimus and needs to be done AS SOON AS POSSIBLE. It only takes one child to be struck by a vehicle in the street (on Prospect) to expose the VILLAGE TO A LIABILITY well in excess of the cost of installing the 6 lengths (50 feet widths) on the EAST SIDE OF PROSPECT.

- Bike lanes would be awesome in the road for kids and commuters to the train.
- Dedicated bike lanes are best
- Forest Hill's does not yet have complete sidewalks.
- Having lived in Forest Hills for over 40 years and raised 3 children who all attended area schools, I feel that children have a safe and efficient way to travel to school. Children that have a physical disability are generally driven to grade school.
- We already have a good sidewalk system in place.
- The Crosswalk on Wolf Road and W 59th could use more lights going across the road. Sidewalk on the south side of Plainfield road from wolf road intersection to Laurel would be helpful for pedestrian flow during busy school times.
- We need more of these and better signage with lights so that drivers actually stop to allow pedestrians to cross.
- Willow Springs road beyond the Springdale area needs sidewalks to safely allow children or adults to walk.
- We have plenty of sidewalks, they have served the children, adults and families more many years.
- I am concerned that the east/west sidewalk walkway to Forest Hills School at the point where 50th St. would have come in is being compromised for the walkers. Some of the property of the walkway has been sold to home builders (of the McMansions) thus encroaching on the pathway and, in some parts, creating a maze. Where did that $ go? Shame on the Village. Give the kids a break!
- We would love sidewalks throughout forest hills. It is horrible how we don't have them going through on fair elms and central. Would be so much safer for my kids to not have to walk in the street.
- Graphic above shows sidewalk immediately adjacent to roadway without green space separation. Need the separation.
- In particular near the schools, need both sides of the street to have full sidewalks to manage congestion.
- Forest Hills neighborhood.
- We would LOVE to see sidewalks in all of Forest Hills-it is very dangerous for kids trying to get around lawn trucks in our neighborhood the way Forest Hills currently is (missing so many sidewalks)
- Sidewalks on both sides of Central Avenue in the 5200 Block.
- We live at 4825 Fair Elms and it has become very dangerous with how fast people drive down our block to not have sidewalks. With a school on our block, many kids are walking along the street and this is becoming very dangerous.
- The lack of sidewalks in Forest Hills and Ridgewood is dangerous - every day people drive too fast nearly hitting pedestrians, but pedestrians don't have sidewalks and have no choice but to walk in the street.
- Lawn ave and 53rd is a major bus stop and there are no sidewalks at all in that area. The 20 kids at this stop are all over the grass which can't happen in snow or rain so they stand in the street. Very very dangerous
- Western springs should have connecting sidewalks universally.
- Forest hills

- "Within Western Springs it seems most connections are great. The main issue and safety concern is between LaGrange Township and Western Springs.
  There are no recognized or painted crosswalks for people crossing Gilbert Ave.
  Please step up and ensure the safety of our children going to High School by adding a crosswalk with curbs and maybe a crossing light somewhere to enable people to cross Gilbert Ave safely."
- We have no sidewalks on either side of our street on Lawn and we would desperately benefit from them. Ongoing construction, a busy street, and large trucks make the street an unsafe and poor option for us.
- Central Ave south of Forest hills school. Both sides of the street.
- I would strongly recommend starting on Prospect and Hillgrove and connecting the sidewalk there. We spent all that money on the tunnel under the rail track to get to Spring Rock and yet if you walk north of that tunnel, there is not running sidewalk. Also, the pool is there and so families head down that way after leaving school all the time.
- I live on Central, on the same block as school. Kids are in the street every morning including my 5 year old son. He either has to walk through people's yards or he has to walk in the street. This is the same street school is on and there are at least 30 walking or riding their bikes down this street too. There is also 5 construction projects going on the same blocks and it seems like an accident waiting to happen.
- Continued sidewalk roadside along Plainfield Road that passes the middle school to get to the elementary school. Currently it abruptly stops requiring a cross over through the parking lot and through all the middle schoolers to get to the Elementary school.
- Forest hills lacks sidewalks in many areas.
- Speeding cars are the big safety concern.
- Many blocks south of 51st St lack crosswalks, which results in children walking either in the street or inconveniently across front yards. Forrest Hills School is also impacted by this.
- "My four children under 7 are constantly in dangerous situations when we walk anywhere. We live at 4721 Fair elms and there is no safe way to walk
  Anywhere.. school, the park, or downtown WS. Crossing 47th is also very dangerous and there is only one way to do it. Very small space. There is no sidewalk for almost two blocks if we want to walk to FH either. It's extremely challenging and dangerous."
- Please build sidewalks on Fair Elms Avenue between 47th Street and Forest Hills Elementary School. There are currently no sidewalks, making the walk to school dangerous, especially as the mornings and evenings get darker. As a resident who lives on Fair Elms between 47th and 48th, I've also experienced drivers turning off of 47th and onto Fair Elms going incredibly fast, making this block even more dangerous for young children and families walking.
- I think sidewalks are key to safety of our children walking in the neighborhood and particularly to school. Especially now with the rise in e-bike and e-scooters.
- On Fair Elms between 47th and 49th streets
- Long overdue
- Fair Elms has an extended area with no sidewalks.
- Please add a stop sign at Caroline and Rugeley by SJC
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- Would be nice to have sidewalks on each side of the street down Wolf.
- Sidewalks on all the blocks
- Fair Elms in between 47th and Forest Hills Elementary desperately need sidewalks!! We

Page 398 of 566

have a lot of kids and drivers come quickly off of 47th creating a very unsafe walking environment.
- There should be a sidewalk connection under the 47th Street bridge that links Forest Hills directly to Spring Rock Park, eliminating the need to cross 47th Street. A feasible solution would be to construct a sidewalk along 47th Street next to Bright Horizons, continuing under the bridge and connecting directly into the existing walking path at Spring Rock. This improvement would significantly enhance pedestrian safety in the area.
- The most important sidewalk connections are at major intersections, not with in neighborhoods. Please focus efforts in areas where kids cross the tracks or high traffic streets.
- Western Springs is a small town with minimal traffic. The main thorough fares have sidewalks. We have many neighboring running clubs that run in our streets due to the low traffic and many dead end streets. My children walk our dog in the street daily (for last 6 years) and have never had a problem.
- At 51st and lawn there is no designated crosswalk or stop sign. Our children have almost been hit numerous times leading my husband and I to always having to be there to assist our children crossing coming home from St. John of the cross.
- We do not need Sidewalks in the Ridgewood subdivision
- We need enforcement to STOP older kids from riding their electric scooters on sidewalks entirely and enforcement to STOP older kids from riding their electric "dirt bikes" like maniacs in the streets.
- The sidewalk crossing at 51st street going towards Gilbert Avenue is extremely close to a stop sign that during summer school at Lyons Township High School south campus, my son sustained injury because of low visibility when my son was going down the sidewalk, an SUV ran the stop sign and stopped in the crosswalk, which made my son brake suddenly and fly over the handlebars. The sight line needs improvement or the sidewalk should be moved closer to Gilbert because there is room to fix this in my opinion.
- Comment from my Fifth grade Forest Hills Student. "I live on Fair Elms and go to school at Forest Hills Elementary. I wish the little kids on my street and I had a safer way to walk to school. It doesn't feel safe walking in the street."
- The sidewalks in this town are horrific. The unevenness, I've seen multiple kids fall on the walk to school to Forest Hills. Don't we have someone who can shave them down like other towns who pay way less property taxes?
- PLEASE consider sidewalks in Ridgewood. There are so many kids and many of them could walk or bike to school with safe routes

5. Median Refuge Island: Median refuge islands buffer are located in the middle of a street and protect pedestrians and cyclists crossing wide or busy streets. A median refuge island enables them to cross in two stages. [318 answered; 70 skipped]

- 1 - We don't need these. [61]
- 2 [24]
- 3 - Neutral [104]
- 4 [35]
- 5 - These are a great fit for us! [94]

6. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- 47th street
- Only students crossing 4+ lanes of traffic should need this type of tool.
- Crossing to SJC on Wolf Road

- Wolf Road at 59th Street for kids getting to Highlands
- This is expense that is not needex
- I think this is a great idea on busier streets.
- I don't know if we have streets wide enough (on our routes) to warrant something like this. I see them as valuable in the downtown, for instance, but not needed on our route/ in our neighborhood.
- 55th and Laurel
- Seems like overkill - infrastructure to Field Park is already solid.
- Maybe in high traffic areas on Wolf Road, Willow Springs near LT and Garden Market.
- Not sure if our streets can accommodate these.
- I think this would be a helpful addition at the intersections along 47th street, particularly at 47th and Gilbert as I feel this is a dangerous and very busy intersection leading to LT's south campus. There is very little curb area for large groups of students to safely wait for the crosswalk.
- Sidewalks are much more important and we have crossing guards at school
- Yes, Wolf makes me nervous for my children to cross from Ridgewood to La Grange Highands
- Would prefer kids do not get stuck in the middle of these and only cross road in its entirety
- We need something like this (or below) to cross 47th in BETWEEN the lights of Wolf & Central - ideally at Grand Avenue. This is for students, commuters and general recreational walkers.
- 55th and grand in front of fire station
- Especially at the busiest sections in the village (like 47th and Gilbert).
- Intersection of Lawn Avenue and Hillgrove Avenue for middle school students traffic need a barrier or crosswalk there is nothing
- The streets around Laidlaw are too small to accommodate these.
- This could be helpful trying to cross busy intersections adjacent to the train tracks, such as Wolf and Hillgrove.
- Don't think these are needed
- Cars tend to go way too fast on 42nd St. and Harvey.
- We need these on Wolf Road near Hillgrove & Wolf
- "Wolf between Burlington and 47th
  47th between Gilbert and Wolf"
- Unsure how useful these would be considering it's all single lane roads around western springs
- Seems to make sense where applicable.
- These are definitely needed at 47th and Gilbert (crossing 47th on the WS side). One would be great at Elm and Wolf (hardly anyone stops at the crosswalk) and somewhere else on Wolf north of Thomas Ford.
- With the exception of Wolf Road, this feels unnecessary.
- Wolf and 48th, please!
- "This could help, but won't get the job done. We need drivers to slow down.

  This might be good for crosswalks in between 49th/50th from Wolf to Fair Elms. More visibility there would be appreciated."
- This would be great at 48th and Wolf for the students going to Forest Hills and over to the HS. I observe, daily, no cars stopping for these students despite the indicate cross walk sign.

Page 399 of 566

- Seems more unsafe than safe to wait in the middle of the road.
- Would this be a consideration for 47th crossings between wolf and Gilbert?
- To me, Ogden Ave seems the only road busy enough for this.
- Doesn't seem completely necessary in most areas of town.
- Would be nice at Wolf and 48th. Heavy usage from LT students. Cars never stop for pedestrians there and typically speed after passing 47th going south bound.
- Wolf/Ogden is SUCH a mess still, I'd love to see something else here for forest preserve access. Also, I think the Hillgrove/Wolf intersection continues to be tricky for kids.
- Not sure these are the best and people can get hurt in the middle
- Depending on the area, not sure these would be necessary
- Not sure there is space for this even on large roadways (Wolf and 47th)
- Crossing wolf at 48th
- There is no three lane highway to cross in getting to any parade school in Western Springs.
- if we are talking about 47th street & wolf road, I would agree. Otherwise not needed.
- LED Lighting would be good for visibility. A round about would help slow vehicles down as well.
- These have value but I'm not sure where would be a good fit for them. Continuous sidewalks and better crosswalks seem like a better fit.
- I think these just made additional obstacles for the driver to have to cross They would be valuable near the high school, but ones that could be placed and then removed when school was not in sesssion would be ideal.
- I would never want to have a loved one standing on a median in the middle of a busy street.
- I think having sidewalks throughout the neighborhood is more important.
- Yes, good fit where appropriate. I used one just the other day in another community while on a bike.
- We need this at 47th and Grand Ave. so many people cross the street daily to get to/from schools.
- this is VERY necessary at the corner of wolf and 55th - it has been under construction for 2 years and it is more dangerous now than it ever was and you can't see people or kids standing behind all the construction barriers. MAJOR problem!
- I don’t know if any of our streets are wide enough to require an island.
- Should have yellow lights flashing or flashing signs when school zone begins.
- I don't think these are worth the space unless its a four lane road.
- These are a great idea for children and bicycles or people who may need extra time walking across the street and may miss the signal.
- The village installed these 'safe zones' in downtown WS. I have yet to see anyone use them - even the commuters who get off the train. It has disrupted the downtown flow of traffic and I assume additional 'safe zones' will similarly impact routes to/from schools.
- On busier roads (like Wolf), yes but the vast majority of roads, this is not an issue.
- There's not enough space to add this feature.
- Grand & 47th
- Not sure where these would be.
- Please add a stop sign at Caroline and Rugeley by SJC
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- 75% of traffic does not stop for the walkway crossing Plainfield Road towards Highlands school even when the lights are flashing.

- Wolf road
- Only in very specific locations, similar to the new installation in downtown Western Springs.
- Intersection of Wolf & -
- There needs to be better crossing on Wolf Rd near McClure Junior High. Cars are often speeding through the light near the library and it is very congested in front of the library with cars parked on both side of the street, especially in the afternoon(3:20 dismissal). Warning lights would also be helpful during 7:45-8:15am and 3:15-3:35pm.
- Not needed. Streets are not wide enough for this.
- Anything we can do to improve safe street crossings AND *slowing down car traffic* is a PLUS!
- Where would this even be? If wolf road somehow then absolutely yes.
- this can help slow down traffic and give crossing students better protection
- Would be great for busier roads, like Ogden and Wolf
- Wolf Rd!
- None of our roads are that wide?
- Can they be safely implemented without reducing lane width for vehicles?

7. High Visibility Crosswalks, Curb Ramps, and Detectable Warning Pad: High visibility crosswalks, or striping crosswalks, increase awareness of pedestrian crossing paths and discourage drivers from stopping in crosswalks. Curb ramps enable people in wheel chairs or with strollers to cross streets and detectable warning pads, or textured concrete panels, direct people with visual impairments through an intersection at a crosswalk. [314 answered; 74 skipped]

- 1 - We don't need these. [12]
- 2 [7]
- 3 - Neutral [46]
- 4 [57]
- 5 - These are a great fit for us! [192]

8. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- There’s no stop sign on Hampton at the intersection of chestnut. Cars are often going fast and not paying attention so more visibility would be helpful
- SJC crossing at Wold Road
- Wolf Road at 59th Street
- Just the normal stuff strippind a d accessible tamps
- I do think we could do more to call attention to high traffic crossing areas - specifically at Hilgrove and Wolf, Wolf and Chestnut, and Clausen and Hilgrove.
- 55th and Laurel
- We already have these signs/flashing lights to get across Hillgrove near Field Park
- Anything that makes pedestrian travel safer is a plus!
- This could be helpful on 47th street around Howard Avenue to provide another access point to reach south campus and alleviate students jaywalking as well as overcrowding at the 47th and Gilbert crossing.
- Nice to have but much less priority than basic sidewalks
- On laurel crossing w 55th st
- We need something like this (or above) to cross 47th in BETWEEN the lights of Wolf & Central - ideally at Grand Avenue. This is for students, commuters and general recreational walkers.
- 55th and grand in front of fire station or on lawn

Page 400 of 566

- curb ramp on exit from tunnel at spring rock park
- Would be great!
- Intersection of Lawn Avenue and Hillgrove Avenue there needs ro be something to slow down people who run late to school driving their kids in a rush or avoiding wolf road they go too fast here no crosswalk or signage
- What is currently around Laidlaw should help, but as noted above, additional sidewalks on the south side of Maple between Hampton and Forest would improve ADA accessibility and improve safety.
- Would be great to have this by the main roads that the kids cross on to actually get into the school where crossing guards are currently stationed
- The intersection of Wolf Road and 53rd street requires significant improvements for pedestrian safety. There are no marked crosswalks. Sidewalks do not extend to the curbs east to west often resulting in pedestrians standing on the pavement in a very busy intersection (especially when soccer or baseball is being played at Springdale park). Illegal truck traffic on Wolf Road presents a very high risk for children and adults as the vehicles are unable to stop quickly and are often traveling at a high rate of speed.
- Can we put in a crosswalk on Gilbert in order to safely walk to LT North?
- Crossing Wolf, just a block south of 47th street there is a crosswalk. It would be beneficial if a blinking light could be added. Many students walking/riding their bikes to school can use the crosswalk, but cars do not stop.
- I think one of the most necessary elements for safety is not included in this survey. We should implement a speed camera that automatically tickets drivers as they enter WS over 294 on 47th street. Drivers are going WAY too fast and it is a heavily crossed street by students to get to school. It would be great for Village revenue as well.
- Central and Oak St in Western Springs needs more visibility. there is no stop sign on Central here and students crossing Central on Oak st. are at risk.
- We need this on Burlington Avenue, as you exit the underpass from Hillgrove to Burlington Avenue, to go to Spring Rock Park. There has to be a safe way for kids to cross to the park and tennis courts
- 47th and Wolf
- Again, we have cars going way too fast trying to beat the trains. They speed up 4 second heading west turning south on Harvey to hurry up and get past the line for trains.
- Crosswalks need to be more clearly marked
- Clausen and Burlington and Clausen and Hillgrove.
- The corner of Wolf/Hillgrove/Burlington
- Higher visibility cross walks would be ideal for crosswalks near the Metra line in town. For example, the cross walk across grand that connects Starbucks to oberweiss
- This would be especially helpful at the intersection of Central and 47th street. It's a main artery for kids that bike to McClure.
- More markings on Gilbert leading towards Gilbert Park (though I know that is La Grange) would be helpful
- Anything that makes the town more pedestrian friendly will improve the quality of life for residents.
- Curb ramps are a good idea. I don't prefer marked crossings. I think they give pedestrians a false sense of security--the one at Ogden by the forest preserve was a disaster, and there was a devastaing accident 15 or so years ago at one on 47th east of LaGrange Road in LaGrange where a mom and several of her children were struck and killed.
- 47 th is a scary street for kids and adults to be crossing a more formal crosswalk would help

- These are needed at the Forest Hills School entry on Central
- One of these RIGHT by the schools where kids are most commonly crossing would be great
- Any extra signage at crosswalks is helpful.
- Wolf and 48th, please!
- Feels unsafe crossing 47th.
- 47th and Grand Ave would be ideal for this.
- We need a crosswalk on Oak and Forest for kids walking to school.
- No one stops at our crosswalks and wolf road is dangerois to cross at any spot other than a light.
- Above comments
- Drivers don't yield to pedestrians in the ones we have already.
- both sides of the western underpass could use more visible crosswalks and the south side of that underpass obviously needs the ramp
- Hillgrove and Lawn-necessary here
- Certain intersections are not well labeled and unsafe for pedestrians. Specifically, Central and 47th (crossing into Spring Rock) is covered in overgrown trees and the crosswalk is barely marked. 47th and Wolf is another terribly dangerous intersection.
- Only Ogden Ave if at all.
- These could be incredibly helpful at intersections like 47th and Grand or Lawn Ave or 55th and Grand or Lawn Ave where there are often many pedestrians
- Some streets have these crosswalks, but driver ignore them or don't know the law.
- This is needed at Wolf/55th not just for kids going to school but for all pedestrians
- these are dangerous for pedestrians as many drivers do not pay attention to these
- With the new houses going up across from Field Park, these could be an added safety bonus at surrounding intersections.
- The intersection of 48th street and Wolf Road needs a high visibility crosswalk. I live at this corner and witness school aged pedestrians crossing the road multiple times a day. Many of the LT sports teams cross at this intersection as part of their warm up run. Students going to Forest Hills, Lyons Township South Campus and St. John of the Cross all cross here. Traffic does not adhere to the current markings. The intersection needs increased visibility.
- Stop sign at Prospect and Hillgrove is being ignored by several drivers. There should be a button activated cross walk light - JUST LIKE THE ONE at the EAST BNSF pedestrian UNDERPASS. Further, a intersection camera should be installed to ticket people who ignore the STOP SIGNS at PROSPECT AND HILLGROVE.
- On Hampton across from sereda park. On garden at maple
- This is 100% necessary at Wolf and 48th. The crosswalk at 48/Wolf is ignored by drivers. Kids typically must wait for dozens of cars to pass before anyone stops.
- There are SO MANY painted or striped crosswalks that I encounter throughout my day (avid walker) and almost no one stops when we are standing in the paint waiting for a safe time to cross. No one wants to wait for walkers when they are driving. I think we need to make the fact that these cross walks are there more of a priority to drivers - flashing lights? More visible signage? The stripes on the pavement don't seem to mean much to drivers.
- Intersection of Oak and Forest
- Crossing wolf at 48th
- Needed on Gilbert somewhere between Cossitt and Elm for students to CROSS THE STREET on Gilbert safely from the Western Springs side of the street to the LaGrange

side of the street in order to walk to LT North Campus. It is a very busy street during the morning and afternoon school rush hours and because of the tracks no traffic stops going south, and the stop sign before the tracks going north is hit or miss as far as if people come to a complete stop. Kids have to play "frogger" to cross the street without getting hit on a daily basis and it's very dangerous.

- Across Wolf Rd all of these items are nice but at side streets motorists do not usually come to a complete stop and striping crosswalks would have no impact without law enforcement.
- Yes LED Lighting would be a plus
- Yes. We need more
- Cars presently don't stop at the posted stops signs. I see no reason why added signs and stripping are going to alter the habits of our impatient drivers that are racing up and down the streets well above the posted speed limits.
- Yes at high pedestrian areas. Refer to Europe.
- We need this at Wolf and Lawn to get across to LT/SJC. No one ever stops on Wolf even though pedestrian signs.
- Wolf and 51st. Better painted crosswalks and signs alerting drivers are needed at 51st/ Lawn.
- Wolf and 51st. Lawn and 51st.
- 47th and Central; 47th and Wolf; 51st and wolf
- This is VERY necessary so many students walking and it is scary how many close calls occur. Wolf Road and 55th is VERY bad!!
- I wish we had these now for all intersections near all schools.
- Crosswalk at Burlington and Clausen
- What we have is fine. sometimes its too much and can be a nuisance. In the long run people become acclimatized to the signs.
- I find these to be extremely beneficial in slowing cars down versus a crosswalk, which many people ignore.
- Most young school kids are walked to school by parents or caregivers. Older kids can navigate on their own. These are NOT needed and will be disruptive to traffic.
- ideal locations: Maple and Lawn and Oak and Lawn. These are examples of two-way stop signs, which do allow traffic to go faster and are main crossing points for kids going to McClure or Laidlaw. cars have a tendency to speed through these locations and I have seen vehicle collisions because drivers get confused. Wolf Road too because of the speed of traffic.
- Need this at the intersection of Plainfield and Wolf.
- Oak & Forest
- Extra signage along Howard by field park where lots of kids cross to get to school specially Howard and 43rd and Howard and Hillgrove
- On busy streets such as 47th Street and Wolf Road.
- Cross walks are good. I think most busy street crossings align with so lights, so I don't think you need more than crosswalks.
- I worry about students and adults standing, unprotected in the middle of the road.
- "47th and Grand
  Wolf & 48th
  Wolf and 47th"
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- Wolf road and 48th. The cross walk could be more visible/ lights when someone wants to

cross. I see cars running through the crosswalk everyday when kids are trying to cross

- Include flashing lights where necessary.
- Wolf rd and courtland circle
- These would be great along Wolf Road throughout town!!
- Around the school at St. John of the Cross would be great!
- These are needed in the neighborhood at Caroline and Rugeley
- These are helpful but in my experience not sufficient. Drivers fly by these cross walks as they still believe they have the right of way.
- We would love to have our daughters walk from lawn in downtown to SJC but the 47th and Wolf intersection is so dangerous - would be great to have more oversight / safety support at this intersection
- I think better accessibility is always a benefit to a community
- More markings and signs for pedestrian crosswalks are sorely needed
- Wolf Rd!
- 47th and Grand!!! The amount of pedestrian traffic crossing 47th at Grand is crazy. This could help immensely and slow down the speeding traffic. Also, on Wolf and I think maybe 48th or 49th where you can cross form Forest Hills.
- Visibility cross walks make sense, but key crossings already have crossing guards. Ramps and detectable warning pads fell like good ideas when reworking curbs but would have little linkage to the issue of students getting safely to school.
- "Ideal locations - on Hillgrove at Lawn, all along Wolf Road at existing crosswalks
  High Visibility Crosswalk DESPERATELY needed on Gilbert Avenue for students commuting (walking or biking) from Western Springs to North Campus. Would also be used by students traveling from South Campus to North Campus after school. There is no safe way to cross along Gilbert from 47th street to north of the train tracks."

9. Curb Bump-Outs (or Extensions): Bump-outs, or extended curbs, provide shorter crossing distances for pedestrians and improve sightlines for both drivers and pedestrians. They can slow the speed of turning traffic. [304 answered; 84 skipped]

- 1 - We don't need these. [70]
- 2 [33]
- 3 - Neutral [94]
- 4 [41]
- 5 - These are a great fit for us! [66]

10. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- A few intersections like Lawn and Hillgrove could use this as 4 out of 5. Ars run the Hillgrove stop sign
- 47th and Wolf
- Will make driving more difficult l adding to drivers do crazier maneuvers to get around
- Similar to the median, I understand these to be useful tools but aren't needed in any existing walking route for my kids. Great for the downtown area where they've been applied.
- 55th and Laurel
- This would also be helpful at 47th and Gilbert to allow for larger groups and students on bicycles or parents with strollers to more safely wait to cross.
- not necessary here
- Wolf & 51st
- Consider in partnership with one-way streets, please.
- it is hard enough for vehicles to maneuver pick up and drop off without having additional

restrictions on turning.
- Intersection of Lawn Avenue and Hillgrove Avenue there needs ro be something to slow down people who run late to school driving their kids in a rush or avoiding wolf road they go too fast here no crosswalk or signage
- Anything that would slow down drivers and improve visibility would be a huge plus.
- The bump outs that were put in around downtown Western Springs were not needed. It makes maneuvering a car more challenging to not hit those.
- Clausen and Burlington and Clausen and Hillgrove.
- These could be great around crosswalks in town. I believe some of the cross walks are now like this after the Burlington projects.
- As long as it does not create delays in traffic... more a "nice to have"
- These seem like an accident waiting to happen.
- Please DO NOT DO THIS. Chicago is implementing these in all the neighborhood streets and traffic is an absolute nightmare. SUVs and Trucks have a hard time making the turn around these bump outs, bikers have no where to to go but the middle of the lane and pedestrians stand on the very edge of these bump outs and are basically in the middle of the road.
- I feel like this just puts the pedestrian much closer to the moving car. And with so many kids it might be a disaster.
- These are more dangerous because drivers don't understand their purpose.
- I've never seen these used before.
- These look dangerous. Like someone could hit them standing there.
- These are awful. I can't believe the town forced these upon us in the uptown area. They will just mean fewer parking places on a road where the traffic is always slow, anyway.
- There are many times when I have to scoot an uncomfortable distance into the street to look for cars and check to make sure it's safe to cross. This seems like a good idea but I'm not sure how practical it would be and how often it could actually work throughout town...
- Not considered safe. In fact it puts pedestrians closer to traffic.
- encoourage drivers to stop BEFORE coming to the corner and slowly approach in intersection where visual sight gives knowledge of wherher a pedestrian is present or not. Most cars careen into a crosswalk area before making a turn. This is very evident on 51st street..heading east into Willow Springs road area.
- Another poor idea. These bump out put pedestrians in the line of fire with the automobile traffic. Pedestrians belong on the sidewalk away from traffic until it is clear to cross.
- These bump-outs have been installed in downtown Western Springs and they are a hazard.
- Yes, where appropriate. Pedestrian and bike safety ranks much higher than auto convenience.
- Wolf/51st
- People have no problem running over a bumped out curb. This is merely lipstick on a pig or a political person trying to sleep better to say "We tried to make a change!" Save your money on this worthless change.
- uses up good parking space. were already strugging downtown without a formalized parking garage behind all the stores like in LaGrange.
- They have been really great to have in downtown Western Springs and it promotes family, safety, and a walk-friendly community.
- The village put these in at the corner of Hillgrove and Lawn. Now traffic cannot turn

right, when there is a train - stopping the north bound traffic on Lawn. So, now the traffic get significantly backed up, causing even more delays. Adding these bump-outs will continue to make our streets impassable. NOT NEEDED.
- Theses cause cars to drive in the wrong lane to get around them.
- Not enough space to do this.
- Living right by the 294 overpass and off 47th, cars constantly whip onto our street at high speeds
- More of an inconvenience.
- These would also be good around St. John of the Cross, Wolf Road traffic goes very fast!
- 3 way Stop sign needed at Rugeley and Caroline
- These are more appropriate for one way streets. Which we don't have.
- Great Idea.
- Same as above
- Not as important as better markings for crosswalks
- Not sure we have large enough roads for this.
- They look dangerous, constrict the flow of traffic, and seem to make it even more dangerous for pedestrians.

11. Intersection Markings: Intersection markings or pavement markings delineate paths for pedestrians crossing roadways, particularly at intersections. They guide pedestrians and alert drivers to the presence of a designated crossing area. [293 answered; 95 skipped]
- 1 - We don't need these. [6]
- 2 [5]
- 3 - Neutral [39]
- 4 [51]
- 5 - These are a great fit for us! [192]

12. Please provide any additional comments you may have (ideal locations, considerations, etc.).
- 47th and wolf
- "55th and Laurel
  55th and Willow springs Rd"
- already have
- The village does a good job with this already.
- At all intersections
- Easy solution, we have some of these already though.
- Grand & 47th (although would also need lights or something else to mark it)
- Hopefully will steer children to cross at marked intersections, so they can be seen more clearly by drivers.
- Low cost to keep the paint visible.
- 55th and grand in front of fire station
- Very necessary
- Intersection of Lawn Avenue and Hillgrove Avenue there needs ro be something to slow down people who run late to school driving their kids in a rush or avoiding wolf road they go too fast here no crosswalk or signage.
- I don't recall if there are intersection stripes between the school and the park, but they should be included. As noted above, sidewalk extension on the south side of Maple between Hampton and Forest would be the most beneficial.
- 53rd street and Wolf Road - there currently are no crosswalks east to west.
- Central and Oak St in Western Springs needs more visibility. there is no stop sign on

Page 403 of 566

Central here and students crossing Central on Oak st. are at risk.
- "These would be helpful at all of the busy intersections
  Can we do this or something else at the intersections of Grand at Burlington and Hillgrove and
  Lawn at Burlington and Hillgrove? If they're already there, something else needs to be added as cars go thru those intersections very quickly"
- Near our parks
- Creating a cross walk across hillgrove and grand on the west side of the intersection(near colonial barber and the bank)
- Best practice - especially on the key intersections.
- You need something to make Cars slowdown like high speedy bumps
- Any of the crosswalks around the school and corners surrounding schools
- Yes, these are very helpful to cue traffic and pedestrians.
- Needed.
- I don't see these being very effective
- Hillgrove and Wolf and Hillgrove and Lawn NEEDED
- Seems like a low cost way to at least partially improve safety.
- Don't really know what this is.
- These at a minimum are needed at intersections like 47th and Grand or Lawn Ave or 55th and Grand or Lawn Ave
- I feel these are needed at all intersections within a mile of the schools.
- Garden and maple intersection. Sereda park to east side of hampton
- These lines don't seem to mean much to drivers. It seems most people view the need to yield to pedestrians as optional when all that's there is paint on the ground. More is needed to make drivers feel compelled to stop / lights, signs and paint, maybe?
- Intersection of Oak and Forest
- Crossing 47th at Grand and/or Franklin
- Needed on Gilbert somewhere between Cossitt and Elm for students to CROSS THE STREET on Gilbert safely from the Western Springs side of the street to the LaGrange side of the street in order to walk to LT North Campus. It is a very busy street during the morning and afternoon school rush hours and because of the tracks no traffic stops going south, and the stop sign before the tracks going north is hit or miss as far as if people come to a complete stop. Kids have to play "frogger" to cross the street without getting hit on a daily basis and it's very dangerous.
- Helps with most motorists
- These are good but not a much of a value without proper signage
- People are finally getting used to the flashing lights outisde of the high school....and stopping.
- This would be good to do. The ones we have are not well maintained and there are only a few intersections markings on 47th street and Wolf Rd., two streets which happens to be the highest risk streets to cross and have the highest speed limits. The Village should get with the necessary state, county and local groups to get intersection markings on these streets.
- Yes, should be minimum baseline in areas that pedestrians and bikers use
- Need this at Grand and 47th and at Wolf and Lawn.
- 51st/Lawn
- Lawn and 51st
- Wolf and 55th
- these are good but we should glue reflectors into all of the important ones (if the wont

frost-heave pop-out)
- Visual markings are fine. This might actually help school kids.
- The intersection at maple and garden is totally unmarked and the hill on either side makes it hard to safely cross from west to east
- A lot are faded throughout town.
- These are needed as many streets have markings that are faded. In Field Park, the cross walk from the park to the west side of Clausen is used very often by kids and is barely visible.
- All crosswalks would be ok if these were there
- On busy streets such as 47th Street and Wolf Road.
- We live in 51st and Lawn Ave and the cross walks have not been painted for while to the point where they cannot be seen. This is extremely high risk for children who need to cross 51st St. There are no crosswalk signs either. ve
- On Fair elms near the school
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- No-brainer
- The exist in the downtown section of village already. No need in the neighborhood.
- these are great, but most cars blow right through them.
- Sure, every little bit helps. The key is to SLOW DOWN car traffic while making any of these adjustments. If the adjustment only serves to help the pedestrian but is not effective in slowing down car traffic then it's not sufficient.
- If drivers are able to see them, great, if not, other improvements are needed.
- Very helpful given the abundance of schools in the area
- 47th and Grand. Wolf Road and 47th. Wolf and 49th I think it might be?
- These work well but seem to require frequent repainting.
- Anywhere there are existing crosswalks

13. Bicycle/Pedestrian Crossing Signs: Pedestrian and/or bicycle crossing signs warn drivers that a school, pedestrian or bicycle crossing is ahead. "Must stop for pedestrians in crosswalk" signage can also be used. [288 answered; 100 skipped]
- 1 - We don't need these. [16]
- 2 [13]
- 3 - Neutral [53]
- 4 [47]
- 5 - These are a great fit for us! [159]

14. Please provide any additional comments you may have (ideal locations, considerations, etc.).
- 47th and wolf and SJC crossing at Wolf
- It can't hurt! However, I think drivers are either paying attention and giving way or not. I also want to continue to educate the kids in the area to stop their bikes at crossings and not get them accustomed to riding out without pause.
- Anything to make walking safer is great
- Must stop signs should be in place. When I walk, I often wait until there are no cars as drivers do not stop when I am in the crosswalk. Once a driver actually swerved into us as we were crossing even though he was far enough away.
- Easy solution but doesn't solve the larger lack of sidewalk issue
- These are not as effective as LED lights
- 51st at all the non 4-way stops
- I think the signs and the wording would go together better than just posting the signs.

- Low cost, not as much impact.
- Please!
- We need at stop sign at 43rd and johnson
- I don't think people yield to these they aren't noticeable enough.
- There is no signage on Wolf Road alerting drivers to be aware of pedestrian traffic crossing Wolf Road at 53rd street as they travel to Springdale Park. Wolf Road, between 47th Street and 55th Street is a No Thru Truck zone. There are two small signs that are often hidden by foliage alerting truckers to this rule. Significant improvement in signage and enforcement are needed as truck traffic is heavy on this road..
- Unfortunately, I think many drivers ignore signs.
- There needs to be signs like this on the crossing along 47th street crossing over commonwealth
- Central and Oak St in Western Springs needs more visibility. there is no stop sign on Central here and students crossing Central on Oak st. are at risk.
- "Wolf road at Burlington, Hillgrove and 47th Street
  Gilbert and Burlington, Hillgrove and 47th Street
  Necessary at all busy intersections, especially where children are crossing to get to school"
- These would be great if people actually obeyed them. I walk to work and most cars don't stop even walk the pedestrian light is blinking.
- All cross walks near schools and underpasses.
- People are always on their phones and miss signs all the time
- Around forest Hills School at each corner would be great. Many children and parents walk/bike to school.
- Additional signage alerting cars can never hurt!
- Love extra signage.
- Wolf and 48th, please!
- Need to make it more visible for bike and pedestrian crossing but putting ppl on alert
- While important, I don't observe cars yielding unless a police officer present.
- Drivers don't pay attention to these signs & police do not enforce them.
- On both sides of the western underpass
- May partially improve safety at a low cost
- 47th between wolf and Gilbert needs a crosswalk.
- I wish bikes would only cross at intersections with lights. They are in danger when crossing 47th, for example, and a car near them is turning left.
- My concern is that the current signage is already ignored and not sure that this is enough to help.
- Need this along Gilbert's between Ogden and 47. With three schools off this route, more signage is needed.
- Must stop signage definitely cannot hurt
- Intersection of Oak and Forest
- Needed on Gilbert somewhere between Cossitt and Elm for students to CROSS THE STREET on Gilbert safely from the Western Springs side of the street to the LaGrange side of the street in order to walk to LT North Campus. It is a very busy street during the morning and afternoon school rush hours and because of the tracks no traffic stops going south, and the stop sign before the tracks going north is hit or miss as far as if people come to a complete stop. Kids have to play "frogger" to cross the street without getting hit on a daily basis and it's very dangerous.
- I think we have too many signs already. I believe it's called sign overload; comparable to the beeps in a hospital setting. You ignore the sound or sign if there is too much to hear or see.
- These are good but not a much of a value without proper signage
- This seems a good idea but the problem is that there are too many signs already and no one is paying any attention to the signs. Remember people are constantly driving through intersections without stopping at stop signs in Western Springs. There is no enforcement for not following signs.
- A crosswalk across 47th Street between Wolf and Gilbert, near the football field, would be extremely appreciated. Often there are kids crossing 47th Street around Clausen to go to south campus and the football field. This is a dangerous situation.
- These signs would be great to let people know to slow down for biking kids
- Yes at the risk or having "sign overload" in our community
- I've been asking for these for a long time at 51st/Lawn
- All intersections along 51st from Wolf to Fair Elms.
- Nice to have but the physical barricades are what drives the change not a sign.
- too much signage - noone knows what they all mean - again. acclimatization. let people pay attention to the people, not the signs.
- These make sense. However, until the police actually enforce drivers to obey, they are likely not effective. More importantly, have the police ticket those drivers in a four block radius of the schools that don't bother to stop at the stop sign. That would be effective .
- location: Lawn and Chestnut, Lawn and Hillgrove. kids are old enough to cycle to McClure and a lot of them do. Anywhere around McClure. Lawn and Chestnut has the quadruple benefits of the library and Grand Ave School and Memorial Park too.
- Again these would help on Central where a great number of kids walk to Forest Hills/St John's each day.
- 49th street from wolf to fair elms need these. All vehicles driving to forest hills must come down 49th street then proceed south on central as it's a one way during drop off. The amount of kids walking and biking coupled with the drivers is dangeroud. Additionally there are no 4 way stops along 49th street- so the vehicles traveling west bound don't have stop signs.
- On busy streets such as 47th Street and Wolf Road.
- Can be useful, but we can use stop lights at the busiest areas.
- Most important is (1) get sidewalks in forest hills so it's safe to walk anywhere (2) find a safer way to cross 47th to get to spring rock park.
- Need to add to Caroline ave - cars go too fast by SJC
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- Wolf road and
- Good bang for buck
- Wolf rd and courtland circle
- these are great, but most cars don't care unfortunately
- The "FYI" type of sign is insufficient. The sign must be large and state "MUST STOP for pedestrians and cyclists in Crosswalk" and ideally a speed bump to force traffic to slow down. The crossing of Wolf Road between the two forest preserve paths is particularly dangerous and cars DO NOT stop. Additionally, the crossing of 31st street is super dangerous as many times, one lane will stop while the next lane drive flies by at 50 miles per hour. This has to be changed to prioritize pedestrians and cyclists. Please!!!!!!
- "Must stop for pedestrians" signs would be a game-changer—very few drivers in this area seem to know that's the law

- Same places!

15. Countdown Signals: Countdown pedestrian signals show the amount of time that remains before a traffic signal changes from walk to don't walk. [290 answered; 98 skipped]

- 1 - We don't need these. [24]
- 2 [11]
- 3 - Neutral [57]
- 4 [60]
- 5 - These are a great fit for us! [138]

16. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- 47th and wolf
- Helps for the kids to know level of urgency.
- "55th and Laurel
  55th and Willow Springs RD"
- At all stop lights. The ones we have are very helpful.
- we don't have lights near Forest Hills school, so not useful. I think these exist elsewhere?
- These are ok but kids may use to "beat the clock"
- These are important, especially when children are crossing busy streets.
- Need one at Ogden and Wolf Road too.
- 47th and Wolf, 55th and Wolf, 51st and Wolf, by Mc Clure
- There are no stoplights required.
- "At all busy intersections
  Around all the schools"
- This isn't the city. If residents want lights everywhere and excessive signage they should move to Chicago.
- Minimal stoplights in WS but could be helpful at cross walks near McClure on Wolf but I think it may already exist?
- Helps children understand timing and decision making when crossing busy streets.
- I used to live in Madison, WI and they have crosswalk signals that beep--slowly when you have lots of time to cross and quickly when you don't. They're great!
- I would say the light at 47th and Wolf and 51st and Wolf should have these if they don't already
- Yes! Love visual signs.
- Really helpful for the elderly and children. We need more lights on wolf or lighted cross walks
- This is totally unnecessary.
- Not sure how well these are followed
- I like these.
- Love to see this at 47 and Wolf
- Where lights exist by school now. Countdown and clicking sounds are ideal.
- I also like when the countdown signal speaks the information
- Great for kids to gauge timing on crossing the street safely.
- I believe these types of signals are already in place at all of the traffic signals in Western Springs.
- Should be default
- expensive and people can just wait.
- Very useful.
- At all stop lights

- On busy streets such as 47th Street and Wolf Road.
- Crossing 55th should have supported count down guidance.
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- Yes. I think children pay attention to these countdowns.
- We already have these on the few high traffic streets village has. Otherwise, not necessary.
- Already in place at key sites
- Major intersections like Wolf and 47th, Gilbert and 47th

17. Rectangular Rapid Flashing Beacon: Rectangular rapid flash beacons (RRFBs) are highly visible lighting on signage, using flashing yellow LED lights on pedestrian crossing warning to alert drivers at crossing locations. [295 answered; 93 skipped]

- 1 - We don't need these. [19]
- 2 [11]
- 3 - Neutral [47]
- 4 [58]
- 5 - These are a great fit for us! [160]

18. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- Is there any evidence that a continuous flash is effective compared to a push button flashing
- 47th street and grand
- This would be helpful at the intersection of Hampton and chestnut so cars slow down where there isn't a stop sign. I've seen multiple cars almost hit pedestrians there
- 47th and wolf and SJC crossing on Wolf
- Anything to call attention to pedestrian traffic at key areas is appreciated. See the main intersections previously cited.
- "55th and Laurel
  55th and Willow Springs RD"
- already have
- Grand and 47th. 51st along all non 4 way stop intersections
- Drivers would pay more attention, if there was a warning light.
- 55th and grand in front of fire station
- 47th street
- This would be great traffic intersections
- could be helpful around grand avenue and the library, where children are too short to easily see
- Intersection of Lawn Avenue and Hillgrove Avenue there needs ro be something to slow down people who run late to school driving their kids in a rush or avoiding wolf road they go too fast here no crosswalk or signage
- Traffic is not busy enough to warrant these.
- Near all the schools cross walks directly connected to the school where highest traffic occurs
- Love these! More of these!
- Maybe something like this would be helpful crossing Ogden on Wolf. Drivers turning onto Ogden are oblivious to pedestrian traffic.
- Crossing Wolf, just a block south of 47th street there is a crosswalk. It would be beneficial if a blinking light could be added. Many students walking/riding their bikes to school can use the crosswalk, but cars do not stop.

Page 406 of 566

- This would be GREAT at the crossing along 47th street crossing over commonwealth
- "I don't think these are needed
  Seems excessive and not a good source of our financial resources
  We should also keep in mind that our village is beautiful with all the trees. We don't need so much signage put up that ruins that look and feel"
- Underpass near WSSC.
- Even better than countdown signals... this alerts DRIVERS.
- Like the High Visibility crosswalks, I think these give a false sense of security.
- on Central near the "cut through" at approximately "52nd" to help facilitate safe crossing of Central Avenue near FH school
- Yes! Love these.
- Wolf and 48th, please!
- would be great near schools
- Would be good on all crosswalks closest to schools.
- Totally unnecessary. The ones on Ogden are totally ignored.
- May or may not help
- These are the best option provided for intersections like 47th and Grand or Lawn Ave or 55th and Grand or Lawn Ave
- Would love this at 48th and Wolf for kids going to Forest Hills and other pedestrians. The current signage is consistently ignored.
- The intersection of 48th street and Wolf Road needs a high visibility crosswalk. I live at this corner and witness school aged pedestrians crossing the road multiple times a day. Many of the LT sports teams cross at this intersection as part of their warm up run. Students going to Forest Hills, Lyons Township South Campus and St. John of the Cross all cross here. Traffic does not adhere to the current markings. The intersection needs increased visibility.
- Prospect and Hillgrove needs this... just like the protection afforded at the pedestrian underpass on the EAST side of Western Springs, in Field Park.
- Perfect for Wolf and 48th!
- Near McClure could be better
- Light would be A HUGE PLUS for crossing safety. Drivers do seem to take these lights more seriously than just the crossing stripes or nothing at all.
- Intersection of Oak and Forest
- Crossing wolf at 48th
- Needed on Gilbert somewhere between Cossitt and Elm for students to CROSS THE STREET on Gilbert safely from the Western Springs side of the street to the LaGrange side of the street in order to walk to LT North Campus. It is a very busy street during the morning and afternoon school rush hours and because of the tracks no traffic stops going south, and the stop sign before the tracks going north is hit or miss as far as if people come to a complete stop. Kids have to play "frogger" to cross the street without getting hit on a daily basis and it's very dangerous.
- We don’t need these in a residential neighborhood. If speed limits are enforced then there should be plenty of notice for motorists to stop.
- lighting across the sidewalk would be a plus.
- This seems like it would be a good idea but they are very risky for the pedestrians and drivers. A pedestrian assumes a driver will stop which isn't always the case and a driver that stops is a risk of being rear ended because distracted drivers don't realize that traffic is stopped due to a flashing beacon. These signs were previously used on Ogden Ave by Bemis woods and they didn't provide for safe passage of pedestrians so they were removed.
- "Generally excessive in my opinion unless at high traffic route (like existing Forest Preserve bike trail crossings).
  One exception may be a better 47th Street crossing to South Campus.
  Flashing lights could be annoying to nearby neighbors."
- We need this at Wolf and Lawn to get across to LT/SJC. We need this at 47th and Grand Ave.
- This would be great at 51st/Lawn
- Lawn/51st
- Should have this at 55th and wolf road as well.
- Especially on 47th street
- its annoying seeing the crosswalk people being ignored but alot of times I see the lights flashing without anyone crossing so the false positives need to be fixed first.
- Very useful. More importantly, have the police actually ticket drivers that don't stop for stop signs around the schools. Look at 51st and Woodland. NO ONE stops there and this intersection gets an abundance of kids from both Forest Hills and St. John's.
- "ideal locations: Maple and Lawn and Oak and Lawn. These are examples of two-way stop signs, which do allow traffic to go faster and are main crossing points for kids going to McClure or Laidlaw. cars have a tendency to speed through these locations and I have seen vehicle collisions because drivers get confused. Wolf Road too because of the speed of traffic.

  I also think having the button there is a great way to encourage the kids to think before they cross."
- Could help at 49th and central
- At the rail road crossings intersections so drivers can see if people are present
- These are dangerous for drivers since they may have to slam on breaks.
- I would cross major streets at stop lights.
- "Wolf and 48th
  Grand and 47th"
- Caroline and Rugeley
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- Unfortunately, majority of drivers do not pay attention to this, but does help minimally
- Wolf and 48th
- Yes drivers see these.
- Wolf rd and courtland circle
- Again, not a lot of traffic in our village. This seems like over the top.
- 48th and wolf
- 47th and Grand. I can't express enough how scary this intersection is and the amount of kids from Forest Hills who cross to go to Middle School as well as people going to the train.

19. Wayfinding Decision Signage: Wayfinding signage helps cyclists and pedestrians navigate to key destinations along preferred routes. Signage should provide distance, destination, and directional information. [285 answered; 103 skipped]

- 1 - We don't need these. [81]
- 2 [26]
- 3 - Neutral [111]
- 4 [27]

- 5 - These are a great fit for us! [40]

20. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- 47th and Grand is a very dangerous intersection! We have had way to many accidents involving serious injury to pedestrians and drivers. There are 4 lanes of trafiic that can turn in all directions the local North- South traffic is at a residential speed and those on 47th are traveling at a high speed not expecting the local traffic. Several of the turning options need to be restricted. Adults and kids cross to get to train and town and it is uncontrolled. Bikers/strollers just take a chance and have no crosswalk, warning signs or light to stop traffic.
- I think our area is signed sufficiently.
- Most folks in area already know where landmarks are. These are better for tourist destinations
- Inexpensive, should be installed frequently.
- "We don't need these
  Our village is small and we have very few key destinations
  Seems excessive and not a good source of our financial resources
  We should also keep in mind that our village is beautiful with all the trees. We don't need so much signage put up that ruins that look and feel"
- Yes! Love these.
- This would be great for ppl commit g via bike or walking to the train
- More confusing signage.
- Too small of a village, don’t need
- This just invites more non-residents/outsiders to litter and loiter in our parks.
- Too many signs already.
- Not needed.
- There are already too many signs. People use GPS and their phones to navigate.
- Overkill. Everyone carries a phone with a map application that works fine.
- people usually just map it on their phones now...
- Another useless sign.
- Safe bike route signs would be great.
- I think these go mostly unnoticed.
- Already have
- Nothing to do with getting safely to school

21. Bicycle Crosswalks: Bicycle crosswalks are placed next to pedestrian crosswalks where trails, paths, and protected bike lanes intersect streets. They can be highlighted in green to increase visibility. [284 answered; 104 skipped]

- 1 - We don't need these. [68]
- 2 [29]
- 3 - Neutral [79]
- 4 [44]
- 5 - These are a great fit for us! [64]

22. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- Bicyclists often do not obey traffic rules
- In the downtown and near Springrock Park these might be useful.
- "55th and Laurel
  55th and Willow Springs RD"
- We do not have enough people traveling by foot and bike to necessitate this.

- Good idea to keep bicyclists in separate lane, to avoid colliding with pedestrians crossing in the same intersection.
- Confusing for drivers and not used often enough by youth cyclists.
- One thing I really love about western springs is that small children (like my five-year-old) can slowly ride their bikes on sidewalks. I am worried that a bike lane might change this community norm.
- Roads around Laidlaw are not big enough to accommodate these.
- Bike lanes are still unsafe for children. Cars don’t respect enough.
- Bike lane would be helpful on Hillgrove (particularly near the WS pool and under rail passage to Spring Rock Park) in Western Springs and on Hillgrove in LaGrange.
- "These would be great at the main intersections
  Gilbert - at Hillgrove and Burlington, 47th Street
  Wolf - at Hillgrove and Burlington, 47th Street"
- We don't have bike lanes on roads
- In high traffic areas this would help.
- Totally unnecessary.
- Might be abused by e-bikes
- Spring Rock Park
- Along Hilgrove and Burlington, these would be nice as there are large adult bike groups that deserve space and to eliminate them blocking traffic
- This might help bicyclists stay safe from aggressive drivers.
- good idea but cyclist can just walk bikes across the crosswalk
- NO!!!! Bikers go where ever they want to, including right down the sidewalk in downtown Western Springs. There are signs now and they are totally ignored.
- I am all for safer, bike routes, but I don’t see an application at this time.
- not enough traffic to make it necessary?
- Either install bike paths or don't. These will just confuse bikers and drivers.
- there are enough crossings. I don't think this is an issue tbh
- We don’t even have protected bike lanes…
- Speeding electric bikes and scooters cause trouble.
- I don't think we have the bike/ pedestrian volume to require this separation.
- I don't think the bike and pedestrian traffic is a problem for school children.
- I’d prefer sidewalks first
- School zone with reduced speed limits being installed across Lyons Township High School South Campus Bennett Field on 47th Street.
- I don’t think our streets are wide enough
- Possibly by Odgen Ave and Forest Preserve, but think this is already going in.
- "This by itself will do very little. However, if combined with speed bumps, signage that reads ""cars must stop"", and flashing lights - that would likely help a lot.

  Key dangerous bicycle crossings:

  - Wolf Road (north of Ogden) - between the two forest preserves
  - 31st Street (and Edgewood Ave) - between the two forest preserves
  - 25th Street (and the Salt Creek Trail Path) - between the two forest preserves
  - 17th Avenue (and the Salt Creek Trail Path) - between the two forest preserves
  - Burlington Avenue (and Clausen Ave) - flashing lights are insufficient to slow down traffic
  - Hillgrove Avenue (and Clausen Ave) - flashing lights are insufficient to slow down traffic"

- Any bike lanes going towards the high school campuses on the major roads they are on are absolutely essential for safe biking, there can be narrow lanes even on one lane each for a two way street if the middle turning lane can be narrowed a little bit.
- Cyclists don't obey any rules of the road anyway

23. Mini Traffic Circles: Mini traffic circles direct users through intersections in a predictable manner. They can calm traffic on residential streets and are most effective when grouped in a series of three. [284 answered; 104 skipped]

- 1 - We don't need these. [134]
- 2 [25]
- 3 - Neutral [70]
- 4 [21]
- 5 - These are a great fit for us! [34]

24. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- big fan of these
- DO NOT LIKE THESE!!!
- I've driven in towns that have these and they only cause confusion.
- We don't have the space to accommodate circles as far as I can tell.
- Too much work
- I wish we had more of these everywhere in western springs. On wolf road at 53rd st would be great to slow traffic on wolf
- All along the non 4 way stops in Forest Hills
- Everyone may not automatically follow the procedure, and it would be a good idea to teach children about mini traffic circles, if used.
- Proven to reduce traffic accidents.
- These are incredibly confusing and stressful.
- 1) Laidlaw Elementary School and also 2) Central Ave and Burlington Ave to keep traffic flow to spring rock
- Roads around Laidlaw are not big enough to accommodate these.
- Franklin Ave has few stop signs would prefer to slow cars down with 4 way stop sign but this would be an reasonable way to slow traffic a bit, but would prefer 4 way stop sign
- Not sure where these would go in Western Springs, but I love a good traffic circle.
- "Seems excessive and not a good source of our financial resources
  Our village is small and there is no need for these"
- If you add these please remove stop signs at those locations. We hardly have space as it is. I don't see how these would be a benefit.
- People have been using Harvey and linden to beat the train. They come FLYING through the neighborhood and don't live in the area. They constantly blow stop signs.
- I am concerned about the intersection of Johnson Avenue & 45th street. There is no 4 way stop sign at this intersection and many kids walk through this intersection on their way to McClure or on their way to LT. People fly through this intersection and there is only a 2 way stop sign at this intersection, there needs to be a 4 way stop. Over the past years I have noticed people using both Johnson and Franklin to bypass north bound traffic waiting at the train on Wolf Rd and the traffic on both of these streets has increased dramatically. Please consider evaluating this intersection.
- These would need to be VERY specific in targeted intersections... I can't think of one in WS that would benefit... I like these, but not sure how applicable in our town. Also, we're tight on street width and intersection size.
- I hate these.

- Again, these are in the city. New on the west side and they are awful. Anyone with an SUV jumps the curb. People cut people off on them all the time.
- More confusion these days circles.
- Circles are confusing
- Do not like, they get run over all the time.
- I would LOVE to see these on Oak and/or Central where people fly bc there are mostly two-way stops..
- Americans are not good with traffic circles :(
- Let's just enforce our current village speed limits
- Yes, I see police pull people over everyday in front of the timber trails community. Speeders should be the number 1 target for eliminating unsafe driving.
- These work so well in other communities
- NO!!!
- I think roundabouts are an excellent traffic solution, but have not seen these smaller versions, and do not know where they would be applied in our village.
- OMG. Really? Have you seen that these are MORE effective for safety of walkers/bikers? They are NOT. Nor does it increase traffic flow. A stupid idea.
- the intersections are not big enough for this anywhere in town that I can think of and these would be extremely expensive.
- Where? Why?
- Might be a good idea on a 'road' designed as bike artery to school.
- When I am a pedestrian, a traffic circle makes me feel less safe, since a driver to my left typically never looks to their right and there is always oncoming traffic to my left.
- Our intersections are not big enough for these to work. Too much involved to expand an existing intersection.
- These are great and serve a great purpose, however, village does not have enough traffic to require this.
- These take a lot of room and I can't think of intersections where they can be implemented. However, if there are large intersections where these types of traffic circles can fit while also preserving the other safety implementations like speed bumps, well-marked crosswalks, flashing lights, etc. then sure!
- Can this fix wolf road? Most dangerous intersection by far.

25. Reduced Corner Radii: The curve size of a corner, or curb radius, is based on the length of a crosswalk and the speed of turning traffic. Reducing curb radii creates a shorter crossing distance for pedestrians and encourage drivers to slow down when making right turns. [277 answered; 111 skipped]

- 1 - We don't need these. [59]
- 2 [17]
- 3 - Neutral [129]
- 4 [36]
- 5 - These are a great fit for us! [36]

26. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- Some corner curbs stick out too far. Southwest corner of Burlington and Lawn is one. Southeast corner of Burlington and grand is another
- 47th and Wolf
- These seem confusing
- At corner of 51st and Fair Elms there is NO stop sign for one of the streets at the school. It is insane and dangerous as kids cross all the time and its an accident waiting to

happen!
- This could help, because kids tend to think that drivers will see them trying to cross, and that is not always the case, depending on other obstacles, such as trees, bushes, fences. It could keep them from getting hit, since the driver would be a little farther from the curb.
- Not clear about the usage.
- 55th and grand in front of fire station
- Again, anything to slow down drivers is a plus.
- "I don't think this is needed anywhere
  Seems unnecessary and not a good source of our financial resources"
- This would be perfect for our area. Again, 42nd and Harvey.
- We can spend our money more wisely elsewhere.
- More confusion.
- Never seen before, may marginally improve things
- Not sure I understand this
- Not needed for any of the streets surround the school
- NO!!!!
- This graphic makes no sense to me. It seems to be implying an increased corner radius, thereby giving more space to the pedestrians. Slowing drivers down on right turns in some areas is a good idea.
- Downtown
- "Wolf and 51st. So many vehicles turn right, northbound, onto Wolf from 51st when pedestrians (school kids) are trying to cross and have the signal.
  Right handed turns westbound onto 47th from Central."
- not worth redoing corners for but may be nice moving forward?
- It's hard enough as a driver to see these curbs now. Ruined a few tires in downtown WS. Don't bother. Maybe instead, offer commuter safety classes in each school. That might actually make a difference. Make it mandatory for kids at school.
- Enforce speed limits. No electric scooters or bikes under age 16. They must have driver education and follow rules of the road.
- Not enough pedestrian volume
- I don't understand the diagram?
- I am not familiar with this enough to comment.

27. Raised Crosswalks: Raised crosswalks bring the level of the roadway to that of the sidewalk (e.g., roadway flush with the height of the curb). These crosswalks force vehicles to slow down before passing over the crosswalk while also increasing the visibility of pedestrians or bicyclists. [274 answered; 114 skipped]

- 1 - We don't need these. [51]
- 2 [25]
- 3 - Neutral [53]
- 4 [56]
- 5 - These are a great fit for us! [89]

28. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- Need one at Burlington to spring rock, hillgrove @ clausen and potentially Gilbert @ cossit
- The crossing downtown like thosakes sense. I would be for others in areas that are similar.
- I've liked the introduction of these in the downtown area and do believe they help slow

traffic and increase pedestrian visibility.
- I think it would be better to have speed bumps right before the stop signs around schools. Too many drivers ignore stop signs. This will help slow traffic down around schools. Hampton and Maple is the worst as it provides a main road to town for people exiting 294.
- Good for downtown and possible near schools.
- This could help at key crossings at school but not necessary
- Would love some of these and warning tracks along Wolf road and 47th St where drivers speed too often
- Grand and 47th. Also at all the "double blocks" in Forest Hills - especially on Grand and Lawn at 5000 and 5200 where cars speed coming to/from 55th on those double blocks.
- These are needed, especially in the downtown area. I am glad that one was installed on Burlington between Wolf and Lawn and think more of them should be installed. There is no reason for people to drive fast in the business district, and these raised crosswalks would slow drivers down. They could also be useful on streets that flow into downtown, as they are used more than streets that don't directly connect.
- 55th and grand in front of fire station
- Great on the way to/from Laidlaw and Grand Avenue Preschool. Also makes navigating a stroller easier.
- On Hillgrove Ave and Lawn; on Hillgrove and Burlington at all intersections
- Would be ok if lots of these were added throughout field park to slow down drivers
- This would be great on Wolf and Burlington
- Central and Oak St in Western Springs needs more visibility. there is no stop sign on Central here and students crossing Central on Oak st. are at risk.
- "At busy intersections
  Wolf at Hillgrove, Burlington, 47th Street
  Gilbert at Hillgrove, Burlington, 47th Street
  Central and Burlington"
- How about you fix the ancient water pipes under the roads and then resurface the roads before you add more pavement on our streets that will just get ripped out for repairs anyway.
- Could be beneficial on crosswalks in town or near schools
- Again, not very cost effective.
- This will physically slow down the car
- I would love to see this near the curve at 48th and Howard.
- Might be nice for crosswalks directly crossing onto school grounds
- Incessant. Trip hazards.
- Needed at Hillgrove and Lawn
- Seems like a good idea
- These could be great outside of the schools
- This would help people at least start to slow down
- Many drivers rush to avoid or get to commuter trains in our downtown. As a result, cars often rush through intersections in the downtown area. We must do something to slow vehicle speed in these highly residential areas.
- Maple and garden
- Slows down traffic!
- When I moved into Forest Hills 40+ years ago, the speed limits were routinely enforced.
- forcing cars to slow down is very helpful.
- We have them in downtown WS and no one is slowing down. They are not needed and a

waste of money. It will be interesting how long the ones in WS last after the snow plow digs into them
- "Good idea in some areas to get cars to slow down. Guessing drivers will complain - would be interesting to know reaction to the new one in downtown.
  I think this would be a good partial solution for the poorly designed train underpass at Spring Rock park."
- We need this at Wolf and Lawn to get across to LT/SJC. We need this at 47th and Grand Ave.
- 51st/Lawn
- 51st at Wolf and at Lawn
- Burlington and Clausen
- not worth redoing crosswalks for but maybe as we move forward do them thusly?
- I mean, this is pie in the sky stuff but this is the dream right? haha. It makes it possible for the flow of traffic to continue with pedestrians being protected. This encourages movement and physical activity. It shows what the community prioritizes and this promotes health, wellness, and community.
- No. Once again, look at downtown WS. These were installed on Hillgrove. What a nuisance for drivers. Now we have fewer places to park, a ridiculously high raised crosswalk and yes, you force cars to go slow, but was speeding in downtown WS really an issue? Where are the police? Wrong place, slows traffic and makes it dangerous for cars.
- these would be great but I can't think of many use cases. any of the crossings that are not on a Stop sign. there are not many, the only ones I can think of are at the village green and outside Laidlaw to Laidlaw Park.
- These would be great on Wolf Road.
- Certain routes to school these would be great!
- Will generate too much car noise for houses
- Right at the school might be best location - not everywhere,
- "Grand and 47th
  Wolf and 48th (over to LT/SJC campus)"
- Good for inside forest hills area probably
- I don't think this would be effective enough.
- These would be very helpful along 51st Street. People use it as a cut through between Wolf & Willow Springs roads, especially during school drop-off/pickup times. Drivers ignore speed limit and crosswalks, making it dangerous for kids walking to SJC and LT South Campus.
- Village already has these downtown. Not sure they are needed in neighborhood. We have a lot of dead end streets and stop signs in town, so this may be excessive to add.
- theses would help.
- These are a fantastic idea! Moreover, we should implement more aggressive well-marked speed bumps all over town, especially on the walking paths to school, and bikes paths. Flashing lights by themselves are insufficient!
- Elm and lawn
- Would be good on Burlington and hillgrove at the Clausen Ave crossing by field park. Cars fly by here.

29. Two-stage Left Turn Box: Two-stage left turns improve the safety of bicycle left turns at signalized intersections. A cyclist crosses the road with the green light and then pulls into the marked area on the right to wait for the cross street signal to turn. Two-stage left turns reduce conflicts that result from bicyclists crossing vehicle travel lanes when turning. [269 answered; 119 skipped]

- 1 - We don't need these. [99]
- 2 [27]
- 3 - Neutral [100]
- 4 [20]
- 5 - These are a great fit for us! [23]

30. Please provide any additional comments you may have (ideal locations, considerations, etc.).

- This is confusing
- We do have bike traffic but not to the extent where this warrants investment.
- Seems confusing. Most cyclists do not follow the rules of the road as it is. And I say that as one who does.
- Sounds confusing
- These could make sense at major intersections.
- Many Cyclist don't follow the rules already can't see them utilizing this
- This is very confusing, and I'm an adult. Children wouldn't understand this causing more confusion.
- Wolf and Ogden need this for cyclist crossing Ogden. Cars turning west (right) onto Ogden from Southbound Wolf Rd are constantly encountering cyclists who are set back from the road and not visible even when crossing with the light.
- Too confusing
- This looks very confusing, but I don't have experience with it.
- This is confusing
- This seems tricky.
- Not necessary
- Maybe at the corner of hillgrove, walnut and lawn. It's a very tricky place to cross ok bike foot or even by car. Hard to see all the potential traffic and sometimes there is a lot of confusion about whose turn it is to go and when.
- So complicated!
- Out in front of Timber trails entrance on Wolf Road this would be helpful
- NO!!
- As a biker, I think this is one more item that would make car drivers complain and dislike us more. I believe I have seen this concept referred to as a Copenhagen turn and it should be taught to bikers without needing to install graphics on roadways.
- No one will obey. So why bother. Let's figure out how to improve traffic flow.
- Bicyclists never stop for stop signs anyway
- I don't think it is a good idea to ever be in front of a vehicle.
- I don't know if we have enough bike traffic to warrant this idea.
- Not a lot of stop lights in village, but may be helpful by Forest Preserve.
- These look confusing
- Wolf road yes

31. Bike Lanes: A bike lane is a portion of the road designated for bicyclists, separated from the rest of the road by a painted line. Bike lanes improve safety for cyclists by separating them from cars. [269 answered; 119 skipped]

- 1 - We don't need these. [57]
- 2 [20]
- 3 - Neutral [73]
- 4 [55]
- 5 - These are a great fit for us! [64]

32. Please provide any additional comments you may have (ideal locations,

considerations, etc.). [answered; skipped]

- Concerned about impacts to street parking in areas with bike lanes.
- 47th st w road diet
- Admittedly, I'm not sure where we have room for these? To me, it'd be most useful on 47th. Or with changes in parking allowances on streets like 41st, 42nd.
- Would be useful along Hillgrove and Burlington.
- only on main throughfares
- Would also keep bicyclists off the sidewalks.
- These could be helpful on Wolf, Burlington, Hillgrove, and Gilbert
- Would take away space for parking along the school, best for big streets like Wolf or 47th
- Signage generally doesn't work as well as physical elements like raised crosswalks, speed bumps, round a bouts, etc
- Would prefer kid bikers to stay on sidewalks or protected bike lines
- Could work well on busy roads, but the streets would probably have to be widened to accommodate both cars and bicycles.
- We need registration on e-bikes! They are disrespectful and doing wheelies all around town.
- Majority of our roads are not wide enough for this feature
- One thing I really love about western springs is that small children (like my five-year-old) can slowly ride their bikes on sidewalks. I am worried that a bike lane might change this community norm.
- Roads around Laidlaw are not big enough to accommodate these.
- Would appreciate these on roads in field park
- Hillgrove Ave in Western Springs needs.
- "On busier streets
  Wolf - Ogden to 55th Street
  Gilbert - Ogden to 55th Street
  47th Street throughout the whole village
  55th Street throughout the whole village
  THESE ARE ABSOULTELY NEEDED TO KEEP BICYCLISTS SAFE"
- This isn't Chicago.
- It would be great to have true bike lanes! But uncertain if the width of most roads could accommodate
- We have no room for this and would prefer if bicycles stayed off the road.
- On Wolf Road, 47th and 55th, would be great
- While I think these are great, I would never let my kid ride on the main streets to get to and from school.
- They wouldn't be used anyway.
- Roads don't seem wide enough for this
- Cyclists riding on the road can be a danger to vehicles and themselves, if there were designated bike lanes they could be separate making the road a lot safer.
- Along hillgrove and Burlington
- Desperately needed
- Good idea if drivers will respect them. I've seen them in Brookfield along Washington.
- If we employ bicycle lanes then we need to go back to limiting the number of cars parked on the street. Maybe landscapers need to pull into their clients' driveways.
- A bike lane is good but may only server experienced riders kids will gravitate towards riding on the sidewalks
- YES!!!

- There are no streets wide enough for cars and bikes in WS. I don't see that this is needed.
- I am generally in favor of these, but do not see areas where we can sacrifice the space for them.
- I don't think our streets are wide enough for these.
- hard to give u the parking. bike lanes have their own problems.
- One issue that impacts traffic is that the village allows these huge lawn maintenance trucks, fed ex trucks, ups, construction vehicles to park so that it is almost impossible to get down the street. Adding a bike lane will only make this worse. How about improving the parking situation to prevent these oversized trucks, et al, to park on the roads.
- Yes please!! It's not safe for bikes on any of our main roads.
- On busy streets such as 47th Street and Wolf Road.
- I like bike lanes, but do we have the space? Wolf is already crowded for a4 lane street.
- Good/bad depending on whether or not the drivers respect them.
- I'd take sidewalks over a bike lane, but the cyclists on 47th / Ogden / Wolf…always make me nervous
- Fine if our streets are wide enough
- Not a lot of busy streets in village. If adding this to ones we do have, it seems it would have a negative impact on automobile traffic.
- We could absolutely benefit from bike lanes in town at minimum to create a safe/ designated bike path/route to connect the various parts of Western Springs to the forest preserve path that starts on Wolf and Ogden.
- Any bike lanes going towards the high school campuses on the major roads they are on are absolutely essential for safe biking, there can be narrow lanes even on one lane each for a two way street if the middle turning lane can be narrowed a little bit.
- Wolf road
- Bike lanes would significantly increase safety

33. Protected Bike Lanes: A protected bike lane is a portion of the road designated for bicyclists that is separated from sidewalks and motor vehicle traffic by physical features intended to prevent encroachment, such as flexible posts, an additional lane, median, or parked cars. Protected bike lanes offer a higher level of safety and separation from cars compared to standard bike lanes, making them more effective at encouraging cycling. [269 answered; 119 skipped]

- 1 - We don't need these. [71]
- 2 [26]
- 3 - Neutral [66]
- 4 [38]
- 5 - These are a great fit for us! [68]

34. Please provide any additional comments you may have (ideal locations, considerations, etc.)

- 47th st
- Similar to previous comments, I do see these as beneficial but I don't know where we'd have space for these in our community. Maybe on Wolf? But this is most impactful on 47th where we get the large groups of cyclists.
- Best for big streets, work well in the city. not hugely necessary here
- On 55th street, wolf road, 47th
- Would be good for busy roads, but the streets would need to be widened to accommodate cars, bikes and pedestrians.
- Please ban motorized scooters/bikes from these bike paths. Either they should have a license and drive in the street or not use them. I don't want any of these extra lanes if

these will be ridden on them with our children riding pedal bikes.
- One thing I really love about western springs is that small children (like my five-year-old) can slowly ride their bikes on sidewalks. I am worried that a bike lane might change this community norm.
- On way to high school school 47th and wolf
- Roads around Laidlaw are not big enough to accommodate these.
- I wish it was feasible to put something like this on busier roads like Wolf.
- "On Wolf Road
  On Gilbert
  On 47th Street
  On 55th Street
  On all of these roads throughout the village"
- The majority of our streets aren't wide enough as it is so no need to take away more space. Not to mention the water main will probably break and the painted surface will get dug up. More money wasted - great idea!
- Very difficult to implements with the current infrastructure. The only application that I can see is for routes to McClure for students.
- People don't follow this
- Bike lanes work. I hesitate with bike lanes that are at the curb and parking is in the street. I've lived in two cities with this and have witnessed multiple accidents.
- Don't think we have enough bike traffic year round to warrant this.
- These would be the best addition to the neighborhood, linking village center and schools through bicycle lanes
- Have to encourage a safe route from ws to highlands and then from ws to north campus. Should have dedicated safe routes so all the kids can be funneled into the same route.
- This isn't Chicago. Slowing speed of drivers in town and enforcing speed limit more helpful.
- Roads not wide enough
- Throughout town? Eliminating bikes on sidewalks
- Love this idea!
- Excellent
- The only time I think this is necessary is when school gets out and all of the kids from McClure literally flood the streets on their bikes, they do not pay any attention to cars, traffic. Nothing. They ride all over the street. Having a designated place for them to ride would be good, but would they use it? They should know not to ride in the middle of the street with visible traffic coming and going yet they do it anyway.
- Our streets are too narrow and this system doesn't work very well in Chicago
- Bike lanes would be great since they are non existent in the area.
- There are no streets wide enough for cars and bikes in WS. I don't see that this is needed.
- Again, I do not see an application for these in our village.
- We need much stricter rules for the use of electric vehicles. Fifth and sixth grade students should not be allowed to operate electric vehicles that can go as high as 20 mph.
- This would be amazing! I'm nervous every time my kids are on their bikes without having sidewalks and with so many lawn trucks and parked cars to go around
- These would be great on Gilbert, Burlington, Hillgrove
- LAWD gives us this on 55th or Wolf Rd. There are so many schools in the area and with more children riding (for better or worse) electric bikes, we need to be proactive in protecting them.
- Streets are simply to narrow to support these, especially considering the oversized lawn

maintenance, et al, trucks that continually block our streets. It will be impossible to get down the street if you add even more space for a bike lane.
- No space
- This it the way to go, and the way they do it in The Netherlands.
- I'd take sidewalks over a bike lane, but the cyclists on 47th / Ogden / Wolf…always make me nervous
- Please add a stop sign at Caroline and Rugeley by SJC
- Fine if our streets are wide enough.
- WS is a small village, this is definitely over the top.
- We should absolutely create bike lanes connecting Western Springs, La Grange, and the forest preserve - that would be amazing!
- This could've saved my son from injury if this had already been in place.
- Wolf road crossing

35. What is your age group? [282 answered; 106 skipped]
- Under 20 [4]
- 20-24 [1]
- 25-34 [17]
- 35-44 [135]
- 45-54 [79]
- 55-64 [19]
- 65 and over [27]

36. How would you describe your gender identity? [283 answered; 105 skipped]
- Male [78]
- Female [190]
- Non-binary/non-conforming [3]
- Prefer not to say [14]
- Prefer to self-describe [1]

37. How many vehicles does your houshold have? [279 answered; 109 skipped]
- 1 [31]
- 2 [204]
- 3 [36]
- 4 [5]
- 5+ [3]

38. What is your connection to Western Springs? [280 answered; 108 skipped]
- I live in Western Springs [266]
- I work in Western Springs [24]
- I visit Western Springs [6]
- I go to school in Western Springs [24]
- I own a business in Western Springs [3]
- Other [3]

39. What is your household annual income? [240 answered; 148 skipped]
- Less than $25,000 [3]
- $25,000-$49,999 [0]
- $50,000-$74,999 [4]
- $75,000-$99,999 [6]
- $100,000-$149,999 [22]
- $150,000-$199,999 [29]
- Greater than $200,000 [180]

47th Street & Fair Elms Avenue, 47th St & Fair Elms Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	47th Street & Fair Elms Avenue	
4725 Fair Elms Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	No Sidewalks - Fair Elms	
4725 Fair Elms Ave, Western Springs, IL 60558, USA	I feel unsafe biking here		
4725 Fair Elms Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Fair Elms - No Sidewalks	
5741 Grand Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Bring sidewalks to Ridgewood next!	
41.815223908628425, -87.90860678115648 (4061 Hampton Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	No parking signs needed on one side of the street	Too many cars parked during school hours making it very unsafe for children biking
5312 Woodland Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	5 plots of concrete on west side	with 5 plots of concrete added. we could safely get an entire block of children to school safely. We are so close, but the gaps that remain put kids on streets that are over crowded with parked cars
5152 Central Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Kids and trucks on the street	Less than 2 blocks from an elementary school and 4 blocks from a K-8 school, kids are forced to walk in the street, competing with trucks that don't know the area. Please check this out when school gets out one day to experience the chaos and please help us if you can.
53rd St, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	narrow streets with no place for pedestrians	53rd is a heavily traveled road with no place for pedestrians to walk. Sidewalks or a one-way street with a pedestrian lane would reduce the risk of an accident and help children on this street get to school safely
53rd Street & Woodland Avenue, 53rd St & Woodland Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	53rd Street & Woodland Avenue	placing a sidewalk in front of one home at the Northeast corner of 53rd and woodland will safe access to walk to school for an entire block of students
5121 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks.	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.
5133 Lawn Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Church Parking Lot	An unholy number of cars cut through here between Lawn and Wolf.
5113 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.

LOCATION	CATEGORY	TITLE	DESCRIPTION
5129 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.
5117 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks.	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.
5109 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks	Needs sidewalks. There are no lights and no sidewalks. Unsafe for all ages.
5101 Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Needs sidewalks	Needs sidewalks
51st Street & Lawn Avenue, 51st St & Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe biking here	51st Street & Lawn Avenue	There are no sidewalks. also cars cut through the church parking lot between Lawn and Wolf.
4721 Franklin Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Need sidewalks	
Garden Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	No sidewalks	There are currently no sidewalks on Garden Avenue North of Maple St. past Sereda Park.
Garden Avenue & Maple Street, Garden Ave & Maple St, Western Springs, IL 60558, USA	I'd like to see safety improvements	Garden Avenue & Maple Street	Stop signs only for Maple St traffic, no signs on Garden Ave - pedestrians cross at the top of a hill with low visibility of cars coming from either direction (often speeding) on Garden. This is a walking/ biking route for any kids on Garden or Western to get to Laidlaw
41.814001377504376, -87.90729775461864 (4134 Forest Ave, Western Springs, IL 60558)	I use this route to get to school	There should be a sidewalk here	Why does the sidewalk on the west side of Forest abruptly end half a block from school? It should continue that way it is accessible to strollers, wheelchairs etc
41.80997546116661, -87.90691318357901 (4352 Prospect Ave, Western Springs, IL 60558)	I'd like to see safety improvements	Sidewalk suddenly ends and it's a steep incline to get to the street	Sidewalk suddenly ends and there's no ramp or driveways nearby to allow you to safely get down to the street with a stroller or wheelchair
4397 Prospect Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Need contiguous sidewalk on east and west sides of prospect ave	There are breaks in the sidewalk on the east side of Prospect Ave, including total absence of a sidewalk connecting to the underpass. There absolutely needs to be a contiguous sidewalk on the East side of Prospect Ave between the underpass and Maple Ave- this is an extremely frequented walking/biking/running route since the addition of the underpass, and it is dangerous to have so many pedestrians in the street in the early mornings when pedestrian visibility is limited. Many walkers wear headlamps, but those who do not are at risk for getting hit by a car in the early morning. Also there are so many cars on that block in the Summer due to the WSSC...with so many kids riding their bikes or walking in the middle of Prospect Ave. there needs to be sidewalks on both sides of the street due to all of the pedestrian traffic related to the underpass/pool/theater/rec center
4369 Prospect Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	No sidewalks	Sidewalks needed! Kids coming and going from pool have to walk in the street and it is dangerous!

LOCATION	CATEGORY	TITLE	DESCRIPTION
41.8094260786049, -87.90620842839725 (4365 Prospect Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	No sidewalks	There is a pool here and kids frequently have to walk or bike in the street since there are no sidewalks. It is also a school walking route to Laidlaw.
619 47th St, Western Springs, IL 60558, USA	I'd like to see safety improvements	Overgrown shrubs	During the summer, overgrown shrubs make the sidewalk unusable. This forces pedestrians very close to 47th street.
5200 Fair Elms Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Fair Elms - South of 51st St - lack of sidewalks	Fair Elms leading up to Forest Hills school from the South needs to have sidewalks. Kids are walking in the street to and from school everyday.
Laurel Ave & 55th St, Lyons Township, IL 60525, USA	I'd like to see safety improvements		
45th Street & Clausen Avenue, 45th St & Clausen Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	45th Street & Clausen Avenue: adding "2-Way" signs	Adding "2-Way" signs below the stop signs would increase safety. I've seen multiple confused drivers and potential accidents. I think all of the "2-Way" intersections in Western Springs would be safer with these signs.
41.806396576907524, -87.8890180531811 (4600 Gilbert Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	Create crosswalks between La Grange and Western Springs.	Sidewalks do not line up when crossing to/from La Grange creating awkward crossings. The intersection at 47th and Gilbert also feels unsafe. Options to cross at side streets feels safer.
41.80465461825808, -87.88877323734778 (47th Street & Gilbert Avenue)	I feel unsafe walking/ rolling here	47th and Gilbert.	Area for pedestrians waiting to cross street is to close to road putting them to near busy traffic.
Clausen Ave & Hillgrove Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Busy crossing for walking to school	Many kids cross clausen to the path to field park. If cars are parked on the street near the cross, it can be hard to see. There should be a more clearly marked cross walk and parking on one side of the street in this section.
Rose Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Stop signs needed @ Rose & Oak St. due to school hour traffic rerouting	kids walking to school do not have a safe crosswalk on Oak St and Rose is the only street with sidewalks west of Hampton
Sereda Park, Hampton Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Sereda Park	we need sidewalks and a crosswalk
Sereda Park, Hampton Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Sereda Park	
4395 Prospect Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	No sidewalk	No sidewalk on this side of the underpass going up prospect is a safety hazard. Especially early in winter mornings. It is dark and many people walk their dogs in the street and cars cannot see them well in the dark if they aren't wearing reflective gear. Plus with the swimming pool many kids walk in the street here. Need sidewalks on both sides of Prospect and Reid! Due to swimming pool, rec center, theater, underpass, walking path to Laidlaw, etc

LOCATION	CATEGORY	TITLE	DESCRIPTION
41.815802049284, -87.909380202273 (1408 Oak St, Western Springs, IL 60558)	I'd like to see safety improvements	Oak St.	There are no continuous sidewalks on Oak St. Can be very busy in the mornings as many cars turn west from Hampton because of the one way on Hampton during drop off hours.
41.817185362678934, -87.90867209907444 (3940 Hampton Ave, Western Springs, IL 60558)	I'd like to see safety improvements	Sereda Park	There should be a crosswalk here.
4700 Fair Elms Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	It is unsafe to get to school due to no sidewalks	
47th Street & Grand Avenue, 47th St & Grand Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	47th Street & Grand Avenue	A pedestrian overpass to safely get across 47th street to get to park, shopping in downtown western springs and metra
5150 Central Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Central from 53rd to 51st is really bad	"should really be a sidewalk between these two streets. I would encourage you to visit this area and walk it yourself during school commute hours. Between the construction and yard services it is a really bad situation. Cars can barely squeeze down the road and the kids on bikes have to pop in and out. You really only need to put sidewalks in front of 4 hours to greatly improve the safety and walkability. Again, I encourage you to make the walk. I've walked my son to school down central for 4 years and have seen a lot of close calls. I am surprised that someone hasn't been hit yet."
Chestnut Street & Lawn Avenue, Chestnut St & Lawn Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Chestnut Street & Lawn Avenue	
41.79093474565756, -87.90427185772138 (5413 Central Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	No Sidewalk East or West Side of the Street	
41.79240031175226, -87.90435956048336 (5324 Central Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	No sidewalk on the West Side of the street	
41.79432266410968, -87.90445765269847 (5220 Central Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	No Sidewalk East or West side of the street	
53rd Street & Central Avenue, 53rd St & Central Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	53rd Street & Central Avenue	Cars often go very fast heading both east and west on 53rd, because there are only 2-way stop signs at Woodland and Fair Elms.

LOCATION	CATEGORY	TITLE	DESCRIPTION
Field Park Elementary school, 4335 Howard Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Field Park Elementary school	Cars often park in the no parking zone on 43rd Street. Cars park too close to the stop sign at 43rd and Howard. Cars stand and wait on Howard, sometimes on both sides of the 4300 block which is too narrow for this.
51st Street & Grand Avenue, 51st St & Grand Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	51st Street & Grand Avenue	
Wolf Road & Burlington Avenue, Wolf Rd & Burlington Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Wolf Road & Burlington Avenue	
Wolf Rd & Hillgrove Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Dangerous pedestrian crossing	
Prospect Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Prospect Ave between Walnut Ave and Hillgrove	Sidewalks missing along East side of Prospect
4713 Howard Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	No sidewalks. Speeding Cars cutting through.	Cars cut through here, to avoid the Wolf & 47th intersection. No sidewalks.
4717 Franklin Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	No sidewalks	Cars cut through here, to avoid the Wolf & 47th intersection. No sidewalks.
4713 Johnson Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Cars cut through here, to avoid the Wolf & 47th intersection. No sidewalks.	
Wolf Road & West 48th Street, Wolf Rd & W 48th St, Western Springs, IL 60558, USA	I'd like to see safety improvements	Wolf Road & West 48th Street	This crosswalk could use a blinking light symbol. Dangerous in mornings
Grand Avenue & 47th Street, Grand Ave & 47th St, Western Springs, IL 60558, USA	I'd like to see safety improvements	Grand Avenue & 47th Street	The most frightening crossing in WS and someone is going to get killed.
41st Street & Linden Avenue, 41st St & Linden Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	41st Street & Linden Avenue	There is no stop sign in 41st from Clausen down to Gilbert.
Maple Street & Grove Avenue, Maple St & Grove Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Maple Street & Grove Avenue	Please put a crossing guard here. This is a confusing intersection that it not at a 90 degree angle.
Maple Street & Grand Avenue, Maple St & Grand Ave, Western Springs, IL 60558, USA	I feel unsafe walking/ rolling here	Maple Street & Grand Avenue	Drivers run this stop sign!
41.814557316203064, -87.91024950995156 (4080 Rose Ave, Western Springs, IL 60558)	I feel unsafe walking/ rolling here	Maple Street Is Where the Sidewalk Ends	The sidewalk ends on the North side of Maple in the middle of the block and picks up awkwardly on the south side of maple street. Kids have to cross from one driveway to another away from an intersection where cars stop or regularly look for pedestrians. This is a few blocks from Laidlaw and along a well worn route to school and should be addressed so parents can allow their children to walk to school safely.

LOCATION	CATEGORY	TITLE	DESCRIPTION
Oak Street & Forest Avenue, Oak St & Forest Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Oak Street & Forest Avenue	There should be a 4 way stop here. It's a block from school. We've lived here for 10years and cars speed down oak every morning while kids are walking to school
4700 Gilbert Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Crossing guards before and after school	Need for crossing guards
Wolf Road & 47th Street, Wolf Rd & 47th St, Western Springs, IL 60558, USA	I'd like to see safety improvements	Wolf Road & 47th Street	Accidents all the time!
Walnut Street & Woodland Avenue, Walnut St & Woodland Ave, Western Springs, IL 60558, USA	I'd like to see safety improvements	Walnut Street & Woodland Avenue

47th St, Western Springs, IL, USA	I feel unsafe walking/ rolling here	Road Diet and safe crosswalks needed to spring rock park and LTHS	

D. POLICY TEMPLATES

Example Complete Streets Ordinance

This ordinance template is designed according to the National Complete Streets Coalition's 10-element framework, incorporating the binding language and accountability measures required for an effective policy.

AN ORDINANCE ESTABLISHING A COMPLETE STREETS POLICY FOR THE VILLAGE OF WESTERN SPRINGS

SECTION 1: COMMITMENT AND VISION

The Village of Western Springs shall develop a safe, reliable, and connected transportation network that serves all users, including people walking, biking, rolling, and using transit. This policy is motivated by a commitment to public health, economic vitality, and equity, ensuring that everyone can travel safely and affordably regardless of age or ability.

SECTION 2: PRIORITIZATION OF UNDERSERVED COMMUNITIES

The Village of Western Springs shall identify and qualitatively or quantitatively define underinvested and underserved communities. High-priority status for transportation projects must be given to these areas, including low-income neighborhoods and those with high concentrations of people of color or residents without vehicle access, to rectify historical disinvestment and higher rates of traffic fatalities.

SECTION 3: APPLICABILITY TO ALL PROJECTS AND PHASES

This policy shall apply to all transportation projects, including new construction, retrofits, and reconstructions. Furthermore, it must account for all modes during routine maintenance and ongoing operations, such as repaving and restriping. Accommodations for all users shall be maintained during construction activities that infringe on the right-of-way or sidewalks.

SECTION 4: ALLOWABLE EXCEPTIONS

Exceptions to this policy shall only be granted in specific circumstances, such as:

- Where specific users are prohibited (e.g., interstate freeways).
- Where the cost is excessively disproportionate to the probable use.
- Emergency repairs requiring immediate response.

All proposed exceptions must be made publicly available for comment prior to approval.

SECTION 5: INTERAGENCY COORDINATION

The Village of Western Springs shall coordinate with public health, housing, and planning departments to align all jurisdictional plans with the Complete Streets vision. All private development projects shall be required to comply with this policy to prevent gaps in the public network.

SECTION 6: DESIGN GUIDANCE

The Village of Western Springs hereby adopts best state-of-the-practice design guidance, including but not limited to the NACTO Urban Street Design Guide and AASHTO Pedestrian/ Bicycle Facilities Guide. Internal design manuals must be revised to prioritize the safety of vulnerable roadway users within [X] months of this ordinance's passage.

SECTION 7: PROACTIVE LAND-USE PLANNING

New or revised land-use policies and zoning ordinances shall specify how they support the Complete Streets vision. The Village of Western Springs must consider the community context and implement strategies to mitigate unintended consequences, such as involuntary displacement resulting from infrastructure improvements.

SECTION 8: MEASURING PROGRESS

The Village of Western Springs shall collect and publicly release performance measures every [X] years. Metrics must include:

- Safety data (crashes/injuries) disaggregated by race, income, and neighborhood.
- Multimodal trip counts and facility presence (sidewalk/bike lane mileage).
- Policy implementation tracking (staff training and approved exceptions).

SECTION 9: PROJECT SELECTION CRITERIA

The process for choosing transportation projects shall be modified to include specific criteria that prioritize projects completing the multimodal network or serving underserved communities,. Project scoring must embed equity to alleviate disparities in access and safety.

SECTION 10: IMPLEMENTATION AND TRAINING

A Complete Streets Oversight Committee, consisting of internal staff and external stakeholders from underrepresented communities, shall be created to oversee implementation. The Village of Western Springs shall provide mandatory workshops and training for all transportation staff and project managers to institutionalize the Complete Streets approach.

IMAGE 23: COMPLETE STREETS ELEMENTS IN WESTERN SPRINGS

Example Vision Zero Policy

WHEREAS, the life and health of all persons living and traveling within the Village of Western Springs are our utmost priority, and no one should die or be seriously injured while traveling on our village streets;

WHEREAS, Vision Zero is the concept that traffic deaths and serious injuries on our roadways are unacceptable;

WHEREAS, Vision Zero is a holistic strategy aimed at eliminating all traffic fatalities and severe injuries suffered by all road users while increasing safe, healthy, equitable mobility for all;

WHEREAS, streets and transportation systems have traditionally been designed primarily to move cars efficiently, and Vision Zero supports a paradigm shift by designing streets and transportation systems to move all people safely, including people of all ages and abilities, pedestrians, bicyclists, public transit users, scooter riders, and motorcyclists, as well as drivers and passengers of motor vehicles;

WHEREAS, Vision Zero recognizes that people will sometimes make mistakes, so the road system and related policies should be designed to ensure that those inevitable mistakes do not result in severe injuries or fatalities; therefore, transportation planners and engineers and policymakers are expected to improve the roadway environment, policies, and other related systems to lessen the severity of crashes;

WHEREAS, [number] people in the Village of Western Springs lost their lives to traffic deaths in [year/time period], and traffic crashes are among the leading cause of deaths in the United States;

WHEREAS, the Village of Western Springs' transportation infrastructure serves an increasing number of vulnerable road users such as pedestrians and bicyclists;

WHEREAS, according to the Village of Western Springs [Relevant Local Agency], pedestrians and bicyclists are involved in [percentage] percent of collisions and account for [percentage] percent of traffic deaths in the [Jurisdiction];

WHEREAS, the injury rate for pedestrians involved in crashes is approximately [percentage] percent, and the injury rate for bicyclists involved in crashes is approximately [percentage] percent;

WHEREAS, speed is recognized as a major determining factor of survival in a crash;

WHEREAS, the Village of Western Springs [is working/will work] toward reducing vehicle speeds because the likelihood of a pedestrian surviving a crash is 10 percent if hit by a vehicle moving 40 mph;

WHEREAS, children, older adults, people of color, people with disabilities, people who are unhoused, and people with low income face a significantly disproportionate risk of traffic injuries and fatalities;

WESTERN SPRINGS SAFE TRAVEL TO SCHOOL PLAN | APPENDIX

WHEREAS, people of color are disproportionately affected by racial profiling and inequitable enforcement of traffic violations;

WHEREAS, making streets safer for all people using all modes of transportation will encourage people to travel on foot, by bicycle, and by public transit, which supports a healthier, more active lifestyle and reduces environmental pollution;

WHEREAS, successful Vision Zero programs are a result of both a complete government approach (i.e., interdepartmental, coordinated initiatives) and community support of Vision Zero objectives and action plans;

WHEREAS, Vision Zero resolutions have been adopted by many jurisdictions across the United States; and

WHEREAS, the Village of Western Springs has already adopted [other pedestrian safety–related policies or programs the jurisdiction has already adopted],

NOW, THEREFORE, BE IT RESOLVED, by the [Village Board/Local Legislative Body] of the Village of Western Springs, State of Illinois, as follows:

The Village of Western Springs adopts the goal of zero traffic deaths and serious injuries, stating that no loss of life or serious injury is acceptable on our streets.

The Village of Western Springs adopts the goal of eliminating traffic deaths and serious injuries by 20__ and endorses Vision Zero as a comprehensive and holistic approach to achieving this goal.

The Village of Western Springs adopts the goal of eliminating racial profiling and inequitable enforcement of traffic violations.

The Village of Western Springs adopts the Vision Zero policy attached hereto as Exhibit A and makes it part of this Resolution, effective immediately.

The [Village/County] Clerk shall certify the adoption of this Resolution, effective immediately, by the [Village Council/Local Legislative Body].

PASSED AND ADOPTED by the [Village Board/Local Legislative Body] of the Village of Western

Springs, State of Illinois on [Date], 20[__], by the following vote: [_____].

Downers Grove's Sidewalk Policy

Sec 19.14.1 Certain Construction Activities; Sidewalk Improvements Required

a. A sidewalk permit is required for:

1. The construction of any new single-family residence or commercial building; and
2. **Any commercial remodeling or addition which amount to more than twenty-five percent (25%) of the gross floor area.**

b. The permits required by paragraph (a) hereof may be issued if one of the following requirements are met:

1. **If any street abutting the property on which such improvement or construction is to occur does not currently have an existing sidewalk the property owner shall pay a fee as set forth in Administrative Regulation entitled "User-Fee, License and Fine Schedule" equal to the cost to the Village per square foot for construction of a sidewalk abutting the property.**
2. If any street abutting the property on which such improvement or construction is to occur, is planned for sidewalk construction, or currently has a sidewalk constructed on neighboring parcels, **the Director of Public Works may allow the applicant to construct a sidewalk adjacent to the subject property in lieu of paying the fee.** Any sidewalk constructed must connect with the existing sidewalk network and shall not create any additional dead-ends or gaps in the sidewalk network.
3. In the case of a corner lot, the new sidewalk or fee paid for new sidewalk shall be for the sidewalk along the access side of the property.
4. **Any fees collected as required under the previous paragraphs (1), (2) or (3) shall be utilized by the Village for construction of sidewalks and said funds shall be deposited into the Village's Capital Projects Fund.**

c. Any person aggrieved by any decision of the Director of Public Works regarding the sidewalk fee or construction of sidewalks abutting such person's property may appeal the decision within thirty (30) days of the date thereof to the Village Manager who shall hear and decide such appeal. Application for such appeal shall be in writing. The Village Manager may either affirm the decision of the Director of Public Works, or may reverse such decision. The procedure set forth in this paragraph shall constitute the only available administrative remedy for any person aggrieved by any decision of the Director of Public Works with respect to sidewalk construction and the determination of the Village Manager on an appeal shall be the final administrative decision of the Village, from which any further appeals shall be to a court of competent jurisdiction.

Se*c 19.14.2 Sidewalk Construction; Installation In Previously Developed Areas, Requests For And Replacement Of*

a. Sidewalk installation in previously developed areas. **The Director of Public Works shall prepare and update annually a map, schedule or policy determining the streets or portions of streets on which sidewalks are required.** In addition, the Director of Public Works shall administer the requirements of this Chapter and determine the streets or portions thereof on which sidewalk construction is to be required based upon the availability of funds. **The Director of Public Works shall develop the criteria. In developing the annual map or list of streets or portions of streets on which sidewalks are to be constructed, the following factors and criteria shall be considered:**

1. **The proximity to grade (K-6) schools.**
2. **The measured average daily vehicular traffic volume (ADT) on the adjacent street.**

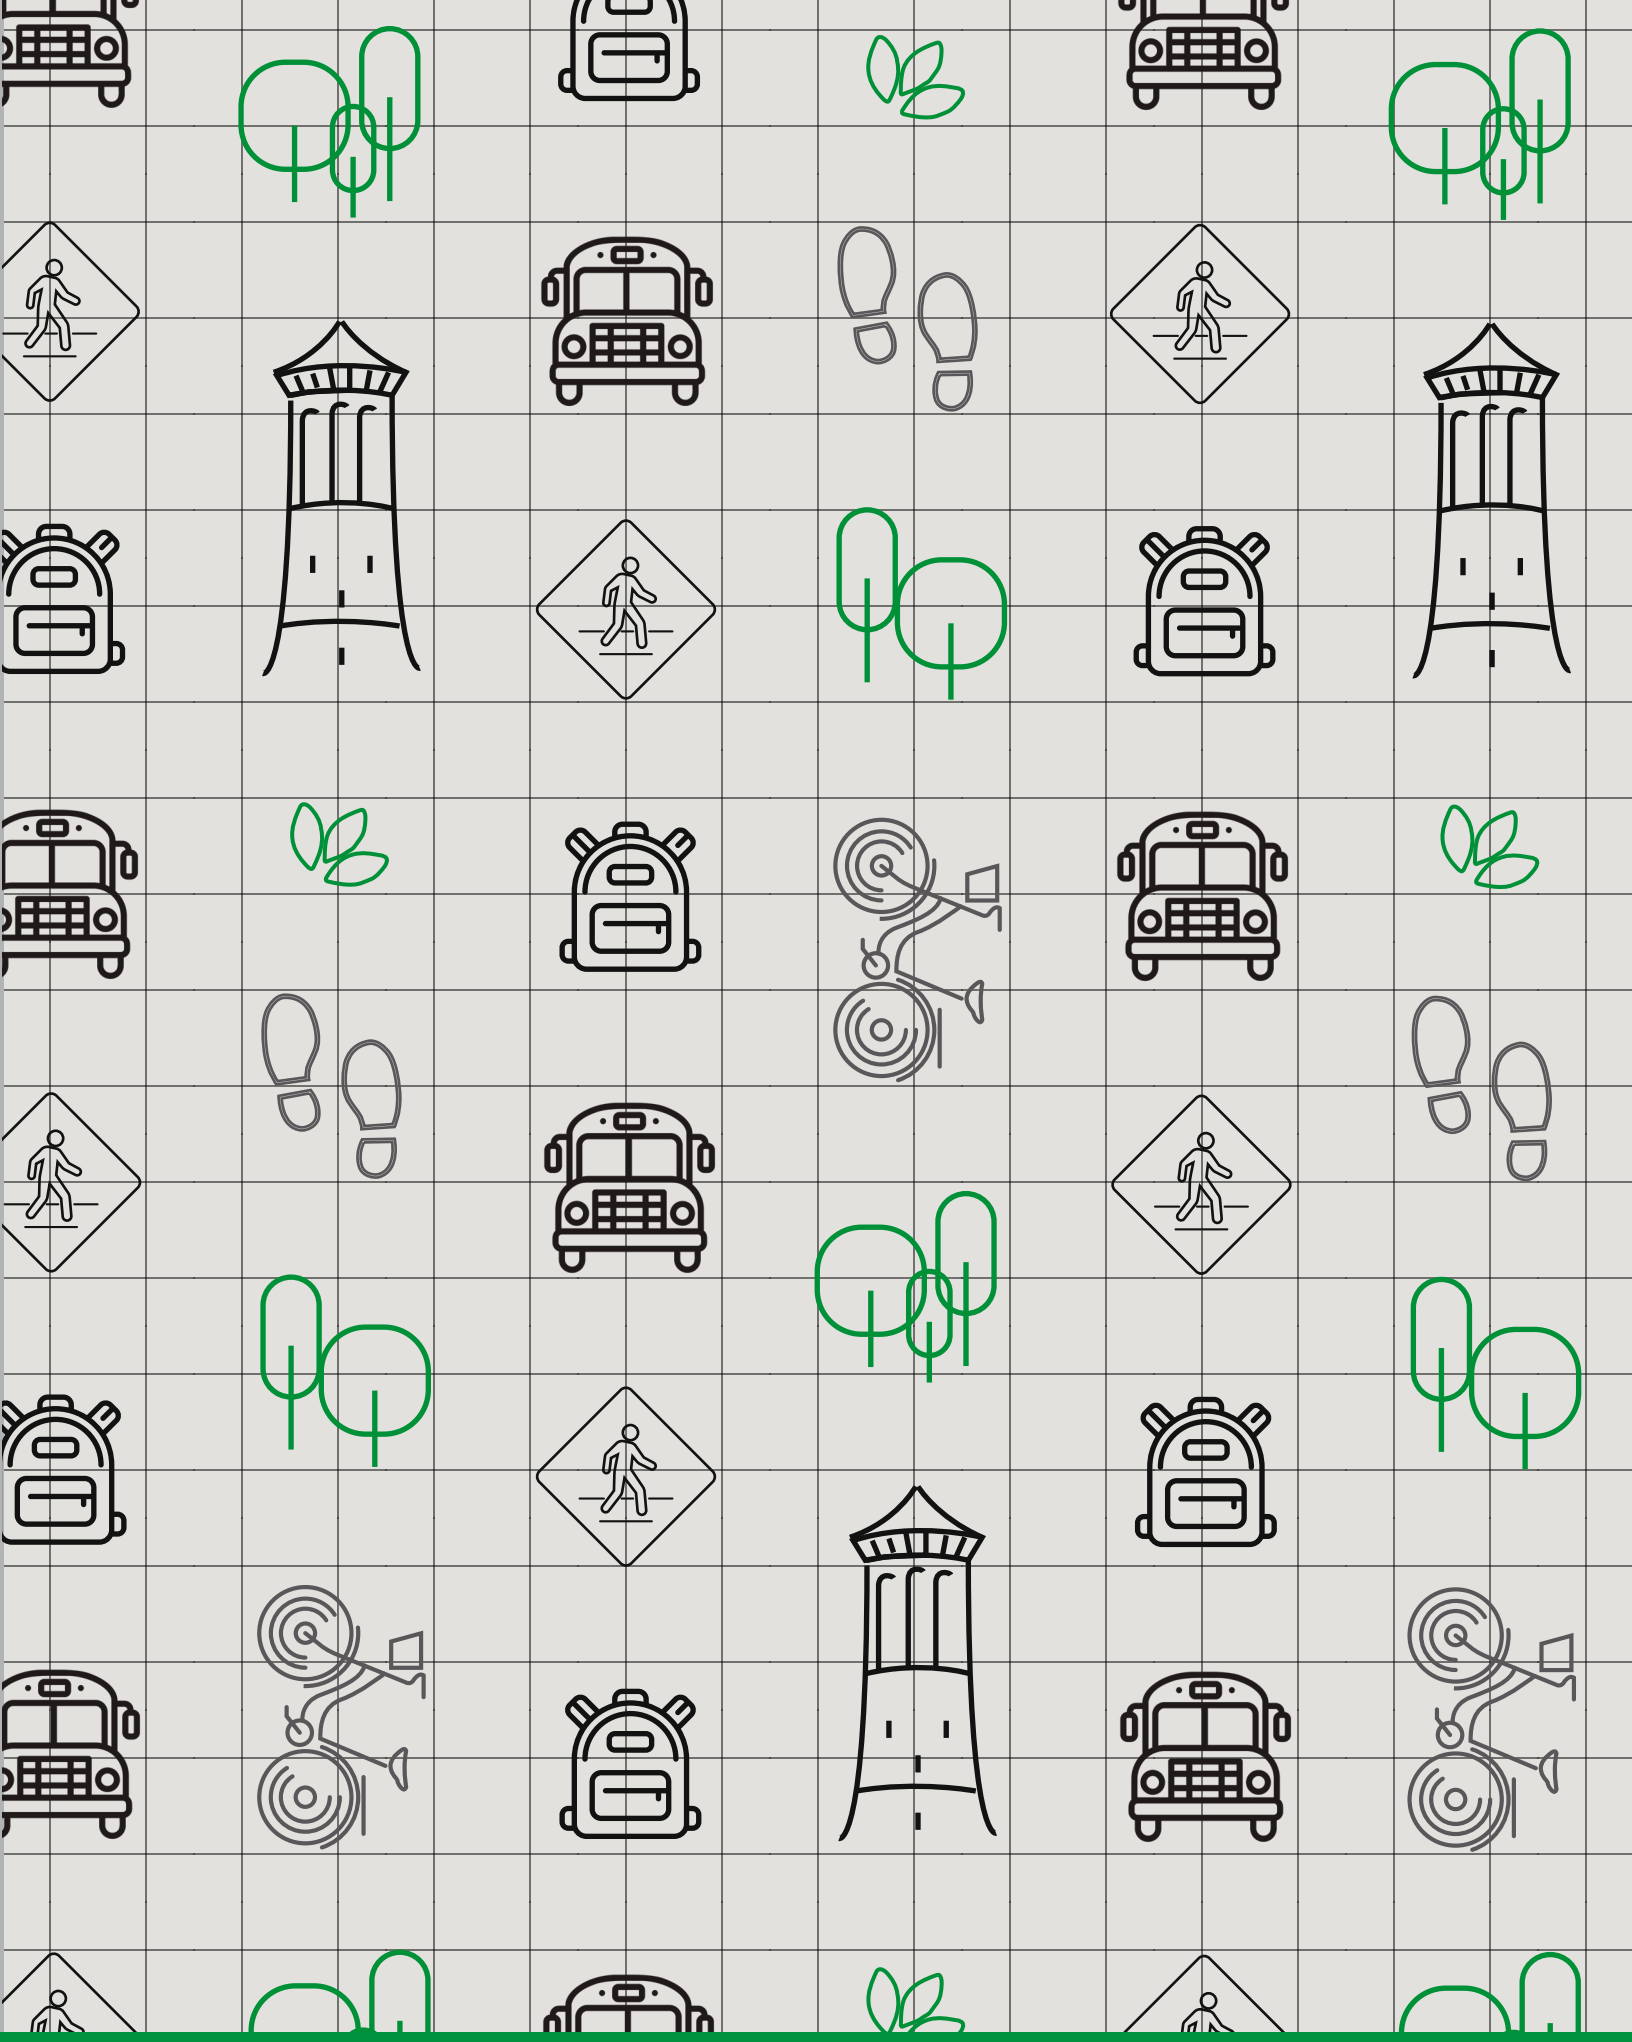

3. **The pedestrian clearance width.**
4. **The measured 85th percentile of traffic speed on the adjacent street.**
5. **The continuity of the new segment of sidewalk with the existing network of sidewalks.**
6. **The proximity of the area to significant non-park pedestrian generators.**
7. **The proximity to major and minor parks.**
8. **Any roadside sight obstructions and/or the existence of blind hills in the block limiting visibility of pedestrians on the roadway to motorists.**

b. Requests from property owners. In cases where a property owner requests installation of new sidewalk or replacement of sidewalk adjacent to his/her property other than in the order determined by the Director of Public Works, **the Village may, based on the availability of funds participate in up to one-half (1/2) of the cost of the new sidewalk,** such cost shall not exceed the maximum per square foot cost determined uniformly and annually by the Director of Public Works. Construction of new sidewalks cannot create any gaps or dead ends in the sidewalk network.

c. Replacement of existing sidewalks. **In areas where sidewalks currently exist, the replacement of hazardous or deteriorated sidewalks shall occur as funds become available in accordance with the following priorities:**

1. **In business districts.**
2. **Adjacent to railroad stations.**
3. **Adjacent to school property.**
4. **On designated school routes.**
5. **Adjacent to parks.**
6. **Along other routes extending away from schools and parks.**
7. **Along other streets upon the determination of the Village that the location or condition of the sidewalks warrants priority in replacement.**

Differences between Downers Grove's sidewalk policy and Western Springs' sidewalk policy are **bolded**.

AGENDA ITEM SUMMARY

BOARD OF TRUSTEES

Regular Meeting: January 26, 2026

AGENDA ITEM 17.A.

To: Board of Trustees
From: Heather Valone, AICP, Director of Community Development

AN ORDINANCE AUTHORIZING THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY TO BORROW FUNDS FROM THE PUBLIC WATER SUPPLY LOAN PROGRAM OF THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY FOR THE COMPLETION OF THE REPLACEMENT OF FORTY-TWO (47) RESIDENTIAL LEAD SERVICE LINES WITHIN THE VILLAGE OF WESTERN SPRINGS.

WHEREAS, the Village of Western Springs ("Village") is a non-home rule municipality, having all of the powers and authority granted to such municipalities pursuant to Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Illinois Constitution of 1970, including the right to exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, the Village operates its public water supply system (the "Waterworks System" or "System") in accordance with the constitutional and statutory authority of the Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) of the Illinois Constitution of 1970 and the applicable provisions of the Illinois Municipal (65 ILCS 5/) and the Local Government Debt Reform Act, 30 ILCS 350/; and

WHEREAS, the President and Board of Trustees of the Village have determined that it is advisable, necessary and in the best interest of the public's health, safety and welfare to improve the System by completing and/or constructing certain new public water supply facilities and constructing certain infrastructure improvements to existing public water supply facilities that are part of the Village's System including the following:

> Lead Service Line Replacement Project: Replacement of up to forty-seven (47) Residential Lead Service Lines, together with the acquisition of any land or property easement access rights in land and to make all electrical, mechanical or other utility services improvements that are necessary, useful or advisable for the construction, installation and completion of the project ("the Project"), all in accordance with the plans and specifications prepared by the Village's consulting engineers, HRGreen, Inc. This Project has a useful life of at least fifty (50) years; and

WHEREAS, the Illinois Environmental Protection Agency ("IEPA") operates a low interest loan program for municipalities and public entities to borrow funds to make certain infrastructure improvements to local water and sewer systems. Under the IEPA'S Public Water Supply Loan Program ("IEPA PWSLP"), the loan shall bear an interest rate as defined by 35 Ill. Adm. Code 662, which does not exceed the maximum rate authorized by the Bond Authorization Act, as amended, 30 ILCS 305/0.01 *et seq.*, at the time of the issuance of the loan; and

WHEREAS, the application provisions for the IEPA Loans from the IEPA PWSLP requires that the President and Board of Trustees of the Village authorize a representative to execute the IEPA Loan application forms and supporting documents for each phase of an IEPA-approved project. With the passage of Resolution No. 24-2853 on November 11, 2024, the Village President

and Board of Trustees of the Village have appointed and authorized the person holding the office of Village President to be the Village's representative for purposes of executing any IEPA Loan application forms and supporting documents under any IEPA Loan Numbers assigned to the Village's Lead Service Line Replacement Project that involves the construction of improvements to existing public water supply facilities that are part of the Village's waterworks system, specifically with regards to compliance with the Lead Service Line Replacement ("LSLR") and Notification Act; and

WHEREAS, the estimated cost of completion of the Project, including engineering, construction, equipment and material purchases, legal, financial and other related expenses is **$1,342,000** (the "Estimated Total Project Costs"). The Village does not have sufficient funds on hand and lawfully available to pay the full amount of the Estimated Total Project Costs to complete the Project; and

WHEREAS, the IEPA Loan shall bear an interest rate as defined by 35 Ill. Adm. Code 662, which does not exceed the maximum rate authorized by the Bond Authorization Act, as amended, 30 ILCS 305/0.01 et seq., at the time of the issuance of the IEPA Loan; and

WHEREAS, the principal and interest payment relative to the IEPA Loan shall be payable semi-annually, and the IEPA Loan shall mature in twenty (20) years, which is within the period of useful life of the Project; and

WHEREAS, in accordance with the provisions of the Act, the Village of Western Springs is authorized to borrow funds from the Public Water Supply Loan Program in the aggregate principal amount of **$1,342,000** to provide funds to pay the costs of the Project; and

WHEREAS, the Village shall repay the IEPA Loan from revenues of the System; and

WHEREAS, the Village commits to pay from its own funds any amounts and/or overages with regard to the actual cost to complete the Project that are in excess of the amount provided by the IEPA Loan; and

WHEREAS, the IEPA Loan to the Village of Western Springs shall be made pursuant to a Loan Agreement, including certain terms and conditions, between the Village and the Illinois Environmental Protection Agency; and

WHEREAS, the President and Board of Trustees of the Village have the authority to approve and enter into one or more IEPA Loan Agreements and to approve the expenditure of its funds generated by the System to repay the IEPA Loan(s) pursuant to its non-home rule powers and contracting authority provided by Article VII (Local Government), Section 7 (Counties And Municipalities Other Than Home Rule Units) and Section 10 (Intergovernmental Cooperation) of the Illinois Constitution of 1970, as well as the Illinois Intergovernmental Cooperation Act (5 ILCS 220/1 *et seq.*) and find and determine that obtaining an IEPA Loan(s) to fund the completion of the Project is in the best interests of the Village of Western Springs and its Waterworks System, residents, property owners, local businesses and the public.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. INCORPORATION OF PREAMBLES: The recitals contained in the above preambles are true and correct, and incorporate them by reference into this Section 1 of the Ordinance.

SECTION 2. DETERMINATION TO BORROW FUNDS: It is necessary and in the best interests of the Village of Western Springs to construct the Project in accordance with the plans and specifications as described above in this Ordinance for the public's health, safety and welfare; the System continues to be operated in accordance with the provisions of the Illinois Environmental Protection Act, 415 ILCS 5/1 *et seq.* (the "Act"); and for the purpose of constructing the Project, the Village is authorized to borrow funds in the aggregate principal amount (which can include construction period interest financed over the term of the IEPA Loan) not to exceed One Million Three Hundred Forty-two Thousand and no/100 Dollars (**$1,342,000.00**) .

SECTION 3. PUBLICATION: This Ordinance, together with a "Notice of Intent to Borrow Funds and Right to File Petition" in the statutory form (attached hereto as **Exhibit "A"**), shall be published once within ten (10) calendar days after passage of the Ordinance in Suburban Life, a newspaper published and of general circulation in the Village of Western Springs, and if no petition, signed by electors numbering ten percent (10%) or more of the registered voters in the Village of Western Springs (i.e., there are 11,054 total registered voters within the Village per the Cook County Clerk's Office, Elections Division as of January 22, 2026; 10% of those registered voters / electors equals: 1,105) asking that the question of improving the System as provided in this Ordinance and entering into one or more of Loan Agreements to fund the Project therefore be submitted to the electors of the Village of Western Springs, is filed with the Village of Western Springs Clerk within thirty (30) calendar days after the date of publication of this Ordinance and Notice, then this Ordinance shall be in full force and effect. A petition form shall be provided by the Village of Western Springs Clerk to any individual requesting one.

SECTION 4. ADDITIONAL ORDINANCES: If no petition meeting the requirements of the Act and other applicable laws is filed during the 30-day petition period, then the President and Board of Trustees of the Village may adopt additional ordinances or proceedings supplementing or amending this Ordinance, providing for entering into one or more Loan Agreements with the IEPA, prescribing all the details of the Loan Agreement(s), and providing for the collection, segregation and distribution of the revenues of the System, so long as the maximum amounts of the Loan Agreement(s) as set forth in this Ordinance is not exceeded and there is no material change in the Waterworks System Project or purposes described herein. Any additional ordinances or proceedings shall in all instances become effective in accordance with the Act or other applicable laws. This Ordinance, together with such additional ordinances or proceedings, shall constitute complete authority for entering into one or more Loan Agreements under applicable law.

However, notwithstanding the above, the Village may not adopt additional ordinances or amendments which provide for any substantive or material change in the scope and intent of this Ordinance, including but not limited to interest rate, preference or priority of any other ordinance with this Ordinance, parity of any other ordinance with this Ordinance, or otherwise alter or impair the obligation of the Village to pay the principal and interest due to the Public Water Supply Loan Program without the written consent of the IEPA.

SECTION 5. LOAN NOT AN INDEBTEDNESS OF THE VILLAGE: Repayment of the IEPA Loan(s) to the IEPA by the Village pursuant to this Ordinance is to be solely from the revenue

derived from the revenues of the System and the IEPA Loan(s) does not constitute an indebtedness of the Village within the meaning of any constitutional or statutory limitation.

SECTION 6. APPLICATION FOR LOAN: The Village President, or their designee, is authorized to make application to the IEPA for a loan through the Public Water Supply Loan Program, in accordance with the loan requirements set out in 35 Ill. Adm. Code 662.

SECTION 7. ACCEPTANCE OF LOAN AGREEMENT: The President and Board of Trustees of the Village authorize acceptance of the offer of a loan made by the IEPA through the Public Water Supply Loan Program relative to funding of the Project under any IEPA Loan Numbers assigned to the Project, including all terms and conditions of the Loan Agreement(s) as well as all special conditions contained therein and made a part thereof by reference. The President and Board of Trustees further agree that the funds of the IEPA Loan(s) awarded to the Village shall be used solely for the purposes of the Project as approved by the IEPA in accordance with the terms and conditions of the Loan Agreement(s).

SECTION 8. OUTSTANDING BONDS; RESERVE ACCOUNTS: The Village of Western Springs has outstanding bonds that are payable from revenues of the System, but the outstanding bonds are not senior to, but on parity with, the IEPA Loan(s) authorized by this Ordinance. In the event the Village of Western Springs issues senior bonds that are payable from revenues of the System, the Village of Western Springs shall establish and maintain an account, coverage, and reserves equivalent to the account(s), coverage(s) and reserve(s), as senior lien holders, in accordance with 35 Ill. Adm. Code 662.350(a)(9)(C)(PWS) as required by each of the outstanding bond ordinance(s).

SECTION 9. AUTHORIZATION OF PRESIDENT TO EXECUTE LOAN AGREEMENT: The Village President is authorized and directed to execute the Loan Agreement(s) with the Illinois Environmental Protection Agency. The President and Board of Trustees of the Village may authorize by resolution a person other than the Village President for the sole purpose of authorizing or executing any documents associated with payment requests or reimbursements from the Illinois Environmental Protection Agency in connection with the IEPA Loan(s).

SECTION 10. SEVERABILITY: If any section, paragraph, clause or provision of this Ordinance is held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this Ordinance.

SECTION 11. REPEALER: All ordinances, resolutions, orders, or parts thereof, which conflict with the provisions of this Ordinance, to the extent of such conflict, are repealed.

SECTION 12. EFFECTIVE DATE: This Ordinance shall be in full force and effect immediately upon its passage, approval and publication as required by law.

PASSED by the Board of Trustees of the Village of Western Springs, Cook County, Illinois, at a Regular Meeting thereof, held on the 26th day of January, 2026, and approved by me as President on the same day.

NOTICE OF INTENT TO BORROW FUNDS
AND RIGHT TO FILE PETITION

NOTICE IS GIVEN that, pursuant to **Ordinance Number 26-3311,** adopted on January 26, 2026, the Village of Western Springs, Cook County, Illinois (the "Village"), intends to enter into one or more Loan Agreements with the Illinois Environmental Protection Agency in an aggregate principal amount not to exceed One Millions, Three Hundred Forty-Two Thousand, and 00/100 Dollars (**$1,342,000**) and bearing annual interest at an amount not to exceed the maximum rate authorized by law at the time of execution of the Loan Agreement(s), for the purpose of paying the cost of certain improvements to the public water supply system of the Village of Western Springs consisting of the replacement of up to forty-seven (47) Residential Lead Service Lines allocated within the Village of Western Springs, together with the acquisition of any land or property easement access rights in land and to make all electrical, mechanical or other utility services improvements that are necessary, useful or advisable to the construction, installation and completion of the project. A complete copy of the Ordinance accompanies this Notice.

NOTICE IS FURTHER GIVEN that if a petition signed by 1,105 or more electors of the Village of Western Springs (being equal to ten percent (10%) of the registered voters in the Village of Western Springs), requesting that the question of improving the public water supply system and entering into the Loan Agreements is submitted to the Village of Western Springs Clerk within thirty (30) calendar days after the publication of this Notice, the question of improving the public water supply system of the Village of Western Springs as provided in the Ordinance and Loan Agreement(s) shall be submitted to the electors of the Village of Western Springs at the **next election to be held under general election law on November 3, 2026**. A petition form is available from the Office of the Village of Western Springs Clerk located at Village Hall, 740 Hillgrove Avenue, Western Springs, Illinois 60558. Phone number: 708-246-1800.

NO REFERENDUM CERTIFICATE

I, the undersigned, certify that I am the duly qualified, and acting Village Clerk of the Village of Western Springs, Cook County, Illinois, and as such officer, I am the keeper of the books, records, files and journal of proceedings of the Village of Western Springs and of the President and Board of Trustees of the Village of Western Springs.

I do further certify that Ordinance Number 26-3311, being the Ordinance entitled: AN ORDINANCE AUTHORIZING THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY TO BORROW FUNDS FROM THE PUBLIC WATER SUPPLY LOAN PROGRAM OF THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY FOR THE COMPLETION OF THE REPLACEMENT OF FORTY-SEVEN (47) RESIDENTIAL LEAD SERVICE LINES WITHIN THE VILLAGE OF WESTERN SPRINGS.

was presented to and passed by the President and Board of Trustees of the Village of Western Springs at its legally convened public meeting held on the 26th day of January, 2026 and signed by the President of the Village of Western Springs on said day.

I do further certify that the Ordinance was duly and properly published in Suburban Life a newspaper published and of general circulation within the Village of Western Springs, on the ___day of _____, 2026, being a date within ten (10) calendar days from the date of passage of the Ordinance.

I do further certify that publication of the Ordinance was accompanied by a separate publication of notice of (1) the specific number of voters required to sign the petition requesting the question of constructing improvements to the public water supply system, as provided in the Ordinance; (2) the time in which such petition must have been filed; and (3) the date of the prospective referendum.

I do further certify that I did make available and provide to any individual so requesting a petition form, which petition form provided for submission to the electors of the Village of Western Springs the question as set forth therein. Such petition forms were available from me continuously from **January _____, 2026, up to and including February ___, 2026.**

I do further certify that no Petition has been filed in my office within thirty (30) calendar days after publication of the Ordinance or as of the time of the signing hereof, as provided by statute, asking that the question of improving the public water supply system as provided in the Ordinance and the Loan Agreements therefore be submitted to the electors of the Village of Western Springs.

IN WITNESS WHEREOF I have hereunto affixed my official signature and the corporate seal of the Village of Western Springs, Cook County, Illinois, this __day of _____, 2026.

CLERK'S CERTIFICATE

I, Edward Tymick, Village Clerk of the Village of Western Springs, Cook County, Illinois, certify that the attached document is a true and correct copy of the Ordinance now on file in my office, entitled:

ORDINANCE NO. 26-2980
AN ORDINANCE AUTHORIZING THE VILLAGE OF WESTERN SPRINGS, COOK COUNTY TO BORROW FUNDS FROM THE PUBLIC WATER SUPPLY LOAN PROGRAM OF THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY FOR THE COMPLETION OF THE REPLACEMENT OF FORTY-SEVEN (47) RESIDENTIAL LEAD SERVICE LINES WITHIN THE VILLAGE OF WESTERN SPRINGS.

which was passed by a roll call vote of the Board of Trustees of the Village of Western Springs at a Regular Meeting held on the 26th day of January, 2026, at which meeting a quorum was present, and approved by the Village President of the Village of Western Springs on the 26th day of January, 2026.

I further certify that the vote on the question of the passage of the said Ordinance by the Board of Trustees of the Village of Western Springs was taken by the Ayes and Nays and recorded in the Journal of Proceedings of the Board of Trustees of the Village of Western Springs, and that the result of said vote was as follows, to-wit:

AYES:_____

NAYS:_____

ABSENT:_____

I do further certify that the original Ordinance, of which the attached is a true copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Village of Western Springs, this __ day of January, 2026.

RE: Monthly Financial Report

Attached please find the monthly report and check register for November and December 2025. The attached includes a recap of all funds, a list of cash and investments, and cash flow schedules.

Investment Activity

The investment activity is presented for December 2025. The Illinois Metropolitan Investment Fund's (IMET convenience fund) average daily yield was 3.73%. In November, the Police Pension Fund posted realized and unrealized gains of 0.77%. The Police Pension Fund posted realized and unrealized gains of 0.85% and maintained a trailing 12 month return of 17.79% at the end of December. The market value of the Police Pension portfolio is approximately $22.2 million with an additional $435 thousand in cash being on-hand at the end of December. The Federal Reserve lowered the target rate by 0.25% at their December meeting (Target range of 3.50% to 3.75%).

December Cash and Investment Summary:

Village Operating Funds:	$41,083,117
Village Trust & Agency Funds:	$23,570,946
Village Total	$64,654,063

Investment Allocation for December 2025

Category	Operating Funds	Trust & Agency
Cash (Mesirow/Chicago Trust)	$0	$435,228
Money Market (CBWS & Republic Bank)	1,848,403	89,380
Illinois Funds/CBWS	30,706,986	115,573
CD's	4,077,894	606,805
Cash (CBWS/Heartland Bank)	768,516	124,446
Equity Fund (Market Value)	0	22,199,514
IMET Convenience Fund	3,681,318	0
Total	$41,083,117	$23,570,947

Fund Activity

General Fund

Year to Date Activity

Revenue:	$13,786,390
Expenditures:	(13,507,025)
	$279,365

The General Fund ended the year with a surplus on a cash basis. There will be adjustments made in the 13th period as the statements are converted to a modified accrual basis. Sales tax collections and LGDF distributions are in-line with anticipated amounts included in the Budget. Revenue items that exceeded expectations in 2025 were Building Permits, Plan Review Fees, and Investment Income.

Annual expenditures in the General Fund have been lower than expected mostly due to position vacancies throughout the year. Expenditures were on target for the month but will be adjusted for expenditures incurred in 2025 but invoiced in 2026.

The second installment of property taxes was due on December 15, 2025. The County is still working through technological issues preventing disbursement of the funds collected for each respective agency. It is expected that disbursement of funds will start this week. To-date, the Village has received about 19% of the expected funds from the second installment and are waiting to receive approximately $3 million of funds that have been collected.

Expenditures were on target for the month.

Capital Improvement Fund

Year to Date Activity

Revenue:	$553,844
Expenditures:	(1,455,543)
	($901,699)

Expenditures incurred in December include the purchase of computer equipment, public safety equipment, building equipment, and car lease payments.

Water/Sewer Funds

Year to Date Activity

Revenue:	$5,111,713
Expenditures:	(7,551,024)
	($2,439,311)

Consumption billed in November (period covering August 15, 2025, to October 15, 2025) was 3% higher than the consumption billed in 2024 for the same period. Consumption billed in December (period covering September 15, 2025, to November 15, 2025) was 6% higher than the consumption billed in 2024 for the same period. Year-to-date consumption is approximately 6.79% higher compared to 2024.

Stormwater Utility Fee Fund

Year to Date Activity

Revenue:	$7,771,112
Expenditures:	(4,981,150)
	$2,789,962

The funds collected from the stormwater utility fee will be utilized for improvements to the Village's stormwater system. The 2025 GO (Alternate Revenue) Bond sale occurred in May 2025. The proceeds of the bonds account for $5.9 million of total revenue within the fund. Expenditures include payments for the Springdale Detention Project.

Police Pension

Year to Date Activity

Revenue:	$4,789,842
Expenditures:	(2,662,951)
	$2,126,891

The Illinois Police Officers' Pension Investment Fund (IPOPIF) consolidates police pension fund investments but reports each pension fund individually. The Fund posted realized and unrealized gains of 0.77% in November. The Fund posted realized and unrealized gains of 0.85% and maintained a trailing 12 month return of 17.79% at the end of December. The Police Pension Fund held cash in the amount of $435 thousand at the end of December, while having a market value of assets of $22.2 million.

Please refer to the attached schedules for more detail.
